Voters Favor Consolidation By Big Majority

A light turn-out was noted at the polls Saturday but voters approved the consolidation of the Mattson Rural School District No. 707 with the Haskell Independent School District by a vote of 154 for, to 2 against.

Election in Haskell was held in the community room of the Haskell National Bank where 114 votes were cast, and at the Mattson school where 42 votes were cast for consolidation and none against. At Mattson, 42 votes were cast, with 40 for consolidation, and 2 against.

Consolidation will be effective at the beginning of the 1967-68 school term.

Mattson school has excellent teachers and facilities but in a meeting held earlier in the year at that community, it was the consensus of opinion that enrollment at Mattson was getting too small to continue operation.

Cancer Crusade Moving Along On Schedule

Donations to date in the Cancer Crusade, sponsored by the Haskell Jaycees, is moving along pretty well on schedule as \$886.92 has been collected on a goal of \$3,000.00.

Only Hiale has reported from any of the outlying towns in the county. Rule has collected \$242.22 from the residential area with business donations yet to come in.

Jaycees and co-workers are busy canvassing the residential area of Haskell at this time. Some of the workers have finished and some have not yet reported. Parts of the city of Haskell are still to be worked.

According to statistics furnished by the American Cancer Society, one person in four will be affected by cancer this year. Facts such as this makes people more conscious to "dig a little deeper" for the American Cancer Society.

"We feel that with the continued support of our workers, and the continued generosity of the citizens of the county, this crusade will go over the top this year," Jesse Priest and Billie Jack Ray, co-chairmen of the Crusade, said.

Mary Circle Study Ways To Help Teen-Ager

The Mary Circle of the W.S.-C.S. met April 19th in the Fellowship Hall of the Methodist Church with 10 members and one visitor present. Mrs. Carrie Josselot opened the program with prayer.

Mrs. Laura Overton, assisted by Mabel Overton and Robbie Pitman, presented the program. They pointed out ways adults might help the teenager in their search for understanding. The pressure of education rests heavily upon their shoulder. He is ever searching, seeking, inquiring, questioning and experimenting. We must not stifle their imagination but encourage them to use it.

Let us ask ourselves the following questions: Do we listen to the teenager, realizing they are wise in many ways? Do we accept them as they are and love them for what, with the help of God, they may become? Do we try to understand their difficult task in finding out who they are and where they are going. Let us look beneath the actions of the teen-ager and find their true feelings.

Mrs. Patterson showed a film, "Double Identity." It was a story of "Doc" Pritchard, a small town family doctor, as he watched the teenager grow, develop and change. The picture attempted to help parents understand their tensions, pressures and the continuing changes. Mrs. Laura Overton closed the meeting with prayer.

Refreshments of cake and punch were served to the following members, Mrs. Carrie Josselot, Velma Jetton, Alice Maves, Lillie Medley, Laura Overton, Vada Patterson, Robbie Pitman, Christine Spenny, H. M. Stone and Ethel Thomas and one visitor, Mrs. Mabel Overton from the Paint Creek Methodist Church.

Former Haskell Couple Observe Wedding Anniv.

Mrs. C. V. Payne, Mr. and Mrs. Fred Gilliam, of Haskell, and Mrs. Ben Bagwell and Mrs. Annie Bess Cobb of Stamford were in Dimmitt, Saturday, April 15, to attend the Golden Wedding anniversary of Mr. and Mrs. W. E. Kirkpatrick.

The reception, held from 3:00 to 6:00 p. m. in the Kirkpatrick home, was open to all friends of the couple.

Mr. and Mrs. Kirkpatrick were married April 15, 1917, in Haskell. Here is the story of their wedding which appeared in the Haskell Free Press that week, written in the flowery journalistic style of that time.

A Pretty Romance Leads To A Pretty Wedding

"In the class of 1913 there was graduated from the Haskell High School a gallant young man and a charming girl who took first and second honors in the class, and who mutually excelled each other in those graces of heart and mind which make up character.

"Cupid could do no other than make the most of so favorable an opportunity, hence a pretty romance was begun, which Sunday was culminated in a pretty wedding.

"The fortunate bridegroom was W. E. Kirkpatrick, the son of our esteemed city officer, and the lovely bride was Miss Mary Elizabeth Hughes, the fifth daughter of Judge and Mrs. S. A. Hughes, our popular Justice of the Peace.

"A family reunion at the home of the latter helped to precipitate the happy event, so at Sunday noon, the infatuated friends and relatives assembled in the spacious home of the bride.

