Dix Wins Over Stimson, Roosevelt Candidate for Governor of New York---Harmon Defeats Harding, Taft Candidate in Ohio, and Massachusetts Elect Foss over Draper.

KERNS CLAIMS IND. SENATORSHIP

Republicans Believed to Have Lost Race for Legislature and Beveridge Retired---Hooper Chosen Over Taylor in Tennessee---Woodrow Wilson is New Jersey Executive.

The Democrats carry the east but the Progressive Republicans carried the West.

The Democrats in the nation at large will have a working majority. The Senate will be almost evenly divided and with the help of the Insurgent Republicans the Senate will practically be Democratic.

The Democrats won in New York, West Virginia, Indiana, Iowa, Missouri, and elected Hooper in Tennessee, New Jersey and Connecticut went Democratic and there was reduced Republican majorities every-

where. Haskell county went Democratic except at O'Brien, where the Socialist polled 55 votes to the Democrats 34, electing a Socialist Justice of the Peace. Davis beat Howard for Commissioner at Howard. The vote was light all over the county.

Our abstract books are complete and up-to-date. Get your abstracts from **Sunders & Wilson.**

A. B. Carothers of Rochester was in the city Thursday.

B. Y. P. U. and S. S. INSTITUTE PROGRAM.

To Be Held With The Rule Baptist Church.

NOVEMBER 22 TO 27, 1910.

TUESDAY EVENING.
7:00 Devotional—W. H. Link, Hamlin.

7:30 Sermon—O. W. Dean, Haskell.

WEDNESDAY MORNING.
8:30 B. Y. P. U. Training Class—W. H. Wright.

9:30 Deepening the Spiritual Life—O. B. Norman, Haskell.

10:00 Open B. Y. P. U. Conference—W. H. Link.

10:30 Why B. Y. P. U.—Hon. Walter S. Pope, Anson.

11:00 Special Music—Mrs. H. R. Jones, Haskell.

11:30 Sermon—Frank S. Groner, Stamford.

WEDNESDAY AFTERNOON.

1:30 S. S. Training Class—R. E. Smith, Rule.

2:30 Praise Service—Ira Miller, Pinkerton.

2:50 The Relation of the B. Y. P. U. to the Church—L. N. Alvis, Rochester.

3:20 The Young Person Needed

today—Miss Enla Poole—Rule

WEDNESDAY EVENING.

7:00 Inspirational—Wm. Park—Sagerton.

7:30 A Bit of Welcome—R. K. McClesky, Rule.

7:40 Response—A. Y. Smith, Haskell.

8:00 Address—Frank S. Groner, Stamford.

THURSDAY MORNING.

8:30 B. Y. P. U. Training Class—W. H. Wright.

9:30 Deepening the Spiritual Life—E. B. Speck, O'Brien.

10:00 A1 Standard—W. H. Wright.

10:30 The Young Christian and His Bible—Miss Jennie Mansell, Rochester.

11:00 Purpose and Possibilities of the B. Y. P. U.—E. B. Speck.

THURSDAY AFTERNOON.

1:30 S. S. Training Class—R. E. Smith.

2:30 Doctrinal Scriptural Quotations, "Preservation of The Saints,"—conducted by H. A. Lamb, Sagerton.

THE LEMUR A CHARMING PET

Eha in His "Naturalist on the Prowl" Describes Little Animal—Servants Afraid of Him.

Pets are of all sorts. One of the most amusing and attractive is described by Eha in his "Naturalist on the Prowl." This little animal was a lemur, and besides many gentle and caressing ways, it seemed as if it possessed a certain sense of humor. Says Eha:

"I used to take its soft hand and examine its pretty nails. Each hand had one long, sharp claw. Such a curious arrangement puzzled me, until one day a flea showed me the use of that claw. It bit the lemur under the ribs. I expect the little beast had reason to be thankful that nature had spared one toe when it promoted it to the order of four-handed animals.

There never was a more charming pet. He took life so gayly, and the antics were so original. When my man let him out of his cage in the morning, he would scamper straight to my bedroom, look round with large eyes brimming over with mild curiosity, and, lightly as a rubber ball, spring to my dressing table, where he would examine everything. Then he would bound across the bed and land on my shoulders, handle my ears gently, wondering what was in the hole, and thrusting in his long tongue to find out.

That was beyond human endurance, and I would roll the little fellow into a ball, wind his long, fully tail about him, and fling him into the bed. He would be unwound in a moment, and would skip away to explore some more.

His hind legs being longer than his fore, he walked slowly, with his head down; but when in a hurry he would stand up and bound along like a kangaroo, tall in the air, arms extended, fingers spread, looking like nothing one ever saw.

The servants regarded him as uncanny, and fled at his approach. He would give chase, and there never was finer sport than to see the fat butler in full flight up the long stairway, with the gleeful little demon after him, three steps at a bound.—Youth's Companion.

SICK, SOUR, UPSET STOMACH

Indigestion, Gas, Heartburn or Dyspepsia Relieved Five Minutes After Taking a Little Diapepsin.

Here is a harmless preparation which surely will digest anything you eat and overcome a sour, gassy or out-of-order stomach within five minutes. If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion. Get from your Pharmacist a 50-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store here in town.

These large 50-cent cases of Pape's Diapepsin contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion, Gastritis or any other stomach disorder.

FINE IVORY NOW THE VOGUE

Toilet Table Accessories at the Present Moment Are Costly but Decidedly Smart.

All the toilet and dressing table requisites are now found in fine ivory. The only care needed is to rub off with a fresh, soft cloth, occasionally using a rag moistened in alcohol if spots occur. These, too, are more costly than silver, but are considered very smart.

The backs are monogrammed in black, brown, and occasionally in raised gold. Sometimes the sets are shown with floral decorations, but this is not so good style as is seen in many of the imitations.

White celluloid sets with a monogram in black, dark green, blue, or brown are now to be found in good designs with simple lines. The latest preparations are no longer combustible, and a full celluloid toilet set is a good investment for a guest room, for a girl at college, or for the chronic traveler; for use in a bag they are much lighter than any other ware.

The searcher after novelty can have her dressing table appointments in antique gilt, old Japanese lacquer, or Dresden china.

Such a selection is not for the average buyer, as, unless rare workmanship and corresponding cost are had, the results are likely to be poor.

Not Seeking Trouble.
"I should think it would be the bug-bear of your life trying to get up new bread-new jokes," said the sympathetic caller.

"That," said the humorist, cheerfully, "is the least of our troubles."

He Wasn't Afraid.
"Oh, well," said the grocer to the dissatisfied customer, as the argument waxed warm, "don't get put out about it."

"I don't intend to," snapped the customer. "And you can't put me out."

On the Bridge of a Battleship

THE modern battleship is a marvel of concentration and space economy. There is no room for things purely ornamental, but every foot of space is used to some purpose in connection with the storage or operation of the myriad adjuncts necessary for the work, the safety and the

comfort of the hundreds of men who crowd one of these floating fortresses. If one were to choose, however, the one section of a battleship which above all others is a veritable nest of wonders and surprises choice would unhesitatingly fall upon the "bridge"—that elevated structure which so appropriately named and which extends the full width of the deck on the forward part of the ship—in front of the huge smokestacks, as a "land lubber" might designate its location.

For one thing, we find on the bridge an even greater array than anywhere else on the ship of those remarkable mechanical and electrical devices which do so much of the work on shipboard that would seem to require human intelligence. But the bridge has in addition a special significance which multiplies many times its importance and the interest of its equipment. It is the "nerve center" of the ship, the seat of authority and command which directs all the operations within the bounds of the big armorclad, and also the intelligence office through which this warship community communicates other vessels of the fleet and, indeed, with the entire outside world.

Under ordinary conditions when the battleship is cruising at sea, participating in battle drill or target practice or engaged in any of the other important functions of a sea warrior the captain commanding, the navigating officer, and other responsible officials of the ship have their positions on the bridge. In time of actual battle those directing heads of the fighting machine would not expose themselves on the bridge, but they would not be far away. Sheltered by conning towers or some other protective screens,

up aloft on skeleton steel towers—a means of managing the searchlights which is not only more rapid but more effective than the old plan of turning them this way and that by manual labor. On the bridge, too, are no end of signaling devices for supplementing the wireless telegraph in communication with other ships or with the shore. There are signal flags for use with various codes and with the always useful "wigwag;" there are the semaphore and Ardois systems for signaling at night by means of different combinations of red and white lights, and there is the electric torch for unofficial messages.

