## Eighth Annual Free Flight Model Airplane Contest Slated On Sunday

The Texas Chiefs' Model Club announce their 8th Annual Free Flight Model Airplane contest to be held here Sunday, June 26, at the Municipal Landing Strip north of town.

Trophies through three places will be awarded in seven different events with a special trophy and award for the contestant garnering the most points in all events. The club expressed appreciation to the many merchants and businesses of Haskell who have helped to make this contest a reality.

Modellers from all over Texas and Oklahoma are expected to begin arriving Saturday afternoon. Flying will start Sunday at 8:00 a. m. and close at 5:00 p. m., with trophy awards to follow.

All competing fliers will be members of the Academy of Model Aeronautics who have sanctioned the meet and any outstanding flights will be eligible for National Records. If winds do not hamper the flying, there should be plenty of thermal lift to provide the impetus for someone to set a record.

Some modellers will use this contest as a preparation for the National Model Airplane Championships to be held next month, or for the trials to select a nine-man team to represent the United States at the World championships to be held in Czechoslovakia.

Spectators are invited to come out and watch the flying.

## Firemen Answer Call To Assembly Of God Church

City councilman, Jim Sampson, police and fire commissioner, is on the ball!

Wednesday afternoon of last week around 7:00 p. m., Jim noticed smoke coming from the Assembly of God Church, turned in the alarm, and firemen rushed to the scene to find an air conditioner on fire.

With the exception of burned-out switches on the air conditioner and a charred window frame, damage was light; however, if the alarm had not been sounded in time, damage to the church could have been serious.

## Fire Damages Mayfield Grocery At Weinert

Fire which broke-out in the motor room at the rear of the Mayfield Grocery at Weinert around 11:45 p. m. Wednesday night of last week, resulted in considerable fire and smoke damage.

The blaze ate its way from the rear of the building to the market, but heavy smoke filled the entire building.

Haskell and Munday firemen were summoned to the scene to assist in extinguishing the blaze.

"Weinert firemen should be given the credit of bringing the blaze under control, which could have resulted in a much more disastrous fire," Satch Lusk of the Haskell fire department said.

## Firemen Answer Call To Glenn Alsbrook Farm

Fifteen members of the Haskell Fire Department and two of their trucks rushed to the Glenn Alsbrook farm four miles north of Haskell at 4:30 p. m. Monday, when a 50'x150' building, used at one time as a chicken house, caught on fire.

The blaze broke out in the east end of the structure. Firemen brought the blaze under control in some 15 minutes, but stood by for almost an hour. About three-fourths of the building was left standing.

The Alsbrooks were not at home when the fire broke-out. Mrs. Alsbrook said the blaze must have started from a brush fire. They had been clearing some new ground and burning brush.

"We thought we had the brush fire out before we left home, but the wind must have whipped sparks onto the chicken house," Mrs. Alsbrook said.

"The Buck Turnbrows," of Weinert, who were passing the Alsbrook farm, noticed the fire and turned-in the alarm.

"We want to thank the firemen and everyone who helped to bring the blaze under control before it reached the west-end of the building which housed a cotton stripper and other farm machinery," the Alsbrooks said.

## BIG BUSINESS

In the current era, people have been educated to the idea that someone owes them damages every time they stub their toe, and the liability for simple living is becoming so great that the average person can hardly afford to pay for adequate insurance. If you give your neighbor a lift to work in your car and have an accident, he can sue you and collect exorbitant amounts. If a friend walks across your property and injures himself, he can sue you and collect. You constantly read of judgments of \$10,000, \$50,000, \$100,000 and up.

Expecting the other fellow to pay for all the risks of life has become big business. It is promoted by some of the sharpest mercenary minds who make a profession of litigating damage suits. It's time we all realize that although insurance companies may write the checks to settle outlandish damage claims, we pay the bill in ever-rising costs of essential insurance coverage.

## Natural Beauty Not Indestructible

Literally billions of dollars are being spent to enhance and preserve the beauty of the land. Gigantic recreation areas are being set aside for public use. Power lines are going underground. Wayside parks and rest areas multiply along the highways.

From an aircraft far above the ground, lakes and mountains leave an impression of an indestructible playground laced with access roads, resorts and campgrounds. But, when seen at close range, the realization comes that natural beauty is highly fragile and cannot be saved except by the cooperation of the people—and I.

