**The Good Earth**

By Mrs. B. F. Cobb

If the old timers prediction comes true this year we should have frost around the 11th of November. The saying is that frost will come 90 days after the first norther. As I write this it is the 11th of August and the first norther of the summer just made its appearance. Write the date November 11th on the calendar and see how far the old timers miss their prediction this year.

Several people in town have planted Jerusalem Artichokes this year. I think it fitting to once more give some recipes and tell how to care for the vegetable once it matures.

Jerusalem Artichokes take a long period of time to mature. If one is growing them, do not think the crop a failure if no tubers are not found until frost. When the plants die down they can be cut to the ground, but

the tubers should not be dug except as they are needed; if they are dug they will begin to wilt within a week, but if left in the soil they keep well all winter.

Wet weather, freezing or frost does not damage the tubers when they are left in the ground. They can also be dug and stored in pits like one stores turnips in the fall.

Artichokes may be used any way one uses potatoes. For frying: dip in flour and fry in deep fat.

Special Artichoke Salad: Chop equal parts celery, green olives, green pepper, raw apples and cold boiled artichokes. Mix well and serve on lettuce leaves with French dressing. Can be sprinkled with grated cheese.

Artichoke Salad: Chop one cup peeled, raw artichokes, raw carrots, raw cabbage and add to a cup of cottage cheese, season well with salt and your favorite salad dressing.

Artichoke Pickles: Make as you do your favorite cucumber pickles.

Artichoke Hamburger Steak: Use two pounds chopped meat, one minced onion, and four

boiled Artichokes. Mix well, form into patties and fry as hamburgers.

Artichokes are also delicious in stews or soups and can be boiled with the jacket on as are potatoes. Raw Artichokes are good in any tossed salad. Add a half cup of velveeta (or any melting cheese) to white sauce and pour over hot boiled Artichokes. This is our favorite way of preparing this vegetable. We like the tubers as well or better than we do potatoes.

Haskell Garden Club members should be on the look-out for dried materials to make arrangements from this winter. Not only are dried arrangements interesting to make, they are very attractive and are a good substitute for fresh arrangements.

**SPORT ITEMS**

The golf club used by Arnold Palmer to win the Masters, Ty Cobb's baseball glove and Sam Huff's pro-football helmet are among the sports items featured in the U. S. Pavilion Exhibit Hall at HemisFair.

The exercises were held at Memorial Stadium in Norman, Okla.

Mr. Whorton also holds a Bachelor of Science degree in physics from Baylor University, and a Master of Science degree in bio-chemistry from Tulane University in New Orleans.

The Sonny Whortons left Oklahoma Wednesday, August 7th, for Burlington, Vermont, where he has accepted a position in medical research on the faculty of the University of Vermont.

### PAINT CREEK... COMMUNITY NEWS

The school board at its regular meeting Monday, August 5th, accepted the resignation of two teachers, Mrs. C. A. Thomas, and Mrs. James Miekler, and hired Mrs. George Franklin, Special Education and Title I teacher, Mrs. Inez Lawrence of Sweetwater, 3rd grade teacher and Miss Parma Bobis, Houston, Homemaking teacher. This completed the faculty since they elected Mr. Marvin Ansley of Gilliland as coach, and Howard Brass of Rule for math at the July meeting of the board. Mrs. Tom Pritchard had been elected in June to fill the vacancy on the faculty created by the retirement of Mrs. Hefflin. Mrs. Powell moved to Lubbock and this required a new Homemaking teacher.

Mrs. Lillie Wilson, her son and grandson from San Angelo, have been visiting her sister, Mrs. Roy Overton, and Mr. Overton, and her two brothers and their families, Mr. and Mrs. Louie Kuenstler and Mr. and Mrs. John Kuenstler.

Mr. and Mrs. John Kuenstler had as their guests Sunday their granddaughter and her family, Mr. and Mrs. Kenny Neely and little daughters, and their son and family, Mr. and Mrs. J. B. Kuenstler and Gaynell from Haskell.

Mr. and Mrs. Jerry Jones of Levelland, and Mrs. Sam Chaffin and daughter, Kelly of Midland, spent last week-end with the girls parents, Mr. and Mrs. Paul Fischer. Friday night the Fischers had a party for Ina Rae Bittner who showed films of her recent tour of Europe. Guests were Mr. and Mrs. Albert Bittner, Ina's parents, Mr. and Mrs. Herbert Fischer and children, Mr. and Mrs. Jerry Jones, Mrs. Sam Chaffin, Mr. and Mrs. Derrell Richards and Wallar Overton.

