First Sub-Chaser Launching Sunday

PILOTING

It is generally conceded that one gets out of anything just what one puts into it—and after a survey of the fishing situation here this week there is proof that the maxim with just a wee bit of luck thrown in—holds true as to one's success at fishing. Occasionally you may succeed at listless fishing. Lady Luck might play a cruel joke once in awhile and disturb your dozing, if you are one of those who enjoy fishing with your hat over your head, leading against a piling at some wharf-end, with your pole comfortably balanced across your lap, and perhaps no bait under the cork bobbing only because of the efforts of the waves. But, for the most part successful fishing requires energy and no small amount of determination and stick-to-it-ness.

Whether fishing is luck, work or play, there were those who caught fish this past week, and those who didn't but had a big time anyway. Generally, fishing has been and is now good in the waters offshore Live Oak and Lamar peninsulas, especially as to trout. Not even a boasting news writer would attempt to predict the weather, but the law of averages should bring a week-end of good weather and good fishing.

Taking on greater interest every day now are plans for the big Fourth of July Celebration and Million Dollar Boat Parade. Manager Fancher Archer of the Chamber of Commerce reports wide interest among boat owners and sailing craft owners in the parade and races, and this year's parade and celebration bids fair to be even more spectacular than the event last year which was attended by many thousands of people.

With a pretty Skipperette riding the bow of each of the parading boats new glamor is being added to the 1941 parade. The Skipperettes are being invited from many towns and cities to come here, ride in the parade, vie for the title of "Miss Admiral" of the Water Carnival and to enjoy the many festivities. Mrs. Norvell Jackson, Mrs. "Doc" Magness and Mrs. Weldon Brittan are in charge of inviting the Skipperettes and arranging a big time for them. The committee is putting serious thought and work into plans for this phase of the celebration and no doubt the Skipperette Revue will be a great success.

Rockport was host this week to two happy gatherings of young people from other cities. Thirty-six 4-H Club Girls and their sponsors came Monday for an overnight stay at Hunt's Cottages, and on Wednesday sixty Corpus Christi Campfire Girls came over to camp in the oak grove at Rockport Cottages and enjoy a spend-the-day party. Both groups showed plenty of evidence of thoroughly enjoying Rockport and especially the new bathing beach.

A. C. Glass and Delo Caspary are due for special mention and thanks for their co-operation with the Chamber of Commerce in providing boat rides for the Victoria group of girls and women. The boat rides were high spots of the visit for the 4-H Clubbers, several of whom had never been out on the bay before.

While handing out bouquets, a big one should go to Mrs. Fancher Archer for the splendid publicity work she did while on a visit with her parents in El Paso. She extols the virtues of Rockport in a most effective way, wherever she goes, and on her trip to West Texas devoted a lot of her time to boosting for her home town. Mrs. Archer made two 15-minute talks about Rockport over powerful El Paso radio stations, showed motion pictures of Rockport to two large gatherings, distributed some five hundred folders, and made many contacts for future publicity.

That Mrs. Archer was boosting in a fertile field is shown here in registrations this week from West Texas. There are several vacation parties from West Texas here now spending their vacations and enjoying the contrast in seacoast atmosphere to that of their section of the state. Mrs. Archer's efforts will likely pay dividends in more West Texans coming here during the summer months.

Through efforts of the Chamber of Commerce Rockport may soon not only boast of one of the finest fishing beaches of the state, but may also soon advertise jellyfish-free waters for swimming.

Fishing Good All Week; Many Get Big Strings

Visitors Get Big Strings of Specs And Redfish

Lamar Parties Catch Strings of 127, 60 and 74 Trout; Reds and Tarpon Caught In Bay

Everybody caught fish here this week in Aransas and Copano Bays, and those who motor-boated to the Gulf also were rewarded.

There was fish for the frying pans in almost every visitor's cabin here this week. If there wasn't it was most likely because the visitor did not go to the trouble of wading a line.

Trout and reds were about in big numbers all along the shores of Live Oak and Lamar peninsulas, ready to take bait and then give the angler his money's worth in fight. The Silver Kings were also playing close to shore and ready to match wits and brawn with the fisherman who had a craving for above the average excitement with rod and reel.

Largest string reported to the Pilot this week was that of W. F. Hagen of Houston and Major Davis of Camp Hulen, who headquartered at Mills' Wharf and Wells Court. Their week-end catch totaled 127 trout and eleven big red fish and were taken off the end of Long Reef.

Jack Langford, guest at Triple Oak Courts, brought in a 4-pound trout this week taken off the end of the old wharfed point. A. A. Lawrence, another Triple Oak guest, brought in a 4-foot tarpon and three 2 1/2 pound trout.

Mr. and Mrs. Lawrence Kibridge Jr. of Corpus Christi, J. B. Head of Refugio, Dr. Fred Fox of Lawton, Okla., and Mr. and Mrs. Olin Yates of Lamar caught 74 trout that dressed out 55 pounds in two and a half hours fishing at Thompson's Towhead.

Billy Bonter and W. W. Markwood caught 99 trout Wednesday that dressed out more than 49 pounds. They fished also at Thompson's Towhead, 4 1/2 miles offshore from Mills Wharf in Aransas Bay.

Charlie Cleveland caught twenty nice trout fishing from a skiff off the end of the rocks in front of Rockport on Wednesday morning.

Alvin Benke of San Antonio, staying at Fulton Family Cottages, caught nice strings all the week. Bayshore Court guests had good luck and all guests returning home carried away fish.

Mr. and Mrs. J. C. McCullough of Tucson, Ariz., Mr. and Mrs. Sam Levy of Houston and Dr. Emil Zax were among Palm Court guests who went Gulf fishing and returned with nice strings of kings and mackerel.

Mr. and Mrs. G. A. Taylor of Houston, staying at Poch's Cottages, made a fishing foray out to Long Reef and returned with a string of 27 trout.

Victoria 4-H Girls Have Big Time Here

It was a gay time that was had here by thirty-six Victoria county 4-H Club Girls and their sponsors on an overnight party Monday. Top picture shows a part of the group enjoying the Rockport Beach and lower picture shows another group coming in from a ride on Aransas Bay aboard the A. C. Glass boat. Delo Caspary took another group on his boat. The girls left Tuesday afternoon to return to Victoria.

Thousands Expected For Fourth Celebration and Boat Parade

Many Entries Coming In For Famous Sail Boat Races and Skipperette Revue

Thousands of people will gather here on July 4th to witness the spectacle of a million dollars worth of beautiful yachts on parade, watch sailboat races, exciting stunt programs on the water and to enjoy two days of well planned entertainment.

The celebration will open on July Fourth and continue without a dull moment for visitors throughout the Fourth and fifth. There will be band concerts, spectators sailboat races inside the harbor, regulation sailing, water stunting, the boat parade and skipperette revue on the Fourth. The Independence Day program will be climaxed with a fireworks display over the bay in front of the beach.

Texas Auto Drivers Will Begin Renewing Licenses in October

Automobile drivers whose current licenses bear serial numbers from 1 to 450,000 will begin renewing them on and after October 1, Patrolmen J. D. Roensch and S. C. McClure said here Monday. They said most Aransas county driver's licenses fell within those numbers.

The patrolmen stressed that renewing of licenses would not be in order until October 1. The patrolmen are here every Monday morning from 9 to 10 o'clock to conduct tests and issue drivers' and chauffeur's licenses. A fee of 50 cents is charged for drivers' licenses, \$1.00 for commercial and \$3.00 for chauffeurs.

Those with driver's licenses bearing serial numbers from 1 to 450,000 must have them renewed by Dec. 31, 1941; 450,000 to 900,000 by April 1, 1942; 900,000 to 1,350,000 by July 1, 1942; and all over 1,350,000 by Nov. 1, 1942.

Mr. and Mrs. J. O. Blackwell and son Tommie left Thursday for a visit in Nixon and San Antonio.

Launching of First Defense Craft Here Will Not Be Public; High Navy Officials to Attend

First Submarine Chaser Ever Built On Texas Coast Scheduled to Slide Down Launching Ways at 2:30 P. M. Sunday

The first submarine chaser ever built on the Texas coast, and the first of four such defense craft under construction here at the Westergard Boat Works, is scheduled to be launched during appropriate naval ceremonies Sunday afternoon at 2.30.

Unless there is a change in regulations set by the Navy Department for the launching, the ceremonies will not be public. Only officials of the navy and a few guests will be privileged to see the PC-497 as the 110-foot craft slides into Aransas Bay.

June Weddings On Wan. J. P. Offers Special Price

For a limited time only—during the remainder of June and through July—a "special price" is being offered on marriage ceremonies by Justice of the Peace William B. Friddy.

Judge Friddy, who for near half a century has had the small of printer's ink in his nostrils and has composed hundreds of price-reduction ads, is well sold on the fact that a quality product advertised at a special price will bring results.

"June weddings have been awful scarce," the J. P. who quit newspaper work to go into politics here two years ago said.

Four New Units Being Built At Forest Park

Forest Park to Add Fifteen New Cottages This Year, Bringing Total Near 40

James Sorenson, manager of Forest Park Cottages, said this week that fifteen to twenty new cottage units would be built this year to accommodate an ever increasing tourist demand.

Four of the new cottages are now under construction and will be completed by July 1. Mr. Sorenson said.

Defense Training Course At Corpus Christi Available to Interested Persons In Rockport

Those in Rockport interested in securing training in machine shop and aircraft work may do so by applying at the Employment Service office, 921 Water Street, Corpus Christi, Ralph Barton, district supervisor of Trades and Industrial Education, said here this week.

"Anybody who is over 18 years of age, and a citizen of the United States is eligible," Barton said. There are no boundary lines and anybody from Rockport who wants to come to Corpus Christi to avail themselves of this training is urged to do so.

Barton said that twenty thousand jobs are coming up in the aircraft industries in Texas alone and pointed out that there are wonderful opportunities for men under 30 years of age who can fit themselves to meet civil service requirements.

Classes are operated in Corpus Christi 24 hours daily and arrangements can be made for instruction during off hours for those now employed. The classes operate five days a week and each class period is six hours. The training courses are a part of the National Defense Program.

L. K. Frutchey, coordinator of Corpus Christi public schools, accompanied Mr. Barton to Rockport.

The launching ceremonies will take place in a flag-decked, but hidden section of the large shipyard. The Municipal Band will furnish music for the ceremonies, and the PC-497 will be flying naval code flags as it floats into the water after a bottle of champagne is broken over the bow in christening.

A. M. Westergard, general manager of the plant, said that it would be Saturday before the exact program would be known, pending further information from the Navy Department.

In launching the PC-497 on June 22, the Westergard Boat Works is maintaining its schedule of construction on four of the boats. A sister ship is expected to be ready for launching within ten days after Sunday, and the other two are to be completed during August.

R. E. Rice, connected with the boat works, said that the PC-497 would not be fully equipped when launched. Two 1,200 horsepower engines are to be installed later, he said. The craft is 110 feet long, has a beam of 18 feet and a draft of six feet.

Because of the efficiency with which the first four boats under contract to the navy have been handled, officials of the Navy have recommended that additional boats be assigned to the Rockport plant for construction.

The boat works is now employing more than two hundred men, with a payroll in excess of \$8,000 weekly. The labor situation, officials point out, is well taken care of and no more men are needed. Ninety per cent of the workers are local men.

Clyde Armstrong On Ticket For Alderman

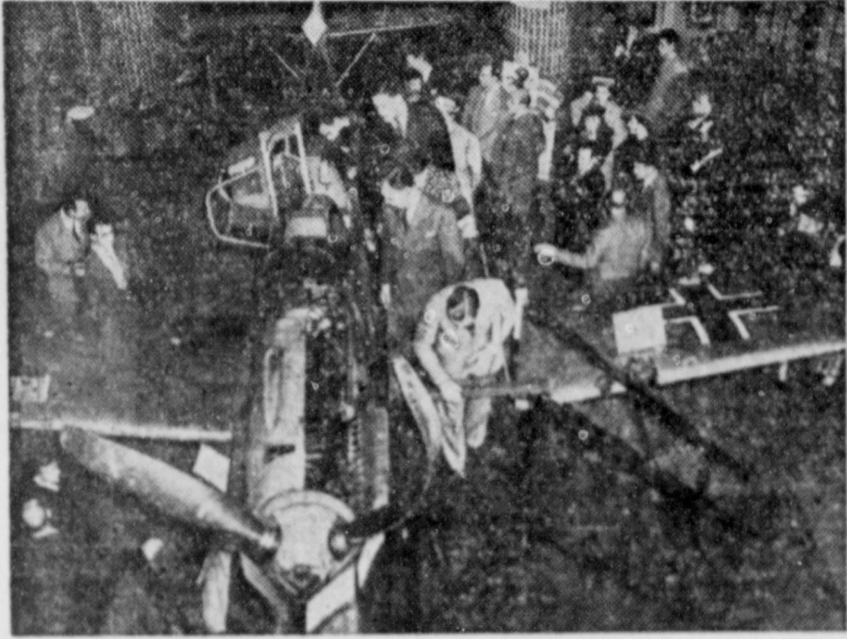

Clyde Armstrong's name will probably be the only one on the ticket for alderman at the special election to be held Saturday, June 28, to select a successor to A. J. Adolphus, deceased.

Mr. Armstrong is well qualified for the place and is keenly interested in the welfare of Rockport. While he will probably have no opposition the voters should come out and give him a good vote to show their interest in the matter.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Sinking of 'Robin Moor' by Submarine Is Investigated by State Department; Byrnes, Jackson Named to High Court As Stone Is Appointed Chief Justice

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

U. S. citizens are getting a first-hand look at the famous Nazi fighting plane, the Messerschmitt, now on display in a New York theater. Proceeds from the showing of this plane will go to buy "bundles for Britain."

