WHOLE NO. 1433

THE HOUSEWIFE A GOOD FINANCIER

(By W. Holt Harris, Chairman Financial Committee C. S. Association.)

The housewife is the nation's greatest financier and she relies on newspapers to give her tips on bargains. She is the purchaser for the home and in advertising, the merchant should always bear in mind that the women of the community comprise the more important part of the audience. She more readily understands a bargain and is always watching the pennies which the enterprising merchant is able to save her.

The housewife has refined tastes and her love of beauty leads her to closely read ads that are artistically displayed. Printers art has charms that appeal to her graceful nature, harmonize with her high ideals and lead her gently to the bargain counter. As the package sells the goods, just so the artistic make-up of the ad and the skillful portraiture of its message attracts and convinces the reader.

The good judgement of the housewife enables her to quickly grasp advantages and her progressive nature gives her visions that enable her to detect merit, utility, and superiority in articles of trade, and makes her a shrewd buyer. Advertisers should always keep the housewife in mind.

There is nothing quite so fascinating, entertaining and instructive as a vivid and unforgettable description of the things we eat, wear and use in daily life and the merchant who informs his customers of modern changes and improvement made for their comfort and welfare and provides facilities for their purchase, is both teacher and servant to mankind. There is no more valuable citizen in the community than the merchant who advertises.

City Building Notes

Advertising is the art of persuasion.

The door won't linger long in a live city.

Capital cuts capers where cooperation convenes.

To the progressive belongs the spoils of development.

Growing pains in city building is sweet misery indeed.

Compatibility is as necessary in the city as in the home.

Transportation is a forerunner of civilization and population.

The sands of time will reflect the footprints of the progressive.

Attractive show windows are necessary adjuncts to successful merchandising.

An over-abundance of literary effort is detrimental to city building. More literal effort should be attempted.

Sitting still in the boat upon the high seas is good advice but it doesn't apply when one is riding the ship of progress.

To the person with an artistic temperament, background is the principal thing. Shade trees and shrubbery are the background of a city.

The leaves of discontent and dissension scatter faster in a community where the people are striving for commercial supremacy and in doing so ignore civic development.

Make your city a place where sunshine predominates. Not only the sunlight that guides our daily journey but the sunlight in the smile, the handshake, and in the eye of the people.

FARM MEN OUT-LIVE THE WOMEN

(By Mrs. E. P. Turner, Chairman Rural Homes and Schools, Farm Life Commission.)

Our vital statistics show that the farm women of Texas die earlier than do farm men. The opposite is true in the towns. The farmers of Texas should not let it be said that the city man treats his wife with more consideration than is given our wives on the farm.

The biggest factor in the development of this state of affairs is in my opinion the woeful lack of labor-saving devices in the farm woman's home. She may have a more bountiful supply of fresh air and sunshine than her city sister but she has not the conveniences. The carrying of water is one of the most back-breaking tasks belonging to the housekeeper. Then there is chopping the wood for cooking the meals, milking the cow and a multiplicity of other chores that during the busy season, sometimes falls to the lot of the good wife. In many instances a good husband is the best labor-saving device that can be obtained. But there are many cheap contrivances that can be easily procured that will save the wife labor. A kitchen sink, a good pump and the well conveniently located will keep roses in her cheeks. A good wife is the greatest jewel on earth and deserves the best of care and attention.

SOME FARM FACTS

By Peter Radford, Pres. Farmers Union.

We grow by what we feed on, both bodily and mentally.

The credit merchant is the pawnbroker of agriculture.

No field is well plowed until all the soil is upturned.

The man of sense and culture alone understands farming.

Home, in one form or another, is the great object of life.

There is no waste so great as feeding scrub stock for the market.

The greatest truths are the simplest, and so are the greatest farmers.

The architect is as necessary to the life of the nation as a detective.

The agricultural exhibits should be made the leading feature of the fair.

The fate of a nation depends on how it is fed. The farm is a nation's commissary.

No farmer can afford to buy a thing he can raise, no matter how cheap it is offered.

Let us get back to the soil with legislation and rest all on the bedrock of agriculture.

The farmer must depend upon mercy rather than on justice to fix the price of his products.

Credit is the gateway to opportunity, and opportunity is the everlasting hope of the world.

Any farmer can spend money—some can make it—but he who can make it and keep it cheats folly and becomes wise.

The dream of the theorist should be mixed with the horse-sense of the builder to the extent that efficiency may be attained and service performed.

Whatever stimulates agricultural development at once reacts upon general business to the advantage of bankers, merchants, and manufacturers alike.

A Fool's Prayer

The royal feast was done; the King
Sought some new sport to banish care.
And to his jester cried: "Sir Fool,
Kneel thou and make for us a prayer?"

The jester dropped his cap and bells,
And stood the mocking court before;
They could not see the bitter smile
Behind the painted grin he wore.

He bowed his head, and bent his knee
Upon the monarch's silken stool;
His pleading voice arose: "O, Lord,
Be merciful to me, a fool!"

"No pity, Lord, could change the heart
From red with wrong to white as wool;
The rod must heal the sin; but, Lord,
Be merciful to me, a fool!"

"'Tis not by guilt the onward sweep
Of truth and right, O, Lord, we stay;
'Tis by our follies that so long
We hold the earth from heaven away.

"These clumsy feet, still in the mire,
Go crushing blossoms without end;
These hard, well-meaning hands we thrust
Among the heart strings of a friend.

