OVER HALF-WAY MARK WAR CHEST QUOTA REACHED

Pat Mixon Says Good Work Will Put County Over

Aransas County Give \$409 Credit On Over Subscribing Quota Last Year

Aransas county today was well past the half-way mark of its War Chest quota and with the good work of committees was heading swiftly toward the goal of \$2,303 set as the 1944 chest quota.

"It looks like we are going to make our quota if the committees keep up their good work and don't let up," Pat Mixon, chairman of the county drive, said today.

House to house solicitations are now underway and the results of this phase of the campaign are not yet known.

Last week's total collections reported by workers was \$711.00.

Mixon explained also that \$409 credit has been allowed this county on its over subscription of the assigned quota last year, which makes a total credit of \$1,111.00, including collections to the end of last week.

Included in this year's \$2,303 quota is \$500.00 for Boy Scouts. Two hundred and fifty dollars of this remains in the local troop treasury and the other half goes to the district scout fund.

The War Chest includes funds for practically all worthwhile organizations serving the war effort, except the Red Cross, which conducts its fund raising separately.

Rockport Pirates To Play Strong Flour Bluff Team

The Rockport Pirates will invade Flour Bluff High School south of NATS in Corpus Christi Friday afternoon at 3:00. Along with Ingleside and Gregory, Flour Bluff is a strong contender for the district crown, having been beaten only by Gregory, and that by penetrations, the score being a 13-13 tie.

Last Friday night at Pirate Field the Pirates gave way to Sundeen High School after they had faced the leading Ingleside Mustangs the week before in one of the toughest games of the year. The Eagles pushed the Pirates back against the goal line twice in the first quarter, and then plunged over the goal line for both markers and an extra point. At the half, the score was Rockport 0—Sundeen 13.

Early in the second half the Pirates started playing in their old style, and put over two markers in the third period and converted for one extra point. The game ended with a 13-13 tie, but the Eagles had four penetrations to two for the Pirates, thus giving them the edge.

"I think that the boys have learned that practice and hard practice is what wins ball games, and they'll be ready for the Flour Bluff Delegation on Friday afternoon," Coach Wheeler said. "Last week they averaged one day's practice. This week they have had all week, every day, and are ready, for a few minor injuries. They will not be over-confident in this game, I am sure."

The game last week was the last home game of the season for the Pirates, except for a possible encounter with an as yet unnamed team on November 17 at Pirate Field.

Local Draft Board Changes Office Hours

Beginning the first of November the Office of Selective Service Board hours will be from eight to twelve.

BECAUSE THEY KNOW what USO, War Prisoners Aid and other agencies of the National War Fund are doing for their buddies abroad, these wounded veterans of fighting overseas were among the first to contribute to the Texas war fund campaign. The war fund never solicits gifts from service men, but these Texas veterans asked war fund officials to call on them at McCloskey General Hospital, Temple, where they are recovering from wounds, and insisted upon contributing on behalf of their comrades in Italy and France. Gonzales War mSprings Founders' Week Proclaimed by Gov. Stevenson

GONZALES, Tex.—Just as Texans have always given their share in any cause that helps humanity or is for the public good, they are today answering a call to assure a permanent charitable haven of health, hope, peace and happiness for their little cripples, who have been stricken with one of the most dreaded children's diseases, infantile paralysis.

This week, beginning October 23, as proclaimed by Gov. Coke Stevenson, is Founder's week for the Gonzales Warm Springs Foundation for crippled children, and all over Texas the State Department of Education, in collaboration with the Texas Music Educators' Association, has planned a series of concerts, starting today. They are to be given by all music departments of the schools of the state, with the aim of raising \$1,000,000 for this foundation.

Just as President Roosevelt declared the President's Birthday Ball a day to give for the crippled children of the nation, Gov. Stevenson has set aside October 23 and the days of the week beginning that week as a time to help build a place where the crippled children of Texas may go and be admitted for treatment. Here, in this institution some have actually learned to walk again, others have found the way toward recovery and moved out to make room for patients on the ever-increasing waiting list.

