

Tommy Waggoners Enjoy Mexican Trip

The Tommy Waggoners recently returned from a nine day trip to Mexico City and Acapulco. While riding the train from Laredo they met Mrs. Arthur Wachs and Mrs. Ed Druckmer of Brenham, with whom they spent the remainder of the trip. While in Mexico they visited the Pyramids of the Sun and the moon, the Guadalupe Shrine, 16th Century Academy Monastery. On the second day they visited Chapultepec Castle and Park, University of Anthropology Museum, Pedregal, Lava Glass, glass blowing factory, Olympic Village, and the Indian Village, both

ride through Xochimilco Floating Gardens, and the Mexican Folklore Ballet. Next on the trip was a sightseeing trip to Cuernavaca, shipping in Texaco silver mine shops, and then on to exciting Acapulco. In Acapulco they saw Cliff divers, went sightseeing along beach and road in glass bottom boat. On all the tours they had English speaking guides. While in Mexico City they ate at London's, and Delmonico's in the heart of the pink zone, where the Mexican elite meet to eat. It was reported they had a marvelous time and a well deserved ninth anniversary (first vacation) trip and plan to go back next year.

HOW TO GO TO WORK WHEN YOUR HUSBAND IS AGAINST IT. YOUR CHILDREN AREN'T OLD ENOUGH AND THERE'S NOTHING YOU CAN DO ANYHOW
FELICE M. SCHWARTZ, MARGARET H. SCHIFFER & JUAN S. GILLATH
If you are college-educated; if you have a family to care for but don't like to combine your domestic routine with an interesting, challenging career; if you want to make a valuable contribution outside your home as well as in it, but don't know how you'd manage it, or who would hire you, or even what you'd like to do...Then this is the book for you.

MARTIN SMITH
A new suspense thriller featuring Roman Grey, the captivating Gypsy who made his debut in 'Gypsy In Amber'. When St. Stephen's Crown (the Royal crown of Hungary) is set for display at St. Patrick's Cathedral before being returned to Budapest, Church authorities, the NYPD and the U N persuade antique dealer and goldsmith, Roman Grey, to assume responsibility for the priceless relic. He understands all too well why he was picked for the job: as a gypsy with no powerful friends, he is the perfect scapegoat should the crown disappear. Knowing that a group of fervent, anti-communist Hungarian-Americans and an ex-Nazi art thief are equally intent on waylaying the crown, Roman demands that his personal friend, Police Sergeant Isadore, help with the security. As he works to protect the priceless crown—a treasure that triggers the best efforts of forgers, counterfeiters and a brutal killer—Roman uncovers a dormant secret that has laid hidden for centuries.

The Annual Staff Plans A Good Book

The JAYBIRD annual staff is getting under way this year. For the first time the book is no longer a senior project, but the responsibility of the entire high school. The staff is chosen from students in grades 9-12. The 1974-75 staff consists of: Terry Sweet, D'Lynn Byrd, Co-editors. Paula Mayer, Business manager. Minette Geeslin, chairman of ad sales. David Fincher, chairman of book sales. Valrie Panter, head typist. Billie McCombs, assistant typist. Working under Minette will be Karen Smith, Nylene Sherer, and Jn Kimmel. The book sales committee consists of Timmy Parker, and Jan Luna. Mr. Eugene Harris is

in charge of photography with Vickie McMeans, and LaFonda Arnold helping him. Mrs. Nichols and Mr. Cleveland are sponsors. The staff has high hopes for this year's annual with the increased color content and higher quality book. We will be striving to produce the most outstanding book ever presented. Due to rising costs of paper and other items related to publication, the advertising rates have been advanced in price. This will enable the staff to produce a higher quality book. Your patronage and support of the yearbook have been truly appreciated in the past years. We plan to continue the good business relationship.

4H Planning Meeting Planned Aug. 23rd.

A training meeting for Kent County 4-H Club members, parents, and adult leaders will be held at the 4-H Barn in Clairemont, Friday afternoon, August 23rd at 4:30 p. m. Ideas and suggestions on selection of livestock projects and feeding and management of 4-H Club. Two Extension specialists will present the program on selection and

management. Dr. Gilbert Hollis and Dr. Dennis White will demonstrate selection and management practices with hogs, lambs, and beef steers. This is an excellent opportunity for everyone to get ideas from these specialists. Mark Geeslin, County Extension Agent-Agri, Kent County

New Decay Fighter

Good news for parents, and youngsters, came recently in the form of an announcement from the Institute of Dental Research in Philadelphia.

