

# The Abernathy Weekly Review

Volume 6

Abernathy, Texas, Thursday, October 6, 1927

Number 23

## HALE CO. FIRST AT S. O. PLAINS FAIR

Scoring 925 points out of a possible 1,000, Hale County won first prize in the county exhibits of the agricultural department of the Panhandle South Plains Fair, held at Lubbock last week.

The award of first place carried with it a \$200 premium.

In winning first place Hale County scored first in corn and grain sorghums; cotton and wheat; alfalfa and sweet clover; neatness, and tied for first with Garza County on oats, barley and cane. Hale County also took second in vegetables, second in all other crops, third in forage crops and fourth in peas and cowpeas.

Garza County, with 910 points, ran Hale County a close race, while Dawson County won third place with 840 points.

That Abernathy contributed in no small measure to Hale County's success in carrying off first prize at the fair is shown by the following entries from Abernathy which helped make up the Hale County exhibit:

The pumpkins were raised by W. R. Groves, who also took first place on the individual exhibits for pumpkins.

The rye in the exhibit was raised by Garnett Gilliland.

Melon, raised by E. T. Maupin.

Keshaw raised by Mr. Lovelace.

Squash, Egg Plant and Summer Squash raised by J. P. Nystel.

Oats, raised by Chris Benn.

Wheat raised by Garnett Gilliland.

Cotton, raised by C. B. Gray.

These entries, together with the rest of the exhibit, will be taken to Dallas, for entry in the State Fair, and no doubt will rank equally as high in competition with the whole of the Lone Star State as against the other counties of the South Plains.

## CHRISTIAN CHURCH TO HAVE SERVICES TWICE A MONTH INSTEAD OF ONCE AS NOW

Announcement is made that preaching services will be held at the Christian church of Abernathy on the second and fourth Sundays of the month, instead of only on the first Sunday as formerly.

On the first Sunday, Rev. Young will conduct services at County Line, and on the third Sunday at Becton.

Next Sunday, being the first one of the month, services will be held at County Line.

## Salt Water Strata Is Struck in Richter No. 1 at About 900 Feet

A strata of salt water was struck Wednesday in the W. A. Richter No. 1 well being drilled west of town, at an approximate depth of 900 feet.

The crew at the well is at present engaged in under-reaming and setting casing on a blue shale formation.

Following the shutting off of the casing, drilling will be resumed it was stated today.

No new activities in South Plains oil circles have been reported during the past week.

## RADIO BUG AGAIN RAMPANT IN ABERNATHY—IT'S THE WORLD SERIES THIS TIME

If you should happen to be downtown between 1:30 and 3 o'clock these days and note the almost deserted condition of the streets, don't get the idea that Abernathy folks have adopted the Mexican siesta idea.

If you're looking for somebody, the best and quickest way to find them is to start on a tour of all known radio receiving stations, and you'll probably find them crowded around the loud speaker getting the latest dope on the world series. At least, that's where the Review man found them on the first day of the series—and if there is another item to be added to the long list of the trials and tribulations of a newspaper editor, it is that of getting an earful of an exciting play, and then right after it getting a severe jolt when you happen to remember that tomorrow's press day, and you're a long, long way from having the paper anywhere near ready for the press.

The new tank is being erected on the east side of their trackage, opposite to the old tank, and a delivery pipe will be placed between the two tanks.

G. Carr returned Thursday from a vacation trip to Austin

SANTA FE BUILDING NEW WATER TOWER AND PUMP STATION IN ABERNATHY

When you think over the little building boom that Abernathy is enjoying just at this time, don't overlook the Santa Fe, for they too, are "fixing up" a little—building a brand new water tower, in fact, at the depot.

The detail of these models is especially worthy of note. In the model of a tractor, for instance, the spark plugs, magneto wires and magneto are all reproduced in miniature. In the model airplanes, one finds the "joy stick,"—and it really operates the rudder and elevators. In the model automobiles one finds real glass in the windshield, and upholstered seats.

A model of a motorcycle and sidecar probably evidences the most painstaking work. There is the gear shift, that you can work back and forth, the kick starter, the mud guard on the bottom of the fender, and a real leather seat. And, of course, the seat of the side-car is nicely upholstered.

All the models of cars and motorcycles have real rubber tires, too—in fact, they are complete to the last detail.

And while the models display great ingenuity in their construction, they also display real resourcefulness in the materials from which they are made. Small wooden boxes, pieces of tin cans, empty shoe polish cans, a few nails and scraps of lumber are the basic materials, with anything and everything that can be found lying around most anywhere making up the balance of the materials.

As examples of the modeling art, Garland's exhibit will rank well with any collection, and as the handiwork of a boy of sixteen, made with ordinary carpenter tools, and out of whatever was handy for materials, it is far out of the ordinary.

