

THE JAYTON CHRONICLE

VOLUME XVI

JAYTON, KENT COUNTY, TEXAS FRIDAY, OCTOBER 20, 1936

NUMBER 44

Why Texas Farmers Should Vote For Roosevelt

Cash income from farm production in 1935 in Texas was \$461,030,000, an increase of 57 per cent over the 1932 figure of \$294,358,000. Cash receipts for sales of principal Texas farm products constitute about 94 per cent of that. During the first seven months of 1936 these cash receipts were 19 per cent greater than during the same period in 1935, thus indicating a continued rise in Texas farm income for 1936, according to figures just released from Washington.

The extent to which the economic situation of Texas farmers has improved since 1932 is indicated in part by comparing the 1932 and 1935 production volume of certain commodities, together with the cash income from those commodities.

Texas farmers produced approximately 4,500,000 bales of cotton and 2,006,000 tons of seed in 1932 for which they received a cash return of \$152,463,000. For their 1935 cotton crop, smaller than that of 1932 by about 1,544,000 bales and 690,000 tons of seed, they realized a cash income of \$238,492,000, including about \$9,617,000 in price adjustment payments and \$47,411,000 in rental and benefit payments. The 1935 income was, therefore, larger than the 1932 income by \$86,029,000 or 56 per cent.

Beef producers in this State likewise saw a substantial rise in their cash income from 1932 to 1935, in spite of a marked decrease in production. In 1932, their net production of cattle and calves amounted to about 1,235,930,000 pounds, their income therefrom totaling \$34,363,000. Their net production in 1935 approximated 901,625,000 pounds, or about 334,305,000 less than their 1932 production; yet their 1935 cash returns totaled \$51,627,000, or \$17,264,000 more than their 1932 returns. Government cattle purchases from Texas ranchmen account for \$2,785,000 in this 1935 income.

Dairymen in Texas profited by marked income increases, along with stockmen and cotton farmers among others. Net milk production in this state was only 1 per cent greater in 1935 than in 1932 but cash income was 52 per cent, or \$13,620,000 greater.

The position of Texas corn-hog farmers in 1935, as measured by the increased cash returns from production, is much improved over what it was three years earlier. Their 1932 cash income was \$8,939,000 for a corn crop of about 102,726,000 bushels and a net hog production of approximately 434,290,000 pounds. Their 1935 income was \$20,749,000 including \$2,731,000 in benefit payments, for a corn crop of about 89,368,000 bushels and a net hog production of 324,260,000 pounds. The 1935 income of corn-hog producers in Texas was \$11,810,000 or 32 per cent more than in 1932.

The 1932 wheat crop in this State amounted to approximately 28,293,000 bushels, for which producers received a cash return of \$6,928,000. The 1935 crop of 11,473,000 bushels about 60 per cent smaller than the 1932 crop, brought them \$6,265,000 at the market and \$12,503,000 with rental and benefit payments included. All told, wheat producers in 1935 received 80 per cent more cash than they did in 1932 when the crop was more than double the 1935 crop.

Cash income from many other important farm products of Texas also showed encouraging upturns from 1932 to 1935. Income of rice producers more than doubled, rising from \$3,847,000 to \$7,905,000, including \$1,903,000 in benefits on 1935 production. Income from oats rose 137 per cent, or from \$1,763,000 to \$4,179,000. Income from chickens and eggs jumped \$5,320,000 or from \$12,255,000 to \$17,575,000; and that from wool more than doubled, increasing from \$5,311,000 to \$13,028,000.

Mrs. Magd Dean is here with her daughter, Mrs. Howard Johnston, after spending the summer in Motley county.

The first of the month coming on Sunday we hope our creditors will be kind enough to forgive our debts for one day at least, if fact we expect they will have to.

Tax-deliberating Bill Passed By Big Vote

Austin, Oct. 27.—After having snarled the omnibus tax-deliberating bill into such a tangle that members all morning believed both plans had been shoved overboard, the House waved a magic wand of parliamentary procedure and late this afternoon the free conference committee report was adopted by the overwhelming vote of 104 to 42.

This puts the measure into immediate effect, for the Senate previously had adopted the report by more than a two-thirds vote.