If you do not believe this, take a look at the jagged beer cans alongside the highway between Haskell and Stamford, or the next time you are on the swimming beaches, take a look at the broken bottles, paper plates, etc.

Do you know what natural beauty is? If you do, you will think twice before you ever throw even a gum wrapper out of your car while driving along the highway.

#### Knox County Vegetable Festival

Friday-Saturday

The Knox County Vegetable Festival, Friday and Saturday, is going to be bigger and better than ever this year, and one of the reasons is the introduction of an area-wide variety show on Saturday evening, June 25, at 8:00 p. m., which will serve as a grand climax to the entire festival. Under the direction of entertainment chairman Varney Moore and variety show coordinator Mrs. Delbert Montgomery, this gala two-hour production will feature the best in variety from seven surrounding communities and Munday.

#### SUNDAY VISITORS

Mr. and Mrs. James Martin, of Corpus Christi, niece and nephew of Mrs. J. U. Fields, visited here Sunday.

### The Good Earth

by Mrs. B. F. Cobb

Several have called me about crepe myrtle foliage yellowing and shrubs dying. A deficiency of iron, nitrogen or magnesium will cause chlorosis (yellowing of leaves). The lack of iron is shown by yellow leaves with green veins. The lack of nitrogen is detected by yellowing foliage spattered with brown spots.

Magnesium is important in producing chlorophyll in plants. It is also essential in helping plants to utilize nitrogen, phosphorus and sulphur. Magnesium deficiency causes leaves on the lower part of the plant to turn yellow first. The yellowing starts on the outer edge of the leaf and works to the center, the veins are the last to fade. The color turns to orange and brown in the later stages, after which the leaf usually curls up and dies. Magnesium deficiency seldom shows up until a plant begins to form seed. Little of this mineral is needed until the seed begin to form.

If a plant is low in nitrogen the application of fish meal, raw bone meal, cotton seed meal or humus will soon restore the plant to its natural color.

Humus is well rotted compost. After it is broken down into deep, dark soil. There are organic fertilizers, high in nitrogen, on the market, too.

Soil analysis might help solve the problem of chlorosis that seems to plague most every gardener in Haskell, one way or another. This we do know, an application of rich humus cannot hurt and might correct chlorosis. Those who are constantly adding humus to their soil have fewer plant diseases than those who do not.

If cucumbers are pointed at the end, the soil is low in nitrogen. If a cucumber is narrow at the stem and large at the blossom end, the soil is deficient in potassium.

When tomato leaves begin to pale and turn yellow away from the center veins and dead spots appear in the yellow area, the plants are low in manganese. Spinach will also turn bright yellow when it lacks manganese. It is generally believed that a good application of well decomposed compost will just about right any soil deficiencies.

In transplanting, an application of Rapid-Gro to the foliage helps the plants get a head-start in growth.

If house plants seem listless and droopy, a thorough saturation of the foliage and stems with Rapid-Gro will give them a new lease on life.

Our ivies were sick after a

winter of open gas stoves. I thoroughly soaked the leaves and stems with Rapid-Gro; in a week the foliage was dark green and luxuriant. In two weeks, new leaves were forming and the plants began to grow like weeds.

It is funny how a little green powder, added to water, can give new life to plants so fast.

Rapid-Gro is also good for outdoor plants. Any good foliage food gives the plants a quick boost and starts new growth

faster than ground application of plant food does.

### Those Knacky Bare Devils

Are you ready for the "darling look" this summer? All you need is the knack. The knackiest colors ever are on hand to help you merge two worlds: shining bare devil shades for the lips and the shapely, nude controlled look for the body.

We all know how much the in toto glamour look counts. Everything has to mesh. That doesn't mean that many of us will go about wearing those dresses with cutouts in the wrong places. Paris creates; New York adapts. Here, in these United States, the cutouts will be in the right places; there will be a slip or a lining beneath.

But the knacky look is there, all right. Fabulous, body-free dressings in the modern, the right wavelength. Diamond shape cutouts, square cutouts, halter necks.

Making eyes at men are big plastic-rimmed sunglasses, fantastic frames with clip-on gold eyelashes. Earrings, bracelets and pins with that shiny vinyl look . . . why not?

On the lips? Pale-dipped shades, five fabulous colorings from Cutex, Bare Devils in keeping with the nude look of fashion. Five smashing shades plus a new lip gloss to give your mouth that

moist, shiny, young look. Why wear just one lipstick shade when two can do more for you? And three can do the most? Two shades on your lips to get just the perfect tone for your skin, a third shade to outline. Kooky? You bet. And dazzling, too.

