OUR FRIENDS

Our friends, one and all, have been too good for us not to attempt to at least say something. Of course, words of any expressions, whatsoever, are too weak and fail to convey our love to each of you. Too, the fine flowers, which were so pure and lovely, and in such great numbers, were truly a gesture of Christian love.

Our sister, Mrs. Viola Cheatham, has requested that we extend her affections for those dear ones who were so sweet to us, and so faithful both day and night.

May God's choicest blessings abide with everyone of you, and remember those of our family who remain as good friends of yours.

County Judge Outlines Bond Issue Hale Votes On December 28

BY FRANK R. DAY (County Judge of Hale County.)

The Commissioners' court of Hale County met in called session at their regular meeting day, for the purpose of discussing, among other things, petitions presented to the court for the completing and hardurfacing of what is known as the Tucco road, Highway No. 287, in the south part of the county and connecting the Cotton Center road with said highway; and constructing and paving the proposed Plainview-Silverton Road to the county line.

A large group of citizens met with the Court with signed petitions yet to be turned in.

A great deal of interest was evidenced in a plan in which it appears that an opportunity may shortly be available to the county to secure the completion of pavements on these State Highways in the county without cost to the taxpayers. Those present went on record unanimously, as favoring the plan and requested the Commissioners' court to proceed at once to carry out the program. The program, as adopted, requires that the taxpayers of the county vote to issue, not to exceed \$400,000.00 of bonds to complete the paving, at an interest rate not to exceed 3-3/4%, and to mature in not to exceed one to twenty years; but with the distinct understanding that the proceeds from the sale of the bonds be turned over to the State Highway Department and that the proceeds be administered and expended by the State Highway Department for the construction and completion of the roads, and that the \$400,000.00 Bonds will not be issued unless and until the bonds, both interest and principal are assumed by the State of Texas, 100%, and paid out of the gasoline tax.

The Commissioners' court passed an order calling for an election at the earliest possible date, which is Saturday, December 28th. A condition in the election order is that, if the bonds are voted, it will not be possible for them to be issued and sold until they are assumed by the State 100% for payment from the gasoline tax. It was pointed out that the State has assumed payment of all road bonds now outstanding in other counties where the proceeds from the sale of the bonds were actually spent on State Highways. One cent of the gasoline tax is set aside for the payment of bonds to mature over a period of years. Two cents of the tax is allotted to the State Highway Department for the construction and maintenance of roads; and the State Highway Department has announced that the entire proceeds of this 2c tax must be used for the next few years in building and improving military roads under the National Defense Act; therefore, the State Highway Department is recommending that counties vote bonds and pay all the cost thereof out of the 1c tax. The total road bond indebtedness now being paid by the State from gasoline taxes amount to \$145,000,000.00; and represents bonds voted by every county in the State, with the exception of six or seven. This program would permit construction of roads to begin early in 1941 and complete these highways at an early date, without cost to the county.

If this program is made available to Hale County, it will provide employment for a great number of men on a project of great and lasting value to our community.

Nearly all of our neighboring counties in the Panhandle are availing themselves of this opportunity and elections have been called in Floyd, Briscoe, Swisher, Castro, Lamb, Bailey, Deaf Smith, Hockley, Cochran, and other counties and interest is extremely high throughout the Panhandle plains.

Letter To The Editor

THE UNSOLVED MYSTERIES OF LIFE

As we travel down life stream we are often made to wonder just what is in the minds of some people who they can so boldly ask the things of their fellowman that they dare not do themselves. The writer has in mind our very good friends from Shallow-water and County Line who so cheerfully ask the Abernathy school board for a mere trifle of eighteen sections to be sliced off the district.

The Abernathy-County Line Independent School Board had a very small part in Consolidating the outlying Districts with the present district and I know one fellow who does not care to assume the responsibility saying sure buddy come take a slice. Even though we may miss our aim it is the intention of the school board to conduct the business of the district according to the wishes of a majority of the people therein and until a majority of the voters say come and portake of the spoils, let us continue to be friends and forget it all.

One of the district's free SERVANTS,

M. C. Davidson.

1941 ALLOTMENTS IN HALE COUNTY COTTON BE ANNOUNCED SOON
Hale county cotton farmers will be notified of their 1941 cotton allotments early in December, A. A. Crownover, Hale county administrative officer, said today.
Crownover said the 1940 per cent factor was almost the same as it was last year, being 27.07 as compared to 27.09 in 1939. The factor is the per cent of tilled acreage in the county after wheat acreage is subtracted.

The Light that must not Fail!
This Christmas, on trees and shrubs, on the house itself and on Christmas trees inside the home . . . in public places all over America, hundreds of millions of tiny, colorful Christmas lights will symbolize the hope we keep, the faith we cherish. Like bright stars, close to earth, they will proclaim our heartfelt wish for peace on earth, good will toward men.
Christmas lighting is an American custom. It has attained a variety and beauty here that has captivated and charmed visitors from other countries. This year it assumes a new significance—for this year it becomes a forceful and expressive way to tell the rest of the world that, in America, Christmas reigns as usual . . . in America, it is being celebrated with the music of ringing bells and singing voices, amidst the sparkling beauty of colorfully lighted streets and homes.
Abroad there is fear and blackout. In America there is liberty and light. Perhaps our Christmas lighting will help us to express our conviction that we have something to be deeply thankful for, in the privilege of being an American and living in America.
Thus, Christmas lighting now becomes a symbol of the freedom that shines in the heart of every American. That is your warrant for making the lighting of your tree and of your home this year, a ceremony to drive home this truth, that liberty and light dwell together.
This is the light that must not fail.
