DUCK CREEK SOIL CONSERVATION DISTRICT NEWS

Cooperator Ralph Bennett, whose farm is in the Upper Elton group, seeded approximately 15 acres to Canada Wild Rye last week. This seeding is part of the plan for revegetating an 80-acre field that previously was in cultivation. Because of the slope and extent of erosion, Ralph decided to put it back to grass. Blue grama, little bluestem and King Ranch bluestem will round out the combination of grasses that Ralph wants to get established. The district grain drill was used to do the seeding.

Another Duck Creek Soil Conservation District cooperator who seeded Canada Wild Rye last week was J. M. Johnston in South Jayton group. Johnston planted about 5 acres.

"That place made more this year than it ever has before," said Paul Hagins, referring to the farm he operates near Gilpin. A conservation plan was worked out for this place last year, and a system of level terraces was established last fall. Paul built the terraces himself with a whirlwind terracing machine.

R. I. Wallace in North McAdoo group received assistance from the district recently in staking out a stock tank. He estimated the dam will take 2,000 yards of dirt.

J. B. Steadham, a cooperator in Caprock group, plans to add more terraces on his farm this fall. Steadham reports that his terraced land is making 2 or 3 times as much as that not terraced. He also says that the water is better distributed on that land that is terraced. "Water accumulates at the bottom of the slope on my unterraced land and causes my crop to drown out," he added.

The Duck Creek Soil Conservation District board of supervisors held their regular monthly meeting last Thursday, Nov. 17. Applications for assistance in carrying out conservation work were approved for Buck Ballard on 80 acres, and Ben Lee on 320 acres. Conservation plans approved were for O. M. McGinty on 385 acres; Elmer Long, 165 acres; Dick Sampson, 160 acres, and Mrs. Mary Dunn, 486 acres. R. E. Dickson of the Texas Agricultural Experiment Station of Spur, a visitor at the meeting, discussed the progress of conservation work in this area.

Miriam Parks of Midland, Texas, spent last week end in Jayton with Mr. and Mrs. J. A. Parks.

Mr. and Mrs. E. C. Wade of Lubbock spent Tuesday night in Jayton with Mr. and Mrs. L. F. Wade.

Uncle Sam Says

Volunteers are mighty important to the U. S. Savings Bonds Program. During the fall when farmers are bringing in their harvest, an outstanding group of U. S. Savings Bonds volunteers will be traveling the country telling people about Bonds. These volunteers are the cartoonists who draw your favorite comic strips and they will put on a show in connection with a Treasury Department sponsored art exhibit, "75,000 Years of Comics," in several American cities. They are freely giving of their time and effort to continue telling their readers that U. S. Savings Bonds are the safest and best investment in the world. U.S. Treasury Department

Selected from among several hundred boys and girls as an inspiration to all underprivileged children, Leo Smith, 10, Shreveport, La., and Karen Ash, 6, Muscatine, Ia., were named "King" and "Queen" of National Kids' Day, O. E. Peterson, executive secretary of Kiwanis International, announced this week. The boy king will reign on the observance date, Saturday, Nov. 19, as a symbol for all American youth while the queen will represent those who have overcome serious ailments or other handicaps to enjoy normal lives. The Shreveport boy, eighth in a family of nine children, is the son of a widow, Mrs. Emma Smith. Described as a typical American youngster of the Huckleberry Finn type, he was chosen on the basis of leadership displayed last summer at a Kiwanis Boys' camp for underprivileged children at Lake Caddo near Shreveport. The pretty blue-eyed queen is the daughter of Mr. and Mrs. Harold Ash. Little Karen recovered from a rare heart ailment in May, 1949, following an extremely delicate surgical operation. Funds to make possible the operation were sponsored by the Muscatine Kiwanis club. Now a healthy girl, Karen is a pupil at St. Mary's school in Muscatine and leads a normal life in every way.

A view like the one pictured above has now been in existence on most Texas Highways for the past few months. This type of highway sign serves to warn of the maximum safe and comfortable speed for curves and turns.