The American navy has been the most successful military organization, from its very inception, which the world has ever seen. That is a pretty broad statement, but it is absolutely true. There are good reasons for this.

In the early days we were a commercial people. We were natural sailors. Our people lived along the shores. They made their money in commercial pursuits. The men who commanded merchant ships were not only good sailors; they were good merchants, and the foundations for many of the great fortunes of this country have come from that source. In order to protect themselves they were obliged to go armed. Their ships were armed as were privateers in time of war. The result is that they not only knew navigation, but they knew gunnery, and combined with these qualities the intelligence which makes great merchants.

Naturally, when those men came into positions where they commanded men-of-war, they were equal to the occasion, although they had had no naval training. As time went on they acquired a naval training, so that in the later wars, in the early part of the nineteenth century, they met every requirement, and in the recent wars the graduates of the Naval academy have been equal to every duty which has been imposed upon them. They have made a record of which every American citizen should be proud.

The American sailorman has always been efficient. They were good men in the time of the Revolution; competent men in the time of the war of 1812. They are better men today than they were in those days, because today 95 per cent. of them are American citizens, and not a man is shipped in the American navy who has not declared his intention to become a citizen. Twenty-five years ago not more than 30 per cent. of our men-of-war's men were American citizens.

The American navy has been successful because our ships have always been as good ships as any that were built in the world. Our merchantmen, in the Revolutionary times, and down to the Civil war, were the best merchant ships sailing the seas. They were, no doubt, the best manned, and they made the fastest time. During the period of wooden ships, when we built men-of-war they were of the same general character. Our men-of-war, gun for gun, were equal to, and probably superior, to those of any other nation.

We have always been able to shoot better than most people. Go back to the early times, to the revolutionary war. We lost 34 men-of-war, carrying less than 500 guns, in the Revolutionary war, while the British lost 103 men-of-war, carrying more than 3,000 guns. We captured 200 of their merchant ships, and it is not too much to say that if it had not been for the damage caused by

the American navy we would not have won the Revolutionary war at all; that is, it might have been necessary later to have fought that war over again.

The same relative skill prevailed in the War of 1812. Our ships of the same class were superior to the ships of our opponents. This statement is confirmed when we study the exact figures. For instance, in the Hornet-Peacock contest the British ship lost five men killed and 37 wounded, out of a crew of 130, while the American ship had but three wounded—this in eleven minutes. In the Wasp-Frolic fight the British ship lost 15 men killed and 47 wounded, out of a crew of 110, while the American ship lost but five killed and five wounded from a crew of the same size.

I could mention a number of similar instances which demonstrate my statement that at that time we were able to shoot well, and we have been shooting better ever since. Not only the men of the north, but the men of the south, shot well during the Civil war; they shot well during the Spanish war; and we can shoot half a dozen times as well today as we could during the Spanish war.

Never has the American navy made such a record as it is making today, and never has there been a navy having a record excelling the one which our navy is now making for capacity to hit the target. That is really the whole war problem—to hit what you are shooting at.

We have not in the past built homogeneous fleets. We build a surplus of battleships and then provide the men to man them, and frequently provide more than we have ships for. We build auxiliaries and torpedo boats, if we do it at all, without any regard to the relation which such craft should bear to the battleship fleet, and while we have built or have in construction 29 battleships, we have practically no means of furnishing tenders for them under service conditions.

When the battleship fleet was sent to the Pacific recently it was necessary to charter 40 foreign ships to carry coal for it. If it had been found necessary to send the fleet around the horn in time of war it could not have been attempted, because we could not have furnished American vessels in which to carry the coal.

Very few people realize the deplorable condition we are in, as far as our merchant marine is concerned. If we had a large merchant marine we could draw from it without having special auxiliaries for the navy, but we are so lacking in both that it makes our present situation almost hopeless.

When the Spanish war broke out it was necessary to purchase colliers and transports. One hundred and two vessels were bought at a cost of something over \$17,000,000, but they cost a very large percentage more than their market value, and more than twice as much as they could have been sold for if they had been put on the market at the termination of the war. In other words, we paid out millions of dollars because we had not provided ourselves with suitable auxiliaries for our battleship fleet. We should have a navy adequate for our needs; not only adequate in battleships, but adequate in every other respect.

Surgery on Heart

Surgical operations upon the heart have become more or less of a commonplace in medical history. Something approximating 100 cases of the sewing up of heart wounds are on record, and the recoveries have been considerable when one considers the highly dangerous character of such work. Hitherto, however, heart surgery has been limited to accident cases.

In a recent issue of the annals of surgery one of the workers at the Rockefeller institute for medical research discusses the possibility of treating diseased hearts surgically. He has made numerous experiments on animals and believes that such operations will be successfully performed on human beings in the near future. His tests have convinced him that the heart can be opened, scraped out (cleaned, so to speak), sewed up and started off on its "beating" path again without any great, at least insuperable, difficulty. By an ingenious system of side piping and new channeling he is able temporarily to cut out of the circulation portions of such important vessels as the descending aorta the largest artery in the body, without killing the animal. Among his suggested operations is one on the coronary arteries of the heart for the cure of angina pectoris.

This doctor has apparently proved to his own satisfaction on animals that successful surgical interference with the great vessels and the heart itself is a possibility. It is, of course, a long step from these experiments to actual operations on human beings, but there is every indication that the latter feat will be attempted in the near future. The intractability of cardiac affections and their high fatality make the proposed new surgery a thing of great general interest, and may justify the extreme boldness of the proposal.

It Cured My Baby—Hereafter I Will Always Keep It in the House.
I cannot speak too highly for Resinol Ointment. It cured my baby boy of Eczema. He had a very severe case and numerous other remedies failed to do any good. I would not be without Resinol Salve in the house. It is good to apply in cases of burns, cuts or sores of any kind.
Mrs. F. Cox, Chicago, Ill.

TEXAS CATTLEMEN GET VERY BUSY

TO PREVENT RAISING QUARANTINE LINE OVER TEXAS.

CO-OPERATE WITH UNCLE SAM

More Than Two Hundred Delegates Take Part and Hear Officials.

Amarillo, Texas: Doctors R. P. Steddom of Washington, R. L. Allen of Oklahoma City and Frand R. Rigdon of Quanah represented the United States Government in the mass meeting held in this city beginning Monday forenoon and continuing through to a night session, at which was considered the proposition to raise the present Federal quarantine line in such way to embrace the whole of Texas.

The meeting was called by J. Harve Avery, secretary of the Panhandle Stockmen's Association, and brought together prominent cattlemen from many points outside of the State as well as those in Texas. There were more than two hundred accredited delegates who, upon hearing the statement of Dr. Steddom that if the present rules and regulations of the department are not complied with and at once, the line will be raised so as to include the entire State, awakened to immediate action.

Col. T. C. Herring, president of the Panhandle Stockmen's Association, presided. The State Sanitary Board was represented by Thomas McClure, one of its members from Stamford.

Intense interest prevailed throughout and an unanimous vote resulted upon a proposition that the cattle interests furnish money for the placing of such additional inspectors as the demands of the Government may require. Prominent commission firms in and out of the State had messages in the hands of the secretary asking to be permitted to participate in bearing this expense.

A BUSINESS HUNTING VOYAGE

To Cover Many Points North and East Telling Why It is Good to be in Texas.

Fort Worth, Nov. 6.—Preliminary arrangements for sending a body of Texas business men and farmers to the North and East to invite home-coming to Texas are being made by the Texas Commerce Association.

The party will leave later part of November. Commercial Secretaries have been organized, such as the New Union, Texas Bankers' Association, Cattle Raisers' Association and other organizations working for the material welfare of the State to send a representative with the party and the results of the correspondence will be submitted at the annual membership meeting of the Association at Waco on November 18-19 for final action.

No itinerary has been prepared but it is proposed to visit all the large cities and financial centers of the East and North, and present the advantages of Texas opportunities and explain Texas laws to homeseekers and capitalists.

The State Library has received from the Hood's Texas Brigade the tattered flag of the old Fifth Texas Regiment, which flag was used during the Civil War. The flag has been turned over to the State Library for safe keeping. The State Library is also endeavoring to complete for the Hood's Texas Brigade Association the company rolls of the old command.

Second Survey of Trinity Valley Line. Dallas: J. V. Watkins, president of the Trinity Valley Traction Company, which proposes to build an electric railway out of this city toward the coast, states that engineers are working on the second preliminary plan of the proposed line, and would consummate them if reached to be the southern end of the road. The company, headed by Mr. Watkins, has ample funds to finance the road, and will build any particular town as a bonus to the enterprise. The plan is to build a line now considered an entirely new country rich in agricultural products, and will also give a direct route to the fruit belt of Southeast Texas into Dallas.

