STATE WATER BOARD VIEWING MILLERS CREEK DAM PROJECT

AUSTIN: A request for state help in financing Millers Creek Dam in Baylor County is being checked by the Texas Water Department Development Board.

The North Central Texas Municipal Water District has applied for the use of the state water development fund to provide \$28,000 toward the cost of the project.

The Water Development Board has the authority to make loans to finance water projects, or to buy a part of the water storage space in projects which the water-use at present and in the immediate future is not large enough to pay off revenue bonds.

The North Central Texas District proposal is that the board buy \$28,000 worth of storage space.

Haskell, Rule, Munday and Goree will in the near future call elections to vote on the water supply contracts and bond issue.

The board was advised that Aspermont and Knox City have been showing interest in getting water from the reservoir. As now proposed, it would impound 39,800 acre feet of water. The district has a permit from the Texas Water Rights Commission to use 3,500 acre feet a year for municipal purposes and 1,500 for industrial.

Stitching And Stewing

By Ruth Ann Fausler
County H. D. Agent

The difference in mayonnaise and salad dressing is told by the label. Both products contain vegetable oil, an acidifying ingredients, as vinegar or lemon juice and seasonings.

The oil may be from soybean, cottonseed, peanut or corn, and in mayonnaise it must total at least 65% of the weight. In salad dressing to a minimum of 30% by weight. Food standards such as these insure honest and fair dealing for both consumers and manufacturers.

Some history to the food facts on mayonnaise and salad dressing.

Mayonnaise was made for Louis XIV of France who was a gourmet devoted to sauces. When American Doughboys returned home after World War I, they brought back a lively interest in French cooking and many brought French brides who could prepare mayonnaise and other delicacies at home.

Because the preparation was long and tedious, manufacturers found it worth while to develop mass production methods. In 1930's another product appeared on grocery shelves, similar but less expensive to make than mayonnaise. It officially was designated as "salad dressing".

Texas Farmers Union Board Seeks Action

The Board of Directors of Texas Farmers Union, meeting in regular session at San Antonio last week, asked members of Congress from Texas and USDA officials to take action on several important matters affecting Texas agriculture.

Mr. and Mrs. Burt Medford, of Haskell, attended the meeting.

The governing unit of the statewide general farm organization, representing 110 organized units in Texas, asked members of the Texas congressional delegation to bring about the extension of the 1965 Farm Act as a "priority" matter, which should be acted upon without delay.

Texas congressmen and senators were asked to carefully study some of the amendments to the 1965 Act which have been proposed by various groups and USDA to determine whether or not they are in "the long-time best interest of family farmers, and will increase net producer income."

The Farmers Union Board urged members of Congress to support the Mondale Bargaining Bill and to speak out publicly for the proposal to give farmers and ranchers legal authority to negotiate price. The resolution emphasized the need to adopt Title I of the bill which is "essential for bargaining authority."

Turning to recommendations directed at USDA, the farm organization leaders asked Secretary Freeman to "assure an orderly marketing of cotton stocks remaining in CCC hands and an improved bargaining position for farmers by announcing an extension of the cotton loan program after July 1."

USDA was also asked to "comply with the recommendations of the Amarillo hearing by announcing a mandatory diversion program with payments and an additional voluntary diversion program with payments to assure a substantial reduction in wheat acreage for 1968."

RAINBOW CONCERT: Under the direction of Mr. and Mrs. Hubert Bell, The Nine-Teens, Haskell High School choral group, will be presented in their annual Rainbow Concert, Sunday, May 19th, at 3:00 p. m. in the First Baptist Church. Pictured are Janice Wall, Sheila Gilleland, Jackie Beauchamp, Beverly Owens, Patricia Toliver, Judy Therwanger, Debbie Darnell, Pamela Harris, Rhonda Woodard and Sara Yeary.

