

ABERNATHY WEEKLY REVIEW

VOLUME 39 Hale County - Abernathy, Texas - Lubbock County

THURSDAY, MARCH 24, 1960 (SECTION 2) PAGE 9

Local Man Wins Co-op Tire Sales Contest Award

Neft Turner, right, Mgr. of Abernathy Consumers Fuel, Abernathy, was awarded a Polaroid Land Camera and flash as tenth place winner in the Million Dollar Co-op Tire Sales Contest concluded recently by Southern Farm Supply Association Regional Co-op Tire Distributors.

Other winners in the Million Dollar Co-op Tire Sales Contest should be: Mackins, Floydada; Wood Vaughn, Friona; Buckler, Lockney; Richard Chumley, Dalhart; Vester P. Hill, Spearman; Leon Guthrie, Stratford; Ald Lee, Hale Center; Warner Johnson, Claude; Cecil Lindsey, Dalhart.

Winners were announced at a luncheon presented by L. W. Maserang, Mgr. of Co-op Tires, Southern Farm Supply Association, at the Restaurant in

Warning To Business Men

There is a new kind of fever threatening this area. It will probably spread to the whole community but right now it is affecting mostly business men. This outbreak comes every year at about the same time as Spring Fever. It is very contagious. Abernathy has had epidemics of this fever before but it has started earlier this year and is catching on faster. This fever is known as SOAP BOX DERBY FEVER. You will recognize the symptoms when a group of boys 11 through 15 years of age begin swarming your place of business asking you to sponsor them in this great sporting event for boys.

Abernathy business men have always given enthusiastic support to area boys who have entered the local race in Lubbock. Last year there were 32 boys who registered from Abernathy. There are already over 40 who have indicated they will build a champion soap box car this year. The sponsors are required to buy the Official Soap Box Derby Wheel Kit for the boy at a cost of approximately \$20.00. He may have his firm name painted on the car if he wishes. For other information call Reid Chevrolet in Abernathy. The local race is sponsored by Modern Chevrolet, the Lubbock Avalanche Journal and the Lubbock Exchange Club.

A beautiful colored film of the 1959 National Soap Box Derby has been shown to the Abernathy Junior High school. Plans are being made to show it to the Lion's Club. If any club or organization would like to have this film shown, arrangements can be made at Reid Chevrolet in Abernathy.

Career Day Slated For Friday A. M. At AHS

Career Day Conferences are to be held on the Abernathy school campus Friday, March 25, 1960. Schools participating in this conference will be Abernathy, Anton, Shallowater, New Deal, Hale Center, Petersburg, and Cotton Center.

There will be 19 conference groups starting at 8:00 a. m. and ending at 12:00 noon. Each student will be able to participate in two conference groups. A general assembly of all the students is to be held in the Abernathy Auditorium at 9:30 a. m. March 25.

The conference groups to be held and the speaker and host (or hostess) are as follows:

- Accounting - A. B. Segar, Lubbock - Phil Ginn
- Advertising & Journalism - Otis Green, Lubbock - Price Amerson
- Air Hostess - Thomas A. Williams, Abernathy - Rita Burnett
- Architecture - Arthur Adkinson, Lubbock - Sandra Wolff
- Automotive Industry & Mechanics - Glenn Pray, Tulsa, Okla. - John Kiker
- Aviation - Don M. Wood, Director of FFA, Lubbock, and Virgil Rhodes, Abernathy - Charles Wisdom
- Beauty Culture - Bill Sharpley, Lubbock - Francis Teaff
- Engineering - Jack Roberts, Lubbock - Jimmy Irish
- Farming & Ranching - Dr. Wayland Bennett, Texas Tech - Henry Maserang
- Home Economics - Miss Billie Williamson, Texas Tech - Linda May
- Interior Decoration - Eunice Bondurant, Lubbock - Jane Ap

Linda Schreier On Tour With ENMU Concert Band

PORTALES (Special) - The 12th annual tour of the Eastern New Mexico University symphonic band will be March 15-18, according to G. Walter Scott, director of admissions and tour director. Florence Thompson, director of bands, will conduct the organization. Included in the members of the band is Linda Schreier of Abernathy.

NOEL JOHNSON ELECTED VICE-PRESIDENT OF TASA

Abernathy School Superintendent Noel Johnson was elected vice-president of District 13 of the Texas Association of School Administrators during a meeting at Lubbock Friday, March 5. District 13 includes 17 counties.

Other officers are: President, Otis Spears, Tahoka School Superintendent; secretary-treasurer, Pete Hewlett, New Home School Supt.; and Official State Delegate for the Superintendents' group, John Barnes, Morton School Supt.

The TASA will meet about six times during the coming year.

DRIVE SAFELY - A 'light nut' at the end of a steering wheel isn't a safety device.

WANT-A

April 2

Minimum Pool Trustee election is set for Saturday, April 2, in any city hall between the hours of 7 a. m. and 7 p. m.

The election judge will be James L. O'Neill, and the clerks will be Mrs. Charles Wilson, Mrs. Law Carter and Mrs. Buddy

will appear on the ballot well two retiring members of the Board.

Candidates whose names will appear on the ballot are: Joe J. Barton, W. C. Bryant, Clifton Newton, Hugh Pettit, and W. D. Sanders.

