## The School Board To Meet Tonight

Jayton school board will meet in its monthly meeting in the board room at 7:30 p. m. tonight. The board will take application for the position of elementary custodian. The board will take bids on purchase of a new bus, and will receive a report from the auditor in charge of the building report.

Enrollment at the end of September was 275. This includes 133 in the first seven grades, and 142 in junior high and high school. Broken down it looks like this:

Kindergarten 13, first grade 12, second grade 25, third grade 12, fourth grade 19, fifth grade 20, and sixth grade 32.

Seventh grade 20, eighth grade 28, ninth grade 25, tenth grade 22, eleventh grade 29 and twelfth grade 18.

## Consistency Will Always Pay Off

This Week In Jayton

It just goes to show you, that consistency pays off. Jayton school superintendent R. N. Pierce consistently enters the Chronicle football contest, and he is always very close, and every year wins the top spot, at least once, and sometimes gets one of the other awards.

This year he has been one of "almost, but not quite" group until last week he came up in the top spot. He missed only two games, picking, wrongly Petersburg and Berger. He should have known Ole Chronicle Boy's alma mater Anton was going to win again.

He picked the total score in the tie breaker game at 36 when it was only 19.

Recently Congressman Burleson wrote a letter about the ability of different people to deal with problems, and how they worry they can't do it. People cannot handle many things, are those who do into serious trouble, and they don't.

Most people meet their pastor or pastor, he greets and gives them a warm greeting, and they are glad.

When the person may get an idea that he has few troubles and his life is practically a bed of roses. This is not the way it is.

Usually he has just about any personal problems the average person. But this is only the beginning. His congregation is large, he can spend half his time visiting the sick. And usually he has at least one member with a member with a terminal disease. He takes on many worries and share much.

Regularly there is sorrow, and here he shares sorrow, and extends sympathy.

Many people may be aware of it, but they are not. They are among the leadership, there is many a clash of personalities, and he has to stand in the middle, and try to do this at a minimum.

In addition to this, as a pastor, he almost daily called upon to advise counsel with people on their major problems, some even of a crisis nature. Many times counsel is sought, but needed, and then they wonder why he cannot help.

His capacity to deal with problems must be great, if he is to do everything that is expected of him.

Remember, when you are in trouble, and he smiles at you, it just could be he is smiling through tears.

## Judith Duboise Is The Fair Queen

Judith Duboise, daughter of Mr. and Mrs. Wilbur Duboise of Jayton, was crowned Kent-Dickens Fair Queen Thursday night in the Jayton High School Auditorium by last year's queen, Miss Sandy Parker of Spur.

The queen selection officially opened the annual fair that concluded Saturday night in Girard.

Jayton. She was first runner-up. Dewayna Bostic, daughter of Mr. and Mrs. R. G. Bostic of Spur was second runner-up and Jenny Ann Sharp, daughter of Mr. and Mrs. James Sharp of Spur was third runner-up. Fourth runner-up was Elaine Alldredge, daughter of Mr. and Mrs. Max Alldredge of Spur.

Miss Duboise is a senior at Jayton High School and is active in band, FHA and other school and church activities.

## Court Votes To Build Hangars At The Airport

The Kent County Commissioners Court, in its Monday meeting, passed four orders, and discussed several other matters in a fairly light schedule. Orders passed included: A motion was made by G. L. Hamilton and seconded by Donnie Carriker to pay all bills presented before the Court. Vote was unanimous.

A motion was made by Carlos Dickerson and seconded by G. L. Hamilton to approve the Treasurer's report for the period beginning the 30th day of June 1972 and ending on the 30th day of September 1972. Vote was unanimous.

A motion was made by Carlos Dickerson and seconded by G. L. Hamilton to purchase a 1973 Chevrolet pickup from Robert Hall Chevrolet Company meeting the above specifications as above bid for the amount of \$2369.81 trading in a 1967 Ford 1/2 ton pickup. Vote was unanimous.

A motion was made by G. L. Hamilton and seconded by Carlos Dickerson to enter into a contract with James New of Haskell, to construct three airplane hangars at the Kent County Airport for \$9,100.00 as above bids and to be completed by January 1, 1973. G. L. Hamilton, Carlos Dickerson, Sarah Byrd and Norman Hahn voting for the motion. Donnie Carriker voting against the motion.

## Clover 4-H Club

The Clover Boys 4-H Club met and elected Marion Perkins as the council delegate.

We discussed about what we were going to do in the County Fair.

Our trailer is going to be green and white. The trailer will be at Lex Dunham's house.