If you've never seen what a pale beige lipstick can do with a barely golden tan, now's the time to try. For the cooked look is gone and in its place, we have skin just tinted by the sun. Great for cutouts, black-and-white. With it, Break Away Beige Lipstick with just a blending touch of Wide Open Coral.

For a bright look, what about Slic Chic Pink worn over Solo Honey? With this, a see-through raincoat, cloche and transparent boots topping a white dress. You'll turn heads on the gloomiest days.

Bare Devils and fashion's nude look! What a knacky pair for spring into summer!

**VIII. DAILY CHRISTIAN LIFE**

We believe that having been cleansed by the precious blood of Jesus Christ and having received the witness of the Holy Spirit at conversion, it is the will of God that we be sanctified daily and become partakers of His holiness; growing constantly stronger in faith, power, prayer, love and service, first as babies desiring the sincere milk of the Word; then as dear children walking humbly, seeking diligently the hidden life, where self decreases and Christ increases; then as strong men having on the whole armour of God marching forth to new conquests in His name beneath His blood-stained banner, ever living a patient, sober, unselfish, godly life that will be a true reflection of the Christ within.

**Scripture Reference Where Taught**

<sup>1</sup>For this is the will of God, even your sanctification, I Thess. 4:3; And the very God of peace sanctify you wholly; and I pray God your whole spirit and soul and body be preserved blameless unto the coming of our Lord Jesus Christ, I Thess. 5:23.

<sup>2</sup>Having therefore these promises, dearly beloved, let us cleanse ourselves from all filthiness of the flesh and spirit, perfecting holiness in the fear of God, II Cor. 7:1.

<sup>3</sup>The path of the just is as the shining light that shineth more and more unto the perfect day, Prov. 4:18.

<sup>4</sup>Therefore, leaving the principles of the doctrine of Christ, let us go on unto perfection, Heb. 6:1.

<sup>5</sup>For they are after the flesh do mind the things of the flesh; but they that are after the Spirit, the things of the Spirit, Rom. 8:5.

<sup>6</sup>An highway shall be there, and a way, and it shall be called the way of holiness; the unclean shall not pass over it; but it shall be for those, the wayfaring men, though fools, shall not err therein, Isa. 35:8. (Also I Peter 2:2.)

**IX. BAPTISM AND THE LORD'S SUPPER**

We believe that water baptism in the name of the Father and of the Son and of the Holy Ghost, according to the command of our Lord, is a blessed outward sign of an inward work; a beautiful and solemn emblem reminding us that even as our Lord died upon the cross of Calvary so we reckon ourselves now dead indeed unto sin, and the old nature nailed to the tree with Him; and that even as He was taken down from the tree and buried, so we are buried with Him by baptism into death; that like as Christ was raised up from the dead by the glory of the Father, even so we should walk in newness of life.

We believe in the commemoration and observing of the Lord's Supper by the sacred use of the broken bread, a precious type of the Bread of Life even Jesus Christ, whose body was broken for us; and by the juice of the vine, a blessed type which should ever remind the participant of the shed blood of the Saviour who is the true Vine of which His children are the branches; that this ordinance is as a glorious rainbow that spans the gulf of years between Calvary and the coming of the Lord, when in the Father's kingdom, He will partake anew with His children; and that the serving and receiving of this blessed sacrament should be ever preceded by the most solemn heart-searching, self-examination, forgiveness and love toward all men, that none partake unworthily and drink condemnation to his own soul.

**Scripture References Where Taught**

<sup>1</sup>Go ye therefore, and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Ghost, Matt. 28:19. (Also Acts 1:47, 48; Gal. 3:27, 28).

<sup>2</sup>Therefore, we are buried with Him by baptism into death; that like as Christ was raised up from the dead by the glory of the Father, even so we also should walk in newness of life, Rom. 6:4. (Also Col. 2:12; I Peter 3:20, 21; Acts 22:16.)

<sup>3</sup>Then they that gladly heard His Word were baptized; and the same day there were added unto them about three thousand souls, Acts 2:41. (Also Matt. 28:19, 20.)

<sup>4</sup>For as often as ye eat this bread, and drink this cup, ye do show the Lord's death till He come, I Cor. 11:26. But let a man examine himself, and so let him eat of that bread, and drink of that cup, I Cor. 11:28.

