OPTOMETRY: The Art and Science of Visual Care

**"Oh, what a shame!"**

Jimmy had to put on glasses — and he's so young!"

"Yes, Clark, he did. But you know what . . . . Dr. said that such an eye problem as his couldn't have been corrected 25 years ago.

"Back in those days youngsters with Jimmy's eye problem grew up unable to do well enough in school to make passing grades. Then, children's chances of achieving much in life were very poor.

"Now, thanks to optometric science, Jimmy is able to learn and to adjust himself. We're SO grateful that optometry could provide him an equal opportunity to live a good normal life."

A professional optometric examination might mean the difference in your child's future.

**"INSTRUMENTAL MUSIC IN WORSHIP?"**

BY ROY DEAN VERNER

Reading Time: 4 Minutes

Singing accompanied by a mechanical instrument of music is practiced by almost every religious body in the world. It is also a common practice of many to play solos on mechanical instruments of music. Is this practice authorized in the Bible, or in the New Testament under which we live? Has God ever added it in the worship of Jehovah? Did first century Christians sing with or without mechanical aids? This writer proposes to answer these questions concerning this important phase of worship.

Nowhere in the entire new Testament can one find scriptural authority for the use of instrumental music to God. The New Testament is silent on church music. However, singing is music. In fact, this is the kind of music commanded by the Apostles and used in the early church. Playing an instrument is another kind of music and was not commanded or used in the early church. Singing is the kind of music that is plainly commanded.

"Speaking to yourselves in psalms and hymns and spiritual songs, SINGING, and making melody in your heart to the Lord." (Eph. 5:19) "Let the word of Christ dwell in you richly in all wisdom; teaching and admonishing one another in psalms and hymns and spiritual songs, SINGING, with grace in your hearts to the Lord" (Col. 3:16).

These passages explicitly denote vocal music. Note that the music is to be "Made in the heart" and not on an instrument. Praise and adoration to God should be from the lips and heart of man rather than from an instrument of music.

A play on the Greek word "psallo" has been made by many. They claim that the original language includes the playing of an instrument as well as to sing. Without going into a great deal of technical terms and explanations of the Greek, consider the fact that in the translating of the three most popular versions of the Bible, some of the greatest scholars in the world were responsible for these translations. About fifty were responsible for the King James Version; about one hundred were responsible for the American Standard Version,

and thirty-two scholars with an advisory board of fifty helped make the revision for the Revised Standard Version. In all three translations, only the word "SINGING" is found. These great scholars, recognized as the best, knew the meaning of the word "psallo" and gave the meaning to be "SING."

Historians, none of which were members of the Church of Christ, tell us only music in the early church was vocal. Even the synagogue worship was without instruments of music. "Both at home and abroad, the music in the early synagogue was exclusively vocal." ("Ancient and Oriental Music," edited by Egon Wellesz, Vol. 1, p. 302, 303). "There can be no doubt that originally the music of the divine service was everywhere entirely or a vocal nature." ("The History of Music," Emil Nauman, Vol. 1, p. 177). "Only singing, however, and no playing of instruments was permitted in the early church."

"Music, History and Ideas," Hugo Leichtentritt, p. 34.

Not only do historians tell us that the first century Christians used vocal music only, but leaders in the reformation also upheld this idea. John Wesley said, "I have no objection to instruments of music in our chapels provided they are neither heard nor seen (quoted in Adam Clarke's Commentary, Vol. IV, p. 684). Adam Clarke said, "I am an old man and an old minister; and I here declare that I have never seen them (instruments of music) productive of any good in the worship of God; and have had reason to believe they were productive of much evil. Music, as a science, I esteem and admire; but instruments of music in the house of God I abhor" ("Commentary Vol. IV, p. 684). John Calvin states, "Musical instruments in celebrating the praises of God would be no more suitable than the burning incense. The light that the burnt offering crucientialing of lamps, and the restoration of the other shadows of the law. The papist, therefore have foolishly borrowed this, as well as many other things from the Jews. Men who are fond of outward pomp may delight in that notice; but the simplicity which God recom-

**MARKETING QUOTA PENALTY RATES SET FOR 1959 CROP "EXCESS" COTTON**

Marketing quota penalty rates on "excess" cotton of the 1959 crops of upland and extra long staple cotton were announced June 15 by the U. S. Department of Agriculture. The penalty rate on upland cotton is 19.1 cents per pound, and the penalty rate on extra long staple cotton is 46.9 cents per pound.

Controlling legislation directs that the marketing quota penalty rate for upland cotton be 50 per cent of the parity price per pound of cotton effective as of June 15 of the calendar year in which the cotton is produced. The parity price for upland cotton as of June 15, 1959, was 38.18 cents per pound.

Legislation also provides that the penalty rate on extra long staple cotton be the higher of 50 per cent of the parity price of 50 per cent of the support price for this type of cotton as of June 15. The parity price for extra long staple cotton as of June 15, 1959, was 81.90 cents per pound. Since 50 per cent of the parity price is higher than 50 per cent of the support price, the applicable penalty rate for 1959 crop extra long staple cotton is 40.95 cents per pound (which is 50 per cent of the June 15 parity price).

