A mile-long, gala all-western parade, through downtown Haskell, led by Haskell County Sheriff, G. A. Garrett, last Thursday, officially kicked-off the annual Jaycee Rodeo here for a three-night stand. Parade chairman, C. O. Holt and his co-workers got the parade rolling at 5:00 p. m. sharp.

## PAINT CREEK . . . COMMUNITY NEWS

This has been a most unusual spring. Have you Paint Creekers noticed that the doves are nesting two or three weeks early? The quail have mated several weeks earlier than usual. The old mesquites leafed out earlier than I ever remember. The wheat matured earlier than it was expected to. It makes one wonder what nature is up to, or what she knows that we don't know. Maybe it isn't anything unusual, but spring sprang earlier than expected this year. Even the time of day is one hour earlier.

The community is right in the midst of harvest this week. Some wheat may still be a bit green in spots, but by the end of this week all the wheat should be ready. It is much better than it has any right to be with so little rain. Some of the community had heavy showers last weekend, and that helped. Right in here the shower was very light. The combines could start by 10 o'clock Monday morning. So we still need rain before any cotton can be planted.

Mr. and Mrs. Sam Chafin of Midland spent the weekend with her parents, Mr. and Mrs. Paul Fischer.

Mr. and Mrs. John Kuentler and Mr. and Mrs. Ira Davis were in Rising Star over the weekend to attend the funeral of their sister-in-law, Mrs. Bert Davis.

Mr. and Mrs. Gene Overton and Wally attended the musical, "Peecos Bill and the Indians," at North Texas University in Denton Saturday morning. The musical was presented by the Bassy Junior High School of Garland and was written and directed by William Overton. The Saturday morning presentations were for the graduate board of North Texas University.

The Overtons also visited with Mrs. Overton's aunts, Mrs. Frances Hills and Mr. and Mrs. W. S. Cole of Rule, who also attended the play.

Mrs. Gayle Spain Maxson and little son were in the audience to see "Peecos Bill" Saturday morning. Gayle is the daughter of Mr. and Mrs. Harold Spain of Haskell.

Troop 48, Boy Scouts of America of Paint, will have some new scouts when a Neighborhood Patrol from Lueders will become a part of Paint Creek Troop 48. Joe Mabe of Lueders will serve as Paint Creek Assistant Scoutmaster for these two patrols.

Mr. and Mrs. Boyd Cathey of Grand Prairie spent the weekend here and left for Lubbock to help their daughter, Elizabeth, move home. She has taught in Lubbock this past year.

Several of you Paint Creek people have expressed the wish to see the musical William wrote. So we are loyally with the idea of bringing it out here next week. They will have to charter a bus to bring 48 boys and girls here, so admission will have to be charged. They are 7th, 8th and 9th graders, and will have to have some homes to offer them, especially the little girls. William said he would have to assure the parents that they would be taken care of. So far we have offers of homes for 14 of the girls.

Superintendent and Mrs. Pat Morrison were in Dallas Monday and Tuesday on business. They visited with his mother in Mineral Wells also.

Mrs. Pat Moberley spent several days in Abilene with her father-in-law, Guy Moberley, of Plainview, who is recovering in Hendrick's Memorial Hospital from eye surgery.

Rev. and Mrs. Truett Kuentler and daughters of Kress spent several days last week with their parents, Mr. and Mrs. Louie Kuentler and Mrs. Jim Dean.

Mr. and Mrs. Louie Bob Davis and LuAnn of Abilene spent the weekend with Mrs. Davis' parents, Mr. and Mrs. Otto Baumbach.

Shorty Baumbach was painfully burned when he took the radiator cap off of a car while it was too hot. He suffered second and third degree burns on his arms and hands. His right hand is the most severely burned.

Mrs. Jim Dean has moved into Haskell. She lives north of the Hammer Laundry.

**Opening Of Mobil Station Is Announced**

W. E. George announces the opening of the Mobil Station on the Rule Highway formerly operated by Victor Lowrey.

Mr. George is trained and experienced in service station management and invites the present patrons, his friends and new customers to come in and trade with him.

**Last Rites Held For Curtis L. Gibson**

Funeral for Curtis L. Gibson, 63, was held at 2 p. m. Sunday in the First Baptist Church of Rule with the Rev. Hubert Segro of Haskell officiating, assisted by the Rev. Danny Johnson, pastor of the Calvary Baptist Church of Rule.

Burial was in Rule Cemetery under the direction of Pinkard Funeral Home.

Mr. Gibson died Friday afternoon of an apparent heart attack.

Survivors include his wife, Faye; five sisters, Mrs. John Dorniney, Mrs. Lillie Forsythe and Mrs. Lucy Bishop, all of Rule, Mrs. Paul Mullen of Estancia, N. M., and Mrs. Edna Setzler of Norman, Texas; two brothers, John, of Abilene, and Norris, of Haskell.

### "Little Libraries Can Be Big."

(Excerpt from article written by Robert B. Downs, which appeared in the March, 1963, issue of The Rotarian. Mr. Downs is dean of library administration, University of Illinois, and past president of the Rotary Club of Urbana, Illinois. He has been president of the American Library Association, has acted as an advisor of libraries in Japan, Mexico and Turkey.)

