JAY BIRDS WALLOP THE BULLDOGS

Air And Water Pollution

Marroll Johnson, United States water conservation service, says we have been fighting water and soil pollution since 1935.

With the growth of industry, and especially the southwest, water and air pollution has become more evident to more people. It will become more serious as the population increases and even though some laws have already been enacted, more and stiffer laws against pollution are sure to come.

Now, what does crop residue management have to do with air and water pollution? Ask anyone that has raised during the dust bowl days, and I think you will find a ready recollection of the choking clouds of dust that made breathing difficult. Good crop residue management can help reduce the amount of blowing dust which is a major source of air pollution.

Aspermont SBA Office Gets New Federal Grant

Week in Jayton

WASHINGTON, D. C.—Cong. Omar Burtleson announces approval of a \$37,390, OEO General Community Program grant to the Aspermont Small Business Development Center, at Aspermont for a 12 month period to begin Oct. 1. The funds will assist the Small Business Development Center to contact existing and potential business and industry for possible employment and/or creation of new jobs for low income persons; to provide assistance in preparing applications for loans from the SBA and other lending institutions. The center serves 17 counties, including Kent.

School Calendar

Thursday, Sept. 21
Jr. Hi football game at Loraine 6 p. m.
Friday, Sept. 22
Jaybirds at Aspermont 8 p. m.
Pep rally at 3 p. m.
Monday, Sept. 25
Panhandle Fair Parade at Lubbock.
Thursday, Sept. 28
Punt, pass and kick contest following the junior high football.
Jayton vs. Roby 6 p. m.

TO AUSTIN--
County Attorney and Mrs. Howard Freemyer attended the AG's conference in Austin last weekend.

State Representative Joe Hanna, and State Representative Renal Rosson of Snyder both are working on the committee to investigate insurance rates.

Danella Sartain Wins The Football Contest

Danella Sartain placed first in the Chronicle football contest this week, with Alex Garcia and Jack Williams Jr. tying for second and third.

In addition to the two tie games, each of the three missed two games. Danella guessed the total score at 34, while Alex and Jack guessed it at 36.

Smith Funeral In Lawton

Funeral for John P. Smith, 75, were held at 10:30 a. m. Saturday at the Church of Christ in Lawton, Okla., with Leroy Hines, minister, Robert Bates, assistant minister, and Rollo Tinkler, minister of the Bible chair at Cameron officiating. Burial was in the Highland cemetery under direction of Becker Funeral Home. He lived in Lawton about 40 years, going there from Jayton. He was a retired laundry routeman. He was married to Elizabeth Bacon April 12, 1926 in Abilene. He was a member of the Church of Christ.

Survivors include his wife at the home, a daughter Mrs. E. L. Scott, of Lawton; a son John P. of Houston; three sisters, Mrs. Bertha Woods of Quil-

Rules Are Set For Fair Poster Exhibit

Educational exhibits and poster arts contest, for the Kent and Dickens County Fair.

Holly Hahn, Superintendent Mrs. Becky Howell.

- EDUCATIONAL EXHIBITS
1. Each exhibit must be complete before 6 p. m. Thursday, Oct. 5th. Exhibits not complete will not be eligible for judging.
 2. Each booth will be 4 feet maximum. Space must be reserved with the chairman of the committee and marked with masking tape.
 3. The exhibits judged must be strictly educational. The exhibit should teach a lesson in one area - as principles of money, management, a good breakfast for the day, or how to recognize a good wash and wear product. The exhibit may promote an idea, give information, teach how to do something or show a quality product for the purpose of raising standards, depict to the public what women in home demonstration club work are learning about home economics.
 4. Exhibitors shall be organized groups, unless otherwise approved, and exhibits will be judged as a whole unit.
 5. Exhibits must furnish own labor and materials

New Cars Today

Two businesses in Jayton that add a great lot to the economy of Kent County are the Ford and Chevrolet automobile dealerships. They will be showing their new 1973 models here today, Thursday, Sept. 21, and Friday.

Robert Hall Chevrolet now has his new models on display, and he states the display cars are for sale. The public is invited to come in any time during the day and look them over.

Also, the Goodall Ford of 1973 model Fords on display, Friday, R. G. Goodall, owner, gives you an invitation to come by and examine them.