These signs are part of a program of advisory speed zoning by the Texas Highway Department and represent a step recommended by the Governor's Highway Safety Conference.

Motorists who utilize the speed ad-

vised on these signs have found that there is no side-throw in their cars at this speed.

The speed indicated on the sign was determined by a scientific study of each individual curve and turn, and will vary because of the different elements such as degree of turn and the amount of bank on each separate curve.

Visitors in the home of Mrs. Lou Emma Jones last Friday were: Mr. and Mrs. John Jones of Brandon, Mississippi, Mrs. W. J. Hembree of Ballinger, Mrs. Wesley Lewis, Mrs. Carl Ingram of Lubbock, Mr. and Mrs. Jake Jones and Jackie of Spur and Mr. and Mrs. D. C. Bradley of Matador.

Uncle Sam Says

When you sign up to buy U. S. Savings Bonds regularly each payday through the Payroll Savings Plan your company operates you're actually adding to your "take-home savings"! You see, Savings Bonds will pay you back \$4 for every \$3 you invest today—that's EXTRA dollars for you and your family to spend, ten years from now. U.S. Treasury Department

FARM INCOME EXPECTED TO DROP IN NEXT YEAR

Over-all family living expenditures are not expected to drop as fast or as much as the over-all farm income. That is what the experts see in the crystal ball for 1950. Food supplies in general are a little larger than a year ago and food consumption per capita is expected to remain near the 1949 level or may even go higher according to Mrs. Florence Low, extension home management specialist of Texas A. & M. College.

Consumer purchases of food should be encouraged by the plentiful and varied supply and by the lower retail prices that appear likely for the year. The prices received by the farmer for the food products are expected to decline more than the prices the consumer will have to pay. Mrs. Low reports that prices paid by farmers for clothing declined 7 per cent from the post war high of September 1948 to June 1949. Further drops in clothing prices seem to hinge on what may happen to the general economic situation she says.

The retail supplies of clothing should be generally good during 1950, however, should the downward trend in prices continue. Retailers, wholesalers and manufacturers may continue their cautious buying and this in turn may cause temporary shortages to develop from time to time. The demand for clothing remained at a high level during most of 1949 and indications are good for this to continue, especially, if incomes continue to be high. Declines will probably be noticed first in the so called "style" articles of clothing, says Mrs.

Low. Supplies of household equipment and furnishings should be adequate. There is a slow but certain movement from a seller's to a buyer's market for many of the durable goods and families are now able to purchase many items at prices somewhat lower than for the last year. Standard models are being bought in many lines of household equipment in preference to the deluxe models because primarily of the difference in prices, says Mrs. Low. The consumer demand, she thinks, will de-

termine the available supply of most household equipment.

Alexander Drug Co.

Check the Fine Car Features at your Ford Dealer's Today!

- New front-seat springs of non-sag construction are firmly buoyant for restful posture.
- New foam rubber front-seat cushions hold their shape, provide added comfort.
- New rotary door locks as in costliest cars—doors close silently and securely.
- New ornamental deck-lid handle forms attractive frame for license plate.
- Deck-lid latch, too, is new. Luggage Compartment opens with finger-tip ease.

- New rubber seals and molding on windshield and back window add snugness.
- Arm-rest door closer now provides a finger-fit grip to close doors easier.
- Teach-button latch. Yes, a touch on the button is all it takes. Sleeves can't catch.
- New exterior handles, anchored at both ends, have the grace of fine silverware.
- New colors—your choice of 11. They're baked on to keep that "Showroom Complexion."
- Additional heavier sealer at 41 points gives greater interior quietness and protection.
- Box-type frame rails have steel of increased thickness for greater rigidity.

- Long life has been added everywhere to the engine, frame, and body. That's Ford quality!
- Parking lights are now re-positioned and re-styled—another touch of beauty you'll like!
- New streamline details in good taste bring new beauty to the "Fashion Car."
- New bumper guards and new bumper support arms keep you safer... in style.