We are going to meet after school to decorate the trailer. Marion Perkins and Greg Nauret are going to tell about all kinds of bugs. The rest of the group are going to act like hillbilly's and throw signs.

Reporter-Robert Segura

Farmers' incomes have gone up less than 8% in the past 20 years, while the prices they pay have gone up by over 50%.

## Jaybirds Go To Hawley Friday

The Jayton Jaybirds will head south Friday into Jones County on a safari. Chief target will be the Hawley Bearcats. The Birds will be looking for win number three. They got one and two early in the season, then ran into trouble in the form of the Aspermont Hornets and

the Rule Bobcats. The Birds have won all games in their encounter with Hawley the past few years. But they must be played one at a time.

After resting last week, Coach English and the Birds are anxious to get hold of the ball again.

## Neskoric Funeral In Jayton Sunday

John J. Neskoric, 52, of Jayton died Thursday night in Jayton after an extended illness.

Services were held at 3 p. m. Sunday in First Methodist Church in Jayton with the Rev. Tommy Ewing, pastor of a Miami church, officiating, assisted by the Rev. Bill Perkins, pastor. Burial was in Jayton Cemetery under direction of Campbell Funeral Home here.

A native of Baylor County, Neskoric was married to Peggy Jo Turner on Dec. 2, 1945, in Seymour. They moved to Kent County in 1951.

He was a maintenance worker for Jayton and Girard school districts. Neskoric was a World War II veteran.

Survivors include his wife; a daughter, Mrs. Bill Dawson of Floydada; three sisters, Mrs. Charles Sedlazeck of Seattle, Wash., Mrs. James H. Padis of Blackfoot, Idaho and Mrs. Mary Chaney of Madera, Calif.; four brothers, Gabriel Neskoric of Paducah, Gene Neskoric of Capulin, N.M., and Joe Neskoric of Seymour; and one grandson.

Palbearers included Norman Hahn, Bill McMeans, Jake Swarengen, R. N. Pierce, Floyd Hall and Garth Gregory.

## 700 Attracted To The Fair Saturday

By MARK A. GEESLIN

A record number of entries were exhibited at the annual Kent-Dickens County Fair in Girard Friday and Saturday, Oct. 6-7. A crowd estimated at 600 to 700 attended the activities Saturday.

The Fair began with the selection of Judith Duboise as the Fair Queen. The contest was held Thursday night in the Jayton School Auditorium. Runners-up were Bobette Hamilton, Dewayna Bostic, Jeanny Ann Sharp, Elaine Aldridge, Minette Geeslin, D'Ann Galloway, Nancy Bass, Dana Hahn and Vaneaca Redding.

Exhibits were entered on Thursday in the following divisions: hobbies, antiques, food, textiles, art, crops, educational exhibits and flowers. Classes in each of these divisions were judged Friday morning. Judges commented that this was a larger county fair than several other county fairs that have been held in this area.

Livestock were entered and judged Friday morning with entries in breeding beef and steer classes.

Saturday's activities included an open horse show, special horse matched events, and a junior rodeo. A team of sky-divers performed on Saturday afternoon.

A complete list of winners will be available for the newspaper next week. Total entries: 831-women divisions and 153 crops, livestock and horses.

Once again something good has happened in Washington--at least for the time being. The Senate has abandoned efforts to pass a Consumer Protection Bill before the Congress either adjourns or recesses at the week's end.

In October of last year the U. S. House of Representatives passed a measure creating an Office of Consumer Affairs within the Executive Office of the President. The stated general purpose of the proposal was to coordinate Federal consumer protection activities.

The Senate bill goes much further. It would create a new super-agency to preside over an estimated 24 other Federal agencies affecting 554 different types of proceedings and activities. In other words, it would be another all-powerful bureaucratic operation over about every other department, commission, bureau and agency. The power given to the three men appointed to administer the authority would appear to be greater than that now given to the Environmental Protection Agency, which is proving to have almost unlimited control over our industrial capacity and which is doubtless going to cost consumers extra money.

It seems we have forgotten the doctrine voiced by Patrick Henry in the Virginia Convention of 1788 when he advised "power ought always to be distributed sparingly on the assumption that bad men will use it badly, for it is likely they will."

In this proposed legislation the agency has the potential of being a government on top of another government.

Everyone recognizes that there are problems in our complicated economy and particularly in the marketing end but the problem has been seized upon with somewhat the attitude that Washington must tell all consumers what is good for them and how it is going to take care of them in the day of the village blacksmith standing under a chestnut tree, the consumer had an easier time. If the shoe didn't fit, he could lead the horse back. Responsibility was direct and the customer recourse was immediate.