Nine-Teens To Present Annual Rainbow Concert Sunday, May 19th

The Nine-Teens will present their eleventh annual Rainbow Concert Sunday, May 19th, at 3:00 p. m. at the First Baptist Church, Haskell. The program is one of condensed beauty, and consists of a wide variety of materials. The public is invited to attend.

The organization which is directed by Mr. and Mrs. Hubert Bell has been active since its beginning in 1957. The Rainbow Concert, by tradition, brings

home many Ex-Nine-Teens... and these "exes" take positions beneath the Rainbow and join in singing "The Lord's Prayer." There are approximately fifty Ex-Nine-Teens and twenty-three babies to whom Mr. and Mrs. Bell lovingly refer to as "our grandbabies."

The traditional dinner-party, hosted by the Mom-Teens, will be held this year, Saturday evening preceding Sunday's Concert.

The Nine-Teens include Patricia Toliver, Rhonda Woodard,

Jackie Beauchamp, Beverly Owens, Janice Wall, Judy Therwanger, Sheila Gilleland, Sara Yeary, Debbie Darnell and accompanist Pamela Harris.

WASHINGTON
"As it looks from here"
OMAR BURSELM
Congressman
17th District

WASHINGTON, D. C. — We can be very proud of our colleges and universities where no "sit-ins" and "lie-ins" have taken place.

In fact, it is beyond the imagination that students who respect and enjoy the opportunity of getting an education would permit a small, militant, disruptive minority to completely paralyze the institution to which they are devoted.

Here in Washington, some 60 odd students were able to totally close down Howard University, of 8,000 enrolled students. This University is largely supported by Federal funds and out of which have come able men and women who have contributed greatly to the Negro race.

Maryland University at College Park was paralyzed by "student power" until the greater part of vague demands were met.

Until the police were called in and arrested the ringleaders, a comparatively few students forced the closing of Columbia University, continuing their defiance even after some of their demands were met.

All this happens at a time when thousands of students would like to get into Columbia, Howard University and other institutions of higher learning but

have been turned back because of a lack of space.

These Militant talks of free speech and free assembly but what they do is to deprive others by force and intimidation of the rights they claim for themselves.

Recently, at the University of Wisconsin, two members of the President's Cabinet were hooted and heckled so raucously that the civil rights of free assembly was turned into a civil wrong of a free-for-all, preventing those who wanted to listen from hearing the speakers. In many instances, as was the case at Columbia University, junior professors have joined students encouraging violence.

In the case of Maryland University the strategy decided upon by the militants was to find issues on which the University authorities could not afford to yield and then push their demands with sit-in and campus strikes. This has been the pattern at university after university. More recently at Princeton students demanded the right to fix policy and run the University.

On last March 17, a reporter from the Caller-Times of Corpus Christi quoted the speech of a young professor at the University of Texas who told an audience of students and faculty that he favored "toppling the power structure of our society" by taking property, production, and mass communication out of private hands. The plan, according to the Caller-Times reporter, advocated by the university professor was that if such a program began catching on with enough people, sooner or later the Government would step in to force a halt. "At that point," he

said, "revolutionaries will have to fight to survive."

The assistant professor of philosophy, Larry Caroline, was further quoted as saying that political and cultural revolution was necessary because legislative reforms had proved unable to cure society's ills. "Abolition of private property is necessary for a just society and legislation won't go that far," he is quoted as saying. He said until people are convinced that "property is theft," that little justice can be attained in America.

Perhaps we should not wonder at the conduct of a few radical rabble-rousers who come under the influence of such teachings.

On March 12, 1964, in this space, attention was called to the power and influence of university students in foreign countries, the implication being that it could not happen here, but it has and it is.

Just as was the case at Berkeley, there is reason to believe that a pattern of Communist influence is present in these actions.

In our area students loyal to

their school and grant opportunity of an university officials of disciplinary actions against us themselves.

JAMES HAYES RECIPIENT OF SUPERIOR SERVICE AWARD

JAMES C. HAYES

James C. Hayes, Assistant to the Texas State Director of the Farmers Home Administration, received the U. S. Department of Agriculture Superior Service Award from Secretary of Agriculture Orville L. Freeman at ceremonies in Washington, D. C.