Ballot voting began Monday, March 14, in the County Clerk's office in Plainview. Last date for voting absentee will be 5 p. m. Tuesday, March 29.

The terms of two members of the board, J. C. Mills, President, and Clarence Nelson, Secretary, expire this year. Both Mr. Mills and Mr. Nelson declined to run again, choosing to retire from the Board.

Other present members of the school board are Loren West, vice president; and members, Ralph Davis, Joe Lovelace, Marvin Floyd and Bill Harrison.

W. S. C. S. NEWS

The Methodist Women's Society of Christian Service met Monday, March 7, at 2:30 p. m. in the church to begin the study of "The Gospel of St. Luke" under the leadership of Mrs. Robert Montgomery.

Mrs. L. S. Wilson, president, opened the meeting with prayer led by Mrs. Harold McCune. Mrs. E. M. Jones, Jr., brought the devotional. Others assisting with the program were Rev. Coggin, Mmes. Auvie Johnson, Ray Pinson, Don Huffaker, Lewis Lutrick and R. A. McAllister. Benediction was led by Rev. Coggin.

Attending this meeting were: Mmes. Jack Barton, W. M. McClain, Ray Pinson, Harold McCune, F. A. Goebel, Horace Davis, M. M. Bell, R. A. McAllister, Elton Settle, Harold Davis, Don Huffaker, Jackie Barton, Lewis Lutrick, M. O. Hood, J. P. Nystel, George Ragland, Finis Robertson, J. W. Davis, Cecil Gartin, J. B. McClure, E. M. Jones, Jr., Auvie Johnson, L. A. Suttie, L. S. Wilson and Rev. Coggin.

Mrs. M. M. Bell, Reporter

P-TA TO AWARD SCHOLARSHIP

Applications are now being taken for the annual P-TA scholarship. The purpose of the award is to encourage qualified young people to enter the teaching profession.

Application blanks are available at the school office from J. W. Sollis, AHS principal. Deadline for making an application is April 1.

The Abernathy P-TA began making the annual award in 1956 and since that date four Abernathy High School graduates have received the scholarship. They were: Tommye Ruth Brewster, Freddie

1959-60 Basketball Lettermen Named

Coach Wayne Preston, AHS boys' basketball coach, has released the names of boys who lettered during the 1959-60 basketball season.

They are: Seniors - Phil Guinn, Harold Gene Thompson and Jack Ingram. Juniors - Neal Humphrey, Jerry Givens, Mike Ritchey and Keith Beard.

Sophomores - Larry Florence, John Kiker and William Smith. The managers for the past season were Price Amerson and Henry Maserang.

Phil Guinn was captain of the 1959-60 squad.

PHIL GUINN, Captain of the 1959-60 AHS Antelope boys' basketball team, was recently selected a member of the second All-State team. Phil, 6-3 senior, scored 439 points and picked off around 400 rebounds during the past season. He is a son of Mr. and Mrs. Floyd Guinn.

Soil test results are a blueprint for better farming. W. F. Bennett, extension soil chemist, says soil tests are the best device we have for determining plant food needs. By following the recommendations from the soil testing laboratory, he says farm income can be increased and production costs cut.

Dennis - Chambers Funeral Home ambulance, dial CY-8-2331.

Beth Miller, Edris German and Suzan Benn.

Members of the 1960 graduating class who are interested in becoming teachers are eligible to make application for the 1960 award.

Miss Alexander, Chester Dennis Are Married

Miss Donna Jean Alexander, daughter of Mr. and Mrs. Ralph T. Alexander, 617 Grant St., Olath, Kansas, became the bride of Mr. Chester Wayne Dennis, son of Mr. and Mrs. E. E. Dennis, Abernathy, February 27 at St. Paul's Catholic Church in Olath, Kansas. The Rev. Francis X. Hubbard officiated at the double ring ceremony.

Miss Mary Zemites played the traditional wedding music and accompanied Mrs. Thomas Talley as she sang "On This Day" and "Ava Maria."

The bride, given in marriage by her father, wore a full length gown of white lace which fell into a ruffled train. The square neckline was edged with jeweled scalloping. Her finger tip veil was attached to a jeweled crown. She wore silver and white shoes and carried a cascade bouquet of red carnations with white streamers.

Miss Virginia Barnes was maid of honor. She wore a light blue dress with matching shoes. Bridesmaid was Miss Suzann Tardy who also wore a light blue dress and matching shoes. Each carried a colonial bouquet of white carnations and wore a headband of feathered carnations.

Best man was Mr. William Persinger, step-brother of the bride, Mr. Donald Alexander, brother of the bride, and Mr. James Yehl ushered.

The bride's mother chose a beige dress with matching accessories. The bridegroom's mother wore a gray suit with black accessories. Both mothers wore corsages of white carnations.

A reception was held in the church basement immediately following the ceremony. Mrs. Kenneth Alexander, aunt of the bride, presided at the guest book. Mrs. Ralph Buchanan, also an aunt of the bride, was in charge of the gift table.

For traveling the bride chose a two piece dress of light green with green and white accessories. After a honeymoon trip the couple now live in Abernathy.

