What About Our Water Supply?

The City of Haskell is striving for growth and industry. As is commonly known, very little industry ever comes to a town with limited quantity and quality in their water supply. The bare facts are also known to that the Haskell County Hospital cannot get Hill-Burton assistance due to the quality of water now available.

The City Council and the City of Haskell now appeal to all concerned to consider the present proposal of the Miller Creek reservoir which would give us a good quality of water useable for industry, business, home and hospital alike. The City of Haskell realizes it must look to a surface supply of water for future requirements in order to meet state health standards.

Without this supply of better water, the outlook for the City of Haskell is very dim indeed. For the past several years the City of Haskell has been striving to secure a better water supply. Numerous shallow wells of about 40 ft. average depth have been drilled and used until their source was exhausted.

WHAT IS A CRISIS?

- ★ When you don't have enough teachers to open school.
- ★ When children are herded into overcrowded classrooms caused by the desperate teacher shortage Texas faces next fall.
- ★ When Texas drops to 33rd in the nation in teachers' salaries—almost \$800 below the U.S. average.
- ★ When 10,000 Texas teachers leave the profession each year.
- ★ When 40% of our teacher education graduates refuse to begin their teaching careers in Texas.
- ★ When large school districts are 1200 teachers short of opening school next fall, and applications are not coming in.
- ★ When 10,000 teachers with emergency permits are hired in one year, and 5500 positions go vacant or are handled by substitutes.

That's what a crisis is. And that's what faces Texas education unless teachers' salaries are raised.

The Good Earth

By Mrs. B. F. Cobb

One day last week my husband and I went to Mr. and Mrs. Thurman Rhodes to see their odd and unusual rose bush. The roses are red radiance and right in the center of the bush was a cane with five large cup-shaped pink roses; their color very bright and clear and each rose was a perfect picture.

I think the cane on which the roses grew came from below the

graft. It was really difficult to tell as there were so many canes on the bush.

Mrs. Rhodes (Clara) intends to let the cane of pink roses stay and continue to grow. In the future there will be both pink and red roses growing on the same bush. Mr. Rhodes does not have time to garden much, as she works, but she and the entire family derive much pleasure from their rose bush and a bed of flowers in the front yard. The rose is seldom without blossoms all summer.

As this hot, dry weather continues I would like to stress the use of mulches to preserve water and to shade the ground from the scalding sun. Without plenty of mulch on our gardens it is almost impossible to keep moisture in the soil, to keep our plants alive until life-giving rains come.

There are several things that make good mulches...some types of grassy hay, dry grass clippings, cotton burs, black plastic and old newspapers. We may all have to sacrifice beauty in our yards to save our plants... Mulches will soon break down and turn into rich humus.

Grass clippings, dried and placed around tomatoes, will not only save moisture, but will keep the tomatoes from taking bloom end rot. This rot is caused by a fungus that is much more active in dry weather.

Be sure to water plants deeply...shallow watering causes tiny roots to come to the surface of the soil for a drink; then when there is no moisture to be found the roots die, causing plants to shed their lower leaves.

We have one garden planted the organic way with lots of mulch on the ground; our other garden is planted without the mulch. The garden that is mulched is watered about every four or five days; the unmulched one is watered every other day and then we wonder if we can keep things alive until rain

CARD OF THANKS

We have tried to choose the right words to express our love and gratitude to all of you for all the wonderful expressions of kindness and sympathy you have shown us in our sorrow. All we can say now is thank-you and may God bless you and always be as near and dear to you as He has been to us at this time. We will never forget you and all you have done for us. If for some reason we have failed to acknowledge any acts of kindness and sympathy shown in so many ways in our time of sorrow, please accept this as a very special thanks and may God's blessings be with you always. Jerry and Jamie Anderson, Mr. and Mrs. J. B. Anderson, Mr. and Mrs. A. D. Pittman.

There is only one thing I can say about this drought to encourage one... we have had them before and survived; if it be God's will we will live through this one also.

