

Along The Waterfront

The wind has been too high and the water too muddy for good fishing the past week, but there are always some who can catch them.

Mr. and Mrs. Charlie Cleveland had a jolly time fishing out in front of Rockport Wednesday evening even though he got overbalanced and fell overboard, thereby becoming eligible for membership in the Perch Club. They caught a string of nice trout any way.

Tommy Martin, Melvin Clary and Kenneth Jackson of Lampasas went out from Floyd's Boat and Sales Company to Mud Island last Saturday and caught 60 nice trout. On Tuesday, Paul Ringle and Frank Young of Wichita Falls, got 21 trout on the flats in front of Floyd's, one-third of the fish weighing 3 pounds each. Mrs. Staffa and party fished on the flats Wednesday, landing six trout, weighing 2 pounds each.

E. G. Brooks fished at Pete's Bend last weekend. One of the reds he hooked measured 19 inches.

On Sunday Karl Benchedler and party from Hallettsville, fished with Hugh Morrison. They brought in 72 nice fish.

\$46,695 DELINQUENT TAX PROPERTY SOLD

The total bids on all the property sold at the delinquent tax sale in Rockport Tuesday amounted to \$46,693.00.

All of the property advertised was sold except for about 75 lots in the Denver Heights Addition. These lots may be bought from the county at the office of County Judge John Wendell. The minimum price is \$50 for each lot.

The sale was well attended by both local and out-of-town people and the lots sold brought a good price. There was no one person who purchased a large amount of the property.

J. W. Wilkinson Injured By Fall

J. W. Wilkinson, local lumber man and building contractor, slipped on a roof where he was working last Friday and fell to the concrete floor below, injuring his back.

It was thought that his back was broken until Wednesday morning when a bone specialist in Corpus Christi examined the X-ray pictures and disclosed that Mr. Wilkinson evidently had an old back injury with a growth on it and that the fall had broken the growth.

He is feeling better at the present time.

There were about 40 men fighting the fire. The Fulton fire truck, two fire trucks from Rockport, three Navy trucks and one from Aransas Pass responded to the call.

The fire spread over a large area, killing the brush and trees and kept the Fulton and Rockport firemen and the Navy boys fighting fire until 3 a.m. Friday. They were called out again about 9:30 Friday morning.

Rockport Fire Chief Charles Ankele reported they must have answered 12 or 15 calls altogether. Buster Coward flew his plane over the area, dropping notes to the firemen when a new blaze started up and telling them how to reach it.

Officers from the Naval base in Corpus Christi, and Chief Northrup of the local airbase helped spot the fires. The Navy boys and the Rockport and Fulton firemen fought fire from 1 p.m. Thursday until 3 a.m. Friday, part of the day and night Friday and until 4 p.m. Saturday before the fire stopped spreading.

Local Talent Minstrel Will Be Presented Two Nights Next Week

The big fast moving stage show that uses all home town folks, has a colorful minstrel background and uses the top talent in the community has been booked by the Rockport Lions Club and will be staged at the new high school auditorium on Thursday and Friday nights, May 14 and 15.

All types of amateur acts will be used including singers, dancers, musicians and impersonators. Different from most amateur contests where audience applause or judges decide the winner, "On Stage America" gives the audience the chance to pick the winners by actually casting votes for their favorite. This new impartial system has been worked out so that those who buy tickets to the entertainment are entitled to vote. The three amateur contestants who poll the highest number of votes at both performances will be considered the winners. Tryouts for the amateur acts will be held nightly at the old school auditorium at 7 p.m. There is no age limit.

The first place winner will receive a savings bond and the second and third will be presented with valuable gift bonds.

Although there is the exciting element of competition among the contestants who take part, still "On Stage America" is not just an amateur contest in the strict sense of the word, for there is to be a minstrel circle of ten prominent local men who will impersonate such radio and stage favorites as Amos and Andy, Madam Queen and Miz Blue, Kingfish and Brother Crawford, Ball and Chain, Aunt Jimima, Rochester and Sapphire.