Hayes was County Supervisor in Jones County for some ten years and is well known in this section. He now resides in Temple, Texas.

Mr. Hayes is credited with reorganizing and updating his agency's farm management program, which provides advice for borrowers to insure that they are pursuing sound farming operations.

He was cited "for unusually effective development and administration of a sound and proven farm management program for Farmers Home Administration borrowers in Texas, thereby strengthening and

stabilizing the family type farm."

Mr. Hayes has worked closely with FHA County Supervisors throughout Texas to expand and improve the level of their advisory services. He launched a special pasture program to obtain profitable use of idle acres, and moved quickly to resolve problems caused by recent hurricanes on the Gulf Coast.

Mr. Hayes joined the Farmers Home Administration nearly 10 years ago as an assistant county supervisor. He was promoted to county supervisor and farm management specialist before taking his present position two years ago. He is a native of Collin County, Texas, and a graduate of East Texas State University at Commerce.

COTTON PICKIN'S

Rolling Plains Cotton Growers, Inc.

House Agriculture committee May 20th voted one year extension to Act of 1965 Amendments and will now go before the Full House.

Cotton producer organizations are pushing legislation this year for two reasons. First, farmers in general and especially wheat farmers who will plant the 1970 crop in 1969 need to know what to expect following this program if they are to plan future operations with maximum efficiency.

Second, the make-up of the 1969 Administration and Congress is an unknown factor which might make passage of a farm bill even more difficult next year.