AN ORDINANCE FIXING AND DETERMINING THE GENERAL SERVICE RATE TO BE CHARGED FOR SALES OF NATURAL GAS TO RESIDENTIAL AND COMMERCIAL CONSUMERS WITHIN THE CITY LIMITS OF HASKELL, HASKELL COUNTY, TEXAS, AND PROVIDING FOR THE MANNER IN WHICH SUCH RATE MAY BE CHANGED, ADJUSTED AND AMENDED AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HASKELL:

SECTION 1. Effective with the first gas bills rendered on or after the 9th day of May, 1967, the general service rate for sales of natural gas rendered to residential and commercial consumers within the city limits of Haskell by Lone Star Gas Company, a Texas corporation, its successors and assigns, is hereby fixed and determined as follows:

First 800 cu. ft. or fraction thereof \$1.70 gross; \$1.584 net.
Next 1,200 cu. ft. @ \$1.42 per MCF gross; \$1.334 per MCF net.

Next 3,000 cu. ft. @ .927 per MCF gross; .834 per MCF net;
Next 20,000 cu. ft. @ .649 per MCF gross; .584 per MCF net;
Over 25,000 cu. ft. @ .593 per MCF gross; .534 per MCF net.

No gas bill will be rendered to any residential or commercial consumer served under the above rate not consuming any gas during any monthly billing period.

ADJUSTMENT
The amount of each net monthly bill computed at the above stated rates shall be subject to the following adjustment: Plus an amount equivalent to the proportionate part of any new tax, or increased tax, or any other governmental imposition, rental, fee or charge (except state, county, city and special district ad valorem taxes and taxes on net income) levied, assessed or imposed subsequent to January 1, 1966, upon or allocable to the Company's distribution operations, by any new or amended law, ordinance or contract. Each gross monthly bill shall be adjusted proportionately. Company, at its op-

tion, may forego the application of this adjustment; however, failure of Company to apply such adjustment shall not constitute a waiver of Company's right from time to time, or at any time, to make such adjustment, in whole or in part, in any subsequent current monthly bill that may be applicable to such bill.

Net rate shall apply to all bills paid within ten days from monthly billing date.

In addition to the aforesaid rates, Company shall have the right to collect such reasonable charges as are necessary to conduct its business and to carry out its reasonable rules and regulations in effect.

The above rate is applicable to each residential and commercial consumer per month or for any part of a month for which gas is used at the same location.

SECTION 2. The rate set forth in Section 1 may be changed and amended by either the City or Company furnishing gas in the manner provided by law. Service hereunder is subject to the orders of regulatory bodies having jurisdiction and to the Company's Rules and Regulations, currently on file in the Company's office.

Section 3. The fact that there is an imperative public need for an ordinance fixing and determining the rate for gas and gas service furnished to residential and commercial consumers creates an emergency, and the reading and passage of this ordinance at three separate meetings is hereby suspended and this ordinance shall take effect and be in full force from and after the date of its passage at a single meeting and the approval thereof by the Mayor.

PASSED AND APPROVED on this 9th day of May, A. D. 1967.

Annual Northwest Texas Methodist Conference Set May 22-25, Abilene

Representatives of 108,000 Methodists in the Northwest Texas Annual Conference of the Methodist Church will gather at McMurry College in Abilene May 22-25 for the 58th annual session of the conference.

Around 300 ministers and several hundred laymen will serve as official delegates to the conference. Bishop O. Eugene Slater, presiding bishop of the conference, will conduct the 4-day meeting.

The conference will open Monday afternoon, May 22, and will conclude Thursday morning, May 25, with the reading of appointments.

Several important items of business will come before the conference, including balloting on a proposed merger of the Methodist Church and the Evangelical United Brethren Church, and voting on a resolution which would eliminate the last Central Jurisdiction (Negro) Methodist churches in the South Central Jurisdiction, of which this conference is a part.

Delegates will also be selecting delegates to the 1968 General Conference of the Methodist Church in Dallas.

Bishop Earl G. Hunt, Jr., of Charlotte, N. C., will be the conference preacher. He is former president of Emory and Henry College at Emory, Va., and presides over 271,000 Methodists and 1,150 churches in the Western North Carolina Conference.

Bishop Hunt will speak four times during the conference. Dr. Ronald E. Sleeth, professor of preaching at Perkins School of Theology at Southern Methodist University, will speak twice during the conference.

This is the first time for the conference to meet in Abilene since 1963. It has met in Lubbock, Amarillo and in Dallas (meeting jointly with all other Methodist conferences in Texas

last year) since 1963. Conference sessions will be in Radford Memorial auditorium on the McMurry campus, with special worship services at Aldersgate Methodist Church near the campus. Special meeting rooms for boards, commissions and committees will be set up in academic buildings on the campus.

Dr. Gordon R. Bennett, president of McMurry, will be the host layman. His staff at the college is working with conference officials in making arrangements.