If you are in the market for a new car, there is no better place to buy it than right here in Jayton. Their high sales records is proof of this.

Eggs Are Eggs Says Extension Expert

By Roberta E. Stanaland "Organic eggs" as labeled on egg cartons, are twice as expensive and no more nutritious than regular eggs.

According to Dr. David B. Mellor, poultry marketing specialist with the Texas Agricultural Extension service, the term "Organic" means the eggs are from chickens which have been supplied "natural foods."

However, overwhelming evidence indicates that an egg is an egg. That is to say, if a hen has a sufficient quantity of nutrients, she will form egg and all eggs will have the same quantity and quality of nutrients, says Mellor. "Of course this will vary with the size of the egg."

Egg flavor is greatly influenced by what the hen eats. If she has access to onion grass, field garlic or even cabbage, the eggs will be more highly flavored than most commercial eggs.

Most consumers do not like these flavors or prefer to add the flavoring themselves. This depends on the dish or the food used. For this reason, commercial eggs are produced with no flavor added so that the bland natural flavor of the egg is not masked.

Actually, all eggs are organic," points out Texas A&M University specialists. So it doesn't make sense to pay a high price for those labeled "organic." In addition, regular eggs move faster and should be fresher than the specialized organic eggs. Regular eggs cost about half as much as the others.

Clean, sound-shelled graded eggs maintained under refrigeration and purchased from a store where movement is rapid are still the best choice, he contends. For those willing to pay a high price for organic eggs, he points out, they should recognize that the Texas egg law requires that eggs be graded, have a clean, sound shell, and be kept at a temperature under 60 degrees.

They should also be considered that there is no evidence to support the idea that organic eggs are more nutritious, he noted. Organic eggs are available in health food stores, and in some super markets, and from private growers.

Miss Holly Hahn, the daughter of Judge and Mrs. Norman Hahn, has been formally pledged as a provisional member to Phi Mu Sorority at Texas Tech University in Lubbock.

The ceremony took place Aug. 31st. Miss Hahn is a graduate of Jayton high school. Founded in Macon, Ga. in 1852, Phi Mu is the second largest secret organization for women.

Miss Hahn is a sophomore student this fall in the college of business administration at Tech.

The Jayton Jaybirds have a one - two punch this year that has earned for them two wins, with no defeats. This is a good runner up the middle in the person of Parker Kidd and a good passing attack from Brad Dibrell to Tommie Parker and others.

After rolling Roscoe in the opener, the Birds came back and downed the Spur Bulldogs here Friday night 26 - 6.

The Birds went scoreless in the first period, but got into the end zone in the second and third period twice in the finale.

Parker Kidd was the first Jaybird to get into the endzone with the ball, one a one yard dive, and then Dibrell hit Parker for the two points to go in at the half with a 8-0 bulge on the score board.

In the third quarter, Dibrell connected on an 18 yard toss to Parker for a TD. The extra point effort was to no avail.

Spur got the taste of dirt in the endzone as Dalvin Alexander ran 30 yards to cross the double strip, but they could not pick up the extra point.

The Birds scored again as Dibrell uncorked the bomb to Parker, who ran it in, making a 52 yard pass.

To put the dressing on the cake, Dibrell hit Keith Cave with a 35 yard pass as the game ended.

Spur topped the board in statistics, but this means very little if you lose the game.

Spur led in first downs 18 to 13, and in total offense scrimmage yardage 201 to 152. The Bulldogs completed 5 of 19 passes for a total of 69 yards, while the Birds completed 6 of 14 for 114 yards.

Dibrell had two of his passes picked off, but while this was happening his teammates were grabbing five Bulldog passes.

The Dogs fumbled three times, while the Birds handed the ball away two times.

This was sweet revenge after the Jaybirds were mauled good by the Bulldogs in the rain in Spur last year.

Spur got the taste of dirt in the endzone as Dalvin Alexander ran 30 yards to cross the double strip, but they could not pick up the extra point.

Promotion Plans
 Two co-ordinated \$10 million cotton research and promotion programs to help expand the markets for cotton have been approved by Secretary of Agriculture Earl L. Butz. USDA's Agricultural Marketing Service said that under the two programs, approximately 60 percent of program funds will be provided for promotion programs and 40 percent for research programs. Officials explained that one of the cotton research and promotion programs is authorized by the Cotton Research and Promotion Act of 1966 and is financed by producer's contributions of \$1 per bale. The other program is financed by the Commodity Credit Corporation under the Agriculture Act of 1970.