Mrs. Nevt Gillispie is a patient in the Stamford Memorial Hospital for tests.

Mr. Willie Lee Medford returned home from the hospital in Wichita Falls last Monday. He is recuperating from major surgery.

Mr. and Mrs. Howard Hopkins and children have moved into the old Fischer home. Allen Overton bought this house and is renting it to the Hopkins.

Our new coach, Coach Ansley and his family had an accident last Tuesday evening when they were driving from Haskell to the Paint Creek campus. They were in collision with a black Angus bull. Their car was almost totaled. Mrs. Ansley suffered facial cuts and bruises. Their 11½ year old boy had 17 stitches in her leg, and Coach Ansley suffered bruises and some abdominal pain. That surely is a bad way to meet Paint Creek for the first time.

Major Fred Thompson, one of the three American pilots just released by North Vietnam, has visited in our community several times with Mr. and Mrs. Raymond Bounds, Mrs. Thompson and their two children, David and Stephen, have been living in Big Spring with Mrs. Harry Logan, who is Mr. and Mrs. Bound's daughter, Mary Helen, and her children while Major Thompson has been in Viet Nam.

Mr. and Mrs. Gene Overton met their son, Lt. Mike Overton at Collier Station last Friday and attended the graduation exercises of the Veterinary Medicine class of 1968.

They returned to Fort Hood Saturday and saw the last day of the golf tournament. Mike was four strokes under everybody about mid-morning, but he lost the tournament. He was leading Thursday afternoon, too. Wish he could have won it because he left Love Field Sunday morning for a ten-day school at the U. S. Naval Air Station at Alameda, California, and won't have time for another golf tournament soon.

Mr. and Mrs. Jimmy Griffith and Joel and Mr. and Mrs. Martin Coleman and Julia spent last week vacationing in New Mexico. They visited Mrs. Griffith's and Mr. Coleman's brother, Sonny Coleman, on the ranch near Fort Sumner, and then went on to the mountains in northern New Mexico.

Mr. and Mrs. John Carlos Montgomery, Johnnie Paul, April and Paul, visited with his parents, Mr. and Mrs. Howard Montgomery last week and her parents, Mr. and Mrs. Woodrow Smith.

Little Christi Gressett of Spearman is visiting her grandparents, Mr. and Mrs. Raymond Bounds.

Joy Bergstrom is attending ACP in Abilene this summer.

Mr. and Mrs. Buddy Brazell and children, Mike, Ricky and Connie, returned Sunday from their vacation to New Mexico. They camped out on their trip, and one night in one camping area they met the Martin Colemans and the Jimmy Griffiths, and another night they camped with Mr. and Mrs. Billy Garland Middlebrook and son.

Mr. and Mrs. Allen Isbell attended the West reunion in Fort Worth over the week-end. Danny also had his bi-annual check-up at Baylor Hospital in Dallas. The Wests are Jigg's mother's family.

LeeAnn Kuenstler of Kress is spending the week with her cousin Phyllis Middlebrook, and her aunt and uncle, the Dale Middlebrooks.

Mrs. Gene Overton spent Sunday afternoon in Abilene with her aunt, Mrs. Nell Anderberg.

Tuesday for Lake Brownwood for a few days. Mr. and Mrs. Martin Coleman just returned from a vacation in Red River, New Mexico, but it rained all the while they were there and they couldn't fish. So they returned early, and will try their fishing luck at Brownwood.

### \$10,000.00 Gift Sets Up Baylor University Scholarship Fund

Mrs. Cora Frances Laird of Grandview, sister of the late Virgil Bailey of Haskell, has established a permanent scholarship fund at Baylor University. Funds for the scholarship came from Mrs. Laird's land holdings in Haskell County.

Mrs. Laird Tuesday, July 22, in Cleburne, presented a check for \$10,000 to Tom Z. Parrish, vice president of development at Baylor, for the William Eli and Cora Frances Laird Scholarship.

The late Mr. Laird was a farmer in Grandview. She has lived in Grandview since 1900 when she moved there from Alabama at the age of 12.

