NUMBER 27

## The Penalty Of Leadership

In every field of human endeavor, he that is first must perpetually live in the white light of publicity. Whether the leadership be vested in a man or in a manufactured product, emulation and envy are ever at work. In art, in literature, in music, in industry, the reward and the punishment are always the same. The reward is widespread recognition; the punishment, fierce denial and detraction. When a man's work becomes a standard for the whole world, it also becomes a target for the shafts of the envious few. If his work be merely mediocre, he will be left severely alone, if he achieves a master piece, it will set a million tongues awagging. Jealousy does not protrude its forked tongue at the artist who produces a commonplace painting. Whatever you write, or paint, or play, or sing, or build, no one will strive to surpass or to slander you, unless your work be stamped with the seal of genius. Long, long after a great work or a good work has been done, those who are disappointed or envious continue to cry out that it cannot be done. Spiteful little voices in the domain of art were raised against our own Whistler as a mountebank, long after the big world had acclaimed him its greatest artistic genius. Multitudes flocked to Bayreuth to worship at the musical shrine of Wagner, while the little group of those whom he had dethroned and displaced argued angrily that he was no musician at all. The little world continued to protest that Fulton could never build a steamboat, while the big world flocked to the river banks to see his boat steam by. The leader is assailed because he is a leader, and the effort to equal him is merely added proof of that leadership. Failing to equal or to excel, the follower seeks to depreciate and to destroy—but only confirms once more the superiority of that which he strives to supplant. There is nothing new in this. It is as old as the world and as old as the human passions—envy, fear, greed, ambition, and the desire to surpass. And it all avails nothing. If the leader truly leads, he remains—the leader. Master-poet, master-painter, master-workman, each in his turn is assailed, and each holds his laurels through the ages. That which is good or great makes itself known, no matter how loud the clamor of denial. That which deserves to live—lives.

## THIRTY MINUTE PAGENT

A thirty minute pagent, The Challenge of the Cross, will be given at the close of the B. Y. P. U. services, Sunday night at the Baptist Church, June 23.

Evangel — Dorris Holley.  
1st. Disciple — Audry Robinson.  
2nd. Disciple — Bess Porter.  
3rd. Disciple — Francis Earnest.  
4th. Disciple — Mollie Ward.  
5th. Disciple — Jerry Calicaote.  
6th. Disciple — Bess Robinson.

Concealed choir with music interspersed. Mrs. Fowler at the piano.

## BAPTIST SUMMER REVIVAL

The summer revival for the Jayton Baptist Church is scheduled to begin Sunday August 25, and is to continue for two weeks. Rev. Perry F. Evans one of the State Evangelists is to do the preaching. He is an earnest, able preacher of the Gospel, and we are looking forward to a great meeting under his leadership, and we urge everyone in Jayton and surrounding communities to join us in this effort to lift the spiritual life of our community to a higher plane. Fred McPherson, Pastor.

Commissioner Cal Cade had business in Jayton the first part of this week.

Rex Alexander is now at home after attending school at Lubbock for the past term.

Bob Gohall was attending to business matters in Jayton Monday of this week.

Tom Fowler had business in Clairemont Monday of this week.

Wesley Osman of Clairemont was in Jayton on Monday morning having brought a couple of patients over to see the doctor.

## Testing For T. B. In Kent County

Monday of this week, Dr. Brady started the government testing of the cattle in this county as a required health measure.

Ten per cent of all range cattle and all bulls and dairy cattle are to be tested.

There are five crews working in Kent county. Three of said crews working out of Jayton and one out of both Rotan and Spur.

It will take approximately three weeks provided the weather is suitable for working conditions, to complete the work here in Kent county.

Although it will work a hardship on quite a few of the big ranchers in the way of rounding them up twice or else keep the ten per cent in a separate pasture, it is well worth the trouble to have them tested.

## Texas Farms Force Ahead on Adjustment Program

Farmers of Texas are carrying on adjustment programs regardless of all wild rumors that the recent Supreme Court decision endangers AAA and more than 70,000 new contract signers have shown up this year in the various commodities, according to George E. Adams, assistant state agent of the Texas Extension Service.

Adams reported that he traveled through 26 counties last week including the lower Rio Grande Valley and in all of them the farmers are going ahead with the programs.

Confirming them in their confidence, Secretary Wallace issued the following statement a few days ago. "In cooperation with the leaders of Congress, amendments to the AAA are being perfected which are intended to bring the Act's provisions as to marketing and licenses into line with the Schechter case decision and also to safeguard the farmer's voluntary adjustment program on basic commodities."

"These voluntary adjustment programs were not in the path of the Schechter case decision, and in no event could there be any question of the Government's ability to fulfill its contracts with the farmers."

"Nevertheless, we have taken advantage of the decision to seek perfection in the law which will make certain the Government's authority to continue processing tax rates in accordance with the amended provisions of the Act."

Barnie Cumbie, Sheriff of Kent county and a former resident of Polar was in Jayton, Wednesday afternoon and gave us some of the particulars of the storm that hit in the Polar community Monday afternoon of this week, in which Mr. W. T. Vick lost his life by drowning and the entire community suffered great damage. The storm swept a territory about three miles wide. Destroying out houses, growing crops, and uprooting shade and ornamental trees. Mr. Vick who lost his life, was a highly respected citizen age 51, and had lived in the Polar community for the past 16 years. He left a wife and two daughters, one married and one single, to mourn his tragic death.

Monday afternoon the Polar community was hit by a terrific rain, hail and wind storm. Crops were completely hauled out for the second time this year. One man was drowned when he attempted to cross a creek on horse back going from his farm lands to his home. His body was found after several hours search. One foot had been caught between two large rocks, in the creek bed and it is supposed the current sucked him under the mad rushing waters and death was the result. There was a light fall of rain in Jayton, much wind but no hail.

Mrs. W. J. Garrett sends the old Home paper to her son Wilson, in Austin, Texas.

Mrs. Tom Keenan, and son Mike of Littlefield, Texas are here on a visit with Mrs. Keenan's brother, L. F. Wade.

Roy Wade of Littlefield, Texas, visited in the home of his uncle, L. F. Wade, last Sunday.

New crop bundle oats were being offered for sale on the streets of Jayton this week.

## League Has Ball Game

Coats and perfume flew hither and yon, over the base-diamond, Friday evening, as the half of the Epworth League played their sturdier opponents, in a hot-contested game of soft ball. The score was 10 to 6. Such a great night over the girls was accomplished, only by doing their duty first, and by working until their hands ached in complete exhaustion. The captain of the girls' team told the spectators, confidently, that the girls are saving their playing till next time, so it seems they really have the boys fooled. The league wishes to thank all those who contributed toward this matter, and especially do thank Mr. Mathews, who took up the fine feat for the league.

