Funeral Services Held Sunday For Mrs. Bradshaw

Gambling on a 2-point conversion, the Haskell Indians snatched a "sweet victory" from the Winters Blizzards, 22-21 here last Friday night.

It appeared for a while the Indians had failed to stock-up on enough anti-freeze to ward-off the chilly Blizzards, but late in the game the locals got rolling to turn what looked like defeat into victory.

Late in the fourth period, the Indians scored, having trailed through most of the game. With a one-point deficit, the Indians went for the run, converting and emerging as the winners, also maintaining a stronghold in District 7AA.

Winters opened the scoring as James Greer dashed 14 yards. Haskell pulled even...the only time they had an even break until the final gamble...when Keith Chapman raced 10 yards to score.

Winters' next two scores came as Arlon Barnes ran nine yards, and as Robert Moore slashed in from the one-yard line.

In the third period, the Indians "Big Chief" Lanny Ivy rolled in from two yards out and then, on the one that counted, Charles Franklin hit from one yard out.

"For Pete's Sake" Will Premiere At Texas Theatre October 27, 28, 29

"For Pete's Sake," from World Wide Pictures, will premiere at the Texas Theatre in Haskell on Sunday, Monday and Tuesday, October 27, 28, 29. Produced in wide screen and brilliant Eastman color, this comedy-drama stars Robert Sampson and Pippa Scott in a mile-high Denver setting, against the magnificent backdrop of the Rockies.

"For Pete's Sake" lives day by day with a meat-and-potato guy who has dared to take on big questions about Christianity today, and comes up with even bigger answers. To Pete, God was not dead! Or was He?

On a damp, gray, Sunday afternoon, Pete Harper was one of a large crowd at Denver's Bear Stadium listening to a sermon during a Billy Graham Crusade. Why was he there? "It was free." It was free, but Pete, his wife, and their son, had got more than they bargained for. Moved by the message, they found themselves going forward.

MEASLES CLINIC WILL BE HELD IN COUNTY SCHOOLS

Measles must go! On November 6, 7, and 8th there will be a Measles clinic in the Haskell County Schools for all children from 12 months of age through 12 years of age.

The free clinic will be held in the Haskell Elementary School, Friday, November 8, from 9:30 to 2:00 p. m.

The Texas State Department of Health has special funds available to assist Texas communities in conducting intensive vaccination programs against poliomyelitis, measles, diphtheria, whooping cough and tetanus.

During the past several years, immunization surveys have been conducted in various Texas communities and it has been determined that levels of protection for whooping cough, poliomyelitis and measles among pre-school children. These surveys also indicated low levels of protection against diphtheria and tetanus among adults and pre-school children. As time progresses, there appears to be diminishing levels of immunity for these diseases; especially protection against poliomyelitis and measles among pre-school children.

A total of 532 deaths have resulted during the past five years in Texas from these diseases. Effective vaccines have been available for all these diseases except measles for at least 10 years. Now, with an effective measles vaccine, all of these diseases are subject to control, if not eradication. Certainly there can be no justification for deaths from immunizable diseases in the future, now that they may be so readily prevented.

According to Mrs. Keele Aecree, county school nurse, the measles clinic is something each person and family in the community should be on the lookout for. Cut down on measles, by taking the measles vaccine. Your children are your responsibility, you don't want to take chances with the horrors of red measles.

The 62 instruments going into the field Friday are the first of 90 purchased by the DPS for use in 80 of the states most populous counties where the DWI problem is greatest. The remainder will be placed in service when delivered by the manufacturer.

Driving while intoxicated suspects who consent to the test will accompany the highway patrolman to an office where an instrument is located. There the suspect will blow into a tube attached to the Breathalyzer and the percentage of alcohol in his blood will register on an indicator.

"Drivers who drink contribute significantly to the traffic death toll in Texas," Speir said. "We believe that use of the Breathalyzer will enable us to more effectively enforce the state's traffic laws," he added.

Magazine Club Opens 66th Year With Two Outstanding Programs

The Magazine Club opened its 66th year with two outstanding programs. The President, Mrs. R. L. Lemmon emphasized the fact that the Magazine Club is the oldest club in the county, having been organized in 1902 and federated in 1903.

The first 1968 program was a luncheon held at Felker's Restaurant. At this time, Mrs. L. R. Burkett, Yearbook chairman, explained the course of study for the year, "Fairs and Festivals-U.S.A."

Miss Sue Wilkinson, high school student, gave a talk on the biggest event in Texas for 1968; HemisFair, "As I saw it." Sue did an excellent review, and made each listener feel that she was traveling right along with her on her trip to the HemisFair.

Hostesses for the luncheon was the club's Social Committee.

