chemicals are sometimes not properly cured and not washed out before the fabric goes to the garment manufacturer. This excess chemical, which is a formaldehyde, causes the itching. The resin itself, if properly cured and applied, causes no problems. Drycleaners advise washing the garment or have your dry-cleaner wet clean it, if it is wet-cleamable. When shopping, sniff the garment to check for tell-tale formaldehyde odor.

If you are a morning bather, try scrubbing your feet before you climb into bed at night. Scrubbing them with a brush and hot soap suds stirs up circulation in the whole body. This will make you feel better all over and you will sleep better, too.

Genuine white suede, made of New Zealand lamb hides that can be hand-washed like fine lingerie, is now sold as yard goods. The manufacturer states that this leather will not become discolored even after numerous washings, and that it can be finger-pressed or even ironed to eliminate wrinkles after laundering.

Children four and five years old are developing individual tastes and interests. This will reflect in the books and stories they enjoy. Sooner or later every good cook has to decide: would she rather see the last spoonful go to waste or to her waist? Make Wednesday's special by cooking chicken a different way.

Try this chicken with orange Rice Recipe. Serve with a colorful salad and vegetable and you will make a meal fit for a king.

Weinert H. D. Club Elects '67-'68 Officers
The most effective program in Home Economics for the Haskell County Extension Office for the 1967 year was the organization of the Weinert Home Demonstration Club. The Weinert Home Demonstration Club was organized on February 10, 1967, with the assistance of the Mattson Home Demonstration Club and the County Home Demonstration Agent. A meeting was called to order by Mrs. Gus Rueffer, Mattson Home Demonstration Club President, and a welcome extended to all potential members of the Weinert community. Mrs. C. C. Campbell gave a talk on how the Mattson Club had helped various members of their community. Mrs. Joe Davis told how the Mattson club had been organized. Mrs. H. H. Hines, Council Chairman, spoke on the functions of the County Home Demonstration Council. The Home Demonstration Agent, Mrs. Barbara Elliott, explained the role of the Extension Service, and Mrs. Paul Cochran, THDA Chairman, spoke on "What is THDA?" The following officers were elected by the Weinert Home Demonstration Club for 1967 and 1968:

President, Mrs. Ben Bruton; Vice President, Mrs. Johnny Earp; Secretary, Mrs. Marvin Phemister; Reporter, Mrs. W. R. Walker; Council Delegate, Mrs. R. E. Hutchinson; Council Alternate, Mrs. Eddie Sanders. The Weinert Home Demonstration Club meets on the first Tuesday of each month at 2:30 in the Weinert Community Center.

Chemicals
When chemicals are used in the home, it is important to make certain that they are properly used. For example, when using a chemical to clean a surface, be sure to follow the directions on the label. Never mix chemicals, as this can create a dangerous reaction. Always use chemicals in a well-ventilated area, and never use them near open flames or heat sources.

Americanism Is Responsibility

By JIM SMITH
EDITOR'S NOTE: In the Essay Contest sponsored recently by the Progressive Study Club, Jim Smith, son of Mrs. Ruby Smith, was the recipient of third prize of \$3.00. His winning essay follows:

The closing words of "The Star-Spangled Banner" are . . . "the land of the free, and the home of the brave." How many Americans have realized that these two gifts—freedom and bravery—are highly dependent upon each other? Do many people realize that a free man is a doomed man unless he possesses the bravery to meet the responsibility which comes with his freedom? We, as Americans, are a free people. We have freedom of speech, press, religion, and so on. Americans also have the freedom to destroy themselves in a burst of unthinking irresponsibility which could quite easily come about. John F. Kennedy once said, "avoid self-righteousness—nothing is so blinding." We have the freedom or power to give freedom to those who have been struggling for it for more than a hundred years, but we could just as easily be giving dangerous responsibility to a brutal, screaming mob. We have the freedom to speak for what we believe in, or against what we consider wrong. However, ours is also the dangerous freedom to remain apathetic and uncaring in a time of crisis. The poet Dante said, "The hottest places in hell are reserved for those who, in a period of crisis, maintain their neutrality." We the Americans have the deadly choice of caring and exercising our patriotism or doing nothing and exercising our right to let our country degenerate from within and thus make any enemy attack unnecessary for our downfall. Now to discuss the use of our second gift: bravery. This conveys more than the bravery needed to die for your country. It involves the bravery which makes our freedoms work for us, and not for our own destruction. We must be brave enough to realize that each individual is not a political, military and economic genius. In every political system there are relationships which are better left undefined. The philosopher Aeschylus said, "In war, truth is the first casualty." There should never have been a question of a "credibility gap" between the government and the people. How could an individual have the ridiculous idea that he is entitled to all the secrets of the intricate workmanship of our government, or that he as a citizen could make wiser decisions than the President on the basis of what he sees on television? An American must trust the carefully planned and balanced government that is ours to guide us through a period of crisis. Certainly this requires bravery and patience to give such support. We must have the bravery to realize that people are not going to forget inbred hatreds and

