Rig for Abernathy Test Well Arrived Tuesday

Location for Test Made Wednesday; Site Chosen 600 Feet Northwest of Previous Test

The well rig and supplies for the test well to be drilled west of Abernathy, arrived here Tuesday evening, and immediate preparations were made for unloading and transporting to the location of the well.

Actual unloading of the rig will be started today, and it is expected that the material will be on the ground by the early part of next week. In addition to the rig, there are thirteen truck loads of material and supplies to be hauled to the location.

Following a delay of several days on the road, the arrival of the rig caused quite a little stir in Abernathy and many people made the trip down to the depot to inspect it.

The rig is a Star 30, capable of drilling to a depth of 3,500 feet, and drilling operations will be in charge of T. Ray Garnett, who has just completed the drilling of three wells for Mr. Mims in the Fry field in Coleman and Brown counties.

A. S. Mims, contractor for the test well, was here Wednesday and fixed the location. The new test well will be made 600 feet northwest of the old well drilled a year or two ago, and in which traces of oil were discovered.

The location is given as the South 1/4 of Section 17, Block X, on the W. A. Richter place. W. J. Williams, county surveyor, was here Wednesday and assisted Mr. Mims in making the location.

Much interest is being evidenced in oil circles over the Abernathy test, the showings of the previous test, and the recent showing in the test well at Hale Center giving promise of production being had here.

Exploration Oil Co. in Plainview Promise Test in Hale County

The Exploration Oil Company is ready to begin operations in Hale County, and by the last of this week or the first of next it expects to commence drilling on a location southeast of Plainview.

E. E. Adams, of the firm of Anderson and Adams, drilling contractors, has arrived in Plainview with his family and gave the above information to The Herald yesterday. He will have charge of the Hale County work.

Officers of the Exploration Company will be in Plainview this week he said to complete arrangements for drilling. As soon as he is given the exact location Mr. Adams stated that he would drill a well to furnish a water supply and when this was finished actual work would begin and the erection of the rig, which has been shipped.—Plainview Herald.

J. W. Scott, an oil operator of Pittsburg, Pa., was in Abernathy Wednesday, and evidenced much interest in the oil activities around this section.

FUNERAL NOTICE

Friends and acquaintances are requested to celebrate at the funeral of

OLD MAN GLOOM

who departed from Abernathy on Sunday, June 12, after a life of several weeks in this section.

His obituary will be found on Page 2

John Jackson Killed by Fall From Auto While On Way to Happy

John A. Jackson, 17, was instantly killed last Thursday night near Finney Switch, when he fell from the running board of an auto and the wheels passed over his head.

Jackson lived two miles south of Abernathy and with a party of neighbor boys was driving in a Hudson touring car to Happy to work in the harvest. He had been climbing in and out of the car during the entire trip, his companions said, and had disregarded warnings from them that he might be injured. The accident occurred at eight o'clock.

The dead boy was the son of Mr. and Mrs. A. C. Jackson and is survived by his parents and four brothers of Altus, Oklahoma, Cecil, Charles, Haskell and Jack.

The body was prepared by the Plainview Undertaking Company and brought to Abernathy for burial.

Funeral services were held last Friday, and interment made in the Abernathy cemetery.

Sympathy is extended to the bereaved parents in their loss.

Building & Loan Ass'n Secured for Abernathy by Schulz Land Co.

A connection which will undoubtedly prove of immense value in the up-building of Abernathy is that recently made by the Schulz Land Company with the Inter-State Fidelity Building & Loan Association of Salt Lake City, Utah.

Through this connection, which has been secured after several years effort, home building in Abernathy will receive a decided impetus, the building and loan association making it possible for people of limited capital to build and own their own homes.

Already there are fourteen subscribers to stock in the association, and two applications for loans have been made, showing that a real need has existed for an agency such as this to promote home building activities.

Troy Stambaugh, A. L. Siske and Geo. W. Ragland compose the Appraisal committee of the local branch, their duty being to appraise the value of the property upon which a loan is desired and make the necessary recommendations. It is the conservative policy of the Fidelity Building & Loan Association to lend not more than 50 per cent of the appraised valuation on any property.

The Fidelity Building & Loan Association is well represented in this section of Texas, agencies being established at Hale Center, Lorenza, Ralls, Lamesa, Tahoka, Sudan, Littlefield, Amherst, Post and Muleshoe.

Building and loan societies have proved successful in every part of the United States, and have been classed by leaders in public affairs of the nation as being of tremendous economic value, as well as being among the soundest of financial institutions.

Building and loan associations in Texas are under the supervision of the State Banking Commission, and are required to provide bond in sufficient sum to protect the interests of all

Construction Work Is Started on New School Building This Week

Following the assembling of material, actual construction on the \$50,000 addition to the Abernathy Public School building was started this week, excavations for the foundations being made and the footings poured Wednesday.

Work is being started first on the south side of the building, Mr. Samson, contractor, stating that this side would be kept ahead of the north side all the way through, in order that there shall be no possibility of the classrooms not being completed by the opening of school.

With favorable weather, the work will proceed at a rapid pace, and no difficulty is expected to prevent completion of the school building in scheduled time.

Masonic Lodge Elects Officers Ensuing Year

At the regular stated meeting of Abernathy Lodge, A. F. & A. M., held last Friday night, annual election of officers of the Lodge was held.