The second program was on Indian Festivals. Mrs. R. C. Couch Sr., told about three Indian festivals she attended. One was in Santa Fe, New Mexico. The dance began at sun-up and lasted until sun-down. Mrs. Couch gave a vivid description of the costumes and the dancers. With a small Indian drum she beat out the rhythm and sang the chant used by the dancers to dispel the evil spirits.

Another tribal dance was in Gallup, New Mexico. This festival was more of an exhibition of art work shown by each tribe at their shop. Mrs. Couch mentioned the fact that in weaving the colorful rugs, each article was supposed to have one mistake in it. The sand paintings were most interesting and colorful.

The third Indian Celebration was in the Wisconsin Dells. Mrs. Couch showed sixteen slides of this area. Indian artists from all over the world attend this festival.

Mrs. John Rike told about two more Indian celebrations. The American Indian Exposition at Anadarko, Oklahoma. The Choctaw chief Alan Wright chose the name "Oklahoma" translated, it means "home of the Red-man."

Even though some of the Indians of the area have become wealthy from oil discoveries they still perpetuate the ancient tribal customs. Each summer since 1932 Indians from the Apache, Arapahoe, Comanche, Kiowa, Seminole and Wichita tribes have come together at Anadarko to celebrate this very impressive American Indian Exposition. The festival lasts for six days. Also at Anadarko (often called the Indian capital of the nation) there is the Hall of Fame for American Indians. It is located on a ten-acre tract donated by the state. Such well known characters as Sequoyah, Quannah Parker, Jim Thorpe, and others are honored here.

The second celebration Mrs. Rike told about was the one held in Sheridan, Wyoming. In Indian dialect "Sheridan" means "village in the middle." This

A TIME FOR DECISION

A Presidential election, the most important one in our lifetime, is close upon us. With three candidates in the race Texans are confronted with such a variety of appeals that some confusion is not surprising. We see some of our top state political leaders urging support of Hubert Humphrey on the self-serving appeal of party loyalty. We see fine Texans tempted to support George Wallace because they like his outspoken position on certain issues and are thus swayed by an appeal of sheer emotion. With full respect for the right of every Texan to make a personal decision, this message in behalf of Richard Nixon is offered as

...AN APPEAL TO REASON!

HUBERT HUMPHREY WILL NOT	GEORGE WALLACE CANNOT
---------------------------------	------------------------------

change. He has proved consistently anti-Texas. He is famous for his filibuster against Texas owning its tidelands. He has fought our right-to-work laws and sought to destroy our vital oil depletion allowance. On every issue of world importance his position is contrary to that of most Texans. Humphrey, an ultra-liberal founder of the ADA organization, would gain executive authority for radical minority viewpoints should he become president. This cannot happen by popular vote. In view of his vicious attacks upon George Wallace, what a ghastly miscarriage of intent it would be if Wallace supporters themselves should throw the election into the House of Representatives where every Wallace vote in Texas would automatically go to Humphrey.

be denied his impressive showing. A number of fine people head his third party call. The very least that can be said is that he has dramatized the desires of many people for a change of direction in the affairs of our government. However, the very most his supporters can hope for is to split the popular vote so that all of us would be at the mercy of Washington politicians who would elect our president for us. This is Hubert Humphrey's only hope for election. The more positive way to vote for change is to recognize the many fine merits of Richard Nixon and his program, then vote for Nixon to assure the election of our president by the people instead of by the Congress!

RICHARD NIXON CAN... AND WILL

supply dynamic, experienced leadership for an immediate change of direction—at the top—in all our national affairs at home and around the world. Your concerns are his concerns!

- NIXON ON LAW AND ORDER is pledged to help improve local police protection, to appoint an Attorney General dedicated to rooting out crime, to restore balance in our courts strengthening peace forces against criminal elements and to cease freeing so many of the guilty on technicalities.
- NIXON ON VIET NAM will call upon his experience as vice-president during eight great Eisenhower years of peace to reform world alliances now in disarray, to redirect our strategy on new global terms. He will end this war and avoid future ones by dealing with adversaries in the only way they respect—through strength, collective security and patience.
- NIXON ON LOCAL GOVERNMENT is pledged to move control of local schools and all other governmental functions which properly belong at the local level closer to the people.
- NIXON ON OTHER PROBLEMS has solid solutions PLUS solid backing of enough members of Congress to implement these solutions.

Youth Will Go Into Action For CROP

The youth of the First United Methodist Church, Haskell, are making plans for their annual CROP "Youth In Action" project, Sunday night, October 27.