Highlights of the game: Richard C. plate, when one of Pitcher Max Harrison's fast balls completely flattered him off his guard.

The comical head-on collision of Short Wade and Grover Little flattened both out.

But not least of the highlights was the perfect five-point landing made by the third baseman, Corn Robinson, when the ground flew and hit her.

All in all, the game had many funny and funny moments and was greatly enjoyed by the many spectators.

## Fronte Bank Robbed

FRONTE, July 1—Two men robbed the First National Bank here this morning of approximately \$500.

The two robbers, armed with sawed-off shotguns, entered the rear of the bank, and called on the persons in the bank to hold up their hands. They forced the five men on the floor while they ransacked the cash drawer, then herded them into the vault and fled.

The robbers fled north on Highway 25 miles from here, in a black automobile with yellow wheels. County sheriffs pursued them but lost them shortly after they got out of town.

A posse was being organized this morning to search the surrounding country.

Those in the bank at the time were president L. T. Youngblood; Vice president J. T. Harmon; Guy Williams, cashier; Miss Virginia Youngblood, bookkeeper, and Clarine Gilchrist.

## Attend Home Coming Of Baptist At Cottonwood

Last Sunday was Home Coming Day at Cottonwood, Texas for the members of the Missionary Baptist Church of that place. Jayton was represented as W. J. Hembree family C. S. Kenady and Owen Kenady and family and George Kenady, former citizens of Jayton also attended the Home Coming.

The church where the Home Coming was held was built in 1891 and an official sermon was delivered by Rev. Carter its first regular pastor. He was there from as far away as New York and Arizona and a wonderful time was had by all.

Mr. and Mrs. W. J. Hembree are enjoying a visit this week from Mr. Hembree's mother. Her home is in Elene.

My fellow thinks he is the outstanding gentleman but just hates to vote for himself, and his wife is bowing him to well, refuses to vote for him.

We are going to extend the time and closing this poll another week. We are on folks and vote. Surely there is someone in the town that can qualify in this line. Give us at a grand total of 300 votes. The one that wins will be engaged to try and accomplish some.

1935

## Standing Citizen.

## Nobody's Business

(By Julian Capers Jr.)

Austin.—The political picture in Texas has undergone swift and important changes during the past few weeks.

Atty. Gen. Bill McCraw and Chairman E. O. Thompson of the railroad commission, have each let it be known that they are candidates for re-election to their respective offices next summer, "regardless of who has run or what." Since each had been considered a certain candidate for governor, in the event that Gov. Allred opposed Sen. Sheppard—and since Gov. Allred has maintained his unbroken silence on his plans—the action of McCraw and Thompson surprised some folks. But not those who care fully observed political events in Austin.

The appointment of a brother of the governor to an important post with the Federal Securities Commission regional office in Fort Worth, is the tip-off. Folks who know how federal appointments are distributed know that Allred was not appointed without the endorsement of both Texas senators. They also know that when Sen. Morris Sheppard okayed Allred's appointment, the state bill Texas senior senator was very certain that Gov. Allred wasn't going to make the race against the senator next year. So now it seems certain Gov. Allred will be a candidate to succeed himself next summer. He probably will have no serious opposition—at least there is none in sight. Many other potential races which hinged on what other candidates would be off now. McCraw, Thompson, Lieut. Gov. Walter Woodruff—all first timers—will undoubtedly seek to carry out the Democratic precedent of a second term to a faithful public servant.

With Allred out of the running, Rep. Martiny Dies, ambitious

represents the limelight as the leading potential opponent of Sen. Sheppard. Dies is reported here to have hired press agents, set up a preliminary campaign organization, and he is actively at work, despite the fact that he has made no formal declaration. Being member of the house immigration committee. Dies has seized upon the alien issue upon which to pitch his campaign. He has achieved national publicity twice—once with an article in the Saturday Evening Post, and most reactionary of Republican publications known, whose editors are slightly cracked on the alien issue. The Post hates Democrats, but will support anybody who hates aliens, even a Democrat, like Dies. Little known outside his own district, Dies next stroke was a radio speech on a network program sponsored by a Republican newspaper in Washington. His press agents sowed down Texas newspaper with flattering notices and an unflattering photo in advance of the speech.

Dies says he would relieve the depression by deporting the aliens, leaving the jobs for American citizens. His speeches have frightened some ignorant aliens, to the extent that the U. S. immigration office in principal cities of Texas have felt called upon to issue reassuring statements, when floods of inquires from alarmed foreign-born residents, fearing deportation, came to their offices. One of Dies' predecessors as representative from the 2nd district, Congressman Box, stayed rather hot on the alien question for years, but was never able to make use of the issue successfully as a political lever. Rep. Joe Eagle, of the Houston district, an avowed candidate against Sheppard, has rather faded out of the picture in the face of Dies' recent activity. Unless more formidable opposition develops, Sheppard's friends here feel that next year's campaign will be a cinch for the senator.

Mr. Alfred M. Best, self-appointed New York "rater of insurance companies, became known to Texans several months ago when he sent his men to Austin to tell the Texas legislature it ought not to pass a law to regulate his activities in this state. Details of that activity were chronicled in this column at the time. Now Mr. Best appears in a new role. His divorced wife, Mrs. Myrtle Bennett Best, was found dead in the home of her first husband, John Candemo, gangster and ex-convict, a few days after Best divorced her.

## District Meeting of The Epworth League

The Stamford District Young People of the Northwest Texas Conference, Methodist Episcopal Church, South convened in Jayton, June 27-28 for a business meeting and an inspirational program.

The delegates were entertained with a picnic supper Thursday night after which they returned to the church for a service presented by Woodrow Adcock and for a recreational program. Friday morning's program consisted of a most impressive morning watch conducted by Rev. J. E. Shawbert of Avoca, a song service, and a business meeting led by Frank Cockrell of Avoca. The afternoon session was brought to successful close with a consecration service conducted by Rev. Hicks of Seymour.

Delegates were registered from Elbert, Seymour, Asperment, Peacock, Spur, Haskell, Rule, Avoca, and Jayton.

The local Leaguers wish to take this opportunity to express our gratitude to those who so willingly opened their homes to the visitors and to all others who assisted in any way.

## The Suffering Motorist

The motorist is a helpless victim of taxation because there is no practical substitute for gasoline.

For almost any other commodity the consumer can use a substitute. But when it comes to gasoline, it is pay the tax or stop driving.

The states started taxing gasoline "moderately" but, as with all special taxes, the gas tax soon became exorbitant.

Then the Federal Government decided to take its pound of flesh from the motorist.

Motorists have it in their power to demand a reduction of from the states, including the district.

