

ABERNATHY WEEKLY REVIEW

41 Local Boys Are Soap Box Derby Entrants

JANIE BROWN
Local Derby Queen

Janie Brown, 14-year-old daughter of Mr. and Mrs. Jack B. Brown, was chosen Abernathy's 1960 Soap Box Derby Queen.

Janie, who will be a Freshman student in Abernathy High School next fall, will attend the South Plains Soap Box Derby races in Lubbock June 27.

Other candidates for the 1960 Queen honors were Donna Webb, Pam Davis, Pat Pettit, Peggy Carter, and Joan Lovelace.

Blood Bank File Is Kept At Reid Chevrolet

The Walking Blood Bank File, promoted by the IOOF Lodge of Abernathy, is now kept at Reid Chevrolet. Edwin Crow, sales manager for Reid Chevrolet, is in charge of the file.

The card file, with the types of blood of people in the Abernathy area, is kept for the purpose of locating certain blood types in case of an emergency. Also, a person whose name is carried in the file may receive blood more quickly in the case of an emergency, whereby the necessity of taking another blood test could be eliminated.

About 450 names are now in the Walking Blood Bank File. A large number of these individuals have rare blood types, and a few have very, very rare blood types.

Anyone wishing to file his or her name and blood type in the file is asked to contact Ed Crow at Reid Chevrolet, or any member of the IOOF Lodge.

Mr. and Mrs. B. W. Phillips and Mr. and Mrs. Jimmy Gragg were in San Angelo last weekend.

Organizational Meeting Monday

Swimming Lessons To Begin Tuesday At Rec. Center Pool

ICE CREAM PARTY TONIGHT

All members of the Abernathy Municipal Recreation Center are urged to attend an ice-cream party at the Recreation Center swimming pool tonight (Thursday). All who can are asked to bring a freezer of ice cream.

Dr. John Hale, president of the Recreation Center, announced that bids are now being received on the underground water system for the golf course. No action on the bids has as yet been taken, but some action is expected to be taken soon whereby construction of the water system might possibly get underway next week.

The greens have been sown at the Rec Center golf course, and Sunday night's rain helped considerably.

Swimming Lessons

An organizational meeting for all persons interested in taking swimming lessons at the Recreation Center pool this summer is to be held Monday morning, June 6, at 9 o'clock at Abernathy City Hall, according to Mrs. Lonnie Brownlow, Recreation Center secretary.

Anyone five years of age or older, or their parents, who are interested in the swimming lessons are urged to contact Mrs. Brownlow, phone CY-8-2784, or be at the organizational meeting Monday morning. Classes will be organized that morning, and swimming lessons will begin the following morning (Tuesday) at the pool.

It was stressed that you need not be a member of the Recreation Center to be eligible to take swimming lessons.

South Plains Soap Box Derby To Be Held In Lubbock On Monday, June 27

Edwin Crow, sales manager at Reid Chevrolet and Abernathy director for Soap Box Derby activities, announced local entries for the South Plains Soap Box Derby to be held in Lubbock June 27.

Abernathy entries are:

C. L. Stallings, son of Mr. and Mrs. Harold Stallings, First State Bank; Larry Payne, son of Mr. and Mrs. Wayne Payne, Dairy Mart; Burl Fuller, son of Mrs. Lois Fuller, Pittman Gulf Service; Doyle Fuller, his brother, Graham's Cafe; Bob Adams, son of Mr. and Mrs. R. L. Adams, Carl Phillips Farm Store;

Billy Harris, son of Mr. and Mrs. M. F. Wooten, Joe Thompson Implement; Ronnie Wynne, son of Mr. and Mrs. C. A. Wynne, Newton Radio and TV Service; Terry Slough, son of Mrs. R. D. Slough, Abernathy Florist; Johnny Peters, son of Mr. and Mrs. H. T. Peters, Lon's Cleaners; Mike Miller, son of Mr. and Mrs. J. L. Miller, Plains Gas Co.;

Carl Johnson, son of Mr. and Mrs. Will C. Johnson, Consumers Fuel Assn.; Pat Hale, son of Dr. and Mrs. John W. Hale, Pinson Pharmacy; Harry Overstreet, son of Mr. and Mrs. Virgil Overstreet, Abernathy Motor Co.; Bobby Knowles, son of Mr. and Mrs. Richard Knowles, Struve Hardware & Dry Goods;

Alvin Leach, son of Mr. and Mrs. Albert Leach, Service Grain Co.; Mike Collins, son of Mr. and Mrs. King Collins, Jimmy Joy, son of Mr. and Mrs. James A. Joy, Struve International Harvester; Mike Johnson, son of Mr. and Mrs. Iver L. Johnson, Johnson and Stanton; Mike Pettit, Pettit Real Estate and Insurance;

Randy J. Evans, son of Mr. and Mrs. M. D. Evans, Farmers TUCO Gin; Rickey Smith, son of Mr. and Mrs. M. E. Smith, Bill's Irrigation Supply; Lane Wade, son of Mr. and Mrs. Sam Wade, Duty and Wade Irrigation Service; Bobby Faver, son of Mr. and Mrs. N. E. Faver, Abernathy Sheet Metal Works;

Mike Tannehill, son of Mr. and Mrs. Frank Tannehill, White's Auto Store; Edward Ratliff, son of Mr. and Mrs. John B. Lane, Higginbotham-Bartlett Lumber Co.; Sandy Downs, son of Mr. and Mrs. Harland Downs, White Gold Gin; Randy Downs, his brother.

Other candidates for the 1960 Queen honors were Donna Webb, Pam Davis, Pat Pettit, Peggy Carter, and Joan Lovelace.

LIONS CLUB NEWS

The Weather Forecast was given by Phil Sterrett at the noon luncheon of the local Lions Club at Graham's Restaurant Tuesday.

The forecast calls for light scattered showers through the third of June; clear through the 7th; cloudy and damp the 8th through the 10th; cloudy with local showers the 13th and 14th; two days of fair weather; then cloudy with some local showers the rest of the month.

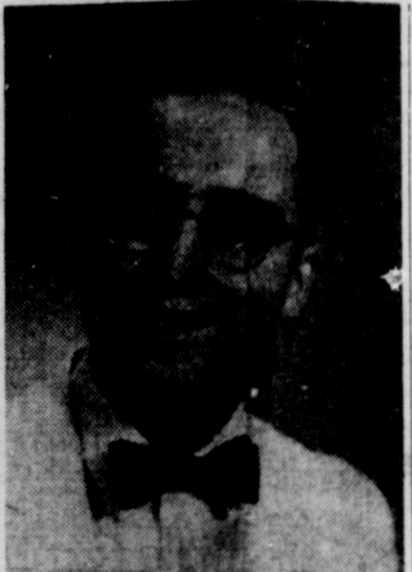

The rainfall forecast for June is 2.0 inches against the normal rainfall of 2.3 inches. The temperature for June is to be slightly below normal. The average temperature for July and August will be above normal with the rainfall close to normal.

Guest speaker at the Lions luncheon was Merle Walker, Superintendent of the Idalou Public Schools. Mr. Walker's subject was the automobile and how it is a useful but destructive machine.

He reviewed the advantages of automobile mobilization in the United States and how it has benefited the American people advanced.

Other candidates for the 1960 Queen honors were Donna Webb, Pam Davis, Pat Pettit, Peggy Carter, and Joan Lovelace.

Other candidates for the 1960 Queen honors were Donna Webb, Pam Davis, Pat Pettit, Peggy Carter, and Joan Lovelace.

Jimmy Scott Is Recipient Of LCC President's Award

Jimmy Scott, son of Mr. and Mrs. C. E. Scott, Abernathy, was presented the President's Award at the commencement exercises of Lubbock Christian College. Iris Hays of Brownfield, Texas was given the President's Award for girls.

The President's Award is given to the young man and young woman who are outstanding in religious growth and service.

Scott is a member of the Koinonia social club. A ministerial student, Scott plans to attend Harding Christian College at Searcy, Arkansas next year.

VISIT HERE

Mr. and Mrs. Arthur Clark of LaJolla, California, spent several days the first of this week visiting in the home of Mr. and Mrs. O. F. Rea. Mr. Clark is a first cousin of O. F. Rea. They have lived in LaJolla for many years where they operated a barber and beauty shop a long time. They retired from active operation several years ago and became one of the many families of retired people for which LaJolla is noted.

They will visit relatives of both while in Texas where they spent their childhood and early married life.

Thomas Conner, a former manager of Abernathy Co-op Grain Co., now is manager of the BFH Grain Storage Elevator in Lubbock.

Mr. and Mrs. Ray Willis were in El Paso last weekend to meet their son and his wife, Mr. and Mrs. George Ray Willis, who were en route from Austin to California.

tages and opportunities which otherwise might not have been possible.

One of the advantages named was the fact that through automation we have been able to make transportation available to the boys and girls of school age, thus making access to educational facilities easier and faster. Last year eight millions boys and girls went to school on buses each day, he added.

He stated that the automobile has changed our social life, our religion, and even our health.

On the other hand, the automobile is a dangerous weapon when improperly used. Last year 2,340 people were killed in automobile accidents in Texas, and 127,000 were injured, he added. He stated that possibly the best way to decrease these accidents is "traffic safety education," and develop proper driving habits. Also, one of the major factors of drivers today is their attitude.

Demos Slate Second Primary Election In Texas Saturday

Texas Democrats will go to the polls Saturday to mark one of the shortest ballots in the history of Second Democratic Primaries. There will be only one state race on the ballot. A number of counties and legislative districts over the state will have run-off races on the ballot in addition to the one state-wide race.

Hale County voters at Abernathy city hall box, and at Lakeview will vote only on the state race. The state race is the run-off for the Democratic nomination of a Judge, Court of Criminal Appeals, between L. W. Davidson and W. T. McDonald. The Hale County ballot also will have names of candidates in the run-off for County Commissioner, Precinct 1, but Abernathy and Lakeview voters will not ballot in that race.

In addition to the lone state race, Lubbock County voters will ballot in the contest between Reed Quilliam and Homer L. Hensley for the post of Representative, 97th Representative District Place 1.