All during the day and last night Governor Allred and friends worked on the floor of the House in behalf of the free conference report. He was on the Speaker's stand when it was adopted. This, coupled with a promise for another special session, carried weight with many members who had been opposing the plan. During the afternoon many members spoke in favor of the adoption, although they had been denouncing it.

The omnibus bill raises the taxes on various commodities and businesses, including natural resources, horse races, utilities, a few amusements and real-estate tax funds.

The bill transfers authority of administration from the existing board of three members to the Board of Control. This phase received little discussion and three members were not placed upon the stand during the House investigation. They were not heard.

The three members are eliminated immediately, since the bill goes into immediate effect.

Fiend Slays Stars In New Mystery Film

"The Preview Murder Mystery," latest contribution to the school of "thriller" films, will be the next attraction at the Palace Theatre. It opens Saturday night at a preview showing at 11 o'clock, with a large cast of favorites headed by Reginald Denny, Francis Drake, Gail Patrick, Rod LaRoque, George Barbier, Ian Keith, Conway Tearle and Jack Muhlhall.

This thriller is to be the main attraction at the "Whoopie" party at the Palace Saturday night when each one gets a hat and a noise maker free. Plan now to come and have a big time.

All the action of "The Preview Murder Mystery" is set in a motion picture studio, and audiences are actually taken behind the scenes and shown the making of a motion picture from start to finish. Against this background is enacted an exciting, though chilling, mystery story.

Beginning at the preview of a new picture, when the star is found murdered, the action of "The Preview Murder Mystery" shifts immediately to the studio stages, where production goes forward as police and the studio publicity chief begin investigating the murder. When an attempt is made on the life of a leading feminine star hysteria sweeps the stages, even though the girl is uninjured.

A short time later a studio policeman is found knifed to death. Authorities, convinced that the fiend is on the "lot", padlock the entire establishment and begin fine-combing it from end to end. Just as they are becoming convinced that a prominent director is behind the wave of terror, they find that individual's body. He's the latest victim, rather than the perpetrator.

What ensues as the investigation narrows down brings the story to a breathless climax, guaranteed to raise gooseflesh on the most hardened of mystery addicts.

POST OFFICE TO CLOSE ELECTION DAY

The local post office will be closed Tuesday, November 3, General Election Day. Make plans now to have your postal affairs taken care of before that date, as there will be no window service. Mail will be put up and outgoing mail taken care of as usual.

Mr. O. L. Barfoot and daughter of Hermleigh, visited Mr. and Mrs. J. W. Barfoot last week.

Ellis Scogin of Peacock was seeing friends and attending to business in Jayton, Wednesday.

New 1937 Chevrolet On Display Nov. 7th

The finest Chevrolets in the company's quarter-century of automobile manufacture will make their bow here and throughout the country on November 7, L. H. Mason of the Mason Chevrolet Co., Chevrolet dealer, announced this week, upon his return from Dallas, where 1,000 dealers and salesmen from this section obtained official news of the new product from H. C. Howard, manager of the Dallas zone, and members of his staff.

Mr. Howard just returned from Detroit, where 1,000 members of Chevrolet's wholesale organization from coast to coast spent four days inspecting and driving the new car and reviewing with factory executives the program to be followed in presenting it. The new models adhere closely to time-tried Chevrolet engineering principles, he reported, but combine greater power, economy, safety, and durability with striking new beauty and grace.

M. E. Coyle, president and general manager of Chevrolet, announced during the convention that the company had shattered all previous records during 1936, selling more cars and more trucks than in any previous year in its history, and leading the world in sales for the seventh time in the last 10 years. The total for the year will exceed 1,125,000 units, he said, and the objective for 1937 is 1,200,000.

Starving In The Midst Of Plenty

Though progressive in many directions, Texas has been backward in "protecting its citizens' health. The Texas Planning Board emphasizes that fact in reporting on its recent State-wide survey. The planners found that 17,000 persons died prematurely and needlessly during 1934 the latest year for which statistics have been compiled. That number included 10,000 victims of preventable infectious diseases, and 7,000 succumbed to pellagra - a disease of nutrition. Organized public health service reaching all Texas' 6 million people could have saved these lives. Epidemic-control - involving quarantine measures, public sanitation and education - would greatly reduce, if not eliminate, the death-toll of tuberculosis, typhoid fever, malaria, diphtheria, and other germ diseases.