- Head ornament of new design adds a touch of distinction to Ford's famous beauty.
- "Magic Air" Heater for 1950 has higher speed motor to increase air flow 25%.

- New fabrics are a decorator's dream—your choice of long-wearing broadcloth or mohair in rich clear colors.
- Here ring is smart looking and of new shape to prevent snagging of sleeves or lady's bracelet. Needs only a touch.

- New pistons—super-fitted and designed to start more quietly, run more quietly.
- New 3-blade fan—it's designed to scoop in more air at a slower, quieter fan speed.

- New timing gear—it's made of new "hushed" material for extra engine quiet. Try to hear it!
- New camshaft—its lobes are specially designed for quieter, more efficient valve operation.

- New color styling in a steering wheel that's a pleasure to touch. Positive grip.
- Automatic courtesy light goes on when you open either of the front doors.

- New lined luggage locker offers more baggage space than any other car at Ford's price.
- New rear bumper has rib and new mounting arms for greater protection against impacts.
- Head brake operation is easier because of zinc-based permanent-type lubricant.
- New "Magic Air" Heater control clearly marked, lighted for easy reading, easy to operate.
- Sealed brakes—protected against dust and water for greater safety.
- New gas filler tube and cover—new non-spill vent tube. Closed cover blends into body.

There's a Ford in your future... with a future built in

"Magic Air" Heater, Radio and white sidewall tires optional at extra cost.

50 WAYS NEW FORD for '50

YES, the 50-way-new '50 Ford is the one fine car of the low-price field. It's the only low-priced car designed in perfect 3-way balance... with (1) top fashion car styling... with (2) top power in the new 100 h.p. V-8 and 95 h.p. advanced Six... and (3) top provision for roomier comfort. But your Ford Dealer is the man to see, he'll let you drive it!

The one fine car in the low-price field

- New lined luggage locker offers more baggage space than any other car at Ford's price.
- New rear bumper has rib and new mounting arms for greater protection against impacts.
- Head brake operation is easier because of zinc-based permanent-type lubricant.
- New "Magic Air" Heater control clearly marked, lighted for easy reading, easy to operate.
- Sealed brakes—protected against dust and water for greater safety.
- New gas filler tube and cover—new non-spill vent tube. Closed cover blends into body.
- New timing gear—it's made of new "hushed" material for extra engine quiet. Try to hear it!
- New camshaft—its lobes are specially designed for quieter, more efficient valve operation.
- New 3-blade fan—it's designed to scoop in more air at a slower, quieter fan speed.
- New 100-h.p. V-8—the most advanced Six you can buy. Gives greater economy.
- New concave instrument knobs have brilliant, new contrasting colors.
- Defroster openings are 44% wider and air-flow rate is 25% higher—for wider vision.
- Exterior light switches now located on instrument panel. It saves groping in the dark.
- Improved front suspension with new torsional stabilizer adds to Ford's roadability.
- Smart hardware, inside and out, has been designed to give you more than beauty.
- New dash-and-walled glove compartment door has new piano-type hinge. Looks and works better.
- More head room results from new bows that hold top lining across full width of roof.
- New exterior appointments—Smart ornaments. New rich treatment on door panels.
- Brake pedal is well away from steering column to allow greater driving freedom.
- New wider sun visors for more protection from glare—more safety when sun is low.
- Exclusive 100-h.p. V-8 performance for brilliant pick-up, smooth response, safe control.
- New floor coverings in both front and rear, are made of rich and durable materials.

FEDERAL MONEY AVAILABLE FOR HOSPITALS IN TEXAS

More money is now available for building hospitals and health centers in Texas, State Health Officer Geo. W. Cox announced.

Federal money channeled to the states for hospital construction has been increased from \$75 million to

\$150 million, and the program of federal assistance to hospital construction has been extended through the fiscal year ending June 30, 1950. The increase in time and money is contained in an amendment to the Hospital Survey and Construction Act.

Under provisions of the Act, the various states, to which the federal

money is appropriated, makes the money available to local areas for hospital or public health center construction, if a survey shows the area is in need of such facilities.