prejudices and suddenly decide to come out in favor of civil rights. We must realize that all people who want freedom do not always deserve it, and that people such as "the black power" advocates and those who wish to mis-use their freedom, must be weeded out. Americans need the courage to face the fact that there are those who would dramatically declare themselves believers in the rights of men, and in the same breath direct a boy to get out of school because he does not wear his hair in the manner of the preceding generations. Above all, we need the courage to realize that there is no such thing as a government without problems, but that we must still try to solve them. One must remember what Winston Churchill said, "The whole history of the world is summed up in the fact that, when nations are strong, they are not always just, and when they wish to be just, they are often no longer strong." Let us have this blessed union of power and justice.

Renal B. Rosson Is Candidate For Representative Of 71st District

RENAL B. ROSSON

Renal B. Rosson has announced he would seek the Democratic nomination for candidacy for election to the office of State Representative of the 71st Legislative District of Texas which under the recent Apportionment Act, is composed of Borden, Crosby, Fisher, Garza, Haskell, Kent, King, Scurry and Stone-wall Counties.

Rosson was born at Breckenridge, in Stephens County, Texas, December 24, 1919, and moved to Scurry County with his parents, Mr. and Mrs. O. C. Rosson in 1928, where he attended public schools and was graduated from Snyder High School in June, 1937. Upon completion of high school, Rosson enrolled in Texas Technological College, Lubbock, Texas. After attending Texas Tech three and one-half years, Rosson entered the Army Air Force for a four-year tour of duty. He served with the 15th Air Force in Italy where he participated in 46 missions during World War II, and was awarded the Distinguished Flying Cross, Air Medal with four oak leaf clusters and Purple Heart. He is now a captain in the Air Force Reserves, retired.

After his discharge from military duty in 1945, Rosson again entered Texas Technological College where he received his BBA degree in June, 1946. In September of that year he entered the University of Texas Law School at Austin, Texas, and was graduated with a LL.B. Law degree in June, 1949. Upon graduation Rosson and his wife, the former Dorothy Murphree, returned to Snyder and now reside at 2510-31st Street. They have one son, Kyle, age 11. Rosson was in private practice of law until he assumed the duties of the office of District Attorney of the 132nd Judicial District in October, 1952, in which he served for two terms. He has been engaged in the active practice of law in Snyder, Texas, for more than 15 years.

He is a Baptist, a member of the Lions Club, a past president of the Scurry County Bar Association, a member of the American Legion, VFW, and is a Farm Bureau member as well as being active in other civic affairs. He was raised on a stock farm and presently has interests in farming and stock-raising operations.

As a member of the legislature for the past nine years, he

has served on many of the important committees in the House of Representatives including the Appropriations Committee. At the present time he is chairman of the Judiciary Committee in the House of Representatives and a member of four other House committees and is a member of the Texas Civil Judicial Council which makes studies and recommendations for needed changes in the civil laws of our state.

Rosson states that he has enjoyed the work of this office, and greatly appreciates the opportunity to represent this area of West Texas as a legislator in Austin. He is also deeply appreciative of the cooperation which he has received from the people in the past, and feels that the experience which he has gained by serving in the House of Representatives and his general knowledge and understanding of the area will be beneficial in assisting him in doing a better job in the future in such capacity. He further states that he will at all times continue to perform the duties of this office to the best of his ability, in the interest of better and sound state government, if you elect him as your State Representative.

"... VOTE FOR GOLD"

The recent devaluation of the British pound and the resulting financial and economic reverberation throughout the world revealed a highly significant fact, at least as far as the layman is concerned. Despite all the rhetoric about the absence of gold as a monetary base, it has suddenly become very much in demand. Perhaps the words of the late George Bernard Shaw, who is renowned as a playwright rather than an economist, may explain the sudden new respect for gold. He said, "the most important things about money is to maintain its stability."

"With paper money, this stability has to be maintained by the government. With gold currency, it tends to maintain itself even when the natural supply of gold is increased by discoveries of new deposits, because of the curious fact that the demand for gold in the world is practically infinite."

"You have to choose...as a voter...between trusting to the natural stability of gold and the natural stability of the honesty and intelligence of the members of the government. And, with due respect for these gentlemen, I advise you, as long as the capitalist system lasts, vote for gold."

60 YEARS AGO

(January 25, 1908)
Mr. J. W. Hester, who owns a farm about one and a half miles north of town, was approached a few days ago by a party with a proposition to lease the mineral rights on his land for a term of years. Eight or ten years ago in boring a well on this place, which was then owned by Mr. Dan Moneyham, lead ore or particles of lead were brought to the surface a small chunk of the metal being secured by melting some of the ore, but no further attention was ever given to it. Mr. Hester has the matter under investigation, but has not made any terms with the party desiring to lease, so far as the Free Press has learned.