These men, who will appear in blackface wearing special flashy and comical costumes, will tell jokes, sing songs and lead the other usual hi-jinks that are the tradition in burnt cork comedy. There will be an interlocutor who will introduce the amateur contestants and act as a foil for the laugh provoking antics of the men of the minstrel circle.

There will be special satin costumes furnished for 24 teenage girls who will appear as the chorus girls to sing standard minstrel songs and do clever dance routines.

Miss Peggy Lane, a professional director with stage and radio experience, who has had special training for the production, "On Stage America" has arrived prior to the entertainment. She will have charge of holding tryouts for amateurs and will work with the Lions on publicity and other phases of production, as well as conducting all rehearsals and teaching those in the minstrel part and the girls in the dancing chorus their special numbers.

The show has played in many towns in the United States and Canada and has been enthusiastically received. The color, variety and comedy of "On Stage America" make it a show which promises to be the biggest thing of its kind ever staged here.

Your Senator Speaks

(By Lyndon B. Johnson)

Statement delivered on floor of Senate, Thursday, April 30, by Senator Lyndon B. Johnson of Texas:

The Submerged Lands

Mr. President, we are approaching the end of one of the longer debates in Senate history.

Since the first of April, the attention of the Senate has been directed almost exclusively to this joint resolution.

It has been discussed from every legal and historic aspect. It has been debated thoroughly—not only in this Chamber but in the Nation. No one has been restricted in any way from speaking either his heart or his mind.

Every Senator has had the fullest opportunity to understand every line and comma in this legislation. We will vote in complete comprehension of the issues.

The able statements of my distinguished colleague from Texas (Mr. Daniel) have covered the legal and historic issues thoroughly and well. I associate myself with those arguments and conclusions.

With all due respect to those who oppose this bill, I do not believe they have shaken either the arguments or the conclusions.

I favored passage of this bill

in 1946. I was a coauthor of this legislation in the last Congress and spoke for and voted for its passage.

I am coauthor of the measure before us and have done everything that I can to bring it before the Senate.

I am confident that now the measure will pass—as it should—overwhelmingly.

It is not my purpose to rehash the legal arguments that have been made by the many able lawyers in this body. I do not believe I could add anything to what has been said in that field.

But I would like to take this time to set forth the viewpoint of the average Texan. I do not mean the wealthy oil millionaire or even the wildcatter, hoping to make a stake. I do mean the ordinary man who is proud of his Texas heritage and who—because of that heritage, is even more proud of being an American.

As far as Texas is concerned, we are talking about some 2,466,560 acres. These are acres covered by salt water. The represent only a small part of the public domain of our state.

We have in Texas another 169,000,000 acres. They are covered by trees, buildings, streets, roads, pastures, rangeland, rivers, bays, and inland waterways.

To our mind, Mr. President,

there is no difference between those acres other than geographical location. The 2,466,560 acres are south of the shoreline. The 169,000,000 acres are north of the shoreline.

But north or south, inshore or offshore, both are part of the public domain of Texas.

They are the lands which we won in our fight for independence from Mexico.

They are the lands which we held as an independent power for 10 years.

They are the lands which were covered under the solemn agreement which brought us into the Union.

There may—or there may not, be significant quantities of oil under those submerged lands. As far as Texas are concerned, that is beside the point.

We have grown into a healthy and flourishing State without the help of tidelands oil. Our economic future does not hinge upon the production that can be expected from our 3-marine-league border.

Should there be significant quantities of oil within our submerged lands, the revenues will continue to go to the school children of our state. But lack of that oil will not prevent us from growing even more healthy and prosperous.

Nor will it prevent us from caring for our own school children. The point which is important is the sanctity of contract.

We Texans believe that we entered the Union under a binding agreement. Our belief is backed by signed documents, by a century of history, by legal decisions which were not questioned until 1947.

That agreement was very simple. It provided that we would retain all unsold lands within our boundaries but would pay the public debt that we had incurred as an independent Republic.

We paid that public debt, Mr. President. We believe we should keep our lands.

It came as a shock to the average Texan when the move was launched to deprive us of the submerged lands. It came as an even greater shock when the Supreme Court—by a 4-to-3 decision—ruled against Texas.

