ADMIRATION FOR BRYAN EXPRESSED

Washington, March 8.—If the voters of the United States had been told four years ago that the day would shortly come when Senators Henry Cabot Lodge and Elihu Root would be on friendly terms with William Jennings Bryan in the administration of this Government's affairs, they would not have believed it.

Yet, this has come to pass. They are not only on friendly terms but threaten to form a mutual admiration society. Senators Lodge and Root, the latter a former Republican Secretary of State, today spent some time with Secretary Bryan. The nice things these men had to say about each other as to the conference has made Washington wonder.

It is not so many months ago that Bryan on the stump was pointing to Senator Root as a type of man representing everything undesirable in politics, while Senator Root, in turn, was employing blistering terms in his characterization of Bryan. Senators Lodge and Root ordinarily place a ban on publicity. Today they seemed eager to let everybody know they were singing praises of Bryan. Senator Root acted as spokesman.

Secretary Bryan made a great impression on Senator Root and me," he said, "I have always maintained that Mr. Bryan would make a splendid Secretary of State and I am now convinced that my impressions were correct.

"Secretary Bryan takes a broad-minded view of his work. What impressed us among other things was Mr. Bryan's realization that he does not know everything that is to be known about his new position. Secretary Bryan said he felt it would be necessary for him to consult Senator Root as former Secretary of State frequently.

THE PREACHER AND THE PEOPLE

There are two things that we have never been able to understand. One is, why is it that people expect a preacher to spend every dollar he is paid for his services in doing good, and the other is why preachers are expected to never defend themselves from bodily injury. We believe, deep down in our souls, that a minister has a duty to his family and old age that requires that he save something while in the earning years of his life, and we are just as much convinced that a minister should defend his honor and self-respect by blows, if driven to it, as any other man. We do not endorse fighting, don't get that idea from what we have said, but when a brute deliberately insults a minister, because he thinks that the man will let him get off with it on account of his office, we believe that the minister has as much right as anybody to defend himself. If you watch events, you will soon see that preachers and women, mostly preachers, are responsible for about every reform that is started. The Press is often a great factor in reform work, but usually back of it all is some minister who has seen the people oppressed until he could hold his peace no longer. The devil has agents abroad in the land who work only at the job of breaking down the influence of the ministry. And to the shame of good people, some join in with these fiends of hell and help to destroy character, when they should never allow their lips to speak a word until they know that the man who wears the robe of the pulpit is false. Stand up for the preachers, pay them living salaries, tell them to save something for old age and to leave their loved ones should they drop off, and that you will stand by them in defending their manhood.—Abilene Reporter.

HASKELL PUBLIC SCHOOL ITEMS

ATHLETICS

The Haskell High School track team is preparing for an interscholastic track meet which is to be held in Stamford on April 12th. A number of schools in this section of the state will take part in the meet and Haskell is preparing to hold the loving cup which was won in the meet last year by the Haskell High School team.

UNIVERSITY HIGH SCHOOL VISITOR

The Visitor for High Schools, Mr. Thomas Fletcher of Austin, was in Haskell a few days ago. He spent the entire day observing the work in the various classes of the High School. He was highly pleased with the character of the work being done and reported favorably on all the subjects for which the Haskell High School is asking credit this year. This should be pleasing to all friends of the Haskell Public School. It means much to a boy or a girl to be able to take work at home that will be accepted in all the Colleges and Universities of the South.

HASKELL IS TO TAKE HER PLACE AMONG HIGH SCHOOLS OF THE FIRST RANK THIS YEAR

High Schools of Texas are graded as follows: Rank III, or Grade C, includes all schools having credit for from 8 to 12 units; rank II, or grade B, includes all schools having between 12 and 14 units; rank I, or grade A, includes all schools having credit for 14 units or more. Haskell has credit for 16 units and has a good opportunity to add three more units to the number next year. Last year the school was raised from the third rank, or group C to second rank, or group B; this year the school is to be raised from second rank, or group B, to first rank, or group A.

Mr. Fletcher in closing his recommendation to the University Committee at Austin says, "The Visitor witnessed practically all of the High School recitations. The teaching was good. The town of Haskell is to be congratulated on its efficient High School faculty, and the Superintendent's policy of insisting upon a competent faculty at all costs is commendable."

LITERARY WORK

The High School Literary Society is doing very effective work. Programs are given on Friday evening of every week. The programs consist of recitations, readings, sketches, songs, current news, instrumental music, essays, etc. Great interest is being manifested in this line of work. In the near future the school will send representatives to other towns to take part in interscholastic contests in declamation.

To the Creditors of Head & Company, a corporation, of Rule, in the County of Haskell and District aforesaid, a bankruptcy. Notice is hereby given that on the 7th day of March, A. D., 1913, at 10 o'clock in the forenoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may properly come before said meeting.

JUST LIKE A NATIONAL BANK THAT'S OUR WAY

Step up to the window and lay down a \$20 and a \$5 bill, or a \$10 and a \$5 bill. Change 'em! Certainly. What do you want for them? Clothes?

