LEADS AIR ATTACK ON ITALY—Maj. Gen. James H. ("Jimmy") Doolittle, pioneer in the development of aeronautics, hero of the bombing of Tokyo in April, 1942, and wearer of the Congressional Medal of Honor and all other official decorations for gallantry and distinguished service, climaxed his dramatic military career thus far by directing the war from the skies in the capture of Southern Italy. Gen. Doolittle, aged 46, is Commanding General, North African Strategic Air Force. An intrepid soldier, he has also qualified as a wartime champion of industry. Before taking up active combat duty in the present hostilities he rendered important service in superintending the conversion of automobile factories into plants for the manufacture of airplane parts.

COUNTY'S DRAFT QUOTA FOR NEXT TWO MONTHS IS 217

Hale county's selective service quota for the next two months is 217 men. The calls for November will amount to the largest in any month for this county since registration for selective service, there being calls for 78 Negroes and 74 white men, a total of 152. The call for Negro men amounts to more than have been sent from this county in all previous calls. The county may not meet its call for Negroes, since there are only 130 between the ages of 18 and 38 registered in Hale. Some of that number have already been inducted and rejections among them have been high. In addition to the 78 Negroes called for November, there is a call for 14 in October.

There is also a call for 51 white men in October. Dates of the calls are not to be announced publicly until the draftees are notified.

SELLS QUILTS AND CHICKENS TO BUY BOND

Closing of the 3rd War Loan here brought this story from one of the committeemen:

An Abernathy lady, a widow who receives old age assistance money, was so intent upon helping in the drive she sold quilts and chickens to raise enough money to buy a \$25 bond.

Having more quilts than she needed, two were sold for \$10, and this money was added to her savings of slightly over \$6. Enough chickens were sold by the lady to complete the amount, \$18.75, to purchase the bond.

Abernathy Girl Heads WTSC Student Body

(From Bureau of Public Service, W-TSC)

Ruth Lutrick of Abernathy, a senior student at West Texas State college, was chosen last spring to lead the student government activities for the 1943-44 session. She is called president of the Student association.

Being president is not a new experience for Miss Lutrick. During 1942-43, she finished out the year as president of the Student Christian association when its elected president was called into the armed service. She has been president of Alpha Chi, honorary scholarship fraternity of the college; she has been vice-president of Kappa Omicron Phi, honorary home economics society.

Her leadership in various activities earned for her a place in "Who's Who in American Colleges and Universities" for 1942-43.

Miss Lutrick expects to teach home economics. She will complete the requirements for her Bachelors Degree in January, 1944, and she expects to begin work immediately. Asked concerning remoter plans, Miss Lutrick said that she expected to continue her study of home economics and perhaps go into the home demonstration field but that would have to be some time in the future.

During her entire stay at West Texas State college, she has resided at Randall Hall, cooperative dormitory for young women.

A daughter of Mr. and Mrs. R. A. Lutrick, Ruth was graduated from Abernathy High school in 1940.

Letter To The Editor

(Editor's Note: At the Review's request, Mrs. Audie Rodgers of Covington gives information in the following letter about her three children who are in the service. The Rodgers family resided here from 1924 until a few years ago. Johnnie Robert Rodgers, who is in the WAC, was graduated from the local high school in 1935, and the two boys who are overseas attended school here.)

Covington, Texas,
September 28, 1943.

Dear Buford:

ardon the heading for we feel this is not a regular business letter in the least. I am writing this for my mother for she is quite busy. I suppose you remember me, if not only slightly, I am Johnnie's little sister. Horace was wounded in the side, and was released Sept. 6. His wound occurred Aug. 27, while making a raid over France in a B26 Marauder. He was behind a raid and was trying to keep up with the rest of his crew. He was making this particular

raid with another crew. The Plane was "Idiot's Delight II." His crew went over in their plane "Satan's Sister," which gave trouble all the way over. Since arriving in England the crew has had three different planes, namely, "Raunchie Rascal," and now their present plane is "Colonel Rebel." I am enclosing a copy of an article that was published in "Stars and Stripes," the paper of the AEF. I am sure it is a better account than I could possibly give.