They also demand a reduction of the gasoline taxes to no more than road purposes. When taxes run from 25 to 30 cents on the retail price of any gas as gasoline tax does, it is high to correct the abuse.

## Signs New Contract

L. H. Mason informs us he has signed a new contract with the Chevrolet Motor Co. for the Kent Co. agency and expects to have his first shipment of Chevrolet cars in around the 15 of this month. This will be good news to Chevrolet lovers who expect to purchase new cars this fall. It is also good news for the business life of the town and county.

Uncle Sam McCombs was here Tuesday morning. When asked about his side kick Guy Brown, he said, "The indians have got him. If he don't make his escape soon we are going to organize a rescue party and go out and bring him in, dead or alive. Guy was a good pal, I miss him more than I like to admit, I don't think they will hurt him, he is such an innocent looking person and I believe they will soon realize he is harmless and send him home to his family and near heart-broken pal."

Uncle Sam was worried—as he talked tears filled his eyes and his voice trembled with hidden emotion. Best told authorities in New York he financed Candemo's defense on a murder charge, and later married Candemo's wife. When Candemo finished a prison term on another charge, Mrs. Best went back to live with him. Best divorced her. Neither Best nor Candemo was able to throw any light when questioned on the woman's death, which authorities thought was suicide. The incident, read eagerly in Austin by those who remember the lobbying activities of Best's organization last session, hasn't weakened the sentiment here for a law to curb Best's activity in Texas. It probably will come up again at the future session.

Mrs. J. L. Gordon, daughter and son of Portland, Oregon, came in last Saturday for a three weeks visit with Mrs. Gordon's mother, Mrs. W. K. Moreland and her sister Mrs. W. P. Dowdle, and brother Ode Moreland.

BIG CIRCUS COMING TO JAYTON

### THE SAME COUNTRY

By ROBERT V. FLEMING  
Vice President, American Bankers Association

There is a growing appreciation, both on the part of the people and the Government, of the earnest and sincere efforts being made by bankers to aid in recovery. It is desirable that we miss no opportunity to foster public understanding of the bankers' problems. We are living in an age of complex and upset economic conditions. Our affairs are closely inter-related not only within the confines of our own borders but extend to other countries throughout the world.

R. V. FLEMING

#### The Greatest Difficulty

I think the greatest difficulty we have to overcome in America today is due to our impatience with the progress we are making towards recovery. We must realize that while the Government can help by directing some measures for relief and recovery, we must help ourselves by doing our share to give impetus to the Government's efforts. We have the same country and basically the same businesses, factories and people we had prior to the depression, and business initiative must step forward if real recovery is to be achieved.

The theory we often hear expressed that banks create business activity is wrong. Banking can only make a supplementary contribution to business activity. Bankers have the facilities and the desire to extend credit, but business must initiate activity by seeking the credit which is readily available to all worthy borrowers.

Let it be said for business, however, that business men are as eager as bankers to contribute towards recovery. I think some of the trouble lies in the fact that too many legislative measures have been proposed for reform which leave an uncertainty in the minds of business leaders as to their eventual outcome and effect. Consequently, they hesitate to expand until the probable effects of such legislation are known.

The modern husband knows more than his wife thinks, but he does not know quite as much as he thinks he does.

# Specials

## Landers & Gardner

- SPUDS, (New crop. 10 lbs. The Best)
- COFFEE (Pure 4 lbs.)
- TOMATOES (No. 1 cans per can)
- PORK & BEANS (Can)

# JAYTON CHRONICLE

JAYTON COUNTY, TEXAS, FRIDAY, JULY 5, 1935

**HAVE A BETTER BEDROOM**

...that I could have a very neat bedroom. For a girl had planned to fix this room but somehow we just never did do it. My older sister had papered it two years ago with the intention of completing the room but she married soon after she began working on it so that ended our doing anymore to it. This year

**WALACE BARBER SHOP**  
Ivey F. Murdoch, Owner

**BETTER BEAUTY WORK**

You get only the best of beauty work here. We are not here today and gone tomorrow leaving you dissatisfied. Our work stands the test for we make it good.

Mrs. Ivey F. Murdoch

**TIRES MAY LOOK ALIKE ON THE OUTSIDE BUT THE INSIDE THEY ARE DIFFERENT**

...the inside created by friction... Firestone... proof of any tires ever built. In the great 500-Mile Race at Indianapolis, May 31, every one of the 33 cars was equipped with Firestone Gum-Dipped Tires. Not one of the 33 drivers had any tire trouble of any kind.

Ab Jenkins drove his 5,600 pound car Firestone Gum-Dipped Tires over the high salt beds of Utah, 3,000 miles at 127 miles per hour, with temperatures as high as 120°, without tire trouble of any kind. These are most amazing proofs of blowout protection ever known.

**QUESTION 3—"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"**

**ANSWER—**Firestone High Speed Tires not only give you more than 50% longer wear, but also lowest cost per mile due to the tough, wear-resisting tread built with higher shoulders and a wider, flatter contour. This rugged tread is held securely to the Gum-Dipped cord body by Firestone's patented construction of two extra layers of cords under the tread, a special construction feature not used in any other tire. Unequaled mileage records by thousands of car owners add undisputed evidence of longer wear and greater economy of Firestone High Speed Tires.

**You Always Get Better Quality at No Higher Price when You Buy a Firestone Tire with the Firestone Name and Guarantee**

																																											
<b>\$6.65</b>	<b>\$6.05</b>	<b>\$5.50</b>	<b>\$4.05</b>

The Stamford District Young People of the Northwest Texas Conference, Methodist Episcopal Church, South convened in Jayton, June 27-28 for a business meeting and an inspirational program. The delegates were entertained with a picnic supper Thursday night after which they returned to the church for a service presented by Woodrow Agecock and for a recreational program. Friday morning's program consisted of a most impressive morning watch conducted by Rev. J. E. Shewbert of Avoca, a song service, and a business meeting led by Frank Coker of Avoca. The afternoon session was brought to successful close with a consecration service conducted by Rev. Hicks of Seymour.

**The Suffering Motorist**

The motorist is a helpless victim of taxation because there is no practical substitute for gasoline. For almost any other commodity the consumer can use a substitute. But when it comes to gasoline, it is pay the tax or stop driving. The states started taxing gasoline "moderately" but, as with all special taxes, the gas tax soon became exorbitant. Then the Federal Government decided to take its pound of flesh from the motorist. Motorists have it is their prayer demand a reduction of from the tax, including the discrimination tax.

**They...**

That gasoline taxes be no other than road purposes. When taxes run from 25 to 30 cent on the retail price of any a as gasoline tax does, it is high to correct the abuse.