South Carolina Joins Texas Move. New Orleans: South Carolina, one of the biggest rice growing states in the Union, has joined hands with Louisiana and Texas in the movement for a producers' control of the rice markets of this country. Former Governor Hayward, of South Carolina, wired the officers of the recently formed Southern Rice Growers' Association that South Carolina would join the movement and would be represented at the next meeting. Mr. Governor Hayward's own extensive rice lands in Columbia County.

MILITIAMAN MANLEY FOR LIFE

The Guard Who Fatally Bayoneted Richenstein Sentenced.

Dallas: J. D. Manley, the Texas National Guard sergeant, who bayoneted and fatally wounded Louis Richenstein at the Fair grounds one year ago during the visit of President Taft to Dallas, was given a life sentence in the penitentiary by a jury in the criminal district court Friday morning.

This case has attracted State-wide interest, owing to much division of sentiment regarding the act. A motion for rehearing is being prepared. It will be predicated on the ground that there was exclud testimony of vital import, including the oath taken by Manley when he became a national guardsman, and that part of the regulations of the national guard showing that the arms and ammunition, uniforms, etc., used by guardsmen, are furnished by the United States government.

Trinity River Work Abandoned.

Dallas: Official announcement has been made that contractors on Lock and Dam No. 2 and on Lock and Dam No. 4 have abandoned the work. The abandonment was on Friday, Nov. 4. A scarcity of suitable workmen and the difficulty in getting the materials are said to have been among the reasons. The two contracts were let to the Ball-Carson Company, later taken over by the Ball Construction Company. The amount of the contract for Lock and Dam No. 4 was \$126,638.91. It is probable the next step on the part of the Government will be to let the contract to a new bidder.

Mrs. Straight Sentenced for Life.

Waco: The jury in the case of Mrs. Minnie Lee Straight returned a verdict, finding the defendant guilty of murder in the first degree and assessing the penalty at confinement in the State penitentiary for life. Mrs. Straight is the widow of Editor T. E. Straight, who was shot and killed June 18 last at the residence of the Straight family at McGregor. The next day Mrs. Straight was arrested and subsequently she was indicted by the Grand Jury. Mrs. Straight is mother of two children, a son, aged 13, and a daughter, aged 18.

D. H. Tobin found a pearl in a hot bowl of soup at a Cleburne restaurant. When the pearl was shown to a local jeweler he states that the hot milk of the soup had ruined the pearl, that had it been discovered before being subjected to heat the worth of it would have been \$150.

George D. Withers, ex-Sheriff and a prominent citizen of Hopkins County for more than forty years, dropped dead from heart failure on his farm near town. He was in 200 yards of his home, looking after some syrup making, when he was stricken and died immediately.

Exclusive of the Panama Canal charges the receipts of the Government for October were \$55,266,441 and the expenditures were \$58,560,323, which left a deficit in ordinary operations of \$3,293,882. Add to that sum the month's cost of the work on the Panama Canal and \$5,295,085 stands on the wrong side of the ledger.

The Explorers' club, New York, has been notified that a Japanese expedition to the South Pole will leave Tokyo on Nov. 15. The expedition will take a 200-ton vessel equipped with sails and auxiliary power and expects to be three years in making its long journey.

On account of the big deficit in the budget of 1911-12 a majority of the proposed public works in Panama will be indefinitely postponed. This includes the construction of the Panama David Railway, the survey of which has been made.

Census Director Durand has issued a statement sustaining the bureau figures placing the death rate of Fall River, Mass., at 19.1 per 1,000. This is the highest of the American cities. Judgment by agreement has been rendered by Judge C. A. Wilson of the Twenty-sixth district court in four of the Dallas Social club suits. The judgment provides for forfeiture of charter and for perpetuation of the injunction injoining the members of such clubs from selling intoxicating liquors.

A \$100,000 Lumber Fire.

Beaumont: News of the destruction of the large planing mill plant and 2,500,000 feet of lumber of the Gulf Lumber Company at Stables, La., was received here. The planing mill, the lumber shed, containing 2,500,000 feet of lumber, and thirteen freight cars loaded with lumber were destroyed and the loss will reach about \$100,000. Insurance partly covers the loss. The planing mill plant was one of the largest and most complete establishments in the South.

South Carolina Joins Texas Move. New Orleans: South Carolina, one of the biggest rice growing states in the Union, has joined hands with Louisiana and Texas in the movement for a producers' control of the rice markets of this country. Former Governor Hayward, of South Carolina, wired the officers of the recently formed Southern Rice Growers' Association that South Carolina would join the movement and would be represented at the next meeting. Mr. Governor Hayward's own extensive rice lands in Columbia County.

ROSY AS YOUNG GIRL

J. W. Church, the Notary Public, of Summit, N. C., Tells How Cardui, The Woman's Tonic, Helped His Wife.

Summit, N. C.—"My wife had been ailing for nearly 12 years," writes Mr. Church, "and at times was unable to leave the house. She suffered agony with her side and back. We tried our family physician for many years, without relief. After his treatments all failed, she began to take Cardui, and gained in weight at once. Now she is red and rosy as a school girl."

"Mrs. Church recommends Cardui to all suffering women."

Cardui is more successful than other remedies, because it is "different." It is in a class by itself.

In over half a century, more than a million women have been helped to rosy health and happiness, by using this well-known and scientific woman's remedy.

Cardui acts specifically on the weakened womanly organs. It helps to refresh the worn-out nerves and is the ideal remedy for young and old.

As a tonic for women, it has brought remarkable results.

As a remedy for women's ills, its friends say it has no equal.

Try Cardui.

N. B.—Write to Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper on request.

THOUGHT SHE HAD PRACTICED

Frenchman's Suspicion Really Something of a Compliment to the Men of America.

Claude Grahame White, the English aviator, praised, at a dinner in New York, the good fellowship of Americans.

"The American woman is regarded abroad as an angel," he said. "The man is admittedly a good fellow, but an angel he is far from being."

"You've heard of the Frenchman perhaps, whose sweetheart spent the summer in America? After her return the poor Frenchman seemed quite blue."

"What's the matter with you?" a friend asked.

"I am worried," the other muttered, "about my fiancée. You see, since her return from America she kisses so much better than she used to."

AN INTOLERABLE ITCHING

"Just about two years ago, some form of humor appeared on my scalp. The beginning was a slight itching but it grew steadily worse until, when I combed my hair, the scalp became raw and the ends of the comb-teeth would be wet with blood. Most of the time there was an intolerable itching, in a painful, burning way, very much as a bad, raw burn, if deep, will itch and smart when first beginning to heal. Combing my hair was positive torture. My hair was long and tangled terribly because of the blood and soaps. This continued growing worse and over half my hair fell out. I was in despair, really afraid of becoming totally bald."

"Sometimes the pain was so great that, when partially awake, I would scratch the worst places so that my finger-tips would be bloody. I could not sleep well and, after being asleep a short time, that awful stinging pain would commence and then I would wake up nearly wild with the torture. A neighbor said it must be salt rheum. Having used Cuticura Soap merely as a toilet soap before, I now decided to order a set of the Cuticura Remedies—Cuticura Soap, Ointment and Pills. I used them according to directions for perhaps six weeks, then left off, as the disease seemed to be eradicated, but toward spring, eighteen months ago, there was a slight return of the scalp humor. I commenced the Cuticura treatment at once, so had very little trouble. On my scalp I used about one half a cake of Cuticura Soap and half a box of Cuticura Ointment in all. The first time I took six or seven bottles of Cuticura Pills and the last time three bottles—neither an expensive or tedious treatment. Since then I have had no scalp trouble of any kind. Standing up, with my hair unbound, it comes to my knees and had it not been for Cuticura I should doubtless be wholly bald."

"This is a voluntary, unsolicited testimonial and I take pleasure in writing it, hoping my experience may help someone else. Miss Lillian Brown, R. F. D. 1, Liberty, Mo., Oct. 29, 1909."

Women have been known to shake hands for the purpose of trying to shake secrets out of each other.

Notorious tankards enable you to water your bottle in Nature's way at small cost. Beware of cheap. Alamo Iron Works, San Antonio, Texas.

There is no help for a man who is too lazy to work his friends.

WOULD BE OF MORE VALUE

Father O'Leary's Facetious Rejoinder to John Philpot Curran an Example of Real Wit.