FAMOUS OAK TREE UNDER WHICH JOHN WESLEY PREACHED, BLOWN DOWN IN STORM

Winchelsea, Sussex, England, Sept. 24th—The famous oak tree under which John Wesley, English divine, preached during the early days of his crusade out of which Methodism grew, has been blown down. A storm which raged along the Channel yesterday felled the tree, which stood near the chapel erected here to his memory.

## FARM BUREAU GIN GINS ITS FIRST BALE WEDNESDAY—COTTON BEGINNING TO MOVE

Following a slight shower in this section Saturday morning, sunny weather has prevailed, and picking of the early cotton is now getting into full swing.

Whilst the movement of cotton to the gins has been slow, yet it is now coming in in a steady stream, and increasing in volume daily.

On Wednesday the Farm Bureau Gin turned out its first bale, ginning two bales for J. A. Avery and one for A. Hill and C. F. Buske.

The Stone and Felmet gins have turned out several bales the past week, and another day or two should see them all three as busy as can be.

Little change is reported in the condition of Grandpa Maupin the past week. Despite all that medical science and loving care can do, he is unable to find relief from his malady, and is steadily growing weaker.

Wheat Acreage Is Increased 18 per cent This Year in Hale County

Acreage planted and intended to be planted to wheat in Hale County this year will show an increase of 18 per cent over last year, Plainview grain dealers estimate. This is the average of the estimate of six buyers, who keep closely in touch with the planters.

The estimates of increase range from none to twenty-five per cent, four being twenty or above.—Plainview Herald.

ABERNATHY BOY HAS UNIQUE HANDICRAFT DISPLAY AT THE HALE COUNTY FREE FAIR

One of the most unique and interesting exhibits at the Hale County Free Fair was that of Garland Nystel, who had on display a number of mechanical toys which he had made.

The toys attracted much favorable attention and won for Garland the premium in the Boys' Handicraft department.

The exhibit of young Nystel consisted of models of various kinds of autos, airplanes, boats, tractors, motorcycles, farm wagons, etc., and in addition to being really excellent examples of handicraft, display great ingenuity and close observance on the part of the designer.

The detail of these models is especially worthy of note. In the model of a tractor, for instance, the spark plugs, magneto wires and magneto are all reproduced in miniature. In the model airplanes, one finds the "joy stick,"—and it really operates the rudder and elevators. In the model automobiles one finds real glass in the windshield, and upholstered seats.

A model of a motorcycle and sidecar probably evidences the most painstaking work. There is the gear shift, that you can work back and forth, the kick starter, the mud guard on the bottom of the fender, and a real leather seat. And, of course, the seat of the side-car is nicely upholstered.

All the models of cars and motorcycles have real rubber tires, too—in fact, they are complete to the last detail.

And while the models display great ingenuity in their construction, they also display real resourcefulness in the materials from which they are made. Small wooden boxes, pieces of tin cans, empty shoe polish cans, a few nails and scraps of lumber are the basic materials, with anything and everything that can be found lying around most anywhere making up the balance of the materials.

As examples of the modeling art, Garland's exhibit will rank well with any collection, and as the handiwork of a boy of sixteen, made with ordinary carpenter tools, and out of whatever was handy for materials, it is far out of the ordinary.

FAMOUS OAK TREE UNDER WHICH JOHN WESLEY PREACHED, BLOWN DOWN IN STORM

Winchelsea, Sussex, England, Sept. 24th—The famous oak tree under which John Wesley, English divine, preached during the early days of his crusade out of which Methodism grew, has been blown down. A storm which raged along the Channel yesterday felled the tree, which stood near the chapel erected here to his memory.

## CHEVROLET CARAVAN PAYS ABERNATHY A VISIT—DEMONSTRATES BODY STYLES

Everybody thought it was a fire Tuesday morning, when they heard a siren blowing, followed by a frenzied and prolonged honking of automobile horns. They expected to see a big red fire wagon dash around the corner, followed by the automobile population of half the countryside.

But a fire wagon was about the only thing that was missing from the procession of Chevrolet cars that was the cause of all the noise.

The caravan consisted of some dozen Chevrolet cars, each with a different style of body, and which is touring the country demonstrating the adaptability of the Chevrolet to all industrial uses in the motor traction field.

After driving through the business section, the caravan drew up at the Herral Motor Company's garage, where those in charge explained to interested parties the various features of the different models.

## Agricultural Survey of Abernathy School District Is Compiled

L. J. Young, vocational agricultural teacher for the Abernathy Independent School district has recently finished a very complete agricultural survey of the Abernathy Independent School district, and from which, with his permission, the following facts are printed:

The total acreage in the school district is 37,328, 25,722 acres of which are in cultivation, and 11,606 acres in pasture.

There are 115 farms in the district, the average size being 324 acres. Of these farms, 49 are occupied by owners and 66 by tenants.

