The Jaybirds Lose Game Friday Night To Spur Bulldogs

The scoreboard said Spur 21, Jayton 14, at the end of the game. The casual observer, might get the idea Spur had it easy. But it was not quite that way.

The young Jaybirds fought the Spur Bulldogs right down to the wire.

Spur scored first and added the extra point. Jayton then scored, and missed the extra point, and the score at the end of the first quarter showed the Jaybirds trailing 7-6.

Spur added another. TD and the extra point, and the Jaybirds followed with their second tally of the night, and added the two points which deadlocked the score at 14 each

Spur came back and scored again, and this finished the scoring

Most of the final half was spent in each team trying vainly to get on the scoreboard again.

Three times the Jaybirds threatened in the final period, but each time could not quite get their noses into the end zone. One effort bogged down on downs, another was broke up with a fumble, and a third, with less than a minute left on the clock, failed, with a pass interception.

Cleveland and Segure furnished the real thrust of the scoring effort, with the line doing some good blocking, and the defense holding Spur out the last half.

A record crowd attended the affair, and the people were not disappointed. It was shirt-sleeve weather, and there was no wind

This put Spur 2-0 in the new season, they having defeated Rotan in their season opener.

The Jaybirds are now behind in the new season 0-2, still trying to get a victory. Both of these games have been against Class A teams.

The Jayton Jaybirds Getting Ready For Aspermont Game

Thursday, September 16, 1976

Coach John Richey and his staff of coaches hae been busy this week, trying to get the Jayton Jaybirds ready for their annual tussle here Friday night with the Aspermont Hornets

The Jaybirds, made up of many young players, with only a sprinkle of seniors on the squard have learned a lot in these first two games, and have overcome a number of mistakes. Coach Richey hopes they are now shaping up ready to play football, and can get on the victory trail.

There is a good strong rivalry between these two communities, and it promises to be a very interesting game.

Eventho the Hornets may be picked by the sportswriters to win, the Jaybirds will be out there fighting to win, and all local fans should be on hand.

Spur found out last Friday night, that Jayton had not been reading the spur clippings.

Kickoff time 8 p. m. Friday.

Burial was in the Jayton Cemetery.

MOVE TO JAYTON

Mr. and Mrs. Delton Jackson and son, Kyle, have moved to Jayton from Hamlin, where he has been employed with the Department of Highways and Public Transportation for the last 221/2 years.

He is the son of Mrs. Clyde Jackson. Kyle is a senior in Jayton High School. They have one other son, Keith, a junior at Hardin Simmons University in Abilene.

Delton graduated from Jayton High School in 1954 and married Joyce Cooper from Hamlin ..

Gary Sumner plays strong end and nose guard for the Jayton jaybirds this year. He has attended the Jayton school all 12 years. He is the son of Mr. and Mrs. Waylan Sumner and has lettered one year. He wears No. 88 on the team and weighs 180 lbs.

Last year he made 45 tackles and blocked on kick. He played the position of center and noseguard.

A member of V. I. C. A. this year, Gary holds the position of vice position of the senior class.

The coach says that last year Gary broke his arm in the last scrimmage before the season opened or he would have been starting center and noseguard for the year. Gary has the potential to become all state noseguard, the coach thinks. He is one of the best and is learning the strong end position very quickly. Gary can catch the football well, and is becoming very good at blocking from his end position.

Mario Segurio plays the position of quick tackle on defense for the Jaybirds. He is the son of Mr. and Mrs. Julian Segura. He has lettered on year. He has resided in the Jayton community for three years. Wearing the No. 66, he weighs 170 lbs. Last year he made 74 tackles and recovered two tumbles. He played guard and line backer on the state quarter final championship team.

Mario is a V. I. C. A. and engages in many other school activities.

The coach says: Mario is one of our bright spots on defense. He has had playing time at this position last year and should make an outstanding linebacker this year Mario has very good quickness and a nose for the football. He was moved to quick tackle because of his quickness, and speed this year.

Joe Martinez wears No. 60 on his Jaybird uniform,

Farmers UnionVice **President Opposes** Palm Oil Exportation

LUBBOCK--Joe Rankin of Ralls, President of Lubbock based Plains Cooperative Oil Mill, and & Vice-President of Texas Farmers Union, has cal upon the Ford administration to "stop giving financhelp to promote the production of foreign palm oil export to the U.S."

Rankin charged that the administration h announced in a letter to Congressman Dawson Mat (D-Ga.) that loans will continue to be approved by U.S. to finance palm oil production in fore countries. Mathis and others have protested the U government subsidization of palm oil production export, with sharply depressed soybean and cott seed oil prices this summer.