Cancer Crusade:

(Continued from Page 1)

eighteen people have been reached through clubs and organizations. Educational projects, displays, exhibits, theatre film showings, have reached an estimated total of 1,265 people.

The service center (cancer work room) was represented by Mrs. Spenny, who stated that three patients are being serviced. Old sheets, pillow cases, men's white shirts, towels and wash cloths can always be used.

Publicity chairman, Mrs. Bob Herron, exhibited a poster on which she had mounted the publicity for the organization since

the first of the year. This month was on Crusade. The unit has taken advantage of the Stamford radio station and the Abilene TV by same schedule of Crusade for the past several years. This year much of the publicity materials were given to the Jaycees and they have handled it. She gave them much praise for their help with the publicity during this crusade.

Crusade chairman, Jesse Priest, voiced his thanks to the Jaycees and their wives for the help rendered. He stated the wives did as much—or more, than the Jaycees. The goal was to "Better Our Best" and Priest is very optimistic; he thinks by the time all the Crusade money is contributed, the goal will be

accomplished. As of Monday night the total of this year's Crusade is \$3,566.35. This amount is \$60.00 less than the best Crusade year.

If you have not been contacted, you were overlooked unintentionally. Won't you please give your contribution to some of these people immediately in order that we will exceed our former year, and make this our very best?

Priest was eager to give credit to all workers who helped in any way. House-to-house chairman, Billy Jack Ray, reported \$888.73; Business, Mr. and Mrs. Ben McGee, \$400.50; Special gifts, Mr. Henry King, \$274.50; Paint Creek, Mrs. Allen Overton, Mrs. Ray Perry, \$117.50; O'Brien, Mrs. Grady Ellis, \$235.50; Rosewater, Mrs. Felix Mullino, Mrs. Dan Wadzeck, \$338.48; Sagerton, Mrs. F. A. Ulmer, \$199.82; Weinert, Mr. and Mrs. Cliff Dunnam, Mrs. J. A. Mayfield, \$246.62; Mattson, Mrs. Melvin Vojkufka, Mrs. W. R. Hager, Mrs. Durward Campbell \$88.79; turned in Monday night, \$13.00; memberships \$194.58; grand total, \$3,566.35.

Judge Chapman said he had always heard, "If you want to get something done, get the Jaycees to do it" ... he really believed it now as truth.

The field representative, Jack Sperry, complimented the Haskell County Unit for the work this year. He stated it shows we have reached new people, which is so vital in the effort to fight cancer, as well as to raise money for cancer research. He announced the District American Cancer meeting, in Wichita Falls, June 15, 9:00 a. m. to 2:00 p. m. at the Trade Winds. The five delegates to the district meeting are: Educational chr. Mrs. Felix Mullino; Service chr. Mrs. Spenny; Campaign chr. Priest and Ray; V. P. Mrs. H. K. Henry; Pres. Chapman; Publicity, Mrs. Bob Herron; Alternates, Mrs. Ed Hester, Mrs. Vojkufka, and any others who might be interested. They are very informative meetings. One can learn a lot. If you are interested in attending, contact some of the above.

Nominating Committee, Felix Mullino, chr. with Mrs. Vojkufka and Billy Jack Ray, presented names of the following officers and they were elected to head the Haskell County Cancer Society again this year:

Pres., Judge B. C. Chapman; V. P., Mrs. H. K. Henry; Treasurer and Memorials, Mrs. Clay

Smith; Secretary, Mrs. Ruby Smith

Chairmen: the Jaycees are asked to head the Crusade again this next year: Medical, Dr. Callender; Ed. Mrs. Felix Mullino; Publicity, Mrs. Bob Herron; Service, Mrs. Florence Davenport and Mrs. Spenny (work room).

It was decided to meet every other month next year. First meeting date scheduled is Monday, Sept. 18. Others are Nov. 20, Jan. 15, Feb. (Crusade Com.) March 18, April (Crusade Com.) and close May 20, annual meeting.

Mrs. H. K. Henry drove Felix Mullino to Vernon on Tuesday morning so that he could drive the mobile unit of the Cancer Society exhibit back to Haskell, where it will be open for the public to see for the next few weeks. It will be here for the

Jaycee Bodes House lawn. We wish to express our thanks and appreciation for the food and other activities shown us at the loved one, Henry Lee.