One man decided that case—

one member of the Supreme Court. We do not question the integrity or the ability of those who oppose our stand. But it is difficult for us to see the process under which the submerged lands were taken

away as anything other than legalized claim jumping.

It is also a dangerous form of claim jumping.

If we can be deprived of 2,466,560 acres that are seaward, we can be deprived of 169 million acres landward. If the Interior Department decides, after 100 years, that it can reverse its own historic position and take submerged lands, what will prevent a reversal in the future—a reversal that will take lands that are not submerged?

So far as I am concerned, Mr. President, passage of this bill is merely the act of upholding solemn agreements. It implies only one precedent—the sanctity of contract.

It means only that the titles to the coastal States for so many years—will be restored and confirmed when the joint resolution introduced by the distinguished senior Senator from Florida (Mr. Holland) is passed by Congress and signed by the President.

Mr. President, we of Texas believe that the 2,466,560 acres of submerged lands are our property. We fought for it and our right to it was confirmed by act of Congress and by international agreement. We have enjoyed unchallenged ownership of that land for nearly 100 years. We have set aside its revenues for the education of our children.

These points have been debated and debated thoroughly.

Let me repeat, I have the utmost respect for the integrity and capacity of those who have taken an opposing point of view. But, Mr. President, I believe they are wrong. I also believe they have not been very persuasive to the other members of this body.

Texas and the coastal states are asking only for that which is their just due. The opportunity is before us to grant them that just due.

I urge all members of this body to vote for the Holland joint resolution as a simple question of justice and equity.

Mr. Holland: Mr. President, will the Senator from Texas yield for a moment?

The Presiding Officer: Does the Senator from Texas yield to the Senator from Florida?

Mr. Johnson of Texas: I yield to the Senator from Florida.

Mr. Holland: Mr. President, I merely want to take this occasion to express my own very deep and sincere appreciation to the distinguished senior Senator from Texas for his continued and effective assistance, as well as leadership throughout the 3 years when when it has been my responsibility, by selection of the group of Senators who are sponsoring the pending measure, to further its consideration, and, in a sense,

to steer its passage through the Senate.

The distinguished senior Senator from Texas, both in the 82nd Congress and in the present Congress, has not only bent his every effort to perfecting the measure, to securing its consideration, and now, I hope, its passage; but he has effectively assisted in matters connected with the determination of strategy, and, as a distinguished Senator representing a great State which is materially interested in the pending legislation, has participated in every proper way to bring about favorable action.

I may say further that in the course of his representation of his great State, I have also noted the unvarying endeavor of the distinguished Senator never to forget that, while he represented that great State, he also represented the Federal Union. I compliment him and congratulate him for the aggressive manner in which he has lived up to both high responsibilities—the responsibility of the serving of his State and its legitimate interests, and even the higher responsibility of serving the Nation, particularly in this Congress, when he has filled so ably the seat of leadership on the minority side of the Senate. I thank the Senator from the bottom of my heart.

Mr. Johnson of Texas: Mr. President, I want to thank the senior Senator from Florida. I am human, and, of course, am deeply touched by his generous references. I have great respect and great personal affection for the senior Senator from Florida. The people of my State, particularly the school children of my State, owe him a debt of deep gratitude which it will be difficult ever to repay.

Mr. Daniel: Mr. President, will the Senator yield?

Mr. Johnson of Texas: I yield with pleasure to my colleague.

Mr. Daniel: Mr. President, I should like to join in and associate myself with the remarks of the senior Senator from Florida. I, too, want to thank the distinguished senior Senator from Texas, our distinguished minority leader, for the excellent work he has done in connection with the subject matter of the pending measure not only during the present session of the Congress, but throughout the years of his service in the House and in the Senate, particularly during the time I had the honor to serve the State of Texas as its attorney general.

I compliment the senior Senator from Texas on his excellent address, and again thank him for the way in which he has fought for what he believes to be right for our State and for our Nation.

I should like to ask one question. Yesterday, the distinguished junior Senator from Oklahoma (Mr. Monroney), inferred that the two Senators from Texas, through

the medium of the pending legislation, were trying to get something special for their State, with respect to 3-league boundaries. I should like to ask the senior Senator from Texas if it is not true that the Texas' 3-league boundary in the Gulf of Mexico existed for 9 years while Texas was an independent republic, and when Texas entered the Union, all of Texas came in—not merely 3 miles along the shore but the entire Republic of Texas, with its then seaward boundaries, came in as a State?