"The ill-timed truth we might have kept—
Who knows how sharp it pierced and stung?
The word we had no sense to say—
Who knows how grandly it had rung?"

"Our faults no tenderness should ask,
The chastening stripes must cleanse them all;
But for our blunders—oh, in shame
Before the eyes of heaven we fall.

"Earth bears no balsam for mistakes;
Men crown the knave, and scourge the fool
That did their will; but thou, O, Lord,
Be merciful to me, a fool!"

The room was hushed; in silence rose
The King, and sought his garden cool,
And walked apart and murmured low,
"Be merciful to me, a fool!"—Selected

HOUSTON GETS FIRST BALE

The vanguard of Texas' \$400,000,000 dollar cotton crop for 1913, the first bale ginned from this year's planting in the United States arrived in Houston at 8:05 o'clock Thursday morning of this week and was sold under the hammer on the floor of the Cotton Exchange a few minutes after 11 o'clock to William D. Cleveland & Sons for \$805. The bale weighed 504 pounds. Before it was put up for auction the cotton was inspected and pronounced to be strict middling, good style and staple. It was grown by E. M. Sorenson at Lyford, Cameron County.

Texas Leads All Other States In Beef Cattle Production

For a generation or more Texas has led every state in the Union in the production of beef cattle. At the opening of 1913 there were over five million head of beef cattle in Texas. Iowa came second with two million, six hundred thousand head of beef cattle. This shows how completely Texas out-distances the other states in cattle raising.

A marked feature of the cattle industry of the Lone Star State is the steady improvement of the quality of its herds. For the past ten to fifteen years

ranchmen all the way from the Panhandle to the Lower Gulf Coast Country have purchased thousands of pure bred bulls in the North and as a result of this far sighted policy the beef cattle Texas is today sending to northern markets are showing up better than ever before in the history of the state.

From 400,000 to 600,000 Texas cattle find their way each year to northern markets. In fact, if it were not for Texas, the consumers in the United States would be lamentably short of beef steaks and roasts.

For the purpose of encouraging the ranchmen of Texas to continue to improve the quality of their cattle, the St. Louis Live Stock Exchange has offered special prizes for Texas cattle at the Feeder Cattle Contest to be held at the St. Louis National Stockyards, September 1 to 26 inclusive. It will be possible for any Texas ranchman to win as high as \$200.00 including sweepstakes, on a single load of Texas steers. Secretary H. F. Parry of the St. Louis Live Stock Exchange, says that he looks for an exceptionally strong exhibit of Texas steers at the coming Feeder Contest.

The Census enumerators report that 3144 women in Texas refused to tell their age. No reasons were assigned and the

Mens' Work Shoes

No doubt this part of the working man's apparel troubles him more than any garment he wears.

There are many reasons for this. Probably there is more deception practiced in leather goods than in any other goods he wears. Another reason is on account of the advanced price.

We have received our Fall stock of work shoes and want you to see them before you buy. We are sure that we can save you money. This Fall stock shows up better than any we have ever had. Even though the price has been advancing, these are as cheap in price as they have been in the last three years, and they are better shoes. Come and look at them, examine them, bend them and note the flexibility of the heavy grades of leather. Try them on and note the fit. They fit better than many dress shoes that sell for twice the price. Our stock is larger than ever—we can give you anything you want in a work shoe. No matter what your vocation may be we are prepared to sell you the shoe suited for that particular work.

Our guaranteed work shoes sell for \$3.00 \$3.50 and \$4.00. And when we say guaranteed we mean it.

We believe in honesty in advertising—we practice it. Honesty may be the best policy—but we don't think it should be a policy at all. At any rate it isn't a policy of ours—it's a part of our character.

subject is open for general discussion. We hesitate, in this age of theories, theaters moving picture shows, to hazard an opinion, but we always look important issues squarely in the face and especially if they are feminine. It is our guess they are old maids in love.

Any woman who has, for an unknown number of years, played the game of love and drawn a blank, should not be required to answer questions, or should at least be permitted to tell a pretty fable. But this is a ticklish subject, and we feel a pale-hearted fear coming over us, so we will pass it up to State Press to say the last word.

Notice of Stockholder's Meeting.

Notice is hereby given that a meeting of the stockholders of the Haskell State Bank will be held in the Haskell National Bank Building at Ten (10) o'clock A. M. IMPROVEMENTS PROGRESSING

Mr. McKelvain is busy putting down the new concrete sidewalk on the street leading to the depot. Mr. McFatter is laying the foundation for the new brick on the southeast corner of the square, the work on the water main extension will begin in a few days, and rumor has it that an oil well at Haskell is contemplated by people who can do the work. Haskell continues to grow. Real estate in Haskell is as good as gold, or better, for it will go up and gold does not advance much in value.

An old negro was taken ill and called in a physician of his own race to prescribe for him, but the old man did not seem to improve and eventually a white physician was summoned. Soon after his arrival Dr. — felt the old man's pulse for a moment and then examined his tongue.

"Did your other doctor take your temperature?" he asked. "I don't know boss," the sick man answered feebly. "I hain't missed anything but my watch as yet."

Come around and let us figure with you on that job of printing. We are prepared to please you, if you can be pleased.

AFTER THE SCHOOL LAND

Judge A. J. Smith had an offer from some parties this week for the four leagues of school land, amounting to 12,728 acres situated in the unorganized county of Hockley. If the lands should be sold it will add about \$8,000 annually to the available school fund of Haskell county. There have been several telegrams to Judge Smith asking him to wire the price the court wanted for the land. He put the matter up to the court, and they have deferred action to take the matter of disposing of the land under advisement. This land will bring something like \$200,000 as a permanent school fund, and all of the interest accruing from the fund may be used for the public schools of the county.