<sup>5</sup>Examine yourselves, whether ye be in the faith; prove your own selves, II Cor. 13:5.

American Gas Industry Celebrating Its 150th Anniversary This Week

The American gas industry is celebrating its 150th anniversary this week. In a century and a half it has grown to be the nation's sixth largest industry and provides about one third of all the energy consumed in the United States.

The gas industry was born in Baltimore on June 13, 1816, when a portrait painter, Rembrandt Peale, organized a company to light the streets of the Maryland city. The gas used at that time was manufactured from coal. In 1859, the Fredonia Gas Light and Water Works Company was organized in New York to distribute natural gas. Growth of the industry was stifled somewhat for decades until engineers and scientists found suitable materials and developed practical methods for transporting large volumes of gas over long distances under high pressure.

It somehow affected by gas. It bakes, hardens, cures, dries, cuts, shapes and is itself an ingredient in numerous products.

Today the gas industry is entering upon a new phase of existence. Research and development activities are catapulting the gas industry into the space age. The new uses of gas—total energy, infra-red, and the fuel cell—will help make gas an even more important factor in the energy field.

Gas total energy systems, for example, are already in use in many parts of the country. These are systems which provide on-site generation of all energy for a building's needs, including its own electricity.

Gas infra-red has only recently opened up what should prove to be a vast range of new applications. Since infra-red does not heat the air—just the objects they are focused upon—gas infra-red heaters are immensely useful in warehouses, plants, churches, and other hard-to-heat facilities.

The growth of Lone Star Gas Company also continues at a brisk pace. A 1966 construction budget of over \$33.5 million will bring added efficiency to the vast expanse of transmission, distribution and producing facilities.

Recent purchase of natural gas represent a net increase of more than 10 per cent to the company's available gas supply. Lone Star serves and energizes more than 500 cities, towns and communities in Texas and southern Oklahoma.

Cotton Insect Situation

Emory P. Boring, Area Entomologist, Texas Agricultural Extension Service

During the past week infestations of overwintering boll weevils were reported in Wilbarger, Knox, Baylor, Haskell, Jones, Fisher, Nolan, Runnels and Stoneham counties. Boll weevil infestation counts in fields reporting ranged from 65 to 100 weevils per acre, except for one field in Haskell County from which was reported a count of 262 boll weevils per acre.

Where weevils are found, apply control measures just before first squares are one-third grown to prevent egg-laying. If emergence of more weevils from hibernation sites occurs, additional treatments may be necessary.

Mr. and Mrs. Dick Richards and children, Dennis, Julie and Carrie, of Long Beach, Calif., are visiting here with Mrs. Richards' sister, Loidell Davis and Derrel.

Mr. and Mrs. Lloyd Martin and sons, Larry, David and Bruce, of Austin, will arrive this weekend for a visit.

VISITING HERE

Mr. Norman Passmore and Mrs. Jimmy Panter, of Hemet, California, who had been visiting in Haskell in the home of Mr. and Mrs. Jetty Clare and Mr. and Mrs. Al Hinds, were taken to Coleman Sunday by Mr. and Mrs. Clare.

Mrs. Passmore and Mrs. Panter will visit relatives in Coleman, prior to returning to California.

Haskell County Awarded Certificate For Exceeding The 1965 Crusade

The Haskell County Cancer Society was well represented at the District Meeting of the American Cancer Society in Abilene, Thursday of last week. Attending from the local chapter were Mrs. Ed Hester, aide-president; Mrs. H. K. Henry, vice-president; Mr. Felix Mullino of Rochester, district director; Mrs. Felix Mullino, Rochester, education chairman, and Mrs. R. W. Herren, publicity chairman.

Haskell County was one of the eight counties which exceeded the 1965 crusade and was awarded a certificate.

"There are more than 100 forms of cancer," Dr. Charles Meadows, of Abilene, told the delegates to the meeting. "And of all these forms, lung cancer kills more men than any other kind...40,400 men die of lung cancer each year in America." "These are needless deaths; these are tragic deaths; these are preventable deaths," Dr. Meadows stated. "The threat to life from cigarette smoking must be recognized here and now."

The meeting of the 21 counties comprising District 13 were also addressed by Mr. Curt W. Reimann of the Division Headquarters in Austin. Mrs. Herren said.