Growers approved marketing quotas for the 1959 crops of upland and extra long staple cotton in referendums on Dec. 15, 1958. When cotton marketing quotas are in effect, a farmer who does not comply with the cotton acreage allotment for the kind of cotton grown on his farm is subject to a penalty on his farm marketing excess. The cotton crop from the farm is also ineligible for price support under Commodity Credit Corporation programs. Each type of cotton is treated independently. Upland cotton cannot be substituted for extra long staple cotton or vice versa.

ends to us by the apostles is far more pleasing to Him."

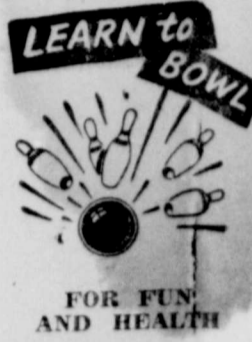

From this overwhelming evidence one can see that instrumental music is without bases of authority from God's word. If you have been practicing such, we invite you to worship in "spirit and truth" only (John 4:24).

A. C. Nystel and family spent the past week end visiting with his sister, Mrs. Harry Chapple, in San Angelo.

The oil well just off the town section to the west is reported to be drilling below 10,400 feet. No other information was available at this time.

J. B. Herring is contractor for a new home to be built for the E. J. Pope, Jr. family on the west side of the highway about five miles north of town.

Mr. and Mrs. George Ragland and Mr. and Mrs. R. A. McAllister were in Ruidoso recently.

PICTURED ABOVE is the front view of the new Junior High School building which will be torn down after the completion of the new building, on which construction is to begin in November. The new Junior High School building is to be built 20 feet east (in front) of the elementary building. Thus, for precautionary measures, enclosed passageways have been built from each of the north and south front doors of the building leading to the ends of the building respectively, stated Noel Johnson, Superintendent of Abernathy Public Schools.

It was explained that the purpose of these passageways is for the protection of the school children from possible falling objects after the beginning of the construction of the new Junior High building. At the time construction of the new building is started, the middle door in the front of the building will be locked and the children will use the passageways, the floors at the south of the building and the doors at the rear of the building.

At the time this picture was taken (Saturday, August 1), the passageway from the south front door was nearing completion while only the frame work had been erected along the north end of the front of the building. The north section was covered shortly after the picture was made.

### School Bus Numbers Revised To Correspond With Route Numbers

Noel Johnson, Superintendent of Abernathy Public Schools, announced that the school bus numbers and the bus routes have been revamped and revised for the coming school year. Plans are that the new system will be used for many years and should eliminate confusion experienced in the past when bus numbers did not correspond with route numbers.

Actually, the bus routes will remain the same, but the bus which runs each route will have the same number as the route number.

In the past, children who resided on route number 1 may possibly have been riding bus number 10. Hereafter, children who reside on route number 1 will ride bus number 1, etc.

The eight bus routes are numbered clockwise with route number 1 starting at the southwest. Route number 1 is southwest of town and bus number 1, which

is a new chassis with a reconditioned body, will be driven by Harold Poage.

Bus number 2, which makes a west loop, will be driven by Robert Montgomery.

Jude Strickland will drive bus number 3, which will make route number 3, which is due west of town.

Route number 4 is northwest of town, and the driver of that bus will be J. B. Thames.

J. C. Doggett is to be the driver of bus number 5, which makes the route north and northwest of town.

Bus number 6 will be driven by Tella Walker, with route number 6 being northeast of town.

Route number 7 runs east and northeast of town and Mitchell LeMoine will be driver of bus number 7.

H. A. Ross, bus foreman, will be the driver of the new 60-passenger school bus which is to be bus number 8. Route number 8 runs southeast, south, and south west of town.

In addition to the two new buses,

### Local Onion Harvest Expected To Terminate Within Next Three Weeks

The onion harvest has been well under way in Abernathy, and according to reports, should be completed within the next two or three weeks.

Thus far, over 25,000 bags of onions have been processed and shipped from Sam Williams' produce, processing, and packing house in east Abernathy. It was stated that at this time last year approximately 50,000 bags of onions had been shipped.

Area farmers who grew onions this year and who used Williams' processing facilities are Ralph Davis, who had 65 acres of onions;

Gene McMaster, who had 35 acres of onions; and Sam Williams himself, who had a total of 86 acres of onions. Mr. Williams also stated that they are now handling onions from the Petersburg area.

Before the season is over, Williams expects to have shipped from 60,000 to 65,000 bags of onions from this area. The onions are shipped to Louisiana, Arkansas, Tennessee, Kentucky, Iowa, Minnesota, Kansas, Nebraska, and portions of Texas. None are shipped west due to the fact that New Mexico, Arizona, and California grow large acres of onions.

**ONION HARVEST NEAR ABERNATHY**—The above picture, taken July 29, shows rows of onions which had been sacked prior to hauling them to the processing and grading house. The above harvest was taking place on the Struve farm about one mile east of town. The Struve farm is farmed by Sam Williams, and he stated that he had 21 acres of onions there and 65 acres of onions on his farm.