As for pellagra, that malady never attacks a person who lives on a balanced diet. In one sense the pellagra victim has starved to death; frequently he has starved in the midst of plenty. An ironic aspect of the record is that the heaviest death-toll is not in the cities' blighted areas, but on farms which easily might produce a balanced diet. Thus, the kitchen garden and the home cannery offer the most hopeful line of attack on that plague. Texas' first need is to support its State Health Department adequately, that it may set up full time service - a county health unit or equivalent - in every community. A modest annual investment in such service would save the people millions.

THREE PARTIES ARRESTED AND CONFESS TO THEFT

Three parties have been apprehended and have confessed to the stealing of two bales of cotton out of four fields in Kent County. One bale was jointly taken from Joe Hagin and Sam Johnston, southwest of Jayton. The other bale was taken from Gordon Hamilton and Mr. Durham. One bale was ginned and sold at Spur and the other was ginned and sold at Snyder. The cotton was recovered. The parties when arrested had some \$60 on their person. The officers are to be congratulated on apprehending these parties so quickly.

A funeral was held Thursday afternoon for LeRoy Grice who died in New Mexico and was brought to Jayton for burial.

Rev. W. T. North visited here from New Mexico the first of the week and Bro. and Mrs. Sidney Cox returned home with him.

The Chronicle and the Semi-weekly Farm News one year for \$1.50. Grab this bargain while the grabbing is good.

Employment Decreased

San Antonio, Oct. 29.—There are 26,000 fewer persons certified as in need of jobs on the Federal Works Program in Texas than there were six months ago, it has been announced by H. P. Drought, state works progress administrator.

Current figures place the number of needy persons eligible for employment on the Works Program at 144,358. At the end of April there were 170,386 persons certified for such employment.

"These figures are particularly encouraging to us," declared Administrator Drought, "for the task of the Works Progress Administration is to work itself out of a job. During the entire operation of this program we have attempted to reduce our payrolls by placing workers in private employment."

Of the 144,358 currently-eligible persons, 16,580 have been absorbed by private employment, 72,146 are employed by WPA, and 17,876 persons are working on projects operated by other federal agencies. The remaining 37,756 are either engaged in seasonal employment, other temporary work, or are awaiting assignments to projects.

"We feel that a considerable number of the 37,756 are at work on temporary jobs," Drought said, "as National Reemployment Service officials inform us that practically every WPA district now has standing requisitions for workmen."

2100 Bales For Jayton

Tuesday night of this week the Jayton Cotton Yard had weighed in 2100 bales of this year's cotton which is considered by some to be one half of the crop, some think it will be better than half while others claim we will gin 2500 more bales.

If we can get as many as 4000 bales this will mean 1-4 million dollars or more for this part of the county, which with what will be ginned at Girard and Clairmont, say 2000 bales, Kent county will have no reason to fear starvation for at least another twelve months. We find many farmers are making enough feed to run them through 37 and many of them are putting their feed in trench silos, something they have never done in this county before.

We are also happy to report there are quite a number of farmers preparing to terrace their lands this winter and be prepared to hold and conserve all the moisture that comes their way, hereafter, which will insure for them more bountiful crops as well as be the means of conserving their soil.

We are proud of our Kent county farmers. They are working with the county agent and the state federal planning boards as they have never worked before and we believe a better and brighter day is dawning for everyone in Kent county.

STREETS WORKED

Under the immediate supervision of Earl Harrison the tractor and grader belonging to this commissioner's precinct was brought to Jayton, Thursday afternoon and some greatly needed grading work was done. The street to the high school received first attention, the street west of the Tri-County Lumber yard was given a treatment and the street on the West side of the public square received some much needed attention, today the grader and crew is finishing up the work. The over plus of wet weather and the heavy fall traffic had just about put all these streets to where they were a jonnab to the public. This grader and tractor will do more and better road work in one day than ten teams and slips and forty men can do in a week.

Miss Jo Dell Cade who is attending Texas Tech college at Lubbock was in Jayton over the weekend visiting with her parents and friends.

Mrs. Van North and son, William Milton visited Bro and Mrs. Sidney Cox in Peacock, Tuesday.

Mrs. B. J. Kellett and Mrs. R. E. Baker of Girard were shopping in Jayton, Thursday.