Mrs. F. D. Leffall, of Wichita Falls; Mrs. T. M. Clark, of Iowa Park; Allen G. Andrus, M. D., Anson, and William T. Inabnett, M. D., of Decatur received 15-year awards. Receiving 10-year awards were Mrs. Lambert Pickard, Mrs. Marvin Witherpoon, of Weatherford; J. E. Williams, M. D., Merkel; J. Douglas Carson, M. D., and Charles Wilson, M. D., of Wichita Falls. Mrs. Herren said.

Delegates to the meeting named the new district directors to represent them on the State Board of the Society. Elected were Mrs. H. D. Cardwell, Jr., of Vernon; Dr. Charles Wilson, of Wichita Falls, and Boone Powell, Jr., of Abilene.

Rites Held: (Continued from Page 1) Henry Prairie Baptist Church of Franklin.

Rogers-Cox American Legion Post at Haskell was originally named the Press Rogers Post, until after World War II. It was then changed to Rogers-Cox American Legion Post. Survivors are four sisters; M. Ione Sheid, Rule, Mrs. H. D. Crabtree, Van Horn, Mrs. Jim Frazier, Rule, Mrs. Lillian Jenkins, Haskell; three brothers, Tom of Rule, Ernest of Andrews, and Wallace of Bovina; 18 grandchildren; 49 great-grandchildren; nine great-great-grandchildren; and a brother, Jess Chrisner of Austin.

Haskell Girls Elected Officers At Girls State

Joyce Cook and Pamela Druessedow, Haskell's representatives to the American Legion Auxiliary Bluebonnet Girls State now in progress in Austin at the Texas School for the Blind, have been elected to offices. Miss Cook, daughter of Mr. and Mrs. Roy Cook, was elected Chief of Police of City E and Miss Druessedow, daughter of Mr. and Mrs. Henry Druessedow, was elected Tax Assessor and Collector of City C.

Miss Cook was sponsored to Girls State through the local American Legion Unit No. 221, Haskell, by Conner's Nursery, and Miss Druessedow was sponsored by the local American Legion Auxiliary.

The 1966 Session of the American Legion Auxiliary Bluebonnet Girls State has grown from an experimental conference of 94 girls, held at Baylor University in 1941, to become the largest single extracurricular educational program for high school girls in Texas. This year, 400 girls are in attendance, plus two from Mexico City, making a total of more than 7,200 girls in Texas who have participated in this top-level citizenship program. Associate Justice Meade Griffin of the Texas Supreme Court administered the oath of office to the various elected state officials of Bluebonnet Girls State Monday, June 20, in the Rotunda of the State Capitol.

Crash Victim Recuperating At Home of Parents

Mrs. G. Ernie Taylor, nee Paulette Allen, who suffered severe injuries in a two-vehicle, head-on crash eight miles from Antlers, Oklahoma, on May 10, was returned to the home of her parents, Mr. and Mrs. Paul Allen, here in a Holden ambulance last Thursday. Her husband will join her for a visit next week.

Mrs. Taylor said at the time of the accident she was enroute to Antlers, Oklahoma, to enter a bridge tournament when a heavy-duty pick-up and her vehicle met head-on. Following the wreck, Mrs. Taylor was flown to Oklahoma City, Okla., where she has been receiving treatment for the past six weeks in the McBride Bone and Joint Clinic.

Mrs. Taylor is still wearing casts on both legs up to her hip, her left arm in a brace and will have to go back to Oklahoma City on June 27 for more X-rays and then will return to Haskell to further recuperate. Mrs. Taylor said: "Tell all the good people who wrote me cards, letters and telephoned while I was in the hospital that I appreciated their thoughtfulness so very, very much and I will write them thank you notes in the near future."

Let the grass grow, George (but not under your feet).

Your Chevrolet dealer is mowing prices right now!

Your Chevelle Malibu 4-Door Sedan will come with eight safety features now standard, like seat belts, front and rear. Always buckle up.

Look at all that comes standard on your new Malibu: Body by Fisher • Rugged deep-twist carpeting • Sumptuous interior, with vinyl door panels and sidewalls for easy care • Little things like an electric clock and glove compartment light • Trusty Chevrolet engines like the Hi-Thrift Six or a 195-hp V8. Look at all you can add to make your Malibu even spicier: AM-FM multiplex stereo radio for beautiful music wherever you go • More spice? Mag-style wheel covers are nice • Turnpike drivers ask for cruise control. It maintains a constant speed automatically. Big-saving summer buys on Chevrolet, Chevelle, Chevy II and Corvair.