"Miss Allie Irby gave a beautiful rendering of "O Perfect Day" and Miss Ruby Fitzgerald, who was at the piano, struck up the Mendelssohn's Wedding March which was a signal for the entrance of the bridal party.

"First came Rev. William Groom, then Miss Gladys Huckabee, dressed in a beautiful gown of gold crepe de chine with picture hat, carrying pink carnations and accompanied by the best man, Arthur Hughes.

David Frierson: (Continued From Page 1)

Improving crops has been practiced. All crop residues of sorghums and small grains have been managed either as green manure crops for soil building or to leave sufficient amounts on or near the soil surface to protect the soil against the hazards of wind erosion.

David and his father both believe in sound management of grassland as evidenced by the excellent coverage and good conditions that all of the native pastures are presently in.

David has the rest of 1967 under Great Plains Contract, a year of maintenance and the construction of the remaining farm pond. During the years of the Great Plains Conservation Program, David has exhibited his knowledge of sound management of the soil and grass on his ranch, and plans to continue his program as established with added emphasis being placed on livestock production.

David is presently considering extending his Great Plains Contract to allow the establishment of a system of parallel terraces. In conjunction with Tuesday's program, Mr. Yearly showed slides of "America the Beautiful," presented by the Department of Agriculture, which showed conservation practices being carried out throughout all of the United States.

Guests, in addition to those on the program, were Calvin Frierson, of San Angelo and Jim Fouts.

Royce Wood led the singing with Lucy Kennedy at the piano. Dr. Frank Calenhead gave the invocation.

Five Rural Accidents In County In March

The Texas Highway Patrol investigated five accidents on rural highways in Haskell county during the month of March, according to Sergeant Frank Jarcik, Highway Patrol Supervisor of this area.

These crashes resulted in three persons injured, and an estimated property damage of \$2,060.00.

The rural accident summary for this county during the first three months of 1967 shows a total of ten accidents resulting in no persons killed, five persons injured and an estimated property damage of \$6,740.00.

The final entry in the 1966 Texas traffic records has been entered and closed. An all-time record high of 3,496 persons killed, 208,319 persons injured, and an estimated property loss of \$557,414,000 was sustained. This compares to the 1965 record of 3,028 persons killed, 186,962 injured, and an estimated property damage of \$498,070,000.

Since the death count of 2,254 in 1960, Texas has gained steadily each year. The Sergeant stated, "If the death rate increases during the last four years of this decade as it has during the first years, the death count will stand at 4,745 in 1970. What is the solution? Only you, Mr. Motorist, hold the answer!"

PAINT CREEK... COMMUNITY NEWS

By Mrs. Gene Overton

The community was proud of our Scouts of Troop 48 at the Scout Circus in Fair Park Stadium last Saturday night. They had eight minutes of calisthenics in the Personal Witness part of the program and they made a red, white and blue rope, and had a Tag-o-War with it after they finished it, in the Pioneering section of the program. The Master of Ceremonies called the audience's attention to Troop 48's rope-making, and they received lots of applause. Their old ropemaker had burned in the teaching fire, and Scoutmaster Wallar Overton made a new one before the circus. Their twine had burned, too, and they had to point some new binder twine so the rope would be colored.

Scouts representing the troop were Senior Patrol Leader, Mike Brazell, Dale Casselberry, Sam Powell, Rickie Brazell, Glen Casselberry and Philip Cockrell. Scoutmaster Wallar Overton took them. Parents attending were Mr. and Mrs. Buddy Brazell, Mrs. Bud Casselberry and Mrs. Gene Overton.

The teacherage at the east end of Faculty Row burned to the ground early Monday morning. I guess no one would have known it until it was all burned up, but Supt. Pat Morrison was going to Wichita Falls early that morning and when he awoke he saw the reflection of the fire. He was afraid it was Mr. and Mrs. Cockrell's home at first, but when he got outside he could see it was the last house.

He called the fire department at Haskell, but told them he thought the house was too far gone for them to save it. The fire marshal said he would come if the truck was needed, and later on Mr. Morrison did call them to come because the Brazell house was in danger of catching fire. All the asbestos shingles on the east side of the Brazell house were melted and black and windows on that side were cracked, and had the Haskell fire department not come out and kept water on it, the Brazell house might have burned, too.