COURT: Line-Up Changed

President Roosevelt's appointment of Harlan Fiske Stone to replace Charles Evans Hughes as chief justice of the Supreme court was announced at the same time as he sent to the senate the names of two new associate justices he had picked.

A Republican, Justice Stone is 68 years old and was appointed to the Supreme court by President Coolidge in 1925. His appointment as chief justice came at somewhat of a surprise for many sources in Washington believed that Attorney General Jackson would get the nomination.

Senator Byrnes, who has been a strong administration supporter in the senate since the early days of the New Deal, will succeed Justice McReynolds who retired some time ago. Jackson will take the place left vacant by Justice Stone's elevation to chief justice.

U. S.: Ship Worry

The Robin Moor, sunk in the South Atlantic well within the United States' neutrality zone, was declared by its few survivors to have been sunk by a German U-boat, the first in what most observers expected would be a series of international incidents, similar to that of the Lusitania in the last war.

The Robin Moor went to the bottom, bearing seven passengers including a little child, and the first lifeboat, the only one immediately found, contained only 11 survivors. The other two boats, according to the evidence of Brazilian ship people who went in search, showed on the surface of the sea some evidence that they had been lost.

The first notice of the loss was given as "the result of a storm at sea," but the survivors told their rescuer that they had been torpedoed.

Following these reports by survivors, authoritative sources in Washington indicated that work on a formal note of protest to Germany was under way by the state department.

It was pointed out that in such a note restitution for loss of American life and property was only what the Nazis could expect.

While at first the White House had announced that "judgment should be withheld" on the incident, later word came that there seemed to be "no longer any reason" for that.

The state department's report was first made public by Sumner Welles at his press conference. He based his findings on the account of the sinking as it came from Walter J. Lintilhac, U. S. consul at Pernambuco, Brazil. Lintilhac spent nearly five hours getting the stories of the rescued persons.

DUCE: Calls Names

Celebrating the year that Italy has been in the war, Mussolini made a speech to his puppet legislators in which he defied the United States to become more active in the war, after saying that this country is "really in the war already."

He also likened President Roosevelt to Sulla, one of the bloodiest and most tyrannical of all the Roman dictators.

The Axis would certainly win, Mussolini told his people, and the sole effect this country's attitude would have would be to lengthen the struggle.

He made no references to Italy's losses of two-thirds of her empire, of the 200,000 prisoners taken in North Africa, nor of the losses Italy had suffered to her fleet.

STRIKES: A Formula

Ever since President Roosevelt's fireside chat the nation had been waiting for a strike prevention formula, realizing that in the presidential speech there had been a definite pledge to halt defense work stoppages in labor disputes.

It remained for the strike at North American Aviation's plant at Inglewood, Calif., where 12,000 men engaged in building \$196,000,000 in warplanes, to provide the answer, and the United States to wonder what kind of an answer it was.

Swiftly, methodically, the troops moved in and took over the plant, began weeding out the union's labor leaders, inspected even the contents of lunch boxes of returning workers, and put the plant back into production within two days that were reported to be "approaching normal."

Within 24 hours planes were rolling off assembly lines into test flights, and on the surface all was apparently well.

But observers began asking themselves questions during the next few days when trouble of various types began to appear, not at North American Aviation, but at other plants.

Several things bothered people who were wondering whether the use of soldiers to take over plants would be a workable system of strike-ending.

Some wondered if perhaps the strikers at Inglewood weren't a bit too willing to have the plant taken over. Others wondered if, perhaps, the government's demand of the government that the pay be raised to 87 1/2 cents an hour, or 12 1/2 cents an hour more than they were asking of private industry, and the same wage that the government, they claimed, was now paying workers of similar skill in similar jobs.

The union leaders were equipping men with signs reading "hold out and remember the army can't make planes"—but their pleas fell for the most part on deaf ears, and the second day of the army occupation they voted to go back in a body.

But the army wouldn't take some of them back, ordered others reclassified and shoved in the army at \$21 a month, instead of \$20 or better a week.

C.I.O.: Red or Pink

One of the by-products of the Inglewood strike and its result was that the Dies committee findings came to the fore and began to render some sort of answer to the popular controversy of the past two years, whether the C.I.O. is red, white or just pink.

Rival unions used to call the C.I.O. red—the C.I.O. maintained it was pure white, and the Dies committee just hinted around that it might be somewhat pink—that there were Communists in the C.I.O., but that it was not proven that it was Communist-controlled or not.

Then came a wide, serious series of defense or partial defense labor troubles, most of them involving one branch or another of the C.I.O.

Alabama's Representative Starnes, active head of the Dies body, promptly made public that each of the striking unions had a Communist or an ex-Communist as its active leader.

In the aircraft industry, Chairman Frankenstein of the aircraft division, who had called the Inglewood strike "outlaw," "wildcat" and "unauthorized," found himself placarded in two ways—as a jackass and as a traitor to the cause by the very union over which he had jurisdiction just as soon as he admitted that the junior local union chiefs were, indeed, Communists.

He ordered them suspended from their jobs, then went to the Inglewood scene of action and made a plea to the men to go back to work. His plea was unsuccessful.

He ordered them suspended from their jobs, then went to the Inglewood scene of action and made a plea to the men to go back to work. His plea was unsuccessful.

A 'Hold-Out'

Days and weeks passed since the Nazi drive toward Egypt through Libya began and although Axis forces took many points beyond Tobruk they were not able to capture the besieged city itself. Here is British anti-aircraft position inside the Tobruk perimeter. Protected by Italian ammunition boxes filled with stones, they provide ample protection from the splinters of bombs dropped by Nazi fliers.

SYRIA: Gets in War

Names of the world's oldest towns, including such as Damascus, believed the oldest, and Tyre, considered its closest rival, got into the front page headlines as the British sailed on into Syria, following the expectations of everyone.

Vichy dispatches told of resistance, but except in certain spots the resistance was of the "token" variety—a few shots fired and then the French troops laying down their arms, later to join with the British passively, if not actively.

The invading armies were made up of British and Free French under DeGaulle, and seemed to be moving more or less unchecked into the chief and most important parts of Syrian territory.

Chief work of defense was being done by Nazi warplanes, said to be based on northern Syrian airbases like Aleppo, principal air center of the country.

Britain was not referring in her dispatches to the Syrian advance as a victory, but was rather regarding it as simply a tactically important move to circumvent an expected German move, or at least to meet it on a battleground farther removed from Palestine and Iraq oil fields.

It was obvious that the big Syrian airfields were the prime objective, and that if Britain could get hold of them and defend them with resident assistance, a good battle might be put up on Syrian soil, and protect the "by-ahoon" entrance to Hama and Alexandria.

But the various resistance near the coastlines, and in southwestern Syria made it look as though Britain's success in this objective would not be won without a good deal of fighting.

In general, however, the first advances were meeting with a good deal of resident approval, and with some defections of French colonials to the DeGaulle standard.

CHURCHILL: On Spot

Most seriously since the time he took over leadership of the war effort of Britain, Churchill found himself "on the spot" because of the Crete mishap—and words flew bitterly around common and on the editorial pages of British newspapers as Churchill defended his program.

The British leader was holding firm—refusing cabinet modification or any step that would even look like an admission that the Churchill government was a flop at handling the war.

Criticism of Churchill was far less bitter than that which was directed at Chamberlain, but it was still stronger than anything which had previously been leveled at him.

Much of it came from Leslie Hore-Belisha, deposed minister of war. And Churchill turned on this former cabinet member and practically told him to hold his tongue and to recall that the war ministry was in a "lamentable condition" when he laid it down.

Summing up the Crete disaster, he laid it to inadequate control of the air, said the battle was "worth having fought," that it cost the Germans a major effort, and resulted in the loss of 17,000 men and 180 planes, not to mention many surface ships.

Answering the "why" of not enough planes, he said "they were not to be had" unless Britain had been willing to denude the island itself, and that he did not believe it a good policy to try to be safe everywhere at the cost of being strong nowhere.

IRISH: Anomaly

The Irish Free State, having denied President Roosevelt's request that it furnish this country with landing spots for ships bearing aid to Britain, also air and sea bases generally, found itself more and more in an anomalous position—at a stone's throw from Britain at war, and yet neither an aide of Britain or Germany.

Irish cities were being bombed by Germany.

Hawaii—Our Pacific 'Gibraltar'

Long famous for its pineapple, Hawaii has a new claim to fame now, for it is the base of the largest, best equipped and best trained fighting forces under the American flag. These pictures take you to our island fortress.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON (Consolidated Features—WNU Service.)

NEW YORK.—Capt. Oliver Lyttleton who tells the British they can't fight a war and keep their pants pressed, at one and the same time, is one of the handsomest and wealthiest and, to date, best-dressed men in England. It is as president of the board of trade that he rations clothing and decrees the proud distinction of shabby apparel. It is now smart to be shabby in Britain.

Mr. Lyttleton is managing director of the huge and powerful British Metals Corporation Ltd., and, before taking his present post last year, was controller of non-ferrous metals. Under a wide extension of his powers as head of the board of trade, he was enabled to take over industry for defense purposes and to shift and re-allocate labor to any tasks he deemed necessary. He proceeded swiftly with his mobilization of defense resources.

This assertion of governmental control caused the newspapers to tag him as the "czar of industry," and it is interesting to note that our Edward R. Stettinius Jr. is thus headlined, as a mandatory priorities bill gives him the power to subordinate all production to defense. The extended parallel is also interesting in that Mr. Stettinius is also a steel-master, former chairman of the board of the United States Steel corporation.

England, perhaps more uneasy and alert than we in the abstractions of social change, was quick to interpret this centralization of power as of profound significance. Beaverbrook's Evening Standard said: "This constitutes the biggest economic and perhaps social revolution that this country has faced since the breakdown of feudalism. In fact, we are on the verge of a vast experiment in syndicalism."

Captain Lyttleton has never been involved in any social drift. He is a Cambridge bred, the inheritor of a vast fortune and an ancient name, a hard-hitting industrialist and soldier with a reputation for quick and effective action in any emergency. He fought through the World War with the Grenadier Guards, gathering the D.S.O. and several mentions in dispatches. He is 48 years old.

MUCH as it esteems tolerance, this department occasionally has noted that people who always ran on both sides of everything are frequent New OPM Deputy ly taken Boss a Wonder at down with Human Catalyzing personality, or something like, and just cancel themselves out.

James L. O'Neill, appointed deputy director of the OPM Priorities is an exception. The baldish, amiable, friendly New York banker has an instinct for understanding the other man's point of view, and at the same time holding to his own. It upped him steadily in the business world, to his present post of operating vice president of the Guaranty Trust Co. of New York. This ambidextrous vision has given him rare effectiveness in personnel problems and in allaying friction in management. That might have a bearing on his moving into the OPM at this moment.

A Republican, he had a flexible attitude toward the early New Deal, and was loaned by the bank as control officer of the NRA in December, 1934. When the Supreme court saw only one side of the NRA, and not the sunny side, if any, Donald Richberg moved out and Mr. O'Neill moved in, as administrator. He solved the problem of immediate personnel by firing about one-third of it, but by this time the NRA was functioning only to save funeral expenses. Mr. O'Neill liquidated it in neat and workmanlike fashion, and went back to his bank. But he left many friends in Washington, and should be helpful in breaking priority log-jams. He is known as a marvelous human catalyzer. He was born and grew up in Pittsburgh.

Mr. O'Neill drove a grocer's wagon at the age of 10, became an errand boy for the Bradstreet Corp., and later credit man for the Carnegie Steel Co., a job which nurtured his talent for mixing and pacifying.

After 22 years of this, he joined the Guaranty Trust Co., in 1918, engaged at first mostly in personnel studies. He likes people and can understand almost anybody. He is deeply religious and is occupied as a Presbyterian layman in church and welfare undertakings at his home in Short Hills, N. J.

J. Fuller Pep By JERRY LINK

"Fuller," my Aunt Edna says to me, "there ain't nobody stinger than the person who won't pass along good news. Goodness knows, it don't cost anybody nothing."

And taking that to heart, I've been tellin' the folks how KELOGG'S PEP gives you vitamins that ordinary meals are so often shy of—vitamins B, and D.

Best part of it is you get 'em in a cereal that tastes so consons good you wonder how it can be good for you. You win both ways!

THE SMOKY YEARS

By ALAN LE MAY

W.N.U. Release

INSTALLMENT 15
THE STORY SO FAR:

Dusty King and Lew Gordon had built up a vast string of ranches. King was killed by his powerful and unscrupulous competitor, Ben Thorpe. Bill Roper, King's adopted son, was determined to avenge his death in spite of the opposi-

tion of his sweetheart, Jody Gordon, and her father. After breaking Thorpe in Texas, Roper conducted a great raid upon Thorpe's vast herds in Montana. Unable to reconcile her father with Roper, Jody set out with Shoshone Wilce to

find him. They were attacked by some of Thorpe's men hiding in Roper's shack. Wilce escaped, but Jody was captured. Roper was looking for Jody when he accidentally met Wilce. Together they prepared to rescue her.

CHAPTER XX—Continued
Bill glanced at Shoshone to make sure that the man was at his elbow; then, his gun out, he flung wide the door. The slab door resisted, wedged in the ice of the sill; then shuddered open with a noisy violence.

After that a full minute passed and stretched to a minute and a half. Evidently the outposts had been farther away from the cabin than Shoshone had calculated; but Roper heard none of them fire.

utes passed. Shoshone Wilce kept his pony moving slowly up and down to prevent its stiffening up by too rapid a cooling after its run, and Jody followed his example.

Roper stepped in with a sidewise step that at once made room for Shoshone and brought Roper within the wall, clear of a possible shot from behind him in the dark.