G. M. Carr will be in charge at Abernathy city hall ballot box.

Hale County, and will be assisted by W. D. Sanders, Mrs. R. A. McAllister and Mrs. T. C. Smithee. Frank B. Lovelace will be in charge at Abernathy's Lubbock County voting box. At Joe Thompson Implement Co. Voters also will mark ballots at New Deal.

S. M. Harrison is the election judge for the Lakeview polls, at the Methodist Church there.

Polls will open at 8 a. m. and close at 7 p. m.

TALK -- In Print

The following concerns a trip we took recently, and if the travel experiences of other people bore you, I suggest that you read no further.

Along with the Jim Ned Graggs and Mr. and Mrs. Lloyd Edwards, Mrs. BFD and I drove some 1,800 miles taking us through part of Texas we had always wanted to see, the coastal area at Corpus Christi and the Lower Rio Grande Valley.

Of principal newsworthy interest was our visit at Mercedes, in the lush Valley area, with former Abernathians Harlow Iverson and the Lloyd Heggens family. Harlow and Lloyd operate an electrical contracting firm employing some 14 electricians. Their place is about a mile east of Mercedes on US 83. Although they headquarter at Mercedes, their operations cover a vast area of South Texas. Their crews were wiring the new Holiday Inn at Laredo, some 160 miles away, when we were there.

We spent about three hours with Harlow and the Heggens on Saturday afternoon. The Heggens reside in spacious living quarters above the electrical firm, and Harlow has an apartment on the first floor. They took us on a wide tour of the Valley area. The Heggens have a row crop and vegetable farm and a 40-acre citrus grove several miles from Mercedes. Nearer to town, and on a beautiful horseshoe-shaped private lake, they have a modernistic cottage for family relaxation and for entertaining.

We thoroughly enjoyed our visit with Harlow and the Heggens. Lloyd is from the music-talented R. Heggens family, and Harlow is his uncle. Lloyd once was employed at Tuco and he and his family resided in one of the homes there. He also was employed in Washington, D. C., before going to the Valley several years ago. Lloyd gave us some information on R. T. Price, a former manager at Tuco, who retired from the company at Amarillo. He and Mrs. Price now reside in Austin, and Mr. Price is a student at the University of Texas.

Mrs. Heggens is an active worker in women's organization of the Lutheran Church, and in that connection she and Lloyd are planning a trip to Europe late this month. The Heggens are new grandparents. Their older daughter has a baby boy. She and her husband are Texas Tech students and when in Lubbock they reside

(Continued on Page 4)

Contract Is Let For FM Road Construction

A contract for 17.4 miles of construction on F.M. Roads 2301, 2288 and 1612 in Floyd, Hale and District 97th Representative District place 1 at a Lubbock firm, it was announced this week by the State Highway Commission.

Henry L. Stafford submitted the low bid of \$264,449 on the project. The project of grading, structures, base and surfacing on sections of the above roads is expected to take 110 working days, according to Oscar Crain, District Highway Engineer at Lubbock.

H. C. Weaver, Resident Engineer at Plainview, will be in active charge of the project while it is under construction.

A-1 Lanes Bowling News

The Men's Major League got under way Thursday night at A-1 Lanes, with five teams being tied for first place with four wins each.

Roy Evans bowled the high individual game with a 237, while Curtis Lebow took high individual series with 602 total pins.

Team number 14 took high team game honors with 652, and team number three captured high team series with 1813.

This league is made up of 16 three-man teams.

O. C. Curry of Porterville, Calif., is visiting here in the homes of his daughters, Mrs. Douglas Chapman and Mrs. Alvin Hardin. He also is visiting a daughter, Mrs. Cecil Faulkenberry, in Seagraves, and a son, Wesley, in Levelland. Another son, Otto Curry, and family of Monroe, La., came here to visit O. C. Curry and the other relatives here and in Levelland and Seagraves.

IN CITY ELECTION HERE

Voters Approve Bond Issues

City of Abernathy voters went to the polls, Tuesday and narrowly approved two general obligation bond issues and the proposed granting of an option to purchase a portion of the city park of Abernathy for the sum of \$30,000 for the purpose of constructing a post office building thereon.

Results of the city election, as reported by Election Judge James I. O'Neill, are as follows: Proposition Number 1—127 votes FOR, 93 votes AGAINST; Proposition Number 2—123 votes FOR, 95 votes AGAINST; and the Option to Purchase a Portion of The City Park... 129 votes FOR, 93 votes AGAINST.

Following are the propositions, concerning the amount of the bonds, which were approved Tuesday:

PROPOSITION NUMBER 1 "SHALL THE City Council of the City of Abernathy, Texas, be authorized to issue SIXTY THOUSAND DOLLARS (\$60,000) general obligation bonds of said City for the purpose of constructing a public building, to wit: a Municipal Annex in, and for said City; said bonds to mature serially over a period of years not to exceed twenty-five (25) years from their date, and to bear interest at a rate not to exceed FIVE PER CENTUM (5%) per annum, payable annually or semi-annually; and to provide for the payment of principal of and interest on said bonds by levying a tax sufficient to pay the annual interest and to create a sinking fund sufficient to redeem said bonds as they become due?"

THOUSAND DOLLARS (\$90,000) general obligation bonds of said City for the purpose of constructing street improvements in and for said City; said bonds to mature serially over a period of years not to exceed twenty-five (25) years from their date, and to bear interest at a rate not to exceed FIVE PER CENTUM (5%) per annum, payable annually or semi-annually; and to provide for the payment of principal of and interest on said bonds by levying a tax sufficient to pay the annual interest and to create a sinking fund sufficient to redeem said bonds as they become due?"

The ballot bearing the granting of the option read as follows: FOR (or AGAINST) The granting of an option to purchase the south 100 feet of the City Park of Abernathy, Texas for the sum of \$30,000 payable all in cash, and for the specific purpose of constructing a public building thereon to be used as a Post Office Building.

Patsy Scott Given Progress Award At LCC

Patsy Scott, daughter of Mr. and Mrs. C. E. Scott, Abernathy, was presented the Sophomore Girls' Progress Award at the commencement exercises of Lubbock Christian College. Willie Starnes of Culver, Oregon, was given the Sophomore Boys' Progress Award.

These awards of \$100 each are presented each year to the young man and young woman in the Sophomore class who make the most overall progress during the year.

Miss Scott, a 1950 graduate of Abernathy High School, serves as faculty secretary at LCC. She plans to attend Harding Christian College at Searcy, Arkansas next year.

PATSY SCOTT

Rain Aids Area Crops

A general rain fell in this area early Monday morning, providing much-needed moisture for crops. Reports from farmers said the rainfall ranged from one-half inch to one inch.

"Mushy" hail stones fell in a wide section of rich farming area north of town late Saturday afternoon, but only slight damage was done to crops, reports said.

High winds late Saturday and early Monday tore limbs from trees, but no other damage was reported. Residents west-northwest of town sighted a high sky-riding tornado last Saturday afternoon.

Girl Scout Day Camp In Progress

The annual Ya-Te-He Day Camp is in progress this week at the Jack Barton Farm. Sixty-three Girl Scouts and Brownies from Abernathy and New Deal are attending.

Mrs. Marvin Struve is Camp Director and Mrs. W. B. Albers is Assistant Director. Troop Leaders and mothers are serving as Unit Leaders and Senior Girl Scouts from Troop 96 are assisting as Program Aides.

A new feature this year is the two daily sessions for different age girls. Brownies and Girl Scouts of Grade School age are at camp from 9:40 a. m. until 2:30 p. m. and cook their lunch. Junior High Scouts are at camp from 3:30 p. m. until 8:30 p. m. and cook their supper.

The theme for this year's camp is Hawaii and the girls are enjoying crafts and songs from our 50th state. On Friday night when the Intermediate Scouts will spend the night, they are planning a typical Hawaiian feast complete with roasted pig, fresh pineapple, etc.

TERRELL GOES TO FAA AT FORT WORTH

James F. Terrell, son of Mr. and Mrs. Sam Terrell of County Line, on June 6 will begin his duties with the Federal Aviation Agency at the Fort Worth headquarters. He will travel an 11-state area from Texas to Florida and north for the FAA. Young Terrell received his Bachelor of Science degree in electrical engineering from Texas Tech Monday night.

Local F.H.A. Chapter Changes Meeting Date

The regular meeting of the F.H.A. will be held Monday, June 6, instead of on June 15, as previously announced, because of a conflict in assignments.

Mrs. Cooke, sponsor, and Betty Ann Sterrett, president, urge all members to meet at the Sterrett home 712 2nd Street, at 2 p. m. on June 6 with a sack supper. Plans then call for a swimming party at the Abernathy Municipal Recreation Center.

The business meeting will be held to elect the advisory council parents for the coming year. All mothers are invited and the advisory council members are urged to attend.

BIRTHS

A son, Gary Don, was born May 27, to Mr. and Mrs. Don L. McKenzie. He weighed 6 pounds 15 ounces.

Mr. and Mrs. James Allen are parents of a daughter born May 24. She weighed 7 pounds 4 ounces.

Mrs. Jim Ned Gragg visited relatives in Houston last weekend.

Jack F. Jackson was on petty duty in 64th District Court, Plainview, last week.

Boys' Baseball Meeting Called

A meeting for the purpose of a workout for all Small Fry and Junior League baseball players is scheduled for 5:00 p. m. today (Thursday) at the baseball field just west of City Gln.

The local teams will play their first games of the season Monday, beginning at 3:30 p. m., when they travel to Hale County. Therefore, it is imperative that all members of these teams be present for the meeting today.

Boys the ages of 11, 12 and 13 are eligible for the Small Fry team, while the Junior League ages are 13 to 16 years of age.

CORN VARIETIES BEING TESTED
Sixteen varieties of corn were planted on April 21 in the 1960 corn variety test at the High Plains Research Foundation, Dr. E. H. Collister, chief agronomist, stated. Both white and yellow selections were included in the test.