The Van Morrisons had some furniture stored in the house, and the scouts had been meeting there since fall and had all their equipment there. The scouts lost their table, 14 folding chairs, their blackboard, all records, a butane bottle and a butane stove, their rope-maker, their advancement board and the "board of education" that had ever had to grab ankles. Most of their loss was sentimental things they had saved like little boys do. Harrison Mickler, Grain Company, of Stamford sent the troop \$25.00 to help replace some of their furnishings.

It is supposed that either faulty wiring or lightning started the fire. The house was wired 29 years ago when it was brought to the campus. It was the old Post Methodist Church building at one time and through the years has been the home of Brother and Mrs. Hammer when they lived out here. Coach and Mrs. J. C. O'Neal and Mr. and Mrs. Van Morrison also lived there, to name a few.

Attending the Regional Interscholastic League Literary and Track meet in Lubbock over the weekend were Mr. and Mrs. Pat Morrison and Jo, Mr. and Mrs. Ray Perry, Mr. and Mrs. James Ross Mickler and children, Jimmy Ballard, Phil Coleman, Thurmon Howeth, Steve Lavengood, Ricky Perry and Mr. Bill Gibbs.

Our mile relay team, composed of Jimmy Ballard, Phil Coleman, Steve Lavengood and Ricky Perry, won fifth, and Jimmy Ballard won 4th in high jump.

Mike Overton and Mr. and Mrs. Burt Richards, of Texas A&M, spent Friday night with Mr. and Mrs. Gene Overton and Wallar. They spent Saturday and Saturday night at Lubbock visiting Mrs. Richards' sister and returned to have dinner with the Overton's on their way back to school.

Attending the Aggie Muster at the Corral building in Haskell were Mr. and Mrs. Jimmy Griffith, Bill Griffith, Mr. and

Mrs. Gene Overton and sons, Mike and Wallar. Gene Overton was president of the Haskell, Jones, Stonewall and Kent County A&M Club and presided at the Muster. Wallar Overton was this year's Muster chairman. Dan Griffith was elected to serve as next year's Muster chairman. Haskell County had lost two former Aggies this past year, Uncle Bud Rike, class of '93, and Earl Atchison, class of '14.

Milla Perry of Texas Tech spent Sunday with her parents, Mr. and Mrs. Ray Perry and Rickie.

Mr. and Mrs. John Carlos Montgomery and children spent the weekend with their parents, Mr. and Mrs. J. Howard Montgomery and Mr. and Mrs. Woodrow Smith. They spent Sunday at the Montgomery's lake cabin.

Mr. and Mrs. Van Morrison and children spent the weekend in Granbury visiting with Mrs. Morrison's mother, who is critically ill.

Mr. and Mrs. Jess Mickler are spending this week fishing at Lake Hubbard.

Capt. Arvie Bergstrom, who is stationed in Germany, is on a 7-week vacation and is touring Asia. He has visited China, Japan, Thailand, the Philippines, has touched down in Vietnam, and wanted to visit Moscow but was not allowed to. His parents, Mr. and Mrs. Eric Bergstrom had hoped he would come to the United States on his way back to Germany, but he decided to retrace his steps and revisit some places he had been. He will be discharged from the Air Force in July.

Supt. and Mrs. Pat Morrison and Mr. and Mrs. Homer Lavengood and the 16 top students in Paint Creek High School will leave Thursday for Houston and points south. This is the honor trip given each year by the school to the top students.

HASKELL COUNTY COTTON PRODUCERS TO MEET HERE

A meeting for all Haskell County Cotton Producers will be held Thursday night, May 4, at 7:30 p. m., in the District Courtroom, courthouse, Haskell, according to Bill Griffith, Haskell County Crops Committee chairman, and R. W. Schumann, County Agricultural Agent.

The Haskell County Crops Committee has discussed the possibility of improving the county cotton situation by forming a Haskell County Cotton Improvement Association. Griffith said, "and the Crops Committee has recommended that

such an organization be formed."

Carl Cox, Director, Cotton Research Committee of Texas, will be one of the guest speakers at the meeting. Mr. Cox holds degrees from Texas Military Junior College and the University of Texas with one of his degrees in cotton marketing. He has been associated with many jobs in the cotton industry before becoming director of the Cotton Research Committee of Texas. He is a member of many organizations relative to the cotton industry.

Charles Stenholm, executive vice president of the Rolling Plains Cotton Growers Association, will also be on hand to discuss the need for cotton producers to be united in an effort to improve cotton quality in the Rolling Plains counties.