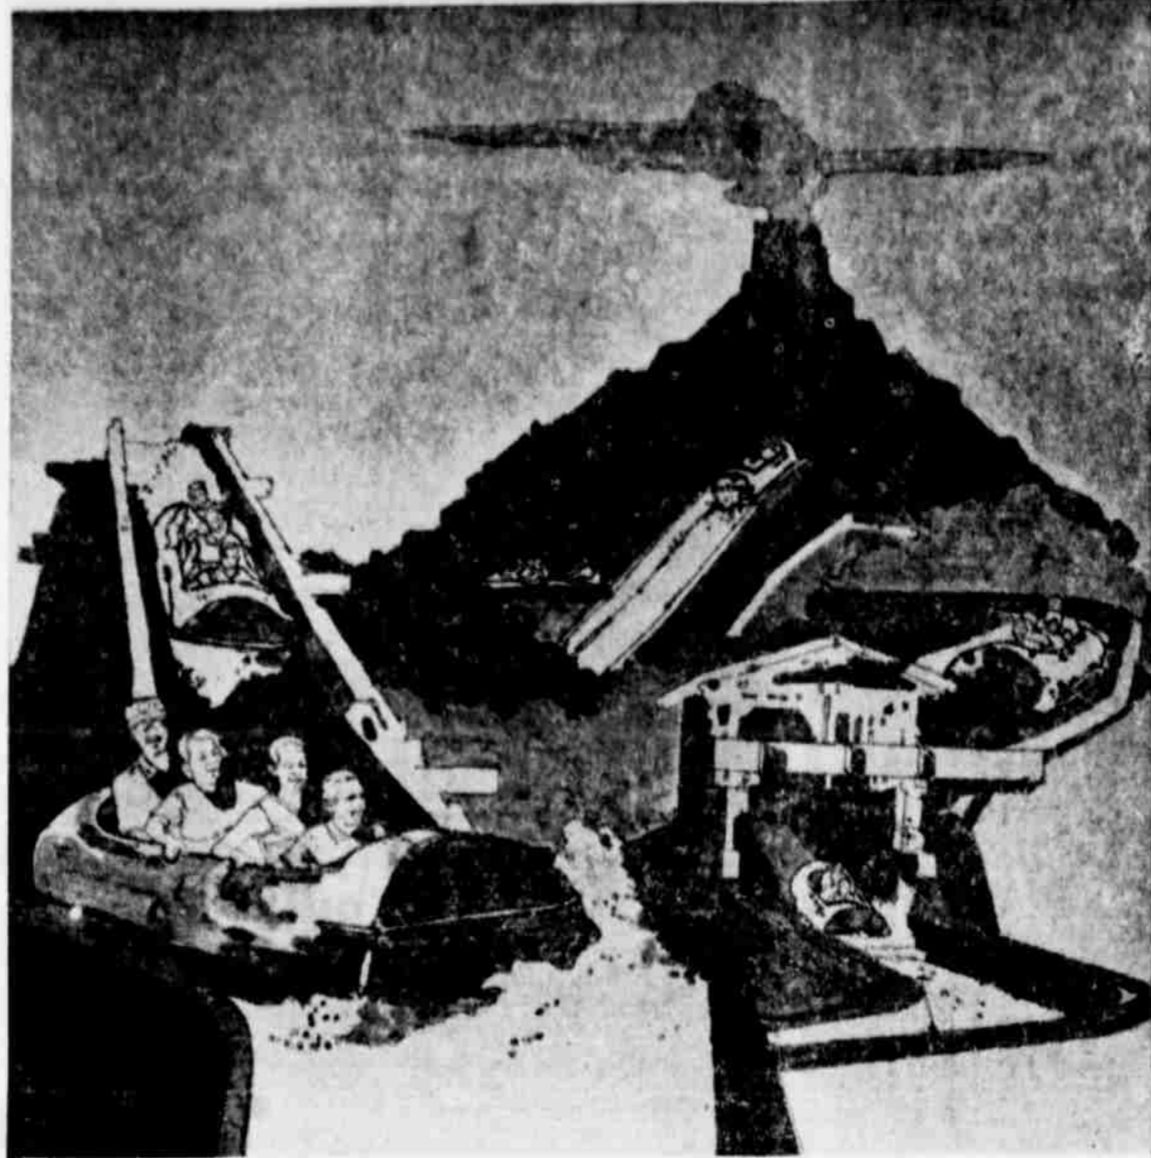

Regardless of how favorable the 1969 Congress might be to farm legislation the very earliest a bill could be passed next year would be September or October and it could very well be delayed until December or January of 1970.

That would mean wheat farmers would be planting their crops for 1970 harvest without a farm program. Provisions of the 1970 cotton program should be announced in the Fall of 1969, too, and this will be difficult at best and perhaps impossible unless Congress acts this year.

The big obstacle to enacting a bill this year is the preoccupation of legislators with Vietnam, racial unrest and other domestic problems. But farm congressmen and other spokesmen for agriculture are hopeful that a concentrated effort may at least get a bill through the House and possibly through the Senate this year.

Virtually all testimony heard by both House and Senate Committees has been in favor of extending for at least four years the Agriculture Act of 1965. Some changes are being advocated from various sources but with a few exceptions no one appears willing to rush for changes that would hinder passage of legislation this year.

Texas cotton producers, through the newly formed Texas Association of Cotton Producers Associations, will have constant representation in Washington as the situation develops.

Twice the fun and excitement is in store for visitors to SIX FLAGS Over Texas with this year's addition of a second Log Flume ride. Now 50 hollowed-out fiberglass logs will be in operation on the two Flumes, carrying some 3,400 riders per hour on a thrilling journey through "white water" around sharp curves and down steep slopes at speeds of better than 10 feet per second.

Two Agriculture Meetings Set For Haskell County Producers

Two important agricultural meetings have been set for Haskell county farmers and ranchers according to Haskell County Agent, R. W. Schumann.

On Wednesday night, May 22, a meeting on Brush and Noxious Weed Control will be held in the District Courtroom of the Haskell County Courthouse.

G. O. Hoffman, Brush Control Specialist with the Texas Agricultural Extension Service will be on hand to discuss the latest chemical and mechanical brush and weed control methods.