PAINT CREEK ... COMMUNITY NEWS

Mrs. Gene Overton

The seniors left after commencement exercises Friday night on their senior trip. Only three seniors went, Bob Earles, Larry Walton and Danny Isbell. Mr. and Mrs. James Ross Miekler took them in the little bus. They have called home every night, and they are having a good time. Saturday they were in Colorado Springs and it was snowing and sleeting. Bob and Larry had tried to go swimming, but gave it up.

Danny Isbell said he would walk down the aisle and get that diploma and with the help of his walker he did. The community was so proud of him. He even climbed and came back down four steps to the stage. Three of his therapists from Baylor Hospital in Dallas came to see his graduation, and two from the Rehabilitation Center in Abilene were here. Miss Patricia Lynch, Miss Nancy Groves and Miss Gail Marchbanks were here from Dallas, and Mr. Jerry Pilling and his wife, and Mrs. Fred Russell from Abilene. Mrs. Isbell asked Miss Lynch if she held her breath while he came down those steps, and she said she surely did, and she had forgotten to bring a handkerchief, too.

Miss Judy Earles of Denver, Colorado, and Mr. and Mrs. Don Erwin and children of Fort Worth were here to see their brother, Bob Earles, graduate.

Mr. Guy Moberly of Plainview, father of Pat Moberly of the Early Ranch, underwent eye surgery at Hendrick Memorial Hospital last week. He undergoes surgery on the second eye this week, and will be in the hospital recuperating for about four weeks. Mr. and Mrs. Pat Moberly and children spent Sunday afternoon in Abilene with the Guy Moberlys.

Mr. and Mrs. Lee Moberly of Dallas spent the weekend with her parents, Mr. and Mrs. John

Grand, and also visited the Guy Moberlys' in Abilene.

Mr. and Mrs. Kenneth Isbell and children of Childress were here for Paint Creek graduation to see her sister, JoAnn Sparkman, graduate and his cousin, Danny Isbell, graduate.

Bob Miekler of Snyder spent Sunday with his parents, Mr. and Mrs. Bill Miekler.

Mr. and Mrs. Jerry Jones, of Lubbock, spent Mother's Day with her parents, Mr. and Mrs. Paul Fischer.

Mr. and Mrs. Kenneth Bahsen and children of Denton attended the high school graduation exercises and spent the weekend with her parents, Mr. and Mrs. Glen Walton.

Mr. and Mrs. Lenita Jones of Rule spent Mother's Day with their daughter's family, Mr. and Mrs. Gene Overton and Waller.

Jeanine Isbell is staying with the Miekler children while Coach and Mrs. James Miekler are on the senior trip. They are senior sponsors.

Milla Perry of Texas Tech spent Sunday with her parents, Mr. and Mrs. J. R. Perry and Ricky.

Mrs. Gene Overton ended her Aggie Mother-of-the-Year Sunday when Mrs. Joe Rohmit of Abee, Texas became the 1967-68 Mother-of-the-Year. It was a wonderful honor and I loved every minute of it. Being the honorary mother of those wonderful, every Aggies was one of the nicest things that ever happened to me. But the card on my flowers from my sons Sunday said, "To our mother of every year," and that's the best honor.

Brother and Mrs. Kenneth Neeley and children of Fort Worth attended the graduation program. Brother Neeley delivered the Baccalaureate sermon for the Old Glory senior class Sunday.

Mr. and Mrs. Tom Cole and sons of Dallas spent the Mother's Day weekend with her parents, Mr. and Mrs. W. S. Cox.

Neida Morrison of North Texas University attended the graduation exercises and spent the weekend with the Van Morrisons, Ricky and Buddy.

Ann McLennan of Dallas was here for graduation and to spend the weekend with her parents, Mr. and Mrs. Aleck McLennan, Alex and Allan.

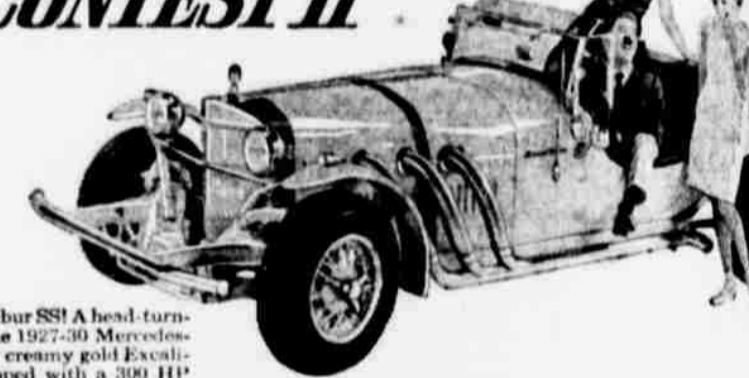

Mr. and Mrs. Irvin Overton, Dwight and Marcia, were in Temple Saturday night for the Fort Worth Press Awards Dinner where Dwight Overton received a medal for his 8th prize winning essay in the Soil and Water Conservation sponsored by the Fort Worth Press every year.