Mrs. Laird, a member of Grandview Baptist Church, said the scholarship would memorialize her husband and help hundreds of young people in the future to receive a college education at Baylor.

Mr. and Mrs. Laird had no children, but she has a niece who is now a junior at Baylor.

Instrumental in arranging for the gift was District Attorney Robert M. Mahanay, a former Baylor law student and counsel for Mrs. Laird, and Paul Ayres, an assistant director of development at Baylor.

Parrish expressed appreciation to Mrs. Laird on behalf of the university and said the quality of the student body at Baylor in the future depends on such gifts.

"There is nothing more important to Baylor," said Parrish, "than endowed scholarship funds."

Also at the presentation was Judge Penn Jackson, district judge of the 18th Judicial District, a longtime friend of the Laird family.

Mrs. Laird has two brothers, Vaughn Bailey of Dallas and Charlie Bailey of Electra.

### VA Questions and Answers

Editor's Note: Veterans and their families are asking thousands of questions concerning the benefits their Government provides for them through the Veterans Administration. Below are some representative queries. Additional information may be obtained at any VA office.

Q—I will not be released from active duty until late this summer, just in time to enroll in college for the fall semester. Can I get a certificate of eligibility from the Veterans Administration now so that I can present it to the school when I enroll?

A—No. In applying to the VA for a Certificate of Eligibility for G. I. Bill educational benefits, you must furnish a copy of your Report of Separation (DD Form 214) with the application. And you cannot obtain this necessary form until you are actually separated from the Armed Forces. However, this should present no problem. Your application will be handled without delay by the VA regional office where your record will be processed.

### CARD OF THANKS

### Rotary Club Members Hear Rev. Abbott

Speaking before the Rotary Club last Thursday noon, Rev. H. O. Abbott, Jr., pastor of the First Methodist Church presented three important thoughts...

All that pleases is for the moment, all that troubles is for the moment, and the only thing which is important is eternal.

Brooks Middleton introduced the speaker.

"Such things as riches, power and fame which pleases, often fades away," the speaker said. "Troubles such as drought, famine and distress are for the moment. Memory, peace and love are the important things."

Rev. Abbott said.

### Lions Hear Talk; View Film On Speed Reading

Jack Hill, of Abilene, Area Coordinator for Evelyn Wood Reading Dynamics, spoke to members of the Lions and showed a film, "Mental Frontiers," at the Tuesday noon luncheon meeting at Felker's Restaurant dining room.

C. O. Holt was program chairman for the day and introduced the guest speaker.

Hill pointed out in his talk and showing of the film that reading can be quickly, easily and smoothly down the page, as well as from left to right.

Reading Dynamics, the guest speaker said, "teaches how to read more than one word at a time; how to see words in meaningful patterns; how to find thought in a paragraph."

Guests noted at the meeting were Jeff and Wayne Cadenhead.

## Questions and answers about Freedom Shares—the new way for Americans to help their country as they help themselves.

- Q.** What are Freedom Shares?  
**A.** They are the new U.S. Savings Note—a companion product to the Series E Savings Bond.
- Q.** Who may buy Freedom Shares?  
**A.** Any individual who purchases Series E Bonds regularly through a Federal plan—either Payroll Savings where he works or Bond-a-Month where he banks.
- Q.** What is the interest rate on Freedom Shares?  
**A.** 4.74% compounded semiannually, when held to maturity of 4 1/2 years. The rate is less if redeemed prior to maturity; and they may not be redeemed for at least one year.
- Q.** Does this same rate now apply to E Bonds?  
**A.** No. E Bonds continue to return an average of 4.15% when held to their seven-year maturity.
- Q.** What do Freedom Shares cost?  
**A.** They are issued in face amounts of \$25, \$50, \$75, and \$100. Purchase prices are \$20.25, \$40.50, \$60.75, and \$81.00.
- Q.** Can Freedom Shares be bought by themselves?  
**A.** No. They must be bought in conjunction with E Bonds of the same or larger face amounts.
- Q.** Can I buy as many Freedom Shares as I want, as long as I buy E Bonds of the same or larger amounts?