Also on hand at the meeting will be J. C. Yeary, with the Soil Conservation Service, to discuss assistance, farmers and ranchers can receive through the Great Plains Conservation program.

Swine Shortcourse
A two-night shortcourse for Haskell County Swine producers will be held on Thursday and Friday nights, May 23rd and 24th at the Agriculture classroom, Haskell High School. Rule:

Dr. C. M. Patterson, Extension Service Veterinarian, and Dr. Donald Hubman, Extension Animal Husbandman will be on hand to discuss swine herd management to include feeding, breeding programs, herd health, buildings and facilities and many other topics concerning the swine industry.

Schumann said "that both of these meetings should be very beneficial to our local producers." He suggests that you write:

down these dates on your calendar so as not to forget these two important meetings.

get big litters of HUSKY PIGS

A sow is a pig factory. She has the big job of producing and nursing two litters of pigs every year. Like any other factory, she has to have raw ingredients to produce the product (pigs) and maintain the factory (her own body).

If she doesn't get proper nutrition she may actually resorb some pigs into her system, causing you to lose pigs you'll never even see; or she may farrow weak, unthrifty litters.

Purina Sow Chow has what it takes to help the sow keep up her own body, farrow big litters and have plenty of milk to start 'em right. Available as a supplement to your grain or as a complete sow ration. Ask for Purina Sow Chow at our store.

A Time For Initiative

by D. A. Williams

Administrator, Soil Conservation Service

In a nation moving past 200 million souls, in a world racing toward 5 or 6 billion, no one can remain aloof from or complacent about proper use and care of the resources that must sustain these numbers.

Responsibility for stewardship of land and water does not end when a farm becomes a housing complex or a commercial center or a surface mine. It does not end when half of the community shows concern for resource waste and abuse.

Soil Stewardship Week each year is a time of national resolve toward good care of the earth that is our heritage. It is a time of thankfulness to those who make God their partner in managing their share of the three-fourths of America that is in private hands.

In 1968 it is especially a time for initiative—for finding ways and taking action to use the soil and our other great natural resources in the service of freedom and human dignity as well as plenty.

None of these aims is served by pollution, erosion and waste...by disorganized or haphazard urban growth...by bleak, crowded vistas...by making children get acquainted with natural resources only through a car window or television screen. These problems are too much with us.

We need initiative, and innovation, and re-dedication to the principles of stewardship that soil and water conservation districts have advanced for three decades. We need to employ judgment and choice, intellect and imagination, and support and coordination in resource improvement and use.

Clean water and air, productive and beautiful land, and space for relaxing need not be endangered. We have the knowledge and the ability to do whatever is required to protect and improve these resources. We have the capacity to assure not only food and shelter, but also hope and dignity and opportunity for all men.

Now is the time for every American to recognize and accept personal involvement in the efforts toward that goal. It is an undertaking worthy of the best each of us has to offer. It is a part of our duty to our fellow men and our Creator.

A WORD OF WARNING

The American Medical Association issued a word of warning concerning commercially promoted "clubs" for weight losers.

"Since excess weight may be a symptom of illness," the Association said, "it is vital for any person who wants to lose weight to have a physical examination by his physician before participating in any of these so-called club programs."

Pay Now, Enjoy It Later

"Unete Sam's 'pay now and enjoy it later' plan, otherwise known as social security, will bite deeper into the paychecks of employees this year," noted Acme Markets, Inc. "The tax rate of 1.4 per cent is the same as last year, but applies now to the first \$7,800 earned instead of the first \$6,600.

The maximum tax due this year from an employee has been increased \$52.80, from \$290.40 to \$343.20. The increase was legislated by Congress to pay for the increased cost of social security benefits."

CYGON 267 stops early-season cotton insects

Only 1/2 of a pint per acre of Cygon 267 insecticide goes to work

- on contact
- as a residual on foliage
- systemically inside the plant

to control cotton thrips, aphids and mites. In Texas and Oklahoma, Cygon 267 is also accepted for control of fleahoppers. Control lasts twice as long as other spray materials—for less than 85¢ per acre!