He thought, "If I can keep them interested just ten minutes more—"

"Listen here," Shoshone Wilce said at last. He dropped his voice, and sat motionless. For a moment or two there was no sound there except the rhythmic breathing of the hard-run ponies. "I want to tell you something," Shoshone resumed, his voice low, husky, and strangely unsteady. "It looks like I run away and left you when your pony was shot down. I see now it looks like that. But I want you to know I didn't go to do nothing like that, Miss Gordon."

The uncertain and flickering light of the little fire seemed to fill the room with ample light, compared to the heavy darkness without. A man who sat upon a keg by the fire sprang up, his clawed hand reaching out to a gunbelt that lay upon the crude table; but the reaching hand rose empty in a continuous motion as the man put up his hand.

Now a furiously ridden horse was coming up. Roper flattened himself against the wall beside the open door, and waited until he heard the man drop from his pony just outside. He stepped to the door, fired once; and a man crashed face downward upon the door sill itself to lie utterly motionless.

"I know," she said, "it was the only—"

With his boot Roper pushed the inert heap of the door sill, so that the door might be closed at need. Because there were only two more shots in his gun, he picked up one of the weapons he had collected, and checked its loading.

"I shouldn't have done it," Shoshone said. "I wouldn't do it if I was doing it again. I figured I'd be more use to you if I could keep my horse on its feet. I figured I could best handle it like an Indian would—pick 'em off one at a time, and make sure. But I'd do different if I had it to do again."

"What else could you have possibly done? There wasn't any chance for anything else."

Now Shoshone, whose heel had kicked the door shut behind him as he came in, made a headlong dive into the second of the three bunks. In that instant the thing happened that Roper most dreaded, so that in a single split fraction of a second their chances were irrevocably hurt.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

As Shoshone Wilce sprang, a gun smashed out from within the shadowy bunk. The blast of its explosion was magnified in the close quarters, leaving the ears ringing in the instant of stunned silence that followed.

Now another horse was coming in fast; in another second or two it

"I should have stood and fought," Shoshone said. "Like he would have done."

The barrel of Shoshone's .45 had crashed upon the skull of the man in the bunk almost in the same instant that the shot was fired. A lean hand, gripping a six-gun, dropped out over the side of the bunk, relaxed slowly, and the six-gun slid to the floor from long, dangling fingers. Shoshone Wilce held absolutely motionless for a moment, half crouched, then straightened slowly.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

"Shoshone—you hit!"
"It's only—" Shoshone began. His face was ghastly and his voice quavered; but when he had fully straightened it steadied again into the same dead flatness as before.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

"Jody! Jody, is it you?"
Jody Gordon had been curled up in the corner of deepest shadows. She stood up now, white-faced, her movements uncertain. Then suddenly the frelight caught the glint of the instant tears which overbrimmed her eyes.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

"Bill! I thought they'd kill you!"
She flung her arms about his neck and with the swift impulse of a child, kissed his mouth.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

The man nearest the table made a sidelong movement toward the bolstered gun that lay there; Bill Roper smashed a shot into the wall beside him, and the man jerked backward.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

"Shoshone, can you ride?"
There was a curious strain in the flatness of Shoshone's voice. "I'm okay, I tell you."

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

Bill Roper caught up a sheepskin coat with his free hand, and flung it over Jody's shoulders. "Get gone!" he snapped. "Shoot free the ponies! tie-ropes, and ride like hell! Here—take this!" He thrust the gunbelt from the table into Jody's unready hands. "I'll see you—where I said."

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

"Bill," said Shoshone, "if it's the same to you, I'd rather hold them here while you ride with her."

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

"Get gone, I said! You—"

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

"Bill, I tell you, I—"

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

Bill Roper belloved at him, "You want to die?"

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

"Okay," Shoshone said, in that same strained, lifeless tone. He seized Jody's wrist, tore open the door with the hand that still held his gun, and was gone into the dark.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

When they were gone Bill Roper stood listening. Outside two shots rang, a moment apart, as Shoshone shot the tied ponies free; then sounded a swift crackle of the ice crust under their hoofs as two horses galloped down-valley, and Roper knew that Shoshone and Jody Gordon were on their way.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

Bill Roper estimated that he had a few seconds left. Unhurriedly, almost leisurely, he picked up the gun dropped by the man in his own belt. After that he collected three or four other weapons in a brief search that seemed perfunctory, yet was effective because of his own practiced knowledge of where a range rider is apt to put his gun. These he kicked into a little heap beside the door, so that he would know where they were.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

The man with the wounded arm spoke thickly. "You'll never get out if he's alive," he told Roper.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

"I should have stood and fought," Shoshone said. "Like he would have done."

"I wouldn't worry about that, was I you," Roper said. He slammed another harmless shot over the speaker's head, interestingly close to the man's scalp. He needed a continued sound of action at the cabin to draw the outposts in, so that Shoshone and Jody Gordon would have their chance to get clear.

"I'd stand real still if I was you," he warned the two who stood with their hands up. He fired one more shot between them, for purposes of general discipline. "I ought to kill you; maybe I will in a minute—haven't decided yet."

President being urged to increase aid to Britain . . . Commodity shortages of World War I are coming again, but in different form.
(Bell Syndicate—WNU Service.)

WASHINGTON—There is tremendous pressure on President Roosevelt from those who like his word "realist" with respect to the war to take some active step NOW instead of waiting until it is so much harder.

Such a practical step, for example, as the seizure of Dakar, the Cape Verde islands and the Azores.

Excitement has been lent the arguments now going on inside administration circles by wild rumors floating on the outside. Before the President made his comment about having forces in "strategic" places there was a rumor, for example, that the main fleet had passed through the Panama canal! This could only mean that the sea power of Uncle Sam was to be added to that of Britain in the battle of the Atlantic.

For the Nazis to attempt to seize Iceland, as they seized Crete, would be, in the President's words, a threat of invasion of the United States. This brings the war very close indeed, for there has been plenty of planning by the Nazis with respect to Iceland. In fact it is difficult to imagine any other purpose for the tremendous concentrations the Germans have made on the Norwegian coast.

ISLANDS ARE NEUTRAL
When it comes to the Cape Verde islands and the Azores, however, the problem is complicated by the fact that those islands are neutral. True, the President himself said that at any time they are ready the Nazis are able to overrun Spain and Portugal, but seizure of the islands by the U. S. in ADVANCE of such an invasion would be violating the international morals of the Nazis.

And yet such lack of international morality is precisely what is needed in this situation, a great many advisers of the President believe. They insist that you cannot fight Marquis of Queensbury rules against an antagonist who uses the knee and gouges in the clinches. If one fighter elects to follow bar-room-beat tactics the other fighter has not much choice.

The chief difficulty here is that we have NOT entered as a fighter. Technically we are neutral, though the strongest neutral, perhaps, in the world's history. We are not only in the corner of one of the fighters, but we are providing him with fighting power.

Commodity Shortages Seem Probable

Remember the "gasolineless days" last war? The days when anyone driving a passenger automobile on Sunday was regarded by passersby as pretty nearly a traitor?

Those days are coming again, but this time there will be different things we will be asked to do without.

For the present, for instance, there is not the slightest indication that we will ever be told to cut down our sugar consumption. In the last war there was first a shortage, then severe rationing, with the waiter bringing you a couple of lumps in a paper sack instead of handing you the bowl. Then right after the war sugar soared to 17 cents a pound, and beyond.

But up to now there has not even been any raising of the quota bans on sugar production. Every indication is that there will be plenty of sugar regardless of developments.

The first important appeal to the public to do without something applies, curiously enough, to electricity. In a statement signed by the federal power commission, the Office of Production Management, the war department, the Tennessee Valley authority, the Alabama Power company, the Georgia Power company, the Gulf Power company, the Mississippi Power company and the South Carolina Power company, the people of the Southeast are asked to conserve electric current.

"The Southeastern area," says this statement, "is a large contributor to this defense production. In addition the area has been chosen for the location of many army camps, air training bases, munitions plants and other defense facilities. These defense activities require a great volume of power. This year an unprecedented drought threatened that power supply throughout the Southeast."

"Large additions of power supply for the region are now under top speed production by TVA and private companies. They are nearing completion but until these new sources of supply are actually delivering power and especially during the next few months it is imperative in the interest of defense that power be carefully conserved."

The statement added that even if normal rainfall should end the drought you still will be asked not to waste power, for every kilowatt hour you can conserve at this time adds that much to your nation's capacity for defense.

Summer Play-Clothes Program Conveys Exciting Fabric News

By CHERIE NICHOLAS

PLAY clothes! Let's talk about play clothes for the theme is a most fascinating one. More triumphantly, more spectacularly than ever before in the annals of fashion lore are the designers answering the challenge for play clothes that will add to the picture of golfing, tennis, hiking, swimming, motoring, and all the other sports that go to make perfect days of outdoor playtime.

of color to the huge pockets and the wide shoulder straps. A bolero to protect her shoulders and a quilted apron to protect her knees are also included in this cunning outfit.

The pinafore pair shown in the background will cheer the heart of every mother and daughter. These pinafore types should be an inspiration to home sewers in that they are so easy to make. The professional-looking nicety of the edge seaming is achieved in a jiffy with a little edge stitcher found in every modern sewing machine kit. The full gathered finish given to the back-bottomed skirt is only a matter of minutes with the gathering foot attachment. The same material is used for both—a striped denim. The two outfits cost but a trifling sum to make, they promise much joy in the wearing and besides mother-and-daughter costumes are fashion's pet theme this year.

Up to the last season or so the great problem with fabricists has been to produce white materials that will come out of a brisk tubbing or cleaning process as white as when new. Welcome comes the message of white rayon pique sharkskin which is proving ideal for tennis frocks and for white suits and afternoon dresses. It is this snow-white pique sharkskin that is used to make the tennis frock shown in the foreground of the group pictured. Here is a fabric that is sure to stay in top form, having been tested and approved for wearing and cleaning satisfaction. It adds an exciting note of interest because this dress was designed by Alice Marble, national tennis champion, making it authentic news as to what's what in smart action fashions.

PATTERNS SEWING CIRCLE

8871

IN ONE pattern, sunsuit, frock and bonnet are all included. Even if she's only two, she can put on the front-button frock all by herself; the plain neckline and ruffy wing sleeves will be cool and comfy, all summer long. This trio is sweet in percale, gingham, linen, seersucker.

Pattern No. 8871 is designed in all sizes 2 to 6 years. Size 2, 3 yards 36-inch material without nap, 3 1/2 yards broad. For this attractive pattern, send your order to:

Alice Newspaper Wins Texas Press Association Award For Best All-Around Newspaper

GALVESTON, June 18 (AP)—Appealing to all newspapers and other publications of the state to give unified support to the national defense program, the Texas Press Association ended its 62nd annual convention here with an election of officers and announcement of special awards.

President for the coming year is Dave Warren, Panhandle, who succeeds Charles K. Devall, Kilgore. James Donahue, Tyler, became vice-president and Deskins Wells, Wellington, secretary-treasurer.

Vigorous and militant support of the nation's program of national defense in all its phases was pledged by the association in a resolution presented by Lowry Martin of Corsicana.

The Alice Echo was named winner of the Dallas Morning News cup for the "best all-around" weekly newspaper. Honorable mention went to the Kerrville Mountain Sentinel. The W. N. Beard cash prize for "best set ads 20 inches and over" went to the Mission Times, Uvalde Leader News, Floresville Journal and Beeville Bee Picayune, Tyler Times, Robstown Record and the Kerrville Mountain Sentinel.

Joe T. Cook of Mission was elected a member of the executive committee. George Peeler, Taylor, and Joe Kempton, Jr., Dallas, were re-elected. Holdover members of the Committee are: Walter Buckner, chairman, San Marcos; Mrs. Ross Woodall, Huntsville; Luther Watson, Sweetwater; Pat Holt, Gatesville; Sam A. Roberts, Haskell; Mrs. Ann Holman, Hereford; L. K. McDaniel, Seguin; Ben F. Harigel, LaGrange; and W. H. Bradford, Garland.

Selective Service Boards Ask Co-Operation of Employers in Proper Classification of Draftees

Full cooperation of registrants and their employers with their local Selective Service boards is essential for the proper placing of each available man in the National Defense program, General J. Watt Page, State Selective Service Director, declared today.

"Much of the trouble in classifying workmen," he said, "results from lack of understanding by registrants and their employers that they, too, have a responsibility to help the Selective Service System function to the best advantage of their country."

Pointing out that, through misguided patriotism, many registrants and employers do not request occupational deferment, General Page said that in some cases, also, the employers have failed to assist the local board by giving complete information about registrants, when the employer alone knew that these registrants were essential to National Defense in their civilian occupations. Employers should advise local boards concerning "necessary men" in their employ, even when the men themselves fail to ask for deferment, he asserted.

"Employers should put the facts before the Local Board at the time the registrant sends in his ques-

John L. Blutworth Builder And Racer Of Fine Sail Boats, Dies In Houston

John Leonard Blutworth, who built and raced sailboats on the Gulf coast for more than 50 years, died at his home at 7825 Harding Monday, June 9.

Since 1927 he and his four sons operated the Blutworth shipyards on Brays bayou, in Harrisburg.

It was the veteran boat builder's boast that the only thing that could beat a Blutworth boat in a race was another Blutworth boat.

Born on Matagorda Isle
Mr. Blutworth was born Nov. 2, 1867, on Matagorda Island. In 1883 he and his brother, Jim, built the sailing yacht Novice at their father's home in Rockport. While the boys were building the Novice their home caught fire and the Novice had to be launched prematurely to save it from the flames.

The next year, when he was 21, John Blutworth won his first race in the Novice, the forerunner of many victories in the years to come. In one famous race on Galveston Bay, the Novice, skippered by John Blutworth, defeated the Country Girl, the Undine and the Whitewing. The fame of the Blutworth yacht spread and two boats, the Connie and the Alice, were especially designed and built in New England to challenge the Novice.

