SCOT Notes

by Timmie Brown

Feb. 14, Valentine, is at and again-a good time to nd words of appreciation d remembrance to our ers and friends. Sherman unty Older Texans birth- y party is on the agenda at ot Hall on Friday, Feb. th at 7 p.m. Our listed rthday people are H.L. ennett, Frankie Lavake, ymond Dyess, Howard hridge, Irene Wakefield, d Parvin, Corda Pleyer, ad Reynolds, Madeline eeing, Dicy Stephenson, arie Hill, H. L. Little and ll Lasley. We trust you are oking forward to a pleasant ening of fellowship. Scot embers to wish these folks Happy Birthday" and irthday people to receive ur best wishes. Let us all be resent. Be careful all ay-its Friday, 13th!

A Christmas greeting from ora Boney Stimpson mpted us to read the ory of the Sherman Co. oneys in God Grass and rit. We were surprised to nd a report that Cora had led in 1968. However, Cora quite well and active. Her ddress is 1724 Cordell, enton, Tex. 76201. She did se a daughter and her own usband in 1986. Cora's unt, Cora Williams, is the Cora" who died in 1968. The Dallam-Hartley histo- y, is an historical treasure. hanks to Corda Pleyer for ending us her book; we have pent many hours of happy eading and recalling. Many eople whose family history s recorded in the book, have een important in develop- ng Sherman County, also. Ve are impressed by the iblical reference at the lose of the Preface to "The

Tale of Two Counties"- namely Deut. 31:30 to 32:7. Verse 7 quote. "Remember the days of old, consider the years of many generations: ask thy father, and he will show thee: thy elders and they will show thee". A good reason for these historical writings. We are looking forward to God, Grass and Grit Book 111. Our younger generation-4 Her's-have been busy making Sherman Co. history this last week showing the results of their 1986-87 effort. What they have accomplished is amazing. We spent a short time at the show.

Bernice Stubblefield's guest is her brother, Gordon Fedric and his son, Keith, of Malbern, Ark. Gordon has many other relatives and friends here who are enjoying his visit.

Our Sanders neighbors, Naomi, writer of Helpful Hints, and Zora, who has a "green thumb" have been ailing from attacks of the flu. Both are better, we are happy to say. These ladies are not related. They are our neighbors and live across the street from each other.

Thanks to Lorelyn Powers we have first hand reports from Sherman County Older Texans who are guests in Coon Memorial Home in Dalhart. Hazel Harris is busy as usual, Olive Boson and Olive Finch are not so well. Olive Pendleton Finch has lived in Dalhart many years, but we have always claimed her as a S.C.O.Timer. Newt Crabtree returned home Friday from High Plains Hospital and is doing well.

Dovie Fedric was taken to High Plains Hospital Friday according to a report from Lois Fedric. We send Scot's love and peer-support to all these ailing friends. Special regards to Hazel-May you continue in your activities.

We trust Lorraine Mehner is recovering nicely. Have not seen brother Bill Ross to get a report. Best Wishes Lorraine.

Our community is shocked and saddened by the sudden death of Juanita Gay last week. We extend Scot Christian love and concern to "Woody" and family in this loss. Juanita was the quietest of the quiet people who go about doing good. Her good works do follow her.

During Valentine week let us continue to encourage each other with Scot shoulder pats and luv u's.

known, early detection offers the best defense. Chances of cure are excellent when breast cancer is detected and treated early, while a tumor is still small.

Mammography can detect cancers that are too small to be felt by even the most experienced examiner. With an accuracy rate of about 90 percent, mammography can detect breast tumors while they are still microscopic in size.

Screening mammography, that is, mammography of asymptomatic women, can provide a "baseline" by which a woman's future mammograms can be compared. While extremely useful and, in some cases, life saving, screening mammograms are not covered by most medical insurance plans.

The ACS recommends a screening baseline mammogram for women between the ages of 35 and 40 and then annual or biannual mammograms between ages 40 and 50. After age 50, women are encouraged to have a mammogram every year. Women with a personal or family history of breast cancer should consult their physicians about how often they should be examined and have mammography before age 40.

Mammography scored especially high in the Breast Cancer Detection and Demonstration Project (BCDDP), a major study funded jointly by the ACS and the National Cancer Institute. Yet a recent Gallup survey indicated that only 15 percent of women over age 50 have a mammogram every year. The poll also showed that 75 percent of all U.S. women are aware that mammography exists.

Major deterrents for getting a mammogram include fear of radiation,

1987 Texas Breast Screening Project Devised To Provide Low-Cost Mammography

The 1987 Texas Breast Screening Project-part of a major national American Cancer Society campaign-is being launched by Texas physicians and health professionals to provide mammograms (low dose X-rays of the breast) at a reduced cost.

For a limited period in the spring of 1987, hospitals and clinics throughout the state will join forces with the American Cancer Society and offer screening mammography for a cost of no more than \$50. This is reduced from an average fee of \$100 per mammogram.