"These youth of today are great kids," says Texas CROP Director Norman A. Sundall, "even though some are making headlines that make it otherwise." These youth of our churches have come to regard the Halloween season as a time of collecting for others rather than for themselves, and they join with others of their neighboring churches to do it.

The youth will be out working for CROP during Texas CROP Week of this year (October 27-Nov. 2) will be recognized with the usual CROP identification tag (red on white) but will also carry CROP envelopes as further identification and for receiving the gifts of each individual contributor.

Haskell Fair:

(Continued from Page 1)

Abilene, a little town just 57 miles south of Haskell.

The 1968 Haskell County Fair is destined to become a huge success because so many men and women are working on it literally day and night. (One wife of a worker hasn't been able to get an appointment to talk with her husband in two weeks.)

C. A. Thomas, Jr., presides over the effort to develop an outstanding fair. In his president's message he states:

"We have endeavored to provide an educational outlet for the youths of Haskell and neighboring counties with hopes of encouraging them to select a future devoted to the production of better livestock and greater yields per acre of crops."

Mr. Thomas is an example of a dedicated farmer. He is the recipient of the "Outstanding Farmer of the Year" award presented to him at the February 1968 Chamber of Commerce Banquet. How does he do it? Simple. He plays soft music in his cow barns.

The first Haskell County Fair opened in 1928 and was named The West Central Texas Fair Association. Through the '30s the fair flourished. Rex Felker, Chamber of Commerce manager and secretary of the present fair association, recalls the late Paul Zahn, probably the biggest exhibitor from this area and known throughout Texas. Mr. Zahn is said to have carefully selected the perfect kernel of a given crop and then sifted one by one through sacks of kernels to match it for that perfect gallon exhibit. Mrs. Zahn won numerous ribbons with her garden and preserve entries. She is said to have made a quilt top out of her mostly blue ribbons.

Herman K. Henry, Haskell's retired teacher of agriculture, has tutored a large share of today's successful livestock and crop farmers in this area. Twenty and thirty years ago any poor, barefoot farmboy could become a long, tall Texan via a blue, red or gold ribbon won

with his entry in the fair. While fairs of yesteryear could not be topped for the fun and enjoyment they provided for people in this area, today's big event is more sophisticated.

During the 1950's fair activity was practically nil. In 1964 the Haskell JC organization sponsored a carnival located where the new Anderson Tire Company building now stands. Three years later it moved the annual affair to the fair grounds and the old fair building became an exhibition hall once again. Soon the JC's renovated the building with the help of city fathers, and various activities enlivened the area. Now the Haskell County Fair Association, Inc., with county commissioners and city council help, has hardtopped a large parking area as well as walking area around exhibit pens and buildings. A brand new sign proclaims the Haskell County Fair Association and a new fence wraps the package neatly.

Exhibitors will come from many areas, the Texas State Wild Life Exhibit directly from the State Fair, Dallas, The Texas Department of Public Safety Education is entered with a display of various dangers including drugs. The excitement of competition will come, however, from local area entries.

To date eleven floats are entered in the parade, the most intriguing of which has to be the Spanish Fort Coon Hunters Association from 17 miles north-east of Nocona, Texas. It is rumored they have a coon tree by several dogs right there on the float! The Antique Automobile Association of Abilene will be entered with at least one model "T". For beauty, however, we have to go no further than the county's own 1968 Cotton Queen, Miss Patricia Ballard of Rochester; Miss Debbie Darnell of Haskell, the 1968 Miss Hey-Day, and Little Miss Hey-Day, Kay Campbell, also of Haskell. Every community in Haskell County and neighboring counties is expected to be represented in the parade with float, band or other imaginative effort on wheels or legs. Truly an exciting event to look forward to.

This year's premium list and fair catalogue is dedicated to the late Mr. Sam Reed of O'Brien, who left generations of this area a heritage of honor, integrity and excellence of citizenship. Haskell County is rich with men like him and the late Mr. John M. Crawford of Haskell. Mr. and Mrs. J. M. Crawford had the following invitation printed in the 1950 fair catalogue, which is valid today:

"The Fair is an effort of our best citizens to encourage the production of better livestock and poultry, to find the best methods of producing field and garden crops, to create and stimulate an interest in all the arts and crafts essential to the building of better homes, with an extreme purpose — to build better boys and girls. Let's all work for the fair."

Buy Christmas Cards From The Nine-Teens

The Christmas season is always upon us before we realize it. Why not this year get ahead of the time and purchase Christmas cards now.

The Nine-Teens are again selling Christmas cards this year to defray expenses of their annual Rainbow Concert to be given in the spring. This is their way of raising money for their organization.

The Nine-Teens will be calling on you in the near future.