Mr. Johnson of Texas: Mr. President, the answer to that question is "yes." The Texas annexation agreement provided:

"That Congress doth consent that the territory properly included within and rightfully belonging to the Republic of Texas, may be erected into a new State, to be called the State of Texas."

Mr. President, I have been around this and the other legislative body for some 22 years, and I have never seen a cause more ably presented than has been the cause of the Holland joint resolu-

tion. I think we owe great credit to the senior Senator from Florida (Mr. Holland) and to the junior Senator from Texas (Mr. Daniel) who directed the fight. I have never worked with men who had higher ideals or a more co-operative spirit. I am very happy that the Senators from Texas can join in such unity on a measure which means so much to the future of our State and the Nation.

CARD OF THANKS

We, the residents and property owners of the north end of the city wish to express our appreciation for the wonderful work that the various fire departments did in saving our property when last Thursday's fire threatened.

Especially do we wish to thank the Rockport, Fulton and Aransas Fire Departments, who together with the Navy personnel and fire fighting equipment, worked so hard to help us out. We also appreciate the efforts that all extended in this time of need.

What Does the Bible Say?

WHY IS IT NECESSARY TO BE BAPTIZED?

Recently a visitor from California asked this question after attending a worship service of the Church of Christ. She believed in the Lord Jesus Christ as the Son of God. She was ready to repent and turn from sin. She was eager to confess her faith in Jesus before others. But she had never understood why one should be baptized. Perhaps there are many readers of this column who are sincerely interested in the Bible answer to this question. Here are some good Bible reasons.

1. It is a command of Jesus Christ. Just before Jesus ascended to heaven He said to the eleven disciples: "All power is given unto me in heaven and in earth. Go ye therefore, and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Spirit: teaching them to observe all things whatsoever I have commanded you:" Matthew 28:18). In Mark's account Jesus stresses the importance of obedience: "He that believeth and is baptized shall be saved; but he

M. NORVEL YOUNG

that believeth not shall be condemned". (Mark 16:16).

2. Peter commands believers to be immersed: The word "Baptize" is generally accepted by reputable scholars as meaning "to immerse, to dip, to plunge." Peter on the day of Pentecost said to those who believed in Jesus Christ as the Son of God: "Repent, and be baptized every one of you in the name of Jesus Christ for the remission of sins..." (Acts 2:38). The meaning must have been clear to them. You, who have helped to kill the Messiah, must now go and reenact his death, burial, and resurrection by being buried and raised in water. "Therefore we are buried with him by baptism into death: that like as Christ was raised up from the dead by the glory of the Father, even so we also should walk in newness of life." (Romans 6:4).

3. Baptism is connected with the washing away of sins. When Saul had seen Jesus on the road to Damascus he believed in Him and repented of his sins, but Jesus

told him to go to Damascus where he would be told what "he must do." (Acts 9:6). When Ananias came to Saul with a message from Christ, he said: "Arise, and be baptized, and wash away thy sins, calling on the name of the Lord." (Acts 22:16). Of course, there is no merit in the water. This scripture does not tell us what it is that washes away our sins, but then they are washed away. John tells us that Christ "washed us from our sins in His own blood." Baptism signifies our faith in Christ and our love for Him which causes us to keep His commandment.

4. It is part of being born again. Jesus said: "except a man be born of water and of the Spirit, he cannot enter into the kingdom of God." (John 3:5). Paul said: "For in one Spirit were we all baptized into one body, whether Jews or Greeks, whether bond or free, and were all made to drink of the one Spirit." (1 Cor. 12:13).

5. It is the way to put on Christ. "For as many of you as were baptized into Christ did put on Christ." (Gal. 3:27). Again the Bible says: "all we who were baptized into Christ Jesus were baptized into his death." (Romans 6:3-4).

Remember that baptism is not an ordinance of the church, but a command of Jesus Christ. It is a personal obligation. Have you been buried with the Lord and raised with Him in the likeness of His burial and resurrection?