We feel that we have as good a commissioners court as the county has ever had and the people may depend upon this court in taking every precaution to protect our school interests and in using judicious judgment in the matter. It seems that conditions have greatly improved and there will be a demand for this land. The people who buy the land will probably sell it out to actual settlers as soon as they can find buyers, which may take years, but in the meantime the public schools of Haskell county would be getting the interest.

We give space to the above as a news item of interest to all our citizens. The old pioneers of Haskell county have taken care of this fund sacredly. They paid for the schooling of their children out of their own pockets, and left this magnificent fund for those who came after. Few counties in Texas can show as good a record as Haskell county in the management of such a sacred fund, and we all should thank and compliment the men who so faithfully guarded this fund. There are men still living who have made a worthy record on this school land question and the preservation and conservation of this sacred fund.

E. E. Marvin made a business trip to Stamford and Hamlin Wednesday.

Mr. and Mrs. J. L. Jones of Rule and our Senior went to Stamford Thursday morning to meet Mrs. Martin and daughter Miss Velma, who have been visiting Mrs. Elmer B. Woodward at Corpus Christi the past two months. Mrs. Woodward, (nee Miss Jessie Martin) accompanied her mother and sister for a few days visit.

Little Mae, baby daughter of E. E. Marvin and wife, has been quite sick for the past week but is now improving.

A. L. Lancaster, of the Powell community, came in Tuesday and subscribed for the Free Press. Mr. Lancaster says the crops in his community are holding up real well, and looking good, notwithstanding the grasshoppers hurt them right badly at first, and the hot winds have also injured them to some extent. A good rain would help things a great deal.

We are requested to announce that a protracted meeting will begin at Roberts School house next Sunday at 11 a. m. conducted by the pastor, Rev. L. N. Lipscomb. Mr. Lipscomb will be assisted by Rev. Joe McReynolds of Bomarton. Texas. The public has a very cordial invitation to attend the meeting. The singers are especially invited and urged to participate in the music and render any help they can in the song service.

Herman Weinert of the "city prosperous," is visiting his brother Judge Weinert at Austin. Judge Weinert is now serving as Secretary of state, he having been appointed to that position by Gov. Colquitt. Mr. Weinert will visit his old home at Seguin, before returning to his home at Weinert.

Irby Wins Hard Fought Case.

The many friends of Judge Joe Irby will be interested in the following clipping from the Culberson County News:

"The decision of the jury on Wednesday in favor of the defendant in the case of Mrs. Myrtle James, et ux, vs. B. A. Golsen ends a long and hard fought legal battle which had its origin in the courts of Reeves county back in the 90's.

"The parties involved are the very best people in west Texas, and to Joe Irby, the man whose name is inscribed on the corner stone of Culberson county's magnificent new court house, is due the praise for having been able to bring to a final close a case so prominent as has been this one. Judge Irby is a lawyer of rare ability and has a wide and enviable practice. He is a very conscientious man, and when he takes a case he stays with his client in a way that is wonderful. Continued success is bound to be his reward."

One of the most startling facts is that Buddhism in Seattle, San Francisco, and Los Angeles is aggressively propagating itself from these centers. Buddhist temples have been erected in which cultured priests administer the rites and ceremonies of their religion, and through a series of lectures are reaching large numbers of Americans, especially women. Recently thousands of Hindus have come to the United States. The number of Japanese at present in the U. S. is 130,000. The number in Hawaii is 7,200. The number of Chinese is 300,000. The opposition on the Pacific coast to the Japanese, Chinese and Koreans seems to grow more intense each year. The present attitude in California is an illustration of this. The Orientals in Canada, including Chinese and Japanese are less than 40,000.

Only a world-conquering Christ can conquer America. Only a church that is enamored of Christ and charmed by the vision of a world won for Him can have the heart and arm and spinal column to perform aright the task at home.

INTERESTING CHARGES CONCERNING LOBBY

From Bryan's Column.

Martin M. Mulhall, a lobbyist at the national capital, has made a statement in which he makes a general confession as to his work as a lobbyist. He makes accusations involving a large number of well known men. The men accused have issued general denials and have denounced Mulhall as a common liar. His story is, however, so explicit that it will be thoroughly investigated by both houses of congress.

The New York World and the Chicago Tribune for which the Mulhall story was originally written have summarized his confession in the following way:

"Revealing the hidden secrets of the lobby at the capital of the nation and throwing instructive illumination upon the methods of 'invisible government,' Colonel Martin M. Mulhall, for ten years a lobbyist, field worker and strike breaker for the National Association of Manufacturers, herewith makes public through the World an amazing story of his experiences while carrying out the orders of the organization by which he was employed.

"Colonel Mulhall was subpoenaed in Washington yesterday to appear on July 7th before the Overman lobby investigating committee of the United States senate to repeat his statements and answer any questions that may be asked of him.

"In presenting to the World his own story, backed up by more than 20,000 letters, telegrams, reports, expense accounts and cor-

roborative memoranda, the colonel is actuated by a two-fold purpose. The first is to render a service to the public by disclosing the identities and undertakings of the men at the head of the most powerful business organization in the United States and their allies among officials of the United States government.

"The second and, to his mind, the most important purpose of his determination to make public the disclosures that follow, is to compel reform through legislation of the evils revealed by him.