Thousands of public libraries of my country, the United States, unfortunately, are still at the one-room schoolhouse stage in their development... at least two generations behind modern concepts of librarianship. So completely inadequate is the service they attempt to render to their communities that they would scarcely be missed if they closed their doors permanently.

The typical small public library never has and never can, standing alone, offer any real range of library services. Its tiny budget makes impossible the employment of a professionally trained librarian. With so little annual replenishment, its book stock becomes outdated and stagnant, relying chiefly upon gifts. In a recent article the State Librarian of Minnesota concluded that "The average newsstand of paperback books holds a better collection of general reading interest than the small library has ever had on its shelves." Good library service is impossible under such conditions.

Why do we have such a "cultural lag" in public library growth, in contrast to the giant strides forward made by the public schools? The difference may be accounted for in part

by the attitude of parents, who demand the best possible schools for their children, regardless of cost, while failing to recognize that libraries are also of basic significance as educational institutions, for all ages.

One of the most regrettable aspects of the present national picture is that there are still at least 25 million people, principally in farm areas and rural communities, totally without public-library facilities, and another 18 million receiving inadequate service.

The skeptic may ask, "Does it matter?" Americans are living at such a swift, staccato pace that it is suggested that the leisure-time luxury of reading an entire book is old-fashioned. With 56 million television sets, 170 million radios, and the increasing popularity of such leisure-time pursuits as bowling, boating, golf and travel, it would appear superficially that there is no time left for reading.

The truth is that the United States is one of the most literate nations that ever existed. Less than 4% of its people lack the ability to read. A recent survey of 100 libraries in communities with more than 50,000 people reveals that book circulation has risen 29% in the last five years. Furthermore, basic changes in reading habits are taking place. Television programs have largely replaced books for the avid fans of blood-and-thunder mysteries, westerns and light love stories, while the demands on libraries are shifting toward art, music, political affairs and technology.

There can scarcely be any argument about the importance of reading in times like these.

## Haskell County History

### 30 YEARS AGO (May 28, 1937)

First load of grain from the estimated yield of 200,000 bushels of wheat in Haskell's immediate trade territory was received in this city late Thursday afternoon when Seets Cox, farmer residing southeast of Haskell brought in a load of 5,222 pounds of wheat.

Selection of Miss Christine Tucker, the daughter of Mr. and Mrs. J. J. Tucker, as Haskell's representative in the Texas Sweetheart contest of the Fort Worth Frontier Fiesta was announced Thursday at noon by judges who have been considering the list of over one dozen young women nominated for the place since May 1st.

Miss Lois Fouts, daughter of Mr. and Mrs. Jim Fouts of this city, received the degree of bachelor of science from the North Texas State Teachers College, Denton, Wednesday.

Miss Ella Mae Barnett, daughter of Mr. and Mrs. A. B. Barnett of this city, submitted a prize-winning essay in the Greater Texas Essay Contest conducted by the Dallas Chamber of Commerce and sponsored by the Greater Texas and Pan American Exposition. Title of her essay was "Why I Want

The population explosion, so much in the limelight, is matched by the explosion of knowledge. J. Frank Dobie, famous Texan author, has eloquently stated, "Books, and therefore libraries, contain the inherited wit, wisdom, humor, life, cream of all jests of all the centuries during which man has left a record of what he's thought and done. The 'immortal residue' of the human race lies in books. The great reason for reading books and valuing libraries is to have life more abundantly, to think more justly, to be in love more delightfully."

Conceding then, that books and libraries in some form will continue to be fundamental to our culture and civilization, what are the ingredients required in libraries to serve all the people?

There is a marked trend throughout the country toward creating regional libraries and other consolidations. Another favorite device is for city public libraries to contract to provide library service to rural areas. American public libraries are internationally recognized as the most progressive in the world. They are unique among society's educational forces, serving as school and college for millions, and bringing tangible benefits to industry, business and the professions. But they are not yet good enough, and the goal of making them better ought to receive a high priority throughout the nation.

To See the Greater Texas and Pan-American Exposition at Dallas." Miss Barnett was a pupil in the Seventh Grade of the North Ward School during the past term.

Voters in the Weinert and Myers school districts Saturday voted unanimously for consolidation of the smaller district with the larger Independent School District. Nineteen voters were cast in favor of the proposition at Weinert, and eleven Myers voters approved the merger. No opposing votes were cast in either voting box.

Fire Chief Jess Collier, Fire Marshal A. D. McClintock, R. A. Hays, Hut Pittman, Carl Maples, Frank Reynolds, Chas. Redwine, P. G. Kendrick, Gardner Mays, Riley Pittman and Cecil Bradley will attend the State Meet of Texas Firemen in Port Arthur June 8, 9, and 10.

O'Brien And KC Meth. Churches To Merge June 1

The O'Brien Methodist Church and the Knox City Methodist Church have voted to merge at the beginning of the Conconerence year June 1.

Families moving away have caused the membership to be so small that in order to fulfill the best interests of both churches, this action was taken recently. The Rev. Lee Roy Baker of Knox City has been serving both churches, preaching at O'Brien at 9 a. m. each Sunday and at 11:00 at Knox City.