The Institute says a new decay-preventative can be easily applied to teeth to smooth rough surfaces and prevent decay. In a recent test involving Montana children the new application was found to be more effective than fluoride.

The adhesive sealant was found still effective two years after application—in the Montana test. And in the same experiment a single application of the new sealant was effective in preventing tooth decay in almost seven out of ten children.

Added to news that federal researchers are about to announce another decay-preventing discovery for children—a chewing gum which contains a harmless chemical that fights tooth decay—the battle against cavities which has gone on for centuries seems about to be won, for children at least.

Goldwater On Press

Despite the fact that the news media played a major role in forcing former President Nixon's resignation, the media's Watergate record includes much of which no newsmen can be proud.

Reporters flushed out the scandal, and the culprits, in the best journalistic tradition. But reporters and commentators also spread hundreds if not thousands of false reports and statements—and there was much slanted reporting and far too much slanting in television newscasts.

Innocent people were hurt, the guilty were almost precluded from a fair trial by an unfair media, and the bitterness, hatred, and lack of restraint exhibited by many media members, reflected in their work, was a poor example to the nation. It is a threat to a free press.

Barry Goldwater, the Arizona Senator, expressed the disgust and frustration of too many Americans when he lambasted the news media in a Senate speech on a day two networks had reported on his activities. Goldwater looked up at the galleries and called media representatives a "rotten bunch."

Significantly, the galleries cheered. (One network later apologized and admitted its error.) When the people cheer such attacks on the media, it bodes no good for future freedom, and privileges, of the media.

TV Viewers

One of the ironies of television is that recent studies show Americans who watch the boob tube most are persons over 50. And women over fifty sit in front of the box more hours than men—many over thirty hours a week (according to an A.C. Nielsen report).

The older generation, in general, abhors crime and much of the violent deluge they see on U.S. commercial television. But to get the last possible moron to watch, standards are lowered to rock bottom by those selling sponsors and products. The result is the present steady diet of crime-teaching, violence, sadism, shock and horror—to draw audiences sell.

It would seem, in view of the latest report on the ages of dedicated television viewers, that better programs, in better taste, would sell more. Since Congress and the Federal Communications Commission appear intimidated by the television industry, and do little to clean up programming, perhaps viewer considerations and expressions can eventually sway network and show-biz types to improve American television fare.

Paul's Epistle to the Ephesians...

Knowing that whatsoever good thing any man doeth, the same shall he receive of the Lord, whether he be bond or free.
 And, ye masters, do the same things unto them, forbearing threatening knowing that your Master also is in heaven; neither is there respect of persons with him.
 Finally, my brethren, be strong in the Lord, and in the power of his might.
 Put on the whole armour of God, that ye may be able to stand against the wiles of the devil.

DEAR EDITOR

I voted against the new constitution because:

(1) My impression of a constitution is that it is a document that sets up a government and protects the people that it governs. The current constitution does this; the one offered to us to vote on after 6 p.m., Tuesday, July 30, set up a government that gave all of the authority and power to the legislative, judicial and executive branches and left the people at the mercy of their government.

(2) As their delegate I could not, in good faith, recommend it to the people of the 101st Legislative District or to any Texan as a fair and open contract between them and their government and.

(3) I could not sanction continued waste of the taxpayers' money which I had opposed from the beginning. Any unbiased evaluation of the proposed document will show it to be an attempt to extend to the legislature unwarrantable jurisdiction over the people. The proposed constitution, in my opinion, failed because the convention leadership became so entangled in attempting a compromise between labor and management that individual rights of the people's constitutional safe-

guards were relegated to a secondary and oftentimes forgotten purpose. The people's rights and

protection have been best preserved and protected by defeat of a document inspired, nurtured and fully written in the crucible of personal and vested interest politics.

Loyalty Oath for Teachers?

May a public school teacher be required to take a loyalty oath? Yes, provided that the oath stays within constitutional bounds. Consider the case of a high school teacher who balked at swearing to uphold the state and federal constitutions.