"This man, who was constantly active, though deliberately inconspicuous, in the daily undertakings and achievements of the lobby, has given the World his personal narrative of these activities and has turned over to it his voluminous correspondence. His narrative and correspondence establish the following facts:

"One—That the National Association of Manufacturers has a membership of 225 organizations, embracing 4,000 individual members, employing more than 5,000,000 persons, and representing an approximate capital of \$10,000,000, and claims to be a non-political business and trade organization.

"Two—That, in reality, this association has for more than ten years secretly played an important and frequently decisive part in promoting tariff, labor and general business legislation favorable to its own interests.

"Three—That, together with a 'paper organization' called the national council for industrial defense, it has also maintained a lobby at Washington for the purpose of defeating all legislation hostile to its own interests.

"Four—That for these purposes it has always sought, and often managed to secure, control of the committee on the judiciary of both the senate and the house of representatives.

"Five—That the National Association of Manufacturers was solely responsible for the creation of the tariff commission during the Taft administration, the object of the association being to forestall revision of the then existing tariff.

"Six—That the officials who received financial reward for services rendered or for political purposes from the National Association of Manufacturers while in office were:

"(A)—Former Congressman James E. Watson (republican);

'whip' of the house of representatives from 1902 to 1908; republican candidate for governor of Indiana in 1908; floor leader of the republican national convention in Chicago in 1912 and a favorite with the 'stand-pat' republicans for the nomination for the president in 1906; most important ally of the N. A. M. while in congress and served as its principal lobbyist after his retirement.

"(B)—Congressman James T. McDermott (democrat) of the Fourth Illinois district; avowed champion of labor in the house of representatives but secretly in the employ of the lobby of the National Association of Manufacturers at Washington, accused of forging the name of Colonel Mulhall to a check drawn by order of Harold McCormick, a son-in-law of John D. Rockefeller and an official of the Harvester trust.

"(D)—Former Congressman John J. Jenkins (republican) of the Eleventh Wisconsin district, chairman of the judiciary committee of the house of representatives, 1904-8; defeated for renomination in the latter year when his campaign was openly financed by the lobby of National Association of Manufacturers, and who received money through Colonel Mulhall, its agent, and Edward Hines of Lorimer fame during that campaign.

"(D)—Former Congressmen Kittredge Haskins (republican) of the First Vermont district; member of the labor committee; sent written acknowledgment of money transmitted to him by wire during his campaign for re-election in 1908.

"(E)—Former Congressman Charles E. Littlefield of Maine (republican), chosen by President Roosevelt to frame legislation to regulate the trusts; was in intimate touch with the officials and chief lobbyists of the N. A. M.; accepted aid through his campaign managers during his two last campaigns for congress until he withdrew in the face of certain defeat; permitted the N. A. M. to pay his hotel and travelling expenses when keeping appointments with its officials and lobbyists.

"(F)—Former Congressman Henry M. Bannon of Ohio (republican), acted as adviser of the N. A. M. lobby in the house of representatives and as secret agent, handled money passing between shoe manufacturers and disloyal strike leaders in the shoe strike at Portsmouth, O., in 1907; sought employment as lobbyist for the N. A. M. upon retirement.

"(G)—Former Congressman Henry M. Coudry of Missouri (republican); acted as secret agent of the National Association of Manufacturers in the house of representatives and accepted aid in campaign for re-election; accused of passing bad checks at Washington; indicted at St. Louis for fraudulent use of the mails; released on \$10,000 bail after being sentenced to four years and six months in prison; now in New

York city conducting an exchange business.

"(H)—Former Congressman J. Gardiner (republican) of New Jersey, chairman of the committee on labor in 1903-1911; started in to antagonize N. A. M. interests until threatened with defeat through the use of money and other influence in this district; afterward surrendered and became one of its most subservient allies; last campaign almost entirely financed by the N. A. M.

"(I)—J. H. McMichaels, chief of pages in the house of representatives and principal spy of the N. A. M. on the undertakings and movements of members; afterward transferred to attend door at the press gallery of the house of representatives and now serving as elevator operator in the capitol.

"(J)—Former Congressman Ralph B. Cole (republican) of the Eighth Ohio district, acted as adviser and emissary of the N. A. M. lobby, which financed his campaign in 1908 at the request of James S. Sherman; rebuked by Lobbyist Emery for joining movement against Cannonism in 1909 and promised to be good in the future.

"Seven—That among the men whom the lobbyists of this association had no difficulty in reaching and influencing for business, political or sympathetic reasons during recent years were: President Taft, Senator Lodge, the late Vice-President Sherman, ex-Senator Foraker, Senator Nelson, ex-Senator Hemenway, ex-Speaker Cannon, ex-Congressman Dwight, republican whip of the house from 1909 to 1911; former Congressman James E. Tawney of Minnesota, former Congressman J. Adam Bede of Minnesota, Senator Isaac Stephenson of Wisconsin, former Senator Aldrich of Rhode Island, Senator Townsend of Michigan, Senator Gallinger of New Hampshire, Congressman Webb of North Carolina, former Congressman J. Sloat Fassett of New York, former Congressman W. B. McKinley of Illinois, former Congressman Vreeland of New York, former Congressman Dalzell of Pennsylvania, former Senator N. B. Scott of West Virginia, former Congressman W. S. Bennett of New York, former Postmaster General James A. Gary of Baltimore, The late Congressman George A. Southwick of New York, Congressman W. M. Calder of New York, Congressman James F. Burke of Pennsylvania, former Congressman W. H. Ryan of New York, former Congressman W. Wilson of Ill., former Congressman Denby of Michigan, former Congressman Edward H. Hinshaw of Nebraska, former Congressman Jesse Overstreet of Indiana, former Congressman J. G. Bealle of Pennsylvania, former Congressman W. A. Caulderhead of Nebraska, former Congressman Diekema, of Michigan, former Congressman M. A. Driscoll of New York, former Congressman G. J. Foster of Vermont, former Congressman P. M. Fowler of