IT'S THE LAW in Texas

A public service feature of the State Bar of Texas

BAR GIVES TIPS FOR WITNESSES

Serving as a witness in court is one of the most important civic duties a citizen may be called upon to perform. When contacted with a request to testify, every person should try to comply, if for no other reason than that the fate of a case of his own may someday hinge on the willingness of another to come forward and tell what he knows.

Lawyers know that a witness does not always have a happy time. It may not always be convenient to leave his job or home and spend a day in court. But someday the shoe may be on the other foot. People who refuse to volunteer as witnesses for others are, in the last analysis, injuring themselves.

It is not always easy to be an able and truthful witness. Your answers may be objected to at every turn by an opposing counsel—and properly so. There will be many questions that may confuse an unthinking witness. The law's insistence on compliance with the rules of evidence is necessary but often confusing to the uninitiated.

A properly prepared witness is better able to meet the impact of cross-examination. That is why able trial lawyers carefully instruct each witness on proper courtroom procedure. Here are eight golden rules to follow if you are ever summoned to court. They may make the difference between success or failure on the witness stand.

1. Never argue with the opposing counsel, or flare up in anger.

You are helpless the moment you lose your self-control.

2. Talk slowly on the witness stand—regardless of your natural rate of speaking. A slow spoken, deliberate witness, who will not be stampeded or diverted into side paths, is disconcerting to a rapid-fire cross-examiner.

3. Take pains to listen attentively to each question. Never guess at the meaning of a question. Don't be ashamed to state frankly, "I don't know."

4. Don't be long-winded. Give no more information than is asked. Brief, to-the-point answers have their own rewards.

5. Stick to the facts. You're on safe ground so long as you tell only what you saw—not what you think happened or what you heard someone say took place.

6. Never hesitate to admit frankly that you don't remember certain physical facts such as measurements, distances or colors.

7. Never, never, memorize a story. First, it will sound too pat; second, the moment a slight dent is made, the whole structure collapses.

8. Don't be forced into a "yes" or "no" answer. If you can't honestly answer a question yes or no, say so and ask that it be reworded.

No court system can work without witnesses. Persons who object to testifying in court when they possess valuable evidence are simply weakening a system of justice designed to protect them as individual citizens.

(This column, based on Texas law, is written to inform—not advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law).

Mrs. P. R. Merrill and daughters, Madelyn and Lois, of Austin, were weekend guests of their aunt, Mrs. T. H. Pollard and Rev. Pollard. Mr. Merrill also visited the Pollards a short time.

Fred Sterling of San Antonio spent last weekend in Rockport. He was sporting a new Dodge car.

PLANE PLANTS—Sowing wild oats by air is possible with the double-winged ship seen above ready to take off at the Baldson ranch in Grimes, Calif. But no wild oats will fall from this single seater. Practical farmers use it to sow barley instead. With the plane, it is possible to seed 400 acres a day.

Draft Deferees Extend Draft Time Nine Years

Young men of draft age who ask for and get deferments under certain conditions automatically extend the time during which they can be drafted by nine years.

Brig. Gen. Paul L. Wakefield, state draft director, names the following types of deferred men, among others, who have their liability for service extended until age 35:

1. Members of the ROTC and other officer training programs.
2. Students deferred to go to high school or college under requirements of law; college students deferred under authority of the local board.
3. Men left at home for civilian employment.
4. Men deferred to farm.
5. Married men deferred because of their children or because of extreme hardship and privation to dependents.
6. Men classified as mentally, physically, or morally deficient or defective.

"The regulations spell this out," General Wakefield says. "So when a man gets the privilege of a deferment he is taking on a corresponding responsibility. The man who never receives a deferment like these cannot be drafted after he reaches his 26th birthday."

The state draft director says that, under this provision of law, it is possible for a deferred man to lose his qualification for deferment at age 34, for example. Under such circumstance, he would again be eligible for draft.