The following are the officers who were elected, and who will serve for the ensuing year: V. Stambaugh, Worshipful Master. M. H. Rankin, Senior Warden. L. A. McKenzie, Junior Warden. A. B. Reid, Treasurer. J. M. Ramsey, Secretary. W. A. Richter, Senior Deacon. W. A. McKenzie, Senior Steward. Troy Stambaugh, Tiler. J. T. Ellerd, Chaplain.

The newly-elected officers of the Lodge will be installed at a special meeting called for Friday night, June 24th. Preparations are being made for the serving of refreshments on this occasion, and all Master Masons are requested and urged to be present for the installation ceremonies.

Officers of the Lodge the past year were:

Troy Stambaugh, W. M. F. O. Ashton, S. W. M. H. Rankin, J. W. H. E. Richter, Secretary. E. P. McAllister, Treasurer. W. A. McKenzie, Sr. Deacon. Claude Hardeman, Jr. Deacon. J. G. King, Tiler. O. D. Harless, Sr. Steward. W. A. Richter, Jr. Steward.

stockholders in full. The percentage of failures throughout the United States has been almost negligible, and in the past several years not one instance of failure has been reported.

The Interstate Fidelity Building & Loan Association is an old-established, conservative company, capitalized at \$20,000,000 and operating in the states of Utah, Wyoming, Nevada, Arizona, Texas and Oregon. It has assets of \$1,647,000, and is endorsed by leading business men and financiers of each state in which it operates.

Anyone desiring information and particulars as to the building & loan association are requested to notify the Schulz Land Company, who will be glad to explain the benefits of the plan to prospective home owners.

Splendid Rains Cover Entire South Plains

Fine Two-Inch Rain Ends Dry Season; Prepare for Planting of Row Crops

Soaking rains covered this section Sunday and Monday, bringing to an end one of the longest dry spells in the history of this section.

The rain began about noon Sunday falling heavily for about three hours, and being accompanied by a fairly strong wind from the southwest. Following this, the sky cleared for a few hours, but late in the evening it began to cloud up again, and early Monday morning the real rain was had.

Falling gently, and with an almost entire absence of wind, the rain continued throughout almost the entire day, varying from a quite heavy fall to a light drizzle.

After the first shower Sunday afternoon, the temperature took a sudden drop, the weather being almost unpleasantly cold after the hot days preceding the rain.

Precipitation during Sunday and Monday is estimated at from 1 1/2 to 2 inches.

Lowering clouds and overcast skies throughout Tuesday and Wednesday gave promise of further rain, and a light shower was had between 8:30 and 10:00 Wednesday night.

The first rain of consequence since last December, the rain was hailed with delight by everybody. Whilst not appreciably suffering, growing crops were beginning to feel the lack of moisture, and much concern was felt hereabouts over the probability of it becoming too late to plant row crops this season. Concern was also had over the probability of a rain damaging the wheat crop, but the ab-

sence of strong winds and hail removed this probability, and the save for a few days' delay in the harvesting, the wheat suffered no appreciable damage.

A few days of sunshine will place the fields in condition for planting, and with an absence of early frosts, it is predicted that bumper crops will be made this fall. Several who had dry-planted cotton some time ago report it up to a good stand, and with the recent rain bidding fair to make a good crop.

The rain was general over the entire South Plains and Panhandle, and as well in New Mexico and Oklahoma. The worst drought in 18 years was broken at Amarillo, something over half an inch falling there on Sunday evening. To the north and west of Amarillo, the rain was heavier, 2 inches being reported at Dalhart and Texline.

In Lubbock a near cloudburst was had Sunday afternoon, the streets being flooded and almost impassable, and several business houses having their basements flooded out. Lubbock citizens were in high glee over the rain, and business conditions are reported as greatly improved as a result of the downpour.

Report of the U. S. Weather Bureau at Plainview state that .43 inches of rainfall was had there Monday.

Reports from other points over the entire Panhandle were to the effect that good rains were had in almost every instance, and that the rain was of great benefit to farmers in every section.

Seventy-Three Cars of Wheat Shipped Out Up to Time of Rain

Though now at a standstill on account of the recent rains, the wheat harvest progressed favorably the latter part of last week.

Up to the rain Sunday evening, 73 cars of wheat had been shipped from Abernathy, an extremely good showing for the short time since the harvest season opened.

The end of last week saw the wheat coming in in a continual stream night and day, and giving no rest to the crews at the elevators.

Yields continue to prove more than was expected, and the wheat is still of good quality and test.

With the resumption of the harvesting and the planting which will begin as soon as the land dries off sufficiently, farmers in the Abernathy section will be busy all day long in the fields—a condition which will not in the least be complained of after the weeks of enforced idleness which preceded the rain and the harvest.

Construction of Grade on Denver Completed Nearly to Plainview

Plainview, June 11.—Work is proceeding rapidly on the grade for the Fort Worth and Denver's South Plains line into Plainview as well as into the other points to be reached by the new railroad. The Sprague and Niseley camp, a few miles east of Plainview, has about completed work both ways from there, and will be ready to move soon. The next move will bring the camp to the city limits of Plainview.

Satisfactory progress is reported along the entire line above the cap rock by Sprague & Niseley, the general contractors who are building the new road.

The rights of way committees in the various cities to be reached are concluding their work and do not anticipate any delays from this source in the construction of the road.

Wilec Emory of the County Line community was in town Wednesday, looking for some cotton seed to plant after the recent fine rain. Mr. Emory was very optimistic regarding conditions down County Line way, and stated that everything was looking fine out his way.