New Jersey, Congressman Swager Shirley of Kentucky, former Congressman J. A. Sterling of Illinois, former Congressman J. P. Swasey of Maine, former Congressman Charles E. Littlefield of Maine, Governor W. T. Haines of Maine, Ambassador Myron T. Herrick of Ohio, Ambassador Curtis Guild of Massachusetts, Congressman Richard Barthold of Missouri, former Congressman Sidney Mudd of Maryland and Congressman George W. Fairchild of the Thirty-fourth New York district.

"Eight—That the professional lobby staff of the National Association of manufacturers during the last ten years was composed of the following yersons:

"(A)—J. W. Van Cleave, president of the N. A. M. from 1907 to 1909 and afterward president of the national council for industrial defense, an auxiliary organization with pronounced political purposes, since deceased.

"(B)—John W. Kirby, Jr., president from 1900 to May 24, 1913, when he was succeeded by Colonel George Pope.

"(C)—J. Phillip Bird, general manager and personal director of the operations of the lobby and strike-breaking; also disburser of funds collected for political and labor campaigns.

"(D)—James A. Emery, general counsel and chief of lobby at Washington; formerly active in San Francisco as the Promoter of business enterprises; very secretive in method, but now prominent in Washington as an entertainer of influential members of the senate and house of representatives.

"(E)—Ferdinand C. Schwedtmann, assistant to President Van Cleave and Kirby and author of letters and telegrams directing the work of the lobby, the efforts of the N. A. M. to re-elect 'its friends' in congress, to defeat 'its enemies' and strike-breaking.

A. M., United States senators, members of congress, political bosses and labor leaders.

"(I)—Mr. X., a publicity agent of the N. A. M., intrusted with the task of attempting to bribe Samuel Gompers, for which \$10,000 was appropriated by the N. A. M.

"(J)—Mr. Y., former newspaper reporter and publicity agent, employed by the N. A. M. to trail Gompers through the south and attempt to bribe him; failing in this sought to entrap Gompers into a compromising conference with President Van Cleave at the Victoria hotel in New York, which was afterward abandoned because of the precautions taken by Gompers for his own protection.

"(K)—Thomas Littlepage, former secretary of Senator Hemenway of Indiana, with officers on the sixth floor of the Union Trust building, at Washington, adjoining those maintained by Emery, chief of the N. A. M. lobby; engaged in the practice of law and regarded as the right-hand man of Emery in lobby undertakings.

"(L)—Frank Nunemaker, formerly a publisher at Louisville; active in the lobby work of the N. A. M. at Washington.

disgrace; handled various sums of money to promote the election of Congressman John J. Jenkins of Wisconsin.

"(P)—H. E. Miles of Racine, Wis., chairman of the executive committee for the creation of a tariff commission; active director in the N. A. M. and instructed to pay Watson money for services rendered as lobbyist; sought appointment as member of the tariff commission created to head off tariff revision.

"(Q)—D. M. Parry, former president of the N. A. M.; very active as director of lobby operations upon his retirement from presidency; took a conspicuous part in creation of tariff commission in 1909.

"Nine—That the National Association of Manufacturers, thru its agents, including Cushing and Mulhall, successfully conducted the campaign to break the strikes of the job printers in 1905-6; 23,000 shoemakers at St. Louis in 1907, 10,000 hatmakers at Danbury, Conn., and New Jersey points in 1909, and of 4,000 shoemakers at Portsmouth, O., in 1907.

"Ten—That these agents of the N. A. M. planted spies in the labor union with which the strikers were connected, corrupted minor labor leaders, personally paid them sums of money which are set forth in the correspondence turned over to the World by Colonel Mulhall; enlisted the

support of clergymen to break the strike at Danbury and even sought to influence Cardinal Gibbons of Baltimore to compel a settlement favorable to the hatmakers through local clergymen. In carrying out this campaign Colonel Mulhall enlisted the assistance of the Rev. H. C. Meserve of the First Congregational church of Danbury and of the Rev. Fathers Shanley and Kennedy. In its strike-breaking undertaking the N. A. M. had the co-operation of many men high in the councils of the republican party and a few in the democratic party, either by reason of political affiliation, friendly sentiment, business prejudice or personal gain.

"Eleven—That the National Association of Manufacturers conducted a relentless warfare against public officials and labor leaders who opposed its legislative and industrial plans; financed the campaigns of candidates against them and sought to retire them from congress, the information upon which these undertakings were based being secretly supplied to the N. A. M. by its agents in Congress and among the labor unions, and that this blacklist included the following:

"(A)—Congressman John L. Burnett of the Seventh Alabama district. (Beaten in 1908 because he was too active on floor of congress against bills favored by the National Association of Manufacturers, which organized an effective

propaganda against him in his district.)

"(B)—Former Congressman Henry L. Maynard of the Second West Virginia district. (Beaten for the same reason in 1908.)

"(C)—Speaker Champ Clark of Missouri. (Unsuccessfully opposed by every influence at the command of the National Association of Manufacturers both in 1908 and 1910.)