One day the famous John Philpot Curran, who was also very partial to the said corned mutton, did me the honor to meet him. To enjoy the society of such men was an intellectual treat. They were great friends and seemed to have a mutual respect for each other's talent, and, as it may easily be imagined, O'Leary versus Curran was no bad match.

One day after dinner Curran said to him: "Reverend father, I wish you were St. Peter."

"And why, counselor, would you wish that I were St. Peter?" asked O'Leary.

"Because, reverend father, in that case," said Curran, "you would have the keys of heaven, and you could let me in."

"By my honor and conscience, counselor," replied the divine, "it would be better for you that I had the keys of the other place, then I could let you out."

Curran enjoyed the joke, which he admitted had a good deal of justice in it.—From Kelly's Reminiscences.

WELL AT LAST.

Terrible Kidney Trouble Cured After Doctors Gave Up Hope.

Mrs. F. M. Hill, 188 W. 10th St., Waterloo, Iowa, says: "It makes me shudder to think of my awful suffering. I was languid and weak and never free from dull pain in my back. My hands puffed and my feet became so swollen I could not wear my shoes. The kidney secretions were painful and frequent in passage. I gradually grew weaker until the doctors gave up hope. It was then I began with Doan's Kidney Pills and soon improved. Continued use cured me."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

AN EFFORT TO OBLIGE.

Mr. Lowbrow does his best to be agreeable," said the sympathetic young woman. "It's too bad that he has so little tact."

"I understand that Miss Coddlelop refuses to speak to him. He sent her a box of candy and she fed it all to her pet terrier. So he tried to be still more kind and thoughtful and sent her a box of dog biscuit."

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescription from a reliable physician. As the danger they will do is too told to the good you can possibly derive from them, Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. It cures Catarrh of the Nose, Throat, Lungs, and Bronchia. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co., Manufacturers. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

The Preface to Trade.

"I had a curious experience yesterday," said Farmer Cornatossel.

"What was it?"

"A stranger came along and told me a funny story and didn't try to sell me anything."

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *Chas. H. Fletcher*.

In Use For Over 30 Years. The Kind You Have Always Bought.

Too Free.

Seymour—What caused the Allcome Life Insurance company to fail?

Ashley—it was altogether too free in accepting risks. I don't believe it would have even refused to insure the life of a turkey the day before Thanksgiving.

ED GEERS, "The grand old man," he is called for he is so honest handling horses in races. He says: "I have used SPOHN'S DISTEMPER CURE for 12 years, always with best success. It is the only remedy I know to cure all forms of distemper and prevent horses in some stable having the disease." \$6 and \$1 a bottle. All druggists, or manufacturers, Spohn Medical Co., Chemists, Goshen, Ind.

Cheap.

Howell—Every man has his price. Powell—Well, I wouldn't have to borrow money to pay yours.

TO DRIVE OUT MALARIA. Take the OLD SPANISH GROVER EASTERN CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a palatable form. The Quinine drives out the malarial and the Iron builds up the system. Sold by all dealers for 25 cents. Price 50 cents.

And many a man's reputation for honesty is due to his having put aside temptation that didn't tempt.

Your cattle always have pure water at small cost to you if you have a bottomless tank. Model "A" Free. Alamo Iron Works, San Antonio, Texas.

The worst debt is the one who refuses to pay a debt of gratitude.

Levi's Single Binder sign. Original Tin Fall Smoker Package, is straight.

Stance may give consent or it may give offense.

CALUMET BAKING POWDER

The wonder of baking powders—Calumet. Wonderful in its raising powers—its uniformity, its never failing results, its purity.

Wonderful in its economy. It costs less than the high-price trust brands, but it is worth as much. It costs a trifle more than the cheap and big can kinds—it is worth more. But proves its real economy in the baking.

Use CALUMET—the Modern Baking Powder.

At all Grocers.

Received Highest Award World's Pure Food Exposition

"Two bottles Cured My Rheumatism"

"I have been a sufferer from rheumatism for about two years, and have used many liniments and patent medicines which gave me no relief. A lady friend of mine told me she had used your Liniment and found relief at once. I got two bottles and they cured me. I think it is the best Liniment a person can have in the house. I shall always keep a bottle in my house as long as I can get it."—Mrs. E. R. WALLACE, Morrisons, Va.

Another Letter.

Mrs. JAMES MCGRAW, of 1216 Mandeville St., New Orleans, La., writes:— "I take pleasure in writing to you that I had a pain in my arm for five years, and I used

SLOAN'S LINIMENT

for one week and was completely cured. I recommend your Liniment very highly."

Sloan's Liniment instantly relieves stiffness of the Joints, Sore Throat, Hoarseness, Sprains, Neuralgia, Sciatica and Lumbago. Better and cheaper than porous plasters.

At All Druggists. Price 25c., 50c. and \$1.00

PUBLISHED EVERY SATURDAY MORNING

It is a punishable offense to sell rotten eggs in Texas. The law applies to handlers of eggs from the farmer to the retailer. Last week a party sold the Farmers Restaurant a pail of eggs and more than two-thirds of them were rotten. This man either sold them knowingly or unknowingly, we won't attempt to say, but in our opinion he knew that they were unfit for use—Rule Review.

The Free Press has often thought of the damage done to farmers by spoiled eggs finding their way to market. Some times eggs are carelessly handled and become spoiled, but we have seen whole batches of eggs that had chickens in them with feathers on, that were purchased by grocery men from some one who must have known they were swindling. Such cases as this is what sends the egg market off just at the time the hens are laying the most eggs. In the great majority of cases, eggs become stale in the nest. It looks to us undesignate it would be a good idea for the Farmers Union to take up debilitated and eradicate the stale egg. It will pay to do it. Stale butter is another evil, but it affects butter breath with assumption and price.

Mr. G. B. Gauntt of Rule, filed at our office Thursday and subscribed for the Free Press. Mr. Gauntt was attending the Dry Farming Congress and is very much interested. He is also a patron of the Haskell Creamery and manifested the deepest interest in its success. In conversation with Mr. Gauntt we learned that he came to Haskell county three years ago and started in with three cows and eleven heifers. He has kept an account for 1909 and 1910, of the proceeds of his dairy products and below we give figures from his account which he consented for us to use in this article, viz:

1909 he had nine cows,	butter sold.....\$781.00
Sold hogs fed on milk.....	200.00
Total.....	\$981.00
To Oct. 15, 1910, with ten	cows, butter sold.....\$700.00
Hogs sold.....	150.00
Sold to Creamery, butter	fat.....218.40
Cows and calves sold.....	238.00
Total.....	\$1,326.00

Both years he raised his own meat and sold \$2,257.40 worth of products. He now has 17 head of dairy cattle valued at \$850.

He said he always got 25 cents per pound for his butter, but since he had been patronizing the Haskell Creamery he had realized more from his milk and had less trouble with it than when he made and sold his butter at 25 cts. Now we reproduce this for what it may be worth for the benefit of our former

friends. We have no advice to give but give the facts for what they are worth.

IT'S A BAD WIND THAT BLOWS NOBODY GOOD.

Young Friends, if crops are short and business dull in your community, there is no better time for you to secure a practical business training for which the business world is anxious to pay cash than now. The sooner you qualify, the sooner you will have the privilege of selecting a successful vocation. With a thorough practical course of Bookkeeping, Business Training, Shorthand, Typewriting, or Telegraphy, you are not compelled to work at any one thing in any one section of the country. You can keep books, do shorthand work or operating for some one else; you can work into a firm as a partner, go into business for yourself, work your way through a law school or any professional course by doing the stenographic work of the President of the institution at your spare moments; you can work your way to the presidency of a railroad thru the telegraph key or stenographers pencil, as many others have done. You can work your way to the head of a great business concern that will produce you large dividends besides a nice annual salary. In other words, you can soon work yourself up to where your scope of business will be sufficiently broadened that it will not be materially affected by all local drouth.

For facts as to the great advantages of the above named courses, and for the names and addresses of many of our former pupils who have advanced you would be proud to occupy, fill in and mail the following blank to the Tyler Commercial College, Tyler, Texas, and receive our large beautifully illustrated catalogue. Lets get down to business; if you are not making the money the money that will give you a comfortable living and advancement, it is a business proposition to you that you be developing your ability along practical lines for which the business would pay cash, so that you can move onward and upward. What we have done for thousands of others, we can do for you, and we can convince you with facts before you leave home. It doesn't take much money to attend our school and an honest purpose and a lot of determination are the main requirements.