County Agent R. W. Schumann said, "This is certainly a meeting that every cotton producer in Haskell County should attend. The basis of our agricultural economy here in Haskell County rests on its cotton production and certainly every producer should strive to do everything possible to improve the price situation by raising the best quality cotton possible."

Coffee and refreshments will be furnished by many of the Haskell County girls.

 Leslie J. White, Pastor
 Paint Creek Baptist Church
 "SHOW US THE FATHER"

People may be disinterested in our preaching and unconcerned in our theology but they will set up and take notice when they see one whose life is radiantly Christian. Philip said to Jesus in John 14, "Lord, show us the Father, and it will be sufficient for us." Jesus answered Philip, "They who have seen me have seen the Father." I believe there are people all around us who are saying, "Show me Christ and I will believe." Can we say to them, "See Christ in me; in my actions, my words, my life." Are we showing those about us the Lord Jesus Christ by our works and our ways? What we are not only speaks louder than what we say, but louder than what our church and preachers say. Him themselves would glorify Him from whom have seen of Him in us?"

OUR DIVINITY WITH THE LAND
 (Soil Stewardship Week—April 30-May 7)
 By D. A. Williams, Administrator
 Soil Conservation Service

The founders of this country made its citizens the final resort for truth and wisdom. The individual holds the right to vote, the right to seek an education, the right to the pursuit of happiness, and the right to pray according to his own conscience.

Ownership of land has followed a similar tradition. Today, three-fourths of the land in the continental 48 states is under private ownership. Only about one-fourth of our land is owned by all the people and managed by the Federal Government for all the people—among them our forests and parks and refuges. These lands are part of our national heritage.

The nearly three-fourths of our land owned privately serves basic everyday needs. Here most of our food and fiber are produced, most of our wildlife is raised, most of our outdoor recreation is sought, and 73 per cent of our commercial timber is grown. Here the natural beauty of the countryside can be enhanced and enjoyed.

Good farmers who can describe the soil by its feel in their hands, smell rain in the wind, and see colors no one else can see in a crop under an open sky, truly understand the importance of these resources. But too many of us take them for granted.

Each year, Soil Stewardship Week is set aside for all of us to refresh and renew our identity with the land—the community of God and man. Without this identity and feeling of responsibility, our spiritual lives would seem futile and our conservation efforts irrational.

The soil and water resources we have inherited are ours to improve, preserve and develop—or neglect. The individuals who own nearly three-fourths of our land are the soil stewards in whose hands the decision lies. To them we owe our thanks—and our help.

GOODWILL WEEK

Goodwill Industries will receive well deserved recognition during Goodwill Week to be observed May 7-13. Without special help, handicapped people are often relegated to isolated lives confined to homes or institutions without opportunity, without work, dependent on families or taxpayers. An important answer to this problem has been found in vocational rehabilitation workshops, where handicapped people can be helped through counseling, evaluation, training, jobs and placement help. The 175 Goodwill Industries programs comprise the largest group of such workshops in the nation.

The purpose of Goodwill Week is to bring public attention to the handicapped and in areas where rehabilitation workshops operate to encourage support through donations or materials or money which make the operations possible. Local businesses and public service groups seeking ways to help the handicapped in their own communities may secure information from Goodwill Industries of America, Inc., 1913 N. Street, N. W., Washington, D. C.

In these days when the answers to so many of our social problems are being sought in multi-billion dollar federal welfare programs, it is tremendously encouraging to see the spirit of voluntary self-help still strongly at work in the land. Goodwill industries deserve the thanks, the respect, the cooperation and the support of every one of us.

40 YEARS AGO
 (April 28, 1927)
 Sageron enterprise is fast overcoming the ravages wrought by the disastrous fire last December, which so nearly wiped the business section of the town off the map. J. A. Bell has just completed a new business building which will house his meat market and cafe. J. W. Martin has the reconstruction of his brick, well underway. It is understood that Mrs. E. G. Stein will soon let the contract for a new brick building to replace the one burned in the December fire. Dorden and Engleman are clearing the debris from their lots and salvaging the undamaged bricks preparatory to building on the site of the buildings destroyed in December. By fall the business section will be rebuilt bigger and better than ever before.

Miss Marjorie Whiteker, Haskell, was managing editor of the Temple Telegram, which was edited recently by students of the Department of Journalism of Baylor College. Miss Whiteker is a senior in journalism and editor of the college weekly newspaper, the Baylor Bells.

Mr. and Mrs. W. E. Bland entertained the young folks with a party last Saturday. Games were played and they departed at a late hour thanking their hostess for such a nice time.

