TAX MAN SAM SEZ:

If you have found yourself wishing that somebody had hanged Alexander Graham Bell with a potato vine when he was a mere boy, consider the In-ternal Revenue folks. During the recent income tax filing season they had about 300,000 taxpayer calls. More than 125,-000 additional taxpayers dropped by for a visit with the tax folks. Since the Dallas District receives about 1,600,000 tax returns, it would appear that about one taxpayer in four decided to have a few words with Internal Revenue before he voluntarily complied. Some 49 per cent of the tax Old Glory, prior to

returns come from the Dallas-Fort Worth combined metropolitan areas, but three-fourths of all the telephone calls were received at the Dallas and Fort Worth offices. 54 per cent of the visitors also showed up at the big city offices. Wichita Falls won the popularity contest among the other seventeen offices, Lubbock, Amarillo, Ab-ilene, Odessa, Midland and Plainview had more telephone calls than walk-in visitors, but the margin was narrow. The farm and small town areas appear to have had more visitors from outside the headquarters city, and these people naturally were walk-in visitors, since apparently they came to town for that purpose, Tyler, San Angelo, Sherman, Texarkana, Lufkin, Big Spring and Vernon were in this group. Longview, Brownwood and Pampa bucked the tide for their types of communities and had more telephone ealls than walk-in visitors. The next time you feel that you are doing nothing but answering your telephone, just remember -it's easy to find proof that Internal Revenue finds time for lots of other things besides talking on the phone.