"(D)—Congressman Henry A. Cooper of the First Wisconsin district. (Unsuccessfully opposed because of his radical opposition to Cannon, though otherwise friendly to the National Association of Manufacturers.)

"(E)—Former Congressman Thomas D. Nichols of the Tenth Pennsylvania district. (Beaten in 1910 because of his persistent opposition to the interests of the National Association of Manufacturers and for his championship of labor interests; elected in 1910 by a diminished majority.)

"(F)—Former Congressman Herbert Parsons of the Thirteenth New York district. (Defeated in 1910 because of his opposition to Cannonism.)

"(G)—Congressman W. S. Green of the Fifteenth Massachusetts district. (Unsuccessfully opposed in 1908 because of his opposition to Cannon and other interests of the manufacturers' association.)

"(H)—Congressman Gilbert N. Haugen of the Fourth Iowa district. (Opposed with all the influence at the command of the National Association of Manufacturers in 1908, but re-elected by a very small majority.)

"(I)—Former Congressman William D. Wilson of the Fifteenth Pennsylvania. (Beaten in 1912 because of his opposition to the plans of the National Association of Manufacturers and his championship of labor, appointed by President Wilson secretary of labor.)

"(J)—Former United States Senator Louis E. McCombs of Maryland. (Opposed for every office he ran for because of his authorship of labor interests in general.)

"(K)—Former Congressman George E. Pearre of Maryland. (Beaten because of his authorship of the Pearre national injunction bill.)

"(L)—United States Senator William Hughes of New Jersey. (Beaten for congress in 1904 and opposed at all times and barely escaped defeat in 1910 because of his activities in behalf of labor reforms.)

"(M)—Former Congressman John Kelliher of Massachusetts. (Beaten in 1910 for the same reason.)

"(N)—Former Congressman Connolly of Massachusetts. (Beaten in 1910 for the same reason.)

"(O)—President Samuel Gompers of the Federation of Labor. (Made the target of many forms of attack to discredit him after repeated failures to bribe him by

agents of the National Association of Manufacturers.)

"(P)—John Mitchell, former president of the United Mine Workers of America, member of the civic federation. (Opposed by every influence at the command of the National Association of Manufacturers.)

"(Q)—Frank Morrison, secretary of the American Federation of Labor. (Made the object of attacks by agents of the National Association of Manufacturers.)

"Twelve—That Colonel Mulhall has personal knowledge and accounts to show that during his lobby, political and strike-bearing work for the National Association of Manufacturers he paid out to accomplish the purposes of that organization a sum approximating \$200,000 all of which was supplied to him by officials of the association."

Pomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good.

I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

COTTON CORPORATION DIRECTORS CONFER

Directors of the Southern States Cotton Corporation met yesterday in the quarters of the concern in the Linz Building, received and replied to cable inquiries about the outlook for cotton supply, conferred with workers and organizers and gave impetus to the work of listing, with the slogan "Get the cotton" Assurance was cabled to foreign cotton users that the corporation will be able to supply 1,500,000 bales of cotton at least, and that the price will be 15c net for the farmer.

From Bremen there was the cable to President George Dole Wadley, "What was result of your meeting on July 10 and 11?" This was from the concern that has arranged to advance \$27,000,000 or more, if needed, for the moving of the American cotton at fifteen cents to the farmer. The answer was, "Meeting was great success. Bankers indorse unqualifiedly the plan and the methods of corporation. Will furnish a million and a half bales of cotton at least."

George Dole Wadley, "Cotton convention held by Southern States Cotton Corporation in Dallas last three days a great success. Corporation's plans indorsed and farmers, merchants and bankers in attendance enthusiastic. Delegates from South Carolina, Georgia, Mississippi, Oklahoma, Louisiana, Arkansas and Texas. After investigation of claims made by cotton corporation, the convention resolves that it is absolutely up to the farmers to contract their cotton and make the work of the corporation a success. European money available to pay three-fourths of the market value in cash and give corporation obligation up to 15c for every bale of cotton tendered. Banks give unqualified indorsement of plan and pledge heartiest co-operation. Feeling prevails that safe marketing system has been devised and its success assured."

"W. T. Anderson, Vice-President. "Georgia."

Bankers Approve Plan

Letters were read from several bankers of Texas and other States and from business men of Dallas, approving the plans of the corporation and promising financial co-operation. Among the letters was one from H. A. Wroe, vice president of an Austin bank, saying:

"We have had explained to us clearly the plan by which you will obtain for the farmer 15c per pound for his cotton through your corporation. The plan is simple and assures for the farmer a higher price for his product, and it meets with our hearty approval. It is worthy of the commendation and indorsement of every business interest and every individual in the South and should appeal to everyone. We can assure you that whatever we can do to assist you in this great enterprise we will do. We feel that it is the duty of all banks to co-operate in upbuilding the interests of the farmer in every way they can, for when a bank or merchant succeeds in business it is all due to the prosperity of the farmer."

himself in the movement to the extent of placing \$100,000 in cotton buying.

The directors adopted a resolution "thanking The Dallas News and the press of the city for the good reports of the convention and for placing before the people a very fair explanation of what the Southern States Cotton Corporation purposes to do, what it is able to do and what the people must do to make success for the farmers of the South assured. We wish there were more such papers as the News with its high principles and its helpfulness for the people of the State."