From the survey it is found that the average 324 acre farm has: 224 acres in cultivation.

100 acres in pasture, orchard and farmstead.

Of the 224 cultivated acres, 88 are planted in cotton, 70 in wheat, 70 in feedstuff.

The average farm also has, 4.5 milk cows, an irrigated garden, 1.5 brood sows, 97 laying hens, 7.7 work animals, half an orchard, and a small portion of a sheep and goat.

Major Enterprises

The major agricultural enterprises of the district, as shown by the report, are cotton, wheat and dairying, ranking in the order named. A detailed summary of these three will be given in a later article.

Contributory Enterprises

Under the heading "Contributory Enterprises" in the survey are listed Grain Sorghums, Corn, Barley, Oats, Sudan, and Work Stock.

In the district 7,053 acres were planted to grain sorghums, and the average yield per acre was 400 bundles or 1 ton of heads.

395 acres planted to corn yielded 22.5 bushels per acre.

One hundred and eighty-five acres of barley were planted in the district. No yield was had on this acreage, the barley being planted at the wrong time.

One hundred acres of oats was planted, and due to the drouth, no yield was had.

Two hundred and fifty acres of Sudan was planted for pasture, and 105 acres for seed. That planted for seed yielded 500 lbs. per acre.

Eight hundred and ninety acres was used for pasturage for work stock.

Minor Enterprises

Leading the "Minor Enterprises" of the district are the chickens, there being 11,183 chickens on the 115 farms in the district.

These 11,183 chickens laid during the year 100,455 eggs, an average of 106 eggs per chicken.

The number of eggs set was 48,437, which hatched out 27,724 chicks, and of these 27,724, 17,824 reached maturity.

In the district, 170 sows farrowed 1223 pigs, an average of 7.25. Of this number, 266 pigs were lost, leaving the number raised 967.

Five farms in the district raise sheep, the total number of ewes being given as 393. These sheep sheared 3,855 pounds of wool, an average of 9.9 pounds of wool per sheep. 94 per cent of the lamb crop was raised last year, the actual number being 371.

Only 51 farms of the 115 in the district have an orchard, while 103 farms have an irrigated garden.

Renew for The Review.

## Abernathy Folks Take Premiums for Exhibits at Hale Co. Free Fair

That the Hale County Free Fair, held at Plainview last Friday and Saturday, was a success, is shown by the wide interest that was taken in it all over the county, and by the number of entries in each division of the fair.

Abernathy had no community agricultural exhibit, but scored several individual exhibit points.

J. P. Nystel took a first on Winter Squash.

Richard Neis, second on Irish Potatoes.

Claude Havenhill, first on Peanuts.

Garland Nystel, with an exhibition of mechanical toys took first in the boys' club Handicraft division.

In the community agricultural exhibits, Iowa Avenue got first with a score of 823 out of a possible 1,000 points; Stoneback won second with a score of 766; Snyder was third with a 727 score, and Runningwater scored fourth with 698 points.

Iowa Avenue won first in attractiveness, neatness and arrangement of exhibit, first in crops not classified, first in fruit, first in vegetables, first in hay and forage, first in legumes, first in grain sorghums, first in corn, second in cotton, and third in small grains.

In the livestock division, Dr. S. J. Underwood of Hale Center carried away most of the premiums.

J. E. Shackelford of Hale Center was here this week marketing his wheat at the local elevators. Mr. Shackelford finds a better market for his products in Abernathy than elsewhere, and finds it profitable to come a considerable distance to take advantage of it.

## GAS TO BE TURNED ON NEXT WK

Gas service by the end of next week is in prospect for Abernathy, according to the estimates of officials of the West Texas Gas Company, which has recently completed the laying of gas mains in the major portion of the town.

The ditching and welding crews have left town, and on Wednesday the office force, who have had headquarters in the rear of the Riley building, also moved on to (we hope) green fields and pastures new.

H. E. Richter has been appointed agent for the gas company, and anyone seeking information on gas matters is requested to see him.

According to officials, 78 service connection outlets have been made in Abernathy, and several people are already tying on to the line.

G. W. RAGLAND SUES WEST TEXAS GAS COMPANY—ASKS DAMAGES IN SUM OF \$750

A suit for damages totalling \$750 was filed in the 99th district court yesterday by Madge Ragland and her father, George Ragland, against the West Texas Gas Company, charging that the defendant had neglected to place warning lights on a ditch of the Amarillo-Lubbock gas line near the Ragland home in Hale county. The petition also states that because of the warning lights, the little girl and her parents fell into the ditch, the little girl sustaining a broken arm. The little girl is eight years old.