Novice Beat Them Both.
In a race on Aransas bay, under the auspices of the Aransas Yacht club, the Novice defeated them both.

Among the many racing trophies on Mr. Blutworth's shelves were two handsome cups made by Tiffany's in New York, which were won by the Novice.

Mr. Blutworth opened a shipyard on Pelican Spit, across the channel from Galveston, in 1904, and operated it until 1918.

Designed Ships at Orange
He then went to Orange as superintendent for international shipyards, to build wooden ships for the Allies. He designed and supervised the building of the Monfalcon, the largest ship built in that yard.

After the war Mr. Blutworth returned to Galveston and resumed his business. Among the boats he built there were the tug Mariner and the excursion yacht, Galvez, which still carries sightseers up and down Galveston channel.

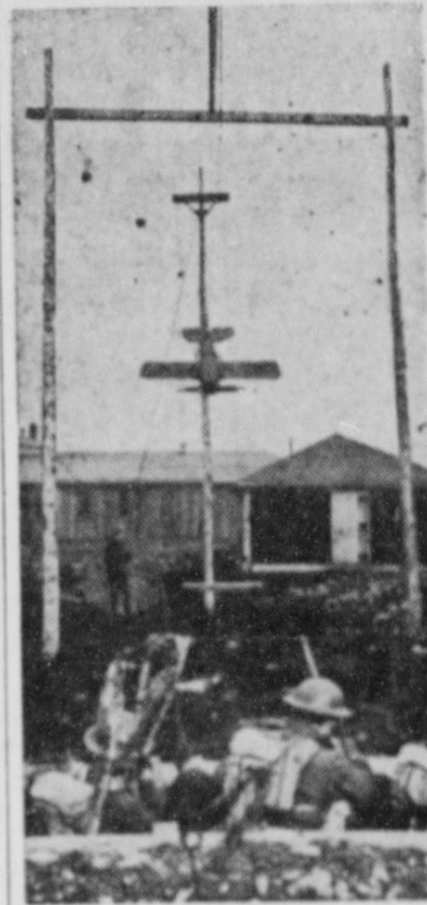

Mr. Blutworth went to Houston in 1927, and specialized, with his four sons, in the building and racing of sailboats. One of the most famous boats turned out by the Blutworth yards there was the Cheerio, which never was beaten except by other Blutworth boats.

Funeral services for Mr. Blutworth were held at 10 a. m., Tuesday at the Boulevard funeral home, with Rev. Temple E. Anderson officiating. Burial was in Forest Park cemetery.

His Mother was buried here last year at the age of 99 years, was the sister of the late George A. and John M. Brundrett and Mrs. Paul Courts.

Surviving are his widow, Mrs. Ruth Blutworth; four daughters, Mrs. Maude Fitzgerald, Mrs. Geo. Warriner, Mrs. Grace Havens, all of Houston, and Mrs. Robert Lee Davis of Orange; four sons, John Leonard, Jr., Dannie, Martin and Harold M. Blutworth, all of Houston; 16 grandchildren and two great-grandchildren.—Houston Post

Dive Bomber Lesson

S. and Canada shown in Montreal before settling down to task of examining raw material resources of both countries for arms production. L. to R., W. L. Batt, Washington, D. C.; H. J. Symington, Montreal; Edw. Stettinius Jr., Washington; and G. C. Bateman, Toronto.

Nearly All Skilled Men Absorbed By Draft

M. J. Kane, assistant chief of field operations, Labor Divisions, Officer of Production Management, told the International Association June 4, at Denver, that a minimum of 1,300,000 additional men and women would have to be employed in major defense industries between now and the end of 1941. Of these, he stated, 285,000 would be needed in ship production, 250,000 in the production of tanks and guns, 10,000 in the production of munitions, and 400,000 in the production of airplanes.

Many a war hero would shrink from acting as judge at a baby show.

Lancaster, Pa., city officials have learned why their courthouse clock runs slow. Starlings gathering about the steeple at dusk, hop on the minute hand and retard its upward movement.

An English organist who got fired for playing "Onward, Christian Soldiers" as a wedding march no doubt was a married man himself.

Christian H. Brooks, 60, of Lancaster, Pa., made a visit to the courthouse and obtained a marriage license, fishing license and a dog license.

Flea Hopper Now Appearing In Large Numbers This Year Throughout Surrounding Counties

The Cotton Flea Hopper has appeared in unusually large numbers this year in practically all parts of the county, according to R. R. Gibb, County Agricultural Agent. Spot checks have been made in fields in every community in the county during the past week and the infestation has ranged as high as fifty percent.

Dr. F. T. Thomas, of the Texas Agricultural Experiment Station, recommends that control measures should begin when damage is observed on one plant out of each ten examined or when twenty flea hoppers are present on the

terminal buds of one hundred consecutive plants.

For Effective control dusting sulphur at the rate of from 10 to 15 pounds to the acre should be applied. Sulphur should be applied when there is practically no wind but the amount of dew need not be considered. Sulphur should be applied at weekly intervals until squares are one quarter inch in size.

Cotton is now in a very critical stage and producers should take every precaution to insure that the fruiting is not interrupted by insects.

WHAT'S YOUR SCORE ON THIS QUIZ?

Like to do questions and answers? Run through this 2-minute quiz—it's fun, and full of facts we think you'll be glad to know. No fair peeking at the answers until you've tried!

Q: How much more electric light do you get for your money today than you got 10 years ago?
A: about a nickel to burn a 100-watt light all night—and maybe it scared a burglar away."

Q: Who owns the electric company?
A: You do. Every family who has a bank account or a life insurance policy is part owner of some electric company. The money you put in the bank, or pay to an insurance company is invested in various businesses, including electric companies. This makes you one of the millions who have a stake in the electric companies.

Q: How much per day does the average family, using lights, vacuum cleaner, radio, toaster, spend for electricity?
A: In most cases the average cost is less than 10 cents a day.

Q: What do you say to a husband (or wife) who bawls you out for letting a 100-watt light bulb burn all night?
A: "Don't get excited, dear. Believe it or not, it costs only service 99-99/100% of the time.

Yes, there's no question that electric service has constantly improved and electric rates have steadily gone down. Remember that this improvement at lower cost to you has been brought about by your present electric company—a business operation... the only kind of operation in which initiative, planning, and hard work are given an opportunity to benefit all!

U. S. Army Tries Dual Helmets

A platoon of the 29th Infantry on the march at Ft. Benning, Ga., each man equipped with a set of dual helmets being tested by the infantry board of the U. S. Army. The men wear the field inner-helmets of fiber. On their packs are slung the outer steel shells which are slipped off by the fiber ones for combat.

IN THE DISTRICT COURT OF THE UNITED STATES FOR THE SOUTHERN DISTRICT OF TEXAS CORPUS CHRISTI DIVISION UNITED STATES OF AMERICA; Petitioner V. 220.38 ACRES OF LAND, MORE OR LESS, IN ARANSAS COUNTY, TEXAS, I. H. STERNBERGER, ET AL., Defendants. CIVIL ACTION NO. 96, NOTICE OF HEARING: In the matter of proceedings by the United States of America for the condemnation of certain lands in Aransas County, Texas, comprising 220.38 acres, more or less, owned by I. H. Sternberger, et al., pending in the United States District Court for the Southern District of Texas. NOTICE IS HEREBY GIVEN to the United States of America, petitioner, and to Charles T. Pieton, G. N. Hanks, Lara Hanks and L. M. Bracht, all of Aransas County, Texas; H. F. Hanks of Calhoun County, Texas; J. H. Berry et ux, Mabel B. R. H. Wood et ux, Annie (or Connie) E. Will Walter Wood, all of Bexar County, Texas; Louis Klotz et ux, Lucy S. Harris County, Texas; Ivy H. Sternberger, Ivy H. Sternberger, Jr., Carrie S. Marks et vir, J. D. Ida Sternberger and Annie O. Sanchez et vir, D. J., all of Amite, Tangipahoe Parish, Louisiana; Lina (or Lena) Klotz of New York County, New York; the State of Texas, and the County of Aransas in the State of Texas, apparent owners, and to the said defendants generally and all singular the heirs, husbands, wives, devisees, executors, administrators, representatives, aliases, successors, creditors, and assigns of each and every of the above named parties, and all unknown owners, lienors, and claimants, having or claiming any right, title, estate, interest or lien in or to said land, and occupants, lessees, licensees, users, holders, and owners of and to easements in, on, over, across, or through said land, and all persons, companies, corporations, and taxing authorities having or claiming any right, title or interest in or to any of said lands, and all other persons and corporations, existing or defunct, claiming any right, title, or interest in and to the said 220.38 acres of land, more or less, hereinafter described, in Aransas County, Texas: You are hereby notified that on August 30, 1940, the United States of America filed its petition for condemnation of the lands hereinafter described, in the United States District Court for the Southern District of Texas, which suit is styled United States of America V. 220.38 Acres of land, more or less, in Aransas County, Texas, I. H. Sternberger, et al., and numbered Civil Action No. 96 on the docket of said Court; that the petitioner is seeking condemnation of the full, absolute, fee simple title to said lands for the purpose of incorporating them within the Aransas National Wildlife Refuge, as authorized by the laws of the United States of America, all of which fully appears in a certain original petition, as amended, filed by the United States of America in the United States District Court for the Southern District of Texas, Corpus Christi Division; You are hereby further notified that the United States District Judge for the Southern District of Texas on September 13, 1940, appointed the undersigned Special Commissioners to hear the parties, view the land and award just compensation for the following described property, to-wit: Tract 8, All of the B. L. Bludworth Patent No. 321, dated February 23, 1877, for 160 acres, excepting, however, the apparent lap of the "Townsite of Cape Carlos" according to the plat of the F. M. Davis Subdivision of Cape Carlos, and located on the westerly end of Bludworth Island, west of Back Bay and north of Mud Bay, about twenty-five miles south of the town of Austwell, Texas, in Aransas County, Texas, and more particularly described as follows: Beginning at Corner No. 1, which is also Corner No. 12 of the San Antonio Loan & Trust Company Tract (4), Corner No. 4 of the San Antonio Loan & Trust Company Lap (Tract 4-II), Corner No. 2 of the I. H. Sternberger, et al., Tract (8-II), and the intersection of the northern boundary of the Townsite of Cape Carlos, according to the plat of the F. M. Davis Subdivision of Cape Carlos, with the line common to the Dillard R. Fant Patent No. 883, and the B. L. Bludworth Patent No. 321, in a lake or lagoon; thence North 09 deg. 11' West in part with line 11-12 (reversed) of the San Antonio Loan & Trust Company Tract (4) and in part with the line common to the Dillard R. Fant Patent No. 883 and the B. L. Bludworth Patent No. 321, 4.33 chains to Corner No. 2 in said line 11-12 (reversed), and which is also a corner of the B. L. Bludworth Patent No. 321 in the east boundary line of the Dillard R. Fant Patent No. 883, marked with a 2"x2"x72" pine line marker projecting 20" above the water surface; thence East in part with a line in a lake or lagoon and in part with line 2-3 (reversed) of the I. H. Sternberger, et al., Tract (8-I) 14.39 chains to Corner No. 3, which is also Corner No. 2 of the I. H. Sternberger, et al., Tract (8-I), marked with a 1 1/2"x36" galvanized iron pipe set 20" in the ground; thence North in part with line 1-2 (reversed) of the I. H. Sternberger et al., Tract (8-II), in part with a line in a bayou, and in part with line 9-10 (reversed) of the San Antonio Loan & Trust Company Tract (4), along a part of the west boundary of the B. L. Bludworth Patent No. 321, 18.39 chains to Corner No. 4 marked with a 1 1/2"x36" galvanized iron pipe set 20" in the ground, which is also Corner No. 9 of the San Antonio Loan & Trust Company Tract (4); thence East in part with line 8-9 (reversed) of the San Antonio Loan & Trust Com-