Plans were made in June when TMEA officials and representatives of the State Department of Education met at the Warm Springs Hospital with Gov. Stevenson and State Supt. L. A. Woods, who were there for the routine inspection tour. Money from the programs will be sent by school administrators to Harold Michelson, treasurer of the Foundation.

Those in charge of planning the concert series were Raymond Bynum of Abilene, TMEA president, Gerald McGuire of Wink, TMEA committeeman; Charles S. Eskridge chairman of the Foundation concert series; Mrs. H. H. Weinert, Democratic committeewoman, and Nell Parmely, representing the State Department of Education.

On Oct. 10, Gov. Stevenson turned the first spade of earth in a dedication ceremony of the first Elks unit of the Foundation. Joining with officials of the Texas Elks

State Association, he pledged the support of the Elks to the successful completion of the Institution.

A letter from President Roosevelt's secretary said, "The President heard with great satisfaction the plans of the Elks of Texas to break ground in Gonzales Oct. 9 for a hospital for crippled children. He is always delighted to have good work done in behalf of underprivileged crippled children."

At this Foundation is an exercise pool into which flows warm healing mineral waters, at the rate of 200,000 gallons per day. It is located 10 miles north of Gonzales, and consists of the hospital, three dormitories, a reception room, pool room, examination rooms, two nurses rooms, dining room and kitchen.

Superintendent Thomas

Superintendent and guiding hand of the actual operation of Warm Springs is Miss Allie Thomas, RN, who came to Gonzales to take administrative charge in the opening of the hospital 2 years ago. She is a graduate nurse from Baylor University Hospital in Dallas and worked under the eminent orthopedist, Dr. W. B. Carrol of Dallas. Supt. Thomas came to Warm Springs when it was in its first struggle for existence, stayed on through the initial two years and with Physio-Therapist Lorraine Millican organized the hospital into a smooth-running, efficient institution. So when the polio epidemic struck all Texas the summer of 1943, they were ready to handle their part in the challenging professional task of treating the many patients.

Miss Millican is a registered nurse, studied physio-therapy at Children's Hospital, Los Angeles. When Sister Elizabeth Kenny came to Texas the past fall to conduct clinics on her new Kenny method of treatment for paralysis, she asked for Miss Millican's assistance in demonstrating. Miss Millican has the distinction of being the first Texas technician to complete the 9-week Kenny course for specialists at the Kenny Institute in Minneapolis. She was sent to Minneapolis the summer of 1943 by the Foundation learned the Kenny method and has been administering it successfully ever since.

Here many children are admitted each year receive treatment and are returned to their parents fully recovered.

Epps Baby Suffers Severe Burns When He Walks Into Coals

Recovering in a Corpus Christi hospital this week is little 15-month-old Ernest J. Epps Jr., who last Saturday walked into a bed of live coals in the yard of his home at Fulton. He suffered severe burns on both feet and one of his hands.

Ernest, a son of Mr. and Mrs. Guy Epps, was rushed to Memorial hospital in Corpus Christi Saturday, and for a time there was fear that might not live. A blood transfusion was given and he is reported recovering nicely at present.

'Possum Stops Pilot Press, Sheriff Gets 'Em

The Pilot newspaper press was stalled this morning when Gene Shults discovered a 'possum inside the cylinder of the big press as he started to print the first section of this week's newspaper.

Sheriff Arthur Curry walked in at just the right time. The sheriff manipulated the 'possum, while Shults maneuvered the press. Fifteen minutes later the 'possum was extricated by the sheriff who applied the finishing touches with a hammer.

The press began to roll again—and the sheriff made off for home to change clothes which had been smeared with printer's ink from the press during the tussle.

Neal Food Plant Engineers To Arrive Monday

George W. Neal, organizer of the Neal Foods Company here, said today that two of his engineers would arrive Monday to assist him in completion of drafting and engineering work. The engineers are R. L. Slinger and L. Pelletier of New Orleans.

He said that concrete for all of the buildings would be poured once the work is started. This will include buildings for handling shrimp fish, vegetables, chickens, cold storage and cooked foods.