Horace and G. W. joined the army air corps in November after graduating from Ranchvale High school in the spring of 1940. They were sent to Randolph Field together but were separated soon after. Horace was sent to Mitchell Field, N. Y., and there trained as a mechanic on the line. He stayed there for several months and was transferred to Philadelphia to stay only a few months, and was then sent to Baltimore, Md., to school to be a propeller specialist. While studying there he was appointed as aviation student and returned to San Antonio to pilots replacement center. There he received his ground instruction. He then was transferred to Brayton Flying school, Cuero, Tex., for primary. From there to Perrin field for basic. He then went to Ellington Field, Houston, for advanced, where he flew a twin-motored plane. Here he received his wings and commission Dec. 10, 1942. This graduating class was dedicated to the Axis as an anniversary gift. Mother and two of her sisters attended the graduation. He was transferred directly to Barksdale Field,

La, for a few weeks of combat training. He was sent to Mac Dill Field, Fla., for several weeks and then to overseas duty. He left May 8, 1943. The squadron stopped for two weeks in Africa.

Horace was born Oct. 16, 1920, in Johnson county. G. W. was born Sept. 17, 1922, in Scurry county. We moved to Hale county in 1924.

G. W. is also overseas and has been ever since October of 1942. He is sergeant and crew chief of a bomber mechanic crew. He is a propeller specialist.

He left Randolph Field for Chanute Field, Ill., but was held over at Jefferson Barracks, Mo. After arriving at Chanute he went to technical school and studied to be an airplane mechanic. After receiving his diploma, he was sent to Fresno, Cal., and stayed there a few months. He had applied for aviation student, but before appointment he was again sent to Chanute to become a propeller specialist. He then was sent to Will Rogers Field, Okla., and to North Carolina for maneuvers. From there he was transferred to Langley Field and overseas. He was in French Morocco for quite a while but now is in Sicily. He has been in the hospital but not from a wound. He was sent to Sicily upon release. G. W. is 21 and Horace, 23.

Horace is married and his wife, the former Marie Nola, resides in Marshall.

Now to Johnnie — she is a corporal in the WAC. She is also in the air corps. She is stationed at Boca Raton Field, Fla. She has a job of great responsibilities. She joined the WAC after seeing that her brothers both were in combat duty. She left Feb. 15, 1943. She took her basic training in Des Moines, Ia., and also, attended the administration school at that center. From there she was sent to Florida.

She was in on furlough when we

heard the bad news. She was born Aug. 23, 1918. She was employed in war work until joining the army.

I sincerely hope you will be able to get what information you desire from this jumbled account of the lives of our soldiers after joining. They were all volunteers.

All of our family is out of school but the little one, Joseph, I suppose Abernathy is quite a different place than when we left.

We were so very glad to hear from you. We seldom ever hear from the folks out that way. Sincerely yours, Mrs. Audie Rodgers.

(Below is the clipping from "Stars and Stripes," referred to in the letter from Mrs. Rodgers.)

Its Wing Just A 'Hole', Yet B26 Cheats Fire and Nazis of a Kill

A U. S. Medium Bomber Station, England, Sept. 5—With a three-foot hole in what there is of a B26 wing, the Marauder, "Idiot's Delight II," came back to England after a raid over France last week.

Focke-Wulf 190s attacked the plane 15 miles off the European coast, shot away its tail turret, aileron control cable and half its rudder surface, punctured a gasoline tank, knocked out fuel transfer pump and blew the big hole in the right

wing.

One 20mm. shell penetrated the cockpit, injured the co-pilot and started a fire among the flares. Smoke filled the cockpit and the pilot couldn't see the instruments.

"With my rudder and ailerons gone, I started to reach for the alarm bell then decided to see if I could control the ship," F/O Frank M. Remmele of Roswell, N. M., the pilot, said after he had brought the plane down on an emergency landing field solely by manipulating the throttles. Before coming in to land, Remmele asked if anyone wanted to bail out, but he received no reply and the entire crew stayed with the ship.