The following Haskell ladies are in Olney this week in attendance upon the convention of the First District, Federation of Women's Clubs: Mmes. J. U. Fields, Courtney Hunt, C. L. Lewis, John Oates, F. T. Sanders, R. R. English.

Mr. and Mrs. B. F. Cowley, Mrs. Carrie Moser and little son, R. H., spent last weekend with Dr. B. F. Cowley and wife of Christoval. They reported a wonderful time fishing on the Colorado river.

Miss Rozella Roberts attended the league meet in Abilene last week.

Mrs. B. M. Whiteker, president of the North Ward P.T.A. is in Gainesville this week, the delegate to the first District P.T.A. meeting, over which the president, Mrs. W. K. Rose, of Fort Worth, will preside.

60 YEARS AGO
 (April 27, 1907)
 Owing to the fact that some citizens think it best that the new school building be located at a distance from the present building, the school trustees are thinking of having a separate voting box in connection with the election May 4, in which voters may deposit ballots expressing their preference for the location of the new building either in the north, south, east or west part of town. That plan would relieve the trustees of responsibility and criticism in the matter of locating the building and probably would be the most satisfactory way of deciding the question.

Mr. R. C. Montgomery of the Farmers' National Bank of this place has sold his interest in the First State Bank of Sageron to Mr. W. M. Sager of Sageron.

Postal Savings Certificates Cease Earning Interest Today, Thursday

United States Postal Savings certificates totaling \$1404.00, which are on deposit at the Haskell Post Office, will cease earning interest for 13 local depositors on April 27, 1967, Postmaster Davis said today.

As of April 27th, a year ago, Postal Savings were discontinued, and no deposits were accepted by the Post Office Department. Certificates whose anniversary dates have been reached since last April 26 have earned their final interest payment, Postmaster Davis said.

On June 30, he said, all remaining funds in the program will be turned over to the Treasury Department to be held in a trust fund until liquidated. They will remain available for payment without time limitation whenever proper claims are received.

Postmaster Davis urged that all Postal Savings depositors close out their accounts and invest their funds into United States Savings Bonds or the new Freedom Shares, which on May 1, will pay a 4.74% interest.

Holdes of Postal Savings Certificates can arrange to redeem them simply by applying at the post office where the certificates were issued.

Wichita-Brazos Soil And Water District Is Self-Governing

The Wichita-Brazos Soil and Water Conservation District is one of the more than 2,900 Districts in the United States. It is a self-governing body, organized under the laws of the State of Texas. Farmers and ranchers in Knox and Haskell counties voted to organize the District in 1948 and the District received its certificate of organization in August of that year. The District was divided into five zones as shown on the District map above. The District was organized by landowners who wanted to do something about conserving the soil and water resources in their District. Their next step was to elect a landowner to represent them on the Board of Supervisors. By rotating the elections by zones, one Supervisor's term expires each year. Supervisors have accepted the positions because they recognize the seriousness of the conservation problem and the opportunity it offers for service. They receive no salary. The Supervisor's job through a District Program and Work Plan is to improve and maintain the soil and water resources in the District. The District enlists help from any source available, schools, churches, business firms, civic clubs and other organizations can render valuable assistance to the District. Each of these sources can find a specific job to do that will speed conservation by meeting with or contacting the Supervisors of the District. The Supervisors meet the fourth Friday of each month at 9:30 a. m. in the Wichita-Brazos District Building in Knox City.

District and Soil Conservation Service. As described above the Soil and Water Conservation District is a local self-governing District organized under state law. The Soil Conservation Service is an agency of the United States Department of Agriculture. SCS employees are paid with Federal funds. The SCS has a memorandum of understanding with the District whereby they agree to furnish technical assistance. In each district the SCS has assigned a service representative to work with the District. The SCS representative in the Wichita-Brazos Soil and Water Conservation District is Archie E. Lieb stationed at Knox City. Assisting the Wichita-Brazos Soil & Water Conservation District, there are two SCS offices located at Knox City and Haskell. Each office assists an assigned portion of the District. SCS personnel located at these offices assist Cooperators with the District in planning and applying needed conservation work on their farm or ranch.

Rolling Plains PCA Stockholders To Meet Saturday In Stamford

Plans are complete for the 33rd Annual Stockholders meeting of the Rolling Plains PCA, according to J. L. Hill, Jr., General Manager. The meeting will begin with registration at the high school auditorium in Stamford at 11 a. m., Saturday, with lunch being served from 11:30 to 12:45. Business session starts at 1:00 p. m. at which time reports from the Board of Directors and the Management will be heard. The term of one director, Lasater Hensley of Guthrie, expires with this meeting. Mr. Hensley was re-nominated, along with Stuart Dixon of Malador, to stand for election to this vacancy on the Board.