Mrs. Monroe Davis and Lucille Fuller were shopping in Spur, Thursday.

Garner Insists All Democrats Should Vote

To The Democrats Of Texas:— While it is not my habit to make predictions, I am confident of the outcome of the election. I think we shall win and that our majority will satisfy the most enthusiastic Democrats.

What concerns me most is what Texas will do. We must maintain our fine Democratic record. To do that, we must raise our quota of \$250,000 and see to it that every loyal Democrat goes to the polls and votes.

I am deeply and personally grateful to members of our campaign organization in every Congressional District and County for the fine and effective service they have already rendered. They have made a most credible showing, but I want to appeal to them as strongly as I can to continue their activities from now on until the election. If they will, I am sure the entire amount of our quota will be raised. I cannot help but feel that every loyal Democrat will be glad to contribute if given an opportunity by contacting them personally.

I want to appeal, also, to all of my fellow Texas Democrats to vote on election day. This is important not only that our State's Democratic record shall be maintained, but absolutely necessary to insure continued prestige of our State in the councils of the Party. Our representation in National conventions hereafter will be measured by our Democratic vote. Every Democrat, therefore, should consider it a solemn duty to go to the polls.

I am conscious, and shall always be, of my lasting obligation to my fellow Democrats of Texas for the confidence they have imposed in me and the high honors I have received at their hands. That great obligation will be immeasurably increased if they will do their part, each to the extent of his or her ability, in fully meeting our objectives in this the most important campaign in our Nation's history.

John N. Garner

Mahon Campaigns In Eastern States

Colorado, Texas, Oct. 29.—Speaking engagements assigned to Congressman George Mahon by the Democratic National Committee last week included Democratic meetings in New Haven, Connecticut; New Brunswick, New Jersey; Pittsburg, Pennsylvania, and a ward rally in New York City. He also spent two days in Democratic Campaign Committee headquarters where he conferred with Congressman Sam Rayburn, Chairman of the Speakers Bureau, Senator Pat Harrison, and other Party Leaders.

Mahon had gone to New York at the request of the National Committee after filling a week of speaking engagements in New Mexico. En route to the East, he stopped over in Chicago for a conference with Congressman Marvin Jones, Chairman of the House Committee on Agriculture, who has managed President Roosevelt's campaign in the farm states of the Middle West.

Lloyd Croslin, his secretary, who has kept the office open in Colorado during his absence, states that he expects the Congressman to return about November 3rd, the date of the election.

NOTICE VOTERS

When you come in to vote next Tuesday, the election will be held at the Thos. Fowler office back of the bank. This is the best and handiest place in Jayton and we open to see Jayton to cast a record vote.

TAANKS TO ALL

I take this means of thanking all who attended my farm sale this week. I am glad to say the sale was a successful one and all staff advertised was disposed of satisfactorily that we had time to ell.

L. R. Myers

Mrs. Knight of Little Rock, Arkansas is here visiting her daughter Mrs. Eldon Wade.

Barnes Purdue theatre owner of Aspermont, was attending to business in Jayton, Thursday.

World's Championship Rodeo At Centennial

Dallas, Texas, Oct. 29.—A wild horse race has been added to the events in the fall edition of Col. W. T. Johnson's World Championship Rodeo at the Texas Centennial Exposition. The rodeo will start Nov. 17 and continue through Nov. 29.

Frank N. Watson, the Exposition director of promotion, announced that Col. Johnson had informed him that 50 head of wild mustangs, never before ridden or handled by man, already had been obtained for this new event. Everett Colburn, the arena director, was sent to Eastern Oregon, Montana and Idaho where he selected and purchased the mustangs from among 2,000 head of wild range horses. They will be shipped here in time for the opening of the rodeo.

Col. Johnson's rodeo concluded its eleventh annual engagement in New York's Madison Square Garden Sunday, October 25. For the last six years, including this year, it has broken every comparable box office record at the Garden.

"The judges and officials have drawn up a set of rules for the wild horse race which promises to make it one of the most spectacular of the contests," Col. Johnson wrote Mr. Watson. "We tried out such a race in the rodeo for the first time this year in the Garden, and have revamped the rules in the light of our experience in New York. An entirely new herd of horses will be used in our Centennial rodeo race."