Obviously nothing like this exists today--TV sets made in Japan; a shoe made in Italy. Responsibility becomes blurred when defects show up.

### As It Looks From Here

By Rep. Omar Burleson  
Member of Congress, Texas

The Texas Department of Public Safety is seeking applicants to fill the ranks of its uniform services. The training school for cadet patrolmen will begin November 28. This announcement was made by Major C. W. Bell, Regional Commander of the Texas Department of Public Safety for this area.

Applicants must be males between the ages of 20 and 35; a height of not less than 68 inches nor more than 76 inches; a weight of not less than three and one-half pounds per inch of height; visual acuity no less than 20/40 correctable to 20/20; at least 30 semester hours of college credit; in excellent physical condition; good moral character; and a citizen of the United States.

Applicants are urged to contact any Texas Department of Public Safety office or patrolman for an application. After completing the application take it to the nearest regional, district or sub-district Texas Department of Public Safety office for verification and certification. If all is in order then the written test will be administered which will qualify or disqualify the applicant for further consideration. Successful applicants will be given an aptitude test, a character investigation, and a physical examination. Those accepted for employment will be notified prior to the beginning date of the next training school.

Cadet patrolmen will be assigned to the Texas Department of Public Safety Law Enforcement Academy in Austin, Texas for a 12-week training period. The training is designed to equip the cadet to handle any of the various situations he may encounter as a patrolman. The training of a patrolman is a test of an individual's intellectual, emotional and physical stamina. It is also an educational process which prepares him for a rewarding career in law enforcement.

In addition to classroom work the cadet is taught self-protection by means of judo, boxing, wrestling, and other police-protection methods.

The salary during training is \$600 per month. Upon being commissioned a patrolman, the salary is automatically raised to \$743 per month. Patrolmen received additional longevity pay for each five years of service to a maximum of 25 years. Uniforms, vehicles, weapons, ammunition and necessary equipment are furnished. They are also granted a monthly uniform cleaning allowance and receive travel expenses when away from their assigned station. Group life and hospitalization insurance are available at reasonable cost. The patrolmen become members of the Texas Employees Retirement System and the Social Security System. Vacation, holidays, and sick leave are also provided for the patrolmen.

Assignments will be made to one of the four uniform services-- Texas Highway Patrol, License and Weight, Motor Vehicle Inspection, or Driver License. These assignments are made according to the individual's preference, his aptitude, available vacancies, and the Department's needs. Requests for a specific home station will be given every consideration.

After two years of experience each patrolman is eligible for promotion to Sergeant in the uniform.

### Magnetic Fiber Aids Processing

Magnetism may lead to a new way of processing raw cotton fibers, the National Cotton Council notes.

Scientists of the U.S. Department of Agriculture's Agricultural Research Service have succeeded in making small amounts of cotton responsive to magnetic forces. This makes it possible to move fibers about freely from the bale into yarn in one continuous operation.

Finely powdered iron particles were evenly distributed when suspended in a wetting agent made of partially neutralized oleic acid.

In effect a dilute soap solution, the wetting agent dispersed the particles evenly over the individual fibers without causing them to stick together. It actually tended to lubricate the fibers.

The iron can be washed away at any point. There is little likelihood of chemically altering the cellulose. The fabric thus could be chemically treated for a variety of effects such as durable press or flame resistance.

Cotton processing techniques have remained essentially the same over the past 200 years and scientists see the possibility of eliminating a number of steps through making the fibers respond to magnetic forces.

## When a man has a brother

A man's got to look after his brother. That's what Timmy said the other day, as he stood beside our baby. And I told him he was right. "You are so much stronger than this tiny, little creature," I said. "From now on, you've got a real responsibility!"

A man *does* have to look after his brother . . . especially when that brother is weak. But there are moments, too, when even the strongest man may need a brother. —especially on Worldwide Communion Sunday!

In the eyes of the Church, all men are brothers, just as all men are equally beloved. As long as there is a church near you, you are not alone. You have only to open the door and walk in and you will be at one with your fellow man . . . and at home with your brothers.

 FIRST PLACE      SECOND PLACE      THIRD PLACE

Join the fun. Guess the winners. Nothing to buy. Just circle the teams you think will win, fill in your name and address, and bring it to the Chronicle office, or get it into the mail before 5 p. m. Friday. Everyone is eligible except employees of the Jayton Chronicle, and members of their families. Use this form here in the paper. Come by the office and we will give you a free form. Or, write it out on a piece of paper, in the same order as printed here, and that will do. The editor of the Jayton Chronicle is the sole judge as to the winner. In the case of tie, the amount will be shared. Be sure and mark the tie breaker score, which we will use in an attempt to break the tie. That is all there is to it, and you have a lot of fun. This contest is sponsored by the firms listed on this page. They are supporting the Jayton Jaybirds, Regional Champions, all the way.

