ANOTHER DRY HOLE?

In the constant search for new oil reserves in Texas, even the dry holes benefit the communities in which they are drilled. They mean employment and wages for Texas labor, lease money for Texas farmers and ranchers and many other expenditures which benefit all lines of business. 2,300 dry holes were drilled in Texas last year at a cost of nearly 60 million dollars. Since oil was discovered in Texas, 52,000 dry holes have been drilled in all sections of the State at an expense of more than one billion dollars. This billion dollar research has already resulted in the discovery in Texas of over half of all the known petroleum reserves of the Nation. The creation of this wealth will benefit Texas citizens for generations to come.

Whether the oil man wins or loses, the community always gains.

SCHOOL WELL UNDER WAY

Abernathy Public schools opened with a very interesting program September 2. The faculty and school board were introduced by Mr. S. R. Lindsey, principal of high school.

Mrs. J. C. Hurst discussed, in an enlightening talk, the relationship of the parents and teachers in working for the betterment of the school and community.

Mr. R. L. Snider's talk was indeed an inspiring one. He let us know that he would stand by us in putting over the new ventures of football and the band.

Noel Johnson, speaking for the entire student body, said we were ready

Richter and Maxine Jones, are back this year doing extensive work in a post-graduate course. We welcome them back as old friends.

The novel idea of outside benches to eat on at noon has been enthusiastically received; however, many of the students cannot find places to sit down until someone else is through eating. We think if more benches were added, this problem would be solved.

The students are readily and cheerfully entering into their work. The faculty seems eager to help them even if the students do cause them a few headaches. Truly this seems to be a great year for Abernathy schools.

BAND ORGANIZED

Between 40 and 45 members have joined the newly organized band. Students from the 4th grade through high school are eligible. Plans are now being made for uniforms and new instruction books.

 Rev. Rhew told us how the teachings of church played a vital role in the school and community life.
 The organization of a football team has been greeted with cheers by the student body. With the team goes a newly organized band to lend color and glory to the team. We know they will look very smart and snappy in their uniforms.
 A new course, Journalism, is being taught this year. In this we learn the make-up of a newspaper, how to get news, and how to write for a newspaper. It promises to be an interesting and exciting study.