Work Well Organized

It was announced that organization has been effected in eighty counties in Texas, seventy-five in Georgia, twenty in Mississippi, thirty in Oklahoma and in 214 towns and communities in this State.

It was declared that some of the cotton factors have said they will offer to the corporation enough cotton to embarrass it. "I hope they will," President Wadley said. And the directors approved of the expression.

W. H. Adams, president of a Roysse bank, a director in the corporation, said, that several offers have been made by the large financial concerns to underwrite the scrip of the corporation thus making it cashable at any time. But the directors said that the corporation stands behind its scrip and that it is as good as Government money to its holders.

The following statement was prepared and issued by the directors of the corporation:

"Get The Cotton"

"We, the undersigned directors of the Southern States Cotton Corporation do declare that we have examined the contracts and papers entered into by and between the Southern States Cotton Corporation and a certain banking syndicate of Europe by which cotton received by the Corporation and warehoused in Europe is to be financed, and we declare that we have read and examined said written contract entered into, by and between George D. Wadley for the Southern States Cotton Corporation and the said banking syndicate, duly executed and acknowledged before the American Consul General in said country, with his certificate and seal attached that said contract is in due and legal form binding said syndicate to advance to the Southern States Cotton Corporation seventy-five per cent of the market price of 500,000 bales of cotton, shipped with draft and papers attached, to certain warehouses in Europe; that attached to said contract we find a written agreement duly executed by said banking syndicate, stating that when we have consigned 500,000 bales of cotton they will be prepared to finance as much additional cotton on the same terms as the corporation can deliver to Europe.

"We would add further that we have investigated the said European banking syndicate and find that there is no question as to its ability to finance all the cotton that the Southern States Cotton Corporation may desire to ship. "In witness of the above each director present at this meeting and who has carefully examined the contracts, attaches his signature and address with request that they one and all be interviewed and investigated by any man who sees this paper, for the purpose of satisfying himself that they are men of reasonable intelligence, honesty and are able to give a valuable opinion upon the contracts referred to. OPPOSES THE BOND AMENDMENT

Austin, Texas, July 15, 1913.
Haskell Free Press,
Haskell, Texas.
Mr. Editor:

Among the communications which I have received from Haskell County within the last week, is one from a good citizen who asks how much I am being paid and by whom to work against the bond amendment.

I have assumed that the question was asked in good faith and have answered him accordingly, but thinking that other citizens might be misled by the same idea, I wish to say through the columns of your paper that my efforts are purely voluntary. I am not in any way connected with the organization for the bond amendment nor the organization against the bond amendment. The advocates of the amendment wired me a few weeks ago when I was at home and requested me to take charge of the movement for the amendment in Throckmorton County. I declined to do so.

I voted to submit the amendment to the people and I am absolutely against its adoption. To those who think that in this there is inconsistency, I would say, "Make the most of it."

I have not had time to make any active campaign against this amendment because my official duties as a member of the penitentiary investigation committee have kept me busy almost day and night.

My only reason for doing the little I have done is that the people have entrusted me with an important office and I feel it my duty to give warning when danger approaches. The sentinel who sleeps at his post of duty is an unworthy soldier.

The danger in this amendment is that it does not limit the amount of bonds which the legislature may issue if it shall be adopted, and if it is adopted, I predict that within a few years the state will be encumbered with \$50,000,000 of bonded indebtedness. If this amendment is adopted, then the only restriction on the power of the legislature will be a taxation limit of 35c per \$100; and, if the people can be induced to adopt this amendment they can likewise be induced to take off this taxation limit.

The issuance of bonds for the purpose of making permanent improvements might be justified if any necessity existed, but none exists. If the bonds are issued the people will have them to pay. This is just as certain as that day follows night. They may pay them out of their university funds or out of their penitentiary funds or in some other way, but they will certainly pay them, and it is better in time of peace and prosperity like this that we meet the situation in a courageous way by appropriation of money to erect such buildings as are necessary.

You will observe that those who are loudest in their clamor for higher education are the ones who have least to say for the real benefit of our country schools. But this proposed amendment does not merely provide that the legislature may issue a certain amount of bonds to erect necessary buildings or making permanent improvements. It provides that they may issue bonds and does not say how many bonds they shall issue.

The present constitution, drawn by men like Sul Ross and O. M. Roberts, does not authorize the legislature to make unlimited bond issues. The only constitution this state ever had which permitted the legislature to make bond issues was the one in effect during the reconstruction period 1869 to 1874, when Ed J. Davis and his carpetbaggers had control of the government. During that wild riot of waste and extravagance, more than \$3,000,000 of indebtedness was contracted against the State, since which time the people have paid \$7,000,000 in interest and they still owe the principal.

My only interest in the matter is that of a citizen, and as above stated my activity was prompted by the fact that I have been entrusted with an important office.

In conclusion, let me say that no man can justly accuse me of being an enemy to education of any kind. I have always stood by our educational institutions and will continue to do so, but I place the common schools first and the higher schools second.

I trust this will reach you in time for publication before the election.
Thanking you for many favors,

and with sincerest best wishes, I remain,
Yours truly,
R. B. Humphrey.

HUNT BROTHERS

A STATEMENT FROM PRESIDENT RADFORD

To the Membership of the Farmer's Educational & Co-operative Union of Texas:

On account of certain statements appearing in the public press concerning the meeting held at Dallas of the Southern States Cotton Corporation, seemingly connecting as we believe, the Farmer's Union of Texas with said corporation, we deem it necessary to give out a statement as officials of the Farmers' Union of Texas.