Rankin, who farms in the Ralls area, says that decision by the Administration to continue to appro the financing palm oil projects is bad news for Hi Plains cotton producers. "With the existing exc supply of vegetable oil in the world and the prese depressed prices, the decision by the Administration to continue to approve the financing of palm projects abroad is tantamount to assuring Son Plains cotton and soybean producers low prices many years to come," Rankin said. Congressman Mathis was told by Treasu

Secretary William W. Simon that projects to produ palm oil for export coming up for consideration duri the next twelve to eighteen months, "will approved in the projects are viable." In the past, projects have been approved unless they we considered "viable. Therefore, the new guidelines nothing "new" but rather ratify the continuation another year and a half the palm oil finance progra presently in affect.

Rankin said that the Administration is "playi politics with the agricultural economy of the nation The Administration must feel that it is more politica advantageous to assure the consumer tempor low-price vegetable oil than to protect the interests agricultural producers and assure adequate long-ter supplies at fair prices," Rankin said.

Hunters Beware

Each year thousands of hunters are shot by accident, many fatally. Most of the tragedies occur in fall and early winter, many on opening days for deer and other wildlife.

Rifles, of course, are more deadly at long range but shotguns are even more dangerous at close range. The usual accident causes are failure to unload guns, firing at a moving target before identified, carelessness in carrying guns and hasty or excited shooting.

Sadly enough, those involved are often lifelong friends, brothers, fathers, sons, etc. All these deaths are unnecessary and preventable; the editor hopes this editorial savessomeone's life.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

about this time the space center at Houston got going, and they moved into the domed stadium. Then the name of the team was changed to Astros and the stadium was called the Astro-dome.

The fortunes of the Astros have run hot and cold. They have changed managers several times, and a few years ago they sold off a bunch of good players, who since then could almost have been assembled for an All Star team--players like Rusty Staub, Joe Morgan and Mike Cuellar.

Several times early in the season they were at the top of the standings, but have never really been a title contender. People have been disappointed in them.

If their home base ever ceased to be a world wonder, they will be in financial trouble. Many people go to their games, not particularly to see the baseball team, but to see the stadium.

The Texas Rangers came along later. Located at Arlington near the Six Flags, they have come along well, and early this year led the American League, but then suddenly folded up their tent, and are away down in the standings too. They too have changed managers suddenly at times-and often.

They have had some great name players, and some great name managers. They, like the Astros, just can't seem to get it all together.

There has been talk of another major league team in Texas--but so far it has been blocked.

If you are not a registered voter, and you want to vote in the presidential election on November 2, then you must register at least 30 days before the election--or Oct. 2.

If you voted in any elections this year, then you are automatically registered for a new term

This brings to point a thought. Years ago when Texas had the poll tax, \$1.75 per person, it became a kicking boy. People said the poll tax was disfranchising many poor people and keeping them from voting. But strangely enough, when the poll tax was voided as a requirement to vote, the number of eligible voters went up very little. It proved that people who would not pay a poll tax in order to vote, would not even take the trouble to register. Citizenship is a very strange thing.

On the sport scene, there are some surprises. The University of Texas, voted by writers to be on top of the heap this year, lost the first game of the season, and that to a so-so team.

Texas Tech, which had a big question mark on its defense, rose up and soundly defeated a huge Colorado

Houston, playing its first game in the SW conference, for the title, wallopped Baylor.

It looks like it might be an interesting year. Also in the high school ranks, some of the teams that were top rated are losing, or being pushed by non-rated teams. And teams that have poor ratings are winning.

This makes for an interesting season. Friday night and Saturday stands to be interesting for the fans.

SCHOOL ASSEMBLY PROGRAM IS HELD IN THE AUDITORIUM

A Southern Schools assembly program was held Sept. 9th at 8:40 in the school auditorium. The program featured a ventriloguist. Melvin Bateman of Los Angeles, and his four puppets, Ike, Mike, Chico and Freckles.

Bateman has been with the southern schools assembly for eight years, having toured many states during this time.

He is also a handwriting expert and displayed his talent by analizing the handwritings of two Jayton students, Brigette Hamilton and Kyle Jackson. He gave about a two minute lecture on how a person could analyze handwriting, by the way the T is crossed.

The program was followed by a junior high pep rally, led by cheerleaders Lani Arnold, Jamie Pierce, Beth Owen and Donna Smith. This was in preparation for the game with Aspermont.

Vitamin A has long been appreciated. More recently a flurry of interest has been stirred about Vitamin E, which allegedly helps stimulate one's sexual powers or interests, or both. One reads so much about vitamins these days it's becoming harder and hard- er to keep a common- sense, simple guide in mind. In a recent issue of "Grit," Dr. H.L. Hersch- ensohn offered readers an easy one. There are basically two kinds of vitamins, he noted - those which dis- solve in water and are thus passed out of the body immediately and those which are absorbed in body fat. One needn't worry about overdoses of water-soluble vitamins. But overdoses of fat soluble vitamin s can cause serious problems. The primary fat soluble vitamins are A, D, and E. As yet no known ill ef- fects from an overdosage of vitamin E are known. So care in using A and D is a sound first-step guideline.