\*\*\*

**PROCESSING, OR GRADING,** sizing, and packing onions is being done in the above picture, which was taken in Sam Williams' produce, packing, and shipping house in east Abernathy. The girls on the elevated portion of the processing machine pick out the bad and misshapen onions and the number 2's as the onions pass in front of them by means of a conveyer belt. The good onions then roll onto a screen which has holes in it to permit medium and small-sized onions to fall through, but transports the jumbo onions into a chute which routes them to the sacking area. The second screen on which the medium and small onions fall permits the smaller onions to pass through to the third screen with the screens transporting the onions of the two sizes to the respective chutes for sacking purposes. Between 600 and 700 bags per hour can be processed when operating at peak capacity.

### August 18 Vote On Road Tax In Lubbock County

Lubbock County voters are to ballot Tuesday, August 18, in an election on a special 15c per \$100 valuation highway maintenance tax.

Ballots in the election may be cast either for or against "the levy of a 15 cent per \$100 valuation special road tax for the maintenance of the public roads."

In spite of the wording of the tax proposition on the ballot, which is the wording required by law, the tax, if approved, is to be used over a five-year period to finance purchase of right-of-way for improving state and U. S. highways in the county.

At Period's End At the end of five years, according to the Commissioners Court resolution calling the election, a second election is to be called for the abolition of the special tax.

Highway right-of-way to be purchased with funds from the tax includes U. S. 84 from two miles northeast of Slaton, around Slaton to the Lynn County line; U. S. 84 from the Hockley County line to the southeast edge of Shallowater, and U. S. 87 from one mile south of Abernathy to the Monroe overpass around the west side of New Deal.

Persons eligible to cast absentee ballots in the Aug. 18 election include those who hold 1958 poll tax receipts for voting in 1959 or who are exempt from the poll tax and who hold property, either real or personal, on which they pay county taxes.

The following will be on the ballot:

"For the levy of a 15 cent per hundred dollar valuation special road tax for the maintenance of public roads."  
"Against the levy of a 15 cent per one hundred dollar valuation special road tax for the maintenance of public roads."

Voting in Abernathy will be at Joe Thompson Implement Co. In charge of the polls will be Frank B. Lovelace, presiding; Arno Struve.

Polls will open at 8 a. m. and close at 7 p. m.

Mr. and Mrs. Melvin Rape and daughters are on vacation in East Texas.

Don Cunningham has gone to Fort Worth to join the staff of Central Airlines. He will begin his duties there as a co-pilot.

### Two Chevy middleweights prove their rawhide stamina!

### Top hands on high-country hauls!

Ask any trucker who's been over Wolf Creek Pass, 10,850 feet up in the San Juans: a 9-mile pull to the summit and low gear all the way down. Mr. C. H. Phillips of Alamosa, Colorado, has a 6403 and a 6503 Chevrolet truck that are up over this route the year round, taking sheep and beef to pasture, later marketing the stock in Denver. In less than a year, his Chevy middleweights have averaged about 50,000 miles of

this kind of treatment—and they're going stronger than ever! Watch Chevy trucks at work out in range country. It's a sight to see the way they pack into high-up mountain pastures and handle through brush and rock like a cowman's favorite cutting horse. Take any truck work for that matter. Chevy middleweights probably handle a bigger variety of jobs than any trucks alive. About anything you name, includ-

ing work that used to be reserved strictly for bigger rigs. When a truck's built the way a Chevy is, lean-muscled and rawhide-tough, it takes to ugly trails the same way most trucks roll over the highway. It just keeps going, without a big to-do, but looking good every mile of the way. How they do it is your Chevrolet dealer's department. He'll be glad to supply details and specifications on the type of models you need.

## Local Boys Win Sears Gilts

Eight Hale County 4-H boys received gilts from the Sears Foundation program early last month, according to E. J. Yeates, Assistant County Agriculture Agent. Gilts the boys received are a part of a pig chain program in which they accept an obligation to return a gilt to the program next year comparable to the one

they received this year. The boys who received the gilts were selected in a county wide essay contest. The winners were J. Frank Jackson, Tommy Conner, and David Overstreet, all of Abernathy; Hail Curtis and Bill Wiese of Petersburg; John H. Pinkerton of Halfway; Donald Burgess of Hale Center; and Ted Wilson of Plainview.

Several of the boys' swine leaders in the individual communities were present for the drawing of the gilts as well as many of their parents.

Mr. Pa' Neal, Assistant Manager of the Plainview Sears Store, congratulated the boys on doing a good job with the program and wished them well with their gilts.

The Church of the Nazarenes in Abernathy extends to you a cordial invitation to attend the special Evangelistic Services to be held there August 16-23, at 7:30 each evening and at 10:00 each morning, Monday through Friday. Rev. Tom Boyd, the special speaker, is an outstanding young preacher in the Church of the Nazarenes. He is a graduate of Bethany Nazarene College in Bethany, Okla. While a student at Bethany, he was elected to serve as President of the Student Council and as Director of Religious Organizations on the campus. He holds a M. A.