CITY GARDEN CLUB MEETS

The City Garden Club met in the club room on Thursday, March 10 with 17 members present. We had as guest speaker, Mr. Don Henderson of Don's Flower Shop of Lubbock to speak to us on how to grow Gladiolas. He also showed colored slides which we all enjoyed very much.

Members present were: Mmes. G. B. Adkisson Sr., T. O. Brown, T. A. Brewster, M. M. Bell, H. B. Coggin, W. V. Halford, Ira Lee Harral, Harlow Neis, J. P. Nystel, Clarence Nelson, Neal, H. A. Oliver, Floyd Shipman, H. H. Selke, H. H. Vineyard, J. C. Veach, and O. W. Weak.

Refreshments of punch and cake were served by the hostess, Mrs. J. P. Nystel.

Mrs. H. H. Selke, Reporter

Mail NEWS to The REVIEW.

Ballot Prepared For Naming Three City Aldermen

The official ballot to be used in the City of Abernathy election for three aldermen April 5, was prepared in the Council meeting Monday night.

The ballot will include the names of the three incumbents, Lon Carmickle, Robert K. McAllister and Dr. John W. Hale, for re-election, and the names of James R. (Jim Bob) Smith, Eddie Eldredge and Cliff Howard.

An election for a City Manager Plan of Government for Abernathy will also be held April 5. Petitions calling for the election were called in recently. The three petitions had a total of 114 signatures, or more than half the number of ballots cast in the last City election.

Junior Study Club

The Abernathy Junior Study Club met Tuesday, March 8, with Mrs. Virgil Phillips as hostess. Dinner in the Piccadilly Cafeteria party room and a theater party were enjoyed by the following members:

Mmes. Joe Lovelace, Elton Settle, Gid Adkisson Jr., Harvey Lutrick, Vernon Pettit, Lewis Lutrick, Hugh Pettit, R. K. McAllister, Lindell Myatt, J. W. Sollis, Morris Kerr, Dwayne Taylor, Jack Lee and the hostess.

The next meeting will be March 23, with Mrs. Carl Phillips as hostess.

Best place in the world for Abernathy merchants to advertise: The Abernathy Weekly Review, dial CY-8-2033.

WIN DOOR PRIZES - Two door prize winners at a recent meeting of Abernathy Recreation Center members are shown here. They are Carl Barton, local manager for Pioneer Natural Gas Co., and Mrs. Marvin Struve, with their prizes. Work, as weather and ground conditions permit, is progressing on the golf course at the Rec Center site on the airport section east of town.

30th ANNUAL MEETING OF ABERNATHY CONSUMERS FUEL ASSOCIATION

At SCHOOL CAFETERIA, WEDNESDAY, MARCH 25TH, 1960, 7:30 P. M.

DOOR PRIZES DON'T MISS 'EM! Drawing For Consumers Fuel "GIFT CERTIFICATES" For The Following Amounts:

- 1 Certificate Each For \$20.00 - \$15.00 - \$10.00

Donald L. Redd, left, and Bruce E. Fink recently joined the staff of the High Plains Underground Water Conservation District.

LUBBOCK—Two new men have recently joined the staff of the High Plains Underground Water Conservation District.

Donald L. Redd comes to the Water District directly from Texas Technological College in Lubbock. He graduated in January of this year with a B. S. degree in Agricultural Engineering. He will primarily assist in technical and mapping work. He will be located in Lubbock at the District office.

Mr. Redd originates from Gail, in Borden County, where his parents have been in the farming business. He is married to the former Minnie Ellen Cox of Lamasa. They reside at 204-A 35th Street, Lubbock.

Bruce E. Fink will be stationed in Hereford. There he will be in charge of the Water District's field office. He will replace Wayne Wyatt, who has resigned to enter private business.

Mr. Fink is a native of western Kansas and was reared on a wheat farm and cattle ranch. He is a graduate of Kansas State University where he majored in Agriculture and Geography. He has been in the farming and cattle business and is a veteran of service with the U. S. Army.

Mr. Fink and his wife, Kay, have two daughters, Lisa Kay, 2 years old, and Tami Lynn, 4 months old. They will make their home in Hereford.

Wayland Offers Scholarships To Top Area Students

Plainview—Graduating seniors in area high schools may qualify for Academic Scholarships to Wayland Baptist College for the 1960-61 session. During the months of March and April, intelligence type examinations will be administered to seven Panhandle Plains cities by Maurice J. Sharp, dean of students.

Scholarships in the amount of \$200 each will be awarded to the top 10 scorers on the competitive examinations. Winners must meet all Wayland entrance requirements and only 1960 high school graduates are eligible.

Examinations will be given at Wayland at 10 a. m. on March 26, and at 8 a. m. on April 2, High School Senior Day.

These 10 Academic Scholarships are in addition to the \$400 scholarships which are awarded to valedictorians and salutatorians of all accredited high schools and junior colleges and the \$300 scholarships to the highest ranking Baptist students. For the highest ranking Baptist boy and Baptist girl in each high school, Wayland Baptist College provides \$300 scholarships. A student may qualify for only one of these scholarships. Winners of these scholarships also have the opportunity to qualify for Wayland Academic Scholarships given to upperclassmen who maintain high scholastic records.