P. B. Randolph of Plainview is attorney for the plaintiffs.—Lubbock Avalanche.

A. S. Mims of Fort Worth was in Abernathy Thursday.

## Is a Hog Worth a Dime? Or a Chicken Worth a Nickel?

—Surely some folks do not think so the way they are allowing intestinal worms to hold back their herds of hogs and flocks of chickens.

For the above price each chicken or hog can be cured of worms—by using

### TEN WAYS TO GO BROKE

Ten ways for a man to go broke farming have been suggested by the agricultural college at the University of Tennessee. Since they apply to other states as well as Tennessee, here they are:

1. Grow only one crop.
2. Keep no livestock.
3. Regard chickens and a garden as nuisances.
4. Take everything from the soil and return nothing.
5. Don't stop gullies or grow cover crops—let the topsoil wash away, then you will have "bottom" land.
6. Don't plan your farm operations. It's hard work, thinking—trust to luck.
7. Regard your woodland as you would a coal mine; cut every tree, sell the timber, and wear the cleared land out cultivating it in corn.
8. Hold fast to the idea that the method of farming employed by your grandfather is good enough for you.
9. Be independent—Don't join with your neighbors in any form of co-operation.
10. Mortgage your farm for every dollar it will stand to buy things you would have cash to buy if you followed a good system of farming.—The Progressive Farmer.

### REMEMBRANCES OF CHILDHOOD

(The following poem was found by E. T. Maupin among the papers left by his mother. Mr. Maupin has kept the poem for many years, and treasures it highly. We are glad to have had an opportunity of re-publishing it.)

Far back in my musings my thoughts have been cast,  
To the cottage where my hours of childhood were passed;  
I love all its rooms—to the pantry and hall,  
But the blessed old kitchen is dearer than all.

Its chairs and its tables—none dearer can be,  
And all its surroundings are sacred to me,  
To the nail in the ceiling, the latch on the door,  
And I love every crack in the old kitchen floor.

I remember the fireplace, with mouth high and wide,  
And the old-fashioned oven that stood by its side,  
Out of which, each Thanksgiving, came puddings and pies,  
That fairly bewildered and dazzled my eyes.

And then, too, St. Nicholas, slyly and still,  
Came down every Christmas, our stockings to fill,  
But the dearest of memories that I have laid up in store,  
Is the mother that trod on the old kitchen floor.

Day in and day out, from morning till night,  
Her footsteps were busy, her heart always light;  
For it seemed to me then that she knew not a care,  
The smile was so gentle he face used to wear.

I remember with pleasure what joy

filled our eyes,  
When she told us the stories that children so prize;  
They were new every night, tho' I'd heard them before  
From her lips, at the wheel on the old kitchen floor.

I remember the window where mornings I'd run  
As son as the daybreak, to watch for the sun,  
And thought when my head scarcely reached to the sill,  
That it slept through the night in the trees on the hill.

And the small track of land that my eyes there could view,  
Was all of the world my infancy knew  
Indeed I cared not to know of it more,  
For a world of itself was that old kitchen floor.

Tonight these old visions come back at my will,  
But the wheel and its music forever are still;  
The band is moth-eaten, the wheel laid away,  
And the fingers that turned it are mouldering in clay.

The hearthstone so sacred is just as it was then,  
And the voices of children ring out there again;  
The sun through the window looks in as of yore,  
But it sees strange feet on the old kitchen floor.

I ask not for honor, but this I do crave,  
That when the lips speaking are closed in the grave,  
My children will gather theirs 'round by their side,  
And tell of the mother that long ago died.

It would be more enduring—far dearer to me,  
Than inscription on granite or marble could be,  
To have them told often, as I did of yore,  
Of the mother that trod on the old kitchen floor.

—Rev. W. A. Watson.

### Senior Party

On Friday night, September 30th, the Senior Class gave an entertainment at the home of Mr. and Mrs. W. A. Richter. Miss Adelle Alsop was the hostess. In addition to the Senior class, several others were present.

Those present were: Misses Adelle Alsop, Gertrude Pool, Vance Carlisle, Irene Craig, Ina Mae Stambaugh and Bernice Oliver; Messrs. Robert Harral, Charlie Johnson, Floyd Shaw, J. K. Jackson, Andrew Jackson, Alvin Hardin and Raymond Clark.

Teachers present were Misses McMath, Dillingham and Sloan, and Messrs. Johnson and Young.  
All present reported a very nice time.

### Mrs. Leonard Harral Entertains

Mrs. Leonard Harral entertained at her home last Thursday with an afternoon of Bridge.

Following the series of games, the guests were driven to the Pinson Pharmacy, where refreshments were served.

Those enjoying the occasion were: Mesdames F. W. Struve, Barney McBride, Bob McAlister, George Ragland, Dutch Crow, E. B. Lindsey, W. A. Richter, O. O. Crow, C. H. Bucks, Troy Stambaugh, E. C. Ripley, F. W. Clausen; Misses Lois McKenzie, Grady Kincaid, Estelle McAlister.