Presbyterian Men Stage Family Night Dinner

Monday evening the Presbyterian Men of the Church sponsored a family night dinner for church members and their guests. Ninety-six persons were served, and President Ted Little announced that was about the largest attendance at a dinner since moving into the new church. The large attendance was attributed to the curiosity of the ladies, as the meal was planned and cooked by the men. The committee in charge was Hugh Morrison, Fred Brundrett and Carl Osborn, who prepared the following menu: Oven fried spring chicken, mashed potatoes with mushroom and gilet gravy, oyster dressing, chef's tossed spring salad, hot rolls, sliced peaches and coffee. After the dinner the first of a series of sound movies on the life and ministry of St. Paul, was shown in the auditorium.

Rice said there was to be a meeting of the presidents-elect and the secretaries-elect of the 185th District of Rotary at Victoria, May 17 and 18.

Worker's Name and Number Should Be Correctly Recorded

There is a constant turnover in the labor market as workers change jobs and as young people start to work for the first time. Arthur L. Finck, Jr., field representative of the Corpus Christi office of the Social Security Administration, advises all workers to show their social security cards to their employers the first day they report to work on a new job.

"We recommend that employers require their new workers to show their account number cards when they start to work, or at least before they are paid the first time," Finck said. "An employer can avoid unnecessary correspondence if he will record and report each employee's name and social security number exactly as they are shown on the workers account number card."

"If that practice is followed, each worker will be sure to receive full credit in his account for all of his earnings," he continued. "The amount of retirement and family insurance, which is paid to a worker in his older years or to the family of one who dies, depends upon the earnings in his individual account."

"Everyone who works, or who expects to go to work soon, should have a social security card," Finck explained. "If you have never had one, or if you had one and lost it, you can get an original number or a duplicate, without charge, by applying for it."

Those who live outside of Corpus Christi can get applications for the cards from their postoffice. The completed applications may be mailed to the Social Security Administration, 424 Taylor St., Corpus Christi.

Dry Weather and Dust Make Trouble for CPL

Dry weather and dust-laden wind are making trouble for a lot of people in South Texas, including the suppliers of electric service.

Central Power and Light Co. personnel, working overtime to combat the effects of the drouth, explain that dust is causing many cross-arm fires and other electrical difficulties. This is particularly true of the Lower Rio Grande Valley, the Gulf Coast and parts of the Guadalupe Valley where winds have been high and there has been little or no rain in recent months.

Dust, which in the Gulf Coast section is accompanied by salt, settles on the insulators and forms a coating. When dampened by mist, fog or morning dew this coating becomes a conductor of electricity. The insulators, which normally keep electricity confined to the wires which carry it, cannot do their job efficiently. The electricity flashes over from the wires to the cross-arms of the electric poles, setting them afire. When a cross-arm burns away, the wire it supports is likely to become grounded or wind may blow the wires together, causing a service interruption.

The only real cure for this condition is a good rain, CPL officials say. Meanwhile, however, CPL employees are battling the elements with every device available to maintain good service. Lines are being patrolled carefully throughout the system, with the result that many cases of potential trouble are being found and corrected before they can affect the customers' service. Four crews, equipped with tank trucks and portable pumps, are devoting full time to the job of washing insulators in as many substations as possible. Distilled water is being used, because it does a better job with less danger of disturbing customer service during the washing operation.

Rev. and Mrs. J. M. McDonald and daughter Patsy Ann of Smiley, were guests of Rev. and Mrs. T. H. Pollard last week.

"TREATMENT" COSTLY

Baltimore — A roaside "treatment" for pains and aches, administered by a woman, who "looked like a gypsy," cost 85-year-old Charles O. Gunther \$30. Accosted by the woman, who asked for directions, Gunther was told that she could "cure any pains or aches you have by placing my hands on the sore spots." After the "cure" Gunther discovered that \$30 was missing from his wallet.

"Mr. Watson, come here, I want you" were the first words spoken over the telephone. It was the inventor Alexander Graham Bell calling to his assistant.

FOUND AFTER 3 DAYS

Akron O. — Noticing newspapers, milk and mail had not been taken off the porch of Mrs. Margaret Moore, neighbors called police. Entering through a basement door, police found her ill, but conscious, on the cellar floor. She had collapsed three days earlier but had been unable to get upstairs to summon aid. A retired department store clerk, she lived alone in the house.