**Rep. Martin Dies**, ambitious politician, is the leading potential opponent of Sen. Sheppard. Dies is reported here to have hired press agents, set up a preliminary campaign organization, and he is actively at work, despite the fact that he has made no formal declaration. Being member of the house immigration committee, Dies has seized upon the alien issue upon which to pitch his campaign. He has achieved national publicity twice—once with an article in the Saturday Evening Post, and most reactionary of Republican publications known, whose editors are slightly cracked on the alien issue. The Post hates Democrats, but will support anybody who hates aliens, even a Democrat, like Dies. Little known outside his own district, Dies next stroke was a radio speech on a network program sponsored by a Republican newspaper in Washington. His press agents sowed down Texas newspaper with flattering notices and an unflattering photo in advance of the speech.

**Mr. Alfred M. Best**, self-appointed New York "rater of insurance companies, became known to Texans several months ago when he sent his men to Austin to tell the Texas legislature it ought not to pass a law to regulate his activities in this state. Details of that activity were chronicled in this column at the time. Now Mr. Best appears in a new role. His divorced wife, Mrs. Myrtle Bennett Best, was found dead in the home of her first husband, John Candelmo, gangster and ex-convict, a few days after Best divorced her.

# THE JAYTON CHRONICLE

JAYTON, KENT COUNTY, TEXAS,

FRIDAY, JUNE 28, 1935

NUMBER 26

## S. A. McCombs Honored With Luncheon, Party

Monday morning of this week 1:30 A. M. to 3:30 P. M. McCombs coupled with a bridge party was given by Mrs. W. Laury in honor of Mrs. S. A. McCombs Jr.

Independence Day color schemes were carried out in the room as well as the tables decorated with flowers that decorated each of the tables. The flowers were red and white lilies and blue larkspurs. They were placed in the center of each table that beautifully decorated with spreads of red and blue.

The luncheon was served in five courses that were very delicious and well prepared.

After the luncheon, games of 42 cards were enjoyed until 3:30 P. M. afternoon. Those in attendance at the event were, Mes-

Murdoch, B. C. Cairns, Bert G. H. Huls, L. H. Mason, McCormick, John Jones, Tom Tubby Hembre, S. A. McCombs, Bill Porter, Van North, J. W. Jinks Garrett, M. D. Fulmer, Gilbert, T. E. Harrison, M. Less Matthews, Bill Daniels, Branch, Bake Robinson, C. Hawkins English and McCar-

son considered the biggest and most enjoyable social event in Jayton circles in quite a long time. Everyone seemingly enjoyed the party to the fullest extent. The society reporter for the Chronicle was not among those who danced himself, it is very difficult to draw a justifiable word picture of this event but from different angles managed to learn that it was the most successful party of the sea-

## Back to the Farm

Recent surveys cast new light on the current status of agriculture. There has been a small but encouraging increase in the value of American farms between March, 1934, and March, 1935. Values rose in thirty states but five and remained unchanged in the other 13.

"Back to the Farm" is becoming a reality. Where a few years ago, the farm population was being decimated by an exodus to the cities, the trend has completely reversed and thousands of people are going from urban to rural areas. A number of states lie behind this, such as industrial unemployment, the development of profitable speciality farms and the desire of immigrants to the cities for the land.

In addition, the number of individual farms is on the increase. In England alone, there were 162,000 producing farms on January 1, 1935, in contrast to 125,000 on April 30, 1934.

This speaks well for the future of agriculture and self-supporting citizenship. It is natural that people should win their own living from the land. And the great progress being made in developing more scientific farming methods—largely due to the cooperation of large agricultural cooperatives—is immeasurably improving the farmer's opportunity to till the soil for a profit. All in all, it is safe to say that the agricultural situation is basically better now than any time since the depression set in.

## Jay Dairy Installs Milking Machine

The Jay Dairy this week installed a modern new McCormick-Deering milking machine at their dairy near Jayton. At present there is only a single unit of this type of machine, but doubtless if one proves satisfactory others will be added from time to time as they are needed.

The dairy has been rendering the milk people the very best of service for many years and has kept step with the demands of its customers. The new machine is just another advancement which will enable them to handle this program of construction.

Frank Felcher who has been attending Hardin and Simmons University the past winter is in Jayton with his parents Mr. and Mrs. J.

## Palace Theatre At Spur Has Two Specials

Manager Everts, of the Palace Theatre at Spur announces two special pictures for the entertainment of theatre goers, the first of which is "Reckless" starring Jean Harlow and William Powell to be shown on this Saturday Nite Prevue, Sunday Matinee and Monday, Matinee and night. This new picture is glorious with music and bulging with fun and you will have the opportunity of seeing Jean Harlow dance the "Trocadero."

Following this picture, Everts has booked "Our 'Lil' Girl" Shirley Temple, with Lionel Barrymore in "The Little Colonel" for Thursday and Friday, July 4 and 5.

The Palace is now running matinees every day at two o'clock. You may come anytime until 3:30 in the afternoons and see a complete program. New low admission prices prevailing for the summer are:

All matinees, 10c and 20c. Nites, 10c and 25c. Tuesdays, 10c to all, Matinee and Nite.

The Management especially stresses the fact that the Palace is now Air Conditioned and suggests that you use the theatre for a retreat from the summer weather.

## How Much Are You Interested

Are you interested in the Jayton Cemetery? Would you like to see the road leading to the cemetery from Jayton made passable? Do you ever go out that way?

Arrangements are now being made to have that road from Highway 18 to the bridge west of the city of the dead, improved.

It calls for a little cash to pay for some of the work and those looking after having the work done feel that you should be given a chance to assist. If you want to contribute anything toward this work, kindly drop into the Chronicle office or when you next see the editor on the street, give him your donation, any amount will be accepted from fifty cents up, it will be greatly appreciated and we guarantee every dollar donated will be conservatively spent on this work. Please don't put this off as the work is to be underway in fact it is under way at the present time.

## \$1,400 Taken From Office in Haskell

HASKELL, June 25.—Theft of \$1,100 worth of travelers checks and six money orders of approximately \$300 value from the office of the Railroad Express Company here Monday night has been reported to Sheriff Giles Kamp.

The theft occurred while C. L. Lewis, agent, was at home at supper, entrance being gained through a rear door. The combination of the safe was worked. Lewis gave officers a description of a stranger loitering in the office shortly before it closed.

## To Cotton Producers Of Kent County

Supervisors will start measuring cotton land about July 1st. It will be necessary for you to have your rented acres staked off so that the supervisor will not have to take too much time on your place. It will also be necessary for you to be at home at the time the supervisor measures your land. If you will cooperate with these supervisors, it will enable us to get Kent County's compliance completed much earlier and get your second rental and parity payments for 1935 in much sooner. It is your interest that you cooperate in every way as far as possible with the supervisor, and we are sure you will.