Chas. W. Stenholm, Executive Director of Rolling Plains Cotton Growers, Inc., will address the assembly as will Jack H. Barton, Vice President of the Intermediate Credit Bank of Houston. At the close of the session, some stocker, or the wife of a stockholder, will be awarded a Zenith color TV set as an attendance prize.

The Rolling Plains PCA is the result of merging the Memphis association with the Stamford association as of March 1, 1965. The new organization makes production loans to farmers and ranchers in 17% com-

ties in the Rolling Plains area of Texas and maintains offices in Stamford, Haskell, Spur, Anson, Munday, Memphis, Matador, Paducah and Wellington. In 1966 a total of nearly 20 million dollars was loaned in this area by the association and it now looks like that 1967 will exceed this amount by a good deal. The present loan volume of the association is more than 3 million dollars ahead of what it was two years ago, just following the merger.

C. G. Burson Sr., of Haskell is President of the Board of Directors and the other directors are: Lasater Hensley of Guthrie, Mack T. Claburn of Anson, John E. Glover of Childron and L. M. Bartlett of Wellington. J. L. Hill Jr. is general manager and J. R. Gleaton and R. C. Cobb serve as assistant managers.

Yeary Says Dry Weather Caused Big Increase Of Wind Damage To Land

Dry weather has caused a large increase in the amount of Texas land damaged by windstorms, H. N. Smith, State Conservationist for the U. S. Department of Agriculture's Soil Conservation Service, reported this week.

During January and February of 1967, almost 400,000 acres were damaged, compared to some 180,000 acres damaged during the same period a year ago. "This is an increase of more than 200,000 acres of land damaged this period," Smith said.

Cropland represents 96% of the land damaged this season. More than two million acres are in a condition to blow, compared with 1.6 million acres a year ago, according to Smith.

"Surface moisture conditions are poor to very poor. Small grains have made very little growth because of the extremely dry weather and some are dying," Smith said. "Excellent rains in August and September of 1966 gave the land deep moisture starting at about 12 inches below the surface. If we could

get a good two or three inch rain, it would change the picture greatly. If we don't get the rain, it will get progressively worse. Emergency tillage is not as effective as usual because of the dry soil."

The northern portion of the Haskell area has just recently received some beneficial rains, but the southern portion is still in need of moisture. According to J. C. Yeary, Jr., local Work Unit Conservationist for the Soil Conservation Service reported some 500 acres of land damaged during the months of January and February of 1967 compared to none damaged during the same period last year.

"Many acres more have been damaged during March and the first part of April," Yeary said. "And there doesn't seem to be too much promise at the present for the central and southern portions of the county." According to Yeary, every effort should be made during the remainder of the blow season to prevent as much land damage as possible. Precautions should be taken this cropping year to prevent such a recurring damage as resulted this year, by the use of any and all residue management practices and emergency tillage operations this

The Good Earth

By Mrs. B. F. Cobb

Dr. and Mrs. T. W. Williams' yard is divided into four sections, each section is a separate garden. As one enters the winding driveway on the right they are treated to a picture of lovely red yucca winding down the right side of the drive. This yucca borders a garden of redbud, French lilacs, buckeye and other shrubs. Dutch iris, bearded iris and other plants peep out from under the shrubs. Privet hedge makes a windbreak on the south.

The center section is a wide expanse of velvety green lawn, with a background of waxleaf ligustrum, presents a pretty picture on the south side of the house. Oxalis, with pretty pink blossoms, borders the front flower beds. Phlox, nandina, pyracantha, holly and cedar grace the front of the house, iris and cannas are tucked in among the shrubs.

Forsythia, nandina and lantana make a pretty background for an iris bed along the front of the double garage. Directly in front of the garage running the length of the winding driveway is another garden that I would call the shady retreat. A large lacy mesquite tree casts a dense shade over lantana and iris in the center of this section of garden. A redwood table and benches seem to invite one to rest. A bed of deep blue iris curves gracefully in front of mimosa, redbud and lantana. Privet hedge cuts the harsh north wind from the garden. Striped sea cane and Spanish dagger shields the garden from devastating west winds. One of the mimosa trees looks like an oriental picture so low and spreading does it grow.