"I just don't like the whole idea of loyalty oaths," she explained in a court hearing. "They are an infringement upon my freedom of conscience." But the judge said this kind of an oath was nothing more than is

expected of most public officials, up to and including the President. He quoted the following comment from the United States Supreme Court:

"Obviously the framers of the Constitution thought that an affirmation of minimum loyalty to the government was worth the price of whatever deprivation of individual freedom of conscience was involved."

Nevertheless, some oaths have been thrown out by the courts for going too far.

Another case involved a declaration that the teacher had never lent "aid, support, or advice" to the Communist Party. Wouldn't this apply, a court wondered, to everyone who had ever supported any cause that the Communist Party had also happened to support?

The court concluded that it was unconstitutional to require an oath "in terms so vague that men of common intelligence must guess at its meaning."

Also rejected was a requirement that teachers submit an annual list of every organization to which they had either belonged or contributed during the previous five years.

The court felt that such a requirement intruded upon the teacher's right of free association. The court said there were all sorts of outside relationships that "could have no possible bearing upon the teacher's occupational fitness."

From the Recipe Files of Opal Richards Pear Dumpling

4 fresh pears
1 package refrigerated crescent rolls (8 rolls)
4 teaspoons red cinnamon candies
2 tablespoons sugar

Pare and core pears, leaving whole; set aside. Separate refrigerated dough into 4 rectangles, sealing diagonal perforations. Place one pear upright on each rectangle. Fill center of each pear with 1 teaspoon cinnamon candies; sprinkle 1 1/2 teaspoons sugar over each. Moisten edges of dough; bring up around pear and seal. Grease four 6-ounce custard cups or four 2 3/4-inch muffin cups thoroughly. Place one dumpling in each, seam side up. Bake in 425° oven for 10 minutes; reduce oven temperature to 350° and bake dumplings 20 minutes more. Place each dumpling in serving dish; serve warm with cream or ice cream. Makes 4 servings.

IT'S CANNING TIME!

PEAR PRESERVES

3 quarts pears (sliced or chopped) 4 1/2 cups sugar
3 cups water or juice 6 slices of lemon (if desired)
PAPE fruit (if hard, cook until tender in water). Make syrup of liquid and sugar, add fruit to partly cooled syrup and bring gently to boil. Add lemon, if desired. Boil rapidly until clear and tender. Let stand in syrup to cool. Pour fruit into sterilized KERR Jars. Reheat syrup to boiling. Pour over fruit and seal each jar as filled.

PEAR BUTTER

WASH pears. Do not peel. Slice. Add small amount of water to start cooking. Cook until very soft. Press through sieve. To each cup pulp add 1/2 cup sugar. (Spices may be added—1/2 teaspoon cinnamon to 3 cups pulp.) Cook until thick, stirring frequently to prevent scorching. Pour into sterilized KERR Jars and seal while hot.

PEAR CONSERVE

5 pounds firm pears (15 cups sliced)
10 cups sugar 1 cup orange juice
2 cups seedless raisins 4 tablespoons lemon juice
1/2 cup orange rind, cut fine
PEEL pears and cut in small pieces. Add sugar and let stand overnight. Then add raisins, orange rind cut in small pieces, and juice of oranges and lemons. Cook until thick, or about 30-35 minutes. Pour into sterilized KERR Jars and seal while hot.

ABOUT YOUR HOME

By April Rhodes

For a quick first aid treatment for burns, apply cold water (tap or ice). This helps relieve the pain and prevents blistering and infection.

Getting back into school or college clothes may find the young miss noticing her skin a bit dry. If so, apply oil generously at night.

Update last fall's dresses by adding crisp collars and cuffs.

Another thought for repelling insects is to avoid use of heavy perfumes while attending yard parties or cook outs. Insects, especially bees, love sweet scents.

Fashion

Many of the shops are filled with fall clothes and sales on summer garments and shoes have been going on for weeks.

The girl who has a limited budget will be smart to watch for sales but she should know the value of things and not buy because they are listed at half price.

Nothing is a bargain if it cannot be made to fit or if the color is unbecoming. Nor is a twenty dollar shoe for ten dollars a buy if the last of the shoe is too narrow.