For additional information, 1960 graduating seniors may contact Dean Maurice J. Sharp, who is chairman of the Scholarship Committee.

Farm or ranch buildings or structures to be used as production facilities should be planned carefully before construction begins, says V. S. Allen, extension agricultural engineer. Careful planning of the plans will insure the return on the investment and the maximum in labor saving, both important factors in the ever-increasing cost of production in agriculture.

The Safe Use of Vitamins

(By Dr. Kenneth Gregory of Abernathy Medical Clinic, City Health Officer)

(Editor's Note: Following is the text of a paper read at a recent meeting of Abernathy Home Demonstration Club. The paper was prepared by Dr. Kenneth Gregory of Abernathy Medical Clinic. He is Abernathy's City Health Officer.)

A discussion on the use of vitamins would not be complete without a short history of the discovery of the vitamin group.

The term "Vitamin" was proposed by a Dr. Funk in 1912 to describe food other than proteins, fats, carbohydrates and minerals. It was known before the discovery of vitamins that certain foods cure or prevent certain diseases—such as liver for night blindness; cod liver oil was used in certain areas, to treat rickets, and apples seemed to prevent or cure scurvy. This led certain investigators, who had previously thought that carbohydrates, fats, minerals and water were the nutrients for satisfactory health, to begin the search for the different substances to be known as vitamins. Consequently, great strides were made within the next 25 years. The first vitamin discovered was Vitamin A in 1919, followed by Vitamin B in 1920, and so on.

Factors that are the average correct usage of vitamins are: 1. Spinach or legumes are kept too long in a refrigerator, their vitamin C content is greatly reduced. 2. Washing and chopping of vegetables free certain processes destroy Vitamin C also. 3. In a water solution is destroyed by light, and been proven that milk left standing on door steps and exposed to light for two hours may lose two-thirds of its riboflavin content.

Cooking seems to destroy many of the vitamins. Ascorbic acid may be destroyed by prolonged cooking. The cooking of foods in a copper cooking vessel will also destroy Vitamin C. One of the chief dangers of cooking food in water is the loss of the vitamins into the cooking water. If cooking is done in as little water as possible, or if the water is used in soups or sauces, the loss can be partially recovered.

Canning of foods destroys part of the Vitamin C in canned fruits, fruit juices, and vegetables, however most commercial canneries are required to add extra vitamins to the foods to compensate for the loss.

The drying and dehydration of food creates a serious danger to the loss of vitamins A, C, and B. The slow method of freezing foods destroys some of the water soluble vitamins also, and inaccurate means of thawing frozen foods also destroys some of the vitamins. The quick freezing methods, and the long thawing periods of foods seems to prevent most of the losses of the major vitamin groups.

This gets down to the safe use of Vitamins; our original topic. I believe this can best be answered, or summed up by describing some of the potential dangers of Vitamins.

Vitamin D, taken in excess dosages may produce sick stomach with vomiting, and diarrhea, and kidney trouble, also softening of the bones with deformities in growing children.

The excess use of Vitamin A, eight times the recommended doses, may cause drowsiness, dizziness, loss of weight, weakness and in some instances of small children cause clubbing of fingers and toes. Some of the early signs of over doses of Vitamin A are yellow discoloration of the skin.

There are no known reactions to over use of Vitamin E or K. High doses of Benzoin acid are most poisonous, but will prevent penicillin and sulfa drugs from working. Over dosages of thiamine will cause nausea, vomiting, nervousness, fast heart, and marked sweating.

Nothing is known definitely about the ill effects of moderately high doses of vitamins given over a long period of time. Untold it will probably re-

quire several deaths, or deformities before enough pressure is put on the Federal Government to better control the sale and indiscriminate use of vitamins. It is unfortunate that the American public is at the present time the guinea pig for this uncontrolled experiment.

I will sum up this short discussion by saying that, unless a person is absolutely sure of their need for vitamins either as determined by their physician, or someone otherwise confirmed, reliable source, I would suggest that your vitamins be bought at the grocery store, in the form of good whole foods, namely meat, milk, eggs, and a green leafy vegetable daily.

NEW CAR DEALER GIVEN AWARD FOR DRIVER TRAINING

Reid Chevrolet, authorized new car dealer in Abernathy, recently was awarded a Certificate of Merit for lending automobiles to high schools in this area for driver training purposes.

The schools to which automobiles were loaned are Abernathy Independent School, Abernathy; Petersburg Independent School, Petersburg; and New Deal School, New Deal.

C. B. Smith, Austin, President of the Association, pointed out that safety authorities forecast 6 million drivers on Texas roads by 1970. He emphasized the need for ever increased efforts by all citizens toward the goal of highway safety. He commended dealer members for their outstanding contribution and said, "the new car dealers of Texas realize the need to participate in worth while community endeavors and are more than willing to do everything within their power to help train our youth to be safe, careful drivers."

Present-day drivers who have participated in high school driver training programs in the past have better than average safety records, according to national studies on the subject.

Over \$2 million is invested by authorized new car dealers in more than 800 automobiles on loan to schools throughout the state according to Tom J. Crooks, Manager of the dealer association. Many of these cars are equipped with dual controls, permitting the instructor to maintain maximum safety control during the training procedure.