That's us!
These, or those, or them, or they?

Ah, THAT!
You like 'em? We imagined so—very natural!

Think they're reasonable.
So do we.

And nice?
Surely!

So we change your money for clothes, quite as a bank changes your \$10 and \$5 for fifteen one-dollar bills, giving you equal value—simply in another shape, save that we have a greater variety to show than the bank has.

New Ideas in Men's Shirts

Little warbling birds have sung some of their melody into these shirts—and they certainly look it. While the neckwear reflects a June flower garden that's as vernal as the Spring equinox.

There! That's rather neat!
So are our Spring Hats—and all the other masculine "fixin's."

THE BIG STORE

Haskell, Texas.

March, 12th, 1913.

PARCEL POST IS A GREAT BENEFIT

A study of the accompanying table will show that the local merchant has every advantage in his favor over the large mercantile enterprises, and has nothing to fear from mail order houses, provided he carries a first class line of well-advertised trade-marked goods. The Dallas merchant, for instance, can avail himself of the parcel post and ship to the farmer who calls him over the phone, or who writes in, at one-half the expense that a Chicago merchant would have to pay.

That the people will still further benefit from this extension of Uncle Sam's activities in their behalf, is indicated by recent interviews from Postmaster General Hitchcock, who intimates that the rates will be still further reduced as the system perfects itself.—Farm and Ranch.

Notice To Public

The Haskell State Bank, having consolidated with the Haskell National Bank, all parties wishing statements of their accounts will kindly call and have same made out at Haskell State Bank building.

Thanking our customers for their business in the past.

BE SURE TO PLANT SHADE TREES

The retail merchant has become a powerful ally to the shade tree propaganda and thousands of trees have been given away as an advertisement by the local merchants of Texas this season. Certainly no merchant could spend money to better advantage than in providing a friendly shade for the perspiring populace while they ponder that "The Price Is the Thing," or that "Smith Sells It For Less."

Belated Criticism

Mrs. Haskell was busily engaged one morning baking cookies when her neighbor, Mrs. McVicar, ran in for a little chat. In her most cordial manner, Mrs. Haskell passed a plate of cookies, and the visitor accepted one and seemed to enjoy it. Twice more the plate was passed, and each time Mrs. McVicar took the proffered cake and ate it with avidity, but the fourth time she shook her head. "No," she declined, eyeing the cookies distastefully, "I don't want any more. I don't like them very well—they're too sweet."

TEXAS AHEAD ON DIVERSIFIED FARMING

Texas leads all states in the Union in diversified farming, as she does in most every other movement for progress and prosperity. We produce in commercial quantities every commodity known to the market and every day in the year there is a harvest going on in the State. Having conquered the realms of agriculture, we are now extending our farming operations into the animal kingdom.

We have a bull-frog, alligator, armadillo, ostrich and many other animal farms, but the latest addition is a polecat farm opened up near Gainesville, and the skunk is said to give promise of making a profitable farmer. We will soon be able to dispose of our prairie dogs, go to market with our bull weavils and sell the Texas fever.

In domesticating natures delinquents and capitalizing our pests, we are turning waste into profit and that is what makes a country prosperous as well as powerful in commerce. We are like-wise illustrating to the world that Texas is the birthplace of the mighty economic forces of 20th century civilization.

Some Ideas of a Mother.

We often see in print the sad and time worn plaint, we need more good mothers. Without a doubt we do. There is no getting around the fact that mothers bear the heaviest responsibilities as to the physical, mental and moral welfare of their children, and I tear many of us would have to plead guilty to the charge that we are not doing our full duty as mothers because we are entirely too much engaged with matters outside our own household, or too absorbed on the feeding and clothing of the bodies merely of our children, to the neglect of their manners and morals. We are too anxious that they "have a good time," and make a good appearance, to be much concerned as to how they are developing character. Allowing all this, is it fair to place so much of the responsibility with the mothers, especially with regard to boys? Does the father's duty cease when he has provided shelter, food and clothing? It is true that many fathers are so absorbed in providing the wherewithal for these things, and bound by economic conditions, that they have little time or thought for anything else. So the average father cheerfully pays for the needs, and often more than he can afford, for the pleasure of the boy or girl, and feels his whole duty done, and wakes some day to find his boy nearly grown, entirely out of touch with him and with associations, perhaps, which he knows are bad. What has he done to keep the boy close to him? Has he tried to make a companion of him? Has he tried to feel an interest and sympathy in his plans and ambitions? Above all, has he tried to point out the danger signals that are like interrogation points at every turn, to which he will find an answer some way to satisfy that insatiable curiosity to know things? Boy's don't imitate their mothers.