Ditch For Gas Line Passes Thru City; Pipe Being Laid South

Making rapid progress with their giant ditching machine, the construction company for the new gas pipe line had their ditch dug through Abernathy this week, and are now about half a mile north of the city with the ditch.

Pipe has been laid for several miles out of Lubbock, and beyond that it is laid on the ground waiting to be installed. Completion of the gas line is virtually assured by December, the franchise specifying completion by that time.

It is not thought that there is a ditching crew working south out of Plainview, and it is evidently the intention of the crew which have just put the ditch through Abernathy will continue on themselves to Plainview.

Five machines are reported to be in operation between Amarillo and Plainview, and work on that section is going forward with all possible dispatch.

New Feed Grinder of Rea Milling Co. To Be In Operation Soon

The Rea Milling Company has placed in position on the foundation the new Hammer Mill feed grinder, and following the erection of a bin and house for the mill, expect to have it in operation in a short while.

The new mill, when placed in operation, will prove of real value to stock feeders of this section, the grinding adding greatly to the value of feed.

Several of these mills are in operation at Lubbock, and dairymen and stock raisers there speak of them in the highest terms, stating that the value of feed when ground is increased fully forty per cent.

Mrs. W. S. Stambaugh, who has been visiting her children in California for the past year, arrived in Abernathy Wednesday on a visit to her son, V. Stambaugh, and family. She was accompanied by Mrs. Laura Osborn, aunt of Mr. Stambaugh, who will also visit with the Stambaughs for a while. The ladies were met at Canyon by Louis Stambaugh and came down from there by automobile.

THURSDAY, JUNE 16, 1927

"A grand and glorious feeling" is a poor way to describe the way one felt as the long hoped for rain descended Sunday. What a weight those tiny rain drops seemed to lift from one's shoulders, and what a weight they did lift from the corners of people's mouths! Faces that a few moments before looked as though nothing but the services of a skilled "face lifter" could bring to their normal appearance, found their old smile as if by magic.

And when this load of worry and depression had been lifted for a short while, how futile we thought it to have carried it so long. What was this stupendous load that had bowed everyone down? What was it that a few raindrops could so easily remove? Was it dire disaster? Was it a sudden catastrophe? No. Only a long brooding and worry over things that MIGHT happen. A narrowing down of comparisons. A half closed eye to see only the black side of things. A forgetting of the fact that it always had rained—and, the losing of the hope that it would rain. A load of the imagination. Heavy enough, no doubt; but, after all, unnecessary.

OLD MAN GLOOM

Old Man Gloom departed from this section, where he had been for the past several weeks, on Sunday, June 12th.

Up until a few days before his demise he had appeared to be in quite vigorous health, but the fine rain of Sunday brought about his end. A week or two ago, he received rather a severe shock when the wheat became ready for the harvest, and it was apparent at that time that the yield would be much greater than at first thought. It is thought that he had not fully recovered from the shock of this bountiful harvest, but that probably aside, it is doubted whether he could have withstood the rain of Sunday and Monday.

Old Man Gloom came from no one knows where, but during the time that he was with us, his presence was felt by everyone. In a very short time after his arrival he had brought about business stagnation, had chased away all the smiles from people's faces, and had shaken the faith of almost everyone in this whole section. He brought here as his stock-in-trade, depression, and he succeeded in unloading a goodly supply of it hereabouts. He contributed not one iota to the upbuilding of the communities where he visited, and his passing is regretted by none.

Our earnest hope is that he is gone for good. Circumstances may arise in the future that seem to call for his presence, or rather, the presence of one of his successors, but it is to be hoped that the lesson of his previous residence here will not be forgotten, and his unhealthy brood be ever barred out from our midst.

A Never Failing Supply

The fond husband was seeing his wife off with the children for their vacation in the country. As she got into the train he said, "but, my dear, won't you take some fiction to read?" "Oh, no!" she responded sweetly, "I shall depend upon your letters from home."

MICKIE SAYS—

"THE MOST AD FOR 'M' MONEY" SEZ ONE READER, "IS YOUR LIL' WANT ADS. FOR A FEW QUARTERS I FOUND A HOUSE TO RENT AND LOCATED A HOUSEMAID, FOUND OUR LOST AIREDALE, SOLD A STOVE, AN ICEBOX, A HIVE OF BEES AND A TOWN LOT AND FOUND MYSELF A FINE JOB-TALK ABOUT YOUR BARGAINS!"

THE TALE OF A HORSE

There once was a French scientist who bought a horse. Each day he reduced slightly the food given him. This progressed for several weeks and the experiment bid fair to be a great success, but just as the point was reached where no feed was given, the horse died.

We occasionally encounter an advertiser who seems to be trying this same old experiment. He has a thriving business which he has strengthened and fed with a normal amount of advertising. However, his "feed bill" looks rather large and he begins the cutting down process. The business is strong and for a while goes along pretty well on its reduced advertising ration. The owner, just like the Frenchman, is much pleased with himself—he has made a money-making discovery. But we should remember that the laws of business are much like the laws of nature. The horse died, which points a moral which needs no comment. If you would be successful with your business do not emulate the tale of the horse.

PERSONAL MENTION

Mrs. G. B. Parrish of Abernathy was taken to the Lubbock Sanitarium Wednesday night of last week for treatment.

Mrs. R. E. Risinger is enrolled in Texas Tech for a cotton classing course, making the trip to college daily by car.