Texas radiologists, hospital personnel and other interested volunteers are invited to participate in the campaign and help promote early detection as the best weapon against breast cancer. Coordination of efforts on a local level are being directed through American Cancer Society volunteer task forces, which have been formed in each major Texas city and in many smaller ones.

The 1987 Texas Breast Screening Project will follow

the example of a highly successful program held in Chicago in 1983. With media support and 80 hospitals and clinics agreeing to cut their cost to \$50, the Illinois campaign received a tremendous response: 9,000 women were examined, 43 early breast cancers were found and 164 other women "suspicious" mammograms were referred for further examinations.

Breast cancer is a leading cancer killer among women in the U.S. One out of ten American women will be diagnosed with the disease sometime during her lifetime. Since the cause of breast cancer remains un-

In a recent concert by the '60's group, "Peter, Paul, and Mary," Peter Stookey commented that 30 years ago there was a magazine called LIFE. Then along came PEOPLE, now, he noted, we have a publication called US. For many life, encompassing the whole world, and even people unimportant. "Us" seems to be the "thing," but probably we soon will have a new periodical called "ME". Jesus taught that we really find ourselves as we lose ourselves in Him. He said that, "...whoever wants to save his life will lose it, but whoever loses his life for me will save it. What good is it for a man to gain the whole world, and yet lose or forfeit his very self?" [Luke 9:24.25 NIV] Oh, that we could so grow spiritually we could say with Paul, "I have been crucified with Christ and I no longer live, but Christ lives in me..." [Galatians 2:20 NIV]

Helpful Hints

by Naomi

Do not worry about watering your plants during vacation or gone on a trip, just put about two or three inches of water in the bath tub and set the plants in.

To start ketchup flowing from a new bottle, insert a soda straw all the way to the bottom which allows air to flow which lets ketchup to flow too.

When icing a lopsided cake try propping up the low side with small marshmallows, this prop can be eaten with the cake.

Spring house cleaning is next and if something needs fixing do it right away, take these rules seriously, like visiting a sick friend or relative before it is too late or a chance to help someone do it cheerfully.

The best thing to give to your enemy is forgiveness; to a friend your heart; to your child, a good example; to a father respect; to a mother, conduct that will make her proud of you; to your self respect to all charity.

Even the smallest plastic bag can cause a bad fall if you step on it so be careful to keep the bags off the floor.

To starch dark cottons, divide them from all other things to be starched and starch them as needed. Iron dark clothes on the wrong side.

Two piece dresses are good for you if you are too heavy, especially if you wear the tops on the outside. Avoid bold colors.

I. D. [Pete] Wall & Annell K. Ragsdale were married at 8 a.m. on Feb. 9, 1947 in the First Christian Church at Pratt, Kansas. Due to Nell's recent illness no reception will be held, however they would enjoy cards.

GINA HOUSTON

Gina Houston [16] daughter of H.G. and Dean Houston of Amarillo, Texas granddaughter of Mary Stowers of Stratford, recently attended the International Modeling Association Convention in Los Angeles, California. The association holds two conventions each year. In June the convention is held in New York City, the association convenes again in January in Hollywood; during these conventions the girls compete against each other for awards in the various facets of modeling. The "Hello Hollywood" convention is centered more around the acting and talent areas of entertainment, whereas the New York convention is based strictly on modeling. The last day of the convention the models are sent on go-sees. A go-see is an actual interview with an agency's talent scouts, the girls attend these interviews in hopes of arousing interest in their individual look, and ultimately signing a contract. While at the convention in Los Angeles Gina signed with the Askew agency London/Japan, she will live in Tokyo for a period of two to four months. Gina began modeling with the Diane Dick Modeling and Talent Agency of Amarillo, Texas which is still her home agency.

The United States has about 16,500 magazines, more than any other country.

Cards of Thanks

The love, concern & kindness [food, flowers, memorials, cards, prayers, and words of condolence] shown us, in the loss of our loved ones, is sincerely appreciated. Burdens seem lighter when shared with others. Thank you for sharing ours.

There's a little ole' town
On the High Texas Plains
Where The Wind Blows a lot
And it hardly ever rains.

Where everyone knows
Who's kin to who
Your kids and grandkids
and your own business to

And they know your illnesses and your sorrows.
As well as the other,
At at times like these
They're all like sisters or brothers.

The cards they send and food they make
And the flowers they send to help you through
Are all there ways of showing their love
And grief and concern for you.

There aren't enough words to say what you feel
A simple Thank you isn't nearly enough
For all the things done when times were rough

But right now this will have to do- and
So we say Thank You - We love you.

Stratford Feedyard along with Texas A&M University have shown through manure test plots and soil testing that manure can provide substantial benefits to soil and plants in Sherman Co. Livestock manure can improve soil physical properties such as porosity, soil structure, water infiltration rate and moisture retention capacity.

Manure is cost effective, readily available and ready for application.

Ask us about your cost per acre, it's going to be hard to beat.