MAPS AVAILABLE
Austin — Texas' Official Highway Travel Map, 1960 - style, is now available to the general public. Free copies of the big-colorful map may be obtained by writing the Texas Highway Department, Austin 14, or at the highway district offices and travel bureaus. County tax offices have map cards on hand for requesting copies of the map.

General Telephone Company Of The Southwest Gives Annual Report Recently

The greatest annual increase in number of telephones served was attained during 1959, according to the 1959 Annual Report recently released by General Telephone Company of the Southwest, which serves this community.
E. H. Danre, President, in his letter to shareholders and employees included in the report, states that over 20,500 telephones were added in the five state area of the company's operations, bringing the total telephones at the end of 1959 to 295,900. Ninety percent of the telephones served by the company were dial operated at the end of 1959.
Investment in telephone plant al-

so reached an all-time high of \$104,356,000 during 1959 for construction and installation of telephone equipment to keep pace with demands of the company's expanding area of operation.
The report also reveals that total operating revenue for 1959 were \$30,634,000, highest in the history of the company and were \$2,882,000 greater than in 1958. Net earnings available for dividend requirements for 1959 totaled \$3,897,000.
The report states that during 1959 operating taxes totaled \$6,112,600, an increase of \$843,400 over comparative 1958 figures. 1959 operating taxes per average main station amounted to \$28.28. Strong opposition to the continuance of the excise tax on local telephone service, which Congress voted to terminate June 30, 1960, was indicated in the report. In addition, the report stated that the company urged repeal of the excise tax on long distance calls and that telephone excise taxes be eliminated completely. "Telephone companies merely act as a collection agency for this tax and telephone customers are the only utility users who pay the Federal excise tax levied during World War II as a 'temporary tax,'" states the report.

Picture theme of the report is primarily growth and special equipment and services available to customers.
The report indicates that the company has budgeted during 1960 \$17,400,000 for construction which will expand and improve facilities. Construction plans include the conversion of 10 exchanges to dial operation. It is estimated that 97 percent of the 318,000 telephones expected to be in operation at the end of 1960 will be dial operated.

New Bulletin On Texas Cotton Production Out

College Station — Cotton is the most valuable cash crop in Texas, although it now ranks second in acreage to sorghum for grain. For the five years, 1951-56, the Texas cotton crop, including lint and seed, had an average yearly value of more than \$720,000,000. This was more than three times the combined value of wheat, sorghum grain and rice during the same period.

"Cotton Production in Texas," a new bulletin released jointly by the Texas Agricultural Experiment Station and Texas Agricultural Extension Service, discusses in detail virtually everything cotton producers should know about this important crop. Production practices, varieties, soil and climatic adaptation, preparation of land and seedbed, planting, cultivation, weed and insect control, and irrigation are a few of the many topics covered.
Trends in cotton production in the State is one of the most interesting features. The bulletin points out that since 1933 cotton production in Texas has been shifting from certain areas to others. A remarkable shift has been made to the extreme western, northwestern and southern portion, or to the Trans-Pecos, High Plains and Rio Grande Plain of Texas. These areas accounted for about

TO REPORT FOR SERVICE INDUCTION

The following named registrants are to report for induction on June 21 at 10 a.m., to meet at the Local Board Office, Room 2001, Weksler Building, 114 East 7th St., Plainview: Elmer Lyonel Prosser, Albert Edward Thompson, Gray Lee Wade and Elwyn Verne Ellis.
Milton Lee Sutton is to report for Physical Examination.

There is no profit in farm accidents. It is often hard to place a dollar value on a farm accident, points out the Texas Farm and Ranch Safety Council, because of the indirect as well as the direct cost which must be taken into account. But, they add, most accidents are preventable and farm profits can be increased by keeping accidents from happening.

12 percent of the acreage at the start of governmental control programs in 1933, but now have more than one-third of the acreage and more than half the total production. During the same period, the Blackland, Grand and Coast Prairies and the East Texas Timberlands experienced the greatest decline in percentage of planted acreage.

It may be obtained by writing the Agricultural Information Office, College Station, Texas. Ask for B-938.

Carpet Cleaner Makes Housework Much Easier
In the days of the kerosene lamp and the backyard pump - housewives relied on the old fashioned carpet beater to literally attack carpet soil by trying to pound it out in clouds of dust.
Toward the end of this marvelous century, perhaps there will be dust filtering machines in every home eliminating much of the soil that now settles on rugs and room furnishings.
Thanks to the advance already made in science and chemistry, it isn't necessary to wait for the new inventions. One of the wonderful products produced by the magic of chemistry is called Blue Lustre Carpet and Upholstery Cleaner. This new foam cleaner instantly brightens colors dulled by soil and its unique efficient cleaning action penetrates to the soil particles holding them in suspension for easy removal by vacuuming.
Once again old difficult household chores have become simple tasks. Blue Lustre helps a lot in making homework for the housewife easier. Blue Lustre is on sale in Abernathy at Arno Struve's Hardware & Dry Goods store.

"DIVINE HEALINGS"

BY ROY DEAN VERNER
Reading Time: 4 Minutes

There are accounts in both the Old and New Testaments where individuals have been cured of some disease or some crippled part of the body has been restored to normal functioning. Such cases as Naaman (II Kings 5), and the man who lay at the gate called Beautiful (Acts 3) illustrate this vividly. Those who believe the Bible to be inspired of God believe these events to have happened exactly as recorded. For one to disbelieve them is to deny the Bible as God's Word.

There are those living today, however, who believe such things still happen. Some will travel thousands of miles to hear and witness miracles at the hand of some so-called healer. Such men, however, are not healers, but are deceiving numerous people. Those who claim to be healed never were so crippled as those in the Old and New Testaments. For example this writer has watched a so-called healer on television. This man claimed to be able, through God's power, to heal those who were cripple. The only cases ever seen by this writer were those who could not be detected one way or the other. A person having cancer of the lungs would claim to be healed. Others being hard of hearing, those with a slight limp, or something of this nature were the only ones ever to be shown as being healed. New Testament miracles show the blind (completely blind—born blind) receiving their sight, the lame (for forty-two years) unable to walk as not only walking but picking up the bed and carrying it away. Limbs that were completely withered were restored as though nothing were ever wrong with it. These miracles of healing did not take place over a great period of time, but happened immediately. Such illustrations of healing are never seen by today's so-called healers. Numerous cases of fraud have been discovered by police in such affairs of so-called divine healings.

One does not have to examine these so-called miracles to know that such do not exist today. Paul explains in easily understood

terms that such miracles were to cease at the completion of the New Testament. The performing of miracles was one of the gifts of the Holy Spirit to Christians in the first century (I Cor. 12:9). Paul emphatically states that these gifts shall pass away when "that which is perfect is come" (I Cor. 13:8-10). "That which is perfect" does not refer to Christ because the original word with the article is neuter, and does not refer in any way to a person. If it did it would have been either masculine or feminine. Therefore, it refers to the New Testament which is the "Perfect Law of Liberty" (James 1:25). These miracles of healing were for the purpose of convincing others that the apostles and other men of God were teaching the truth. Since we have the New Testament we do not need the miracles. The Law of Christ in written form is sufficient.

Some think that God would have to work a miracle to answer a prayer, and others think that God does not answer a prayer. Both are wrong. God answers prayers; sometimes He says yes, sometimes, no, or wait a while. God is not so limited as to have to work a miracle to answer a prayer. He is omnipotent.

Only those who were divinely authorized were capable of performing miracles of healing. These miracles were always for the purpose of showing others that the workers of miracles were men of God. They were never performed simply for the purpose of aiding the person healed. Epaphroditus almost died of sickness while he was with Paul (Phil. 2:27-30). Paul was afraid he was going to die, but did not heal him. We know that Paul had this power as it had been demonstrated previously (Acts 13:9-11; Acts 16:18). Why did Paul not heal him? The answer is obvious; healings were for the purpose of confirming God's Word before it was in written form.

Miracles of healing have ceased! God's Word so teaches!

1959 Hale County Traffic Fatality Report Is Given

Plains counties, including Hale, contributed tragically to the 2,453 deaths in Texas traffic last year.

In presenting the 1959 "Motorcade" fact book recently, Col. Homer Garrison, Jr., Department of Public Safety director, pointed out that last year 15 out of every 1,000 Texans were injured in traffic accidents.

Death took only one holiday in the 365 days, then on Dec. 2 when no traffic fatalities were reported.

In 1959 eleven persons died in 9 fatal accidents in Hale County. A total of 163 was injured in 80 accidents and there were no injuries in 154 accidents. Total accidents were 238. Five of the fatalities were in Plainview and the others on highways and roads over the county.

Swisher had one fatal accident, Lamb 8 and Floyd 3. Lubbock County paced the northern section of the state in traffic deaths with 47. There were 198 persons injured in that county in 288 accidents.

The state's worst tragedy of the year was a two-car head-on collision in Hidalgo County Feb. 15 killing 10 persons which occurred not far from Alamo where the most disastrous traffic accident ever recorded took the lives of 29 persons in 1940.

The statistical report was prepared by department Statistician N. K. Woerner who kept records on more than 240-thousand accidents during the year. The traffic accidents occurred at the rate of one every 92 seconds; a person was injured every 4 minutes, a person was killed every 3 hours and 34 minutes.

SAVINGS BONDS SALES REPORT

April E and H Savings Bonds sales in Hale County totaled \$44,670 according to Mr. Mitchell, Chairman of the County Savings Bonds Committee.

Sales for the first four months of 1960 were \$326,800 which represents 36.3% of the county goal. Sales in Texas for the first four months were \$57,482,776 or 34.7% of its 1959 goal of \$165,500,000.

"An important part in assuring our Nation's safety and economic stability and growth is played by purchasers of United States Savings Bonds. Every buyer of a Savings Bond helps the strengthened resources on which so much depends, not only for us but for future generations of Americans," the Hale County Chairman said.

WELCOME TO MEETINGS

Abernathy city council meetings are open to the public," said Mayor Edgar O. Graham, "and we invite interested citizens to sit in on these sessions," he added. Regular sessions are held at 8 p. m. on the first Monday of each month in the city hall.