This year, be sure your cotton

- gets off to a fast start
- fruits sooner
- produces a larger, higher quality, early yield.

HASKELL COUNTY HISTORY

30 YEARS AGO

(May 17, 1938)

Glenn Caddell, young farmer living with his parents, Mr. and Mrs. Scott Caddell south of Rule, miraculously escaped serious injury Thursday night during the height of the rain and hailstorm when a bolt of lightning struck a chimney of the Caddell residence. Young Caddell, seated near a cook stove in the kitchen, related that the lightning bolt literally tore a heavy leather work shoe from his right foot, scattering pieces of the shoe over the room. He suffered light burns on the foot, and another burn on his left arm, but aside from being momentarily stunned, was otherwise unharmed. Mrs. Caddell, also standing in the kitchen, was stunned by the bolt. The bolt demolished the brick chimney of the house and all connecting stovepipe was broken. Mr. Caddell said. Clocks in the house were stopped at 7:30 through some effect of the lightning, he added. Part of the shoe remaining was exhibited in Haskell by Mr. Caddell, attracting throngs of curious persons.

Mr. and Mrs. Marvin Branch, Mr. and Mrs. Manly Branch, Myra Bob Branch, Mrs. Marvin Laird and daughter, Lena Carol, spent Sunday in Wichita Falls visiting relatives.

Dr. and Mrs. T. W. Williams returned Thursday from the medical convention held in Galveston. Their son, Temple, remained in Kemp for a visit with his grandmother.

Mr. and Mrs. C. V. Oates are announcing the arrival of a son, Don Wayne, born Thursday, May 12, at the Stamford hospital.

Misses Eunice Huckabee and Nettie McCullum spent the week-end in Abilene, guests in the home of Misses Pearl, Mae and Eda Lillian Miller.

Earnest Kimbrough, of Houston, is here visiting his mother. He was accompanied home by his brother, Jack, who had been visiting their sister, Mrs. Hugh Ratliff, in Shreveport, La.

40 YEARS AGO

(May 17, 1928)

A three-room house on Ballew Street owned by Mr. Kay and occupied by I. H. Roberts and family was destroyed by fire of undetermined origin last Saturday afternoon.

Pippen and Bradley tailors, announce this week the opening of their tailor shop in the Tonn building, across the street from the Tonkawa Hotel.

Mr. and Mrs. Thomas Morrison and children have returned from several weeks visit to Mineral Wells.

T. A. Pinkerton has returned from several days visit to Eastland, on business.

County Agent W. P. Trice and wife visited in Eastland last Thursday and looked over a hatchery plant. Simmons University girls in Haskell last week were Misses

Anita Grissom, Ruby Martin and Lola Taylor.

A. B. Carothers, pioneer citizen of Haskell, was in the city on business Friday. Mr. Carothers was in that section before the town was laid out and is a pioneer farmer as well. He is now in the grocery and furniture business and is doing a nice business.

C. W. Jetton of north of the city was in town Tuesday on business. He reports a good rain and is ready to plant all his crops when the ground dries up.

Ernest Wright who is attending ACC at Abilene, spent the week-end with home folks. Mr. and Mrs. J. L. Wright of the Midway community.

Mr. and Mrs. H. K. Fry returned Monday from Electra where they spent the week-end with relatives and friends.

R. C. Couch of the Farmers State Bank was out of the city several days last week looking after his banking interests elsewhere.

60 YEARS AGO

(May 16, 1908)

Friday evening a crowd of Haskell young people drove out to the Bailey tank about two miles from town and ate supper and drove home by the light of the moon. Those who enjoyed the occasion were Misses Lillian and May Pace, Dean, Lucile Hughes, Witzer, Cecil Hughes, Mamie Meadors, Sallie Hughes and Weston Payne and Messrs. Stephens, Touchstone, Smith, Killingsworth, Simmons, Long, McDonald and Mr. and Mrs. Eastland.