Miss Lottie Struve and Marvin and Rudolph Struve went to Amarillo Sunday, where the boys attended a salesmanship school.

Mrs. Paul Barrier and children of Lubbock was here Sunday visiting Mrs. M. M. Goebel.

Mr. and Mrs. M. Thomas and family, Mr. and Mrs. H. T. Johnson, Mr. and Mrs. H. H. Selke and J. U. Peel attended the singing convention at Plainview Sunday and reported a very large crowd in attendance at the meeting.

Miss Gladys Houston left Wednesday for Plainview, where she will take a course in a business college.

Ted Watts of Tulia was visiting friends and relatives here last Sunday.

Mr. and Mrs. W. A. Scott and family of the Lakeview community were visiting Mr. and Mrs. Burton Jackson and family here Tuesday.

M. Thomas and family attended the singing convention at Plainview Sunday.

A. M. Medlin and family of Abernathy, visited his parents and brother in Wilson Sunday.—Wilson Pointer.

E. C. Abernathy is back again at the Pinson Pharmacy, having returned Sunday from a week's vacation trip to points in Oklahoma. Mr. Abernathy reports the sections he visited as being in good shape, but stated that the wheat crop there was nowhere near as good as that in this section.

Mrs. Wilhite visited her mother in Idalou this week end.

Mrs. Dial is visiting her mother in Clermont, Texas, this week.

Mrs. Hattie Brandt spent the week-end in Abernathy.

Miss Maude Pinson was a Plainview visitor Tuesday.

Miss Nattie Ayers, County Health Nurse, was a visitor in Abernathy Wednesday.

J. M. Hicks, former resident of Abernathy, was in town for a few days this week greeting old friends.

Oliver Stambaugh left Monday night for San Antonio, after a two weeks' vacation here with his parents.

J. E. Brown was in town Monday from the County Line community, and was highly pleased with the prospects of making a good crop this fall. Mr. Fall planted 70 acres in cotton after the light rain had in April, and it is up about 5 inches now and looking fine.

Mr. and Mrs. S. M. Jarratt and family of Denver, Colo., paid a brief visit to his cousin, Mrs. J. D. Norman, while passing through here Wednesday on an auto trip.

400 Attend Farm Bureau Meet at Lubbock Hear Inspiring Talks

Four hundred Farm Bureau members from Lubbock and adjoining counties enjoyed the address of John Orr of Dallas Saturday afternoon, and regardless of how they may have felt at the opening of the meeting, all were benefited by the remarks of Mr. Orr.

A spirit of optimism prevailed, and while the drouth was mentioned by the speaker, it was generally conceded that there is still plenty of time in which to plant and harvest a good cotton crop on the South Plains. Numerous speakers who preceded Mr. Orr told of instances where cotton planted in July matured and made a good turn-out, and there is no reason to think that the same will not be done this year.

Collective Sales
Mr. Orr, as president of the Texas Farm Bureau Cotton association advocates collective bargaining and selling. He pointed out the fact that Bureau members this year realized some \$15 a bale more for cotton than did the non-member farmers. The reason given for this is the Bureau removes a number of profits usually claimed by middle men, and also by crading and classing the cotton it is possible to get a much better price than is offered by street buyers for small lots.

Bankers Complimented
The speaker complimented the bankers of this state who are making it possible for farmers to ship their cotton. Some few have never been willing for this to be, but a majority of the more progressive bankers are strictly in line with the program.

Mr. Orr plans to visit Lubbock again soon, when he will again address the farmers of this section. At the close of the meeting many Bureau members pledged themselves to obtain at least one new member, and a number of contracts were signed before the crowd left the court room.

Maedgen Speaks
C. E. Maedgen, president of the Lubbock National Bank, characterized the successful farmer as one possessed of nerve and application in work. He spoke encouragingly of the present financial condition of the county by saying that he receives scarcely three applications a day for loans.

Seeking expressions from the assembly, Mr. Maedgen turned the floor over to testimonials of the Bureau members. The wife of a pioneer farmer of Lubbock county testified that in 1923 her husband planted several acres of cotton as late as June 23rd. From this planting, she said, one bale of cotton was produced for every five acres. A farmer who moved on the plains last year testified that he realized three bales of cotton from nine acres planted in the latter part of June. All experiences related indicate that cotton may be planted as late as July 1st, with a fairly good chance of a good yield.

Jones Gives Figures
D. L. Jones of experiment station, said that a canvass of the Bureau members indicates that most of them have received rain within the last few weeks. Mr. Jones gathered the agricultural history of the county over a period of 13 years, and during those years most of the rainfall came in June or July. The condition generally is encouraging, according to his statistics.—Lubbock Avalanche.

EVENING OF DOMINOES

Mr. and Mrs. H. H. Selke entertained a crowd of young folks at a pleasant evening of dominoes Saturday. The following were among those present: Misses Johnston, Cora, Essie and Ruby Kelly, Verda Ragland, Blanche Zeman, Eleanor Struve, Helen Schroeter, Geneva Thomas, and Messrs. Wright Williams, Jacob Meester, J. E. Dial, Rudolf Struve, Orval Davis, T. A. Williams, La Verne Kelly.

Eagle Springs Echoes

Farmers Getting Ready For Planting—To Have Meeting In July

Yes, we had a nice shower of rain, but it won't last long if we don't get some more soon.

Some of the farmers are busy harvesting their wheat, while others will be busy planting for a few days.