The shortage of qualified "behind the wheel" instructors prevents many other schools and new car dealers from participating in this program, Mr. Crooks said.

Many dealers loan pickups to FFA and 4-H Clubs so that agriculturally minded youths may become familiar with the operation of farm type vehicles.

The 1960 Guide for Controlling Cotton Insects, L-218, is now available at the offices of local county agents or from the Agricultural Information Office, College Station, Texas. At least six major changes have been made in the recommendations. Extension entomologists suggest that growers check with their county agent on these important changes.

Political Announcements

The following announcements for public office are made subject to the action of the Democratic Primary, May 7, 1960:

HALE COUNTY
For Sheriff: TED ANDREWS, Re-election.
For Commissioner Precinct 3: RAYBURN KARRH, Re-election.
For Tax Assessor-Collector: MARSHAL SURRETT, Re-election.

BILL HOLLARS
For District Attorney, 64th Judicial District: FRANK GASTON

For Representative 89th Legislative District: H. G. WELLS, Re-election.

LUBBOCK COUNTY
For Senator, 28th District: PRESTON E. SMITH, Re-election, 2nd Term.

Letter To The Editor:

Dear Editor:

The Plains Art Association of Plainview would sincerely appreciate any publicity that your newspaper could give it.

The Association always welcomes visitors to any of the meetings. The PAA object is the promotion of the creative arts within Hale County and adjoining counties by means of exhibitions, lectures, classes in arts and crafts; and the elevation of the level of art appreciation by educational means.

The Second Annual Plains Art Association Art Exhibit, co-sponsored by the Plainview Women's Club, will be May 8 through May 15.

The Association meets the first Monday of the month for the regular meeting. The Association meets the third Monday of the month for sketching class with instruction for those who are just beginning in art, and a live model for the more advanced.

For further information please contact:

Faye Fondren
713 Berger Street
Plainview, Texas
Phone CA 4-2523

Thank you very much for your consideration and time.
Sincerely yours,
Mrs. Faye Fondren
Publicity Chairman

Cotton Urged To Study New Cotton Laws

College Station—Agricultural legislation passed by Congress last year has real significance for cotton producers in 1960, and future seasons. The law establishes new provisions which cotton producers must follow if they are to maintain their allotments.

First, according to C. H. Bates, extension farm management specialist, if a farm allotment is under a Soil Bank contract of the Great Plains Conservation Program the allotment will be preserved. A limited number of producers are involved.

The next provision is likely to affect many cotton growers. Operators of farms not under Soil Bank contract or the Great Plains Program have two choices. They must plant at least 75 percent of the allotted cotton acreage or, release sufficient acreage to meet this 75 percent requirement to the county ASC committee for re-portionment to other growers in the county. For example, a farmer with a 50-acre allotment may decide to plant only 38 acres since this is over 75 percent, or he may plant 30 acres and release as few as 8 acres to be distributed to others.

Bates explained the release is made for one season only and will not reduce the future allotment of the producer releasing the acres. Also, it will not help the producer planting the acres to get a larger allotment next year and finally, the released acreage cannot be used to set up allotments for new growers.

The third stipulation of the new law requires that cotton must be planted on the farm holding an allotment one year in three. This means that a producer could release his cotton allotment for two successive years, but the next year must plant at least 75 percent of his allotment in order to preserve the full acreage.

Cotton production is a good "multiplier" in the local economy, said Bates. By this he means the more cotton that is produced, the greater will be the amounts of fertilizer, petroleum products, labor and other items needed to service this production. After it is grown, the ginning, hauling and processing of lint and seed provide employment and require other services in the county, district and state. It benefits a large number of citizens.

Cotton producers should do their part to hold county allotments. They can be lost to other areas. Cotton growers who plan to plant only a part or none of their allotment should release the acreage not to be planted before the deadline dates. This is done by notifying the county ASC office in the county holding the allotment records.

There are five zones or areas in Texas with different deadline

dates, beginning February 19 for Coastal and South Central Texas counties and extending to April 31 for the High Plains counties. Dates added that growers wanting additional cotton acreage from the release of their allotments must file an application with the county ASC committee and the maximum in labor saving, both important factors in the ever-increasing cost of production in agriculture.

DR. J. C. BUNN
... Baptist Evangelist

Baptist Revival In Progress Here

The spring revival of the First Baptist Church began Wednesday, March 16, and will continue through Sunday, March 27. There are noon day services on the weekdays. The evening services begin at 7:30.

The evangelist for the meeting is Dr. J. C. Bunn, pastor of the Sequoyah Hills Baptist Church of Tulsa, Oklahoma.

Dr. Bunn is a native of North Carolina. After graduation from Wake Forest College in 1937 he taught math in the Reynolds High School at Winston Salem, North Carolina. During the years of 1940-42 he was professor of math at North Carolina State College. He was an officer in the United States Navy during World War II. While in military service he made a commitment of his life to the preaching ministry. After his discharge from the Navy, he entered Southwestern Baptist Theological Seminary where he earned a Bachelor of Divinity Degree and a Doctor of Theology Degree.

Sequoyah Hills Baptist Church, Tulsa, has experienced remarkable growth under the ministry of Dr. Bunn.