#### Waldorf Salad

1/2 cup sugar  
 1/2 tsp. salt  
 1/2 tsp. grated lemon  
 1/4 tsp. cinnamon  
 1 cup plain yogurt

To prepare Dressing: In a small bowl mix together sugar, salt, lemon rind and cinnamon; fold in yogurt.

2 c. chopped unpeeled apples (2-3 apples)  
 1/2 cup onion juice  
 1/2 cup chopped celery  
 1/2 c. seedless raisins

To prepare Salad: Dip apples in lemon juice. In a medium bowl toss apples, celery, walnuts and raisins with dressing. Cover and chill.

#### Fruit Gelatin Ring Mold

1/2 lbs. lemon-flavored gelatin  
 2 c. hot water  
 1/2 cup fruit syrup drained  
 1/2 cup peaches and pineapple  
 1/2 cup peach halves, drained  
 1/2 cup apple slices, drained  
 1/2 cup sweet cherries, drained  
 1/2 cup green peas  
 1/2 cup green beans  
 1/2 cup green peas  
 1/2 cup green beans  
 1/2 cup green peas  
 1/2 cup green beans

(1 1/2 quarts) and chill until almost firm. Set pineapple slices in gelatin with a dark sweet cherry in the center and pour in gelatin just to cover. Chill until firm. Stand peach halves upright against sides of mold and place cherries above pineapple slices. Pour in gelatin to cover peaches about one-half and chill until firm. Add remaining gelatin and chill thoroughly. Unmold and garnish with salad greens. Serve with a whipped cream dressing. 6 to 8 servings.

## Breakfast Is Important

We need more than 45 different nutrients for good nutrition and health. Different people need different amounts of each nutrient depending on age, size, sex and physical activities. We get these nutrients by eating a variety of foods each day. But breakfast is an important first source of these nutrients each day.

Although many foods can be eaten in the morning, a quick-to-fix breakfast that helps provide many of the 45 or more nutrients is citrus juice or fruit, cereal with milk, toast with butter or margarine and milk to drink.

# DON'T TAKE RURAL TEXANS FOR A RIDE...

...AND DON'T TAKE US FOR GRANTED.

### HERE'S WHAT NIXON IS DOING TO RURAL AMERICA

**WHEAT SCANDAL** - Giant wheat exporters made huge profits at the expense of individual wheat farmers, many in Texas, on Soviet trade.

**TAXES** - Wall Street Journal says federal laws favor the corporation or investor who farms on the side for a tax write-off.

**FARM ISSUES** - Under Nixon, parity dropped the lowest since 1933. Nixon held up payments of nearly \$400 million for feed grains in 1970, forcing farmers to borrow at highest interest rates in history.

**CONGLOMERATE SCANDALS** - Big Business first, the public second - that's the Republican philosophy. Anti-trust suit against ITT dropped at the same time ITT pledged \$400,000 to finance Republican Convention.

Harry S. Truman said, 'The Republicans admire our government so much they want to buy it.'

Let's face it. The Republicans just haven't changed much since the days of our grandfathers. They still favor Big Business over the average working man and woman. And while they're taking us for a ride, they keep telling us what a 'dangerous radical' Senator McGovern is.

That's what they said about Harry S. Truman.

### HERE'S WHAT MCGOVERN IS DOING FOR RURAL AMERICA

**HIS STANDING** - George McGovern has been elected time and again as a Democrat from a Republican farm state... because they know where he stands.

**TAXES** - His tax proposal would end the loopholes for tax-loss farming by giant corporations and the wealthy individuals who compete unfairly with family farmers. McGovern's proposal calls for the same tax on capital gains as on earnings.

**FARM ISSUES** - He sponsored and co-sponsored: Meat Import Limitation Law; Dairy Import Act; Wheat, Feed Grain, and Soybean Emergency Reserve Bill; Rural Development, Rural Job Development, and Rural Telephone Acts; Farm Credit Act; and other pieces of important legislation.

**HIS BELIEFS** - George McGovern knows that the answers to many of our most pressing problems in America today can be found by developing genuine opportunities for everyone in our small towns and rural areas throughout the country.

Let's not be taken for granted by the Nixon Republicans. Rural America has always fared best under a Democratic administration. If you want to stand up and do something good for rural America, the answer is to help put a Democrat in the White House. We need George McGovern... and George McGovern needs us.