Mesdames Morehead and McGlatham called on Mrs. J. C. Baughman last Wednesday.

Little Nita Mae Baughman, who was severely burned several days ago, is improving nicely.

C. W. Nolen has been suffering with his throat for the last week. Dr. McBride has been treating him.

Mrs. R. A. Chaney and son, Arthur and wife, called to see her brother, J. C. Baughman, Sunday afternoon.

Mr. and Mrs. C. W. Nolen and children took dinner with J. C. Baughman and family Sunday.

Miss Lillian Ladd spent Saturday night and Sunday with Mr. and Mrs. Bill Morehead.

Mr. and Mrs. S. E. Muggleton and daughters and son attended church at County Line Saturday night.

The Children's Day program was well attended Sunday night at the school house. The little folks were well trained under the capable leadership of Mesdames J. W. Daniels and Lamb.

We will have a 10-day meeting here beginning on Thursday night before the second Sunday in July. It will be held by Brother Dean of Oiton and his band. We want everyone to be looking forward to a great meeting.

The Methodist pastor of County Line called in the S. E. Muggleton home Saturday evening.

Mr. and Mrs. T. M. Cain visited J. C. Baughman and family one day last week.

Miss Ruby Ladd visited Miss Exa Odom Friday night.

Ernest Muggleton, who is now at home, is spending a great part of his time fixing radios.

ENTERTAINS WITH PARTY

Last Saturday night, several of the friends of Miss Trixie Harvel met at her home and spent an enjoyable evening in playing various games. Among those present were: Misses Gladys Davis, Eulalia Smith, Katie Heath, Cecilia Struve, Bernice Oliver, Hazel Emory, May Tom Brown, and Messrs. Bill Davis, J. K. Jackson, Grady Brown, Raymond Brown, Clovis Heath, Paul Buske, Otho Gould, Raymond Clarke, Robert Herral, Euclid Brown, Carrol Owen, Ralph McMillan, Orval Davis.

Signs

It was a dark night and he was lost. Presently he saw a guidepost with a sign at the top.

Climbing the post with slipping difficulty, he read the sign. It said, "Wet Paint."

If you are doing good work, don't worry, somebody will find it out.

Science Hill Sayings

All Smiles At Science Hill—Successful School Year Had

Yes, we are all smiles! We were blessed with a slow rain Sunday and Monday. It was certainly fine, and from what we learn it was a general rain over the entire community. Our farmers have become encouraged and are joyously planning to begin planting as soon as it gets dry enough.

Our school closed last Tuesday night with a program. The program was excellent and well rendered. We had two very competent teachers this year and are glad to report that they will be with us again next year. The teachers were Miss Carra Hacker of Plainview and Mrs. Hamel Budge of our community.

Our wheat turned out even better than was expected, the yield being from 18 to 25 bushels in general. But the farmers have not all finished harvesting.

Miss Leona Hacker of Plainview spent the first of the week with her sister, Miss Carra Hacker. They both returned to their home in Plainview Wednesday.

Mr. and Mrs. W. E. Land and children took dinner Sunday with Mr. and Mrs. J. C. Land.

Mr. and Mrs. W. R. Hall were Sunday guests of Grandma Hall.

Professor and Mrs. Coleman Rice of Amarillo were visiting relatives in our community last week.

A number of our people attended the Children's Day program given at Eagle Springs Sunday. Everyone reported an interesting program.

Frona Mae and J. F. Land were Sunday guests in the J. S. Shaddon home.

W. E. Risser of Plainview was a very busy visitor taking care of his wheat in our community last week.

Messrs J. S. and Adie Shaddin were Plainview visitors Saturday.

Mr. and Mrs. J. C. Land and children were Lubbock visitors Friday. Mr. Land had some dental work done.

John Webb of Abernathy was a business visitor in our community one day last week.

Mrs. J. S. Shaddin and children attended church at Hale Center Sunday.

Mr. and Mrs. Oran Rhodes and children were guests in the R. C. Patterson home Monday.

NOTICE TO TAXPAYERS

At the April Called Session of the Commissioners Court held on May 3rd, the following order was entered on the minutes of the court:

"It is ordered by the Court that the Tax Collector of Hale County, Texas shall attach Receipts to all personal Checks in payment for Taxes on Real and Personal Property, and that all Automobile Tax must be cash."

When presenting application for the Registration of all Motor Vehicles please do not ask us to take check. If you mail in application go to your bank and deposit the money and send in the deposit slip with Light Certificate and Application, and Numbers will be mailed out.

B. H. TOWERY,
Tax Collector.

On Time

"What? Late again! Have you ever done anything on time?"
"I bought a car."

Lakeview Locals

Planting To Begin Right Away—Attend Singing Convention

We are rejoicing over the rain which came yesterday afternoon and this morning. The farmers will begin planting immediately.

Rev. J. T. Ellerd preached at the Christian church Sunday morning.

Mrs. G. C. Johnson has the measles. We hope they don't scatter in our community.

J. B. Morrow and Clyde Vineyard are visiting relatives in East Texas.

E. C. Wilson and family were Plainview visitors Saturday.

Mrs. W. P. Dunn and children and Miss Reita Smith were Lubbock visitors Friday.

Mr. and Mrs. Joe Goldston and Mrs. S. P. Castleberry were transacting business in Plainview Tuesday.

Arthur Landers and family of Abernathy and Mrs. Reginald Tucker of Hale Center spent Thursday afternoon in the E. C. Wilson home.