Good Program Arranged At South Plains Fair

Deadline for entries in the all-variety bantam and pigeon shows scheduled in conjunction with the 55th annual Panhandle South Plains Fair is Sept. 18, officials have disclosed. Judging in the pigeon show, offering cash awards in all classes, will begin promptly at 9:30 a. m. Sept. 24, the day before the fair opens its week-long run here. Bantam judging will be held on opening day. Jay D. Miller Jr. of Albuquerque will judge both shows. Robert Berry is general superintendent and will be assisted by Cecil A. Hill, George H. Phillips, Mrs. Nelda McBrayer, secretary of the pigeon show, and Robert Seale, secretary for the bantam show. Entry fees are 65 cents per bird in both shows. Birds will be accepted on the fairgrounds beginning at 8 a. m. Sept. 24 (pigeons) and 7 a. m. Sept. 25 (bantams). No birds will be released until 9 p. m. Sept. 27. These shows are among several popular attractions slated in connection with this year's fair. Others include a terminal barrow show, top-ranked cattle shows, Appaloosa, open and Quarter Horse shows,

plus displays and exhibits in creative arts, industrial arts, fine art women's department, commercial and agriculture divisions of the fair. In addition, two free attractions also are scheduled. Tony, the organ grinder, and Chris the wonder monkey, will be on the fairgrounds daily to entertain young and old alike. "The Sensational Leighs" will perform on the giant space wheel adjacent to the Merchant's Building each day. Charley Pride, the Pridesman, Johnny Duncan, Alex Houston and Elmer and the North Door open the week with performances in Fair Park Coliseum on Monday and Tuesday night. Tickets are \$5., \$4 and \$3. A gospel music show featuring the Blackwood Brothers Quartet, Blackwood Singers and J. D. Sumner and The Stamps Quartet take over the stage on Wednesday night with tickets priced at \$3 and \$2. Mexican singers Lola Beltran and Cuco Sanchez, plus Juan Puente, former Lubbock resident, Graciela Flores, "Mexico's Miss Personality", and a mariachi band will appear on Thursday night. Closing out the week on Friday and Saturday will be Roy Clark, Tom T. Hall and the Story Tellers, plus The Sound Generation. Tickets for the latter three shows are \$4.50, \$3.50 and \$2.50. Tickets may be obtained at the coliseum office from 9 a. m. to 5 p. m. Monday through Friday or at TG&Y stores on Brownfield Road and Parkway Drive, Sears' downtown store or at Luskey's Western Wear. The box office telephone number is 762-8349.

ATTEND CHURCH SUNDAY

People are so busy here and there that they often fail to perceive the beauty and grandeur of Creation. A storm at sea, a beautiful sunrise or a full moon riding in a clear sky are but commonplace aspects of the weather. Towering mountains, a great waterfall or a far-spread fertile valley are but features of the landscape. Blessed is the man gifted with the vision and understanding to see the deeper meaning of Nature's matchless wonders. For behind all the wonderful phenomena of earth and sea and sky is the pattern of a sublime plan which stirs the awe and challenges the imagination of man. There can be but one answer to the marvels and wonders of the universe—God! The Church brings man into spiritual relationship with his Creator.

POLLUTION.....
from page 1

planting time in the fall for winter crops, such as wheat.

A chisel plow is the best implement to use as it puts enough soil on the loose residue to hold it in place but only covers about 10 percent of the residue, and leaves 90 percent on the top. The chisel plow also helps prevent blowing of soil that help prevent blowing and to absorb moisture. The one way plow covers up too much residue and loosens the soil and puts it in a condition to blow.

The tandem disc pulverizes the soil and makes it very susceptible to blowing. The oneway or tandem disc should be avoided on row crops until time to prepare your field for the planting. Chiseling after harvest is the best operation to use on summer grown crops. On winter

1 c. drained mincemeat
2/3 c. chopped pecans
Place whipping cream in large mixer bowl; add powdered sugar. Whip with mixer until thick and of spreading consistency. Fold in mincemeat and pecans. Chill. Frost top of each of the 4 layers; stack layers. Garnish with pecan halves. Yield: 10-12 servings.

grown crops such as small grains there is usually enough residue that a tandem or oneway can be used and still leave enough residue on the surface to do the job.