CORN VARIETIES BEING TESTED

Sixteen varieties of corn were planted on April 21 in the 1960 corn variety test at the High Plains Research Foundation, Dr. E. H. Collister, chief agronomist, stated. Both white and yellow selections were included in the test.

MAPS AVAILABLE

Austin — Texas' Official Highway Travel Map, 1960 - style, is now available to the general public. Free copies of the big-colorful map may be obtained by writing the Texas Highway Department, Austin 14, or at the highway district offices and travel bureaus. County tax offices have map cards on hand for requesting copies of the map.

General Telephone Company Of The Southwest Gives Annual Report Recently

The greatest annual increase in number of telephones served was attained during 1959, according to the 1959 Annual Report recently released by General Telephone Company of the Southwest, which serves this community.

E. H. Danre, President, in his letter to shareowners and employees included in the report, states that over 20,500 telephones were added in the five state area of the company's operations, bringing the total telephones at the end of 1959 to 295,900. Ninety percent of the telephones served by the company were dial operated at the end of 1959.

New Bulletin On Texas Cotton Production Out

College Station — Cotton is the most valuable cash crop in Texas, although it now ranks second in acreage to sorghum for grain. For the five years, 1951-56, the Texas cotton crop, including lint and seed, had an average yearly value of more than \$720,000,000. This was more than three times the combined value of wheat, sorghum grain and rice during the same period.

"Cotton Production in Texas," a new bulletin released jointly by the Texas Agricultural Experiment Station and Texas Agricultural Extension Service, discusses in detail virtually everything cotton producers should know about this important crop. Production practices, varieties, soil and climatic adaptation, preparation of land and seedbed, planting, cultivation, weed and insect control, and irrigation are a few of the many topics covered.

TO REPORT FOR SERVICE INDUCTION

The following named registrants are to report for induction on June 21 at 10 a. m., to meet at the Local Board Office, Room 2001, Wokler Building, 114 East 7th St., Plainview: Elmer Lyonel Prosser, Albert Edward Thompson, Gray Lee Wade and Elwyn Verne Ellis.

Milton Lee Sutton is to report for Physical Examination.

There is no profit in farm accidents. It is often hard to place a dollar value on a farm accident, points out the Texas Farm and Ranch Safety Council, because of the indirect as well as the direct cost which must be taken into account. But, they add, most accidents are preventable and farm profits can be increased by keeping accidents from happening.

12 percent of the acreage at the start of governmental control programs in 1933, but now have more than one-third of the acreage and more than half the total production. During the same period, the Blackland, Grand and Coast Prairies, and the East Texas Timberlands experienced the greatest decline in percentage of planted acreage.

It may be obtained by writing the Agricultural Information Office, College Station, Texas. Ask for B-938.

CHAR-LYNN POWER STEERING

Great news for farmers everywhere

For All Self-Propelled Agricultural Equipment

- No Cylinders - Brackets or Bulky Overhang
- Guaranteed
- Fits ALL Tractors back to 1945
- Lightweight
- Fits ALL Popular Tractors
- Steering Shaft mounted
- Positive Control even if Power Fails
- Easy to Install
- Does NOT require extra space for mounting
- Low Cost
- Cuts Fatigue - Adds Safety
- Trouble Free

INSTALL **CHAR-LYNN POWER STEERING** IN ONLY **3 HOURS**

A MIDGET IN SIZE! A GIANT IN POWER!

Smaller than a carton of Cigarettes. Neat compact design allows this unit to be mounted anywhere on the steering shaft. Causes no bother or interference to operator, strain on or change in steering system.

so reached an all-time high of \$104,356,000 during 1959 for construction and installation of telephone equipment to keep pace with demands of operation.

The report also reveals that total operating revenue for 1959 were \$30,634,000, highest in the history of the company and were \$2,882,000 greater than in 1958. Net earnings available for dividend requirements for 1959 totaled \$3,897,000.

The report states that during 1959 operating taxes totaled \$6,112,600, an increase of \$843,400 over comparative 1958 figures. 1959 operating taxes per average main station amounted to \$28.28. Strong opposition to the continuance of the excise tax on local telephone service, which Congress voted to terminate June 30, 1960, was indicated in the report. In addition, the report stated that the company urged repeal of the excise tax on long distance calls and that telephone excise taxes are unjust and should be eliminated completely. "Telephone companies merely act as a collection agency for this tax and telephone customers are the only utility users who pay the Federal excise tax levied during World War II as a 'temporary tax,'" states the report.

Picture theme of the report is primarily growth and special equipment and services available to customers.

The report indicates that the company has budgeted during 1960 \$17,400,000 for construction which will expand and improve facilities. Construction plans include the conversion of 10 exchanges to dial operation. It is estimated that 97 percent of the 318,000 telephones expected to be in operation at the end of 1960 will be dial operated.

Carpet Cleaner Makes Housework Much Easier

In the days of the kerosene lamp and the backyard pump, housewives relied on the old-fashioned carpet beater to literally attack carpet soil by trying to pound it out in clouds of dust.

Toward the end of this marvelous century, perhaps there will be dust filtering machines in every home eliminating much of the soil that now settles on rugs and room furnishings.

Thanks to the advance already made in science and chemistry, it isn't necessary to wait for the new inventions. One of the wonderful products produced by the magic of chemistry is called Blue Lustre Carpet and Upholstery Cleaner. This new foam cleaner instantly brightens colors dulled by soil and its unique efficient cleaning action penetrates to the soil particles holding them in suspension for easy removal by vacuuming.

Once again old difficult household chores have become simple tasks. Blue Lustre helps a lot in making homework for the housewife easier. Blue Lustre is on sale in Abernathy at Arno Struve's Hardware & Dry Goods store.

"DIVINE HEALINGS"

BY ROY DEAN VERNER
Reading Time: 4 Minutes

There are accounts in both the Old and New Testaments where individuals have been cured of some disease or some crippled part of the body has been restored to normal functioning. Such cases as Naaman (II Kings 5), and the man who lay at the gate called Beautiful (Acts 3) illustrate this vividly. Those who believe the Bible to be inspired of God believe these events to have happened exactly as recorded. For one to disbelieve them is to deny the Bible as God's Word.

There are those living today, however, who believe such things still happen. Some will travel thousands of miles to hear and witness miracles at the hand of some so-called healer. Such men, however, are not healers, but are deceiving numerous people. Those who claim to be healed never were so crippled as those in the Old and New Testaments. For example this writer has watched a so-called healer on television. This man claimed to be able, through God's power, to heal those who were crippled. The only cases ever seen by this writer were those who could not be detected one way or the other. A person having cancer of the lungs would claim to be healed. Others being hard of hearing, those with a slight limp, or something of this nature were the only ones ever to be shown as being healed. New Testament miracles show the blind (completely blind—born blind) receiving their sight, the lame (for forty-two years) unable to walk as not only walking but picking up the bed and carrying it away. Limbs that were completely withered were restored as though nothing were ever wrong with it. These miracles of healing did not take place over a great period of time, but happened immediately. Such illustrations of healing are never seen by today's so-called healers. Numerous cases of fraud have been discovered by police in such affairs of so-called divine healings.

One does not have to examine these so-called miracles to know that such do not exist today. Paul explains in easily understood

terms that such miracles were to cease at the completion of the New Testament. The performing of miracles was one of the gifts of the Holy Spirit to Christians in the first century (I Cor. 12:9). Paul emphatically states that these gifts shall pass away when "that which is perfect is come" (I Cor. 13:8-10). "That which is perfect" does not refer to Christ because the original word with the article is neuter, and does not refer in any way to a person. If it did it would have been either masculine or feminine. Therefore, it refers to the New Testament which is the "Perfect Law of Liberty" (James 1:25). These miracles of healing were for the purpose of convincing others that the apostles and other men of God were teaching the truth. Since we have the New Testament we do not need the miracles. The Law of Christ in written form is sufficient.

Some think that God would have to work a miracle to answer a prayer, and others think that God does not answer a prayer. Both are wrong. God answers prayers; sometimes He says yes, sometimes, no, or wait a while. God is not so limited as to have to work a miracle to answer a prayer. He is omnipotent.

Only those who were divinely authorized were capable of performing miracles of healing. These miracles were always for the purpose of showing others that the workers of miracles were men of God. They were never performed simply for the purpose of aiding the person healed. Epaphroditus almost died of sickness while he was with Paul (Phil. 2:27-30). Paul was afraid he was going to die, but did not heal him. We know that Paul had this power as it had been demonstrated previously (Acts 13:9-11; Acts 16:18). Why did Paul not heal him? The answer is obvious; healings were for the purpose of confirming God's Word before it was in written form.

Miracles of healing have ceased! God's Word so teaches!

1959 Hale County Traffic Fatality Report Is Given

Plains counties, including Hale, contributed tragically to the 2,453 deaths in Texas traffic last year.

In presenting the 1959 "Motorcade" fact book recently, Col. Homer Garrison, Jr., Department of Public Safety director, pointed out that last year 15 out of every 1,000 Texans were injured in traffic accidents.

Death took only one holiday in the 365 days, then on Dec. 2 when no traffic fatalities were reported. In 1959 eleven persons died in 9 fatal accidents in Hale County. A total of 163 was injured in 80 accidents and there were no injuries in 154 accidents. Total accidents was 238. Five of the fatalities were in Plainview and the others on highways and roads over the county.

Swisher had one fatal accident, Lamb 8 and Floyd 3. Lubbock County paced the northern section of the state in traffic deaths with 47. There were 198 persons injured in that county in 288 accidents.

The state's worst tragedy of the year was a two-car head-on collision in Hidalgo County Feb. 15 killing 10 persons which occurred not far from Alamo where the most disastrous traffic accident ever recorded took the lives of 29 persons in 1949.

The statistical report was prepared by department Statistician N. K. Woerner who kept records on more than 340-thousand accidents during the year. The traffic accidents occurred at the rate of one every 92 seconds; a person was injured every 4 minutes, a person was killed every 3 hours and 34 minutes.

SAVINGS BONDS SALES REPORT

April E and H Savings Bonds sales in Hale County totaled \$44,670 according to Mr. Mitchell, Chairman of the County Savings Bonds Committee.