A test in spelling between the Stamford and Haskell High Schools was held last Friday. The same words were used in both schools but owing to a misunderstanding, the same rules were not used in both schools Stamford grades were very much lower than the grades of Haskell because of the different in conditions; in writing therefore we only give a list of those making a perfect grade in the Haskell High School:

Seniors; Earl Atchison, Earnest Grissom, Maggie Hill, Allie Irby, Raymond Lewis, Claudis Walden. Juniors; Lee Killingsworth, Allene Couch, Ben Clifton, Louise Davis, Dorcas Fox, Kate Clough, Curtis Ballaro, Horace Meyers, Myrtle Roberts, Mattie Craddock, Jimmie Kinnard, Rubye Bevers; Ruth Haley, Florence French, Grady French, Marguerite Moore, Homer Hutchins, Myrtle Foster, Elma Kinnard, Essie Crow, Winnie Langford, Zelma Ferguson.

Sophomores; Eustace Hutchins, Paul Loven, Kate Duke, Brevard Long, Clyde Grissom, Walter Holt, William Polston, Pearl Williams, Laura Huckabee, Frank Curry, Nina Morris.

Freshmen; Frank Boyd, Angie Smith, Ira Swope, Ray Lancaster, Bailey Collins, Fred Mauldin, Jeanette McCulloh, Annie Eastland, Olive Meadows, Narine Click, Bess Roberts, Gail Wingo, Willis Grace Stevens, Addie Cobb, Abbey Norman, Maud Lambert, Vera Fitzgerald, Lucile Wyche, Annie Deen, Esther Wilfong and Mary Winn.

Other contests with Stamford have been arranged and the results will be reported from time to time. The other contests will be held under such conditions as will determine the best in spelling. Supt. Woodley prepared the list of words for this contest from words misspelled in papers and other written work prepared by the various High School departments during the past month. Supt. Lindsey will prepare the next list.

A statement of the work done by the grades will be given next week as the reports are not all in.

Mr. A. Icyda from Japan made

a very interesting talk at Chapel last Monday morning, on schools of Japan.

Nixon Halmark was out of school a few days last week on account of sickness. We are glad to have him back again.

Haskell High School and Stamford High School [will have another spelling match soon.

Last Friday, the end of the second school month, most of the rooms had their quarter holiday. Hurry up slow polkes and fall in line.

The tenth grade A are having some real puzzling geometry propositions this week. Hutchens seems to be the "Star."

The High School second team were victorious over the Southward girls last Thursday evening, by a score of 14 to 8.

Mr. Grady French is fastly becoming fond of pictures.

Miss Haldon and Mr. Berry were loyal to the Basket Ball teams last Saturday.

The Basket Ball boys and girls will go to Abilene next Thursday for a game with Simmons.

Quite a number went to see the sights of Japan Monday night thirty per cent of the proceeds went to the Atheleite Association.

I would say something about the Basket Ball games we had at Stamford but, guess it would not do to tell "Especially the boys game."

A Victim.

WE WILL GIVE YOU 3,000 lbs. Hulls,
1,000 lbs. Meal,
4,000 lbs. for 2,000 lbs. of SOUND, CLEAN,
COTTON SEED.

In other words we propose to give the farmer double in feed value for each ton of Seed. We limit the amount of exchange to two tons of Seed to each man, as this offer is made exclusively for the benefit of the farmer and to advertise the feed value of Cotton Seed products.

To those who have had experience, it is useless to point out the advantage of Cotton Seed Meal and Hulls over any other feed as a food for stock. Not a Dairyman in the country will feed Cotton Seed or any other feed, when Cotton Seed Meal and Hulls can be had.

For feeding Horses and Mules, fattening Cattle, Hogs and Poultry:

1 pound of Cotton Seed Meal is worth
2 pounds of Corn,
2 pounds Oats,
4 pounds of Wheat Bran.

For producing Milk and Butter, one pound of Cotton Seed Meal and Hulls mixed about one to four, is worth:

2 pounds of Corn,
2 1-2 pounds of Wheat Bran.
3 pounds of Cotton Seed.

Figures below are based on Bulletin No. 11 of U. S. Department of Agriculture.

Comparative per cent of feed units in

Cotton Seed Meal 51.76 per cent

One-half the weight is nourishment.

Wheat Bran 19.40 per cent

One fifth only is nourishment

Corn Meal 13.34 per cent

One eighth only is nourishment

Comparative cost per food unit

Corn Meal at \$1.50 per 100 pounds

11 cents per feed unit

Wheat Bran at \$1.50 per 100 pounds

9 1-2 cents per feed unit

Cotton Seed at \$1.50 per 100 pounds

3 cents per feed unit

Cotton Seed Meal mixed with Hulls form a 'balance ration,' giving better results, increased Milk and Butter production in cows, and in flesh, fat and general condition in all animals, than any other feed in the world. Every farmer should take advantage of this offer, which is the most liberal ever made by an oil mill.

Bring your seed to the Oil Mill at Haskell, any day, as we have Cotton Seed Meal and Hulls on hand all the time. You can bring your Seed now and get the Cotton Seed Meal and Hulls any time at your convenience, within sixty days.

WESTERN COTTON, OIL & GIN COMPANY.

HASKELL,

TEXAS.

In Paris, where one may visit the Street of the Fourth of September, it will be possible presently to traverse also the Street of Edward VII. By designation in the latter instance France will honor a late great and good English friend; in the other case the beginning after Sedan is commemorated of the present republic. Considering the array of New York streets and avenues running to arithmetical terms, we are reminded how far we have neglected memorial opportunities in the naming of our thoroughfares. Certainly we have honored Washington in New York—several times, indeed, in the several boroughs, says the New York World. We have Lafayette in street and avenue, and did have him in boulevard till Riverside drive was extended. A few other names we have remembered of men great in state or nation. There are perpetuations, too, of the names of old local families. But where is our Avenue of the Declaration of Independence? Where our Boulevard of the Surrender of Yorktown and our Place of the Emancipation Proclamation. In the absence of such historic designations for important thoroughfares is a real metropolitan deficiency. Newer New York offers abundant chance to remove the fault. But instead of suggestions to this end we have a change of name for fine old Long Acre square, and a proposal is actually made to wipe out the famous old Bowery? We are not a sentimental people.

Whaling formerly was extensively carried on and was a perilous occupation. The business is not yet free from danger, notwithstanding "modern improvements." In the earlier days the chief risk was to the crews of the whale boats which put out to harpoon and follow the big cetaceans. Then it was a case of hunting the whale, with the latter frequently turning on the boats and smashing them, the men thus being menaced with drowning. Now the tables seem to be turned to a certain extent, and the whales hunt the ships. At all events news comes from Alaska that a whaler was wrecked in Alaskan waters by a whale which had been harpooned and which gave the vessel such a crushing blow with its powerful tail that the ship sank in four minutes, the crew having barely time to take to the boats, in which they reached the shore.

A customs official in New York advocates prison sentences for wealthy smugglers, as he declares fines have no deterrent effect. This applies to all rich violators of the law. Fines may not please them, but they can afford a money penalty, when interest or pleasure tempts them to the breaking of the law, as a fine simply buys them immunity from the disgrace of jail and the inconvenience of losing their personal liberty. A few jail sentences in such cases would have an almost immediate reformatory effect.

A Chicago physician declares that the armor-plate mince pie diet of the average American is causing a deterioration of the American race. Evidently he never knew anything about the kind of mince pie mother used to make.

The United States produced corn this year at the rate of \$14,000,000 a day—a dreadnaught a day, if any foreign country cares to figure it that way. And there were a few other crops.

A woman in Chicago wants a divorce, charging that her husband tries too hard to make himself beautiful. In this respect she declares he has not behaved handsomely.

Now that the scientists have found the exact weight of mother earth the old lady will probably be so embarrassed that she'll have to remain at home for all time.

European travel, we are informed, is bad for the temper. For once no mention is made of the very necessary pocketbook.

A New Jersey savant says mosquitoes would rather eat plants. If so, the ones we have are blamed self-sacrificing.

A Boston milliner's shop has been raided as a policy joint. As if a milliner's shop didn't get a man's money fast enough as it is.

Cleveland has gone ahead of Baltimore in population, which may be taken as proof that they did not count in the oysters in the latter city.

Vacations may not be mandatory as that New York justice rules, but no one will deny that they are enjoyable.

IT'S DEMOCRATIC TIMES

Four, Big States Elect Democratic Governors in Spite of Virile Republican Opposition.