Mr. and Mrs. Roy Castleberry of Petersburg spent the week-end with home folks.

Jim Miller, A. G. McGauley, Dure Dunn and Clay Goldston are working in the harvest fields near Happy.

Jim Fitzgerald and sisters, Minnie and Etta Lee, were Plainview visitors Monday.

Mr. Cecil Craig and family spent the week-end with relatives in Plainview.

Miss Oletha Watkins of Petersburg and Miss Arthur of the Snyder community were visiting friends here last week.

Several from our community attended the big singing at Plainview Saturday and Sunday.

Rev. and Mrs. C. A. Joiner of Hale Center spent Thursday afternoon in the C. S. Smith home.

J. J. Goldston is again at work on the road.

L. Ragland was taking the census for Mr. Murphy of Abernathy Friday.

Joe Scott of Seagraves is here visiting in the home of his daughter, Mrs. L. Ragland, and family.

Mrs. W. S. Lakey and daughter, Lagatha, and Mr. D. Stark of Floydada spent Sunday in the S. P. Castleberry home.

There wasn't any prayer meeting Sunday night on account of the muddy roads.

LARGEST HAIL STONES IN HISTORY OF THE PLAINS FALL NEAR SOUTHLAND

While returning from a trip to Ft. Worth Tuesday afternoon, John W. Blalock came through a deluge of rain and hail near Southland, 25 miles south of Lubbock.

He brought some of the hail stones with him in his car, and after driving 65 miles, the stones were as large as hen eggs.

He stated that the hail stones which fell were the largest in the history of the plains, and completely demolished the roofs of the buildings in that community. A heavy rain storm followed the hail.—Lamb Co. Leader.

Wait

"Mamma, am I descended from a monkey?"
"I don't know," replied mamma. "I did not know your father's people very well."

Bartonsite Happenings

Everybody Happy Over Rain—Harvest Is In Full Swing

Well, we got a rain Monday night which broke the long dry spell. Didn't get enough rain though for the farmers to plant around Bartonsite. Cheer up, maybe it will rain again soon.

Health of this community is just fine.

Mrs. J. J. and Mrs. Jack Barton called to see Neta Mae Baughman Monday afternoon. They report her better.

Miss Minnie Chaney spent Monday night at the home of her brother, Arthur Chaney, and family.

Mr. Blackwell of New Mexico is working for Mr. Rufus Chaney this week.

Henry Carr called to see Jack Barton Tuesday.

Mr. and Mrs. John Wilkins motored to Hale Center Monday.

Mr. and Mrs. Henry Carr were in Hale Center Saturday.

Jack Barton was in Abernathy Saturday.

J. J. Barton has turned sheep herder this week.

Mr. and Mrs. Arthur Chaney spent Tuesday with Mrs. R. A. Chaney and family.

Lyle Richardson is helping the Chaney brothers thresh wheat this week.

Mrs. M. A. Kookan of Sudan is visiting her son, A. R. Kookan, and family, again this week.

Miss Mattie Richardson is visiting her sister, Mrs. Marvin Stovall, of Lubbock.

Two young men from Littlefield are staying at the Chaney brothers place this week, working at the separator.

Some of the farmers are trying to plant their feed crops this week. Some are planting cotton. Gee, it is rather late for cotton, don't you think?

Claude Chaney was in Hale Center Monday.

A. R. Kookan was in Abernathy Saturday.

Mr. and Mrs. Arthur Chaney and family and Rufus Chaney were in Plainview Saturday afternoon.

Miss Minnie Chaney and brothers, Jack, Sam and Rufus, attended the program at Eagle Springs Sunday night.

Most everyone is threshing wheat in this community this week.

The little rain we got Monday night made everyone smile if it was not but a shower. Who said it didn't rain at night in June?

Dr. McBride, you said every time you had your car washed it rained. What made you wait so long to wash your car? Didn't you know we needed a rain.

Jack Barton put up a new windmill tower Tuesday.

A. R. Kookan called to see the Chaney brothers Wednesday.

Mrs. Maude Kookan and baby, little Loreta, called to see Mrs. A. R. Chaney Thursday.

Mr. and Mrs. Russell Kookan were in Sudan Wednesday afternoon. They took Mr. Kookan's mother home.

Mrs. Maude Koken happened to a painful accident Monday while helping Mr. Kookan fix a wagon. He threw a piece of iron and it bounced and hit her foot. She has been quite lame for the past week, but is able to get about again. Her foot is still pretty sore.

Henry Carr is hauling wheat to Alley Switch this week.

J. J. Barton and son, Sam Barton, were in Abernathy Friday.

Rufus Chaney is on the sick list since I started writing this week's news. He is pretty sick, but is some better today (Saturday).

Jack Chaney nearly got ate up by a wild mule Thursday. The mule pawed and bit him, but did not seriously hurt him—only tore his unionalls up a bit.

A. R. Kookan was in Cotton Center Monday.

Sam Barton was in Lubbock Friday. The scout masters met at Lubbock Friday.

Mr. and Mrs. Stovall of Lubbock brought her sister, Miss Mattie Richardson, home Sunday. Mr. and Mrs. Stovall spent the day with Mr. and Mrs. Richardson Sunday.

Mrs. Maude Kookan and little daughter, Mae, were the guests of Mrs. R. A. Chaney Saturday.