The method of harvest determines how much residue is left and most farmers tend to leave too little residue to do the job. When the feed crops are baled or cut with a row binder, and banded, it should not be cut closer than 12 to 14 inches to the ground. This will leave enough residue to protect your soil during the blowing season. Feed crops or maize stalks that are grazed should be watched closely and cattle removed before the residue is too short to do you any good.

Wouldn't this be a good year for you to start practicing good residue management and help to reduce air pollution and help build your soil and protect the thing that makes you your living?

The SCS in Jayton will be happy to furnish you with information on how much residue your particular type of soil will need.

Football Contest

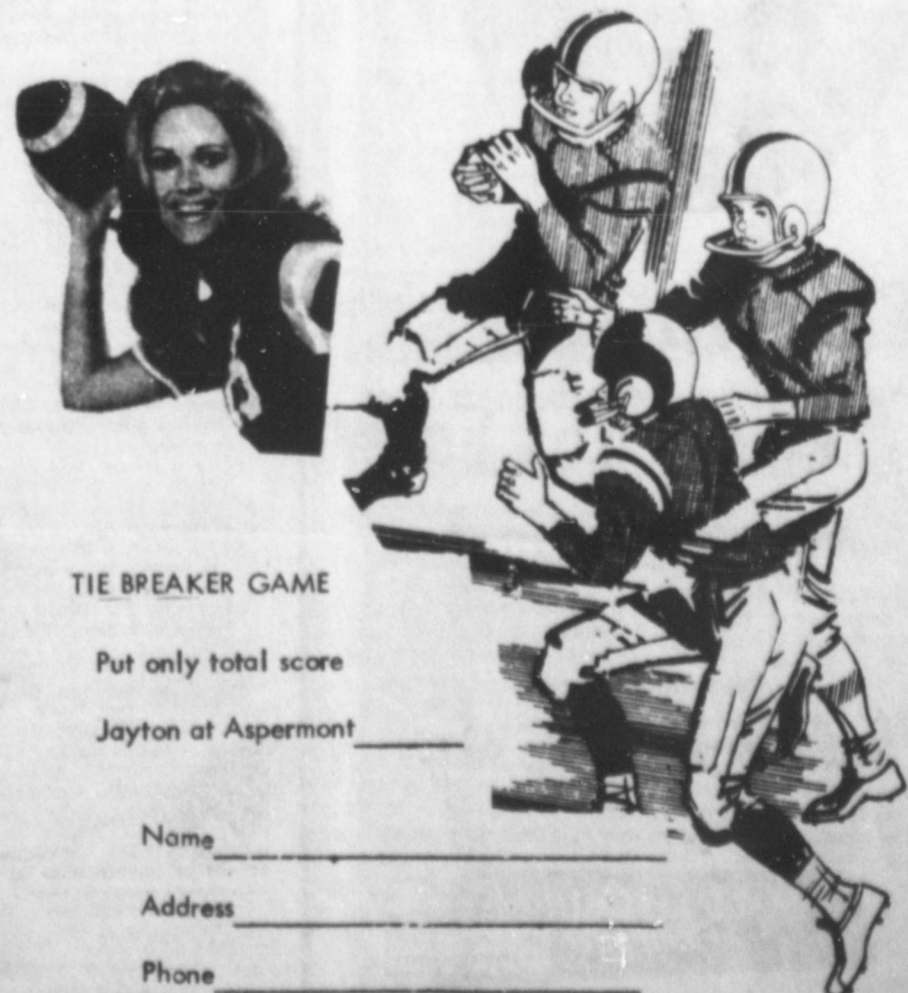

\$3.00 **2.00** **1.00**
FIRST PLACE **SECOND PLACE** **THIRD PLACE**

Join the fun. Guess the winners. Nothing to buy. Just circle the teams you think will win, fill in your name and address, and bring it to the Chronicle office, or get it into the mail before 5 p. m. Friday. Everyone is eligible except employees of the Jayton Chronicle, and members of their families.

Use this from here in the paper. Come by the office and we will give you a free form. Or, write it out on a piece of paper, in the same order as printed here, and that will do. The editor of the Jayton Chronicle is the sole judge as to the winner. In the case of tie, the amount will be shared. Be sure and mark the tie breaker score, which we will use in an attempt to break the tie. That is all there is to it, and you have a lot of fun. This contest is sponsored by the firms listed on this page. They are supporting the Jayton Jaybirds, Regional Champions, all the way.