pany Tract (4), in part with a line in a bayou, and in part with land of B. Cahn along a part of the north boundary of the B. L. Bludworth Patent No. 321, 38.33 chains to Corner No. 5, marked in water grass marsh with a U. S. B.S. standard concrete post marked "56 1937 COR 1 TR 11 COR 5 TR 8", set 18" in the ground; thence along Back Bay and with the meanders thereof of the following courses and distances: South 57 deg. 51' West 4.43 chains to a point (5-1); South 8 deg. 16' West 8.87 chains to a point (5-2); North 75 deg. 13' West 3.39 chains to a point (5-3); South 40 deg. 44' West 12.50 chains to a point (5-4); South 28 deg. 40' West 8.59 chains to a point (5-5); South 8 deg. 28' West 7.16 chains to a point (5-6); South 12 deg. 18' East 8.12 chains to a point (5-7); South 39 deg. 51' East 7.78 chains to a point (5-8); South 81 deg. 38' East 13.85 chains to a point (5-9); North 69 deg. 00' East 9.15 chains to a point (5-10); South 70 deg. 00' East 0.99 chains to a point (5-11) on the extreme point of land separating Back Bay from Mud Bay; thence along Back Bay and with the meanders thereof South 40 deg. 38' West 13.28 chains to a point (5-12); South 83 deg. 39' West 5.92 chains to a point (5-13); South 87 deg. 24' West 27.21 chains to a point (5-14); South 76 deg. 1' West 8.76 chains to Corner No. 6, which is also Corner No. 4 of the I. H. Sternberger et al., Tract (8-II) and the southeasterly corner of the apparent lap of the Townsite of Cape Carlos in the B. L. Bludworth Patent No. 321; thence North 38.52 chains to Corner No. 6A, the northeast corner of the apparent lap of the Townsite of Cape Carlos; thence South 89 deg. 30' West with the north boundary of the apparent lap of the Townsite of Cape Carlos 11.06 chains to the place of BEGINNING, containing 174.31 acres, more or less, as shown on the attached plat marked Exhibit A, Tract 8-I; A small strip of land lying between the west boundary of the B. L. Bludworth Patent No. 321 and the present east shore of a lake or lagoon, situated in the County of Aransas, State of Texas and more particularly described as follows: Beginning at Corner No. 1, in line 2-3 of the I. H. Sternberger, et al., Tract (8) on the south bank of a lake or lagoon; marked with a 1 1/2"x36" galvanized iron pipe set 20" in the ground; thence South 12.45 chains to Corner No. 2, which is Corner No. 3 of the I. H. Sternberger, et al., Tract (8); marked with a 1 1/2"x36" galvanized iron pipe set 20" in the ground; thence West 1.994 chains to Corner No. 3, in line 2-3 of the I. H. Sternberger, et al., Tract (8), on the east bank of a lake or lagoon; thence with the margin of the marsh along the said lake or lagoon and with the meanders thereof North 1 deg. 27' East 10.71 chains to a point (4-1) at the junction of the bayou with the lake or lagoon, and North 43 deg. 56' East 2.41 chains to the place of BEGINNING, containing 2.08 acres, more or less, as shown on the attached plat marked Exhibit A, Tract 8-II; All of an apparent lap of the Townsite of Cape Carlos, according to the plat of the F. M. Davis Subdivision of Cape Carlos, on the B. L. Bludworth Patent No. 321, lying between the I. H. Sternberger, et al., Tract (8-I) and the F. M. Davis, et al., Tract (14), in the County of Aransas, State of Texas, and more particularly described as follows: Beginning at Corner No. 1, which is also Corner No. 1 of the F. M. Davis, et al., Tract (14), Corner No. 1 of the San Antonio Loan & Trust Company Lap (Tract 4-II), the southeast corner of the Dillard R. Fant Patent No. 883, and the northeast corner of the F. M. Davis Patent No. 294, in the west boundary of the B. L. Bludworth Patent No. 321, marked with a U.S.B.S. standard concrete post marked "57 COR 12 TR 4 COR 1 TR 14 COR 1 TR 8 1937," set 18" in the ground (a United States Engineer's Bence Mark 1080 bears North 20 deg. 10' East 62.24 chains distant); thence North 00 deg. 11' West 5.60 chains to Corner No. 2, which is Corner No. 12 of the San Antonio Loan & Trust Company Tract (4); thence with the I. H. Sternberger, et al., Tract (8) North 89 deg. 30' East 11.06 chains to Corner No. 3, which is the northeast corner of the apparent lap of the Townsite of Cape Carlos; thence South with the apparent lap of the Townsite of Cape Carlos 38.52 chains to Corner No. 4, which is Corner No. 6 of the I. H. Sternberger, et al., Tract (8-I); thence along a narrow shell ridge on the shore of Mud Bay and with the meanders thereof the following two courses and distances: South 76 deg. 1' West 11.11 chains to a point (4-1); South 64 deg. 49' West 0.284 chains to Corner No. 5, which is Corner No. 2 of the F. M. Davis, et al., Tract (14), which is marked with a 1 1/2"x36" galvanized iron pipe set 20" in the ground; thence with the line common to the Dillard R. Fant Patent No. 883, and the B. L. Bludworth Patent No. 321, 35.62 chains to the place of BEGINNING, containing 43.99 acres, more or less, as shown on the attached plat marked Exhibit A, and for this purpose the undersigned Commissioners will meet for the purpose of hearing the parties in the County Court House of Aransas County in the City of Rockport, Texas, on the 22nd day of July, 1940, having heretofore duly selected such time and place for hearing as required by law, will proceed to hear said parties and to act thereon in the manner directed by law. Witness our hands this 17th day of June, 1941.

IN THE DISTRICT COURT OF THE UNITED STATES FOR THE SOUTHERN DISTRICT OF TEXAS CORPUS CHRISTI DIVISION, UNITED STATES OF AMERICA, Petitioner V. 439.31 ACRES OF LAND, MORE OR LESS, IN ARANSAS COUNTY, TEXAS, HORACE H. McDOWELL, ET AL., Defendants. CIVIL ACTION NO. 95, NOTICE OF HEARING: In the matter of proceedings by the United States of America for the condemnation of certain lands in Aransas County, Texas, comprising 439.31 acres, more or less, owned by Horace H. McDowell et ux, Waldine, and B. Cahn, New Orleans, Louisiana, pending in the United States District Court for the Southern District of Texas. NOTICE IS HEREBY GIVEN to the United States of America, petitioner, and to Horace H. McDowell, et ux, Waldine, Victoria, Victoria County, Texas; B. Cahn, New Orleans, Orleans Parish, Louisiana; the State of Texas, and the County of Aransas in the State of Texas, apparent owners, and to the said defendants generally and all singular the heirs, husbands, wives, devisees, executors, administrators, representatives, aliases, successors, creditors, and assigns of each and every of the above named parties, and all unknown owners, lienors, and claimants, having or claiming any right, title, estate, interest or lien in or to said land, and occupants, lessees, licensees, users, holders, and owners of and to easements in, on, over, across, or through said land, and all persons, companies, corporations, and taxing authorities having or claiming any right, title or interest in or to any of said lands, and all other persons and corporations, existing or defunct, claiming any right, title, or interest in and to the said 439.31 acres of land, more or less, hereinafter described, in Aransas County, Texas: You are hereby notified that on August 28, 1940, the United States of America filed its petition for condemnation of the lands hereinafter described, in the United States District Court for the Southern District of Texas, which suit is styled United States of America v. 439.31 Acres of land, more or less, in Aransas County, Texas, Horace H. McDowell, et al., and numbered Civil Action No. 95 on the docket of said Court; that the petitioner is seeking condemnation of the full, absolute, fee simple title to said lands for the purpose of incorporating them within the Aransas National Wildlife Refuge, as authorized by the laws of the United States of America, all of which fully appears in a certain original petition, as amended, filed by the United States of America in the United States District Court for the Southern District of Texas, Corpus Christi Division; You are hereby further notified that the United States District Judge for the Southern District of Texas on September 13, 1940, appointed the undersigned Special Commissioners to hear the parties, view the land and award just compensation for the following described property, to-wit: Parcel No. 1, H. H. McDowell Tract (7); All that tract or parcel of land, being a part of the Sumpter Turner Patent No. 838, dated June 30, 1856, for 640 acres, located on the east shore of St. Charles Bay, on Blackjack Peninsula, approximately one-half mile north of Meile District point, bounded by the following described lines: Beginning at Corner 1, which is Corner 16 of land of the United States, the San Antonio Loan & Trust Company tract (4), in the west boundary of the Sumpter Turner Patent No. 838, on the east shore of St. Charles Bay, marked with a 1 1/2" iron pipe from which a U.S.B.S. standard concrete post marked "68" bears N. 89 deg. 39' E., 2.00 chains distant; thence with three lines common to land of the United States, the San Antonio Loan & Trust Company tract (4), passing within the Sumpter Turner Patent No. 838, N. 89 deg. 39' E., 93.59 chains to Corner 2, marked with a U.S.B.S. standard concrete post "25" from which a U. S. C. & G. S. triangulation station "SHRUBBERY" bears S. 14 deg. 29' E., 30.06 chains distant; N. 0 deg. 16' W., 28.25 chains to Corner 3, in the line common to the Sumpter Turner Patent No. 838 and the Cyrus B. Lucas Patent No. 169, marked with a U. S. B.S. standard concrete post "26"; S. 89 deg. 39' W., 75.83 chains to Corner 4, which is Corner 19 of land of the United States, the San Antonio Loan & Trust Company tract (4), in the line common to the Sumpter Turner Patent No. 838 and the Cyrus B. Lucas Patent No. 340, on the easterly shore of St. Charles Bay, from which a U.S.B.S. standard concrete post "47" bears N. 89 deg. 39' E., 1.05 chains distant; thence with the westerly boundary of the Sumpter Turner Patent No. 838, along the shore of St. Charles Bay, with the meanders thereof, S. 16 deg. 48' W., 9.26 chains; S. 30 deg. 22' W., 14.83 chains; S. 49 deg. 11' W., 10.30 chains to the place of beginning, containing 233.25 acres, more or less. PARCEL NO. 2 B. CAHN TRACT (11): All that tract or parcel of land being all of the Leopold Cahn Patent No. 649, dated February 11, 1892, for 250.94 acres, and located on the northern end of Bludworth Island, on the east side of Blackjack Peninsula, between Mullet and Mesquite Bays, bounded by the following described lines: Beginning at Corner 1, the corner common to the Leopold Cahn Patent No. 649, and the B. L. Bludworth Patent No. 321, on the northwest shore of Mesquite Bay, marked with a U. S. B. S. standard concrete post "50"; thence with the line common to the said Leopold Cahn Patent No. 649, and the B. L. Bludworth Patent No. 321, West 34.54 chains to Corner 2 on the southeast bank of a bayou, marked

with a 1 1/2"x36" galvanized iron pipe; thence along the southeast shore of said bayou, connecting Mullet Bay with a lagoon, with the meanders thereof, N. 24 deg. 40' E., 45.19 chains; N. 55 deg. 29' E., 9.06 chains to a point at the southwest-erly end and on the southeast shore of Mullet Bay; thence along the southeast shore of Mullet Bay with the meanders thereof, N. 85 deg. 54' E., 20.76 chains; N. 68 deg. 14' E., 8.27 chains; N. 28 deg. 01' E., 13.60 chains; N. 43 deg. 55' E., 15.20 chains; N. 38 deg. 01' E., 7.48 chains; N. 49 deg. 54' E., 13.41 chains to a point marked with a 1 1/2"x36" galvanized iron pipe; N. 61 deg. 59' E., 15.34 chains; N. 73 deg. 34' E., 8.22 chains; N. 52 deg. 43' E., 8.10 chains; N. 56 deg. 53' E., 15.92 chains; N. 66 deg. 55' E., 12.26 chains; N. 77 deg. 02' E., 17.58 chains; S. 86 deg. 44' E., 7.87 chains to a point at the extreme northeast end of Bludworth Island at the junction of Mullet and Mesquite Bays, marked with a U.S.B.S. standard concrete post "58"; thence along the northwest shore of Mesquite Bay with the meanders thereof, S. 14 deg. 47' W., 5.22 chains; S. 49 deg. 29' W., 15.08 chains; S. 79 deg. 43' W., 4.40 chains; S. 60 deg. 43' W., 30.77 chains; S. 60 deg. 08' W., 13.53 chains to a point marked with a 1 1/2"x36" galvanized iron pipe; S. 62 deg. 11' W., 13.74 chains; S. 52 deg. 45' W., 10.97 chains; S. 87 deg. 36' W., 16.60 chains; S. 11 deg. 08' E., 6.02 chains; S. 45 deg. 07' W., 5.22 chains; S. 62 deg. 05' W., 9.02 chains; S. 57 deg. 51' W., 5.54 chains to the place of beginning, containing 256.96 acres, more or less, and for this purpose the undersigned Commissioners will meet for the purpose of hearing the parties in the County Court House of Aransas County in the City of Rockport, Texas, on the 22nd day of July, 1940, having heretofore duly selected such time and place for hearing as required by law, will proceed to hear said parties and to act thereon in the manner directed by law. Witness our hands this 17th day of June, 1941.

Highways to be Rebuilt to Army Specifications

SAN ANTONIO, June 17—Out of 4,300 miles of the Texas highway system designated by the War Department as being of prime importance to military movement, 49 per cent lies in the 55-county region of the South Texas Chamber of Commerce. This is because military centers, men and equipment are concentrated in South Texas. Although funds available to the State Highway Department are inadequate to complete the system as prescribed by the army, approximately \$3,500,000 of \$4,500,000 allotted during a year's time for construction in South Texas has been used in improving roads carrying military designations. These facts highlight a report compiled, with aid of the department by Sam Fore, Jr., of Floresville, chairman of the South Texas Chamber's highway bureau, for submission to the chamber's annual meeting June 25. Noting that the highway department has established a policy of giving priority in allocation of available funds to roads of military importance, Fore pointed out that these roads are equally important to the traveling public. He added: "In every case the army has selected well traveled arteries for their designations. In improving this system to meet with the needs of the War Department, the public is being benefitted in every-day travel." A high percentage of the \$6,500,000 of construction now in progress is likewise being spent on roads of military priority, said the report sent to Executive Vice-President Ray Leeman of the regional chamber.

So.-Texas C. of C. Names Committee For Annual Meet

SAN ANTONIO, Texas, June 18—J. M. Pickering of Victoria, chairman of the board of directors of the South Texas Chamber of Commerce, also heads a declaration, or resolutions, committee appointed for the chamber's Fifteenth Annual Board Meeting to be held in San Antonio June 25. D. W. Blackburn of Victoria, president of the South Texas Chamber, has just announced the declaration committee, which includes, in addition to Pickering, the following: A. Wayne Wood, Brownsville; L. Mims, Freeport; Al Buchanan, C. W. Miller and James A. Harley, San Antonio; W. M. Griffith, Sinton, and Sam Fore, Jr., Floresville. The committee has been called to meet in headquarters of the regional chamber at 9:30 A. M., June 25. Meanwhile advance copies of proposed resolutions will be submitted to committee members.

Pictured among the gadgets of his home-built station, W9BSP, in Otathe, Kan., Marshall H. Enser, school teacher, was cited as the amateur radio operator who "contributed most usefully to the American people." The citation came with the William S. Paley amateur radio award.