The Chaney brothers are cutting wheat this week. They reported wheat lots better than they at first thought, making a little better than 20 bushels to the acre.

Well, we got that long looked-for rain Monday. It will stop the harvest for awhile I guess. It started raining Sunday night and is still raining.

Guilty

"Judge, your honor," cried the prisoner at the bar. "Have I got to be tried by a lady jury?"
"Be still," whispered his attorney.
"I won't be still! Judge, I can't even fool my own wife, let alone twelve strange women. I'm guilty!"

PROPER FEEDING PAYS DAIRYMAN

The cost of feed is by far the largest single item in the cost of producing milk, and makes up one-half to two-thirds of the total gross cost. The labor cost will make up almost one-fifth to one-fourth of the total and all remaining costs combined usually do not run higher than 20 per cent, writes G. Heebink of South Dakota in the Indiana Farmer's Guide.

An ideal combination of feeds consists of well-cured legume hay, corn silage or roots, and farm grains balanced with muscle and bone-building feeds such as ground soy beans, wheat bran, linseed-oil meal or cotton seed meal.

It is a good practice to feed three pounds of silage and one pound of hay per hundred pounds of weight to each cow per day. For instance, a cow weighing 1,000 pounds should receive about thirty pounds of silage and ten pounds of hay each day. When silage is not fed, approximately two pounds of dry roughage daily per hundred pounds live weight is a sufficient amount. Legume hay and good corn fodder make a desirable combination if the hay is limited.

A common rule for feeding grain is to feed cows, producing milk relatively high in butter-fat test, one pound of grain for every three pounds of milk produced and to cows producing milk of low butter-fat test, one pound of grain for every four pounds of milk produced. If this 1,000-pound cow was producing thirty pounds of milk daily, she would be fed from seven to ten pounds of grain each day, the amount of grain depending upon the fat test of the milk.

It is more profitable to feed a mixture of several grains than to feed a straight grain ration of corn, barley or oats. Mixing 1,000 pounds or more at a time saves labor. A desirable grain mixture is as follows: Ground oats, 300 pounds; ground corn 300 pounds; linseed meal, 200 pounds; wheat bran, 200 pounds. Ground barley may be substituted for the corn, oats, or wheat bran in this mixture, and ground soy beans may well replace the linseed meal.

Desirable Calf Rations for Animal for Home Use

Desirable rations for a calf nine months old that it is proposed to develop into an animal suitable for home butchering would result from using a mixture consisting of equal parts of corn and oats, to which has been added 10 per cent of linseed meal. The animal can gradually be started on this combination, using two or three pounds per day, and increasing the amount gradually for 20 or 30 days until by the end of this period the youngster would be allowed to have all that he would consume with relish. This amount would vary according to his breeding and feeding qualities, but it is a safe enough policy to let him be the judge of the amount necessary to satisfy his craving for food. In addition, allow him some roughage, mixed hay or clover or alfalfa hay, yet when he is on a full ration of basic grain products you will find him devouring comparatively small amounts of hay.

All Experiments Prove Fall Freshening Best

In all of the dairy cow freshening experiments conducted as far back as Father Time can remember the experimenters always have arrived at the same results—that fall freshening is best.

There are several sound reasons why fall freshening means more dollars to the farmer.

In the first place September pastures are more succulent than August pastures. August is a complete "washout" as a pasture month, both cows and calves getting a poor start as a result.

The intense heat which accompanies August does not agree with either the cow or her offspring. Cooling rains usually fall in September, however, the pastures green up and consequently the cow freshening in this month gets a nice start.

Dairy Hints

A good cow cannot do her best on good roughages alone. She needs some feeds of less bulky and more concentrated character.

Frequent deliveries of cream to the market are essential for good quality. Cream should be delivered at least three times a week in winter.

See that the cow is perfectly clean when she is milked, as germs likely fall into the milk while the cow is being milked.

The dairyman in need of protein supplements and mill feeds will probably be able to buy them at a lower figure now than a few weeks hence.

Calves raised on the minimum amount of milk, must begin to eat hay and grain at an early age. Only good quality alfalfa or clover hay should be fed.

State Highway Department Renders Courtesy to Abernathy Tuesday

Quite an appreciated service was that rendered by the employees of the local division of the State Highway department, when they kindly ran their grader over the business streets of Abernathy Tuesday.

Following the rain, the streets had become deeply rutted, and a considerable amount of water was collected in the gutters on both sides of the streets.

A couple of turns with the grader filled in the holes, and also cleared the gutters and allowed the impounded water to escape, leaving the streets in excellent shape compared to their condition before the arrival of the Highway force.

BALL GAME WITH HALE CENTER RAINED OUT LAST SUNDAY—TO PLAY IDALOU

The ball game scheduled for last Sunday with Hale Center was called off on account of the rain. No announcement has been made as to when the game will take place.

Next Sunday, on the local diamond, Abernathy will play the Idalou nine. A good game is expected, and all the fans are requested to be on hand.

L. P. SHAW PURCHASES TEMPORARY SCHOOL BUILDINGS IS REMODELING FOR HOME

L. P. Shaw, some few weeks ago, purchased one of the temporary school houses that have been used as primary class rooms, and is having it remodeled and made into an attractive residence.

The inside is being partitioned off, papered, and re-decorated, and modern and up-to-date plumbing fixtures installed, making it an attractive home.

A garage is also being erected at the rear of the house.