When the arena has been cleared he wrote, nine mustangs will be driven into the chutes, each fitted with a rope halter. Each team will consist of three cowboys, two to hold the horse and one to saddle and ride him, if he is lucky. The contestants must saddle their mustangs within a space marked off at one end of the arena by the judges.

The first 'puncher to mount his saddled mustang and ride him across the finish line at the other end of the arena wins first prize money.

"There's nothing like it for thrills and spills," the colonel said.

In addition to first, second and third prize money, there will be a special prize of \$25 at each performance for the rider whose mustang does the fanciest and meanest bucking.

Other events in the rodeo will be saddle and bareback bronc-riding, steer wrestling, cowgirls' bronc-riding, calf roping, and a number of special demonstrations of Western sports. Prizes will be awarded the last night, which also will be the last night of the \$25,000,000 Texas World's Fair.

15 Per Cent Increase In H-S University

Abilene, Tex. Oct. 29.—Geraldine Callicotte and Millard Townsend of Jayton are two of the many freshmen at Hardin-Simmons university who with transfers accounted for a 15 per cent increase in enrollment at the outset of the fall term, records in the registrar's office show.

Miss Callicotte and Mr. Townsend are comfortably settled in private homes near the campus.

Good wholesome family-style meals are served to several hundred who live on or near the campus.

Living quarters near the beautiful campus are selected from the list of homes approved by university deans.

Enrollment this year brings students together from nearly two hundred Texas towns and eleven states.

According to the academic calendar the Jayton students will have vacation periods from Nov. 26 to Nov. 30, from Dec. 19 to Jan. 1, and from March 26 to March 29.

BAPTIST CHURCH PROGRAM

Sunday School: 10 A. M. Sermon: "Good News"; 11 A. M. Evening Service

B. T. U.: 6:30 P. M. Sermon: "Four Winged Beasts" at 7:30 P. M.

Everyone is most cordially invited to attend these services.

Fred McPherson, Pastor

Teachers of the Kent County Schools met at Girard last night for the purpose of organizing the inter-scholastic league for the county.

The Jayton Chronicle

L. F. Wade, Owner and Publisher

Entered as second class matter February 10, 1921, at the post office at Jayton, Texas, under the Act of March 3 1879.

SUBSCRIPTION PRICE PER YEAR \$1.50

Strange political bedfellows today: Al Smith and Herbert Hoover, Father Coughlin and Rev. Gerald Smith, Alfalfa Bill Murray and J. Pierpont Morgan (Editor's Note: John W. Davis and Bernard Macfadden are omitted until it is determined whether Mr. Davis is willing to sleep on the floor). —Star-Telegram

West Texas needs water and lots of it. The idea of having just enough water to "make out on" served the old timer's purpose in an uncertain way, yet in a manner he got by, but in these days of increasing land values and improved range animals, it behooves every one of them to begin considering the conservation of more water—water that will last through the driest seasons.—Sterling City News-Record

Small towns are not dead towns unless the people in them are satisfied to slow them to die. A good way to submerge the town into a graveyard is for the business interests to be armed with knives up their sleeves for the next door neighbor; balk at every move for advancement made by a competitor; refuse to take part in matters beneficial to the community's progress; and an hundred and one other things we might mention. Boiled down to a nutshell—the failure of cooperation.—Stanton Reporter.

DON'T MENTION POLITICS

Business houses, large and small, can chew some lessons out of figures just released by Sears Roebuck and Company. The company reported sales exceeding \$50,000,000 for the four weeks period ending October 8, the first time in the company's history that four-week sales reached \$50,000,000. Jayton did her part.

Tuesday, Nov. 3rd Election Day

This is the last issue of the Chronicle before general election day on Tuesday, November 3rd. For this reason we are calling upon the people of Kent county to keep the date in mind and above all things go to the voting places over the county and cast your vote.

We urge you to do this whether you are for or against the present administration. If you favor the administration you should show it by voting to sustain it in power, if against it you should vote thereby registering your disapproval. It's much better to show your color by voting than to sit around on the streets and register your approval or disapproval by making big noise with your mouth. In a Democracy "The People Rule"

to settle our disputes with ballots than it is to settle them with machine guns armored tanks, and deadly gas, as they are now doing in Spain. And if we don't settle them with our ballots, in time we will have to decide them in a more deadly way.