As of October, when the amendment became effective, the states will put up half the money for new construction, if a survey shows the area which the hospital or public health center is to be built, must provide the half of the total construction costs.

Prior to October, the states put up only one-third, and the local area was held responsible for raising two-thirds of the total construction costs. On new projects which had been approved prior to October, the local area must still put up two-thirds of the entire cost.

Several hospitals have been completed in Texas under the program. Other projects are currently under construction throughout the State.

Ford Division has accomplished greater comfort, safety and economy as well as improved beauty of styling in its 1950 models.

Texan Will Direct National Truckers

HENRY E. ENGLISH

Austin (Sp.)—A Texas man, Henry E. English of Dallas, was elected president of the American Trucking Association at the truckers' national convention in Boston, it was announced this week.

English, who started out in the transport business in 1929 with a second-hand touring car and is now president of Red Ball Motor Freight, Dallas, terms trucking "a business nobody knows."

"Even truckers, men who are intimate with the business, seldom realize how important the industry 'that just grew up' is to the nation's economy," he said.

"There are approximately 7,500,000 trucks in this country today. Though trucks constitute only 17 per cent of the total number of vehicles, they pay over 30 per cent of the taxes on roads."

The newly elected president of ATA has held an office in the national trucking organization for the last ten years and is past president of Texas Motor Transportation Association and a member of the association's board of directors.

M. E. BEAVER PASSES AWAY WEDNESDAY AT ABILENE

Word was received in Jayton Wednesday morning that M. E. Beaver had passed away, about 12:30 A. M. Wednesday morning. Mr. Beaver was at the home of his son, Clay, in Abilene. He had been in ill health for some time.

Funeral services are to be conducted today, Thursday at 2:00 p. m. in the Church of Christ, Girard.

All pork, regardless of the cuts should be cooked to the well done stage. For the large cuts of pork, such as hams, etc., one-half hour of cooking time per pound is a good allowance.

The lives of thousands of children could be saved every year if parents took the same precautions to prevent fires as are taken in most of our schools.

Mrs. W. D. Vencil had business in Lubbock Wednesday.

Cheese Ring Pumpkin Pie

A circle of shredded cheese makes this mellow pumpkin pie especially festive for holiday desserts.

Among the desserts you'll serve for Yuletide charm is a spice-flecked pumpkin pie in a prettily fluted pastry shell. Many guests also welcome it after a heavy meal because it is less rich than many other holiday desserts.

You'll notice the pumpkin pie is baked briefly at a high temperature and then finished at a moderate one. The high heat quickly bakes the crust and helps to keep it flaky, while the custard-like pumpkin filling needs to cook at lower temperatures to keep it tender.

When baked in glass pie plates, pumpkin pie can be brought to the table right in the dish to serve as an interesting centerpiece. Surround it with Christmas holly.

Edge the pie with shredded yellow cheese just before serving. Whipped cream sweetened with honey is another topping most people like on pumpkin pie.

CHEESE RING PUMPKIN PIE

1 cup sifted enriched flour
1/2 teaspoon salt
1/2 cup shortening
1 1/2 to 2 1/2 tablespoons cold water

Sift together flour and salt. Cut or rub in shortening. Add water. Mix into a dry, crumbly dough. Press together, cover, and let stand 10 minutes. Roll out about one-eighth inch thick on lightly floured pastry cloth. Line one nine-inch pie pan. Fill with pumpkin filling.

Pumpkin Filling

1 cup cooked pumpkin
1 cup brown sugar
1/2 teaspoon cinnamon
1/2 teaspoon mace
1/2 cup shredded yellow cheese
1/2 teaspoon cloves
1/4 teaspoon ginger
5 eggs
1 cup milk

Mix together pumpkin, sugar, cinnamon, mace, cloves and ginger. Beat eggs and add milk. Add to pumpkin mixture and pour into unbaked pastry shell. Bake in hot oven (450 degrees F.) five minutes, then in moderate oven (325 degrees F.) 30 minutes. Just before serving, edge pie with shredded cheese. Makes one nine-inch pie.
