#### **Reids Hosts To Boys Entered In** Soap Box Derby

#### (By Tommy Boone)

A record attendance of derby enthusiasts were present at the Andy B. Reid residence Thursday night. A total attendance of 40 boys were present to eat barbecue and watch slides taken of the derbies of recent years.

A film was also shown to the boys of last year's derby activities in Akron, Ohio. The film was entitled Derby Fever. The boys also had an election for derby queen consisting of girls from the sixth, seventh, and eighth grades. They are as follows: Donna Webb, last year's queen, Janie Brown, Peggy Carter, Pam Davis, and Patsy Pettit. These girls are 12, 13, and 14 years old. Janie Brown was selected as this year's queen. Present at the party were Hol-

land Graves, Chief inspector of the racers, and his son, Gary Graves. Pictures were taken of Mike

Miller, who has 4 years of racing experience in the derby, and Mike Thames who is racing for his first year.

Mr. Graves explained some of the rules for building a derby 1935. His senority, as well as his racer, and restated some old ones forthright approach to public affor the new contestants. A new contestant announced at

the party was Randy Peeples of New Deal, son of Mr. and Mrs. V. L. Peeples of New Deal.

The list of Abernathy boys par-ticipating in the derby will be published in The Review. The 1960 South Plains Soap Box Derby races will be held in Lub-

TEST SAFFLOWER

Safflower will be tested at the High Plains Research Foundation this year in cooperation with the U. S. Department of Agriculture, as a part of the Foundation's program to develop new crops for the area.

Five varieties were used in the 1959 tests at Halfway. Heavy hail on June 22, 1959, damaged the crop so severely that the tests had to be abandoned. There is still a possibility that a variety can be found that will be adapted to the area, Dr. Earl Collister. Chief Agronomist, said in announcing the acceptance of the request of the U.S.D.A. and farmers in the area for further research on the crop.

The Foundation has been select-ed by the U.S.D.A. to conduct the regional test. This will be the only safflower test of its kind to be made in the area. The varieties to be tested are being supplied by Dr. Lester N. Leininger, Research Agronomist, of the Agricultural Research Service at Utah State University.

The eight varieties to be included in the test are U. S. 10, N-6, N-10, N-4051, N-4054, N-4055, Gila, and A 5731. Three of these varieties were included in the 1959 test program at Halfway.

### PROGRESSIVE BUSINESS AND CIVIC-MINDED PEOPLE OF LUBBOCK AND VICINITY

This department has been worked up largely as a reflection of public opinion. No person has written of themselves or their business. All articles have been compiled by a representative of The Abernathy Weekly Review as he saw conditions. These people are all leaders in their various lines of endeavor and the co-operation of those citizens in Lubbock who helped make this department possible is sincerely appreciated.

Successful business and professional men as a rule, show their slong these lines. appreciation for their success by their often repeated demonstrations of civic pride. This is a forfact. Otherwise a city tunate would be lacking in that progressive element which advocates various projects of a civic nature that are indicative of a progressive community.

And R. L. Oldham of R. L. Oldham & Associates, Consulting Engineers, is a man who has never failed to lend a hand when it comes his turn to help on some worthy project promoted for the general betterment of the city of Lubbock, and the adjacent

territory. Mr. Oldham takes a genuine pleasure in this method of showing his appreciation for his suscess, and in so doing, recognizes his civic responsibilities to the community.

It is such men as R. L. Oldham who become acknowledged lead-ers in both business and community activities, and we compliment him on having attained that position in his city.

The city of Lubbock has assumed its place of importance in this section of Texas because of the efforts of far-seeing business and professional men who have helped in developing its industry, or in some manner, extended the trade advantages of the locality. PAT WALLACE

We wish in this edition to pay tribute to Pat Wallace of the Q Bar-B-Q, for his many services to the city of Lubbock, and his splendid record of achievements in the business and commercial life of this entire distict.

Mr. Wallace probably has as wide a circle of friends as any other man we could name, because he is just naturally the kind of man who makes friends with almost everyone, and always conducts himself in such a manner as to deserve the good will of all who know him.

Lubbock is fortunate in being able to number, among its more progressive business men, citizens of this type. He is always ready and willing to lend his support to the promotion of any project which promises to benefit this entire district.

He may be depended upon, and his services to the people are too many in number to be described here. It may be sufficient to say that we consider Pat Wallace an asset to the community, and a community and the trade area it progressive business man of whom serves. OVER BACK-COUNTRY ROADS AT 45 WITH A SKY-HIGH LOAD OF TIMBER

### **Chevy middleweight** shows the big rigs how it's done!

That's a 6303 medium-duty Chevrolet powered by a 283-cu.-in. V8. But there's sure nothing mediumduty about the load. Mr. J. E. Blankinship, Arkansas logging contractor, says both of his torsion-spring 6303's "move along at 40 to 50 miles per hour with 55,000 pounds gross weight and maintain a 5-trip-a-day schedule with no trouble at all." Figure the money you save when you've got a medium-duty truck that can cover 30,000 back-country miles a year with a high-tonnage load!

We've never seen anything like the amount of praise truck owners are heaping on Chevy's new torsion spring suspension. Owners like the fact the truck handles a whole lot easier, can move faster off the road without beating the driver to death and shaking loose all the sheet metal. They like the idea of extra thousands of miles before trade-in! . . . Drive a '60 Chevy just once. It's a whole new experience.

Chevy middleweight averages 200 miles of back roads a day dogging timber out of the woods and delivering it to the mill at Crossett, Arkansas