White-Wings Ranging North

AUSTIN, June 12—White wing doves formerly ranged no farther north in any numbers than Duval County and they still concentrate in the Rio Grande Valley area. However, those excellent game birds are again reported as far north as Bandera County. A considerable number as nesting in the vicinity of Medina Lake. Each year more and more of the brush which white wings use for cover is being cut off Southwest Texas land and the birds are more hard put to find suitable areas in which to nest. This is being studied by the Game Department to help save the nesting and feeding grounds of the white wings in the Valley.

A MOST PLEASANT STAY FOR YOU!

Rockport, Fulton & Lamar

That Is The Aim....

OF EVERY OPERATOR OF TOURIST COTTAGES AND APARTMENTS

Your Pleasure is our business, and upon the service we render depends future visits from you, and we are always ready to do everything possible to make your stay with us the most enjoyable you have ever had on the Texas Coast. Let your wishes or needs be known. We'll do our best to please!

As an added courtesy we are co-operating with the Rockport Pilot in bringing this newspaper to our guests each week. On this page, and elsewhere in the paper, you will find information that will be of assistance to you in making all your vacation hours count, including suggestions on where to go and what to do.

SPECIAL NEWS SERVICE FOR YOU

The manager of each Tourist Court, Cottages or Apartments listed on this page is an authorized news reporter for this newspaper. Tell the manager that you would like to have a news story about your stay here. He will report it to the Pilot and the news will appear in the next issue. The Pilot will in turn forward the news story on to the guests' home town newspapers. This special personalized news service also includes pictures by the Pilot photographer of unusual news events, such as big catches of fish, and other picture-worthy events.

Rockport, Fulton, Lamar and adjacent areas along the 15-mile coastline of Live Oak and Lamar Peninsulas form the most ideal "family playground" on the Texas Coast. Here stretches fifteen miles of tree-lined beaches and natural beauty that comes from blending of skies, water and trees, bathed in a semi-tropic sunshine and tempered by cooling Gulf breezes. Here one can enjoy the activity of fishing, boating and swimming, or just loaf in an Eden-like atmosphere, so different from the usual highly commercialized tourist resort.

FISHING—There is no better place to go fishing than in the waters off shore from Live Oak and Lamar Peninsulas, where Trout and Redfish are found in abundance—and where giant silvery Tarpon are ready to take the bait and give the sportsman a furious hour's battle. Aransas Bay was described in last year's official State Game, Fish & Oyster Commission report as a deep bay of uniform depth, containing unusually clear water. It is protected from inland floods to an unusual degree and as the result its salt content—so important to marine life—is unusually constant. . . . HERE is found the famous Rockport oyster, known from coast to coast.

BATHING—is unexcelled. You may either take the kiddies for a swim in the safe shallow bay right in front of your cottage, or swim at the new sand-bottomed beach outside the small craft harbor. There are no undertows and surf bathing is at its best.

NATURE STUDY—recognized naturalists know of no other place in Texas where such a variety of flora and fauna are combined for first hand study. Each year a larger number of nature students and bird lovers visit Live Oak and Lamar peninsulas.

SIGHTSEEING—visitors are always welcome at the State Game, Fish & Oyster Commission's only marine laboratory, stationed at Rockport and carrying on extensive marine experiments and study in Aransas and Copano bays and the nearby Gulf of Mexico. Beautiful state parks on Lamar peninsula, include the now famous Big Oak and the CCC improved Goose Island. The well preserved Fulton mansion is open to visitors and it takes the sightseer back to a day when Rockport and Fulton were the principal South Texas ports of call for deep sea sailing vessels. Add to all this miles of scenic drives that never fail to please the motorist's eye.

BOAT FACILITIES—have been given every attention at ROCKPORT. A new small craft harbor and channel have been completed by the Rockport Navigation District. Too, many prominent Texas sportsmen have built their own boat houses here and Rockport is becoming the home port for many palatial pleasure crafts. Boats, in which to fish or hunt, are available for rent at points all along the bay front and Fulton and Lamar. Guides are furnished for parties wishing to make one day or overnight trips to the Gulf.

PERSONALS—

Mr. and Mrs. C. F. McKinley were business visitors to Corpus Christi Monday.

Mrs. B. S. Johnson and Mrs. Pittman, who stay at Triple Oaks, were Aransas Pass visitors Monday.

Mr. and Mrs. Harry Warden Jr. were Corpus Christi visitors Monday. They reside at Triple Oak Courts.

Mr. and Mrs. Chester Johnson of Victoria spent the week-end visiting with Mrs. Johnson's parents, Mr. and Mrs. J. H. Mills.

Mr. and Mrs. W. H. Bostich of Raymondville are enjoying two weeks of swimming, fishing and rest at Palm Courts.

Mr. and Mrs. H. Lively Jr. and Mr. and Mrs. T. Hall and son of Dallas form a vacationing party at Palm Courts.

Mr. and Mrs. W. R. Briggs and small daughter of San Antonio have spent two weeks enjoying vacation diversions at Palm Courts.

Dr. and Mrs. A. H. Schwichtenberger and family of Randolph Field were among guests spending a week at Palm Courts.

Mr. and Mrs. J. Newton Barnes and daughter Doris arrived Sunday at Poch's Cottages at Fulton for a vacation stay of two weeks.

Mr. and Mrs. C. L. Crawford and Mr. and Mrs. J. M. Smith of San Antonio spent a few days during the past week at Fulton Family Cottages.

Mr. and Mrs. C. E. Stacey of Alice arrived Wednesday for a vacation at Fulton Family Cottages. They plan to remain for a week or more.

Mr. and Mrs. Frank M. Ellis returned to their home in Beeville on Wednesday after spending three days at the Fulton Family Cottages.

Mr. and Mrs. C. E. Stacey of Alice arrived Wednesday for a vacation at Fulton Family Cottages. They plan to remain for a week or more.

Mr. and Mrs. Frank M. Ellis returned to their home in Beeville on Wednesday after spending three days at the Fulton Family Cottages.

Mr. and Mrs. F. W. Nute and Mr. and Mrs. Jack Killian of San Antonio have been at Palm Courts for a couple of weeks enjoying fishing, crabbing and swimming.

Mrs. Harry Warden Sr., with the K. Woolen Company of Corpus Christi, spent the week-end in Rockport, staying at Triple Oak Court.

Miss Amy LaRee McWright of Junction, who is on an extended visit here with her aunt and uncle, Mr. and Mrs. D. R. Simmons, spent last week-end in Woodboro.

Dr. and Mrs. Fred Fox and little daughter Betty Sue of Lawton, Okla., are enjoying a pleasant stay at Wells Court at Lamar. It is the seventh summer stay at Lamar for Dr. and Mrs. Fox in the past ten years.

Mr. and Mrs. J. C. McCulloch of Tucson, Ariz., are vacationing at Palm Courts. They went out in the Gulf fishing Monday and caught a nice string of fish. In the process, however, they got a slight overdose of sunburn.

Mr. and Mrs. W. L. Renberthy of College Station and Mr. and Mrs. W. B. Skinner of Rogers are vacationing this week at Palm Courts. They caught a nice string of trout Wednesday off the Palm Courts pier.

Mr. and Mrs. G. A. Taylor and family of Houston have enjoyed a two-week stay at Poch's Cottages at Fulton. Mr. and Mrs. Taylor brought in a string of 27 trout last Saturday after a short while fishing on Long Reef.

Mr. and Mrs. Otto Vogt and family and Mr. and Mrs. Horace Blum of Gonzales make up a party that has been enjoying fishing, swimming and boating off-shore from Poch's cottages for the past week.

Mr. and Mrs. M. W. Yates arrived Tuesday at Poch's Cottages to spend a week enjoying coastal recreations at Fulton. They are feeling right at home, since they are occupying the same cottage they lived in for several summer seasons in the past.

Mr. and Mrs. Sam Levy and son and Dr. Emil Zox of Houston returned home Sunday with delightful memories of a well time on the coast after spending a week at Palm Courts. They went Gulf fishing Saturday and returned with a big catch of kings and mackerel.

F. W. Farley, president of the Southern Engraving Company of Houston, and J. R. Jones, head of the sales department, spent the week-end at Oleander Court. Both were favorably impressed with Rockport and are considering this as the place for their company's annual entertainment for school superintendents and principals of the state.

PERSONALS—

Mr. and Mrs. J. A. Walling spent the week end in Aransas Pass visiting Mr. and Mrs. Bill Cavitt.

Mr. and Mrs. Sidney M. Freeman and family of San Antonio will arrive to spend the summer here at Forest Park Cottages.

G. H. Robinson, guest at Forest Park, made a nice catch of trout Tuesday. He came here after luckless fishing at Palacios.

Mr. and Mrs. Roy T. Hays of Duncan, Okla., are among guests at Fulton Family Cottages, who have been lucky at fishing.

Mrs. Oval Morgason, of Texarkana, spent several days here the past week, the guest of Mrs. Lyle Diederich.

Mrs. W. D. Mayer and Mrs. Wayne Buckhaizer and children of Bay City were guests of Mr. and Mrs. Lyle Diederich Saturday.

W. C. Cates of Robstown has reservations for a party of twelve at Forest Park. The party is to arrive on Friday and remain for a week.

Mr. and Mrs. Louis A. Lee and children of Oklahoma City are spending a week at Forest Park Cottages.

Mr. and Mrs. C. C. Mitchell of Loloita have arrived at Forest Park to spend the summer. They have large ranching interests in Jackson county.

Parks Van Horn, after completing a term at Rice Institute, is here visiting his uncle and aunt, Mr. and Mrs. Charley Roe.

Miss Annie Ruth Jackson left last week for Comfort where she will be one of the counselors at Camp Idlewild.

Mr. and Mrs. J. L. Hudgins, their two sons and a nephew are having an enjoyable time at Fulton Family Cottages. They will be here through Sunday.

Mr. and Mrs. Sam Seymour and Mr. and Mrs. W. C. Miller of Columbus have two Forest Park Cottages reserved and will arrive next Tuesday for a vacation stay.

W. B. Moore of Houston has reserved three Forest Park Cottages for a party that is to arrive Monday for a week's stay. Mr. Moore is a member of the Moore Bros. Electrical Company.

San Antonians staying at Forest Park Cottages this week include a party composed of Mrs. Hugo C. Werner and children, Saathoff and children, Mrs. C. E. Atkin and Mrs. H. W. Frick.

Miss Grace Smith returned home Sunday after a month's stay in Houston with the J. A. Will Smith family, also visiting the Sam Smith family in Beeville.

Rev. J. B. Adams preached at Aransas Pass last Sunday, both morning and evening, supplying for J. K. Ridgeway, pastor of the First Baptist church.

Mr. and Mrs. Troy Spivey and Mr. and Mrs. C. G. Wright form a party from Adkins, Texas, here for a week of good times on the coast. They are comfortably settled in Forest Park.

Mr. and Mrs. J. Caro Russell and son Caro Jr. are among West Texans here this week to enjoy rest and play on the seacoast. They are from Abilene and arrived Sunday for a two-week stay at Fulton Family Cottages.

Rev. and Mrs. Wesley Sumerlin of Calallen spent a few days of their honeymoon here this week, having entered the matrimonial state last Sunday. Mr. Sumerlin is pastor of the Baptist church at Calallen.

Clark Bailey left Tuesday for Jacksonville, Fla., after spending a few days here with his parents, Mr. and Mrs. Travis Bailey. He has just completed his training in the naval reserve air training school at Grand Prairie.

Jim Jackson, son of Mr. and Mrs. S. F. Jackson and instructor at Schreiner Institute for the past two years, will leave with two others from Kerrville to go into training at Fort Bliss at El Paso.

Mr. and Mrs. Allen Webb from Brownfield, out in West Texas near Lubbock, have arrived for a vacation stay at Forest Park. Mr. Webb was busy Wednesday getting his fishing tackle lined up and was due to get out after them at least by early Thursday.

Mrs. Mattie Johnson and two daughters, Misses Ellen and Marie Johnson, left last Friday for Chicago where the Misses Johnson, members of the Rockport school faculty, will attend summer school at the University of Chicago.

Friends of Cecil Smith, former Rockport boy, but for several years residing in Houston, will be interested to learn that he has recently entered the naval reserve air training school at Grand Prairie, near Dallas.

Miss Zelma Lee Hawes Marries Aubrey Stokes Sunday

Miss Zelma Lee Hawes became the bride of Aubrey Stokes in a quiet wedding ceremony in Ingleside last Sunday. The marriage ceremony was performed by the Rev. L. M. Huff, pastor of the First Baptist Church of Ingleside, and was witnessed by only members of the immediate families and a few close friends.

The bride is a daughter of Mr. and Mrs. W. F. Hawes of Rockport and graduates from the high school here with the class of '38. She wore spring attire in navy blue with white accessories and a corsage of white carnations.

After a Wedding luncheon the happy young couple left for Medina to make their home, where Mr. Stokes is employed.

In Dad's Shoes

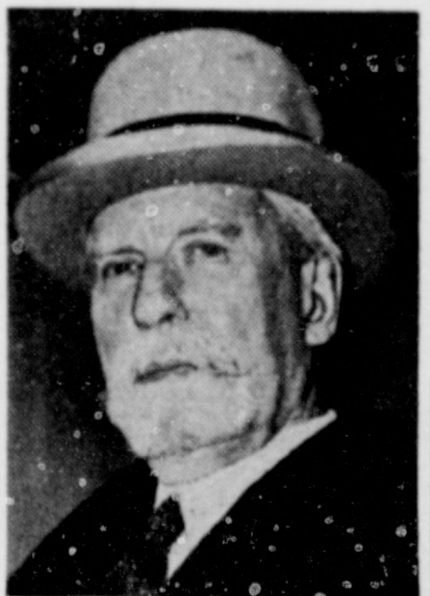

Sen. Andrew Houston of Texas, 86, who takes seat occupied by his father, Sam Houston, in 1846. He is shown (left) with Sen. Tom Connally of Texas.

