# **District Food Show** Held in W. Falls Saturday, March 13

The District III Food Show was held at the Sikes Center Mall, Saturday, March 13, in Wichita Falls.

Girls and boys from 21 counties participated in the event. Those from Kent County who attended the food show were: Pat and Donnie Carriker, Edd Hilton, Roseanna Johnson, Mattie Hilton, Bert Stanaland, Jan Harrison, Melissa Cheyne, Jackie Harrison, Stacy Hilton, Janet Johnson, LaRhonda Carriker and Lori Murdoch.

The participants were judged on their dish, knowledge of nutrition, a days menu and a record score (seniors only), by professional home economists from the different counties in the district.

Girls from Kent County won the following ribbons: Melissa Cheyne, junior main dish division, red ribbon, Stacy Hilton, junior bread and desserts division, red ribbon, Lori Murdoch, junior snacks and beverages, blue ribbon, LaRhonda Carriker, senior bread and desserts, red ribbon, Janet Johnson, senior snacks and beverages, blue ribbon.

Janet was also the high point winner in her group and will represent District III at the State 4-H Food Show which will be held during State 4-H Roundup at Texas A&M University in June. Congratulations to all the girls; they all did a fine job.

# **4H Youths Attend** Leader Training Workshop 13-14

4-H leaders from Kent County attended a 4-H Leader Training Workshop, on March 13-14 at the new Texas 4-H Center near Lake Brownwood.

More than 160 leaders from across Texas attended the weekend workshop conducted by Specialists of the Texas Agricultural Extension Service. Persons wanting to attend a workshop at the Center can get information from their County Extension Agents.

Members of the Kent County 4-H Club Entomology Project group who attended were Bobby Capps, Billy Fowler, and Greg Nauret. Adult Leader Rondal Nauret and County Extension

# THE JAYTON CHRONICLE Thurs. March 18, 1976 CONTRACTOR DE CONT

**Jaybirds Dominate** The District 9b All Honor Team

Jayton dominated 9-B's all-district team, as the Jaybirds placed 6-2 senior Bobby Kelley and 6-4 sophomore Harold Parker on the five-man unit.

District champ Motley County supplied 6-0 senior Joe Campbell. McAdoo added 5-10 senior Ernest Osuna and Patton Spring's 5-7 sophomore Jerry Cole rounded out the team.

District girls champ Jayton supplied half of that six-woman team - 5-9 sophomore forward Bridgett Hamilton. 5-9 senior guard Nylene Sherer and 5-9 junior guard Donna Wright.

The other guard was 5-2 Motley County senior Pennie Marshall. The other forwards were 5-3 Motley County sophomore Brenda Campbell and 5-9 McAdoo senior Gayla Neff.

he former governor would be sitting in the now riding the top horse in the race for the omination, except he got caught up in the big Watergate scandal, and it proved to be fatal to him. In case Ford and Reagan get up in some sort of an unbreakable challenge, ohn will be there ready to be drafted. And of , he possibly would not turn down the second n either ticket.

he passing of Congressman Wright Patman of ana marked the loss of a great Texan. This Cong. George Mahon as the senior member House of Representatives.

he South is fast losing the most of its men of in the House of Representatives. This also the South is losing the mighty power hold it ad on the Congress for years past.

his will also be a blow to agriculture, since where agriculture usually gets the most of its gth.

ditor John Getz of the (Farwell) State Line e had an interesting tidbit in his column ly. He titled it "Let George Do It" and we ht you might enjoy it:

"LET GEORGE DO IT"

ly name is George. I'm an all-around -man, and I'd like you to feel free to use my es for any and all chores, errands, duties you may be too busy to perform.

nytime there's anything that needs doing and rather not, you just let George do it.

'll write to your Congressman for you. I'll your newspaper editor; I'll serve on the school in your place; I'll do anything you're too tired or preoccupied to do.

With me around, you can be as lazy as you Or you can just have fun. The more the er. I always say.

My services are available to you for the as, time-consuming things which you'd rather doing.

You haven't time to vote, let George do it. tob haven't time for jury duty, I have.

You don't want to accept committee nments and extra responsibilities, anyway. You d George tend to these things.

Maybe I'm as famous as Khrushchev was, but hadn't been for me, you'd never have heard of

And that goes for Mussolini and Stalin and r, tool. I made those guys! And the big time teers in the United States. You name 'em, out me those guys would be nothing!

Why do I want to run errands for you? When the guy who runs all these "Big Wheels", why want to run errands for you?