The many friends of Mrs. J. U. Peel will be glad to learn that she is recovering nicely from her illness, and hopes soon to be fully recovered.

Mr. and Mrs. Jesse Seale returned the early part of last week from a trip to points in East Texas.

## PERSONAL MENTION

Mrs. Ola Legg of Plainview and Mr. and Mrs. Bert Pinson of Hale Center were visitors in Abernathy Sunday.

Mr. and Mrs. Pete Buske returned from Brownwood Saturday.

Mr. and Mrs. Clifford Cleveland of Slaton visited relatives here Sunday.

Boyd Green was carried to Lubbock Monday, where he underwent an operation for appendicitis.

J. C. Arnett, postmaster of Antton, is greeting his old friends at the Postoffice window here in Abernathy. Mr. Arnett will be here for a month or so.

Mr. and Mrs. A. G. Gilbert and family left Wednesday for Eau Claire, Wis., to visit friends and relatives.

John Benson was carried to a Lubbock sanitarium last Friday, suffering from an attack of appendicitis. He underwent an operation, from which he is reported to be recovering nicely.

Wallace Magee and family of Amarillo spent Sunday here with home folks.

Charles Felmet and Barney McBride left Monday for Fort Worth.

## ALABAMA COAL MINE BURNS FOR 29 YEARS; OVER ONE MILLION TONS COAL BURNT

Jasper, Alabama.—For 29 years a burning coal mine here has defied all efforts to quench its flames.

The pit, known as the "burning mine," is the oldest in the Warrior coal field district, and government authorities who recently completed a survey of the area report that more than 1,000,000 tons of coal have been consumed by the flames.

Operated on a large scale, the mine was at the peak of production when it was fired by a disgruntled miner who had been discharged. Props, pieces of board and timbers were saturated with oil, and when discovered the flames had gained such headway that efforts to extinguish them were fruitless.

After raging a few months, the fire ate away all supports and the earth collapsed in places. The site eventually was abandoned and families dependent on it moved elsewhere.

Nearby farmers have found sections of fields oozing gas and steam, pouring from ledges undermined by the flames. On one occasion the fire ate away the coal beneath a house and the entire structure collapsed. A well in the vicinity produced boiling water, caused by the intense heat beneath the water vein.

Recently the fire was reported to have burned itself out, but it soon renewed its intensity. No attempt is being made now to extinguish it, for the heat of three decades has so softened the coal in outlying ledges as to make it worthless.

C. C. Butler and son of Dublin are in Abernathy greeting old friends and acquaintances.

Mr. and Mrs. J. T. Crow and Mr. and Mrs. Arthur Crow left Sunday for Post City, where they expect to spend the winter.

Walter Harp and family returned Friday from Abilene. While there, they took part in the celebration in honor of the visit of Lindbergh.

## The Loraine Oven Heat Regulator

—is a distinctive feature of the NEW PROCESS GAS RANGES which we have on display.

The Loraine Oven Heat Regulator enables you to automatically maintain a constant temperature in your oven at all times—a feature which will be appreciated by all housewives.

Let us show you the New Process Gas Stoves, and our line of Gas Heaters.

Sweater time is here—and we have an excellent assortment of the famous Bradley Knit Sweaters. Come in and see them.

## The Little Things--

In addition to a full line of Hardware and Tools of all kinds, we carry a wide selection of those "little things" that can be used to advantage in so many places.

If you will come in and look over the assortment of these "little things" that we have on our tables, you will find many things that you can use to decided advantage around the home or shop.

In fact, when you need something to do a little "fixing up" with, it will pay you to visit our store first, for you are almost sure to find here the very thing you are looking for.

## R. M. HARDESTY

**EAGLE SPRINGS ECHOES**

Sunday school was well attended last Sunday. New officers were elected. Mr. Brashear was elected superintendent. Rev. Warren, pastor of the Abernathy Baptist church, preached a fine sermon, which was enjoyed by all present.

Mrs. J. C. Baughman and children, and Jack Chaney spent Sunday with Mr. and Mrs. L. Baughman. In the afternoon, Mr. and Mrs. W. J. Daniel and Mr. and Mrs. Muggleton and daughter called there, and all enjoyed some fine watermelons.

Mr. Neely began cutting his millet Tuesday. He is sure getting over the ground fast with his McCormick-Deering tractor and new mower attachment.

Mr. and Mrs. Dick Morehead en-

tertained the young folks Tuesday night.

Mrs. S. E. Muggleton and daughter attended the fair at Lubbock Friday.

Those attending the Fair Saturday from our community were: Mrs. J. C. Baughman and daughter, Thelma, Mrs. Ladd, and daughters, Miss Nina Baughman, Mr. and Mrs. Rice, and Messrs. Clarence and Walter Noles, Averette and Everette Morehead, and Leon Rice.