Carried Water in Hands to Put Out Fire

With Remmele fighting to keep the plane in the air, the co-pilot, 2nd Lt. Horace C. Rodgers of Covington, Tex., and S/Sgt. Raiph Morrine, of Philadelphia, extinguished the flames. Morrine put some burning flares, which had been ignited, in his helmet, chopped a hole in the rear bomb bay and dropped them out. He then extinguished another fire by carrying water in his hands, and later ad-

ministered first aid to Rodgers.

After the bombs were dropped, the bombardier, 2nd Lt. Ross H. Buk, Herndon, Kans., took over the co-pilot's duties. The plane was forced to fall out of formation, but was protected by Spitfires until it reached the emergency field.

Crew members explained that the fighter plane that shot off the tail turret came within 150 yards of the ship. S/Sgt. Chester N. Manning of West Medway, Mass., said, "He came right through my fire. It startled me to look out there and see nothing where the pexiglass, sight, and ammunition were before."

THE MEN IN SERVICE WRITE HOME

Somewhere in Southwest Pacific, September 21, 1943.

Dear Buford:
 I'll try to write you a few lines to give you my new address. I've moved so often and so fast that I can't ever get my mail regularly. Most all my mail is over nine months old but I still like to hear from everyone. I haven't received the paper since I left the states but I guess it will finally start catching up with me. My APO is changed again and that is what slows it down so much.
 I'm stationed in a pretty nice place but don't believe all the pictures of the south sea islands. The birds wake me up every morning and there are plenty of coconuts, but I'd still rather be in the states. I'll close for now. Tell everyone hello for me. Your friend, Cpl. R. N. Pitts.

Sept. 29, 1943.

Dear Buford:
 Well, how is Abernathy? O. K., I hope.
 For the last three weeks I have

Dr. H. E. Williams

been in classification at this base. I classified as navigator and am now in bombardier-navigator pre-flight.

Now that I have an address that will stay with me for awhile, I would appreciate your sending the Review here. I have been receiving it right along and really enjoy reading about the hometown folks. — Thanks! Sincerely, A/C Clarence O. Anderson, Jr., Sqdn. 93, Bombardier-Navigator Pre-Flight, SAAAA, Santa Ana, Calif.

26 September 1943.

Dear B. F. D.:
 One week ago today we boarded the west bound special from Miami with no knowledge of our destination; however, the rumors were flying fast as they had been for 21 days before. If all had materialized we'd be traveling the remainder of our lives. We had a 15-car train including two diners. At times we had double-header engines.
 Before long we were informed our

destination and groans and cheers could be heard. Some of us were disappointed; however, the boys from west of the Mississippi were a happy lot.

Many of the boys who had never been to Texas were amazed that it was not all brush and sand. When we came in sight of the mountains they would not believe it. It should have all been plains country. We entered Texas west of Shreveport. When we arrived at Dallas it was night and the boys from the Northeast thought we were in New York City. The following morning I awoke at Abilene. Had breakfast in Sweetwater (on the train). At 0900 we were in Big Spring. It was very hard for me to stay with it there. By night we were in El Paso. Though we were there over an hour, I didn't have the chance to call Helen although I had permission to do so.

The following morning we awoke as the train pulled into the station here in Tuscon. Prior to our arrival here it had not rained in six months

but has rained a little every day ever since we arrived. Had a cloud burst night before last and did some damage in Tuscon. This field is surrounded by mountains which makes a picturesque sight. Already some of the boys have killed four rattlesnakes in the barracks area.

Please make the change in my address conform with that below my signature. Hate to miss any more of the Reviews. The last two should be forwarded to me from the old address. Just, Rudolph. (Richard Rudolph Richter, 9th Anti-Submarine Sqdn. (H), Davis-Monthan Field, Tuscon, Ariz.)

GOOD LIGHT
 For The Many More Hours You'll Be Spending at Home!

- Your eyes must last a lifetime. Give them the proper kind of light and the correct amount of light.
- They particularly need plenty of good light when studying—to guard against straining eyes on close work.
- Young eyes need the light provided by a study lamp. Eyestrain, you know, picks its victims young.
- The kitchen work goes faster, is easier when you give your eyes the benefit of ample soft, glareless light.

● Keep lamps and fixtures clean and you will get up to 30% more light.