CIRCLE THE WINNER

ABOUT PEOPLE YOU KNOW

By Clique Smith Phone 237-3593

Mrs. Jake Swaringen of Girard is now at home after a lengthy stay in the hospital at Stamford. She had surgery and then developed complications.

Mr. and Mrs. Loyd Rudder have returned home after visiting with their daughter and family, Mr. and Mrs. Don Browning. Don is a minister of the Church of Christ in Maryland. They also did some sight seeing which they said they enjoyed very much.

Loyd Rudder was in the Chronicle office Monday of this week and paid his subscription and also for George Taylor.

Steve Kidd is now at home after staying in the hospital in Hamlin, from Friday to Sunday where he was injured in the football game with Spur.

Those attending the funeral of John Smith Saturday at Lawton, from Jayton were Mr. and Mrs. Bonnie Smith, Mrs. Archie Smith, and James Henry Smith.

Mr. and Mrs. Joe Smith and Mr. and Mrs. Joe McAdor went to Brownfield Sunday to see his brother Tom who has been in the hospital and now is in the nursing home.

Mr. and Mrs. McDonald, the sister of Fidd Murrell visited here over the weekend.

Our sympathy goes to the family of Nan Nancy Jones. She was born at Jayton. Mrs. Ada Lou Joiner and Mrs. Harfoot visited with Mrs. Guy Brown one afternoon last week.

Mrs. Eula Fuller is now at home after a lengthy stay in Lubbock. Mrs. McLaury is staying with her.

Fair books are to be picked up at the extension office, we are told. They will not be mailed out. So go by and pick up one, if you want one.

A large rattlesnake was killed in the front yard of the Archie Smith family, and also the same day Joe Henavides killed a large one in his yard about two blocks away.

Jess Hall is now at home feeling lots better, and is up and walking about.

Bill, the son of Mr. and Mrs. Billy John Harrison was seeing a doctor Monday of this week.

Most changed Ford Division car for 1973 is the full-sized Ford. Shown here is the LTD four-door hardtop. All-new sheet metal below the window line and a new segmented grille give the 1973 Ford a more formal look. All 1973 Fords have a new impact-absorbing bumper system, although the overall length of the car is increased only about one inch. Power front disc brakes, power steering, SelectShift Cruise-O-Matic transmission and a 351-2V eight-cylinder engine are standard in all new Fords.

Health & Science Shorts

Hay fever victims are advised to wear glasses, and preferably the large type, during "the season" to avoid the possibility of pollen becoming trapped in the eyes. They should also keep doors and windows closed, particularly on windy, dry days. An air conditioner turned to "recirculate" is helpful. On high count days, staying home is recommended. Household, garden and insect sprays, and solutions with strong odors should be avoided.

Antihistamine drugs are usually helpful in controlling the sneezing, swelling and itching of eyes, nose and throat. A nasal spray such as NTZ which contains an effective decongestant and antihistamine is often recommended for temporary relief because it is mild and effective. Or, a physician may prescribe a tablet with a similar combination. Sometimes eye drops help, too.

Generally, the hay fever season reaches its peak between August 15 and September 15th. However, in some areas it lasts until November.

HOMECOMING OCTOBER 20-21

This Week...

from Page 1.

There is one thing in the execution of a football game, of the high school variety that has always bugged me. This is pertaining to a situation where one boy takes the ball and makes a long run, getting the ball in the shadow of the goal line. Then on the next play, some other boy is given the ball and makes the touchdown and gets the headline in the paper Saturday morning. Everytime I see this happen, it infuriates me. At such a time I would like to raise a knot on the head of the coach or quarterback who makes the decision to set up such an inequity.

I was extremely happy Friday night at the Post vs. Ralls game, to see people making decisions for the Post Antelopes handle this situation like I think it should be handled. Several times Post lads got good long runs ending near, but not quite in the end zone. And without fail, the next play the same boy was given the ball, and the opportunity to follow up.

On one occasion, David Conley, A Post Lad, carried the ball 73 yards, inside the ten yard line. He was called on then four consecutive times, and on fourth, down got his touchdown.