COLQUITT SHOWS 130,000 MAJORITY

The House Will Be Comfortably Democratic, and the Republican Senatorial Lead Will Be Materially Reduced.

Dallas, Nov. 11.—This is a year of Democratic voting. Altho the Republicans will have a large majority in the Senate, the House is easily and largely Democratic. The upheaval which so many predicted has come, the only difference in the prophecy and the performance being in somewhat smaller majorities than were anticipated.

John A. Dix is elected Governor of New York by not less than 63,000; Woodrow Wilson, Governor of New Jersey, by about 15,000; Eugene N. Foss, Governor of Massachusetts, by a small plurality, and Judson Harmon, Governor of Ohio, by probably 15,000. These states have been counted among rock-ribbed Republican strongholds. Detailed information cannot be obtained, probably for some days, but the following summary will give a general idea of the important points of the situation:

New York.—John A. Dix, Dem., candidate for Governor, is elected over Henry L. Stimson, Rep., by a plurality of about 65,000.

New Jersey.—Woodrow Wilson, Dem., candidate for Governor, is elected over Vivian M. Lewis, Rep., by about 15,000 or 20,000 plurality.

Massachusetts.—Democrats won the State election in Massachusetts and placed Congressman Eugene N. Foss, a former Republican, in the chair occupied by Gov. Draper for the last two years. In the Third Congress-

as against a plurality of 12,000 at the last election, was the outcome of a close contest. The incoming General Assembly will be largely Republican. It will have the choice of a successor to United States Senator Nelson W. Aldrich.

Tennessee.—Fusion candidate, B. W. Hooper, is apparently elected by 15,000 plurality.

Missouri.—Missouri returned to the Democratic fold by a good majority. Prohibition was overwhelmingly defeated. The Senatorial race between Francis and Reed is close, with indications in Reed's favor.

California.—Hiram W. Johnson, insurgent Republican, has been elected Governor of California by 30,000 to 40,000 majority. The entire Republican ticket is safely elected, including the eight Congressmen, of which three are insurgents. In the Fourth Congressional District, which consists of a large portion of the city of San Francisco, Julius Kahn has been re-elected.

Nebraska.—Seventy-five out of eighty-six precincts in Douglas County (Omaha) give Dahlman, Democratic candidate for Governor, 16,813; Aldrich 8,804. The Omaha Bee concedes the county to Dahlman by 8,500, and gives about the same majority to Hitchcock, Dem., over Burkett for United States Senator.

Michigan.—Charles S. Osborn, the Republican candidate for Governor,

twenty towns and wards in New Hampshire out of 290 give Base Rep., 13,131, Car, Dem., 10,491.

Minnesota.—Scattering returns from over Minnesota including Minneapolis and St. Paul, indicate that Eberhart, Rep., is elected Governor by over 30,000 majority. Frank Day, chairman of the Democratic State Committee, says that these figures are probably correct.

Oklahoma.—With incomplete returns the Democrats seem to have carried the State ticket in Oklahoma, but both sides claim victory.

Delaware.—Indications are that the Republicans have carried the State, including a majority in both houses of the Legislature. If this shall be borne out by later returns it will mean the re-election of Senator Dupont, Rep.

Michigan.—Chase S. Osborn, Sault Ste. Marie, formerly Railroad Commissioner, was elected Governor of Michigan by a plurality estimated at 90,000. The entire Republican State ticket and all but a score of Republican candidates for the Legislature also were victorious.

Indiana.—While the early returns indicate tonight that the Democrats will elect their State ticket, yet the race is so close that the result is doubtful. It is not improbably that eleven of the thirteen Congressmen from this State will be Democrats.

Kansas.—Gov. W. R. Stubbs, Rep., has undoubtedly been elected to succeed himself, but by a decreased majority. Stubbs is running behind in Topeka. Six of eight Republican Congressmen will be returned, it appears.

Texas comes up smiling under the usual Democratic majorities. Colquitt will have a plurality of 130,000 to 150,000; the entire Senate seems to be Democratic, the Real, Rep., and Bee, Dem., both claim to have carried the San Antonio District. In the lower house Bierschwale and Werner, Reps., both appear to have been re-elected.

The returns show that the vote was unusually light, probably about 230,000 or 30 per cent less than in 1908. Nevertheless, Mr. Colquitt's majority, it seems, will be only slightly less than that of Gov. Campbell. His Republican opponent, Judge Terrell, received only about 80 per cent as many votes as Simpson in 1908, it seems from the partial returns. However, Houston, Prohibitionist, has evidently polled about fifteen times as many votes as Heath did in 1908. The Socialists' candidates have not done so well.

Mr. Colquitt's plurality, it seems, will be about 130,000. Gov. Campbell's plurality was 129,119 in a total vote of 304,209.

Representative W. W. Cocks, who has been in Congress since 1905, was defeated by Martin W. Littleton, Democrat, in the First Congressional District, which takes in the eastern part of Long Island.

The Kansas City Times quoted the State committee as saying that James A. Reed had defeated David R. Francis for the Democratic nomination for United States Senator. The Times estimated that prohibition was defeated by 100,000.

At 11 o'clock last night returns from 58 out of 156 of the New York assembly districts show that the Democrats had gained thirteen seats. Of this gain, five seats were in Manhattan and the Bronx and eight up-State. If this ratio is maintained the Democrats will have 86 seats out of 158 in the lower house, a majority of eight.

First Aeroplane Freight Delivery, Columbus, O.: Phil O. Parmelee, of Michigan, one of the Wright brothers' aeroplane operators, has made the fastest cross country flight ever made in a biplane. Parmelee flew from Dayton direct to Columbus, passing over South Charleston and London. The distance is sixty-five miles and the flight was made in sixty-six minutes. Parmelee carried \$1,000 worth of silk for a dry goods firm and it is said that this is the first time that the biplane has been put to such commercial use. Parmelee flew at a height of 3,000 feet.

Heavy Loss in Oil Mill Fire. Dallas: Fire Tuesday night, commencing early and raging until practically midnight, destroyed the immense seed warehouse of the Trinity Cotton Oil Company, damaged its seed-cleaning machinery and wiped from existence a number of loaded freight cars side-tracked at the plant, the loss to the plant alone being estimated at \$275,000 to \$300,000, which is said to be covered by insurance.

The warehouse, covering half a block, was three-quarters filled with seed, the tracks holding twenty-two cars, were filled with rolling stock, and a line of tank cars stood on an opposite siding when the fire was discovered.

Secretary of War Dickinson has arrived in New York after a trip around the world.

Fritz Bauer, an aged man, was Great Northern yards at Taylor. His skull was crushed by a blow over the right eye with a heavy weapon. The victim's wife was drowned in a creek near town a year ago.

Twenty-two National banks came into existence in October with a total capitalization of \$2,500,000. The majority were small banks with capital of \$50,000 or less. The total National circulation is now \$724,874,908, an increase of about \$4,000,000 over last

PARLIAMENT FOR CHINA.

Official Edict Issued by Throne Answering Popular Demand.

Pekin: An official decree has been issued announcing that an Imperial Parliament, the first in the history of China, would be convoked in 1913.

This is a concession on the part of the throne to the demands of the recently constituted Senate and delegations of the provisional assemblage which recently memorialized the Government in behalf of the early Constitution of a general legislative body.

The service sets forth the Parliament would be convened in three years. The police went from house to house informing the occupants of the edict. Presently the dragon banner and paper lanterns appeared above every door. Beyond this there was no public manifestation over the news.

STANDARD ON THE RACK.

"Blind Billing" is Charged in a Large Number of Instances.

Jackson, Tenn.: After months spent in preparation by eminent counsel for both parties to the issue, the Standard Oil Company of Indiana will be brought to bar in the Federal Court here Wednesday to answer to various and sundry alleged violations of the Sherman anti-trust law. Briefly, it is charged that the oil company accepted concessions from several railroad companies on shipments of petroleum and petroleum products to points in the South and Southeast, "blind billed" through Grand Junction, Tenn.

The case is considered of equal importance to the suits heard at Chicago by Judge Kenesaw M. Landis, which terminated in the unprecedented fine of more than \$29,000,000. In the event of conviction on all counts a greater amount than that fixed by Judge Landis may be assessed, the maximum penalty possibly aggregating \$30,084,000. The minimum is \$1,524,000.

Breadstuffs Exports Decline.

Washington: Decrease in the exports of breadstuffs from the United States for the first nine months of this year over the corresponding period of last year is shown in a report issued by the Bureau of Statistics of the Department of Commerce and Labor. From \$132,492,242 worth for the first nine months of 1908 and \$82,651,552 for 1909, the total for the same period of 1910 has dropped to \$94,462,540.