Don't you see? I get a kick out of electing ident: for school boards and countries. All of things you used to do before you took up Bert Stanaland.

# **Root Plowing Can Help Land**

The same amount of water needed to grow one ton of mesquite will grow three tons of Sideoats grama. Brush Control and Range Seeding along with good management practices help the Ranchers in the Duck Creek Soil and Water Conservation District increase their profits while Conserving the Soil. According to William Reeder District Conservationist with the Soil Conservationist with the Soil Conservation Service at Jayton stated, "approximately 1400 acres of root plowing and seeding have been carried out to date this year by the Ranchers of Kent County."

clearing dollars and golf balls and things.

Don't feel like you're imposing, I'm glad to be of service. Helping you. I'm really helping myself. How do you think I was able to take and run a third of the world already? Because nobody else wanted to bother.

They said, "Let George do it", so I did.

Now I'm taking over in lots of cities and counties in the United States, and I figure it's just a matter of time until I'll take over this country too. It want to thank you for making it possible.

Remember now, if there is ever any way in which I can be of help, I'm at your service. You just have fun and don't worry about a thing. I'll do your worrying and bill you later.

Agent M.A. Geeslin accompanied the group.

# **Guy and Ralna To** Appear in Abilene

Guy and Ralna, Featured Vocalists on the Lawrence Welk Show, will be appearing in Abilene at the Abilene Chamber of Commerce Annual Banquet at the Civic Center on Tuesday, March 23, at 7 p.m.

Abilene Chamber of Commerce President Robert E. Hitt said that the Abilene Chamber is departing from the usual banquet this year in not having a renowned speaker, having entertainment only.

Guy and Ralna joined the Lawrence Welk Show in 1969, but not together, and have appeared all over the country with him, also playing concern engagements, fairs, and club dates.

Ralna is a native Texan-being claimed by Haskell, Spur and Lubbock where she attended Texas Tech. Her parents are Rauel and Lena Belle Kemp English, formerly of Haskell.

Relatives and friends from the wide West Texas area have made reservations for the affair. Tickets are on sale at the Abilene Chamber of Commerce at \$8.00 each.

# **The Jaybird Band** Wins No. I In Sight Reading

The Jayton Jaybird band participated in the contests in Abilene Monday.

They received the coveted No. 1 rating in sight reading, but could only manage a 3 in concert band.

The only Class B team to be rated above them was Bronte, who got the No. I in both events.

This picture shows contour farming being carried out on a farm in Kent County last year. Farmers who plow and plant with their terraces lengthen the life of the terrace system while saving much costly maintenance.

Contour farming is one of the best practices a farmer can use to help protect his land from erosion and to provide water runoff control. All farming operations on sloping cultivated land should be done in such a way that plowing, land preparation, planting and cultivation are done on the contour, using terraces as guidelines. Lister furrows and crop rows help hold the water and help prevent silt damage and erosion.

It has been noted that there seems to be an increase in some farmers plowing over terraces either at an angle or straight up and down the slope. This practice tends to increase the chance for terrace damage and also causes more damage from erosion and silting.

If the use of larger multi-row equipment is causing the farmer a problem farming the older standard type terrace, he might do well to consider the installation of a system of parallel terraces that will better fit modern equipment.

For further information contact the Soil Conservation Service working through the Duck Creek Soil and Water Conservation District.

"What d'ya mean 'I shoulda got a good lawyer?' I AM a lawyer?"

# **Burleson Reports From Washington**

Omar Burleson, M.C. 17th District, Texas

WASHINGTON, D.C .-- A Hundred years ago this month, March, 1876, it was known that Alexander Graham Bell had invented the telephone. It was at that time he was granted a patent for this curious instrument which has had an effect on the lives and dispositions of untold millions.

An old doggerel of several years ago went like this, "Misery, misery, mumble, moan--someone invented the telephone." Our gratitude goes to Mr. Bell for the convenience and, at times, inconvenience of this great development in communication.

The telephone has both liberated and ensnared us. given us wings to our wildest wishes and shackled us in our own bad habits.

Of course, the same might be said of many other inventions and developments in comparatively recent years -- the automobile, radio, television and even the hairdryer. The telephone, however, possesses a difference in degree from these other marvels--it can be more demanding and intrusive but, again, our gratitude to Mr. Bell.

"Every Sweet Hath Its Sour," wrote Mr. Emerson. The problem it seems is that the sweet seems to diminish at times when the telephone rings at 2:00 in the morning and a voice on the other end says it is the wrong number. Sometimes, it's one of those inebriated voices and you have not the faintest idea to whom it belongs. Then again, there is the call you are anxiously awaiting --- like the news of a loved one who has had an accident or who is sick, and on answering, someone asks if you want to subscribe to some sort of a publication.