Most of the farmers of our neighborhood are taking advantage of the nice weather to get their feed cut.

Several parties from this neighborhood are picking cotton this week for Mr. Williamson of County Line.

The prayer meeting Sunday night at Eagle Springs was well attended.

Interest in the meeting is increasing. Let's all be loyal in attendance and not leave our own prayer meeting to go elsewhere. Mrs. H. E. Ladd was appointed leader for next Sunday night.

Mrs. L. Baughman and children spent the day Monday with Mrs. J. C. Baughman.

Mrs. Jack Barton called at the home of Mrs. J. C. Baughman one day last week.

Misses Myrtle Williamson, Thelma Baughman and Messrs. Marion Rice and Clarence Noles visited in Abernathy Sunday.

Our mail carrier, Mr. Littleton, says the farmers out this way had better get busy because he is not going to hold off another frost.

Mr. and Mrs. Fred Preston were in Abernathy Saturday.

Mr. and Mrs. W. J. Daniel motored to Abernathy Saturday.

School is progressing nicely. There were a few new pupils this week. There would be several more pupils if it were not for cotton picking.

**8-YEAR OLDS STAGE PRIZE FIGHT FOR 4-CENT PURSE:**  
ONE IS NEAR DEATH

Houston, Sept. 30.—A Houston back yard was their Soldiers' Field—the "purse."

Pat Golden, the 8-year old "Dempsey" of a championship fight, lies on a bed at St. Joseph's Infirmary with death drawing nearer every minute.

Loretta McDonald, 12, had read of the battle of the two million at Chicago. So she played Tex Rickard. She offered a purse of 4c for the title battle.

Billy Lewis, also 8 years old, was "Tunney." Loretta was promoter, referee and audience.

One of "Tunney's" wild rights caught "Dempsey" back of the ear. He went down.

Loretta held up Billy's hand and gave him the 4c.

Pat's ear hurt that night. He became delirious. He mumbled of the battle of the four pennies.

Doctors were called. They said the blow back of the ear had broken an abscess and that Pat was suffering from spinal meningitis.

Mr. and Mrs. G. Pearson and family of Lubbock visited in town Sunday.

**BARTONSITE HAPPENINGS**

The rain Saturday and Sunday night and on Monday stopped the work in the fields for a little while. But the work will commence again about Thursday in most parts.

J. J. Barton returned last Sunday from Galveston, where he had been for the past week.

Jack and Sam Chaney attended the fair at Lubbock Wednesday.

Arthur and Claude Chaney were shopping in Abernathy Wednesday afternoon.

It is not necessary to become alarmed at conditions for there are too many sources of relief in Hale County to allow ourselves to become melancholy and confused as to the possible but not probable calamities that could befall us. The price of cotton is unsteady, we will admit, and many false reports have gone out as to the best methods of handling the crop. The bulls have succeeded in forcing the price down from former figures, but in justice it cannot long remain even where it is, and while the existing trouble is to be adjusted by the ill fate of a gamble. There is a correction due, and must come.

Mr. and Mrs. Henry Carr and Mrs. Carr's sister, Mrs. Pool, attended the fair at Plainview Friday.

Mrs. R. A. Chaney and children were in Plainview Thursday and Friday.

W. O. Ball and Tom Blackwell made a trip out in New Mexico Sunday, where the latter's family lives.

The Baptist people organized a B. Y. P. U. at the Baptist church Sunday night.

Mrs. Westbrook and daughter Mary, returned Thursday from Waco, where she had been under medical treatment.

Mr. and Mrs. Terrell Hamett moved last Thursday to Littlefield, where they will make their home.

John Benson and his sister made a trip to Lubbock Tuesday for a consultation with a doctor.

Mr. and Mrs. John Payne and children, with her father, Mr. Norfleet, made a trip to Lubbock Tuesday.

Miss Helen Walker left last week for Baylor University, where she will attend school this winter.

Guy Collier lost one of his fine milch cows by lightning last week.

Dorothy Barrington was kicked by a horse last week when coming home from school, but was not seriously hurt.

Mr. and Mrs. Henry Carr were seen at the Lubbock fair Saturday.

This place was well represented in Abernathy and Hale Center Saturday.

Mr. and Mrs. Marvin Stovall of Lubbock are visiting in the Richardson home Sunday.

Mr. and Mrs. Arthur Chaney and children attended the fair at Lubbock Saturday.

George Chaney sprained his arm while cranking a car Sunday morning.

Walter Baughman of Eagle Springs spent Sunday night in the Chaney home.

Most everyone around Barton-site is through sowing wheat, but some of them lack a whole lot of being done. What wheat is up looks fine. Cotton isn't opening up yet around here, as the rain keeps it growing instead of maturing.