Last Monday night about 11:00 o'clock the attendant at the electric light plant discovered that the building was on fire and he gave an alarm which brought several persons to his assistance within a few minutes. By dashing buckets of water on it the fire was somewhat restrained until the arrival of the fire boys with their two chemical engines with which they soon extinguished it. The fire caught from the exhaust pipe of the gasoline engine, which passes out under the west wall, and the fire ran up between the wooden ceiling and the outer wall of sheet iron before it was discovered, and was burning the rafters and sheeting under the iron roof when the fire company arrived.

Miss Cara Lemmon left Tuesday on a visit to friends in Seymour.

Rev. I. N. Alvis, Misses Maggie Simpson of Rule and Rev. J. T. Nicholson of Haskell left Sunday for Abilene, where they will attend a ten days' Bible school at Simmons College.

Born on the 21st instant, to Mr. and Mrs. U. T. Stodgill of the east side, an eleven pound boy.

Danny Isbell And Family Say "Thank You"

Danny Isbell and family would like to take this opportunity to personally thank the people of this area for their donations to the West Texas Rehabilitation Center, Abilene.

Danny has been going to the Center for the past three years...two and three times a week for physical and occupational therapy. Unless you have an occasion to visit the Center you have no idea how much they do for people.

When Danny started to the Center he could hardly sit alone and now he walks some with a

walker. He is a freshman at Hardin-Simmons University, Abilene, and has just completed (passed) 12 hours of work. His roommate helps him with what physical assistance he needs. Again we would like to say... thank you!

COMPLETES TRAINING

Marine Private, First Class Robert V. Black, Jr., son of Mr. and Mrs. R. V. Black of 1009 N. 6th St., Haskell, completed two weeks of training under simulated combat conditions in the fundamentals of day and night patrolling, employment of infantry weapons, survival methods and assault tactics at the Marine Corps base, Camp Pendleton, Calif.

This individual combat training is given every Marine after his graduation from recruit training. Taught by combat experienced non-commissioned officers of the infantry training regiment here, it prepares the young Leatherneck to become part of the Marine air-ground combat team.

While in the field he was taught how to use hand grenades, a compass and the principles of map reading and land navigation. He learned how to detect and disarm mines and booby traps and, while being exposed to live machine gun fire, he learned to advance safely from one point to another.

From this course, he is scheduled to go on to more advanced training before being assigned to his permanent unit.

Jehovah's Witnesses Set Convention Dates

Preparations are underway for Jehovah's Witnesses in the area to attend a 3-day convention in Vernon, February 23-25.

Upwards of 450 delegates from the Caprock south to Lubbock and surrounding communities are expected to attend sessions to be held in the Wilbarger Memorial Auditorium.

According to William C. Short, spokesman for the group, assemblies of this type are held semi-annually and the purpose is to train Jehovah's Witnesses in their ministry by emphasizing Bible principles regarding integrity, truthfulness and honesty.

The program will include morning, afternoon and evening sessions devoted to Bible talks, discussions and dramatizations with delegates from the local congregation participating. There will also be a baptism of new ministers.

The Good Earth

By Mrs. B. E. Cobb

The Haskell Garden Club members extend their sympathy to Mrs. Paul Koenstler at the passing of her beloved husband, Paul.

Paul long has been a friend to many in Haskell. His going will leave a deep void.

This rain has come as a much needed way of replacing dwindling water supplies in the county. Many farmers were on the point of hauling water for both home use and for stock. Wheat should grow and flourish after the life-giving rains. As I write this, the rain is still coming down.

We were lucky to get four peach trees planted before the rains came. There have been so few days that one could work in the yard this year. When the weather does permit there will be a rush of gardening.

It is a good policy when setting out peach trees to bury old rusty nails or rusty tin cans in the planting hole. The rust from such articles will provide iron for the tree for years. I save all my steel wool pads, except the ones that contain soap. They turn into pure iron rust within a day or two after they have been used.

We planted twenty crocus not long ago. I can't help but wonder if this rain will bring them up. There were large buds on the bulbs when we set them in to the soil. We have put out twenty Daffodils in the last few weeks too, but what we really need is some sunshine so we can finish our flower beds.

Bulbs may have shorter stems when planted late, but if you haven't planted any, and are still eager to do so, the bulbs may still have flowers for this spring. We should not have any premature blooming of bulbs this year due to so many hours of hard freezing weather.

Texas. Mrs. Woody Turnbow and children of Wichita Falls visited her parents, Mr. and Mrs. George Gray and children over the weekend. She also visited the Turnbows in Haskell.

Gift Tea

Mrs. Jay David Berry was honored Saturday evening, Jan. 20, in the Weinert Community Center with a gift tea.

Mrs. Robert Hutchinson registered the guests. In the receiving line were the bride's mother, Mrs. Robert Seago and mother-in-law, Mrs. Marvin Berry and the honoree. The bride's chosen colors of yellow and white were used in table and room decorations. Hostess gift was a lovely white bedspread.
