B. W. M. Workers

Met Monday evening in a most interesting meeting. At our own door was the subject for the evening.
Mrs. Oats proved a most competent leader. Mrs. Clark made a splendid talk on Social Service. We were fortunate enough to have with us our Missionary from China, Miss Blanche Walker, one of the dearest, sweetest, most consecrated christian women. She held the ladies spell-bound for some time, as she gave a vivid description of the lives of the missionaries, and natives in China, repeated the Lord's Prayer in Chinese and sang a couple of hymns in their language. It certainly is a blessing to come in touch with such Christ-like lives. What a pity you were not all there, indeed we were sorry every lady in Haskell could not be present at this meeting, and were delighted to have with us so many of the Presbyterian ladies and a few other visitors. Mrs. Combes delighted the ladies with a solo. Mrs. Kline prayed divine blessing on the meeting at the beginning and all present must have felt that the Master was there.

Methodist Auxiliary Notes.

The Methodist Missionary Auxiliary held a meeting Monday Feb. 15th at the Methodist church. Mrs. Lewis directed

the lesson "A Study of the February Missionary Voice." The numbers given and discussed were instructive and helpful.
The Bible lesson by Mrs. Turrentine on Feb. 8, was one of best the Society ever has had. The study of the Gospel of John was finished and the Society decided to take up the Epistles of John next.
The Valentine Tea given at the Parsonage on the 13th was a pleasing success.
On Monday, Feb. 22nd is the Co-Operative meeting at the Christian Church.
On Monday March 1st the Auxiliary will hold the regular business session. Every one is urged to attend. To those who feel they can't attend every meeting. Let us make a special effort to attend the Bible Study on every second Monday in each month. Mrs. Turrentine presents so many good things and the lessons are so helpful that if once you attend you will be sure to come again. Pub. Supt.

THE LAST PARENTS-TEACHERS' MEETING

Tuesday night Feb. 23rd.

The last parent-teachers' program of the school year will be given in the High School Auditorium next Tuesday night, beginning promptly at eight o'clock. Five minute talks will be made on the following important school questions:
Should Haskell have a special teacher for the Ungraded Pupils.—H. E. Bell.
What help should pupils receive at Home; (a) Primary?—Miss Minadele Davis. (b) Intermediate?—Miss Minnie Burt. (c) High school?—Miss Helen Garnett.

How Should School Pupils be Dressed?—Jno. R. Hutto.
Should Pupils in the Intermediate Grades be Allowed to Take the Work in Domestic Science?—Miss Lillian Peek.

Should pupils take music lessons in private homes during school hours?—Mrs. H. R. Jones.
Should lessons be given in Instrumental music in the school buildings during school hours?—A Member of the School Board.

Should Haskell Teachers hold their Institute on Saturdays or before the opening of school in order to prevent the loss of one week of school?—Sept. T. C. Williams.

Should the salary of Teachers be reduced in order to secure

more teachers or should the term of free school be shortened?—Mr. B. Cox.
Should high school teachers be employed by the year and high school grades taught for a longer period than the primary and intermediate grades?—Mr. Jno. L. Robertson.

After the above topics have been briefly considered there will be a general discussion of any of the above and of such other topics as may be of interest. Plans have been made for some good music. It is probable that the Symphony Club will favor those present with a few numbers.

A large number was present at the last meeting and a most pleasant and profitable time was enjoyed by each. It is hoped that the auditorium may be filled at the next meeting. Everyone interested in the schools of the town—pupils alone excepted—is invited and urged to come. Only questions of vital interest to the schools of Haskell are discussed.

HASKELL, TEXAS, Feb. 20 1915.

There is a movement on foot to build a monument to the memory of the late Dr. G. C. Rankin. Subscriptions are being taken and contributions of one dollar are being asked.

We often meet people who think the United States is on the eve of a rupture with either England or Germany. We think our administration will be able to take care of the national interest and dignity without a rupture. The diplomatic notes of this country are

more or less sensational, because we have abandoned the platitudes and deceptive language so common in European diplomacy and our administration has more faith in going at things in a straightforward way, presuming on the intelligence and fairness of the other nations and using frank expressions that are not so conventional. Europe being incapable of progress, regards the American way as amateur, and attributes our frankness to ignorance, but in this they are mistaken. We know them and understand humanity better than they do and have more faith in them than they have in themselves. In the last analysis this country will win its contentions and it will in the course of the ages soak into the Europeans that nations may be frank and honest.

