Patterson was accompanist. Mrs. E. A. Houston presided for a short business meeting, during which time Mrs. Chester Pearce, chairman of the budget and finance committee, reported that the P.-T.A. will serve a ham supper in the school cafeteria following the Hallowe'en parade on October 31. The proceeds are to go to the scholarship fund which is already in the red. Plan now to bring the entire family for a good ham dinner cheap. Adult plates are \$1.00 and student and children plates only 50.

Mr. Noel Johnson made the announcement concerning the district 14 workshop to be held here on Fri-

day, October 17. Mrs. Phil Sterrett, program chairman, previewed the film on the subject of "Stepping Stones to maturity," with emphasis on the young child, which was shown later

by Mrs. Boyd Mitchell. The meeting adjourned with the reminder for each present to be urging everyone to be present at the District 14 P.-T.A. Conference on October 17.

1959 Chevrolet Showing Today

A complete styling transformation, along with more safety, comfort and performance, was announced today for the 1959 Chevrolet passenger car line.

The cars, which will be displayed at nationwide dealer showings, including Reid Chevrolet in Abernathy, on Thursday, October 16, represent one of the most imaginative design ever to come from the automobile industry.

In shape, and in detail, the new styling reflects the influence of a space-conscious age. Lines sweep rearward in a virtually level plane. Tops are flatter and visibility is dramatically increased. Apparently lower, the overall appearance of fleetness is further

conveyed by an adroitly sculptured frontal area. At the rear, horizontal wings branch out from the center of the deck in a simulation of mobility that might have been conceived on the sands of Cape Canaveral. While the unusual apearance

vill draw instant admiration. Chevrolet has not neglected other phases of engineering in its bids to continue the sales popularity registered by the company

AMBULANCE SERVICE

Like all '59 Chevies, the Impala Sport Sedan has Safety Plate Glass all around.

It's shaped to the new American taste. It brings you more spaciousness and comfort with a new Body by Fisher. It has a new kind of finish. New bigger brakes. Vast new areas of visibility. New Hi-Thrift 6. It's new right down to the tires!

straight year! Here with a fresh Slimline design that brings entirely new poise and proportion to automobile styling. Inside the new and roomier Body by Fisher you'll find truly tasteful elegance. And you'll have clear seeing from every seat. The new Vista-Panohead-windows are bigger, too.

Chevy's all new for the second When you take the wheel, you find Chevy's newness goes down deep. A new steering ratio makes handling easier than ever. New you a smoother, more stable ride. There's a new Hi-Thrift 6 that goes and goes on a gallon of gas. Vim-packed V8's. New ramic windshield curves over- and bigger brakes. Even tougher, practicality. Stop in now and see safer Tyrex cord tires.

There's still more! A new finish that keeps its shine without waxing or polishing for up to three years. Impressive new Impala suspension engineering gives models. Wonderful new wagons -including one with a rear-facing rear seat. And, with all that's new, you'll find those fine Chevrolet virtues of economy and

Mr. and Mrs. Elmer Roberson

By O. F. REA

I was traveling along a single track road one day last week and overtook another traveler who naturally was traveling slower than I. The road, though sufficienty wide for either of us to pass or go around the other, was a single track road and either one of us would have had to get out completely or we both would give half of the road.

Now, I pulled up behind this traveler and I treated him very I did not crowd right up to his rear bumper and honk my horn unusual, in fact almost inhuman lorng and loudly, nor did I call nim a lot of bad sounding names. Instead, I followed him at a reasonable distance and when he finally moved over and gave me room to pass, in fact the whole road, I did not scrape any paint off as I went by nor did I nearly take off his left front fender by cutting back in sharply in front of him. I did not spin my wheels and throw a lot of gravel in his face nor cover him with dust. Now why this unorthodox and at 3 P. M. almost inhuman treatment of this traveler whom I just passed? The answer is, he was a snake and I was a human, and we were both on "foot."

AWARDED THE GOLD MEDAL for beautiful proportionsby the Comité Français de l'Elégance at the Brussels World's Fair Styled, powered and priced for today's driving! There never was a Ford like this before! Its classic new design was awarded the Gold Medal of the Comité Français de l'Elégance at the Brussels World's Fair! With new Thunderbird flavor in each lively line and tastefully new

interiors, these 59 Fords are beautifully proportioned for elegant driving. Power, performance and economy are served up in new proportions, too. All standard Ford engines - Six or Thunderbird V-8 - thrive on regular gasoline at regular prices. You save up to 5 cents on each gallon! There's a new aluminized muffler that normally will last twice as long as conventional mufflers used on other cars . . . full-flow oil filtration that lets you

change oil at 4000 miles instead of the 1000 often recommended . . . new Tyrex cord tires for greater economy and safety . . . a brilliant new Diamond Lustre Baked Enamel Finish that's so durable you won't have to wax it ever ... and two new economy power-transmission teams that will bring you savings automatically. That's why we say, for '59, Ford is truly a masterpiece of underpricing!

NEW economy team Number One! Get all the high performance of a completely new Fordomatic Drive teamed with a Six or Thunderbird V-8-at a price that puts automatic

driving within everyone's car budget. It's a simplified Fordomatic with nearly 1/3 fewer parts. NEW economy team Number Two! Take Ford's versatile new Cruise-O-Matic Drive, add the responsiveness of Thunderbird Special V-8 power and you have the last word in automatic driving plus the "built-in" overdrive savings of an economy-geared axle.