## Attempt Made to Rob Peacock Bank

Wednesday night of this week an attempt was made to rob the Peacock bank by a bunch of thugs but the night watchman of the little city was on the job and they were freighted away, leaving behind their burglary tools and other things. Officers are hot on their trail and it is hoped that they will have them landed safely in jail soon.

## MOST OUTSTANDING CITIZEN

A gentleman came to us the other day and asked this question—"Who is Jayton's Most Outstanding Citizen?" We answered—"Who wants to know?" And he explained that he had been requested to send in to a certain State Department the name of the gentleman. We were just as much in the dark as he was, so we are going to leave it up to our readers. Lets have your vote on this important question. Just fill in the coupon below and give or mail it to the Editor of the Jayton Chronicle.

Jayton, Texas ..... 1935

Mr. \_\_\_\_\_  
Is Jayton's Most Outstanding Citizen.  
Signed \_\_\_\_\_

If you desire, you may state your reasons for the selection you make.

No one will know how you vote but the editor and only the totals will be announced. We want your answers in by July 4th. Its very important.

The Jayton Chronicle

## Beware of Typhoid

Recent floods may be responsible for an epidemic of typhoid fever, declares Dr. John W. Brown, State Health Officer. Flood conditions have prevailed over most of the state and unless the utmost precautions are observed to prevent this disease the monetary loss from illness may equal the property loss.

Typhoid fever is often called a "filth-borne" disease. It can only grow into epidemic proportions under conditions which are insanitary. A typhoid epidemic means that water, milk, or food have been contaminated with germs from the body discharges of a patient or carrier. Contamination of milk or food by flies is favored by a lack of sanitation.

The prevention of typhoid fever is peculiarly a matter of community responsibility. In large cities and in small cities the most urgent measures are those providing for (1) proper disposal of human excreta through sewage disposal plants and toilets of sanitary type; (2) safe public and well water supplies; (3) extermination of flies; (4) healthy food handlers; (5) supervision of disease carriers and (6) public milk supplies of high quality with the added safeguard of careful pasteurization.

Inoculations with vaccine increase individual resistance to typhoid fever. Such treatments are advised for exposed persons and those who, through travel or change of residence are subject to varied water, food, and milk supplies. For the rank and file of our population, reduction of deaths and sickness from preventable disease like typhoid fever is largely dependent upon carrying out the six above mentioned measures.

## Robinson-Shipp

Miss Mary Pearl Robinson, and J. D. Shipp were married June 23, at Dickens.

Mary Pearl is the daughter of Mr. and Mrs. Homer Robinson of the Sardis Community; J. D. is the oldest son of Mr. and Mrs. Andy Shipp of Blackwell Community.

Mr. and Mrs. Shipp will make their home on the Charley Robinson farm.

They came back through Jayton on way to the Faynay ranch where J. D. has been at work for some time. The Chronicle joins their many friends in wishing them a long and happy married life.

Uncle John York who suffered a stroke of paralysis some time back is slowly improving and is now able to ride to Jayton. Many friends are glad to see him in town again and all hope for his complete recovery in the very near future.

## Federal Bank Interest Rates Again Lowered

Further reduction in interest rates on new loans made on or after June 1st by the Federal Land Bank of Houston through National Farm Loan Associations was announced by A. C. Williams, President of the Federal Land Bank of Houston. This new interest cut completes a series of reductions which have lowered the interest cost of farm mortgage loans a full one per cent in the last three months.

April 1 the bank lowered the rate on new loans from 5 to 4 1-2 per cent; and April 10 reduced the rate from 4 1-2 to 4 1-4 per cent. The latest reduction of 1-4 of 1 per cent completes the one per cent cut in three months. Thus loans will be available at the lowest interest rates ever offered farmers by the land banks or by any large lending agency.

"This is not an emergency rate," Mr. Williams said. "On June 24, the bank will begin to make loans which will bear four per cent interest during their entire life, with the exception of an emergency rate of 3 1-2 per cent for interest payable in the one year period beginning July 1, 1935. This new, low four per cent rate is a direct reflection of the lower rate of interest borne by Federal farm loan bonds sold by the Federal Land Banks. It is in keeping with the policy of the Farm Credit Administration to adjust the interest rates on new loans as the rates on their new bonds issues vary."

"The interest rate on Land Bank Commissioner loans will not be affected by the cut and will remain at five per cent," Mr. Williams said.

## Relief Commission Does Not Bury The Deceased

The Texas Relief Commission definitely does not pay burial fees.

Mrs. Val M. Keating, director of social service, instructed county administrators caseworkers and rural supervisors that such expenses will not be paid by county relief offices for any type of relief case.

"This is one obligation," Mrs. Keating said, "which the political subdivision must assume. It is provided by law that it be considered their responsibility."

Every day in every way the new gym at the high school building is nearing completion. Mr. Lowrey and one or two others have been working all week and before long the gym will be complete.

## Meteor Falls In A Terry County Farmers Yard

A few weeks ago, a meteor, about the size of a guinea hen egg fell in the yard of B. J. Wallace, a Terry county farmer, who lives about 8 miles northeast of Brownfield. It was brought into the city, and is now being kept at the local relief office, where a number of people have seen it. Mr. Wallace lives just inside the Green and Lumsden ranch.

Rudolph Moorehead, who works at the local relief office, informed us that his father, Dr. Moorehead of Meadow, had examined the little stone under a glass and pronounced it quartz. It has a quartz or agate appearance with the natural eye, and appears to have small air bubbles on the surface. Under the glass, the tiny holes, supposedly where the gas escaped.

The little stone hit the ground in their yard with such force that it was buried several inches in the ground. The noise it made attracted the attention of the family, and the place was soon found. The ground several inches around the place was hot, and the little stone was still so hot when it was dug out that it could not be handled.

Terry Co. Herald

## Stonewall County Agent Awarded \$1,000 Fellowship

James W. Potts, Stonewall county agricultural agent and former 4-H club boy, has been awarded a \$1000 fellowship for nine months' study in the U. S. Department of Agriculture offered by the Payne Fund of New York City, according to O. B. Martin, Extension director.

Potts was raised on a farm in Lubbock county and was graduated from Lubbock High School in 1929. In 1933 he received a B. S. degree from Texas Technological College, majoring in agronomy.

Potts started 4-H club work in 1921 with a pig that won third prize at the county fair. With premium money won on a registered gilt in 1922 he bought a Jersey calf and started a dairy herd which practically paid his way through college. He also carried demonstrations in pure line grain sorghum seed production, beef cattle and cotton. Total profits for one three year period were \$2,489.55 or an average of \$829.85 per year.

## New County Agent For Kent County

Mr. D. F. Bredthauer has been transferred from Archer county to Kent county as county agent. Mr. Bredthauer has been assistant in cotton adjustment in Archer county since July 1 1934 and is very highly recommended by O. G. Tumlinson, District Agent, also by G. R. McNeal county agent of Archer county.