Not A Prayer

St. Peter challenged the Devil to a game of baseball, claiming that all the great baseball players were up in Heaven. "You won't stand a chance," "And why not?" asked St. Peter. "Well," replied the Devil, "we have all the umpires down here."

TRAFFIC TOLL DOWN

CHICAGO—The National Safety Council has reported that partly due to the 55-mile-an-hour speed limit on the nation's roads, 6,000 fewer persons were killed during the first half of this year than in the same period in 1973.

Fall Fever

September brings with it (in most parts of the country) the first cool winds, school, football, burning leaves and nostalgia.

Why is it autumn produces such a tug on memories? Perhaps it is because growth and a summer are dying and the end of a life cycle is so visible. It is a beautiful death—red and yellow, brown and orange in the fields and forests.

But colder weather is coming on, the end of a year as well as a season, and naturally one looks back. All of which is good in our fast-moving world, when so few of us take time to remember the old days, the good friends, the great moments and the dear ones gone or far away.

Bride Is Honored

Mrs. Don Russell was honored with a bridal shower, July 27 at 3:00 p. m. at the Girard Community Center.

The bride's chosen color, blue, was accented in the flower center piece.

Honor guest was Mrs. Albert Harris, mother of the bride-groom.

Hostesses were: Willie Rudder, Rita Scott, Teressa Jo Taylor, Lucy Browning, Lou Ann Gregory, Ethel Long, Ethel Carr, Jewel Hooper, Nelda Wright, Becky Gregory, and Alta Jean Gregory.

The hostess gift was an electric blanket.

September, 1974

There was that nameless splendor everywhere,
That wild exhilaration in the air . . .

—Longfellow

September is the month of the harvest moon (this year on the 1st)—the moon which appears above the horizon at about sunset for several days, giving enough light for farmers to harvest their fields after the sun is down.

Hitler marched into Poland, September 1st, 1939, and touched off World War II.

Labor Day falls on the 1st this year. The first Continental Congress met on the 5th in 1774—in Philadelphia, James Fenimore Cooper, the great novelist, was born on the 7th at Burlington, N.J., in 1789. The famous Galveston hurricane struck that Texas city on the 8th in 1900. The 9th is Admission Day in California—dating from 1850 when California became a state.

The British defeated George Washington and his army at Chadd's Ford in Pennsylvania on the 11th, in 1777, and took Philadelphia two weeks later as a result, in their third try. The 12th is Defenders' Day in Maryland, dating from the War of 1812 with the British; John Barry, the father of the U.S. Navy, died on the 13th in 1803. The 15th is the birth anniversary of William Howard Taft, born in Cincinnati, in 1857—elected President in 1908.

Baron Friedrich Wilhelm Rudolph Gerhard Augustin von Steuben was born in Prussia on the 17th in 1730, years later came to America and trained George Washington's army and helped the Colonies win their independence. On the 18th in 1793 the cornerstone of the capital was laid by George Washington with Masonic ceremonies. And the 23rd is the birthday anniversary of William McGuffey (Claysville, Pennsylvania) in 1800, whose school readers were to be read by millions of American youngsters.

ORNAMENTAL GOURDS - CHILDREN LOVE THEM

If you want to make a child happy give him a packet of gourd seeds to plant. The seeds are large and easy to handle — like pumpkin seeds — and they like to be planted directly into the garden — after all danger of frost. Once in the ground, they germinate quickly and grow at the rate of several inches a day.

Although ornamental gourds do grow as vines and need plenty of room, they can be grown up a chain-link fence, trellis or chicken wire to save space, and they need a good sunny location.

Male and female flowers grow on the same plant. You can tell the females by the immature baby gourd at the base of each flower. When it is pollinated by an insect carrying pollen from the male flower, the baby gourd will then grow quite fast.

During late summer and fall the vines produce hard, odd-shaped gourds. Some look like pears and oranges. Others resemble bottles and eggs, while

some will be warty or striped. The gourds should be picked with a short piece of stem intact, then dried and varnished to make long lasting decorations. Children will also love to play with the many different shapes, creating animals and birds by sticking legs and heads on them.

Another trick, while the gourds are half-grown is to scratch your child's name on the skin. Where the skin is scratched the gourd will form a scar, and as it grows your child's name will be permanently displayed, growing bigger as the gourd grows big.