It has taken several years for me to see this, but now I can say this is the way I think it should be done.

Cattle Sale

A cattle sale will be held at Abilene Monday, Sept. 25 the proceeds to go to the Rehabilitation Center.

Anyone having cattle they would like to send is asked to contact Howard Goswick at 237-6283 they will be carried without cost.

Tricks With Tricot

NEW YORK (ED) — Tricot knit fabrics are coming into their own. These are warp knits which, unlike double knits, are knitted in flat form. They differ from the double knits in that they usually have stretch only in the crosswise direction. Tricot fabrics may be combination fabrics, such as those using Arnel, triacetate and nylon. Here's how to get best results sewing these tricot warp knits:

- Cotton-covered polyester thread is recommended.
- Ball point needle, size 7 or 9 for tricot.
- If edges tend to curl during cutting and sewing, use a spray starch to stiffen.
- Machine tension often needs adjusting. Loosen both top and bobbin; use longstitch, 8-10 per inch.
- Light pressure on the presser foot.
- Stay-stitch curves and other off-grain edges to stabilize garment; reinforce stress points with seam tape; use lightweight interfacing at buttonholes.
- Use a steam iron at appropriate setting for fiber content of fabric (usually medium setting).
- Use press cloth and light pressure with iron on dark colors to avoid glazing and impressions. For special care iron on reverse side.

Care Instructions

When buying these new fashion fabrics for home sewing, check the bolt end or fabric identification strip for care instructions. If this information is not available, ask the sales person to find out for you, and, after July, ask for a permanent label with care instructions to attach to the finished garment.

Our paychecks never stop. And there's always good work to be done. The Army Reserve. It pays to go to meetings.

It's 1973, and Chevrolet roofs are opening, seats are swiveling, bumpers are retracting, hatches are flipping up.

Did you ever have so much to talk about that you didn't know what to say first?

We're happy to report that's us for 1973. But since everything must begin somewhere...

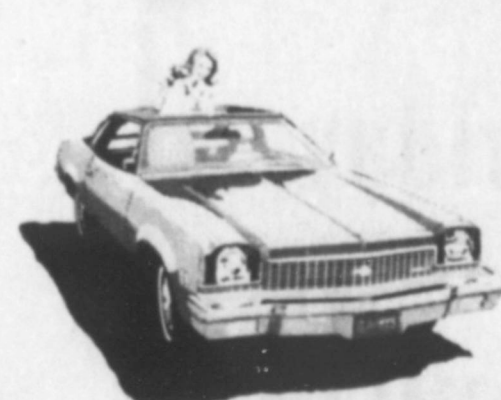

Isn't it romantic?

You see that rectangle beaming at you from above? That's a moonroof. Not to be confused with a sunroof. (Although many people will undoubtedly be caught using it like one.) A power roof is available on Chevelle and Monte Carlo; a manual one on Nova.

Bumpers are exciting?
This year's are something to get

stirred up about. One of our new bumpers, for example, is built around twin hydraulic cylinders. So on minor impact, the whole system retracts to cushion the shock.

It's standard on all big Chevrolet, Chevelle and Monte Carlo

New Nova Hatchback Coupe.

Look what we hatched

You know us for our little Vega Hatchback. Now dependable Nova has one. Which literally makes it half trunk with the backseat down. It's a feature as practical as Nova itself.

We've been thinking about your legs
One of the few things people asked us to improve in our popular Chevelle was leg room in the back seat. Well, your knees will be pleased with the '73s. There's almost 3 1/2 more inches in the sedans.

So what else is new

Naturally this is only a taste of what's new for '73.
Among other things, we're introducing larger gas tanks for longest cruising range, a new Exhaust Gas Recirculation system, a hatchback for wagons, and a highly refined flow-through power ventilation system.

Plus a reading light for front seat passengers, improved suspension systems, engines that give you performance combined with gas economy, reclining seats and scores of dramatic styling changes.

We invite you to see it all at your Chevrolet dealer's.

(above) Caprice Coupe. Our new uppermost Chevrolet. Its luxury, comfort and quiet ride rival the most expensive cars you can buy.

(below) Monte Carlo 5 Coupe. America's newest road car. With the handling of the finest European cars, and the looks and comfort of an American car.

Chevrolet
Building a better way to see the U.S.A.