But then, harkening to the words of Mr. Emerson, we must think of the loneliness the telephone has relieved, the personal misadventures which have given comfort and even the lives it has saved.

The invention of the telephone clearly has served us well in our daily lives, even if at times it provides annoyance. Like the many, many technological advances made over the years, we would not even try to get along without a phone. So we might as well accept the sour and the sweet and leave this communicative device and its successors to get about the business of greater improvement. The successors in time will be a video arrangement already in use by some business executives. It can be assumed that not everyone would be required to have a picture telephone and if they did have one surely a switch would be provided to turn it off.

Otherwise there would be a rush to comb hair or maybe the lady to touch up the lip-stick before saying hello.

Mr. Bell would, of course, not recognize the advances made in his 1876 invention. Neither could he, at that time have envisioned the tremendous growth of the company bearing his name. He could hardly have imagined the attempts made to break up that company and other "big businesses" by the Federal Government simply because they are too big. He might however, have understood the need for anti-trust and anti-monoply provisions now in our laws.

One final note is a question: Why would you suppose that Alexander Graham Bell felt that the proper salutation in answering his instrument was, Hoy, Hoy''?

The proficiency testing

ards. While the average

person is aware of the

fact that a pre-marital

syphilis test is required.

## **Please Standby**

One of life's mysteries. is why certain expressions and word usages, live on past their time. In this connection, why do television announcers --when their stations encounter cable or technical trouble-tell viewers. to standby? Practically. all viewers are seated. Why should they standby? Why not sitby?

Why not say simply technical troubles are being experienced and the picture will be restored as soon as possible?

And while on the television subject, must we always view a parade of names of every flunkie who had anything at all to do with making the lousy program we just watched? Set decorator, assistant lighting coordinator, costume makeup assistant, latrine mopper, etc? If newspapers went that route, every type setter, pressman, the delivery boy and perhaps the circulation manager would be listed after each feature.

gram, said Dr. McCauley He noted that other laboratory results are coded in order not to identify them by name. Thus, each lab can see how it stacks up with other laboratories.

Dr. McCauley emphasized that the program is aimed primarily at assisting private laboratories in improving their performance of diagnostic tests. He said the tests normally contain specimens that individual labs can expect to see in their day-to-day operations.

Dr. Sweet says that if a laboratory director feels that personnel need further refresher training, they can attend one of the workshops given by the Department of Health Resources Laboratory each year. The Bureau provides about 12 workshops a year, most often in Austin, on a varies list of topics.

Dr. Sweet said there are no state laws governing licensing of laboratories or personnel qualifications, but there may be one in the future. Federal law now is very strict if laboratories accept specimens across a state line. And, a new federal law is under consideration which would impinge upon every laboratory in the country. All states would have to comply, or perhaps have statutes calling for equal requirements. Laboratory personnel

of the Department of Health Resources are regularly tested by the Center for Disease Control, the College of American Pathologists and the American Association of Bioanalysts.

The laboratory performance has proved to be near perfect, so far.

# **Jaybird Trackmen Set Records In The Spur Meet**

Jayton trackmen participated in the Spur meet last weekend. They amassed a total of 37 points, for fourth place. Crosbyton was first with 62, Aspermont 55, and Paducah 46, with Rotan falling behind the Jaybirds with 37.

Harold Parker set a record with a time of 50.5 seconds in the 440.

Don Wayne Jones set a Jayton school record with a distance of 138.75 inches in the discus.

Harold Parker tied a school record of 23.7 in the 220 dash.

Other Jaybirds individual times and distances were as follows:

Don Wayne Jones, Mark Fincher, Billy Wilson and Robert Segura on the 440 relay team ran it in 47.2.

In the 100 yard dash, Don Wayne Jones ran it in 11.0, and Mark Fincher won first in 10.6 seconds, and Billy Wilson ran it in 11.4.

The Mile relay team of Mark Finc her, Billy Wilson, Otis Chunn and Harold Parker ran a 3.41.2.

Bobby Kelley ran the high hurdles in 17.5 and threw the discus 126.2.

Gene Cleveland ran the high hurdles in 18.4, the Int. hurdles in 47.4 and high jumped 5.4.

Joe Seaton ran the high hurdles in 19.4 and the Int. hurdles in 46.8 and long jumped 17.7.

Harold Parker was 5th in high jump at 5.4.