We welcome Mr. Bredthauer and family to our county and hope for them a pleasant and successful, helpful and profitable association with all the agricultural interests of the county.

## Road Parley Held In Lubbock

Lubbock, June 25.—Twenty five county and chamber of commerce officials from seven counties along the State Highway 84 and 120 conferred here today with Division Highway engineer G. M. Garrett relative to hastening construction of the east west route across Texas.

W. E. Smith, Tahoka, Lynn County Judge, was temporary chairman, turning the meeting over later to Judge Charles M. Conner, Haskell president of the Arkansas, Texas, New Mexico Highway Association.

In Texas the route will touch Texarkana, Greenville, Decatur, Jacksboro Throckmorton, Haskell, Aspermont, Jayton, Post Tahoka, Brownfield, Plains and intermediate points.

County Judge J. B. Earnest represented Kent county at the meeting.

## Will Make Industrial Survey of Texas

Governor James V. Allred announced this week completion of plans for a far-reaching industrial survey designed to provide jobs, attract outside capital into Texas and rehabilitate dormant ruined industries.

The governor revealed that Dudley P. South of Houston, an industrial engineer of exceptional training had already done several weeks of work in determining the feasibility and possibilities of the survey.

Mr. South, a graduate of Rice Institute and Columbia University, and a close associate of Dr. Walter B. Pitkin, will head the survey.

Governor Allred, pointed out that an industrial survey of Texas, with particular reference of getting men and women off public relief rolls is to gainful private occupation, had been recommended by the Democratic Party in its convention last September.

"Inauguration of the Texas Industrial Survey," the Governor said, "with Dudley P. South as director, offers almost unlimited possibilities for co-ordinating public and private initiative to the end that jobs for the jobless will be provided and the entire industrial welfare of the state be promoted.

"We have already received assurances of co-operation from leading civic organizations, including chambers of commerce throughout the state, the University of Texas and Southern Methodist University, also from many public-spirited citizens. An advisory council composed of prominent commercial and industrial leaders of Texas, will be announced shortly. Also, a co-ordination committee, composed of several men who have worked with Mr. South in the preliminary surveys and will assist him in furthering the work."

The governor released a statement from Mr. South briefly outlining objectives of the survey as follows:

"The functions of this survey is to make available for all business enterprises such data as will enable them to expand their work, undertake new development, hire more men, and judiciously invest more capital.

"There are many types of manufacture which require little investment and use considerable hand labor. We are beginning our survey with this type in the foreground.

"There are also many major industries outside of Texas which do not have important branches in the state and which could profitably establish such branches. We hope to furnish them with data that will convince them of the wisdom of coming here.

"The survey will be certainly impartial with respect to the different cities and sections of the state and will make its findings available to all. It invites the co-operation of all institutions which have been doing this sort of work on a local or regional scale; and we have already received assurance of help from many of these.

"National and world opportunities for Texas business enterprises will be studied. We hope to increase the scope of the survey and this increase will come steadily if we receive the co-operation we have been encouraged to expect."

Mr. South is a veteran of the world war, having served with the signal corps in the Meuse-Argonne, St. Mihiel and other offensives. He is married and has two children.

## Political Pot Starts Simmering

The political pot is warming up. Six months from now and we will have another election year with us. Governor Allred, Bill McGraw and several other state officials are letting it be known that they will be up for re-election. In the county we have been assured all the old officials will offer for re-election and rumor has it that most of them will have opposition. Politics is a great game and the successful office holder is always on the job looking for votes and influence.

## Notice Fire Boys

All young men belonging to the Jayton Fire Department are notified to meet at the office of the City Marshal Friday evening 7:00 o'clock. Important — You need to be on hand.—Ross English, Fire Chief.

**STATESMEN vs. HYPOCRITES**

Every national or economic crisis develops both statesmen and hypocrites.

It takes much less brains or courage to be a hypocrite than to be a statesman.

It takes nerve to tell the truth to people who have been misled or misinformed.

The State of Oregon is fortunate in having a governor, General Chas. H. Martin who sticks by his oath of office and says, "When I was inaugurated, I became governor of the whole people, and that is what I intend to be throughout my term."

In dealing with the lumber strike in Oregon and Washington, Governor Martin sets an example for all public officials in handling labor disputes.

He says, "Men have a right to picket and the right by moral suasion to try to get other men to stay away, but when thugs and scoundrels try to do what 500 men from Portland tried to do to a mill in Forest Grove, that's intimidation."

"Everyone has the same rights under the constitution, man or woman, rich or poor, white or colored."

"If a man wants to work and an employer wants to hire him, that man should be guaranteed the right to work. No one questions the right to bargain. If he wants to improve his working conditions he has a perfect right to quit."

That is sound Americanism and Governor Martin has made it clear that no labor group or industrial group is going to infringe upon the laws that were drawn up to protect all the people, union men or non union, small employer or large employer.

It is a good tonic to find a governor making such straightforward statements and backing them up with the police power of the state to protect his life, property and jobs of "all" the people. That is courage, not hypocrisy.

**WHY YOUNG PEOPLE SHOULD LEARN TO SAVE**

(By R. E.)

It is commonly understood that a boy wants to work to make spending money. He hates to stand around holding his hands waiting until he grows old. It is natural that there is an incentive to work; for if there was none, where would we be?

If a boy earns a dollar, he doesn't keep it long; for he either has it spent before he gets it, or he has already determined how he is going to spend it when it comes into his possession. Of course, there are numerous exceptions to the statement. It is nothing unusual for a person to want to spend the money he has earned by labor. If the young person is a boy, he will want to go places or take someone to the show; if a girl, she will want to move around with the other girls and show them a good time.

Spending has become such a habit that the ones who are thrifty stand out instead of the ones who are

**ROBINSONS**

Everything From The Cradle To The Grave.

spendthrifts. We seem to be living in an age in which every other word is "spend." Is this the right atmosphere for the younger generation to be reared in? Several years ago the tune was "Conservation," but now people almost break their necks in the race to see who can spend the most.

There is a saying that runs "Teach a child in the way he shall go while he is young, and he will not depart from it after he is old." There is truth in the saying. The young people of today should be taught to save at least a portion of their earnings. There can never be anything accomplished by anyone when they do not factors at present that turn the have anything. There are too many factors at present that turn the young minds to spending instead of to saving. A person will look around and see Pensions and Relief written in large black letters. When he sees all of these, he wonders why he should work hard and save for a rainy day. If will power is lacking the person will say that he can drift along until he can get on the relief; and then, when he gets old, surely there will be an old age pension. A very excellent program is this: from parents care to the relief; from relief's care to pension heir!

