Live Oak Apartments Sold To Mr. and Mrs. Sutherland

Live Oak Cottages and Apartments were sold last week by Satsky Mr. and Mrs. Dick Denny to Mr. and Mrs. John H. Sutherland of Acapulco, Mexico. Mr. Sutherland has taken over at Live Oak and Mrs. Sutherland will join him in the spring. Mr. and Mrs. Denny have moved to Corpus Christi.

Mr. and Mrs. Sutherland have been in the hotel business in Mexico for 22 years. For 11 years they managed the Taxqueno in Taxco. To this unique spot came artists, writers, scientists, statesmen and world travellers, all of whom sought the distinctive atmosphere they found only at the Taxqueno. But after Pearl Harbor, Mr. Sutherland, a veteran of World War I, came home to serve in the army a second time. has the highest octane rating

Modern cars, especially the 1957 models, have engines with very high compression ratios (9 to 1, and higher!).

These engines require a gasoline that's better than the best of "premium" gasolines, better than the "supers."

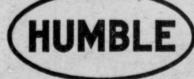

The one gasoline - the only one - that permits every high compression engine to deliver its full power output is Humble's Golden Esso Extra. It is the world's finest automotive fuel . . . with

the highest octane rating of any gasoline. Protect the value of your automobile investment use the gasoline that gives you added value from full performance. Fill up at the golden pump under your neighbor's Humble sign.

If you answer yes to any one of these questions, you should try Golden Esso Extra world's finest gasoline.

- Does your car knock on "premium" gasoline?
- Is your car air-conditioned? (On an average the engine pulls a 3-ton air conditioner.)
- Does the engine have a compression ratio of 9 to 1, or
- ☐ Is the engine rated at 200 horsepower or higher?

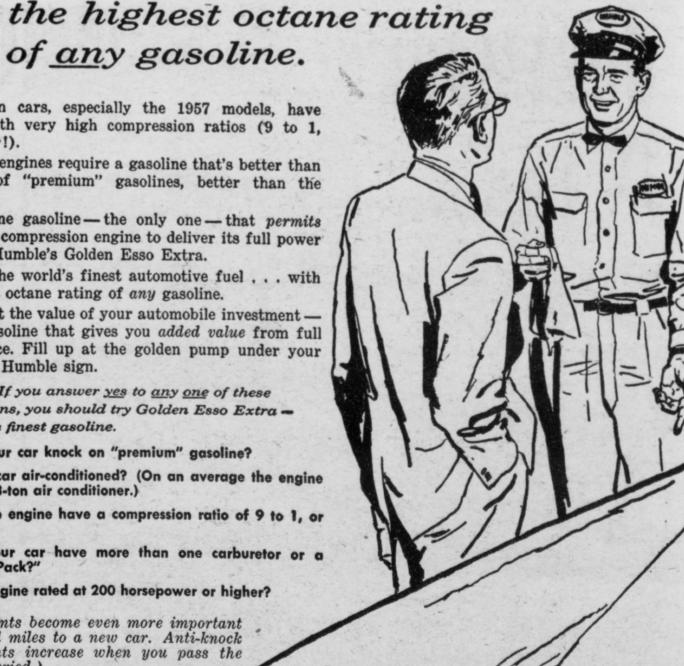

(These points become even more important as you add miles to a new car. Anti-knock requirements increase when you pass the break-in period.)

& REFINING COMPANY

Don't let a "knock you can't hear" rcb your car of power!

Engineers call it "trace knock," a knock so faint that only a trained technician can hear it. But like all knocks, it robs your engine of power, forecasts engine damage. If yours is a modern car in any price class - especially if it's a 1957 model - prevent "trace knock" with Golden Esso Extra, the gasoline with the highest octane rating ever.