An American should never hesitate to vote after posting him or herself, well enough to vote intelligently. That's what makes America the "land of the free and the home of the brave." So again, let us urge and admonish each who has a vote to make use of it. Let the world know where and how you stand, and when the votes are counted the majority wins and the majority is satisfied, the minority must be.

In the study of the underground water resources of the State, the Texas Planning board computed the average combined daily flow of the eight major Texas springs at 556,500,000 gallons.

There are 550 species of grass in Texas or one half of the 1100 species found in the entire United States yet Texas produced only 775,000 tons of tame hay last year, the Texas Planning Board discovered during a recent survey.

A comprehensive study of the causes of accidents on Texas highways has been started by the Texas Planning Board which has included safety in its planning program. Results of the study will determine what recommendations will be made to reduce Texas highway accidents.

Although Texas is the nation's largest beef cattle producing state with approximately 7,222,369 beef animals on the ranges in the state, Texas ships cattle to the corn belt for fattening and slaughtering and imports much of the beef consumed in the state, data compiled by the Texas Planning Board discloses.

A deposit of sepiolite, a mineral from which meerschau pipes are fashioned, has been found near Uvalde and tests now are being made to determine whether the Texas mineral is of the same quality as that found in Turkey, the only other place where sepiolite is found in commercial quantities, according to the Texas Planning Board's mineral resources committee.

Although more than 500 soil types have been found in Texas, making possible widely diversified crops, the State sticks to cotton as its chief crop in the face of loss of foreign markets and a steadily decreasing yield per acre and a loss in quality, according to experts advising the Texas Planning Board in its study of land uses in the State.

A mass of data is being compiled by the experts who are making a nation wide survey of the wool scouring industry for the Texas Planning Board. Scores of plants have been visited, woolen manufacturers interviewed and wool brokers contacted. Upon completion of the survey the data will be put in shape for persons interested in wool scouring

ing plant; in Texas.

1927 Bridge Club

Mrs. Bill Vencil, Mrs. Bake Robinson and Mrs. Wade Thornton were co-hostesses on Thursday evening of last week, when they entertained for members, ex-members, their husbands and other guests with a beautifully planned bridge party, at the home of the latter.

The Halloween motif was very effectively portrayed in house decorations, appointments, table settings, prizes and refreshments.

The entertaining rooms were decorated with lovely fall flowers, cedar, black cats, owls, and witches riding their brooms. Cedar was banked around the fireplace and the lights were covered with jack-o-lantern shades.

As each guest arrived, they were greeted at the door with every contraption that Halloween affords for noises and presented a hat to wear during the games.

The tables were set with orange cloths printed with black cats and owls, and centered with bouquets of orange cosmos.

Each guest was asked to make a guess at who the ghost was that seated them at their places at the tables for the refreshment course, which was served before the games.

Sandwiches in the shape of pumpkins speared with cream cheese and bearing faces made out of nuts with sprigs of mint for the stems, congealed orange salad, pickles, individual pumpkin pies topped with whipped cream and chopped nuts and hot chocolate topped with cream was served. Miniature cats, owls, witches and spooks were plate favors.

A prize for the person catching a trick with a duce traveled fast and was last held by Mrs. Bill Daniels, opening her package she revealed a black cat. Mr. G. H. Brown made high cut and received a jack-in-the-box prize. Mrs. Glenn Huls scored high in the games for the evening and received the witches broom. Mr. Charles Robinson Jr. was awarded a high top hat as high score for the men.

Members present were Mesdames: North, Daniels, C. Robinson, Brown, Huls, and the hostesses. Guests were the members husbands, Sue Kelley, and Messers and Mesdames Thos. Johnston and Mack Woodrum.

Jayton Culture Club

Wednesday, October 21, the Jayton Culture Club met in the home of Mrs. Thos. Jones with eleven members present. A very interesting book review of the Lyric South was given by Mrs. George Rice. The next meeting, November 4, will be at the home

County H. D. Clubs

Built-in Cabinet Added With Little Expense.

Mrs. O. W. Coats, kitchen demonstrator for the Jayton Club, has completed rearranging her 14 by 10 kitchen and the loose cabinet has been replaced by a more convenient built-in cabinet that is almost four yards long. A sink with drain board was placed under the window in the center of the cabinet that reaches across the north wall. There are six drawers, four inches deep and ten inches wide, in the base cabinet, and there are two bins ten inches deep and eleven inches wide, of tin, for meal and flour. The cabinet on the east wall is fitted entirely with shelves. The work surface of the cabinet is covered with linoleum finished with clear varnish.