Fairlane 500 Town Victoria

Tudor Sedan . . . and above, the 9-passenger

. Election . . In November

Summary of the nine constitutonal amendments to be voted on at the general election November 1958, in the order that they will ppear on the ballot,

1) Provides for annual Sessions of the Legislature, changing the compensation, per diem and tra-vel expense of the Members of the Legislature; authorizing temporary residence of the Lieuten-ant Governor and Speaker of the House in the Capital.

(H.J.R. No. 1) (2) Authorizes each county to establish, after approval by its voters, a retirement, disability, and death compensation fund cover-ing the elective officers of the county or precinct, as well as the appointive officers and employes

of the county or precinct.
(S.J.R. No. 6) (3) Provides that vacancies in the office of County Judge and Justices of the Peace shall be filled by the Commissioners Court until the next General Election.

(H.J.R. No. 30) (4) Provides that any District, County, or Precinct official serving a four-year term must resign before announcing for a different office if there remains unserved more than one (1) year of the term for which he was elected.

(H.J.R. No. 31) (5) Provides that a Home Rule City may provide by Charter Provision, and a City operating under the general laws may provide by majority vote, for a longer term of office than two (2) years for its officers, either elective or appointive, or both not to exceed four years. (H.J.R. No

(6) Provides for pension to re-tired Texas Rangers who are ineligible to participate in the Employes Retirement System of Texas, and their widows. (H.J.R.

(7) Authorizes the Legislature to make appropriations and establish procedure for advertising the historical, natural, agricultural, industrial, educational, recreational, and other resources of Texas. (S.J.R. No. 4) Texas.

(8) Gives the Legislature the power to authorize vendor pay ments for medical care in add ition to the amount paid in the form of direct public assistance to and on behalf of needy recipients of Old Age Assistance, Aid to the Blind, Aid to Dependant Child-ren or Aid to the Permanently and Totally Disabled; providing for the acceptance of funds from the Federal Government for the

purpose of paying such assistance (H.J.R. No. 36) (9) Authorizes the Legislature to create a Hospital District coex-tensive with the incorporated limits to the City of Amarillo, Texas, and a county wide Hospital District in Wichita County, Texas, and Hospital Districts in Jeffer son County, Texas. S.J.R. No. 3)

PETROLEUM - basic to the needs of our time

Oil and natural gas have powered most of the great technological advances of modern times; petroleum hydrocarbons have transformed the dreams of inventors into the realities of engineers ... Today, in the United States, oil and natural gas provide about 75% of the country's energy requirements; and large quantities of oil, available for production beyond immediate need, are necessary to the national security.

An obvious example is the gasoline that powers our automobiles; another is the diesel fuel burned by post-war railway engines. But do not overlook electric power plants, the airplane, whether jet or propeller driven, factory power plants, farm mechanization, and the revolution since World War II in home heating devices. Oil provides the energy that moves the trucks, airplanes, ships and tanks of our Armed Forces.

But petroleum as a source of energy is only part of the story. In the past two decades, the petrochemicals have supplied the country with a vigorous new industry: already most of our rubber is made from petrochemicals . . . the ubiquitous plastics derive from petroleum products . . . paraxylene, a petrochemical, is the raw material for one of the most useful of the new fabrics. In this area, wonders never cease; the petrochemicals contribute more each year to the efficiency, comfort, and convenience of modern

living.

Thus, oil's progress has made other progress
the front of American industry possible all along the front of American industry ... Petroleum is the American resource that is

basic to the needs of our time . . . that is essential to our national security.

The Humble Company, established in 1917, has developed with the industry.

Humble's exploration activities extend from Florida around the rim of the country to California, Oregon and Washington, and beyond to the new State of Alaska . . . The Company is a leader in the production of oil and gas in the United States . . . Humble Pipe Line Company is a public carrier transporting not only Humble's oil but that of many other companies and independent producers to Gulf Coast terminals . . . Baytown refinery is one of the nation's great manufacturing plants . . . And Humble is a marketer in the Southwest, supplying the needs of motorists in modern service stations.

The Humble Company believes strongly in research, maintains two outstanding research facilities, and annually budgets considerable sums for this activity . . . Humble research has made substantial contributions to the discovery, production, and utilization of petroleum.

Mail News to The Review

This "secretary" works overtime and loves it

Nighttime, daytime, all around the clock - this Electronic Secretary sees that you never miss a phone call when you're away from your office.

Automatically, it promptly answers every call with a courteous recorded voice - advises the callers that you're not available at present-asks them to speak the message which will be recorded. It's as simple as that!

All you do is play back the messages when you return. In fact, with a remote call-back attachment you can phone your own office and hear the playback of messages wherever you are.

Wonderful, isn't it? And most wonderful of all, you can have this dependable service, free of human errors, at a surprisingly low cost. For full details, phone our Business Office.

WHY WE ARE GIRL SCOUTS By MARSHA TAYLOR and BETTY ANN STERRETT

After eight years of Girl Scouting, it means more to us now than ever. We became Brownies whe we were in the second grade and were living in other towns (Marsha in San Angelo and Betty Ann ir Clovis, New Mexico). One of our greatest concerns when we moved to Abernathy was whether there was a Brownie troop and we were happy to find one that welcomed ("A Girl Scout is a friend to all and a sister to every other Girl Scout.") Did you know that Gir Scouts is the only organization for girls that can be found around the world, no matter where you family might move?

We have learned so many things and worked on so many projects with our troop that it would be hard to say what we liked best. Bicycle hikes, cooking classes, star gazing, folk dancing, puppet shows charm school, ceramic painting, leather tooling and nature studies are a few of the things we have