Sales for the first four months of 1960 were \$326,800 which represents 36.3% of the county goal. Sales in Texas for the first four months were \$57,482,776 or 34.7% of its 1959 goal of \$165,500,000.

"An important part in assuring our Nation's safety and economic stability and growth is played by purchasers of United States Savings Bonds. Every buyer of a Savings Bond helps the strengthened resources on which so much depends, not only for us but for future generations of Americans," the Hale County Chairman said.

TALK — In Print

(Continued From Page 1)

in an apartment at the rear of Mrs. R. Heggen's home. Their younger daughter is 16, and they have a son who is 13.

Had we not been so eager-beaver to get to San Antonio for the first night stop, we could have visited with Mr. and Mrs. Doyle Smith of Abernathy who were at their 800-acre ranch which they bought earlier this year between Junction and Kerrville. Had we known they were at the ranch we would have stopped by. The country through there is beautiful. The Smiths could make a mint of money operating a guest ranch (or dude ranch). It's an easy day's drive to their place, and once Abernathians started vacationing or weekending there they would have repeat customers.

While checking in at a motel at San Antonio, a tall handsome fellow of near 30 years old came into the office. Having noticed the "Abernathy" on our car, he asked if we were the ones from Abernathy. He then asked if we knew

Andy Reid. Our affirmative answer brought a flow of compliments for Andy from the young stranger. He ended his complimentary remarks with this statement: "Mr. Reid is one of the most honest men I ever dealt with." I took the young fellow's name and gave it to Andy when we returned home. Andy is taxing his memory to recall any dealings he ever had with the man who praised him so highly. "Maybe I did, but I don't remember the name or the nature of the dealings off-hand," Andy said.

Farmers Gragg and Edwards were especially impressed with the fertile farming area through which we drove from San Antonio to the Gulf Coast at Aransas Pass. We saw fine cotton and grain crops in that area. From Aransas Pass we crossed over to Port Aransas and drove down Mustang Island, crossing back to the mainland at Corpus Christi, a city of beautiful homes, many of which overlook the bay.

Starting at Corpus Christi, we helped initiate three new motels. We stayed a night at the Sandy Shores Motor Hotel, more than a week before they held their formal opening. Our rooms were

conveniently located some 100 feet from the bay beach. The next day's drive was down US 77, through the King Ranch country to Port Isabel. From there we crossed over to Padre Island, staying two nights at new Sea Island Resort Hotel, which held its formal opening for the press one of the nights we were there. A Gulf storm nearly wrecked their party for the press. High winds lashed rain and sand, stuccoing the plate glass which attendants had spent all day polishing. Wind blew a chair through a plate glass in the lobby. Natives considered it a pretty rough storm. Except for the wild sounds from the Gulf waves, it was not much more than a good sized West Texas sandstorm to us. The first night we stayed on Padre Island we drove over to Brownsville and crossed the Rio Grande into Matamoros for dinner at the Texas Restaurant. Dinner for six was about \$12 and they brought out enough food for a hungry high school football squad. Our second Padre Island night was spent at the hotel's press party.

The next day we drove through the Lower Rio Grande Valley, visited Harlow and the Heggens and went on to Laredo, where we stayed two nights . . . in the not-yet-completed section of the Holiday-Inn. We liked to stay at new motels, but that one was almost too new. The furniture was stacked in the rooms and we had to wait until attendants arranged it and made up the beds before we moved it. Drapes had not been placed and the large plate glass windows were covered with brown paper.

Main attraction there was the bull fight in Nuevo Laredo. More exciting than the bull fight were our rides in the Mexican taxis. If you want to live dangerously, you can in a Mexican taxi in Nuevo Laredo.

Driving home from Laredo, we came through John Nance Garner's Uvalde, an attractive town of some 10,000 population. From there through Leakey and Junction is a beautiful hill country drive.

Texas is rich in tourist attractions and a nation-wide campaign is to be staged to advertise them. Located as we are, most people from this area vacation in New Mexico and Colorado, which is fine for the hot summer months. Fall and mid-spring are ideal times to take a trip in Texas, or a winter vacation in the Lower Rio Grande Valley. See Texas First . . . it's a pretty wonderful state, vacation-wise, too.

County Line Community Sets Annual Rabbit Hunt Saturday

M. H. Goodrich, manager of County Line Co-op Gins, announced plans for the Third Annual County Line Community Rabbit Hunt. The event, staged more as a sport-saving measure than as a crop-savings measure, will be held Saturday morning, June 4. Participants will leave from the County Line Co-op Gins' office at 8 a. m. and will hunt until 12 o'clock noon.

Goodrich invites everyone who would like to participate in the hunt to be at the gin office by 8 a. m. Hunters are to bring their own guns and shells, no larger than No. 6 shot.

REV. H. B. COGGIN RETURNS AS PASTOR OF METHODIST CHURCH

The Rev. H. B. Coggin was returned to the pastorate of Abernathy First Methodist Church by the Northwest Texas Methodist Conference held last week in Amarillo. He is starting his fourth year here in that capacity.

George Ragland represented the local church at the Amarillo conference. Ragland, who is rural route one mail carrier here, has been representing Abernathy First Methodist Church at Northwest Texas Methodist Conferences for about 25 years.

The Rev. Robert H. Knight was returned to the Lakeview-Becton Methodist pastorate by the conference last week.

4-H CLUB NEWS

Hale County 4-H club boys are busy preparing for their entries in this year's county 4-H cotton production contest. Meetings have already been held in Hale Center, Edmonson, Petersburg and Halfway for the assistant county agent to discuss the cotton program with the 4-H boys and the crops leaders.

The contest for 1960 is sponsored by the Hale County Farm Bureau. Final rules of the program will be drawn up by the county agent and a committee from the County Farm Bureau.

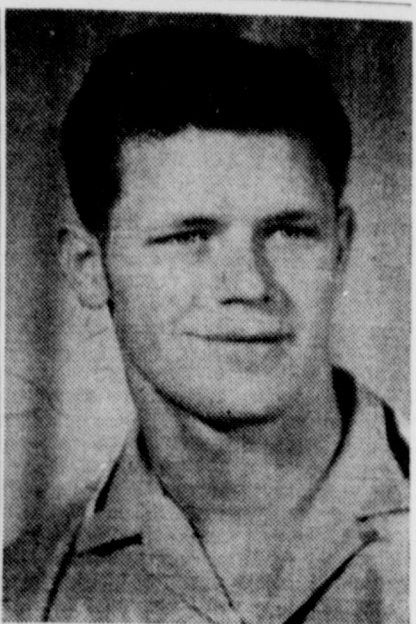

Basically the program is the same as it has been in the past. Winners will be determined from the yield basis alone and a boy must own at least one-half interest in five acres of cotton, which will be his entry in the contest. June 20th has been set as the deadline for entries to be accepted in the contest. There will be a junior division and a senior division and an overall champion for the county named.

B. F. Yeates, assistant county agricultural agent, said the county champion will compete in district contest for district honors. District contest and awards program is sponsored by the Plains Cooperative Oil Mill of Lubbock.

Boys must keep complete records on the contest plot and must

KENNETH TURNER

DURWOOD KNOWLES

JOIN NAVY—Durwood Knowles and Kenneth Turner left Monday, May 16, for Albuquerque, N. M., and were inducted into the U. S. Navy. They arrived at the Naval Training Station, San Diego, Calif., May 19. They will have nine weeks of recruit training then will get a short furlough and will come home about July 25, after which they will be assigned to some branch of the service.

turn this record into the crops leaders along with the gin tickets from the cotton produced on the contest plot and these gin tickets must have the boy's name on them.

Other communities throughout the county will hold meetings in the future to those already held. Boys in any of the communities who are interested in this program and have not already attended one of the meetings, should contact the crops leader or the county agents office in regard to the particulars of the contest.

Other crops contests discussed for the boys to enter are the Texas Hybrid Grain Sorghum Contest and the Hybrid Corn Production Contest.

Durwood Knowles is the son of Mr. and Mrs. Richard Knowles of Abernathy. Kenneth Turner is the son of Mr. and Mrs. Jake Turner also of Abernathy. According to present information Knowles, who is seventeen, will finish his tour of duty and be free to re-enlist or come back to civilian life just before he turns twenty-one years of age. Kenneth Turner, however, will serve approximately four years, as he is now twenty, and will be a little over twenty-four when completing his enlistment. The boys left together and will perhaps be together at least until finishing their recruit training. Their address is, Company 197, U. S. Navy Training Center, San Diego 33, Calif.

PROGRESSIVE BUSINESS AND CIVIC-MINDED PEOPLE OF LUBBOCK AND VICINITY

This department has been worked up largely as a reflection of public opinion. No person has written of themselves or their business. All articles have been compiled by a representative of The Abernathy Weekly Review as he saw conditions. These people are all leaders in their various lines of endeavor and the co-operation of those citizens in Lubbock who helped make this department possible is sincerely appreciated.

OTIS A. ROGERS

There are a number of business and professional men in Lubbock who have gained recognition for their progressive, and a well-known insurance man, who belongs in this category is Otis A. Rogers of the Farm Bureau Insurance Company, located at 6420 Caprock Drive, whose fair dealings with many of our readers has earned for him a host of friends and policy holders throughout this area.

He is well established in the forefront of the business and civic life of his city, and the ethical manner in which he has conducted his business affairs is but one of the reasons for his out-standing success.

In addition to his insurance activities, Mr. Rogers has also accepted his share of responsibility in aiding civic projects. As a result of the combined efforts of men like him, Lubbock is firmly established in the minds of the people as the logical business center for this section of West Texas.

J. L. "JOE" CROSONO

J. L. "Joe" Crosono, who just recently assumed the operation and management of Joe Crosono's Standard Service, located at 19th & Frankfort on the Levelland Highway, quite readily demonstrated his unusual ability by his quickness to appreciate the obligations and responsibility of his new endeavor to conduct his affairs accordingly.

Although he has been operating the business for a comparatively short time, he has already made many new friends and satisfied customers for his Chevron Station.