On Alcohol

The latest medical advice on the consumption of alcohol comes from a trio of doctors who specialize in heart, liver and brain medicine. The safe limit of alcohol which can be consumed, according to this trio, is about six ounces daily.

This seems a very liberal allowance to some, since it's a daily allowance and since six ounces adds up to two or three drinks. Thus the announcement by the three doctors, at a Central States Institute of Alcohol meeting in Chicago, may or may not result in the reduced consumption of alcoholic beverages.

Other warnings in recent years have been to the effect that one should not imbibe daily, and that warning is still valid, because the daily intake of alcohol upsets the system, and is often habit-forming. And habit can lead to increasing dependence and consumption.

While the group of doctors doesn't advise anyone to drink, the fact that these specialists apparently okay a drink or two a day, as tolerable if not habit-forming (which it may be), is at variance with much advice and many warnings of the past. Some held that every intake of alcohol caused inevitable damage to the brain, and perhaps to other organs of the body.

People often seek excuses for their failures instead of trying to do something about them.

Religion is like food: different people take it in different forms but everyone needs it.

If you sacrifice your principles for popularity, you lose much and gain nothing worth having.

Helping others in the battle of life is just as heroic as waiting for them to fall in order to help lift them up.

August 15, 1974

Jayton-Girard Independent School District announces a free and reduced price lunch policy for Jayton school children unable to pay the full price.

Local school officials have adopted the following family size and income scale to assist them in determining eligibility.

Family Size	Free Meals	Reduced Price Meals
1	\$0-2910	\$2910-4080
2	0-3830	3830-5360
3	0-4740	4740-6630
4	0-5640	5640-7900
5	0-6480	6480-9070
6	0-7310	7310-10,240
7	0-8060	8060-11,290
8	0-8810	8810-12,340
9	0-9510	9510-13,320
10	0-10,190	10,190-14,260
11	0-10,860	10,860-15,200
12	0-11,530	11,530-16,140
Each Additional Family Member	\$670	\$940

Families falling within these scales or those suffering from unusual circumstances or hardships are urged to apply for free or reduced price lunches for their children. They may do so by filling in the application forms sent home in a letter to parents. Additional copies are available at the Principal's office in each school. Applications may be submitted any time during the school year. The form itself is simple to complete and requests information needed to determine economic need based on the income and number of persons in the family and any unusual circumstances or hardships which affect the family's ability to pay for school lunches. The information provided on the application will be confidential and will be used only for the purpose of determining eligibility.

Under the provisions of the policy the Business Manager will review applications and determine eligibility. If a parent is dissatisfied with the ruling of the local official he may make a request either orally or in writing for a hearing to appeal the decision. R. N. Pierce, whose address is Jayton, Texas has been designated as the Hearing Official.

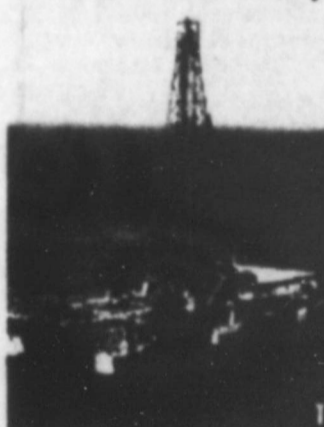

The policy also provides that there will be no identification or discrimination against any student unable to pay the full cost of a lunch.

A complete copy of the policy is on file in each school and in the office of the Business Manager where it may be reviewed by any interested person.

New Oil Discovery

Gulf Oil Company-U.S. announced that a significant oil discovery has been made by this Mariner II semisubmersible rig in the Gulf of Mexico, 110 miles southeast of New Orleans. The discovery well is the first wildcat to be drilled on acreage leased by the Federal Government in December, 1973. Gulf (50%) and its partners-Texaco and Tenneco (25%)—paid \$61 million for the lease on the 3,544-acre tract. The company said multiple oil bearing sands were logged and cored to a depth of 8,391 feet on the well which has been projected for 10,000 feet. Although development drilling on the tract will continue in 1975, Gulf said oil from the new discovery probably will not begin flowing to U.S. consumers before 1976, due to the long lead times necessary to build and install production facilities. The Mariner II rig is owned and operated by Sante Fe Drilling Company.