In order to use the wall space to best advantage, the two full length windows were made half windows, and the stove placed under one, and the sink under the other. A cleaning closet to hold broom, mop and cleaning supplies, was made from an old closet that enclosed a flue. The stove cabinet, and refrigerator were placed rather close together in one end of the room making a convenient work center. The breakfast table and chairs occupy the other end of the room.

Shelves and paint were the only new material and the only expense, since Mr. Coats built the cabinet.

EXHIBIT POSTPONED TO NOVEMBER 7

Because of the rain last week, the county exhibit was postponed to November 7. The same schedule as was planned will be followed November 7.

The Jayton H. D. Club met with their kitchen improvement demonstrator, Mrs. O. W. Coats, October 23.

Mrs. Coats has just recently had a built-in cabinet installed which furnishes space for everything necessary to be used in the kitchen.

The next meeting will be with Mrs. John Fulcher, November 5. All members are ask to be present as new officers are to be elected. Reporter

DON'T SCRATCH! Paracide Ointment is guaranteed to relieve all forms of Itch, Eczema, Ringworm or other itching skin irritations within 48 hours or money refunded. A large 2 oz. jar only 50c at— Huls Drug Store.— 5-1-37

County Agents News

The State Board at College Station is calling for the compliance papers to be sent in. At this date Kent County has sent off the compliance papers for 200 farms. The County Agent's office force and Compliance Supervisors are about caught up with measuring sheets turned in. If you have not turned yours in yet, please do so as soon as practical in order that we may complete same and forward them to College Station, and get them in line for payment. No check can be issued on a farm until the compliance papers for that farm have been properly executed and sent in.

1000 Tons Of Feed In Trench Silos In Kent County

Approximately 1000 tons of feed have been put up in trench silos this year by fourteen Kent County farmers. A number of other farmers and ranchmen are waiting for their feed to get all the possible growth before cutting it with the intention of filling silos with it. This feed will certainly come in handy this winter.

Bud Morrison is putting practically all the feed he has raised this year in silos. He has a bunch of calves on wheat pasture this fall that he intends to feed out with silage and a little meal next Spring. Experiments have shown this to be a good ratio for calves or any type of beef

for that matter. Bud has 80 pigs he intends to feed the heads off his silage when he begins feeding it.

Mr. J. T. Bond filled a silo with approximately fifteen tons of good feed this week. This silo was dug and filled in two days time.

Terracing

Kent County farmers who are interested in terracing their land this fall and winter are requested to turn in, or to send their names in to the local County Agents office, along with the number of acres to be terraced on each farm. This will enable the County Agent to make his plans to assist each farmer in getting lines run and terraces built in what ever way possible.

Remember the sooner you terrace your land the sooner you will have it in shape to catch this water that falls before the growing season and store it up for the plant to use during the hot dry weather.

Audie Armes is now employed at the Black Motor Company.

LOYAL PATRONS

We take time to express our thanks to our Loyal Patrons. Beauty parlors come and go, but we are here all the time, year in and year out because of our Loyal Customers. Thank you again and again.

Mrs. Ivey F. Murdoch

LAUNDRY

Some of the reasons why our laundry work is satisfactory.

1. We devote all of our time to laundry work and are well experienced.
2. We have the equipment to work with.
3. With our water softening machine our wash water is softer than rain water result is white clothes bleach out whiter, prints come out gayer.
4. Last but not least we have the best place in town for you to do your own laundry.

LET'S BE READY

Yes, be ready for the cool weather that is just over the hill. It's coming and if it catches you with an empty coal bin, you hay suffer. We sell coal and would like to supply your fall and winter needs early. It makes it cheaper for you and easier for us. See us about that fuel supply today.

We also sell planting seeds of all kinds. Sow that winter pasture crop as soon as possible. It will pay you big dividends.

Goal pitching contest - 5c to enter - 5 bars of candy to the winner.

Other attractions. General admission 5c for school children and 10c for adults.

Last Monday morning we were entertained in Chapel by Miss Murphy's class. A very good program was given and we were honored in having several visitors at school.