Mr. Crosono is an active, energetic man who is sincere and friendly personality and desire to be of service is rapidly earning a place for him in this district. He has already taken an interest in community activities, and in due course of time will assume his full share of civic responsibilities.

JO L. HARDIN

Jo L. Hardin of Stinson's Cleaners, has a well earned reputation for progressiveness because he has consistently forged ahead in his business, never letting up in his efforts to make the service he renders to the people more valuable. This invariable policy has made Stinson's Cleaners outstanding in its field, a fact that is well known to the public throughout this entire area.

But Mr. Hardin has accomplished much more than just making a success of his business and private affairs, and we take this opportunity to pay tribute to him for devoting what time he could spare to the general welfare, not only to the city, but this entire district as well.

ALLEN E. WATSON

In paying tribute to some of the more progressive business and professional men of Lubbock, we would be remiss in our duty should we fail to include Allen E. Watson of Watson's Auto Service, which is now located at 1701 Avenue H, whose business ability is no greater than the "know-how" and professional skill which has contributed to his well earned success in the automobile and truck repair and maintenance business.

He has also contributed generously to the welfare of the city and the community for many miles around. And his civic spirit is evidenced by the many services which he has performed, and will continue to perform in the interest of the people as a whole.

HORACE H. HENRY

It is because of the unflinching optimism and faith which he so consistently displays toward the future of Lubbock and vicinity that we are prompted to call the attention of our readers to the fine service which Horace H. Henry, the manager of the Aubrey H. Vaughan Trucking Company, located in the 1300 block on 50th

Street, performs in the successful conduct of his business.

Mr. Henry is an aggressive and resourceful personality whose progressive policies have earned for him a widespread reputation as a business man of more than average ability; and his apparent willingness to devote some of that ability to the promotion of civic activities further enhances his value to the city.

The safety and efficiency of the operations of the Aubrey H. Vaughan Trucking Company, reflecting as it does the executive ability of this man, has earned for the firm a well deserved popularity among the people they serve.

We are glad to give Horace H. Henry the credit he so well deserves for his achievements, and to wish for him a continued successful career as one of Lubbock's more progressive business men.

NEIL DeLAVAN

Good motels and tourist courts are indispensable to the progress and development of a growing city such as Lubbock. And the Townhouse Motel, located at 4405 Avenue Q, combining the best features of both, has accommodated a great many tourists and business men in a manner that assures them of the continued patronage and good will of the motoring public.

The management of the Townhouse Motel has maintained an ideal of service which is thoroughly exemplified by the manner in which every need of the traveling motorist has been anticipated and prepared for. Nothing is taken for granted; nothing is forgotten, and hospitality and service is always their first and last consideration.

Much of the credit for this splendid reputation of this modern drive-in motel is due to the executive ability of Neil DeLavan, whose untiring efforts, foresight, and careful attention to detail, have maintained a standard of hospitality and service which would be difficult to surpass. It is a pleasure to publish these few words of praise about the Townhouse Motel, and its friendly operator, Neil DeLavan.

LEONA SANDERSON

To serve the public honestly, efficiently, and cheerfully is the basic foundation many progressive business men and women of Lubbock have found to be the shortest route to success. In making this statement, the person we have in mind is Leona Sanderson of the Two K Coffee Shop, located at 4020 Avenue Q. The popularity and patronage enjoyed by her many services accentuates the ideals of courtesy and efficiency which she has so consistently applied in the management of the business, and in the servicing of its customers.

The conduct of such businesses, and the people who operate them have done much to make Lubbock the business center for many miles around, and it is fitting that we give credit where credit is due to such women as Mrs. Sanderson for her part in the onward progress of the city. In so doing, we are merely putting into words the opinions of those who know her.

Leona Sanderson has earned her success by the method in which she has served the public, and accepted both civic and business responsibilities, and we wish her every success in the future.

W. A. VINSON

In critical times such as these, it takes business men of more than average ability to carry on their operations successfully. In making this statement the man we have in mind is one of Lubbock's more dependable tire sales, service and repair dealers, W. A. Vinson of the Vinson Tire Shop, located at 2712 Avenue H, who has a wide circle of personal friends and satisfied customers scattered throughout this entire district—many of whom reside in our own community.

His contagious optimism and freely expressed belief in the assured future prosperity of the people of Lubbock and its metropolitan trading area, are characteristics which are to be appreciated in a progressive business man. He has always taken an interest in community affairs, and has shown a willingness to shoulder his share of the civic load.

It is men like Mr. Vinson who, because of the successful conduct of their business and private affairs, and their willingness to contribute to the public good, who are wholly deserving of a few words of commendation. It is a pleasure to pay him this brief, but sincere tribute.

J. F. PARSONS

It is appropriate that we include in this review of progressive Lubbock business men, J. F. Parsons of the J. F. Parsons Wholesale Company, who has many friends and associates living in the rural areas outside the city. Moreover he is a man who not only has the reputation of being progressive, but also the added one of being a willing supporter of many community affairs.

Aside from his business activities, Mr. Parsons has actively

shown an interest in the civic betterment and progress of the city, and has backed up his interest by his contributions to many projects which have benefited Lubbock and the surrounding trade area. He is a good and loyal citizen, and the full measure of his loyalty is most apparent because of his willingness to aid community activities.

His help along these lines has made of J. F. Parsons an example of the type of man we all appreciate. We congratulate and extend to him on behalf of all citizens interested in better business and civic progress, sincere appreciation for his contributions to the general welfare of Lubbock and vicinity.

HAROLD D. RINEHART

To be a consistent and persistent booster of any community often takes courage and plenty of optimism.

It is because of his unflinching faith in the future of Lubbock and the surrounding country, and his unflinching efforts to promote its development, that Harold D. Rinehart is selected now for this brief tribute.

Mr. Rinehart has proved very ably that he is a restaurant operator of unusual ability, for it is largely due to his ideals of service, coupled with a determination to serve only the very best of food that the Toddle Houses hold their high position in the public's favor. And his personality and energy in directing the operations of the business are important factors in his out-standing success.

We are glad to pay tribute to Harold Rinehart, and to point out to our readers that his is the guiding influence responsible for the splendid service and delicious foods, served in a delightful atmosphere, to be had at the three Toddle Houses located at 2245 19th, 2859 34th, and 605 College, in Lubbock.

JOHN E. TAYLOR

Because this is a period of growth and expansion for Lubbock, those progressive business men who had the foresight and ability to lay their plans so as to be able to take advantage of those conditions, are entitled to more than ordinary acclaim. We are therefore, glad to pay tribute to John E. Taylor of the West Texas Bowling Supplies, for he has become a well known figure in the business and recreational life of the city.

Mr. Taylor's persistent optimism and steadfast belief in the continued future prosperity of the people of Lubbock and vicinity are characteristics which are deserving of our highest praise. John Taylor has also always shown a willingness to do his part in civic advancement, and has contributed his bit, in one form or another, to projects promoted for the welfare of the city. We believe that a business man of this kind is entitled to our sincere praise, both because he has achieved success in his private affairs, and because he is willing to contribute to the public good.

A. C. WASMUS

One of the more progressive business men of Lubbock, and a man who deserves the respect and good will of a great many residents of the city is capable, friendly, A. C. Wasmus of the A. C. Wasmus Plumbing Company, located at 3419 23rd Street, whose wide knowledge and long experience in the plumbing and heating business has raised him into a position of prominence in his line.

It is because of this that the A. C. Wasmus Plumbing Company has earned a reputation for reliability second to none. Mr. Wasmus is also civic-minded and has always been ready to contribute his time and energy to any plan which promises to benefit this entire district. And the people of Lubbock may regard with particular satisfaction the many services which he has performed for the community in the interest of progress and civic betterment.

We urge our readers to look to A. C. Wasmus as a progressive business man of whom we may well be proud. His devotion to the city has been constant, and his achievements well merited. We wish for him further success.

ETHRICH H. AND NELL ROGERS

Ethrich H. and Nell Rogers of the R & S Flower Shop, located at 2407 19th, are two of those progressive type of citizens upon whom the community depend a great deal for leadership in business or other matters. They are also civic-minded and have, in the past, and no doubt will continue in the future to give more of their time and energy for the welfare of others than themselves.

They are the kind of people who make friends, and friendships once formed by them are never broken by an unfriendly act on their part, and they spare no efforts in order that their services to the surrounding area shall be more dependable.

Mr. and Mrs. Rogers have never been known to inject themselves into a situation for the

mere purpose of gaining publicity. However, they proceed in a calm and unostentatious manner, and accomplish their objectives with a quiet dignity.

We do not hesitate to recommend Nell and Ethrich Rogers to our readers as good examples of the more progressive type of business people who have aided in the growth and development of Lubbock and the surrounding country.

JACK E. WALSH

In compiling this review of progressive Lubbock business men, we have endeavored to select those citizens who, by the manner in which they have conducted themselves and their businesses, have earned for them positions of leadership in their various fields of activities. Such a man is Jack E. Walsh of the Walsh Food Service, now located at 1908 North Ash, who is well known, and has many friends and business associates throughout this entire district.

Mr. Walsh's main interests have not been solely confined to his own business and private affairs, but have also included his contributions in one form or another to those projects of a civic nature which come within the scope of his activities.

Jack Walsh is a man of wide experience whose exploits in the business and commercial life of Lubbock and vicinity merit more than a passing attention, and the writer is privileged to pay this brief tribute to a man who well deserves more credit than is accorded him here.

E. C. McALLISTER

It is a well-known fact that a man's true character must come through in his work; whether in business or professional activities or in public life. So when a man conducts himself in such a manner as to cause the public to recognize in him certain qualities, over and above the average, he is deserving of a few words of praise. Such a personality is E. C. McAllister of the United Aluminum Products Company, now located at 1316 9th Street, a firm that specializes in the aluminum siding business.

In addition to being one of the city's more dependable business men, Mr. McAllister was never a man to shirk his civic duties. More than that, he enters cheerfully and with enthusiasm and optimism into those civic affairs in which he has time to take a part. And seldom does he fail to find time to do his share.