The O'Brien church was organized in 1905 by the late Rev. S. L. Culwell who was pastor at Knox City. The late Rev. J. T. Griswold probably was the first preacher in the community before a church was organized.

O'Brien has never been a full time station but has been on a circuit with Thorp, Rochester,

Knox City, Sagerton and Benjamin. The first church building was erected in 1908. Later the present block church was built with church members making the blocks on location. The first parsonage, built in 1944, was destroyed by fire in May, 1951.

REDDY PREDICTS...

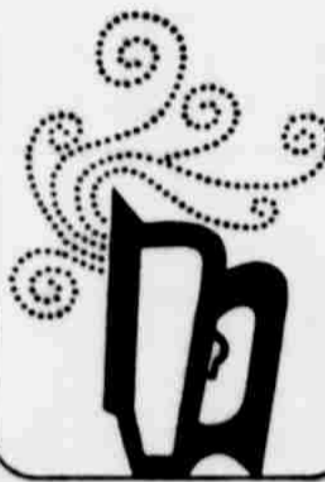

equal Electric Payments EVERY MONTH in the future...

IF you use WTU's Equal Payment Plan for electrical operating costs. Pay no more in August than you do in May—nor more in December than in September. Use WTU's budget plan for paying electric service bills. Here's how it works: WTU figures the amount of electricity your family would normally use in a year—then divides this figure by 12. You pay a budgeted even-dollar amount each month. Your service charge is reviewed monthly, and adjustment made either upward or downward if necessary to avoid any big lump payment. Like the idea? Then ask WTU for details... Reddy Kilowatt's people will be happy to plan Equal Payments for you.

Make a clean break with the past electrically...and budget it!

Here's why MALATHION LV CONCENTRATE is the No. 1 ultra low volume boll weevil insecticide

- PROVEN EFFECTIVENESS. Used on millions of treatment acres of cotton over the last 3 years, Malathion has given better than 95% weevil control at the U.S.D.A. registered rates of 8 to 16 ounces per acre.
- LOW HAZARD. Malathion has the lowest oral and dermal toxicity of any cotton insecticide. (Clinical Handbook of Economic Poisons U.S. Public Health Service).
- BROAD REGISTRATION. In addition to the U.S.D.A. registration for control of thrips and boll weevil on cotton, Malathion is the only ultra low volume insecticide registered for use on 20 food and forage crops and beef cattle at 2 to 16 ounces per acre. (U.S.D.A. registered number 241-110).
- FREEDOM FROM DRIFT RESIDUE WORRY. Drift residues to adjacent food or forage crops or cattle present no problem at recommended rates.
- ALL-SEASON USAGE. Malathion has given outstanding control of boll weevil on cotton when used early for over-wintering weevil, later in the season for subsequent broods and up until killing frost in diapause control.
- ECONOMICAL. Cost of material alone does not establish true economy. To the cost of material per acre must be added... proven effectiveness in 3 years of commercial use... low hazard to the applicator and all target areas... broad registration, permitting application even on beef cattle... freedom from drift residue worry... and all-season usage on cotton from emergence to frost. These advantages PLUS low per acre cost makes Malathion LV Concentrate the No. 1, economical, ultra low volume insecticide for boll weevil control.

The Good Earth

By Mrs. B. F. Cobb

Lately we have been running our fishing lines just before the sun comes over the horizon. There is nothing more exhilarating than gliding over glass smooth water and watching the ever-changing picture of the coming dawn—First the sky is grey, then pink and finally it bursts into flaming crimson as the sun appears.

Clouds scud across the sky in an ever changing picture. Mud hens rise slowly from the water but soon settle down to their usual slow swimming. Ducks rise gracefully into the sky, their white and black wings flashing in the sun, they too soon glide back on the water in search of food.

At this time of day one sees more wild life than at any other time. Every now and then a blue crane can be seen, standing on one leg as if he were thinking over the tasks of the day. Sea gulls circle gracefully overhead with their mewing call sounding somewhat like a cat, their white wings making a whirring sound. All this lovely picture is reflected in the water, making it hard to tell what is real and what is a reflection.

As we remove the fish from the line there is always the thrill of wondering how large the fish is.

We visited Mr. and Mrs. Bill Hampton one day last week and they told us they had a frost the first of May. These people live in Nugent on the river. They have a beautiful orchard. . . Apricots, pecans, peaches, plums, and pears . . . Mr. Hampton is especially proud of his pecan trees and woke with pleasure the first day of May, thinking he would examine the trees for insects; to his horror he found the leaves had turned black overnight. Not thinking of frost, Mr. Hampton took some foliage to his county agent to see what was causing the leaves to be so black. The agent told him that it was frost damage.

The Hamptons live close to the river and their orchard is in a swag. Those who had orchards on higher ground missed the frost.

I believe we had frost then in spots. My rose foliage has either frost or wind damage. I fertilized with a fertile tablet that was supposed to last two years. The tablets have been in the soil about three weeks and the foliage looks very healthy, except for the brown scars . . . either caused from frost or wind damage.