To Utilize Marble Falls Power.

Georgetown: Messrs. W. H. Zimmerman and C. E. Alexander of Marble Falls were here in the interest of the proposition to furnish power for light, water and manufacturing purposes from the dam across the Colorado River at Marble Falls. Messrs. Zimmerman and Alexander have under contemplation the completion of a circuit from Marble Falls to Temple via Georgetown, Taylor, Granger and Bartlett.

Cotton Broker Arrested.

Fort Worth: Upon a complaint sworn to by W. J. Williams, one of the city detectives, Justice of the Peace R. F. Peden issued a warrant for the arrest of D. V. Liddell, a former cotton broker of Shawnee, Okla. The allegation is that prior to Nov. 4, 1910, the said Liddell, while in the employ of one Joe Doe in Pottawatomie County, Oklahoma, did embezzle \$10,000 and that the said Liddell came to Texas from Oklahoma.

"Legislature Rest" Popular.

Austin: O. B. Colquitt, Democratic nominee for Governor, has received a cordial invitation to visit Boston, Mass., while on his proposed Eastern trip. The Boston business men and financiers are anxious to meet the next governor of Texas, especially since he was elected on a platform of "legislative rest and political peace." It is a slogan that has apparently interested the money center of New England, which has some large investments in Texas.

The first train to leave Coleman for Sweetwater made its run Monday.

It will probably require a year to complete the line from Sweetwater to Texico.

The proposed Constitutional amendment which provides for a bond issue of \$6,500,000 in support of the world's Panama exposition at New Orleans will be adopted by an overwhelming majority at the general election next Tuesday.

The Bank of Jefferson, Okla., a small town north of Enid, was burglarized one night last week, the safe being blown with nitroglycerin. A package of currency, \$4,000, was taken, another package of bills amounting to about \$1,000 being overlooked. This is the second safe blown at Jefferson within ten days, the post office being rifled last Friday night.

The Rock Island has moved into the new depot at Bridgeport.

Five men were killed in a mine explosion thirty miles south of Birmingham, Ala. In the same mines sixty-five men have been killed by previous explosions.

Albert Mathews, a young negro man, was fined \$1,000 in the District Court at Corsicana on a charge of aggravated assault on a negro.

Houston and Texas Central reports September operations as follows: 1910 operating revenue \$618,131; increase \$32,785; net after tax \$236,694; increase \$22,521.

HON. OSCAR BRANCH COLQUITT.

al District Congressman Charles Washburn, Rep., was defeated by John A. Thayer, Dem.

Connecticut.—Under the leadership of Judge Simeon E. Baldwin, Democrats won a victory which promises to be one of the greatest in the history of the party in Connecticut.

New Hampshire.—The election as Governor of Robert H. Bass of Peterboro, was indicated last night by returns from about one-half the towns and wards of the State. These early figures would give Bass a majority of 60,000 votes over his Democratic opponent.

Ohio.—Judson Harmon, Democratic candidate for re-election, appears to have carried the State by about 15,000.

Pennsylvania.—John K. Tener, Rep., carried the State by about 25,000 plurality. The Democrats gained two Congressmen with three close districts to hear from. Democrats captured the Fifth Congressional District in Philadelphia, which two years ago gave W. W. Foulkerod a majority of 13,268. The Socialists elected their first member to the Legislature, Michael Donihue, Dem., defeated Foulkerod, by 2,000 majority.

Rhode Island.—The re-election of Aram J. Fother Rep., as Governor of Rhode Island by a plurality of 1,200

A general uprising in Honduras, with all of the old enemies of President Davila participating in the movement for his overthrow is imminent, according to advices, brought by passengers of the steamer Orleanian from Ceiba and Puerto Cortez.

The greatest oil well in Texas was brought in by the Producers' Oil Company at Markham, who several days ago purchased the holdings of the Cism Oil Company. This well was practically finished by the latter company. The estimated flow is 5,000 barrels per day.

Gus Orn, a Swedish resident near Burbiund, on the Katy Railroad, was run over by a train and his body was completely cut in two.

In an effort to move the shops and round house from Sweetwater to San Angelo, the Kansas City, Mexico and Orient railway has filed an application for a writ of error and the case will go to the supreme court.

Workers in Otis Elevator company's plant at Houston went out on a strike because the company was at odds with the man in Chicago.

appears to have a safe lead. Iowa.—Democrats claim the election of Claude R. Porter for Governor.

Florida.—Locally optionists carried Florida by from 3,000 to 5,000.

Virginia.—First returns from Second Virginia District, coming from Virginia Beach, shows: Holland, Dem., 33, Ruble, Rep., 31; against all constitutional amendments 47, for amendments 0.

West Virginia.—In Cabell County at the close of the polls the Democrats gain one member of the State Legislature. In Clay County the Democrats also claim a gain of one member of the Legislature.

Wisconsin.—The election of the Republican candidate for Governor, Francis E. McGovern, is claimed by a reduced majority, and the return of Senator La Follette to the United States Senate is assured.

Idaho.—Scattering returns from the State, however, indicate a Republican victory.

North Carolina.—Indications are that the majority in North Carolina will exceed 42,000. Report from the Fifth Congressional District are that Steadman, Dem., is elected. Republicans and Democrats are claiming the Eighth and Ninth Districts. All other districts appear Democratic.

New Hampshire.—One hundred and

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound.

De Forest, Wis.—"After an operation four years ago I had pains downward in both sides, backache, and a weakness. The doctor wanted me to have another operation. I took Lydia E. Pinkham's Vegetable Compound and I am entirely cured of my troubles."

Another Operation Avoided. New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first, and was saved from an operation."—Mrs. L. E. PERRY, 1111 Carondelet St., New Orleans, La.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer. If you want special advice about your case write to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

To Cure Your Pimples.

Take a cup of GRAND M A'S TEA every night before retiring. Pleasant to take and marvelous results in two weeks. Package 25 cents.

He Was a Boston Boy. "Your little boy must be very intelligent," said a visitor to a Boston school teacher whose five-year-old son was learning Greek words with building blocks. "Intelligent!" exclaimed the proud parent. "He is phenomenally gifted. As an example of his early erudition, what do you suppose were the first words he ever spoke?" "Papa" and "mamma?" "Stuff and nonsense!" ejaculated the father, in a tone of disgust. "Why, the day he was 12 months old he suddenly laid down his algebra and said to me: 'Father, the longer I live the more indubitable proofs I perceive that there is in Boston as much culture to the square inch as there ever was in the ambient air of ancient Athens!'"

Good Arrangement.

A genial looking gentleman wanted an empty bottle in which to mix a solution, and went to a chemist's to purchase one. Selecting one that answered his purpose he asked the shopman how much it would cost. "Well," was the reply, "if you want the empty bottle it is a penny, but if you want anything in it you can have it for nothing." "Well, that's fair," said the customer; "put in a cork."

A Terrified Hero.

"Did you have any narrow escapes in the surf last summer?" "Yes," replied the life-saver. "One lady whom I rescued was so grateful that she nearly married me."

MOVED

We have moved our Tailor Shop one door north of Merchants Cafe. Better prepared to give you the best there is in the special order tailoring, cleaning and pressing. Our shop is in charge of an expert who can clean and repair anything from a Circus Tent to a fine Stetson Hat. A trial will convince the most critical that he knows the business.

Get acquainted with him, you won't go round.

Model Tailoring Company.

Next door C. M. Hunt & Co.

Door above Merchants Cafe.

PROGRAM

HASKELL COUNTY TEACHERS' INSTITUTE.

MEETING TO BE HELD IN HIGH SCHOOL BUILDING AT HASKELL.

November 14th to 18th, 1910.

Haskell County Teachers' Institute will convene at 9:00 a. m., November the 14th, and continues for one week, closing November the 18th.

Each teacher is required by law to attend and to take part in the institute work. If you are not able physically to attend you should furnish a certificate from a physician. It is hoped that every teacher in the county will be present promptly at 9:00 o'clock Monday morning. The teachers of Haskell County are to be commended for their regular and prompt attendance and for their faithful efforts in the institute work during the past.

A list of general topics have been prepared and sent out for the teachers to study. These topics will constitute the subject matter for the general work. Teachers should have at least one of the following books:

"The School and Its Life," Silver Burdett & Co.; "White's School Management," A. H. Wilkins Co.; "Civics and Health," Gin & Co.; "Seeley's School Management," Hinds, Noble & Ethredge; "The Teacher and The School," Scribners; "The Recitation," Lippincott; "Sander's Managements and Methods," and others.