Gov. Ferguson did a wise thing when he told the outside insurance companies he would veto their bill unless they agreed to invest \$50,000,000.00 in Texas if the state let them back. He is against the repeal of the Robertson insurance law too. Texas has developed local insurance companies and the premiums have been kept in Texas. The fact is Texas would be better off if we had all local companies.

Why do we not recognize the good qualities in those we meet daily? Why are people so intensely critical? Unreasonable criticism makes both the critic and the victim of his art unhappy. If you see a man or woman commit a mistake, ask yourself if in reality, with the lights before them, it is a mistake. Do not charge all the errors of others to ignorance or viciousness. Do not assume the inferiority of others. Men and women are more nearly on equality in a given class than we are willing to admit. It is easy to cultivate a contempt for others, but we have to be broad and careful to put a proper esti-

mate on our fellows. Most men and women have an ambition to be of use to society. We should recognize these human qualities and show some appreciation of our fellows as we journey along the way. Try to be more cosmopolitan. Don't run wild on art, it is necessary to our culture, but it is not all that we must cultivate. There is a utilitarian side of life and its necessities, we must attend with diligence. One idea, one ambition makes us narrow. We are too prone to judge others. We value them by our own ideals and ambition. One will cultivate and become proficient in one sphere, while another will accomplish as much in another way, and each perhaps be foolish enough to have a contempt for the accomplishments of the other, and show either their contempt every time they get a chance, and thus bring unhappiness to the world that could be avoided. True culture, the ideal culture, will bring happiness to the world. We suffer more from lack of culture than from the lack of knowledge.

The Germans have warned all neutral ships to stay out of English waters, or they will not be responsible for losses by submarine attacks, which they mean to use to destroy English commerce. The United States has protested but Germany still adheres to her position. Other neutral states have warned Germany. There is some excitement in Germany against Americans. The English papers say the ruling class of Germany are trying to provoke war with other countries, so as to have an excuse to end the war. The English say they are going to tighten the blockade of Germany. Our administration will keep out of the war, but predict that there will be some American vessels sunk. As we view it, we had better lose some foreign trade than to get into war with Germany.

Notice of Trustee's Sale

Whereas, heretofore, on to-wit, March 1, 1912, R. B. Croker and Wife, Margaret C. Croker, made and executed their certain deed of trust, recorded in Vol. 14, page 24 et seq. of the Mortgage or Deed of Trust records of Haskell county, Texas, naming R. B. Bishop his successor or substitute trustee, for the benefit of the Reynolds Mortgage Co., for the better securing the payment of one certain mortgage bond, in the principal sum of Two Thousand Three Hundred and Fifteen Dollars (\$2315) and five interest coupons attached to the said bond, which land and indebtedness are more fully described in said deed of trust and the record thereof, to which reference is here made, and for the purpose of description, made as part hereof. One interest coupon is due on Feb. 1, annually, and it is provided in said instrument that failure to pay any installment of interest when due, at the option of the holder, may mature the entire indebtedness. And thereafter the said indebtedness was transferred to D. J. Kubecka, and R. B. Bishop refused to further act as substitute trustee, and thereafter D. J. Kubecka, in writing, appointed the undersigned as successor or substitute trustee in lieu, and instead of R. B. Bishop; and default having been made in the payment of said interest coupon due Feb. 1, 1914, the holder of said indebtedness did declare the entire indebtedness due, and did by his certain instrument, in writing, direct and request me as such substitute trustee, to execute said trust.

Now therefore, by virtue of the power and authority, given in said deed of trust, I will offer for sale, between the legal hours thereof to-wit, between the hours of 10 o'clock A. M. and 4:00 P. M. at public auction to the highest bidder for cash, on the first Tuesday in March, 1915, (the said being the second day of said month) at the court house door in the city of Haskell, in Haskell County, Texas, the following described property to-wit:

All that certain tract or parcel of land situated in the County of Haskell, State of Texas, and being part of the 6th acres known as Survey No. 70 patented to the heirs of Joseph Kopman December 9th, 1857, by patent No. 402, Vol. 5, Abstract No. 428 and described by metes and bounds as follows to-wit:

Beginning at the south east corner of Survey No. 71 and the northeast corner of No. 70, Thence West with the South line of said survey No. 71, 124 1/2 varas to corner in said line, Thence south 95 1/2 varas to stake for corner, Thence East 124 1/2 varas to stake in East line of said No. 70, Thence North with said east boundary line 85 varas to the place of beginning, less 2 1/2 strips feet wide along the south line reserved for road, leaving conveyed herein 214 1/2 acres of land.

Together with all the rights, members, and appurtenances thereto belonging.

