Here's a problem the City Council needs to consider . . . an electrical wiring code for all structures . . . residential, business and commercial, built in the City of Abernathy. City Councils in the past have touched on this subject. It is urgent that the current City Council start work on such a code. -tip-

a message of interest to every Chevrolet owner in Abernathy

(and to all other car owners, too)

Chevrolet's Owner Relations Program makes your satisfaction our first consideration

Here's an important message for people who own a Chevrolet . . . or are thinking of buying a new one. Clevrolet Motor Division operates a Department of Owner Relations -- as far as we know the only one in the industry. Its policy is to see that Chevrolet owners are completely satisfied with Chevrolet prodicts and Chevrolet service. Reid Chevrolet has this policy in action — seeing to it that you're well taken care of when you do business with us. Here are the extra benefits you'll get as a Chevrolet

WHEN YOU BUY CHEVY - enjoy the confidence of knowing that Chevrolet is built with the quality you expect. That's because of the excellence of Chevrolet's engineering and rigorous inspection of details at the factory. Reid Chevrolet pledges itself to delivering your new Chevrolet in a condition of complete quality.

CHEVROLET

WHILE YOU DRIVE CHEVY - Reid Chevrolet is prepared to take better care of you with better service after you buy this fine product. It's our way of assuring you of the continued pleasure and satisfaction originally built into your Chevrolet. WHEN YOU TRADE CHEVY - Reid Chevrolet salesmen are ready to serve you again! Chevrolet traditionally brings you more at trading time . . . and if you're about to become a member of the Chevrolet family, you, too, can count on us for a top appraisal.

Your Satisfaction is our business.

SOIL FERTILITY DAY SET FEB. 15 IN PLAINVIEW

Farmers and businessmen of the Abernathy area are urged to attend the 13th Annual Hale County Soil Fertility Day at the National Guard Armory in Plainview Monday, Feb. 15, 10 a. m.

FARM AGENT SAYS SOIL TESTING IS PRACTICAL TOOL

It's good business to anticipate the fertilizer needs of your crops before deficiency symptoms can be seen on the crop itself, according to County Agent, Ollie Liner. Waiting for a deficiency to develop is a poor practice, for by then crop losses already have taken place.

In present-day farming, the real problem is to know how well a particular fertilizer is meeting the

The agent pointed out that once a farmer has embarked on a fer-tilizer program, its value in meeting the needs of the crop from year to year can be estimated by soil tests. Soil testing is a practical tool that tells you what you want to know about your soil before the trouble appears and

By following a regular program of soil testing, you can avoid loss in yield and low profits resulting from hidden hunger of your crops. Soil testing is the modern way to determine your fertilizer needs.

To Organize An Explorer Scout Group

(By G. F. Rea)

One may ask what is an Exolorer or Explorer Post? For the infamiliar, an Explorer is a member of an organization frien is sponsored by the Boy outs of America, the same the Boy Scouts. Cub Scouts, and Girl Scouts.

The Exploring program has been carefully design to meet the needs of high school Using this program, auton can boys become mature, rehelp sponsible citizens.

The program is based on methods found effective during a halfcentury of dealing with American youth and on further information about high school age boys as mentioned in the beginning. The Explorer program embodies

the objective of the Boy Scouts of America in building for character, training for citizenship, and developing physical fitness among boys. Explorers subscribe to the Scout Oath or Promise, the Scout Law, and to this national Explorer Code:

As an Explorer -I believe that America's strength lies in her trust in God and in the courage and strength of her

people. I will, therefore, be faithful in my religious duties and will maintain personal sense of honor in my own life.

I will treasure my American heritage and will do all I can to preserve and enrich it. I will recognize the dignity and worth of my fellow men and will use fair play and good will in

dealing with them.

I will acquire the Exploring attitude that seeks the truth in all things and adventure on the frontiers of our changing world. Using the national Explorer Code as an introduction, each post creates its own code to which each member subscribes at an admis-

sion ceremony. The Exploring program is disfinctly for fellows of high school age. It will be attractive to them whether they have been Cub Scouts or Boy Scouts.

Young men at least 14 years of age and in the ninth grade or higher are eligible to be Explorers (membership is open at 14 years of age regardless of grade). Membership may continue by annual registration through the

age of 17, or as long as the individual continues as a full-time student in high school. Boys and parents alike who are interested should contact Ted Hill and Clifton Newton for further information.

OPTOMETRY: The Art and Science of Visual Care

Are YOU horse and buggy?

Some people still hold to Horse and Buggy ideas - even about their vision. Some think vision examinations are a simple 5-minute procedure. Actually it takes almost an hour, sometimes more, to make a complete visual examination. That's simply because the demands on vision today are totally different than 50 years ago. -

An ethical optometrist always examines not only for present seeing problems, but for problems that might arise in the future. Preventive care is a fundamental part of any profession - especially OPTOMETRY.