Mr. and Mrs. Ruth Neflyer and children of Eagle Pass returned to Eagle Pass after a week's vacation stay at Fulton family Cottages. Mr. Neflyer was unable to accompany them here this time on account of his duties with the Immigration Service. Mrs. Neflyer is a sister to Mrs. A. Leonard Miller and enjoyed visiting her while here.

Mr. H. Diederich was honored at the home of his son, Fred Diederich, on Fathers' Day by the presence of Mr. W. H. Bahr and Teddy Piler of Alta Loma, Mr. and Mrs. Earl Nelson and children, Mrs. M. E. Wilkinson, Houston. Mr. Diederich is among Rockport's oldest residents.

Mrs. Norvell Jackson returned the first of this week from Austin and Mineral Wells, where she spent a week visiting relatives and friends. She was accompanied home by her cousin, Miss Margaret Holmes of Mineral Wells. Miss Holmes will remain here over the Fourth and will represent Mineral Wells as a Skipperette in the Million Dollar Boat Parade and Fourth of July Celebration.

Justice Retires

U. S. Supreme Court Chief Justice Charles Evans Hughes, 79, who submitted a request for retirement to the President, effective July 1, because of age and health.

Sixty Corpus Campfire Girls Spend Wednesday In Outing Here

Sixty Campfire Girls of Corpus Christi, traveling in two large buses, spent the day in Rockport Wednesday, encamping in the grove at Rockport Cottages. They were accompanied by Mrs. W. B. McCampbell, Mrs. Lee Fox and Miss Aurenia Tribble of Corpus executive board, and Mrs. Robert Siddall from the national executive office.

They enjoyed a swim in the bay at the bathing beach, ate lunch under the oaks at Rockport cottages and were taken on a bird walk by Mrs. Hagar. They were addressed by Mrs. Hagar and Mr. Robert Allen of the National Audubon Society of New York.

Married, at the home of the Rev. J. B. Adams, on June 17, Mr. Roy Verlaine Rittgers and Miss Jessie H. Nicholson.

LOST—Glasses with yellow gold frames and pearl-tipped cables; suitable reward. Return to the Pilot office.

Mrs. Jack Hagar addressed the Latin-American Semani held in Kingsville at A. & I. College on June 13 and 14.

Marvin Townsend Enlists In Army Air Corps

Marvin Townsend, who has been in the army since selection last February, has volunteered for service in the Army Air Corps and has been accepted for that branch of the service. It will probably be some two weeks before he can become actively engaged in the flying service.

Since selection last February, Townsend has been on duty in the army hospital at Fort Sam Houston.

The Washington MERRY-GO-ROUND

Washington, D. C.

GASLESS SUNDAYS
It begins to look as if gasless Sundays might not be so necessary after all—if certain bare-knuckle reforms in the oil industry are put through by new National Oil Administrator Ickes. For instance, the tanker system.

When an oil tanker comes from the Gulf of Mexico up the East coast, it may stop at Charleston to discharge part of its oil, then at Norfolk, then at Baltimore. It discharges a certain amount at each port where its company distributes or refines oil.

Simultaneously, a tanker belonging to another company will stop off at exactly the same ports. Thus the tankers of three or even four different companies may be feeding the same cities at the same time.

If, on the other hand, one company served one section of the country, or if one tanker delivered oil to all the companies in each port instead of only to its own, distribution would be measurably speeded.

Also, there are four different types of high octane gasoline being refined in the United States. All these varieties are not particularly necessary, one type being sufficient during the emergency. Concentration on only one type of high octane gas would considerably increase gasoline output and distribution.

There is plenty of oil in the U. S. A.; it is only a matter of refining and distribution.

Note—The anti-trust laws have prevented the oil companies from cutting competition of this kind, but the government oil administrator should be able to do what the oil companies can't.

But LaGuardia, who made his own terms when he took his defense post, is still in charge of national morale.

SECRET OF CONVOYS

Most people don't realize it, but the contents of almost every ship leaving the United States for England is known to Nazi Germany. However, learning just when the shipment will reach England and the route it will take, is another matter.

Getting information regarding the departure of supply ships to England is relatively simple. All Nazi agents have to do is go down to the waterfront to watch the loading of British ships. The type of goods being loaded cannot be readily concealed.

Or if an American vessel is loading for the Red Sea, the papers signed by the crew must disclose the port of destination. This is required by law, so that a seaman may know where he is going, and because extra insurance and sometimes extra wages are paid if the ship enters certain areas.

Once a British ship is loaded, however, the utmost secrecy is imposed on its route and time of departure. Usually the ship hugs the shore as far north as the Canadian port of Halifax. There it may wait for days or even two or three weeks for a convoy to be made up.

When it finally leaves for the hazardous voyage across the Atlantic, orders are given to the ship's master by hand. Nothing is trusted to radio. A small boat puts out from the commander of the convoy, carrying sealed orders to the master of each vessel.

No other orders are given, and no radio messages are exchanged during the trip except in case of attack, because radio messages might be picked up by Nazi patrol planes.

Note—American ships, on the other hand, follow a regular, well-advertised course and constantly send out radio messages informing the world of their position.

MERRY-GO-ROUND

Supporting the plan of Chief of Staff Marshall to lower the age of army commanders, war department officials quote the late Justice Oliver Wendell Holmes, who fought in the Civil war. To Lady Pollock, during the Spanish-American war, he wrote: "A general of 45 and a private of 30 are old men."

The commerce department has set up a separate British empire unit, headed by W. Walton Butterworth, former state department official in London. His job is to establish closer commercial ties with British dominions and colonies.

After Gen. Allen Gullion, the army's efficient judge advocate general, appeared in the comic strip "Hap Hopper," he received a letter from an old boyhood chum saying: "I have been wondering where you were for 40 years, and now at last I've located you through the funny papers."

Twenty-six years ago Assistant Secretary of the Navy Franklin Roosevelt toted a friend's baby son around the old Poughkeepsie, N. Y., Savings bank, much to the amusement of Judge John E. Mack, who later nominated FDR for President.

The other day, on the anniversary of the incident, the baby—Charles Durant Maines of Flint, Mich.—was inducted into the army.

Rural Electrification Administrator Harry Slattery is proud of having strung up wires in Alaska and the Virgin Islands. Also, he is making a survey in Puerto Rico.

My Week

by Eleanor Roosevelt

A CHRISTENING

Our drive to Hyde Park one day was very pleasant and we stopped in Saratoga, N. Y., long enough to assist at the christening of a very sweet baby girl. She never cried at all when the water was poured over her head, which I am sure means that some day she is going to give her father and mother, Mr. and Mrs. Al William Kresse, a very hectic time. You see, I was brought up on the old superstition that babies must cry the "devil" out of them at their christening, and if they don't it will surely come out later on!

We spent the night with a friend and arrived home to face the usual mountains of mail which greet one after two days without any contact with the postman.

SAD LETTER

I found a rather sad letter from an old friend of the President's, who has always been very fond of the sea. Like many other people, this friend adopted an orphan during the last World War. But I think he must have taken it more seriously than the rest of us, for he has kept in touch with him and really helped him and known him well.

The other day, the Daily Mail in London carried the story of this boy, now grown to manhood and following the sea, meeting his death, as have so many other gallant English officers, on his ship, the HMS Patria. He was a first lieutenant and, when someone had to go below to free a hundred or more men who were trapped, instead of ordering a junior officer to do the job, he went himself and was never seen again, but nearly all the men on board were saved.

The story in itself will be one more tradition told on British ships on the seven seas to educate the young. It is the quotation in a letter from his wife to my husband's old friend which I want to give you. She writes:

"I am convinced that when he met this last trial, he maintained that quiet confidence, that unbreakable courage, and that smile of his that indicated peace of mind and soul. Danger at sea, he had always met without flinching, and this is as we must remember him. For my part, I am proud to have been his wife, even if for only eight years, and if his sons (there are two, five and two years old) grow up as straight and as fine and clean as daddy, I shall be satisfied."

This is a courageous attitude to take, but it must be hard to attain such fortitude of soul. If that is the spirit, however, in which the British face all defeats and still keep such high courage then we may be sure that in the end, right must triumph over might. If our own courage and determination can be at the same level, perhaps, before long, might will be on the side of right.

As I write we are having our second day of steady rain. It is the kind of June weather when a fire on the hearth is pleasant. Yesterday I discovered that last year's robins, or their progeny, have returned, not to the same bathroom window, but to the one next to it. Two blue eggs lie in the nest, from which the mother flies away whenever she hears a noise. I really wonder whether they are wet and miserable when the rain beats upon the window and all the protection they have is the ivy vine which grows thick around them.

CHIEF JUSTICE HUGHES

The news that Chief Justice Hughes is retiring on July 1 comes as a shock. He always seemed to be such a vigorous person that I do not associate him with any particular age. It must be a great satisfaction, however, to reach the point where you feel you can lay aside your work and do only the things you want to do the rest of your life.

To be able to look back, as Justice Hughes can, on a successful personal career, a good name achieved professionally, a happy home in which children have grown to maturity and started out on their own lives with a satisfactory background, a public life which has brought posts of honor and recognition of his high ability and integrity, all this must give the Chief Justice happiness. His countrymen will rejoice with him and do him honor, both in the present and the future.

I cannot close these few words about him without saying how much I have always admired Mrs. Hughes. It seems to me, she has contributed greatly to the success of his career and that some honor and affection from her countrymen are due her as well.

VALUABLE LIFE

Several days ago I noticed the report in the papers of the death of a woman I have known for a long while. Miss Julia K. Jaffray was associated with the National Committee on Prisons and Prison Labor for 33 years. She came to the United States from Galt, Canada, as stenographer to Miss Helen Varick Boswell, who was secretary of that committee. Miss Jaffray, herself, served as secretary for 25 years. This Canadian woman became a leader and wielded great influence here.

No salt or sugar added.
Keeps for 6 months.
Take two cubes daily.

Cruel Conqueror
The conqueror is not so much pleased by entering into open gates as by forcing his way. He desires not the fields to be cultivated by the patient husbandman; he would have them laid waste by sword and fire. It would be his shame to go by a way already opened.—Lucan.

CHECK UP ON VITAMIN C

It's one you need fresh daily!

Get it deliciously from fresh orange juice!

You cannot "store up" vitamin C in your body. That's why you need a fresh and full supply each day to help you look and feel and do your best!

It's hard to get enough unless you have an abundance of citrus fruits. But it's easy with orange juice—an excellent, natural source! Eight ounces supplies all the vitamin C you normally need each day—plus valuable amounts of vitamins A, B1 and G, calcium and other minerals.

Enjoy a BIG glass every morning. Make it with trademarked Sunkist Oranges, the finest from 14,000 cooperating California-Arizona growers. Best for Juice—and Every use!

Redden Hopper's Hollywood—CBS, 6:15 P.M., E. D. S. T.—Mon., Wed., Fri.

Sunkist CALIFORNIA ORANGES

Best for Juice—and Every use!

IMPORTANT! RED BALL ORANGES
packed by the growers of Sunkist are a dependable grade of juice-full, richly flavored California oranges. Rely upon them to give full satisfaction. Look for the trademark on the skin or tissue wrapper.

Should Be Introduced
"Those new people across the road seem to be very devoted," said Mrs. Jones wistfully to the newspaper which hid her husband.
A rustle of the paper was the only reply she got, but she was used to that kind of response.
"Every time he goes out he kisses her, and goes on throwing kisses all down the road. Edward, why don't you do that?"
"Me!" snorted the man behind the news. "I don't know her!"

HARD WORK
Miss Sarah, be sure you put plenty of nuts in the cake.
Sarah—"Deed I ain't goin' to crack no more nuts today. Mah jaw done aches sure 'nough already."

Overcast
The Hollywood film director who had lunched very unwisely returned to the studio for an interview with a distinguished author. His visitor was waiting. The director sat down and took up what he thought was a manuscript, but what, in reality, was the local telephone directory. This he studied gravely for some moments before saying:
"Say, this isn't a bad li'l tale, but you'll have to cut down the number of characters."

EVERYTHING FOR HER NEW KITCHEN
(See Recipes Below)

REALLY PRACTICAL!

Whether the bride-to-be is bound for a six-room "dream house" or for a one-room kitchenette apartment, you can't go wrong if you give her a kitchen shower . . . one that's practical, of course!

And, knowing that some of you are anxious for new, clever, unusual ways to entertain, I'm ready with plans for a kitchen shower that's really different!

In Chicago's huge Merchandise Mart, where buyers from all over the country come to purchase kitchen-ware, I found a variety of inexpensive, yet durable gadgets which anyone about to be married would love.

To make the party practically all played and no work for the hostess, I decided to place the gifts on the table (see picture at top of column). When luncheon is over, everything is hers!

The tablecloth is of a fancy new-type oilcloth, and the place mats and napkins are none other than dish cloths.

An angel food cake pan serves as the base for a "gadget bouquet" centerpiece of measuring spoons and cup, carving set, sugar scoop, funnel, spatulas, pancake turner, strainer, tea ball, grater and other vital kitchen helpers.

The plates are pie tins. The flatware is a very inexpensive kind with gaily-colored plastic handles. And note the spice jars to the right which, because they're to be gifts, hold salt and pepper while doing double duty. They're from the Grif-fith laboratories.

The first course of the luncheon is a tart "Cardinal Salad, set on the table right in its aluminum ring mold. A tasty Beef Stew in a casserole follows. Iced tea is poured from a tall aluminum pitcher into matching "glasses." And rolls, all buttered, are served from a compact, serviceable bun warmer, which may be the hostess' gift. Dessert is Peach Upside Down Cake, served from a square cake pan.