- A.** No. On Payroll Savings, Freedom Share deductions are limited to \$20.25 per weekly pay period, \$40.50 per bi-weekly or semi-monthly pay period, \$81.00 per monthly pay period. On Bond-a-Month, the limit on Freedom Share deductions is \$81.00 per month.
- Q.** How will the Freedom Shares be registered?  
**A.** Registration must be identical with the E Bonds bought in combination.
- Q.** Are Freedom Shares subject to taxation?  
**A.** The same as E Bonds. Interest is subject to Federal income tax, which may be deferred until maturity or redemption (whichever comes first). Interest is not subject to state or local income taxes. Current values are subject to estate, inheritance, gift, and other excise taxes, both Federal and state.
- Q.** Will Freedom Shares be extended beyond maturity, as E Bonds have been?  
**A.** No. Under existing law, there is no provision for extension.

# COTTON PICKIN'S

Rolling Plains Cotton Growers, Inc.

A Memphis, Tennessee cotton merchant and nine seasonal employees of the USDA have been sentenced on charges of bribery and conspiring to downgrade the value of 20,000 bales of cotton, according to a news release from the USDA in Washington.

The cotton merchant, Horace W. Sims, was found guilty in U. S. district court for the Western District of Tennessee on several counts of bribing seasonal classifiers employed by C&MS' Cotton Division to down-

grade cotton purchased from Commodity Credit Corporation. A lower classification meant that Sims would have paid CCC less than the value of the cotton. He was found guilty on all counts and was sentenced to four years in prison, fined \$10,000.00 and assessed one-fifth of the court costs.

Two seasonal classifiers employed by the C&MS Cotton Division in Memphis were found guilty on charges of accepting bribes from Sims. One seasonal laborer was found guilty of diverting the cotton in question to the bribed classifiers. Two additional classifiers and four other laborers had pleaded guilty to the same charges before the trial began.

A former employee of Sims was acquitted. A 12th defendant, a Galveston cotton merch-

ant, has not yet been tried. C&MS officials explained that the Cotton Division was alerted to the deception scheme by another seasonal classifier who had been asked to take part in the conspiracy prior to the time any of the cotton was classed. The FBI was called into the case immediately by C&MS and FBI agents were able to observe pay-offs and the actual classing of some of the cotton involved by the bribed classifiers.

Chances of Congress passing a new farm program or extending the Agricultural Act of 1965 before next year are very slim, directors of the Rolling Plains Cotton Growers, Inc., were advised in a meeting here last week-end.

Charges G. Bragg, RFGC vice president, spent the first four days of last week in Washington to lend representatives of other farm and producer groups whatever aid he could in persuading the House to enact legislation which would extend the life of the 1965 Act beyond 1969.

The Senate had previously voted to extend the farm bill for four years with minor changes. After two days of bitter debate, during which several congressmen from the larger cities frequently referred to farmers as "fat cats with a pipeline into the Federal treasury," a one-year extension of the present program was voted after the House tacked on a \$20,000,000 payment limitation to individual producers.

"Our best bet now," said Bragg, "is to fight for a simple one-year extension, without limitations. Congressman George Mahon, among others, has expressed the belief that many Republicans voted for the \$20,000 limit as a trading point to prevent passage of the bill for more than one year."

## News from Weinert . . .

MRS. O. W. VAUGHN

### WHAT'S YOUR SOCIAL SECURITY COST? WHAT'S IT WORTH TO A FAMILY?

(Ed. Note: This is the 2nd in a series of 3 articles on the cost and value of today's social security prepared by R. R. Tuley, Jr., Abilene District Manager for the Social Security Administration.)

The preceding article covered the person reaching 65 at the end of this year and retiring after maximum taxes.

What about the young person aged 22, just starting his career of 43 years of work or self-employment before reaching age 65. What will he invest in social security and what will it bring him in return?

Using the current and projected tax rates, the employee will pay in \$16.80 toward his retirement benefit at age 65 (or \$39,700 if you add 3 3/4% compound interest on the assumption he would otherwise have invested that \$16.80 as the months went by). With the average

male life expectancy of 13 years at age 65, and with a wife also 65 (81% of men reaching 65 are married), the retirement benefits due him and his wife would total \$42,860—\$3,160 more than the value of his social security contribution.

