the new '68 gas ranges?
The changes!**

You'll find space age burners and ovens with solid state ignition. And new stainless steel utensil supports that let you slide pots and pans without lifting! And cook-and-keep-warm ovens, automatic meat probes and Burner-With-A-Brain! Some ranges have oven/broiler doors that lift off effortlessly, and cook-tops that pop up and off to make cleaning a snap! Gas makes cooking great for '68!

The Awakening of Americanism Your New SS---

By Anita Thigpen

EDITOR'S NOTE: Miss Anita Thigpen, daughter of Dr. and Mrs. Joe Thigpen, was second place winner in a contest sponsored recently by the Progressive Study Club. Miss Thigpen was presented \$500 for second place honors. Her Essay follows:

The crowd quietly comes to attention as the band strikes up the opening bars of "The Star Spangled Banner." As the drums roll and the cymbals clash, a sense of pride is built up inside the people witnessing this event. Their spines seem to tingle, and their pride seems to explode into the awakening world. Yes, the world is awakening to that feeling that most people know as Americanism. It was felt at that moment here in America. But somewhere across the immense Pacific Ocean, the feeling is felt again.

As we open our eyes, we see men—not boys—fighting for their country. In the back of their minds they see anti-war demonstrations and the burning of draft cards. It is true that they might not feel the war has any purpose for them, but yet they are still there in the steaming jungles, fighting to keep a straggling country on its feet against communism. These men are awake and realize how much freedom means to them, and that a democracy is the true government for all the races of the world.

As people travel from state to state in the United States, they see the different types of land, vegetation and people. Let us take a closer look at our main resource—people. There are over two hundred million people in America with different creeds, religions, and thoughts. Yet these millions have one major thing in common—they are all Americans. Many of these Americans are immigrants from other countries. They all have their different reasons for coming to America. Have you ever noticed that when a naturalized citizen is asked what country he is from, he answers with all the pride a voice can muster, "I am an American." Yes, these people have experienced the awakening to the feeling of Americanism perhaps more than do citizens born here.

There are many Americans in the jungles of Africa and Brazil, deserts of Egypt, and the frozen land of Antarctica. These people are all striving to do one thing—to experiment or test something new in the hope to make the world more unified and most important—happy. Our Americans are working alongside people of other nations hoping to achieve this goal. They have to put away the

thought that "Americans know all," and have respect for other people's thoughts. These people must work as one, and they realize their task ahead.

Deep down inside the feeling of a true American lurks. Knowing that their goal must be reached, that feeling seems to grow even stronger.

"O beautiful for spacious skies, for amber waves of grain—America, America God shed His grace on thee." How true and beautiful those words are, and how much they mean to an American. Our goal, as the Americans of today, is to instill those words in our children, so that they, too, might have their full and true awakening of Americanism to cherish in their hearts.

(Continued from Page 3, Sec. 1) more in social security contributions are, however, the ones who will also get substantially higher benefits, ranging up to 30 per cent higher than under present law.

For example, a young man now 27 or younger who pays social security contributions on \$7800 a year until his retirement at age 65, will collect 30 per-

cent more in more than he would under law—\$218 a month for \$323 a month for his wife. His family protection in case of death is also very improved.

The Good Earth

By Mrs. B. F. Cobb

In this fast age we are living in where everything is rush, rush, rush, we need to take all the short cuts possible. A perennial and bulb garden will make gardening much easier. Perennials and bulbs are grown from rhizomes but we think of them as bulbs. Day Lilies, daffodils, tulips, crocus and amaryllis will last for years once they are established. All these but Day Lilies bloom the first two months of spring. Day Lilies bloom through the hot months of July and August.

Perennials that are adapted to this climate are: Columbine, Artemesia, Dusty Miller, Candy Suit, Sweet Williams, Gaillardia, Asters, Perennial Petunia, Hibiscus and Chrysanthemums. Once a perennial garden is started it will thrive for years with very little care. There is the task of thinning plants in

the early spring and watering when the need arises, but other than that the perennial garden grows and thrives from year to year.

If you do not care for a perennial garden, Grandmother's "Old Fashioned Garden" may appeal to you. Remember when she used to grow Larkspur, Poppies, Black-eyed Susan, Portulaca and Johnnie Jumps? I have seen many of these old fashioned gardens grow and thrive on the farm where the only moisture they received was from mother nature.

The Haskell Garden Club had to postpone the December and January meetings because of bad weather and sickness. One of the member's husband is gravely ill at this writing. Our prayer is that he be permitted to recover.

It seems that all the old timers' predictions of a severe winter are being fulfilled. This will possibly go down as a winter long remembered for its severity. I am hoping we do not get any severe damage to trees and shrubs. We should make a good fruit crop this year.

Haskell County History

30 YEARS AGO (January 18, 1888)

The Weinert Cagers stopped the winning streak of the Haskell Indians here Thursday night, defeating them 19 to 15.

Alpha Phi Omega, honorary service fraternity for Eagle Scouts, held formal initiation services for twenty-two University of Texas students recently. Following initiation, new members were entertained with a banquet in the Queen Ann room of Haskell was one of the new members initiated.

Construction was started this week on Haskell's third cotton storage warehouse and applications were being taken for government cotton loans.

Members of the Haskell Lions Club held their regular meeting Tuesday at noon with the largest attendance in several months. Principal speaker at the luncheon was S. Hassen who visited his native land in Assyria last summer on a six-months excursion trip. He reviewed the many countries he visited on the tour and told of the various historical places he saw.

The first rabbit drive of the season has been announced for Wednesday, January 24th, with the drive to be started from the Haskell school house promptly at 9:00 o'clock Wednesday morning. Arrangements have also been made for a barbecue at the noon hour for all who take part in the drive.