Former Haskell C of C Manager Has Been Listed In "Who's Who"

Luther W. Walker has been recognized for successful participation in his third year of the Principles of Management course in the Institutes for Organization Management. He is now qualified to enroll in Advanced Management Studies, the next level of the continuing Institute program, the Chamber of Commerce of the United States announced today.

Recognizing the increasing number of challenges facing the business and professional community of today and the need for executives of associations or chambers of commerce to be

equipped as never before with the knowledge, skills and attitudes to do the job expected of him, the National Chamber conducts Institutes for Organization Management each summer at six of America's leading universities.

Institute faculty is a productive blend of outstanding men and women who have demonstrated effective leadership of today's voluntary business organizations, and key university professors whose education and major interests are in areas related to the special problems of participants.

Mr. Walker has also completed his third year at the Indus-

trial Institute at the University of Oklahoma. He has been listed in Who's Who in Texas, Who's Who in the South and Southwest, and the 1968 edition of Personalities of the South.

Walker is a member of the Southern Industrial Council, the Dallas Metro Council and the Council and the Industrial Institute of the Texas Council. He was married in Haskell, Okla. in April of 1960.

Stitching And Stewing

By Ruth Ann Fausler
County H. D. Agent

What is the newest, most fashionable in fabrics for fall? Leather-like materials. It is showing up in skirts, vests, jackets and jumpers as well as rainwear and accessory items such as tote bags, hats and belts.

Sewing techniques used on leather-like fabrics are similar to those for vinyl and real leather.

Select a pattern with simple design lines. Raglan and kimono sleeves are easier than set in sleeves.

In cutting the fabric pin pattern in seam allowances only. Use sharp shears and cut accurately. To mark the pattern use dressmaker's carbon and a smooth edge tracing wheel to mark from the wrong side.

Stitch a test seam on the sewing machine before beginning. From this determine correct pressure and tension. It should be medium tension and light pressure. Eight to twelve stitches per inch for stitch length; a 14 size needle for medium weight fabrics and 16 for heavy weights; and heavy duty mercerized cotton thread for construction.

Plain seams will roll and they cannot be ironed flat. Flatten seams with rubber cement or adhesive.

Taper darts to a very fine point. The last three to four stitches should be on the fold. Don't backstitch.

Use a tailor's hem, picking up one or two threads in backing. Don't pull the stitches tight or the garment will pucker on the right side.

Another tip: do not baste seams but pin them in the seam allowances.

If the leather sticks to the machine's metal surface when sewing, use a strip of tissue paper between them.

Reinforcement of buttons and neckline areas may prevent stretching of leather-like material.

The leather-like fabrics duplicate many of the new looks in real leather.

Three types of this new fabric are available by the yard. One is a vinyl surface with cotton knit backing. It comes in light to heavy-weight with smooth or antiqued finish in a variety of colors. Some are machine washable but should not be ironed.

The cotton canvas has a resin polyurethane coated out surface. This type may be ironed carefully on the wrong side and washed and dry cleaned.

The third type, nylon knit, has a soft, sleek kid-like surface which may be washed and pressed lightly.

For our final Mexican Food recipes I am using two short ones that would complete any Mexican food meal.

TOSTADOS
Cut tortillas in quarters. Fry in deep fat until crisp. Drain and salt.

Salsa (Mexican Chili Sauce)
1/2 cup onions, minced

1 clove garlic, minced
2 tsp. olive oil
1 tsp. flour
1/4 cup chili powder (about)
1/4 tsp. oregano
1/4 tsp. ground cumin
1 tsp. salt
1 cup tomato purée
Heat oil in sauce pan, stir in both onions and garlic and cook until golden brown. Add remaining ingredients and mix until smooth as possible. Cook over low heat for about 10 minutes or until the consistency of commercial chili sauce. Makes about one pint.

GET OUT THE VOTE

In the last election, one-third of the nation's eligible citizens failed to vote and thereby carry out the first obligation that every citizen owes to himself and his country. Between now and election day, every voter should make sure that he is registered and take the time to familiarize himself with candidates and the point of view they represent.

In this year's general election, the American people will select a President and thousands of other office holders including U. S. Senators and Representatives, governors and state legislators. These officials will make and administer the laws of the land under which we must live. They will decide on the role of government in our lives, the amount of taxes we must pay, the wars we must fight and how many of our young men must serve in which branches of the armed forces and for how long. Every voter owes it to himself to take part in selecting those who carry out these vital functions.

If you expect to be away from home on election day, November 5, arrange to cast an absentee ballot. It is estimated absentee voting accounts for from one per cent to six per cent of the total vote. This can mean victory or defeat for the candidates of your choice.

Come election day, November 5th, know these issues and the people...then VOTE.