Actuaries state that under the schedule of contributions now in the law, the young worker will get social security retirement benefits worth from 15-20% more than their own contributions plus an amount. It appears that levels continue to rise to the social security corresponding to the future benefits raised without increasing the taxes. What else do your social security articles in this newspaper

### TAX MAN SAM SEZ:

For various reasons thousands of taxpayers end up receiving a bill from Internal Revenue Service for taxes and interest they owe but have not paid. It is good business to pay your delinquent tax bill promptly. As a matter of fact it is better business to pay when you file your return or before you receive a bill from Internal Revenue. Unless the tax statement is erroneous, most taxpayers will gain by arranging for the money to pay their tax account. If, due to an error, Internal Revenue sends you a statement for taxes that you do not owe, you should take immediate action to get the error corrected.

In any case, don't try to play the "let-them-wait-a-little-longer game." The trained professionals follow a system—the end of this system is usually a levy on your bank account, a levy on your wages or seizure of your property for your delinquent tax account. The Revenue Officer is trained to be completely fair, but the tax law requires him to be very firm.

## OUTDOORS -IN- TEXAS

By Vern Sanford

Probably the first fish a youngster catches is the so-called bream, or if you want to be more formal, the sunfish.

Some anglers never graduate from this stage, continuing to catch these diminutive batters right on through life. An understandable and admirable thing to do. Catching perch, anyway you take it, is just plain, wholesome fun.

Trouble is, most anglers approach the sport with the wrong idea. They use heavy tackle that soon absorbs any notions the perch may have about putting up a protest.

Secret is to catch them on light tackle, the lighter the better, something like an ultra-light spinning outfit with two-pound-test line or maybe a fly rod.

Once for cures, the perch is the tightest fish that swims. It even puts the fabled black bass to shame. Show me a perch and a bass the identical size and it will be no contest in a tugging match. The sunfish will win every time.

Only regrettable thing is that the sunfish doesn't grow very large. Get one a half pound or larger and you've got a BIG one. But even one the size of your hand can put a healthy bend in an ultra-light spinning rod or a fly rod.

In some places, like Caddo Lake and Lake O' the Pines in Northeast Texas, and Marble Falls Lake in Central Texas, catching sunfish is popular sport.

On Lake O' the Pines, one of the favorite baits is the gray cricket. Most anglers fish along the trees standing in the lake. They lower the cricket down deep where the sunfish hang out.

There are many members of the sunfish family in Texas. True identification of your catch is compounded because of hybrids and inter-breeding between the species. Some of them are truly colorful characters, spotted and touched with bright colors.

One of the most popular members of the sunfish family in Texas is the so-called goggle-eyed perch. This actually is the wormmouth. It is sort of an olive green all over with a large mouth, looking offhand

### something like a black bass.

Another favorite is the bluegill. Since the overall coloration will vary, the best identifying marks, universally, are the several black spots visible at the rear part of the top fin when the fin is spread open.

Other important Texas species are the yellow-breasted sunfish and the long-eared sunfish. These can really be confused. Actually the yellow-breast has longer ears than the long-eared and the long-eared has a more vivid yellow breast than the yellow-breasted.

The common sunfish also is quite common and can best be identified by a bright red spot on the gill cover and light blue stripes on its cheeks.

Another important one is the green sunfish, which as its name implies, is generally green all over.

Actually, identification is something most fishermen could care less about. They just like to catch and eat the ubiquitous perch, its nationality be hanged.

No elaborate tackle is needed to catch perch. An ordinary canopole will suffice. But it is more fun on sporting tackle like an ultra-light spinning outfit or fly-rod.

Most perch are taken on bait. But this is because fishermen never have learned the greater pleasure they can get from catching 'em on artificial baits. Tiny spinner baits and wet flies will take almost as many in number, and usually the average size taken on artificials will run larger than those on comparable natural baits.

It is wise to remember, however, that the wet flies should be small, about No. 10 in size. Also good at times are small ponding bugs.

The list of baits that will tempt perch is almost endless. Favorite of course, is the earthworm. Also good are small green grasshoppers, crickets, tiny bits of frozen shrimp and grubs.

Believe it or not, the perch belongs to the same family as the black bass. Actually, the black bass isn't a true bass at all. It's a member of the sunfish family. For this reason you will find sunfish in about the same place you'll find bass. Surprisingly true perch rate high on the bass' everyday diet.

Look for perch around submerged stumps and rocks, a-long moss beds and around weeds, generally in water from about a foot to ten feet deep. Work your bait slowly to catch them.

As for preparing them for eating, just scale, dress and cut off the heads. Fry richly brown in a deep skillet of grease where the many bones become brittle and you can eat fins, bones and all.

Fried perch make a delicious meal!