*Cardinal Salad.

- 1 package lemon gelatin
- 1 cup boiling water
- 3/4 cup beet juice
- 3 tablespoons vinegar
- 1 cup cooked beets, diced
- 1/2 teaspoon salt
- 2 teaspoons onion juice or grated onion
- 1 tablespoon horseradish
- 3/4 cup celery, diced

LYNN SAYS:

There'll be lots to talk about at your party, and conversation, plus opening of shower presents may well fill up the allotted party time, but just in case . . . here's a clever game that suits a bridal shower to a "T."

To each guest pass a slip of paper titled "Things Found in the Bride's Home." Neath the title are these words (1) engar, (2) gothorhprra, (3) elminuol, (4) fubfet, (5) hieca, (6) rifhifeoen, (7) pavndorte, (8) blaet, (9) nurcaef, (10) pardyer, (11) kccol, and (12) pocarbud.

Ask each person to rearrange the letters in each of these 12 words to make them spell an article of furniture that would be likely to appear in the bride's new home.

The answers are (1) range, (2) photograph, (3) linoleum, (4) buffet, (5) chair, (6) chifonier, (7) davenport, (8) table, (9) furnace, (10) drapery, (11) clock, and (12) cupboard.

To make the game more interesting, you might set a definite time limit. Collecting all papers after, perhaps, five minutes. Lollipops or some similar original, inexpensive gift may be awarded as first prize.

FARM TOPICS

MILK VALUABLE AS CHICK FOOD

Starts Poultry on Rapid, Continuous Growth.

By WILLARD C. THOMPSON
(Head of Poultry Department, Rutgers University)

Although nature probably never intended chicks to grow and develop on a milk diet, milk is nevertheless one of the best foods on which to start chicks on careers of rapid, continuous growth.

The best form in which to use milk for chicks is sour skim milk furnished as a beverage. The process of souring breaks down the milk solids into forms which are readily digested by chicks. The presence of the lactic acid in the intestines of the chicks is also advantageous. If every chick placed under brooders this spring could be made to drink sour skim milk every day during the first 10 weeks of its life the 1941 chick crop would show a remarkable growth and a very low mortality, other things being equal.

Furnish chicks a sufficient supply of sour skim milk preferably in stone ware or glass containers, every morning. Withholding water will force them to drink it. Always empty out whatever old milk may remain in the containers and thoroughly cleanse the utensils before refilling. There is so much water in sour skim milk that chicks really do not need water as well as the milk.

Sour skim milk seems to serve as an appetizer for chicks. By encouraging greater grain and mash consumption, it speeds up the rate of development.

Sour skim milk is a splendid supplement, particularly for broiler rations. In places where skim milk is not available, the commercial condensed buttermilk products may be diluted and used as a beverage. Of course, buttermilk may be used in place of sour skim milk if it is more readily available and cheaper.

AGRICULTURE IN INDUSTRY

By Florence C. Weed

(This is one of a series of articles showing how farm products are finding an important market in industry.)

Oats

An important industrial use for oat hulls was discovered by accident in 1922. Chemists were trying to improve the digestibility of oats as a cattle feed when they discovered furfural, a compound obtained from oat hulls. At first this was a laboratory curiosity, but soon many uses were uncovered.

Large quantities of furfural are obtained as a by-product in the manufacture of rolled oats and at times, cereal companies operate mainly to produce raw oat hulls as the raw material for furfural. This compound might also be obtained from straw of wheat and other grains.

At present, furfural is sold in tank lots for a germicide, a wood preservative, an improver of tobacco flavor, a solvent for dyes and leather dressing and in the refining of lubricating oils.

It is also possible to use furfural as a plastic compound. New methods are being studied to keep it from turning dark. It has been proposed as a material for a durable waterproof road when blended with soap, salt, lime, farm wastes and soil.

Several kinds of alcohol can be produced commercially from furfural and appear to have promise as solvents, plasticizers and wetting and cleansing agents in different kinds of manufacturing. It might also be used as a fuel for Diesel engines if it were not so expensive.

More familiar uses of oat straw are as a blanket in curing concrete roads, as binder in briquetted fuels and as poultry litter. The United States produces 25 per cent of the world's oats, valued at \$350,000,000.

Agriculture News

The cost of raising a pullet and feeding her through the first production period is about \$2.25.

Turkey eggs should be gathered at least twice a day, and three or four times a day is better.

Flax is splendid as a nurse crop for red clover, alfalfa, lespedeza and grass. Sweet clover grows too well in it and will give trouble at combining time.

Fat brood sows do not produce the most vigorous pigs. The fat sow may farrow weak pigs which are more likely to be killed by overlying than are pigs in the litters of thinner, more active sows.

As a safety measure, every bull should have a ring put in his nose when he is about eight months old. A copper bull ring 2 1/4 inches in diameter will do while he is young, but by the time he becomes two years old, it should be replaced by a stronger gun metal ring.

Star Dust

STAGE SCREEN RADIO

By VIRGINIA VALE
(Released by Western Newspaper Union.)

WHEN Ida Lupino and Louis Hayward (Mr. and Mrs.) found that they were to be co-starred in Columbia's "Ladies in Retirement" they gave three rousing cheers; they thought that they'd be answering work calls together. So—the first week, they actually had one day together on the set. The second, she worked every day and he didn't work at all. Not until the third were they in line for simultaneous calls. And they're cast as bitter enemies!

Ida Lupino

Incidentally, this picture; it's made from a stage hit, Charles Vidor is directing, and the cast includes three top-notch actresses—Elsa Lanchester, Edith Barrett and Isobel Elsom.

So many people wanted to know how the Walt Disney pictures are made that he was practically forced to make his new full-length RKO release, "The Reluctant Dragon." In it he uses both live actors and his usual brand, and we'll actually see how the characters and production are created.

Martha O'Driscoll is in great demand on the Paramount lot. As soon as she completed her work in "Henry Aldrich for President" she reported for Cecil B. DeMille's "Reap the Wild Wind," and learned that she'd have to have her blonde hair darkened several shades, all for the sake of Technicolor. The cast for this picture is an impressive one—Paulette Goddard, Ray Milland, Raymond Massey, Susan Hayward, Walter Hampden, Janet Beecher, Spring Byington, Robert Preston, Elizabeth Risdon.

Martha O'Driscoll

A stairway plays an important part in the new Ronald Colman picture, "My Life With Caroline," so RKO commissioned Nicolai Remisoff to build it. It's called "free standing," because it is entirely free of support by columns or walls—it's suspended from steel beams in the middle of a huge drawing room set. And the treads are covered with white, Chinese angora fur. Cost, approximately \$3,000, in case you'd like to duplicate it. Lewis Milestone directed, with due appreciation for the staircase.

Remember Charles ("Buddy") Rogers, who was a movie hero years ago, and married Mary Pickford, and abandoned the pictures for band-leading? He plays the romantic male lead in "Mexican Spitfire's Baby," starring Lupe Velez and Leon Errol.

The new March of Time film, "China Fights Back," depicts the struggle of the Chinese people to preserve their national independence and democratic way of life. It also shows how, under the leadership of Chiang Kai-shek, China has replaced her destroyed industries with thousands of small factories in the mountainous interior.

Veronica Lake, who skyrocketed to movie fame in "I Wanted Wings," turned slapstick comedienne in Preston Sturges' "Sullivan's Travels." The script called for her to shove Joel McCrea into a swimming pool, then be yanked in by one leg by McCrea, and swing at his jaw till he ducked her in self defense. Her blonde hair was a mess of stringy locks, and her silken evening gown was another mess, when she emerged. But a chance to work in a Sturges picture is worth it.

The Mutual chain's news analyst, Raymond Gram Swing, has a new contract which will keep him on the air Mondays and Fridays for another year for the same sponsor. At the annual luncheon of the Women's National Radio committee he was acclaimed "the commentator best serving the interests of democracy."

ODDS AND ENDS—Jinx Falkenburg, America's No. 1 model (did 38 magazine covers during the last 12 months), says it's much easier to pose for photographers than for a movie camera. . . . Rita Johnson thinks she rates a medal for being Hollywood's No. 1 Stever—says she steers about everything. . . . Warners will make a series of shorts dealing with the activities of the Federal Bureau of Investigation; J. Edgar Hoover is scheduled to appear in them. . . . Paramount will screen "Rurales," a story of the Mexican constabulary, as a good-will gesture. . . . The talented Irish actor, Barry Fitzgerald, is slated for the next Tarzan film.

FIRST-AID to the AILING HOUSE

by Roger B. Whitman
(© Roger B. Whitman—WNU Service.)

Windmill vs. Electric Pump

QUESTION: Can you advise any preference for using a windmill for pumping water as against the pressure system operated with a motor, particularly if it is necessary to generate my own current?

Answer: For efficient and continuous water supply I should prefer the electrically operated water pump. However, for economical water supply the windmill type of pump cannot be surpassed. The only drawback would be that when there is no movement of air for a long period of time, water will have to be pumped by hand or by an auxiliary electric pump.

Cypress Pickets

Question: I have a number of cypress pickets which I intend to leave in a raw state. They are not dressed and consequently the surface is quite rough. I thought some kind of acid wash would rid the surface of the tiny splinters which produce the rough surface, and at the same time produce an interesting effect similar to sandblasting.

Answer: An interesting finish on cypress is obtained by using a plumber's blow-torch, charring the surface of the wood until it checks slightly across the grain. Then brush off with a fine wire bristle brush, first lengthwise and then crosswise until you get the desired shade. Another method is to wire-brush the surface until some of the soft fiber has been removed, leaving the hard grain raised. Finish by rubbing with steel wool.

Leaky Roof

Question: My roof is composition shingles. A leak has developed somewhere in the middle, but I cannot tell exactly where. How can I locate it and stop it? In several places nails have pulled out. Should they be replaced?

Answer: The pulling out of nails in a composition roof is likely to lead to leaking, and this is the probable cause of the trouble. Nails that pull out may have gone into the joints between boards, or into split places. They should be replaced with other nails driven close by and into solid wood. A dab of roofing cement under the heads may help to hold them. It should be possible to locate leaks by noting shingles that are lifted or torn. A leak can often be stopped by sticking down the surrounding shingles with roofing cement.

Old, Rough Floor

Question: Our house is old and the floors are badly worn and very rough and splintery. We cannot afford to spend much money on the floors, but neither do we want to have our rugs ruined. Could we make the floors smooth with putty? Or would you advise putting layers of newspapers underneath the rugs?

Answer: You can smooth the worst of the rough places with a heavy plane, which you may be able to borrow for a day or two. Putty is too brittle to be of any use for this purpose. You might, however, fill the deepest of the rough places with a mixture of sawdust, varnish and a little plaster of paris. Your idea of paper under the rugs is good, but it should be heavy building paper rather than newspaper, which would tear quickly.

Old Mahogany Bed

Question: I have a very old solid mahogany bed, the wood of which has become very dry. Will you please tell me how I can remedy this? The bed is finished with a hard shellac, and I am wondering if a liberal application of lemon oil would penetrate through the shellac. It may be varnish.

Answer: Wood does not require treatment to preserve it, unless exposed to the weather or subjected to extreme moisture. Dryness in wood is desirable. Oils and polishes are used only to preserve the finish.

Log Cabin

Question: The pine logs of my cabin have been shaved. How can I treat them for preservation and to retain their whiteness? How long should logs season before being treated?

Answer: Two coats of spar varnish will be a preservative and will retain the light color for some time. However, the logs will darken with age, which cannot be avoided. One winter's seasoning should be enough.

Book

Question: Is there a book that contains the information in your column?

Answer: The McGraw-Hill Book Company, New York city, publishes a book with the same title as this column, that is on general sale. It includes information on the general care of all parts of a house.

Oil-Spotted Walls

Question: A lamp was moved around a room with the shade touching the wall in several places. The shade seemed to be oily, for there are oil spots on the wall where it touched. How can I get them out?

THINGS for You TO MAKE

Transfer Z9333

ENRICH a protective chair set with this graceful waterlily motif. The leaves and stems are to be applied in green; pastel blooms and a basket of brown are embroidered.

Matching sets for divan and chairs may be made from transfer Z9333, 15 cents.

Varied Study

He that studies only men, will get the body of knowledge without the soul; and he that studies only books, the soul without the body. He that to what he sees, adds observation, and to what he reads, reflection, is in the right road to knowledge, provided that in scrutinizing the heart of others, he neglects not his own.—Colton.

Jack Sanders May Play With Pittsburg Team

Jack Sanders, former S. M. U. football star, of this place may again play professional football in the national league with the Pittsburg team. He played with that team last season and had a good offer from them for this year but has been holding out for a more satisfactory contract.

He has been assured by the management of the salary he has asked for and only certain stipulations in the contract remain to be worked out. If he signs the contract he will probably leave for Pittsburg about July 20.

Between seasons he has been working under his father as assistant superintendent of Bauer-Smith Construction Company.

Prominent Out-Of-State Men On Bird Tours

Among the prominent out-of-state men taking the wildlife tours here this month are Lowell V. Mills, principal of the high school at Colorado Springs, Colo., Dr. E. L. Wilson, Kansas City and Chas. Harwell of Berkeley, Calif.

The tours are being conducted twice weekly through this month.

Tell The Pilot the News

Application Made For Mosquito Control

Aransas county may come in for a share of the government's recent allotment of funds for mosquito control in the Gulf Coast area, application having been made by County Surveyor Floyd Huffman, through a representative of the State Health Department at Corpus Christi.

Funds for this purpose to the amount of \$4,000.00 were recently allotted by the government for several counties in this area and Huffman made application for \$3,000.00 for Aransas county. The mosquito control project would include drainage of certain areas, plating oil on ponds and lakes, etc., and would furnish employment for 10 or 12 men for a period of seven months.