Last Friday we played Peacock in senior boys and girls basketball and were successful in both games. The boys game was unusually close all along and the final score was 19 to 17. The girls game was close the first half but during the last half our girls won out by the score of 34 to 20.

On Tuesday afternoon the Clairemont teams paid us a visit. Our second team senior girls won but a team composed of part junior boys and senior boys lost.

Seniors

Most of us are just now reviving from the excitement of the trip to the Texas Centennial last week. There were twelve seniors who took in the Centennial. Out of about 32,000 people who registered there the first day we were there, it would have been hard for us to paint those Centennial grounds 'red', but we all did have lots of fun. We're only sorry that even more did not go.

We are expecting our class rings within the next two or three weeks. In case you have cotton to pick, we may all be around so that we can get them out of the post office.

Seniors

Bobby Robinson, John Robinson, Halley Wade, Betty Jo Lane, Winnell McKinzie, Lucille Daniels and John Arden Wilson enjoyed a visit to the Texas Centennial last week. They all returned enthusiastic over the happy and exciting happenings of the trip.

Freshmen
We Slimes met and planned a Hallowe'en party. We plan to enter the amateur contest Saturday night at the gymnasium. If you want to see a show, come, for we are going to take the prize.

We are honored to have two new pupils enter our class the past week. They are Inez Rollins and W. L. Simmons.

The second year Home Economics class met and formed a club electing Maxine Gallagher as president and Ilene Hoover as vice-president. Miss Roxie D. Lewis was chosen as secy.

treas. Charter members of the club are Dessie Mae Taylor and Zephie Blanch Brown.

The director of the club is Mrs. Opal Jones. Next week we are going to have another meeting and have some new members, we hope, to join us in our club. We are expecting to accomplish many things in this club.

Subscribe for the Chronicle while our bargain rate makes it possible for you to get it for one year for only 50 cents.

N. E. Porter after an illness of several weeks duration is able to be up and back on duty again.

How to vote - Vote the Democratic ticket straight and for all the amendments but one. That is the way we are voting.

Earl Draper had business in Spur, Wednesday of this week.

Miss Mozelle Mason is visiting in Aspermont this last week.

W. J. Hembree had business in Abilene, Thursday.

Joe Earnest and family were called to Brady, Monday to the funeral of his father.

USE OF SULPHUR ON COTTON PESTS BEING SURVEYED

Freeport, October 26— With indications that the 1936 Texas cotton crop will be considerably larger than that of 1935 when 2,849,750 bales were marketed, the Freeport Sulphur Company is completing a survey of the methods used by growers in the Lone Star State to increase yield through control of cotton insect pest and diseases.

Reports gathered by the company reveal interesting data regarding the use of sulphur in flea hopper control, results of one large-scale experiment showing a production gain of more than 160 pounds of seed cotton an acre.

Family Needs

This store specializes in family needs and now is the season of the year when every member of the family needs to prepare for the cold winter weather that is sure to come within the next few weeks if not sooner.

So why delay? Be ready, give you and yours the protection of warm clothing and warm bedding and avoid the unnecessary suffering that cold weather causes the unprepared.

A visit to our store will convince you that you have come to the right place to supply your needs at prices well within your ability to pay. Shoes, Hats, caps, boots, underwear, gloves, sox, sweaters, coats, blankets, dress goods, in fact all the requirements of the average family are here assembled - Won't you come look them over

We make the following special low prices on—

Groceries

- ORANGES - Texas grown - per doz. 25c
- GRAPES - extra fine - healthy - lb 7c
- APPLES - good ones - each 1c
- CRACKERS - 2 lb box 18c
- MATCHES - carton - 6 boxes 19c
- PEANUT BUTTER - 1-2 gallon 50c
- GREENS - Turnips - No. 2 cans - 3 for 25c

REGARDLESS OF PRICE—THE SAME PERSONALIZED SERVICE

Every year we conduct funerals in every price range—funerals for those in the most moderate circumstances and for people of wealth. But in every instance the same expert care, the same thoughtful attention to detail, characterizes each service.

The only difference lies in the selection of the merchandise. The family alone decides what shall be the cost of the funeral.

Dignified Service in a Sympathetic Way

REMEMBER:- If you are indebted to us and have something saleable we will buy it and give you a liberal price.