Mr. Richardson purchased a Ford Car this week.

**IOWA AVENUE ITEMS**

Sunday school was well attended Sunday. They are having a contest between the adult class and the young people's class.

Mrs. David Barrington returned home Saturday night from Austin.

Miss Zenda Kisar and Berthel Trent attended the fair at Lubbock Friday.

Foster Moring won first prize on his club pig at the Plainview fair.

Miss Blanche Reeves won the trip to the Dallas fair.

Mrs. H. E. Dewey has returned home from Iowa.

Iowa Avenue received first prize on their booth at the Plainview fair.

Mr. and Mrs. B. F. Moring and children visited relatives in Abernathy Sunday.

Mrs. Ernest Davis visited her sister in Slaton Sunday.

Lee Thomason attended the fair at Lubbock Friday night.

Leonard Trent has returned home from Iowa, where he has been visiting relatives.

Mr. and Mrs. Bill Dawes were visiting in Spur Sunday.

Mrs. E. C. Saunders and children have returned from East Texas, where they have been visiting relatives.

The singing given Sunday night by Mr. and Mrs. Ed Hudgins was well attended and greatly enjoyed by all present.

Eldred Kisar spent Sunday with E. H. Davis.

Mrs. Payne and son, Murray, spent Sunday in the Edd Hudgins home. Tracy Moring is helping Clarence Davis thresh this week. Virgil Cox visited relatives at Olton this week-end. Almost everyone attended the fair

at Plainview from this community Friday and Saturday.

E. J. Windsor started picking cotton Monday morning. He has about five bales open.

Miss Jimmie Graham is able to attend school again after an operation.

Mrs. Ross White was in Lubbock Friday having her throat treated. She has just recently had her tonsils removed.

**AMPHITHEATER ERECTED IN AUSTRALIA READY FOR THE SECOND COMING OF CHRIST**

Sydney, Australia.—On the shores of Sydney harbor there has arisen a white amphitheater, the seats of which are reserved by persons who expect a second coming of Christ across the waters of the harbor.

The amphitheater, built under the auspices of the Australian section of the Order of the Star in the East, cost \$40,000. Its stage is backed by

pillars of conventional Hellenic design of majestic size. Every person who contributed more than \$5 was allowed to have a reserved seat dedicated to himself or a friend.

Dr. Mary Locke, national representative of the sect, says:

"The amphitheater has been erected by the Order of the Star in the East for the use of the Christ, the supreme teacher, whose coming it is the privilege of the order to announce and prepare for."

"Members of the order feel that by providing buildings specially erected for His reception and his teaching, effective service is being rendered. The population is led to anticipate the coming of the Great One, and a place is ready where He can meet, teach, heal and bless the people. The amphitheater may be regarded as the forerunner of similar buildings in other countries."

**ABERNATHY LOSES TO HALE CENTER IN FIRST GAME OF THE SEASON—SCORE 68-0**

Abernathy's debut in the 1927 football season was anything but a success, they being defeated last Friday by Hale Center to the tune of 68-0. From the score, it is obvious that the two teams were not at all evenly matched. The Abernathy team was composed for the most part of raw material, and the boys had had no practice before the opening of the season.

With more practice, and a resolve not to become discouraged over the result of their first game, there is no doubt but that the Abernathy High school football team will make a quite creditable showing before the season ends.

**ANNOUNCEMENT**

Due to the fact that I have received many inquiries as to whether or not I would be a candidate for the office of Commissioner of Precinct No. 2 in the forthcoming elections, I wish to state at this time that I will be a candidate for that office, and I request consideration of my candidacy by the voters of the precinct.

W. H. BROWN.

Rev. M. M. Young returned Monday from Afton, Texas, where he conducted services on Sunday. Mr. Young says he had a hard time getting back to Abernathy on account of the muddy roads.

**SPECIAL SALE**

Following Mr. Ragland's appointment as postmaster, he has sold his insurance agency to H. E. Richter, who has transferred the business to his own office in the Riley building. Mr. Richter will maintain the connection both with the companies represented by Mr. Ragland, and with those with which he had former connections in his own agency.

**AGRICULTURE BELOW NORMAL IS GOVERNMENT REPORT; PUT FARMERS BETTER OFF**

Washington, Sept. 29.—Farmers are a little better off financially now than they were a year ago, but agriculture is still far below other industries economically, according to the agriculture department.

The purchasing power of farm products is placed at index 88 by the department, 12 points lower than the pre-war power, but five points higher than a year ago.

The agricultural situation in the last months has shown improvement, it was stated. Wheat and potato crops are larger than last year, but their prices are still favorable.

The apple crop is reported the smallest in six years, with cotton forecast at nearly one-third less than the harvest of 1926.

Livestock continues stable, while warm September weather has aided corn maturity.