Quite a number of the Haskell Woodmen, members of Elmwood Camp No. 24, attended and assisted in unveiling of a monument at Stamford on last Sunday to a member of the order at that place. The Haskell burial team, composed of Ben Morgan, captain J. L. Roberts, F. I. Pearsey, R. A. Bushy, A. G. Lambert, Earl Williams, Alex Edwards, T. J. Lemmon and E. A. Johnson, attended in full uniform and led in the ceremonial work. Other members attending were G. D. Norris, Dr. E. E. Gilbert, L. V. Smith, C. H. Monneyham, J. B. Lamkin, Arthur Edwards, W. D. Joiner and T. E. Bowman.

The Weaver school community will have a picnic at the old picnic grounds at the mouth of the Spring Branch on Mule Creek the first Saturday in June.

All Prohibitionists are hereby called to meet at the courthouse in Haskell on May 18th, at 2:00 p. m. Those who made pledges to the work should come prepared to pay them.

J. H. Baldwin of Windom, a brother of J. L. Baldwin of this place, was here the early part of this week and closed a sale of 1600 head of cattle, which he had located in a pasture west of Rule. We are informed that the price secured was \$12.50

per head, counting in calves. We also learned that T. E. Ballard of this place sold 100 head of steers to Henrietta parties at \$25 per head, and that Mr. S. W. Scott sold 61 head of threes and fours at \$25 and \$28 per head.

Messrs. Ellis & Williams have moved their grocery business to the west side of the square, in the Oates building.

Sales are up 29%! And we intend to let you share in that success with special low prices now plus a trade-in on your car based on the biggest sales success in Plymouth history. What else? A higher resale value than Ford and Chevy according to the Kelley Blue Book.* Plymouth is now priced low when you buy... high when you sell. They don't call us the Unbeatables for nothing.

*Models used for this comparison were V-8 4-door hardtops with power steering, air conditioning, radio and heater as listed in the Jan. Feb. Kelley Blue Book, one of the official guides for used car prices. This is just one example. Plymouth holds the lead all down the line.

Why it pays to control early-season cotton insects

Here's why it pays you to apply only 4 to 8 oz. Malathion ULV* Concentrate to achieve ultimate control of thrips, fleahoppers and leafhoppers. • gets cotton off to a fast start • cotton fruits faster • produces a larger, higher quality, early yield. This year, use Malathion ULV Concentrate, an insecticide registered for ultra-low-volume control of early-season insects. Place your order with your dealer to arrange with your aerial applicator to apply. Before using any pesticide, stop and read the label.

SOIL STEWARDSHIP WEEK IS IMPORTANT TO ALL CITIZENS

Recognizing the importance of our natural resources of soil and water, Governor John Connally has designated the week of May 19-26 as Soil Stewardship Week.

Soil Stewardship Week gives each individual an opportunity to stop and evaluate his duty to the land, said Clarence Carter, Extension soil and water conservation specialist.

"The citizens of Texas recognize the Earth is the Lord's and we are His servants charged with caring for it and developing it to the best of our ability," Governor Connally said in his proclamation.

Connally went on to say that the countryside is a wealth of values and uses with benefits and responsibilities for all Americans. It provides food and outdoor recreation, wood and water, and it is the base of agriculture, he said.

"The Bible says that God created the heavens and the earth as well as everything in them. Man was God's crowning creation and was made in the image of God and given dominion over God's creation; a steward ... I. B. Ray, a member of the Soil Stewardship Committee, said recently.

Tours, special meetings, and sermons will be centered around this year's Soil Stewardship Week theme—"A Time for Initiative."

"This initiative can take many forms," Secretary of Agriculture Orville Freeman said recently. He called for steps to conserve clean water, soil and air. He also urged renewing cities to make them model garden communities.

"We can enhance the natural beauty of the countryside and provide parklands and wilderness areas to meet the recreation needs of our people," the Secretary said.