These thoughts play too large a part in the minds of the young people of to day. It is time now to turn around and start the wheels turning the other direction. We should put our shoulders to the work and start teaching the worthy and sensible idea of thriftiness. A young person once made this interesting statement: "I am going to learn to work, to save, and to grow old."

**H. D. CLUB NEWS**

The H. D. club met at a called meeting with Mrs. Lafoon Wednesday. Miss Jones told us how to select dresses for the dress show that is to be held in the High School Auditorium next Saturday.

If each woman only knew how Miss Jones could help them they would attend these meetings if they had to walk for miles.

We are proud to have as a new member Mrs. Humpres.

CLUB NEWS

CONTEST AT JAYTON JUNE 29

Wardrobe demonstrators and actors will put their "best forward," at the dress contest which will be held in Jayton, June 29, at the High School Auditorium.

Miss Clara Pratt, county home demonstration agent from Dickens county will judge at the contest. Demonstrators are asked to come at 10:00 a. m. Everybody is invited to attend the program and style show which will be at 1:00 p. m. WARDROBE ACHIEVEMENT PROGRAM

"Folks would do well to invest five dollars and labor for a clothes closet as nice as that one. There is no sense in our not having storage space for clothing similar to that closet," and many other such murmers were heard throughout a group of 33 men and women who attended the achievement program on June 25 in the home of Mrs. Edith, wardrobe demonstrator for the Center Point Home D. Club.

we dug holes in the garden the size of the cans. Now finished cutting thru the top side seam on the can that was left for the purpose of holding the can together, spread the can open and slide soil and plant into the hole. Transplanted in this way the plants never realize they have been transplanted for the roots are not injured," says Mrs. Barton.

Welcome Leaguers

LYLES STORE

Mrs. Hamilton told the group the story of the wardrobe work and demonstrated the making of the shoe racks, hat stands and a sleeve ironing board.

"I was shocked to learn that by taking advantages offered to wardrobe demonstrators in learning to buy and make my clothing that I have dressed myself for one year for the sum of \$29.50 where as I had imagined it would take at least \$50," she said to the group.

ONE WAY TO MANAGE FOR AN EARLY GARDEN

Noticing how unusually early the cucumbers and tomatoes were in the garden of Mr. Clay Barton of Lost Lake the county home demonstration agent immediately asked how they had managed such a garden and Mr. Barton explained it as follows:

"We took about three hundred cans and cut the bottoms out and ripped them open up the side to the top roll. Then filled with soil and planted the cucumbers and tomatoes in these cans. The cans were placed on boards so they could be easily carried about for it was necessary to place them inside during some of the cold spells this spring. When the plants were of size to transplant

COUNTY COUNCIL

The H. D. Club members will have their annual encampment at Roaring Springs the third Thursday in July. They will spend the night at the springs and return the following Friday afternoon.

Rosendahl Defends Use of Dirigibles; Drive Launched for Construction

America's Foremost Air-ship Expert Cites Record of Graf Zeppelin in Commercial Service in Defense of Lighter-Than-Air Craft

"SINCE the War, submarine accidents have caused two and a half times as great a loss of life as air-ships; marine disasters forty times, railroads 300 times, automobiles, 1,000 times; yet we hear no talk of discontinuing construction of submarines, steamships, railroads, or automobiles," cried Lt. Comdr. Charles E. Rosendahl, U.S.N., before the Society of Automotive Engineers, meeting in New York. Slender, youthful, assured, a striking figure in naval uniform, the man who is considered one of America's foremost experts on the construction and navigation of air-ships made a brilliant defense of dirigibles both for peace and war, reports The Literary Digest. His

International The Graf Zeppelin soars over New York City on her first crossing of the North Atlantic in 1928.

address is expected to launch a new campaign in this country for continued construction of large rigid air-ships for naval defense and commercial development. It was the first public offering of "lighter-than-air" advocates since the loss of the Macon at sea off the California Coast, on February 14, roused a storm of opposition to further air-ship construction. No Real Opposition In the audience were engineers and scientists of international reputation, several of whom, it was reported, had come for the purpose of "blowing up" the air-ship idea. If this was the case, they must have become converted before the hour of questioning arrived, for no very real opposition appeared.

- 1. Large load-capacity. 2. Long cruising-range. 3. Ability to go slowly, or even stop in midair, without falling. As commercial carriers of passengers, dirigibles since the War have hung up a record untouched by any other type of transport. More than half a million paying passengers have been carried, without the loss or injury of a single passenger. The Graf Zeppelin, for example, since September, 1928, and up to December, 1929, had made 423 individual trips, flying a distance of 630,000 miles. She had carried 10,500 passengers, at a speed averaging sixty miles an hour; over the extent of 57,500 pounds; freight, 96,000 pounds. Her total time in the air was 10,005 hours.

YOU ALWAYS GET BETTER QUALITY NO HIGHER PRICE WHEN YOU BUY A FIRESTONE TIRE WITH FIRESTONE NAME AND GUARANTEE

ES may look alike on the outside, on the inside where blowouts occur, they are different. Firestone tires are made blow-out-proof by Gum-Dipping, a patented extra process which every cotton cord and insulates tread with pure liquid rubber. In every 100 pounds of cotton cords eight additional pounds of liquid rubber are added. This special process prevents friction and heat, the main cause of blowouts. No other make of tire is tipped, yet you pay no more for blow-out-proof protection than you would for tires built without safety construction feature. The make of tires you buy for your car is a matter of vital importance. Realize that there were 882,000 auto accidents in 1934 injuring 9 people and killing 36,000 and 5,000 of these accidents were by blowouts, punctures and skidding. Firestone High Speed Gum-Dipped tires set all world records on road and for safety, speed, mileage and wear. These records emphasize the fact that Firestone Tires are not only blow-out-proof but give protection against skidding.

Advertisement for Firestone tires featuring 'High Speed Type Gum-Dipped' and 'Century Progress Type Gum-Dipped' with price lists and performance benefits.