Jimmie Don Fudge ran the 440 in 56.8 and high jumped 5.4.

Brian Cleveland ran a 61.4 in the 440 and Brent Cleveland ran the 220 in 26.3.

Donny Shipp ran the 220 in 27.0.

Deral Cox ran the mile in 5.04.5.

Don Hammack ran the mile in 5.28 and Johnnie Panter ran the mile in 5.31.

Randy Prince long jumped 18.4.

Steve Sweet long jumped 17.5 1/2.

viting me ence, to

Is the earth's mantle laden with diamonds? Maybe! Rock hurled from perhaps 160 miles below the earth's surface by volcanic eruptions has been found to be a riddled with tiny white diamond crystals of about one

millimeter size. Nodules containing the diamonds were found in diatremes (pipe-like intrusions of igneous rock) in an area west of Laramie, Wyoming, by Dr. Malcolm E. McCallum, professor of geology at Colorado State University and Dr. David H. Eggler, Carnegie Institu-

"MOUNTAIN TOP EXPERIENCES" ... It is not yet vacation time, however that time is approaching and we start remembering the wonderful feelings and experiences of our last trip to the mountains, and now we can start to plan new adventures.

That closeness, and the exciting feeling when worshiping the Lord is often referred to as a "MOUNTAIN TOP EXPERIENCE." We invite you to come worship the Lord in his house, and receive the joys of being close to God. Attend church this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that lave by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long parsavere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the soke of the welfore of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the ruth which alone will set him free to live as a child of Gad.

## Engagement Told

Mr. and Mrs. W.C. Bouton announce the engagement of their daughter, Bettina Gail, to Randy Clay Hall, son of Mr. and Mrs. Floyd D. Hall of Jayton.

The couple plans to be married May 1 in St. Luke's United Methodist Church.

Miss Bouton attended Texas Tech University.

## **Rest Home News**

Mrs. Eunice Huls visited in the home recently. Thanks to Mrs. Parks for the beautiful flower arrangement for the Home:

We miss Mr. Fuqua who is in the Stamford Hospital

Mr. Grice returned to the Home Sunday from the hospital in Rotan.

Mrs. Eula Darden and Maurey visited the home recently.

As always we here at the home enjoyed our Sing-a-long last Thursday. Thanks to all who helped make it a happy morning.

Mr. and Mrs. Mack McCarty of Lubbock, visited Eunice Loe, recently.

Also visiting recently were: Mr. and Mrs. Euel Harrison and Oleta Stanley.

People here for the singing were M. Healer, Laverna Harrison, Lavern Kuenstler, Nellie Fuller, Ruby Matthews, Mr. and Mrs. Earl Hahn, Lena East, Betty Williams, and Sam Newberry.

A special thanks to Mrs. Sewalt and Lena East for playing the piano in the absence of Mrs. Fowler. Mrs. Butler came back from Stamford Hospital Saturday. Welcome back.

Rev. Truett Kuenstler, Baptist Pastor, visited in the home this week.

## INGENIOUS IDEAS HOW AMERICA'S BEST MANAGERS DO IT

### A SMALL AID TO BIG SALES

pies

Are your salesmen out microfilm mean salesmen selling enough, or are they spending too much time on paperwork? Can your customers see what you're selling, or only an inadequate sample?

Smart managers know they can deal with both these problems by putting their products and records on microfilm. Microfilm is a high re-

image greatly reduced in size from the original. Just one cartridge of microfilm can be used to replace about 2,000 pages of printed material or photographs.

records on microfilm, companies can help keep salesmen from taking up time storing and filing paper reports and records, and let them spend more time out on the road.

rectories and manuals can be produced on microfilm, even when they're in color, to display and explain merchandise. Advertising brochures and sales kits on

bulky sample cases. They'll

be able to show all items in

a line instead of just sam-

tion, portable microfilm readers have been designed that can be inserted or folded into a case similar to a portable typewriter case. In fact, most of these portable readers can offer the option of AC battery or 12-volt operation. They can be run on a car's cigarette lighter! Smart business managers seem to know that by putting their good things in these small packages they can give their sales a big boost

Some girls are wearing jeans so tight they must have used a shoe horn to get em on.

# Adult 4H Leaders **Hold Meeting**

The District III 4-H Adult Leaders Association meeting was held at Wichita Falls on Saturday, March 13, during the District Food Show. Edd Hilton and Jan Harrison from Kent County attended the meeting.