The music for the revival under the direction of Mr. Le Hockett. Mrs. L. J. Hager is organist and Mrs. W. C. Cler is the pianist.

The Nursery will be on each service. A cordial invitation is extended to all spiritual emphasis.

Abernathy

Revival Planned March 17 to 27 By Nazarenes

REV. RAYMOND HURN
Nazarene Evangelist

The Rev. Raymond Hurn is to preach in special evangelistic services slated at Abernathy First Church of the Nazarene, it was announced by the Rev. Darrell Moore, pastor.

The services are to be held at 7:30 o'clock each night, from March 17 through March 27.

Rev. and Mrs. F. W. Rogers of Hillsboro will have charge of music during the revival.

The church and its pastor extend an invitation to everyone in this area to attend the evangelistic services.

Nursery Stock Operation Is Set Up Here

Mr. and Mrs. P. C. Patterson, Jr., have started a nursery on their property at 502 2nd Place in the Vineyard Addition. They have for sale landscape arrangements, trees, shrubs, bedding plants, and they are able to handle any type of floral work.

This year they plan to specialize in roses. They now have between 40 and 50 rose bushes.

Their business will be under the name Rose Garden Nursery & Florist.

Vehicles Must Be Inspected By April 15

Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, said today that more than two-million motor vehicles remain to be inspected before the April 15 deadline. He urged all Texas motorists to obtain their new inspection stickers at an early date.

Garrison reported that more than 4,300,000 will be inspected in Texas this year. To date only about half that number have gone through inspection lines at some 4,100 inspection stations located throughout the state.

The DPS director pointed out that inspection stations cannot inspect vehicles during wet, rainy weather, a condition normally prevailing during late winter and early spring. To make sure every vehicle owner is able to obtain his 1960 inspection sticker in time, Garrison suggested that plans be made now to visit an inspection station, before inspection lines grow long.

Pension Law In Change July 1

Many important changes will be made by the new pension law which the Veterans Administration is now taking steps to put into effect on July 1. Our Veterans' County Service Officer, G. E. Ragle, recently attended a school of instruction on the provisions of this new law, and he urges all interested persons to contact him at his office in the courthouse at Plainview for information and assistance.

All veterans and widows who are now receiving pensions through the V. A. (do not confuse Pension with Compensation, which is paid for service-connected disabilities or death) will receive a pamphlet and an election form in the envelope with their check about March 1. These persons may choose to continue to receive benefits under the present law, or they may elect to come under the new law. The election form should not be completed if the pensioner desires to remain under the present law, and every possibility should be considered before a choice is made because such change is final.

Many children and unmarried widows of deceased veterans who have not been eligible to receive pension benefits under the requirements of the old law will become eligible under the liberalized provisions of the new law. These persons should make applications soon so that payments will begin for the month of July. Since the V. A. nor the County

INSTALLATION of underground concrete irrigation pipe is illustrated in the above picture. Here employees of Brown Supply Company of Abernathy are shown installing 12-inch concrete pipe, at a depth of 48 inches, on the LaMa Mas Craven farm three miles south and one mile west of Abernathy. Operator of the farm is Jack O'Brian.

The pipe line above runs approximately due north and south (running south from the well) on the farm and is 2,681 feet in length.

Workers in the above picture are: Ambrosio Montoya, Lubbock; Victor Treuno, Abernathy; Jeronimo Cardenas, Abernathy; Luis Ramirez, New Deal; and Lupen Carrizalez, Lubbock, all in the ditch. Operating the concrete mixer are Odesimo Puente, (on the truck), of Lubbock, and Jose Lopez, Abernathy. All are employed by Brown Supply Co., Abernathy, and all are experienced in that line of work. (Staff Photo)

Service Officer has any way of knowing who or where the widows and children are who may now be eligible, the assistance of the general public is requested in seeing that they seek information and assistance.

Your Veterans' County Service Officer is available to all area veterans and their dependents to advise and assist in any of the many types of problems which arise under the numerous laws now in effect, and you are invited to avail yourself of his services at any time.

Hale County recently observed Soil Fertility Week, set by proclamation by Governor Price Daniel.

Hale County Judge Lee Nowlin and the Extension Service in this county joined in urging "strict observance" of the week which is aimed at encouraging better soil care and greater production in agriculture.

Shown signing the Hale County proclamation is Judge Nowlin with Extension Service and Soil Fertility Committee members.

Left to right, Bob Landry, B. F. Yeates, Judge Nowlin and S. M. Crue, Jr. Yeates is assistant Hale County agriculture agent.

"Don't guess, soil test," is the slogan of the soil fertility program. Several hundred soil samples from Hale farms have been tested but many hundreds more should be tested before the crop in County Agent Ollie Liner (Plainview Daily Herald (10))

Want A Delinquent In Your Home?

(FROM THE GIDDINGS STAR)

Here are 12 rules for parents for raising juvenile delinquents. We found them in The Houston Chronicle Magazine Section and we think they are worth parents' consideration. What do you think?