E. C. McAllister deserves his share of credit for being one of those progressive citizens of Lubbock who has contributed so substantially to the onward progress of the city. It is a pleasure to include him in this group.

E. J. "JACK" FINNIGAN

It is fitting in this review of progressive Lubbock business men that we acquaint our readers with the man to be credited with having maintained the U S Electrical Motors Incorporated in the enviable position it holds in the business and industrial life of this area. That personality is E. J. "Jack" Finnigan, whose genius for organization and for converting new ideas into actual deeds has played a vital part in the distinctive reputation which the firm now enjoys throughout the entire district.

Mr. Finnigan has found time, in addition to his business interests, to give thought and energy to community projects. He is a steadfastly devoted to the best interests of the city. He has been successful in his own business, and in the promotion of the general welfare of the community.

We are glad to pay this brief tribute to him and to say that this district owes much to the many benefits which "Jack" Finnigan and the U S Electrical Motors Incorporated have rendered to the people throughout this entire area.

WAYNE HALLMAN

A drive-in restaurant operator of Lubbock who has based his success upon the belief that the public will appreciate good food, well prepared and appetizingly served, is Wayne Hallman of Wayne's Whirlwind Drive-In, located at 707 Amarillo Highway, whose many friends and customers by their daily patronage of this popular eating place, attest to the soundness of his policy.

It is not only because of the successful management of his business that Mr. Hallman has come to be recognized as an asset to the community but it is also because of his policy of looking ahead, and endeavoring to sponsor, or take part in those community activities which will in some manner, benefit the city of Lubbock and the people as a whole.

He is another of those men who has shown his appreciation for his success by a willingness to contribute of his time and efforts to the promotion of community projects. It is men such as Wayne Hallman whom we are privileged to include in this review, and to pub-

licly give him due credit for his success in business and civic affairs.

VERA HAMILTON

A city grows and prospers by reason of the public-spirited men and women who take an active interest in its development. Lubbock has its share of these progressive and civic-minded people, and one who is deserving of recognition is friendly, likeable, Vera Hamilton of Vera's Sportswear, located at 3307 Akron.

Her business ability, coupled with a sense of obligation to the public have been major factors in maintaining Vera's Sportswear in a position of leadership throughout this entire area. She not only in her business activities but also in her attention to civic duty assumed an active part in community affairs.

Mrs. Hamilton has always been ready and willing to contribute her time and energy to the promotion of any project promising to benefit the community as a whole. She has often sacrificed personal interests to be of assistance to the city, and her efforts are deserving of commendation and support. We congratulate Vera Hamilton on her past achievements which, in our opinion, indicate a similar successful career in the years ahead.

CLINTON M. BRANNON

In bestowing credit upon some of those progressive business men of Lubbock, who in one way or another, have contributed their bit to improve both business and civic conditions, we wish to publish a few words about Clinton M. Brannon of Brannon's Humble Service, located on the Clovis Road and Avenue U.

Mr. Brannon has set a standard for himself and the operation of the business that, under present existing conditions, has been very difficult to maintain. However, that he has done so is proved by the large volume of business which his Humble Service Station continues to handle, much of which is due to his unceasing attention to detail and his ability to cope with new and unexpected problems.

Clinton Brannon is also civic-minded and has, when asked, cheerfully cooperated on those activities to which he has been able to lend assistance. He more than deserves the respect and good will which he has earned, and we and his friends are confident that he will continue to maintain his usual integrity and high standards.

JOE C. HOPPER

It isn't the size or volume of a man's business which determines its value to the community in which he lives. But rather by the manner in which it is conducted. Which, to a greater or lesser degree, reflects the personality and character of the individual.

The value of Joe C. Hopper's business to his city is a reflection of his progressiveness, and a determination to render the utmost in service, a policy which has caused the U-Drive-In Cleaners & Laundry to be so well thought of and so widely patronized by the people of Lubbock and the surrounding area.

That same progressiveness and ability which has made him so successful in his own business has also fitted Mr. Hopper to be of assistance on community projects and public drives. Furthermore, he does so cheerfully and with a friendly spirit of cooperation that is always more than welcome.

It is a pleasure to include Joe Hopper in this Lubbock review and to wish him further success in his dry cleaning and laundry business.

(The preceding items are paid advertising).

DESIGNATE C.R.O.P. WHEAT NOW

The wheat harvest will soon be in full swing. This is the time most wheat growers designate how much wheat they intend to contribute to Christian Rural Overseas Program, commonly known as C.R.O.P.

The need for food to destitute refugees and others overseas is greater than ever. The communist threat continues. C.R.O.P., the Christian approach to overseas relief, has done much to aid these people who have escaped into free countries.

Wheat farmers desiring to assist the overseas needy are urged to contact their elevators managers before or at the time wheat is delivered. The elevators will credit CROP with the number of bushels of wheat you designate, before it goes into a government loan. Your County CROP Chairman will assist your local commodity chairman of CROP make arrangements for overseas shipment. Commodity transfer blanks are furnished by CROP to all elevators and county officers of CROP. These blanks can also be secured at the Plains CROP office, 118 Main Street, Panhandle, Texas.

Lakeview

News

Mr. and Mrs. Roger Castleberry and family of Oklahoma City are visiting in the homes of his grandparents, Mr. and Mrs. S. P. Castleberry and Mrs. C. S. Smith.

Rev. R. H. Knight who has served the Becton-Lakeview churches two years was returned here for another year. Mr. and Mrs. Leon Manley and children of Canyon visited her parents, Mr. and Mrs. Herbert Watson, Leon, who graduated from W.T.S.C., Canyon, last week has accepted a coaching job in the Lamesa school and will move there soon.

Vacation Bible School started Monday at 9 a. m. at the Lakeview Baptist Church, with Mrs. Dale Arthur as Superintendent, and Mrs. Wayne Sistrunk in charge of the primary Dept.; Mrs. Bud Bryce, the Nursery Dept.; Mrs. Lee Roy Waters, the Beginners Dept.; and Mrs. Sherman Overstreet, the Junior Dept. The school will continue until Friday

BETTY ANN STERRETT

To Attend Calif. Camp

Betty Ann Sterrett has received word of her selection to attend the Counselor In Training Unit of Skyland Ranch in California. She will spend four weeks with fifteen other Senior Girl Scouts learning camp crafts and songs and practicing outdoor skills.

Skyland Ranch is an established camp owned and operated by the Long Beach Area Council of Girl Scouts. It is located in the San Jacinto mountains about 12 miles from Banning, California.

Martha Benn is a District Director for the Long Beach Area Council and helped Betty Ann in making application for the C.I.T. Unit. Dates for the session are August 2-August 30.

and the classes will be held from 9 to 11:30 a. m. each day. Mr. and Mrs. Loyd Goldston attended the Old Settlers reunion and rode in the parade at Floydada Saturday.

Mike Loyd is with a group of Boy Scouts of Petersburg on a fishing trip to Lake Stamford this week.

W. A. Waters, Mr. and Mrs. Lee Roy Waters and James, Mr. and Mrs. Dale Arthur, Mr. and Mrs. Henry Scarborough and Charles and David attended a Waters Family reunion at Mackenzie Park Sunday. About 50 relatives attended.

Boy Scout Camps To Open

June 5th will mark the opening of the Summer Camp Season for the Scouts and Scouters of the South Plains Council, Boy Scouts of America.

Camp Post located near Post, Texas will open June 5th. Camp Tres Ritos near Las Vegas, New Mexico will open June 12th. Both camps will be in operation for four weeks for regular summer camp then the remainder of the summer for Troop Camping.

Many improvements have been made during the year at the C. W. Post Memorial Scout Camp, including painting of swimming pool, development of new camp sites, housing for a telescope and completion of a chapel.

The chapel was built as a service project by the Phi Delta Theta Fraternity at Texas Tech. The Dining Hall will be under the direction of Mrs. Anna Bell Gray and Mrs. Jellie Mae Puckett both of Post.

The Order of the Arrow, a National Honor Campers group will be in charge of the visitor's campfire.

The program for the Scouts at Camp Post will include such Scouting skills as swimming, life saving, a complete advance program, axmanship, rope work, and other outdoor Scouting skills.

An overnight fishing hike to the U Lazy S Ranch will be available for the first time.

H. Shelby Berry, District Scout Executive for the Quanah Parker District, will be Camp Director. Assistant Camp Directors will be Jack Moore, Longhorn District Executive, and Bill McGlaun, Comanche Trail District Executive.

The South Plains Council offers two types of camping experiences. Camp Tres Ritos is in the New Mexico mountains at about 9,500 feet elevation.

The Scouts do all their own cooking and preparation. Other

Cage Camp Is Set At Wayland

For the fourth summer Coach Ed S. Billings of the Wayland Baptist College Pioneers will operate a basketball camp at Wayland but demand has increased so much two camps are slated. The first basketball camp is scheduled for June 13 - 24 and the second, August 3 - 12.

Already out of Plainview reservations for the first camp come from Abernathy, Bovina, Gruver, Plains, Ralls, Silverton, Sudan and Sunray. Among the early registrants is Leon Johnson of Abernathy.

program features include archery, pioneering, all types of hiking and mountain scoutcraft.

One of the additions to the program will be an extensive nature program under the direction of Mr. P. E. Davis of Lubbock. He is principal of the Hodges Elementary School.

Advance registrations for this summer camp season indicates a record high for the South Plains Council in the number of Troops and Scouts attending according to Jimmie Lumus of Lamesa, chairman of the Camping and Activities committee for the Council.

The South Plains Council is a participating agency of a number of Community Chests in the 20 County area.

Ben Kelln, Arrowhead District Scout Executive, will be Camp Director at Camp Tres Ritos. His assistants will be Glenn O'Neal, Haynes District Scout Executive and Alf Groves, George White District Scout Executive.

How much of your food dollar gets back to the farmer? Economists say it is about 38 cents. The remaining 62 cents goes for the costs of getting the food in the form you want it, at the time and place you want it. Food costs less now in terms of minutes of work necessary to buy what you need to eat than ever before in history.