This sale is made under and by virtue of the power and authority given in said deed of trust and for the purpose of paying said debt and executing said trust.

Witness my hand at Cameron, Texas, this 25th day of January 1915.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

Do You Want to Sell Your Land For Cash

I have made arrangements with a real estate firm in Kansas to work together in the sales of lands in this country. One member of the Kansas firm was here a short time ago, and looked over the northern part of Haskell County and the southern part of Knox County, and was very favorably impressed. Now if you want to sell your lands for cash, no trade or exchange, either come in and list your stuff at my office in Haskell, or mail me a complete description of what you have to offer for sale. I want to get up a good list and send it to the firm in Kansas so they can get up a bunch of buyers and bring them down soon. This is a good chance to get northern capitalists interested in this country.

Ugh! Calomel Makes You Deathly Sick

Stop using dangerous drug before it salivates you! Its horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

Five Minute Cure If Stomach is Bad

"Pape's Diapepsin" is quickest, surest indigestion cure known

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs. Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unailing action in regulating sick, sour, gassy stomach. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if any one should eat something which doesn't agree with them, if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

Health of our community is fine at present.

Our school is progressing nicely with Miss Mary Hughes as teacher. Last Friday afternoon we had a pleasant evening off, the Irby school kindly invited us to their Valentine party, a farm wagon conveyed us to their school house and we proceeded to enjoy ourselves immensely. After spending a most enjoyable afternoon and thanking the Irby school for their kindness in so nicely entertaining such a noisy bunch as ours we returned home, reaching there O. K. and none the worse for the shower bath we received on the way.

Children Hate Oil, Calomel and Pills

"California Syrup of Figs" best for tender stomach, liver, bowels—tastes delicious.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

AN EMPEROR'S NOSE

By M. QUAD (Copyright, 1914, by the McClure Newspaper Syndicate.)

Two years before the outbreak of the Franco-Prussian war and the downfall of the third Napoleon an American named James Birney landed in Paris from New York. He was what might be called a general utility man.

When a man in Cincinnati invented a bullet proof vest Mr. Birney somehow got hold of the European agency—that is, he went to Paris at least to bring the patent directly to the attention of the French emperor, who was always on the lookout for military novelties. He had insisted that he would not deal with the minister of war or any other official and was at last granted an audience with the emperor. It was in the war office, and several cabinet officials were present. A musket was lying on a table, and Napoleon greeted the agent with:

"Well, sir, what about this bullet proof vest?"

"I have it here, your majesty," was the reply as the vest was held up to view.

"Put it on."

"With pleasure."

"Now go to the farther end of the room."

"Certainly, your majesty."

"Now, sir," continued the emperor as he lifted up the musket, "I am going to fire at your breast. Are you willing to take the chances?"

"Fire away!" was the reply.

The emperor fired, and, although the bullet did not penetrate the shield, the force of it knocked Birney head over heels and put him out of it for the next ten minutes. While it was decided that the vest was not a success, the American's nerve excited such admiration that he was given a handsome present in cash and graciously dismissed. He seemed to want to say something to the emperor before he left the room, but did not have opportunity. Early the next day, however, he hobbled up at the war office for an interview with the minister.

"It is no use," said the official as he gave him a minute. "The emperor has decided that he will not buy the vest."

"I knew that yesterday, of course," replied Birney. "I am not here about the vest, but altogether another thing. The fact is I do not like Napoleon's nose, and I want to improve it."

"Mon Dieu, man, but what do you say!" exclaimed the minister as he sprang to his feet.

"I say that the emperor's nose is off and that I can improve it."

"The emperor's nose? You say it is wrong? You say you can fix it? Man, what mean you?"

"I mean just what I say," calmly replied Birney.

"Mon Dieu! Mon Dieu!" gasped the minister as he looked at the American with wonder and terror in his eyes. "Then you have gone crazy! You are out of your mind. You know not what you say."

"I am all right from head to heel, my dear sir, and I can't understand your agitation. What's the matter with my scheme for improving Napoleon's nose?"

The minister rang his bell with nervous hand, and a minute later Birney was out on the sidewalk with a flea in his ear—that is, he was told to take himself off or he would be locked up as an insane person. It was rather a setback for him, and it took him a day or two to get over it, but he finally came up smiling. If the minister would not help him out there were other officials who would. He tried two or three of them, with the result that he was eventually baled before the chief of police. That official probably sized him up correctly, for he said to him:

"You do not realize what you are doing. Don't you understand that you can be sent to prison for this? You do not appear to have lost your mind, and yet you are no fool, and the best thing you can do is to get out of Paris at once."