1. Begin with infancy to give the child everything he wants. In this way he will grow up believing the world owes him a living.
2. When he picks up "bad" words or "dirty" words, laugh at him. That will make him think he is "cute." He will run off and pick up some other words that will blow the top off your head.
3. Never give him any spiritual training until he is 32 and then let him decide for himself. By the same logic, never teach him the English language. Maybe when he is old enough he may want to speak Bantu.
4. Praise him in his presence to all the neighbors; show how much smarter he is than the neighbor's children.
5. Avoid the use of the word "wrong." It may develop in the child a "guilt complex." This will prepare him to believe that when he is punished later on for stealing cars or assaulting women, society is "against him" and that he is being "persecuted."
6. Pick up everything after him, his shoes, his books, his clothes. Do everything for him, so that he will be experienced in throwing burdens on others.
7. Let him read anything he wants. Have no concern whatever for what goes into his mind. Provide him with tiny cups for his lips, but let his brain drink out of any dirty container for words and ideas.
8. Quarrel frequently in the presence of your children. In this way they will be prepared for broken homes later on.
9. Give him all the spending money he wants; never let him earn his own.
10. Satisfy every craving of the child for food, drinks, and everything that has to do with the sense of taste and touch, gratifying every sensual desire.
11. Take his part against policemen, teachers, and neighbors. They are all "prejudiced" against your child.
12. When he gets into real trouble, always defend yourself and say: "I never could do anything with him."

FERTILIZER SALES UP FOR FALL OF 1959
College Station—Total tonnage of fertilizers sold during the fall of 1959 (July 1, to December 1) was 4.8 percent over that sold during the same period in 1958 and 20 percent over the total in the fall of 1955. Sales of mixed goods in 1959 were practically the same as they were in 1958, but sales of materials were 8.0 percent higher,

is the report of Dr. J. F. Fudge, state chemist. Mixed goods accounted for 35.9 percent of the total in 1959, as compared with 35.5 percent in 1958.

Tonnage of primary components—nitrogen, available phosphoric acid and potash—was 2.8 percent higher than in 1958. A large part of this gain was due to the increase in sales of 16-20-0, urea and nitrogen solutions, although the average composition of mixed goods was higher than ever before, Fudge said. Sales of 10-20-10 accounted for 77 percent of the total for the 1-2-1 ration and 55 percent of all mixed goods. Sales of the 1-2-1 ratio accounted for 71 percent of the mixed goods sold in East Texas, the principal user. The average composition of mixed goods sold in East Texas and in the entire state was almost a 10-20-10.

Sales of materials were 8.0 percent higher than a year ago with the increase due largely to a 40 percent increase in sales of 16-20-0 with some increases in sales of urea and nitrogen solutions. Sales of anhydrous ammonia were down 8 percent and of ammonium nitrate, 10 percent, the chemist reported. Total tonnage of anhydrous ammonia used in the six-month period was six times as great as in 1954. Anhydrous ammonia accounted for 27 percent of the tonnage of all materials, 66 percent of the total materials nitrogen and 37 percent of all nitrogen sold. Tonnage of ordinary superphosphate sold continued to decline and was only about one-fourth as high as in 1954, Fudge added.

The report for the fall of 1959, which carries additional information on fertilizers sold in this period, has been released by the Texas Agricultural Experiment Station. Write the Agricultural Information Office, College Station, for a copy. Ask for PR-2124.

Senator Lyndon Baines Johnson

BORN IN 1908 IN BLANCO COUNTY, TEXAS, IN THE SHADOW OF JOHNSON'S FORT, BUILT IN INDIAN TIMES BY HIS GRANDFATHER

SON OF SAM JOHNSON, LEGISLATOR AND FARMER, AND OF REBEKAH (BAINES) JOHNSON, GRANDDAUGHTER OF A PRESIDENT OF BAYLOR U.

Ford Motor Company's new Falcon Ranchero, the first economy size truck to be produced by a major U. S. automobile manufacturer, features a 6-foot box, up to 50 per cent greater fuel economy and the high styling and smoothness of ride normally found only in a regular passenger vehicle.

The Falcon Ranchero is America's lowest priced pickup truck with turn indicators and oil filter as standard equipment.

FALLOUT SHELTERS are the best way for rural Americans to protect themselves from a massive nuclear attack which could unleash dangerous radioactive fallout throughout the country. Some of the shelters recommended by the Office of Civil and Defense Mobilization are not as elaborate as this one, which includes an auxiliary generator and an electric air filtering and ventilating system. However, all recommended shelters should include the basic features shown here—a place to sleep; food, water and medical supplies, and at least eight inches of concrete or an equal weight of other materials for shielding the shelter against fallout. Free designs may be obtained by writing to OCDM Rural Civil Defense, Battle Creek, Mich. (OCDM Photo)

Select Adapted Varieties For Best Cotton Yields

College Station -- Selection of adapted varieties of cotton can boost cotton yields, grade and profit. Cotton variety recommendations for Texas vary with soil types, climatic conditions and farming practices, points out Glenn Black, associate extension cotton specialist.

The increase in mechanical harvesting should cause producers to give consideration to varieties best suited to the type of machine they plan to use. The picker varieties have open-type bolls and the stripper types have storm-resistant or storm-proof bolls. In line with mechanization practices, Black says cotton should be planted in 40 inch rows with three to four plants to the row foot. Grass and weeds should be controlled for efficient machine operation and for the production of good quality cotton.