"The Teacher and the School" is especially recommended to teachers.

The teachers of the rural districts and the teachers of the independent districts have agreed to furnish exhibit work of the various subjects which they teach. There will be an Art exhibit day during the institute.

Teachers should make special request to their trustees to be present. Try to have a trustee to represent your district on the Trustees' day.

Yours truly,
T. C. WILLIAMS,
County Supt. Schools.

Prominent Educators To Be Present.

A. S. Blankenship, University of Texas.
R. J. Turventine, President

Stamford Collegiate Institute.
County Supt. L. T. Cunningham, Jones County.
Supt. T. L. Toland, Wichita Falls.
Supt. Yoe, Hamlin.
Supt. Lindsey, Stamford.
Supt. Clark, Anson.

MONDAY.

- Opening Exercises.
 - Song.
 - Invocation.
 - Announcements.
- The making of the Teacher.
 - Mechanical Imitation.
 - Inquiring Stage.
 - Philosophic Stage.
- Sectional Work.
 - Primary Work.
 - Writing and Drawing.
 - In the city school.
 - In the country school.
 - How much to expect and materials used.
 - How to manage.
 - Grade work.
 - How much to teach.
 - How much time should be spent each day.
 - High School Work.
 - Organization of the High School work.
 - Relation of High school teachers to superintendent.
 - Relation of High school pupils to superintendent.
 - Relation of Superintendent to High School pupils and teachers.
 - An Address.
 - Written Work.
 - Topics from one to seven.
 - Duties of the Teacher on the play ground.

TUESDAY.

- Opening Exercises.
 - Music.
 - Male Quartet.
 - Address.
- School and School Life.
 - Agencies and Ideals of school life.
- Sectional Work.
 - Primary Work.
 - Number work.
 - Devices and methods of teaching.
 - How much work should be done.
 - Phonics.
 - The importance of Phonics.
 - Grade Work.
 - Arithmetic--Mental and Written.
 - Recitation. Teacher. Class.
 - Too much talk by the teacher during recitation.
 - Should the teacher solve problems for the pupils.

- High School Work.
 - Organization (continued.)
 - The relation of the student body to the teacher, superintendent and school.
 - Mathematics.
 - How much arithmetic should be taught.
 - When should Algebra begin.
- Written Work.
 - Topics from seven to fifteen.
- Address.

WEDNESDAY.

- Opening Exercises.
- Music.
- Address.
- Sectional Work.
 - Primary Work.
 - Reading.
 - The word method, the sense method and phonic method.
 - Oral expression should have special attention.
 - Grade Work.
 - Language and Written work.
 - Reading.
 - Oral expression.
 - High School Work.
 - English.
 - How much to expect of pupils in composition work.
 - Estimating the child's ability in thought finding.
 - The importance of expression.
 - Letter writing.
 - History.
 - Methods of teaching.
 - Trustees' Program, 1:30 p. m.
 - Some improvements which should be made.
 - Providing water and method of drinking.
 - Care for school property.
 - Some things the trustees should expect of the teachers.
 - Some things the trustees should expect of the pupils and patrons.
 - The trustees' obligation to the community.
 - Providing a library.
 - Mothers' Club Program.
 - Greeting from the State President, Mrs. J. N. Porter.--Read by Mrs. Oates.
 - Object and purpose of the organization.--Mrs. Posey.
 - Needs of such an organization.--Mrs. Elkins.
 - How to organize.--Mrs. Scott.
 - The work of the Haskell Mothers' Club.--Mrs. Parsons and others.
 - History of the Mothers' Club.--A. S. Blankenship.

THURSDAY.

- Opening Exercises.
 - Music.
 - Address.
- The Teacher as an organizer. The Teacher as an instructor.
- Exhibit Work.
- Sectional Work.
 - Primary Work.
 - Busy Work.
 - Material and how to keep pupils busy.
 - Physical training.
 - Grade Work.
 - Spelling.
 - Method of teaching.
 - How many words for a lesson.
 - Physiology.
 - Its place in the course study and the importance of the subject to the child.
 - High School Work.
 - Science.
 - A practical course for the High School.
 - Should physical geography be taught below the High School.
 - Written Work.
 - Topics from fifteen to twenty-one.

FRIDAY.

- Opening Exercises.
- A recitation in geography. The institute, the class.
- Written Work.
 - Topics from twenty-one to twenty-six.
 - Inter-relation of school board,

- patron and teacher.
- Sectional Work.
 - Independent District Teachers.
 - The individual responsibility of each teacher.
 - The course of study the teacher's guide.
 - The unity of the student body, teachers and superintendent.
 - Rural District Teachers.
 - The course of study.
 - Monthly report.
 - Graduation of pupils.
 - Certificate and diplomas.
 - Report cards and extra reports.
 - Daily Register.
- Adjournment.

Haskell City Teachers.

W. H. Woodley, Superintendent. I. G. McGee, Principal High School. J. H. Berry, Miss Ophelia Halden, Miss Eula Harper, Miss Etta Roebuck, Miss Nevada Baker, Miss Addie Tompkins, Miss Lourena Graham, J. L. Naylor, Principal South Ward. Miss Emma Thomas, Miss Hattie Marlin, Miss Eone Williams, Miss Della Kennon, Miss Stella Watson, Principal East Ward. Miss Edna Rosse, Miss Salome Anthony.

Rule Teachers.

At The Christian Church.

We will have services for the old people of the church Sunday morning at which there will be special music rendered. Everybody is invited to be present at these services which will commence with the Sunday School. At night both of our choirs will be represented in the singing. Mrs. Pitchford's class will sing at both services and Jno. L. Robertson's class will sing at night; besides Mrs. Baker will favor us with some music at the night services.

The public is cordially invited
Ranald McDonald,

B. Y. P. U. and S. S. Institute Program.

in Business Session--W. M. Wright.

4:00 Model Senior B. Y. P. U. in Devotional Session--S. M. Davis, Leader, Rule.

7:00 Me and Mr Bible--Charles Cole.

7:30 Delivery of Graduation Certificates.

7:50 Sermon--O. W. Dean.

There will be special music not mentioned in program.

The Committee requests that every member of the program shall prepare not only for his or her assignment, but for all the others as well. There may be a necessity for using you on the program other than as you appear. Then, a far better Institute will result.

Free entertainment for all who attend. A large attendance is anticipated. Rule swings wide open her gates of welcome.

For the best results, and those only worth the while to obtain, much prayer must be offered. It is the purpose of this proposed Institute to glorify the Master and to be of instructive use to those who attend. Your sincere soul prayer daily will mean the spiritual success of the meeting. The Committee therefore urges upon you to spend hours of prayer agonizing at a Throne of Grace for Divine Leadership, and to attend thru out the entire session.

MORRIS LEMMON.

A marriage of much interest to Haskell friends was solemnized Monday afternoon at 6 o'clock in the First Methodist Church when Miss Kate Lemmon of this city, and Dr. Morris of Spur were united in wedlock by Rev. C. B. Meadow, Pastor of the church.

In conformity with the brides special preference the wedding arrangements were the simplest. She color scheme of green and white was carried out in the church decorations, the altar being filled with white chrysanthemums and roses, with a background of green foliage.

Just before the entrance of the bridal party, Miss Boone, accompanied by Mrs. Baker on the piano, sang "All for you"

For the procession Mrs. Montgomery played Mendelssohn's "Wedding march" and during the ceremony, "Traumerei" by Schumann,

Miss Louise Lamar and Mr. Ed Waggoner entered first, by different aisles, followed by the bride and her maid of honor, Miss Geneve McWhirter of Fort Worth, and the groom with his best man Mr. Griffin of Spur.

The bride was beautiful in a gown of palest green messaline while the maids wore becoming costumes with picture hats.

Rev. Meador entered from the Pastors study, meeting the bridal party at the altar, pronouncing the impressive and beautiful marriage service of the church. Immediately after the ceremony the wedding gown was changed for a traveling suit of brown and the happy couple left for their future home in Spur, accompanied as far as Stamford by a number of their friends.

Miss Lemmon has grown from childhood to lovely young womanhood, in Haskell, and it is with regret that her many friends learn that her home will no longer be here.

Many beautiful and useful presents were received thus attesting the high regard in which this popular young couple are held. This young couple has the distinction of being the first to celebrate their marriage in the new church.

List Your Land With us and we will advertise and sell it for you. Sanders & Wilson.