ARE THERE THREE QUESTIONS AND ANSWERS THAT WILL SOLVE YOUR PROBLEM OF WHAT TIRES TO BUY

Will the tread give me the greatest traction and protection against skidding? Firestone tread Non-Skid Tires stop a car 15% quicker than any of the leading makes. Eight consecutive years Firestone Tires have been on winning cars in the dangerous Pike's Peak Race where a team death. This is undisputed evidence that Firestone tires own greatest protection against skidding. Are they blow-out-proof? Firestone Gum-Dipped Tires have the most amazing record for being blow-out-proof of any tires ever built. In the 500-Mile Race at Indianapolis, May 30th, every one of 33 cars was equipped with Firestone Gum-Dipped Tires. Pettilo won the race and broke the record over this old rough brick track without tire trouble—in fact, of the 33 drivers had tire trouble of any kind. Jenkins drove his 5,000 pound car on Firestone Gum-Dipped Tires over the hot salt beds of Utah, 3,000 miles in 48 hours, at an average speed of 127.2 miles per hour, with a maximum speed of 120, without tire trouble of any kind. These are most amazing proofs of blowout protection ever without sacrificing these two important safety features. Will they give me longer mileage, thus making them the economical tires I can buy? Firestone High Speed Tires not only give you more than average wear, but also lowest cost per mile. This is made possible by the tough, wear-resisting tread built with higher rubber and a wider, flatter contour. This thick, rugged, specially designed tread is held securely to the Gum-Dipped body by Firestone's patented construction of two extra cords under the tread. This is a special construction not used in any other tire. Unequaled mileage records made by car owners add undisputed evidence of the wear and greater economy of Firestone High Speed

### Mrs. McPherson Hostess At Farewell Party

The W. M. U. and the G. E. L. class of the Baptist church met in the home of Mrs. McPherson, Thursday, June 20, honoring Mrs. Chas. Fox who is moving soon to Snyder. Mrs. Fox received a number of pretty handkerchiefs. There was a social and business of the T. E. L. followed by refreshments of ice cream and cake.

The T. E. L. is showing improvement and would like to see all members present next Sunday.

Reporter.

### EPWORTH LEAGUE PROGRAM

Sunday, June 30, 1935

Subject: Society and the Alcohol What Society Must Do—Eunaway Hollabaugh.

Does Alcohol Affect Society?—Bess Porter.

Another Side of the Picture—Jo Robinson.

What Is the Christian's Responsibility?—Herbert Wade.

### INTERMEDIATE B. Y. P. U. PROGRAM

June 30, 7:45

I. A great occasion — Douglas Davis.

II. A Christian home — Frances Earnest.

III. Surrender to Christ — Dot Jones.

IV. A great decision — Dell Lansdown.

V. The days that follow — Anna Belle Hargus.

VI. His first sermon — Bake Robinson Jr.

VII. Beginning His life Work — Alice Davis.

There were 32 young people present at the Epworth league meeting last Sunday night. Several interesting talks were made on the subject of alcohol and its influence and effects on the mind and body.

An interesting thought brought in the lesson was that first man takes a drink and then the drink takes the man.

The league urges all the young

people of the town who are not at the present associated with the league work to come out Sunday and enjoy the lesson and the fellowship of the leaguers.

During April, farm income totaled \$507,000,000, a gain of 31 per cent over April, 1934. For the first four months of the year farm income is 12 per cent in excess of the same period last year.

Quite a number of Jayton Baptists are attending the encampment at Lueders this week.

### \$85,000,000 For Texas Highways

Wichita Falls, June 25—Eighty-five million dollars for highway construction in Texas during 1935 and 36 is seen by Harry Hines of Wichita Falls, chairman of the State Highway commission, who had returned today from Washington after heading a delegation interested in obtaining as large an allotment of federal funds as possible for roads in Texas.

### LUCKY ROOSEVELT

Yes, lucky Roosevelt. Had the President been permitted to determine the major G. O. P. issue for 1936 so he could easily knock it down—he couldn't have done better than the Grass Roots Conference.

"Save the Constitution!" the Grass Rooters yelled.

And the nation will ask: FROM WHAT?

Not from amendment surely? All the amendments to the Constitution since the Civil War, save three have been made at the instance of Republican Administrations—and wisely so.

"Back to States' rights" yell the Grass Rooters.

And the nation will reflect:

That in the very shadow of the tomb and home of Lincoln, the man who did more to destroy States' rights than any other President—and magnificently so—his own party repudiates his principles—

And adopts a political philosophy which handicapped the Democratic party for 56 years.

Yes Lucky Roosevelt. Lucky because his opponents pile stupidity on stupidity by seizing the most futile issue on the political horizon.

Not a hint at the Grass Roots party as to how our 11 million jobless are to be put back to work. Not a suggestion as to how agriculture is to be rescued.

While men want jobs, the Republicans cry "Save the Constitution." While the President labors to bolster up the standards of living we now have, they yell "States rights."

Let them remember the words of Borah:

"You can't eat the Constitution." Neither can any one eat States'

rights. But if the G. O. P. continues to campaign on the opposite theory—DOUBLY LUCKY ROOSEVELT!

Question: "What is the person called who eats his mother and father?"

What is the answer.

A group were flying from Dallas to San Francisco when something happened to the plane and it started falling. Aunt Cora Jane asked very excitedly, "How much futher will we fall?"

George Rice, "The ground is the limit my lady, the ground is the limit."

### Introducing Today's Show-Off

Back in the days when there was less haste, A checkered suit, a diamond of paste, A gay cravat and a limber cane, Such were the marks of a male who was vain.

But now he "struts" in a car with flash He's always out for a crazy dash. His brakes may be worn and out of line But both of his horns are always fine.

He drives like a demon, even though He hasn't a single place to go. He cuts around when chances are slim— Danger to others means naught to him.

He thinks that a "Stop" sign just means "Slow," And jumps the lights before they say, "Go," He shows no quarter to those who walk And thinks that their rights are so much talk.

Many automobile accidents are simply the outcome of showing-off

by motorists, although few if any drivers, after an accident has occurred, would admit their vanity. The statistics of last year, as gathered by the Travelers Insurance Company, reveal that the major portion of all the accidents due to driving errors resulted from hasty, needless and careless action. What a good many drivers fail to appreciate is that a minute gained at the cost of an accident is no bargain.

### AN INVITATION

You are invited to call at our store during Courtesy Week July 1st, to 3rd inclusive and receive without charge a delightful Dorothy Perkins Facial given by an expert Beauty Specialist in our private booth. Expert advice on your Personal beauty problems. Phone for an appointment. —Bryant, Link Company.

## The Beauty Editor The VOGUE says

If you encounter Dorothy Perkins as a name new to you at your counter, look for two rather special items in this series. One is a preparation known as New Plex, which facial treatment not quite like other we have encountered. It is of solidified white cream. You mix it and spread a thin mask over face and leave it there for fifteen minutes. When you wash it off with cool water, your face looks not only fresh and rejuvenated, but light.

It is not the action of a bleach, an effect like a very fine, flatter powder foundation. A second worthy item is the Rose Lotion, a rather violent rose in colour, don't be misled by that, for it is extremely pleasant lotion, to be used as a quick morning cleanser, ideal as a powder foundation or a night preparation for the oily skin that finds a cream too heavy. The Rose Lotion is excellent for hands and elbows. There is a nice variety of the liquefying type of cream in the Dorothy Perkins series, as well as supplementary creams and a face powder, and all the prices moderate.