"Well, I don't want to leave Paris for a few days yet, but I'll keep still about Napoleon's nose."

He went out of the police office meaning to do it, but scarcely twenty-four hours had passed away when he accidentally met a French doctor who could speak English fairly well. Birney was naturally asked why he had visited Paris, and, of course, he told of the bullet proof vest. Having got started, he couldn't stop there.

"Say, do you know I could fix the emperor's nose in less than a month?" he remarked in a burst of confidence.

"The devil! Why, man, you are insulting the emperor! You ought to be locked up!"

The doctor left him without even a cold bow and probably went to the police, as Birney was arrested an hour later. According to the story, he was sent to prison without a trial and detained for a full year. Then he was taken out one day and conveyed to the war office and into the presence of Napoleon.

"Sir," said the emperor after glaring at him for a while, "is my nose out of plumb?"

"It is plumb as a plummet" was the ready reply.

"Does it need any fixing over?"

"Not a fix."

"And how is it with yours?"

"It's out of joint, your majesty, but I think I could follow it out of France."

"Then you may try."

And try he did. His nose led him back to the land of the free without any lingering on the road.

His arm was badly cut and he was bruised up considerably. He is up now, however.

"Our whole family depend on Pine-Tar-Honey for Coughs and Colds," writes Mr. E. Williams, Hamilton, Ohio. It always helps. 25c at your druggist.

Endorsed at Home

Such Proof as This Should Convince Any Haskell Citizen

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow-citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Haskell adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it.

Mrs. W. T. Newsom, Haskell, Texas, says: "Our experience with Doan's Kidney Pills proved that they are very effective in driving away pain in the kidneys trouble with the kidney secretions and other symptoms of kidney complaint. We have known of the merits of this remedy for a long time and have never hesitated to recommend it to kidney sufferers."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Newsom had. Foster Milburn Co. Props., Buffalo, N. Y.

Cures Old Sores, Other Remedies Won't Cure. The worst cases, no matter how long standing, are cured by the wonderful, old reliable Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.

Recognized Advantages

You will find that Chamberlain's Cough Remedy has recognized advantages over most medicines in use for coughs and colds. It does not suppress a cough but loosens and relieves it. It aids expectoration and opens the secretions, which enables the system to throw off a cold. It counteracts any tendency of a cold to result in pneumonia. It contains no opium or other narcotic, and may be given to a child as confidently as to an adult. For sale by all dealers.

Handicapped.

With but three minutes to catch his train, the traveling salesman inquired of the street car conductor, "Can't you go faster than this?"

"Yes," the bell ringer replied, but I have to stay with my car."—Harper's.

Be More, Do More, and Have More

Continue what you are and where you are and you are what and where you will always be. The world of wage-earners is a world of hoppers, wishers and hesitators, held down by foolish doubts and empty fears. Endless thousands of bright fine fellows whose wishbone is where their backbone ought to be, are excusably afraid, halting, timid, clinging with the drowning man, grasp to their slender salaries because they think business is a mystery and they can never learn to transact it.

You must be more, have more and do more in this life or you will always be seeing other men that are better dressed getting more out of life, more of this world's enjoyments and comforts than you. We can point you to hundreds of young men and women no smarter than you that are now successfully and happily engaged in a business of their own, because they attended our institution took a course of bookkeeping and short-hand or business administration and finance, and prepared themselves to go into the business office and work along with trained men and become masters of the art of doing business.

Business is not a happy-go-lucky, haphazard sort of a thing. If you understand it thoroughly you are sure to succeed. If you have never been trained, it is all left to luck and guess work.

Write for our catalog today and read the unsolicited testimonials from many of our former students who are today demonstrating their success and the value of our training. Opportunity never comes to him who waits. It comes to him who goes after it with all there is in him, with a deep, burning, intense resolve of his inmost being. Read our catalog carefully. Why not you be one of the 2000 that will go out of our institution this year into a good business office. Procrastination is the thief of time. Fill in the following blank and send in by return mail. Enlightening Him

Mr. Meek was laboriously hooking up the back of his wife's evening dress just as the clock was striking their dinner-hour and their dinner guest were ringing the door-bell. Mr. Meek breathed hard; his forehead was damp, and his hands shook.

"I do wish some one would invent a machine to do this kind of work!" he muttered, miserably.

"Why, they have!" replied his wife, brightly, as she applied some powder nonchalantly to her nose. "They have, and you are it."—Youth's Companion.