What chance have mothers against the forces of evil which meet boys at every turn? Fathers do not realize or do their duty. When all kinds of temptations are allowed to exist so openly, much of it exists because of the common acceptance of the idea that "boys must have their fling." Is it really so? Is it absolutely necessary to the making of a man that he get down and wallow in mire? Deliver us from the "sissy boy" and the "lad-like man," but give us decent men who have self respect, for nothing else but God's grace will keep them. We mothers know that our boys are as pure and clean indeed as a girl, until he begins to meet those outside influences. Is there anything on earth more lovable than a clean, manly, well-mannered boy? You know there is not. Yet we all accept far too easily the idea that he must go through this rearing, demoralizing experience before he has hardly begun to live. When the boy first begins to stay out of an evening and spends his time without being able to give a very satisfactory account of himself, is it the mother who should put on hat and go look for him? Mother may not have made home as attractive as she might, but is father doing his duty to sit with cigar and newspaper till son comes in and then give him a "calling down."

Some things are eternally true, and one is that example is stronger than precept. Most men hate by fancy and rather than give up their pet "failing" they say nothing and let things go. But "Father" the responsibility is yours whether you realize it or not.

It is not enough to warn and advise and forbid. Every means which will keep and provide congenial occupation and wholesome attentions, should receive the heartiest support of every father who loves his boy—yes, and his girl, someone's boy will marry her some day," but the greatest of these is example.

Money paid for education is the best investment, time thus spent is wisely used. Time is money and opportunity as well if it is used aright. Business men work during the summer; farmers do the same. Then what's the use of big boys and girls spending their vacation in idleness. Most ambitious boys and girls would rather spend their vacation in learning something that will fit them to earn a good salary or work their way thru a college or university. He who cares more for success than heat, goes a long ways ahead of him who waits until cool weather to study.

With our famous Byrne Systems we can give a thorough, complete course of bookkeeping or shorthand or a good course in telegraphy during your summer vacation. This was not true when we taught the old systems now used in other schools, which required twice as long for their completion as do our modern systems.

Write for our large beautifully illustrated catalog, read what others have done in a summer's vacation. Then decide in a business-like manner what is best for you. No difference what occupation you desire to follow thru life, it will pay you to read our catalog thru carefully, reading the statements of our former students, showing how our courses of Bookkeeping, Shorthand and Telegraphy helped them into splendid commercial positions with banks, wholesale houses, railroad companies, into government work as well as pay their way thru colleges and universities, completing professional courses.

Our catalog is free. Fill out the accompanying coupon and mail at once to Tyler Commercial College, Tyler, Texas.

More Rain.

The rains of Saturday night and Sunday night were followed Tuesday night with a good season. Judge Sanders who keeps the weather gage reported .8 of an inch, making the total fall for the two rains 1.15 inches.

Wednesday night about 12 o'clock a heavy cloud from the west arose and for a time it looked like there was a storm brewing, but it proved only a hail and rain cloud. The hail was heavy for a while but the rain was light. The precipitation was only .24 of an inch, making the total for the three rains 1.39. Enough to do a great deal of good.

A Correction.

In last week's issue of the Free Press, we published a letter from our representative, Hon. R. B. Humphrey, in which the type got mixed, so as to give the per diem of county commissioners as \$2.00, when it should have been \$3.00. We desire to hereby correct the error.

Missionary Notes.

The reading course was a great success Monday. Mrs. Rike proved herself a splendid leader, everyone brought up their parts with much interest and many points were brought out in the chapter.

Only ten were present, we hope more will get this idea. "The society can't get along without me." If once our members get that thought firmly fixed in their minds, then our society will be a success.

Mesdames Sanders and Fields, who attended the Missionary Rally at Stamford last week, gave us many good thoughts gleaned from: the lectures given by Miss Davies. We only wished they had had time to tell us more.

Next Monday will be Bible lesson day. Mrs. Turrentine will conduct the lesson. Come and know your lesson.

Press Reporter.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

A. H. Tandy Married.

We have learned this week of the interesting event of the marriage on the 5th inst. of A. H. Tandy to Mrs. Burgher of Amarillo. An interesting feature is the fact that a son of the groom, Will Tandy, had previously married the daughter of the bride. Mr. Tandy is the father of Mrs. S. W. Scott of this city, and was a pioneer stockman of Haskell county and lived here for many years. All the old settlers and stock men of this section of West Texas know Mr. Tandy and he has many friends here. The Free Press joins their many friends with congratulations and best wishes.

A Clever Trick.

A traveling man entered the dining room of a leading hotel in Buffalo on Monday and as the waiter was serving him he drew a two-dollar bill from his pocket and showing it to him said: "Bill, I shall remain here until Thursday night and then this is yours."
"Thank you, sir," replied the waiter.

And he did cater to the traveler and serve him excellently. It so happened that on Thursday morning the traveler was hastily summoned to Chicago and it was weeks before he returned to the Buffalo hotel. Shortly, his former waiter, whom he had forgotten along with the incident, came up to him and said: "Say, boss, please play that two-dollar trick on your new waiter, for I've got a special grudge 'gainst him; he's de meanes' man what's in de whole house."