We wish to officially state that at no time did the Farmers' Educational & Co-operative Union of Texas in any of its regular meetings, through its regular elected and authorized delegates, endorse the marketing plan of the Southern States Cotton Corporation, and no state official in connection with headquarters of the Farmers' Union have done so at any time. We make this statement because through the membership throughout the state may be made to believe that the Farmers' Union or its officials had given their endorsement to the marketing plan of this corporation. The State Officials of the Farmers' Union of Texas are strictly adhering to the marketing plan of their own organization, and have not and do not now endorse the marketing plan of any corporation or selling agency for cotton except that of the Central Selling Agency established at Houston by the Farmers' Educational and Co-operation Union of Texas, with E. F. Shropshire as its Manager. It is the only organized Farmers Union Selling Agency for Texas that is in this State, and we believe that the farmers can come nearer getting the value of their cotton through the Central Selling Agency of the Farmers' Union than through any other system now organized, whether it be 15 or 20 cents per pound, and no well informed person will contend that middling cotton is not at all times intrinsically worth 15 cents per pound, and at times 20 cents. The Farmers' Union in effect, through its efforts in the past eleven years, has clearly demonstrated that fact, and they have succeeded in selling cotton

through their warehouse twice during that time for 15 cents per pound

The matter of securing money for handling of the cotton crop has not always militated against getting the price for cotton it was worth, for last year and the year before ample arrangements were made by the Farmers' Union to take care of the distressed cotton market the same slowly so that the law of supply and demand could assert itself and have full sway; but the farmers failed to use it because they believe 13 cents per pound to be a good price; in that their judgment was bad. Now what we need most with plenty of money is the co-operation of the farmer with the Central Selling Agency established at Houston. The Farmers' Union represents the farmer, and has experienced men to handle their business at the least expense to the farmer, and plenty of money at 6 per cent to advance on cotton to those who need it, and at the same time the cotton never gets out of their hands or control of the farmer until he receives full value for same, unless he elects to do otherwise himself.

We know that some people do not believe that the farmer is competent to attend to his own business through his own system, but we believe that the average farmer is just as competent to do business for himself as those of any other calling or profession. The only thing the farmer is short on is co-operation, and they are improving in that every day. Therefore, the whole matter is a farmer's problem and can only be solved through him, and he can solve it only through his own organization, and the Farmers' Union is the only safe and sane, strictly farmers organization that he can depend upon; while other friendly agencies can and will help him materially, he should not allow himself to be used for the purpose of sacrificing any principle of the Farmers' Union for the sake of such help, for we can afford to lose the help of any and all rather than to sacrifice any principle whatever of the Farmers' Educational & Co-operative Union of Texas.

At the same time, we ask for the cooperation of all legitimate and honest interests that want

to see justice done to the farmer, as well as others who do something for the country's good, and we believe that all loyal members of the Union will support their own institutions.
Peter Radford, Pres.
C. Smith, Sec. Treas.

If a bottle should ever fail to give satisfaction The Corner Drug Store will refund the price paid without question.

The New York Sun describes a gentleman as a man that's clean inside and out, who neither looks up to the rich nor down to the poor; who can lose without squealing and win without bragging; who is considerate with women, children and old people; who is too brave to lie; too generous to cheat and who takes his share of the world and lets other people have theirs." We cannot say whether this is a true description of a gentleman or not, but we're sure such a fellow is a mighty good man to have for a neighbor.

The Best Medicine in the World.

"My littledaughter had dysentery very bad. I thought she would die. Chamberlain's Colic, Cholera, and Diarrhoea Remedy cured her and I can truthfully say that I think it is the best medicine in the world," writes Mrs. William Orvis, Clare, Mich. For sale by All Dealers.

From O'Brien

As our last piece missed the waste basket, so here we come again.

Our crops are looking fine. Good prospects. Though we have had two days of pretty hot wind, should it continue it would change the looks of things.

People are about up with their work, and are talking of fishing. A crowd went last week down on Paint creek. They had a jolly time. Got several bites. Mosquito bites, though, I think.

Mr. and Mrs. Ellis from Haskell were visiting Mrs. Ellis' mother, Mrs. James last Sunday.

Mrs. Dr. Payne has been real sick with appendicitis the last few days, she underwent a successful operation and we are glad to report her doing nicely.

A number of O'Brienites attended the 4th of July picnic at Goree. All report a fine time.

W. C. Speck and M. M. Griffin made a business trip to Haskell last Monday.

Miss Willis and Mrs. H. Speck were shopping in Knox City Saturday.

Joe Speck made a business trip and also attended a picnic in Fisher county last week.

Newt Huddleston from Alpine is here on business and also visiting relatives.

Our depot agent Mr. Knight left last Thursday for his home in Louisiana. Mr. Richardson from East Texas has taken his place and will probably be with us for some time. We welcome him to our little city.

Mrs. Jno. Speck is visiting her son at Rochester.

Mrs. Gleen and son John have returned from a visit to her daughters at Ganesville and Denison.

Mrs. Pierson is visiting her sister, Mrs. J. T. Bradley this week.

Walter Branton and family from near Rising Star were visiting friends and relatives in O'Brien last week.

Mrs. Rollins from Cliff is visiting her mother Mrs. Bammer this week.

Professor Busey went to Stamford last Thursday on business.

Mr. Nobles has been on the pony list the last two weeks, but is better at this writing.

Mr. Austin from Anson is visiting his brother T. B. Austin this week.

Well I'll be going, come on other writers. Plow Boy.