CARDINAL CARD AND COMPANY

First on the program was three women who had attended Adult Leader Training meetings at the State 4-H Center in Brownwood: Baylor Countyclothing, Young County-record books and Fisher County-4H Demonstrations.

Next Nancy Nehring, District III 4-H Specialist, showed a film dealing with problems of Adult 4-H Leaders, "I Wear Many Hats." Then the members were divided into four groups and discussed different segments of 4-H work in the counties.

This meeting was very educational and we wish all the Adult 4-H Leaders in Kent County could have attended.

And don't miss the

SAN ANTONIO-The Committee on War Expenditures of the House of Representatives has summoned several Texas men to Washington to testify before the committee. Among those summoned is James Trainer of San Antonio.

HOUSTON - Efforts are being made by the directors to make the Seventh State Fair, to be held here the first week in May, a more extensive and attractive exposition of the kind than any which has yet taken place in Texas.

**RAINS COUNTY** — All the prisoners in the Rains County Jail escaped last week.

# **Only One Accident** In Kent County In February

The Texas Highway Patrol inve igated one accident on rural highways Kent County during the month February, 1976, according to Serna Frank Jircik, Highway Patrol supervi of this area.

These crashes resulted in no personal killed and one person injured.

The rural traffic accident summ for this county during the first months of 1976 shows a total of accidents resulting in no persons kill and one persons injured.

The rural traffic accident summ for the 60 counties of the Lubh Department of Public Safety Region February, 1976, shows a total of accidents resulting in 17 persons ki and 243 persons injured, as compared February, 1975, with 435 accide resulting in 12 persons killed and persons injured. This was 19 accidents, five more killed, and 44 m injured in 1976 at the same period time.

The 17 traffic deaths for the mo of February, 1976, occurred in t following counties: Two each in Baile Castro, and Hutchinson; and one each Dickens, Knox, Lubbock, Parker, Ten Wichita, Gray, Hall, Hansford, Swish and Wheeler.

LAWFUL WAYS TO SAVE PLANNING FOR RETIREMENT

# **County HD Council Has March Meeting**

The opening exercise was given by Mrs. Wilson, at the council meeting March 10, at the Kent County Community Center.

Mrs. George Darden reported on the Heart Fund Drive sponsored by the Kent County Home Demonstration members. A total of \$119.51 was collected for the drive.

We are to bring new program plans for the 1977 Yearbook to council April 14. Seven 4-H Club girls from Kent County will attend the meeting in Wichita Falis.

The Jayton and Girard Clubs will have a joint meeting March 17, at the Girard Community Center. Mrs. Bobby Stanaland, Extension Agent will give the program, "Meal Planning." You are invited to attend this program.

We are to elect officers and delegates to the state meeting. Jayton and Girard gave reports on the club meeting since the last council report. Lunch reservation tickets were mailed for the District meeting at Sagerton, April 6.

Kent County is to present a skit on Cultural Arts. Early day hand work will be displayed. Mrs. Ben Boland had charge of the election for delegates to the District meeting. Mrs. Hugh Turner of the Girard Club and Mrs. Ben Boland of the Jayton Club were elected as delegates.

Plans are being made for the bake ale, April 16, at the Jayton Community nter.

The next council meeting will be 14th.

Come meet with the clubs. ois Simpson, reporter

GALVESTON - The number of cases docketed during the past week in the Recorder's Court were twenty-seven. Of these, thirteen were fined, the fines amounting to \$90, independent of the costs; seven were discharged, and nine continued to next week.

WACO - Last night and this morning the weather was the coldest we have had this winter - a regular old freezer. It is feared all the early fruit was killed.

HOUSTON COUNTY - There was no service of any kind in any of the churches at Crockett Sunday, in consequence of the smallpox scare. The bridge across Hurricane bayou is completed; it is a very substantial structure.

COMAL COUNTY - The penetration of Western Texas by railroad will, it is hoped, bring this fine region more prominently before the world and promote the growth of population. New Braunfels, the county seat, is filled with houses white as snow.

PARKER COUNTY - Many a buffalo has bit the dust on the frontier within the last few months, judging from the number of hides brought to Weatherford.

SAN ANTONIO - Information from the lower Rio Grande says the Revolutionists are encamped near Matamoros, the heroic city, but neither Federal nor Revolutionists are very active. They act cautiously.

GONZALES COUNTY - Gypsum is found here, as well as coal.

COOKE COUNTY - Dr. Toles of Dexter has been sentenced to one month in the penitentiary for bigamy. Under the laws of the Republic of Texas, bigamy was a capital crime; but no one was ever hung for it.