Memorial Prayers Set Sunday For Former Pastor

The Rev. George Walton, rector of St. Peter's Episcopal Church here, announced this week that Memorial Prayers would be said at the church Sunday morning at 11 o'clock for the late Capt. John Schwer, who was in charge of St. Peter's Church during 1942.

Captain Schwer was killed in action while serving with the Army in France. He entered the service as a chaplain after leaving Corpus Christi, where he was a former rector of the Church of the Good Shepherd. Memorial services were held in the Church of the Good Shepherd last Saturday.

Floyd Huffman Buys 1,280 Acres On Copano Bay Adjoining Airport, Bay Frontage Set Aside for Homes

Sale of Bayfront Tracts and Ready-Built Homes and Fishing and Hunting Lodges Will Be In Charge of Emory Spencer

A mile-long stretch of beautiful Copano Bay will soon be opened to the building of summer homes and hunting and fishing lodges, according to announcement by Floyd Huffman this week that he has purchased 1,280 acres of the

Kent-Crain tract of land fronting Copano bay and adjoining the Aransas County Airport on the north.

A choice stretch of the land, studded with oak trees that reach to the shelving sand beach of the water's edge, will be subdivided into building sites, Huffman said. "It is my plan to get underway with actual construction of modern concrete houses in the immediate future," Huffman said. "I believe this will be possible under WPB regulations, since very little critical material will be required in the type of construction that is planned."

J. M. Sellers Takes His First Vacation In Over 30 Years

J. M. Sellers, pharmacist at the Bruhl Drug Store here for many years, is on vacation for three weeks—his first vacation in over 30 years.

Mr. and Mrs. Sellers left Sunday for San Antonio and Kerrville. While in Kerrville he will have a medical check-up.

Mr. and Mrs. Sellers have been married 38 years and for the first seven years they took a vacation annually. Then Sellers went into the drug business and later was a cotton buyer. During the past three decades he has not been absent from his work for more than a half-day at a time.

The development will open a new area to hunting and fishing that was heretofore accessible only by boat. Huffman said that arrangements were being made with Central Power and Light Company for electricity, and that a road would be built to the new sub-division.

Emory Spencer will be general sales manager and will have complete charge of selling the homes and sites.

Consideration of the sale was not given, but it is estimated to have been between forty and fifty thousand dollars.

The back-bay areas in Aransas county have long been favorite hunting and fishing areas, but for the most part they have been inaccessible except by boat. Port Bay Hunting and Fishing Club lies some distance to the south of the Huffman tract and it has many enthusiastic members.

Huffman points out that the Copano building sites have many natural advantages, among them being isolation from noisy traffic, land protection from storms that usually blow in from the east and southeast, comparatively smooth sailing waters for small craft, and a sandy, shallow water's edge for bathing and wading.

All of the Copano Bay building sites will front on the Bay, with an all-weather road running along the back, thus leaving the water front area free from traffic and safe for playing children.

Huffman was resident engineer for the CAA in the building of the Aransas County Airport and it was while working on the airfield that he visualized the possibilities of his present development. He is now busy laying out streets and getting set to start construction of the first unit.

(From the Rockport Pilot Files)

Miss Pat Brundrett left the first of the week, to accept a position with Gibson and Son in Corpus Christi.

It is essential that our young people be provided with diversions from the daily routine of school or their usual vocations, else they will grow old and crabbed before their time; hence they must be provided with places of amusement of some nature. The moving picture show or theater however has its place in the life of all young, and Albert Warren of Aransas Pass has a popular moving picture theater and he supplies clean and instructive shows for the amusement and education of both old and young, and he invites you thru the advertising columns of the Pilot to come to Aransas Pass and be entertained. He supplies the best that can be had in high class pictures at popular prices.

"It certainly does, Judge. Particularly the last paragraph. Would you mind reading that again?"
"Glad to, Bill. It says, 'We can remember

the days of prohibition, when moonshine whiskey made quick fortunes for bootleggers, crooked politicians and dishonest police officials. As a result, we claim we know what we want in the way of liquor legislation and feel those at home should wait until we return before initiating further legislation on liquor control.'"