Black suggests that Rio Grande Valley and Coastal Bend farmers use Deltapine, Empire or Stoneville types for picker varieties. Storm-resistant varieties such as Northern Star, Lankart, Stormking and others are adapted for stripper use. He says farmers interested in cotton yield performance should ask the local county agent for a copy of Bulletin 877, "Performance of Cotton Varieties in Texas, 1954-56."

Upper Gulf Coast and East Texas farmers will find Deltapine, Stoneville, Empire or similar types adapted to their areas. These include Deltapine 15, D&PL Fox, Stoneville 7, Empire WR and others. All are suitable for mechanical picking.

North Central and Central Texas growers will find that bottomlands or irrigated fields should produce best when planted to Deltapine.

Empire, Stoneville and similar types. Upland farmers in these areas should consider D&PL Fox 4, Austin, Lankart, Blightmaster, Lockett 88, Stormking and others.

Rolling Plains and High Plains producers will find storm-resistant and storm-proof types such as Western Stormproof, Stormking, Blightmaster, Lankart, Paymaster 101, Northern Star and Lockett 88 suitable for stripper use while Deltapine types, Paymaster 54B and others are adapted open-boll varieties. High Plains growers might also consider Empire and Acala types if spindle picking is desired. For stripper harvesting the storm-resistant or storm-proof types are popular.

Upper Rio Grande and Trans-Pecos growers will probably prefer the Upland varieties such as Acala 1517C, Acala 1517 BR-1 and other Acala types as they are developed. In this area American Egyptian cotton of the Pima strains could be planted under special allotment.

Black urges cotton producers to plant only seed of varieties known to be adapted to their area and that have been tested for germination and purity. He also recommends that the seed be treated for seedling disease control.

Consumers Fuel Plans Meeting Of Stockholders

Abernathy Consumers Fuel Association is to hold its annual meeting of stockholders at 7:30 p. m. Friday, March 25, in the school lunchroom. Neff Turner, manager, announced.

Highlighting the business session will be the election of two directors, distribution of dividend checks and the annual business report.

Terms of Lewis Lutzick, board vice president, and G. W. Thompson expire this year. Other members of the board of directors are H. S. Tennell, president; A. L. Stone, Jr., secretary, and J. D. Vineyard.

Turner is completing his eighth year as manager.

All stockholders and their families are urged to attend the March 25th meeting. Refreshments will be served.

Featuring high styling and ease of handling, Ford's new Falcon Ranchero offers a 6-foot box and a payload capacity of 800 pounds. Optional equipment offered with the vehicle includes radio and automatic transmission.

The Falcon Ranchero will go on sale in Ford dealerships across the nation later this month.

Aim And Purposes Of FFA Are Listed

The primary aim of the Future Farmers of America is the development of agricultural leadership, cooperation and citizenship. The specific purposes for which this organization was formed are as follows:

1. To develop competent, aggressive, rural and agricultural leadership.
2. To create and nurture a love of country life.
3. To strengthen the confidence of farm boys and young men in themselves and their work.
4. To create more interest in the intelligent choice of farming occupations.
5. To encourage members in the development of individual farming programs and establishment in farming.
6. To encourage members to improve the farm home and its surroundings.
7. To participate in worthy undertakings for the improvement of agriculture.
8. To develop character, train for useful citizenship, and foster patriotism.
9. To participate in cooperative

Weed District Asks Program On Rights Way

Officials of the Hale County Noxious Weed Control District Wednesday proposed to the Texas Highway Department that the weed district be granted permission to make control applications to highway right-of-way.

Archie Martin, supervisor of the weed control district, said highway department authorities indicated they would consider the possibilities of cooperation in such operations.

The weed control district would like to use its methods and applications on rights of way under certain circumstances.

Weed control district representatives meeting with highway department officials were Elmo Sling, secretary-treasurer; C. White, vice president; J. J. He member, and Martin.

10. To encourage and practice thrift.
11. To encourage improvement in scholarship.
12. To provide and encourage the development of organized rural recreational activities.

NOW THE FORD Falcon BRINGS YOU AMERICA'S LOWEST-PRICED 6-PASSENGER WAGONS!

choice of 2-door and 4-door models

From America's Wagon Specialists! Priced as much as \$154 under other 6-passenger compact wagons! Full Falcon quality—room!—and up to 30 miles a gallon!

The Falcon Wagon is the newest wonder in the wonderful new world of Fords for 1960! And wonderful it is... with a price tag that's as much as \$154 below other 6-passenger compact wagons! With the longest loadspace—over 7 feet of it—of any compact wagon! With all the wonderful economy of the already overwhelmingly popular Falcon Sedans! Like the sedans, the Falcon Wagon delivers up to 30 miles a gallon of regular gas... the best gas mileage of all American-built station wagons! It's got everything! Room for six big-sized adults, huge cargo space, and wonderful, wonderful ease of handling. Come in for a Test Drive!

AND, FOR ABSOLUTELY ROCK-BOTTOM ECONOMY, SEE THE Falcon TUDOR SEDAN!

It's the LOWEST PRICED* of all 6-passenger cars in America... priced as much as \$124 less than other 6-passenger compact cars. Yet, compare it with the others and you'll see, feel and hear the big quality differences Ford has built into this thriftiest of all family cars!