Stockholders of the Haskell Hotel Company, owners of the Tonkawa Hotel in this city, held their annual business meeting, Tuesday afternoon, at which time officers and directors were elected for the current year. All members of the board of directors were re-elected with one exception, John A. Couch, local lumber dealer, was elected to fill the vacancy created by the resignation of Oscar Oates, who recently moved to Bayson to engage in the drug business. Other directors are Jim Pace, J. U. Fields, T. J. Arbuckle, Courtney Hunt. Officers of the company, all re-elected, are: John W. Pace, president; J. U. Fields, secretary-treasurer; T. J. Arbuckle, secretary.

30 YEARS AGO (January 19, 1928)

Mr. Courtney Hunt and Miss Mamie Barton have gone to Dallas and Chicago to purchase the new spring stock of merchandise and millinery for the Courtney Hunt Store and The Grissom Store, recently purchased by Mr. Hunt.

The name of French M. Robertson, one of Haskell's popular lawyers, is found in our announcement column this week as a candidate for County Attorney of Haskell County, subject to the action of the Democratic Primary in July.

The name of M. B. (Bunyan) Howard will be found in the announcement column this week as a candidate for the office of public weigher of precinct No. 1.

J. W. Connally authorized the Free Press to place his name in the announcement column as a candidate for Constable Precinct No. 1.

Arthur C. Foster has announced for the office of County Attorney, subject to the action of the Democratic Primary in July.

The Free Press has been authorized to place the name of L. M. (Monroe) Howard in the announcement column as a candidate for Commissioner Precinct No. 3.

Days which began falling here early Monday night and continued through Tuesday night, brought relief and hope to a wide area in West Texas. A little more than an inch was reported here.

W. H. (Bill) Cook has announced for Commissioner Precinct No. 4.

Giles Kemp has announced as a candidate for Public Weigher of Precinct No. 1.

The Free Press has been au-

thorized to place the name of Estelle Tennyson Lee in the announcement column this week as a candidate for re-election to the office of District Clerk of Haskell County.

W. O. Leis, rural carrier from Weinert was in the city Saturday on business.

60 YEARS AGO (January 18, 1908)

On the afternoon of January 11, the members of the Haskell Magazine Club met with Mrs. Henry Alexander in her pretty west-side cottage. Notwithstanding the stiff breeze from the north, the attendance was large and each member eager for the work of the afternoon. The scheduled lesson for the day was the schools of England, with Mrs. S. R. Rike as teacher. The critic's report was interesting. When the time for the social session arrived, the hos-

less surprised the members by requesting them to write three reasons why they are club women, and state two ways in which they have been benefitted by the club.

Mrs. O. E. Patterson left Monday on a visit to her parents at Taylor.

Constable L. F. Burns, of Sagerton, was in the city Monday and Tuesday.

Miss Franke Terrell, who has been visiting in Abilene, returned the early part of the week.

F. G. Alexander left the first part of the week on a business trip to Fort Worth and other Texas points.

Mr. M. R. Hemphill drove over to Rule Wednesday on business and on his return was quite enthusiastic over the farming preparations seen along the way. He said he saw several wheat fields with stock grazing on them and they looked mighty good to him. He said he also noticed considerable improvement going on in Rule.

Judge P. D. Sanders left Tuesday night for Abilene to attend a meeting of the Central West

Texas Association of Commercial Clubs, which he was invited to address on the night of the 15th instant.

Mr. M. R. Hemphill returned the early part of the week from Fort Worth where he had shipped two loads of cattle last week.

Mr. J. W. Collins spent several days at his farm this week. He is building tenant houses and preparing for this year's crop.

TAX MAN SAM SEZ:

Although parents can claim children who are over 19 years of age and who are bona fide students during the year, 3% of the taxpayer assistance calls during the past year in Northern Texas wanted help on this problem. The answer is simple: Yes, Dad, Congress gave you a double exemption. You can claim your child (provided you furnish principal support) regardless of how much he or she made, and the students must claim themselves on their own return.

CANDIDATE FOR DEGREE
Among the thirty University of Texas seniors in the College of Pharmacy, University of Texas, Austin, candidates for the Bachelor of Science in Pharmacy degree is Phillip Handell, 1107 North Avenue, Dean J. B. . . . public the tentative gree candidates.

15 Farmers In County During 1967 Shared In All-Risk FCIC Insurance

The application period for All-Risk Federal Crop Insurance protection on dryland cotton opened today for a limited time in Haskell County. Roy D. Wiseman, FCIC representative from the District Office at Vernon, Texas, said the program being offered for the 1968 crop year remains much the same as last year except for some minor adjustments. "About 15 insured farmers in the county shared during 1967 more than \$2 million in Federal Crop Insurance payments made

in Texas for losses on cotton, grain sorghum, and wheat crops due mostly to drought, flood, excessive moisture and wind. "This added an estimated \$20,000 to the county farm economy and helped to offset financial losses due to poor crops," Wiseman says. The All-Risk FCIC insurance plans guarantee farmers an established amount of good quality production based on yield history of the land, amount of risk involved and estimated

costs of production. FCIC by Congressional Act is allowed to insure only production costs of the farmers' investment in his crop. When crop production falls short of the guarantee due to drought, excess heat, flood, too much moisture, insects, disease or any other natural cause, Federal Crop Insurance picks up the tab paying a cash loss sufficient to meet the guarantee. Some additional benefits gained by Haskell County farmers

through the insurance, Wiseman says include premium discounts for good experience, use of the protection as additional collateral to assist in securing the credit financing so vital to today's farming and added stability to individual farming operations. Former Haskell County Judge, Jim Alvis, of Irving, was in Haskell the first of this week attending to business and visiting friends.