Summing the season thus far, the department announced production and returns can be called an average year for the South; for the wheat belt a good year in the North and a fair year in the South.

Mr. and Mrs. M. E. Nelson are the proud parents of a fine 10-lb. baby girl, born Thursday, October 6th.

The Ripley Hotel has been covered with sheeting and metal lath in preparation to receiving a coat of stucco.

Ray Pinson and Johnson Riley were Lubbock visitors Wednesday.

**Beauty Unadorned**

"Have you seen Norah's new evening frock?"

**THINGS THAT NEVER HAPPEN**

**First Services Held in New Nazarene Church Last Sunday Morning**

The first service was held in the new Nazarene church last Sunday morning, a fine attendance being had for the initial service.

Dr. Givens preached the first sermon to be heard in the new church house.

In addition to the fine attendance at church, a fine crowd was out for Sunday school. In view of the fact that the church has only been established here a few short months, it has enjoyed a splendid growth.

Members of the Nazarene church are proud of their new church building, and extend a hearty welcome to all to come to it and worship with them.

**AGRICULTURAL AGENT GIVES FIGURES ON MONEY SENT OUT OF STATE FOR FOODSTUFFS**

Mexia, Texas, Oct. 1.—"There are 6,000,000 people in Texas and they eat 18,000,000 meals a day. If everything that is served on their tables were raised on Texas farms, we would be the richest country, per capita, in the world."

This is the conclusion of G. W. Orms, district agent of the agricultural extension service, who addressed the Mexia Rotary Club here this week.

"We are spending \$6,000,000 a year for lettuce and tomatoes shipped from California to Texas," Orms pointed out, "and we can raise lettuce and tomatoes here that are just as good."

"We will make 4,750,000 bales of cotton in the state this year and receive \$60 a bale more for it than we received last year. But a big part of this money will be sent out of the state for food and feed crops that we could raise right here at an immense saving."

"We buy 20,000,000 pounds of butter annually from other states, and Texas is admirably adapted to the dairy cattle business."

"We spend \$50,000,000 a year for pork products that we could raise at a profit."

"The demand for cows and hogs is increasing and I believe that the development of the dairy cattle, beef cattle, hog and poultry business in Texas is due to mean much to the State."

**WISE AND OTHERWISE**

A college professor says the younger generations lack opportunities for expression. But not in expressing their opinions of the old foggy ideas of their elders.—Pittsburgh Times.

In time we will probably have the aviator who tries to see how close he can come to another plane without hitting it.—Des Moines Register.

Free suggestion to amateur deer hunters: If it doesn't wear a vest, a necktie, a mustache, or a hat, and doesn't smoke a pipe, it is probably a cow.—Detroit News.

Ridicule is generally credited with being the most effective weapon, but it doesn't seem to be able to do anything with the pens at the post office.

The man next to become famous is the one who will make a vaccination mark look like a dimple.—Atlanta Constitution.

**THEY COME A LONG WAY FOR ABERNATHY APPLES—E. M. CROW SAYS ADVERTISING PAYS**

"Come and get 'em" said E. M. Crow in a little ad in The Review a couple weeks ago. And they came—thirty miles or more.

Mr. Crow advertised apples for sale at 50c a bushel to those who would come to his orchard for them, and they weren't long in coming for them. Mr. Crow sold all his apples, and could have sold twice as many, he states. Folks came from Meadow and Slaton to buy the apples, and he sold \$75 worth in a very few days.

Mr. Crow says that he has 720 apple trees in his orchard, the majority of the trees being about 10 years old. Last year he sold his crop for \$1,000, and had equally as good a crop this year, except for the fact that the "bugs" got into them a short while back.

John Shirley of Plainview is visiting relatives here this week.

The many friends of W. W. Poulk, who lives ten miles north of town, will regret to learn that he is suffering from a severe attack of typhoid fever, and is very low at this time.

**THEY COME A LONG WAY FOR ABERNATHY APPLES—E. M. CROW SAYS ADVERTISING PAYS**

"Come and get 'em" said E. M. Crow in a little ad in The Review a couple weeks ago. And they came—thirty miles or more.

Mr. Crow advertised apples for sale at 50c a bushel to those who would come to his orchard for them, and they weren't long in coming for them. Mr. Crow sold all his apples, and could have sold twice as many, he states. Folks came from Meadow and Slaton to buy the apples, and he sold \$75 worth in a very few days.

Mr. Crow says that he has 720 apple trees in his orchard, the majority of the trees being about 10 years old. Last year he sold his crop for \$1,000, and had equally as good a crop this year, except for the fact that the "bugs" got into them a short while back.

John Shirley of Plainview is visiting relatives here this week.

The many friends of W. W. Poulk, who lives ten miles north of town, will regret to learn that he is suffering from a severe attack of typhoid fever, and is very low at this time.