B. F. Sisk and J. K. Jackson were business visitors in Lubbock Tuesday.

Meet to Discuss Registered Jersey Stock Hale Center June 24

There will be a meeting held at the school auditorium at Hale Center Friday night, June 24th. The purpose of the meeting is to organize a Hale County Registered Jersey Club.

All who have registered Jerseys and who have a plan for breeding registered Jerseys are urged to come to this meeting.

Mr. D. T. Simmons, secretary of the Texas Jersey Cattle Club, will be at the meeting to help organize and to explain how we can do more constructive breeding as a club than we could otherwise.

Be sure to remember the date of this meeting and be there at 8:15 p. m.

County Agent.

LITTLE DAUGHTER OF F. W. DAY TAKEN TO LUBBOCK TUESDAY FOR OPERATION

The little 6-year old daughter of Mr. and Mrs. F. W. Day was carried to the sanitarium at Lubbock Tuesday, suffering from mastoid trouble.

An operation to relieve the trouble will be performed today, Dr. Prestridge leaving at noon today to assist in the operation.

The many friends of the little girl as well as of her parents, are hoping that the operation will be a complete success, and that permanent relief and full recovery will follow.

New Bridge on Highway South of Plainview Being Built

Work was started on the construction of the bridge across Highway No. 9 at the south end of Broadway. The old bridge is being torn down to make way for a wider and otherwise more adequate structure at that spot. During the construction, vehicles are detouring around the city playgrounds.

The cost of the new bridge is being met by the State Highway Department, Hale County, and the City of Plainview.

New Arrivals

Mr. and Mrs. W. F. Miller are rejoicing over the arrival of a brand new baby boy, who arrived on Tuesday, June 14th.

Secretary Jersey Cattle Club to Spend Week in Hale County

D. T. Simmons, secretary of the Texas Jersey Cattle Club, will spend the week of June 20th in Hale County helping to establish Registered Jersey Bull Circles. If you are interested in buying a bull under circle plan or individually, will you please notify the county agent.

Under the Bull Circle Plan, one buys an interest in five bulls. These bulls are changed every two years and thereby gives the owners ten years service with the five bulls. There are five such circles now in the county; so it will be easy for you to see what some of these breeders think of circle work.

County Agent.

Bob Wheeler and Burton Bailey of Rising Star spent last week end with Misses Maudie and Claudie Singleary, who are visiting Mr. and Mrs. Bob Gould.

Mr. and Mrs. Geo. W. Ragland and Miss Veda Ragland were Lubbock visitors Wednesday, all three of them having dental work done.

C. W. Beene left the early part of the week for Anson, Texas, where he will attend court, and from there expects to visit with his brother in East Texas for a few days.

Little Oneida Peel, who was operated on at the Lubbock Sanitarium a week or two ago for appendicitis, was brought home last Thursday, and is now almost fully recovered from the operation.

Railroad Engineer for 44 Years Without Accident Killed by Train

Chicago, June 11.—Frank Hutchinson, 65, locomotive engineer in the employ of the Chicago, Milwaukee & St. Louis railroad, 44 years without an accident, decided to take a vacation away from all railroads.

But "getting away" from railroads was not so easy for the "safe engineer," as Hutchinson was known. At Guelph, Ont., he had to drive his automobile across railroad tracks. There was a crash—the bodies of Hutchinson and his wife were brought here today for burial.

Ennis Youth Survives Shock of 11,000 Volts From Hi Power Line

Ennis, June 11.—James Farris, is in the Municipal hospital here recovering from a severe electrical burn received when he was working on a pole at a plant at Trinidad.

Farris was pulling a bolt out of a secondary bracket when the end of the bolt came in contact with a 11,000 volt wire, the current passing through his body before the bolt was flung clear of the wires into a cotton field some distance away. Harris was rescued by fellow workers as he hung suspended by his safety belt, attached to the pole. C. A. Gilley, foreman of the linemen, aided by others of the crew, worked for two hours, using the prone pressure method to resuscitate Farris.

Burns in the palm of his left hand, on the thumb of his right hand and above the knee of the right leg were the extent of the injuries Farris received. He is considered out of danger.

The Wrong Side

Johnny's grandmother had come from a long distance to visit her son whom she had not seen in many years.

"Are you my mamma's mother?" asked Johnny by the way of conversation.

"No, my dear, I'm your grandmother on your father's side."

"Well, said Johnny, decidedly, "All I've got to say is you're on the wrong side."

A hitherto unknown village of 152 inhabitants has been discovered in the mountains of northern Japan by census takers. The inhabitants do not speak modern Japanese.

Three Men Convicted of Murder Now in Hale County Jail

Robert F. Blake, recently convicted at Tulsa of the murder of Fred Conner, was brought to Plainview Sunday and lodged in the county jail. He has appealed his case and will probably be held at Plainview awaiting the decision of the Texas court of criminal appeals.

Blake was arrested by J. Frank Norfleet following a chase over several states.

With the imprisonment of Blake, the Hale County jail now holds three men convicted of murder. The others are George J. Hassel and Robert Stanley, negro, who was charged with the murder of a Crosby County farmer.—Plainview Herald.

Word received from Clyde Thomas states that he has secured a position in the Renfro Drug Store No. 3 in Fort Worth, and that he is looking forward to entering T. C. U. in the fall.

Abernathy Lodge No. 1142. Called meeting Friday night, June 24th, for installation of officers. All Master Masons are requested to be present. Troy Stambaugh, W. M. H. E. Richter, Secretary.