The judging teams that Agriculture teacher Tom Horton took to Lubbock in the judging contest several weeks ago were Jimmy Ballard, Roland Branch and Teddy Wadzeck, meat judging; and Ricky Green, Allan and Alex McLennan, dairy cattle judging team.

Mrs. Martha Ezell of Stamford attended the graduation exercises of her grand nephew, Danny Isbell.

Mr. and Mrs. Joe Young have returned to Pecos after spending the past six weeks here to be near her mother, Mrs. J. M. Miekler, who was very ill at the Stamford Inn.

JOIN THE SPRING SYMPHONY

Nature is a wonderful plan, and Spring is its symphony. Even as the oak is wrapped in the acorn and the rose in the bud, we find this plan is perfect and permanent. When distortions or imperfections come, they are not a part of the plan, but are due to failure of the individual to harmonize with Nature's law.

Planting, growing and harvesting are all links in the plan and as we wonder at the unfolding of the first leaves and early blossoms, we have faith that fruit will surely follow.

Maybe you and I are part of the Great Plan. Maybe if we could synchronize our lives with those Natural Laws, we could put discord and disease into the past tense.

Maybe we could eliminate all our troubles and join the Spring Symphony.

Maybe!

ACHIEVEMENT

Brains and capacity are different. One is a gift, the other is acquired. Were I asked to choose between them, I should select capacity, because it represents human efforts and not merely something which came by inheritance. If we shall honor people for what they receive, then there may be an aristocracy of brain; but for capacity there will never be anything but democracy. Brains represent inherent power; capacity represents developed force. Brains are the dynamo which may or may not be put to work; capacity is the current that controls and illuminates.

Aaron Burr had brains; John Marshall had capacity. Grazing around, we find on every hand that those who wrought for the ages, who produce constructive ideas, who gave utilities and conveniences to the world, had capacity as representing the inherited brain power, whether it was large or small, put to its maximum speed. We cannot conceive of useful performances, of helpful productions emanating from brains alone. They come from the concentration of effort, the development of skill, from the qualities which we sum up in the one word—capacity.

30 YEARS AGO
(May 21, 1937)

Work will be started Thursday morning on a \$7,000 WPA project for beautification of the city school grounds and the construction of a football stadium and lighted field following approval of the project application by the Washington WPA office last week. Supt. Breedlove was notified Monday that the project had been approved, and that work would be started Thursday, May 27. The beautification project will consist of leveling, terracing and sodding of grounds around the High School North and South Ward buildings, and other needed improvements. The football stadium will be erected on the field just north of the athletic clubhouse, across the street East from the North Ward Building.

The annual banquet of the Haskell County Bar Association, held Saturday night in the Tankawa Coffee Shop, was attended by 53 lawyers and laymen, including a number of prominent attorneys from adjoining counties and members of the Court of Civil Appeals Eastland. Ben Charlie Chapman presided as toastmaster and introduced the speakers of the evening. District Judge Dennis P. Ratliff gave the welcome address.

Carriers To Distribute Survey Cards

Postmaster Tommy Davis reminds rural patrons of the Haskell Post Office to be on the lookout for June Livestock Survey cards. Next week, mail carriers will leave survey cards in a sample of boxes along their routes.

"USDA bases livestock and poultry estimates on replies to this survey," Mr. Davis explains. "It is important for everyone who gets a card to fill it out and return it to the carrier. This way, USDA gets a representative sample of the area's livestock and poultry holdings."

Carriers assisting with the survey are: H. R. Spain, Route 1; R. P. Everett, Route 2; W. J. Adams, Star Route.

Survey cards will be forwarded to Cary D. Palmer, State Agricultural Statistician, in Austin. After adding and analyzing these cards, USDA statisticians are able to estimate the State's milk production, calf and pig crops, lamb and wool crops, and the number of hens and pullets.

Information from this survey will guide livestock and poultry producers in making important business decisions," Mr. Davis concludes.