ABOVE ARE SHOWN members of the 1960 Board of Directors of the High Plains Underground Water Conservation District. They are, left to right: John Gannon of Lubbock; T. L. Sparkman, Jr. of Hereford; J. K. Belt Jr. of Lockney; Roy Hickman of Morton; and Elmer Blankenship of Wilson.

Bagworms Appear On Trees In Hale Co.

The first hatch of bagworms has now made its appearance, according to County Agent, Ollie Linder. Last week young bagworms were found underneath the leaves of trees and shrubs for the first time.

Last year bagworms ruined the looks of many trees and shrubs in Hale County.

Bagworms can be easily controlled if they are sprayed when the bag is 1/4 inch long or less with a number of insecticides, Malathion, Toxaphene or Lead Arsenate. Those larger than one-fourth inch, a better control might be obtained by a mixture of these materials; such as Chlorthane and Malathion and Toxaphene. There is no chemical control that is recommended when the bagworm gets full grown.

The young bagworm sticks his head out of the bag several times each day and feeds on the foliage.

The County Agent suggests that people of the county inspect their trees looking on the underneath side of the leaves for these small bagworms and they should be in-

spected at least once a week through the middle of July. If the bagworm is allowed to get full grown, the only control is to pick them off and burn them.

For further details, call by the County Agent's office and ask for bulletin, L-199, "Controlling Insects on Ornamental Plants."

19 Varieties Of Cotton Are In Test Plot

Nineteen varieties of cotton were planted on April 25 at the High Plains Research Foundation.

This research project is a continuation of the search conducted since the Foundation was organized in 1957 for varieties that give the best returns. This test for yield and quality includes varieties best adapted to the various methods of cotton harvesting currently practiced by farmers in the High Plains.

Each of these varieties were planted in four row plots, 100 feet long with four rows to each plot. The tests will be made from the two center rows in each of the four row plots, reports Dr. E. H. Collister, chief agronomist at the Foundation.

Seeks Approval Of 2, 4-D Use On Grain Sorghum Crops

(Editor's Note: The following letter of interest to area farmers and others, was received from Congressman George H. Mahon.)

Dear Friends: Early this week I received complaints from our District by reason of the fact that 2, 4-D is not approved for post-emergence use on grain sorghums. The post-emergence use of 2, 4-D on grain sorghums has been widespread and it is estimated that 60,000 acres

of grain sorghum was treated by this process last year in our area. The problem that arose in regard to cranberries has sharpened general interest in this matter. I joined with others here in appealing to officials to approve 2, 4-D post-emergence use with grain sorghums.

Dr. M. R. Clarkson, Acting Administrator of the Agricultural Research Service, advises that 2, 4-D has now been registered and approved for use with grain sorghums on a post-emergence basis.

With respect to use of arsenic acid chemicals for cotton defoliation, indications are this practice will not be approved for 1960, but officials of the Pure Food and Drug Administration have promised to consider any new information tending to establish that no ill effects would come from the use of arsenic acid as a cotton defoliant. There are, of course, approved substitute defoliants. I thought this information would be of interest. You may have seen it in the press.

Best wishes to all. Sincerely, George Mahon

STRAN-STEEL PRE-ENGINEERED BUILDINGS — LOW-COST EQUIPMENT PROTECTION

Successful farmers have found the functional, low-cost answer to the equipment housing problem—and to every farm need—in Stran-Steel pre-engineered buildings. Construction takes only a few days, not weeks. Initial cost is considerably lower than you would expect and Stran-Steel buildings are practically maintenance-free. Stran-Satin Color is factory-applied coatings of vinyl-aluminum

or vinyl-base color over galvanized steel. It costs less than you'd spend for painting and lasts for years and years. Stran-Steel's finance plan lets you pay as little as 25% down and payments can be adjusted to fit your peak income periods.

Get the full Stran-Steel story. Come in or phone us today.

This Stran-Master 36'x64' shelters valuable equipment, is fire-safe and practically maintenance free

Why Fewer Babies Die Today

Fifty years ago, one out of every 10 babies died during its first year of life. Today, infant mortality during that first year has declined to only one out of 40 babies. Much of the credit for this huge drop belongs to the potent drugs that help defenseless infants to fight the diseases that once meant certain death. That's why we say...

\$400 Scholarships For First-Rate 4-H Home Ec Projects

A local 4-H Club Girl who really knows her way around the home may be the lucky winner of a \$400 Montgomery Ward college scholarship this year, according to the National 4-H Service Committee, Chicago.

The young homemaker must be enrolled in the 4-H Home Economics program, have satisfactorily completed at least three years of club work, and be over 14 years old before she can compete for this top honor.

Work in the home economics project includes cooking, food preservation, sewing, meal planning, housekeeping, buying and budgets. Developing exhibits, displays and demonstrations are among the stated objectives of this genuinely useful project directed by the Extension Service and the USDA.

The national judging is done on the member's 4-H record book which is compiled during her club career. The comprehensive report contains not only highlights of the home economics projects and other 4-H achievements, but also evidence of leadership, community service, scholastic standing, and personal recommendation from 4-H Club leaders.

Work qualifications are high and competition keen since only six girls will be selected from all 50 states and Puerto Rico where 4-H Clubs are well established. Be-

sides the scholarships, a trip to the National 4-H Club Congress in Chicago is waiting for the highest ranking member in the state. This is the 38th consecutive year that Montgomery Ward has supported the 4-H program, according to the National 4-H Service Committee which distributes awards through the State Extension office.

News About Men In Service

1ST. CAV. DIV., KOREA (AH-TNC)—PFC Raymond M. Gibbs, whose wife, Dorothy, lives at 709 E. Ninth Street, Plainview, Texas, recently participated with other personnel from the 1st Division's 8th Cavalry in an Army training test in Korea.

The test, conducted under realistic combat conditions to determine the unit's efficiency, involved defensive actions against a simulated enemy force.

A radio operator in the cavalry's Headquarters Company, Gibbs entered the Army in September 1958, completed basic training at Fort Carson, Colo., and arrived overseas last July.

The 24-year-old soldier, son of Mr. and Mrs. Swan E. Gibbs, Hale Center, attended Hale Center High School.

RECORDS CAN HELP IN COST CUTTING SEARCH

College Station—Can your production costs be cut? This is a vital question which every farmer or rancher must answer for himself, said C. H. Bates, extension farm management specialist.

Prices of production items continue to rise, while prices received for most farm products keep dropping.

The tough problem is to find ways to hold the margin between receipts and expenses. One method is to watch closely for ways of cutting expenses that effect potential profits.

Items of fixed cost may not be reduced greatly, the specialist pointed out. These are such things as rent, taxes, interest and depreciation on buildings and equipment.

Variable costs such as feed, seed, labor, fertilizer and pesticides may offer some savings if managed carefully. These inputs must be varied under different circumstances so that the cost per unit will be reduced.

A safe guide is to aim at the maximum production from a given "package" of resource—the land, labor, facilities and equipment controlled by the operator. For example, investment in a 4-row tractor would be uneconomical for a 100-acre cotton-grain farm; and the operator's labor would never be fully employed on this size unit. Thus, some investment costs may be lowered by proper equipment selection.

Farm operators should usually increase the expense on variable inputs (feed, fertilizer, etc.) so long as the added production returns more than the added cost. For example, with corn selling at \$1.00 per bushel and 50 pound units of nitrogen fertilizer costing \$5.00, the producer should add nitrogen only to the point where at least 5 extra bushels of corn are likely from the added units of fertilizer.

One common procedure for cutting variable cost, said Bates, is to substitute machine work for hand work, or pull two or more implements in tandem.

Other common ways in which crop costs can be reduced include planting seed of known germination; regulating planters, sprayers, etc., to deliver proper quantity; and limiting cultivation of crops only to weed control or soil aeration.

For a complete check list of items on which production costs may be reduced, ask your county agent for a copy of MP-191, "Cutting Cost in Your Farm Business." It could save you many dollars in the weeks ahead.

Secretary of Agriculture Benson has proclaimed marketing quotas for the 1961 wheat crop and has set July 21 as the date for a referendum to determine producer approval or disapproval of quotas.

The Review Phone No: CY-8-2033

Local Area Is Nation's Encephalitis "Hot Spot"

This section of the irrigated Plains is the nation's encephalitis "hot spot," Frank C. Von Zugen, Jr., director of sanitary engineering for the Texas State Department of Health, told a gathering of Hale County and Plainview officials in Plainview recently.

Irrigation water provides breeding places for the encephalitis carrying species of mosquito, Von Zugen pointed out, and urged that an effective and continuing control program be executed. The Department of Health engineer came here to confer with the county and municipal officials and to offer services of the department in a control program.

The city of Plainview has started a control program which to date has included mostly drainage work. Draw beds in the city limits have been straightened to provide better drainage and ditches have been cut to keep water from standing in low places, said Hoyt Curry, city health and welfare director.

Such operations, along with the chemical treatments that have been used here the past several years, will continue this year, Curry said.

Van Zugen recommended individuals to use a 5 per cent wettable DDT spray to control mosquitoes on their premises. He said that such an application perhaps was the most practical and effective for individual use. A clean-up to start the mosquito season with breeding places cut to a minimum was recommended by the sanitation engineer.

Hale County Agent Ollie Linner in announcing a county-wide control campaign stressed that the fight is to a large extent a problem of individual control.

Linner said that within the next ten days letters will be mailed from his office to every rural home in the county stressing the seriousness of the encephalitis threat and pleading for every household in the county to do his part in keeping down mosquito infestation.

"If the people, each person individual, don't help, it's a hopeless situation," Linner declared. The letter, Linner said, will tell how lakes can be pre-empted with chemicals — treated before they are filled with water—to prevent them from becoming mosquito breeding places after rains or when irrigation tail water flows into them.

There will be community meetings, increase in community representation on the County Health and Safety Committee, films and literature distribution in an intensive educational campaign starting in the near future, the county agent said.

County Judge Lee Nowlin said the Commissioners Court will cooperate in every way possible to make the mosquito control program effective.

The city expects to intensify its campaign.

A survey in the Plainview and Hale Center vicinities last year revealed an alarming prevalence of the encephalitis virus in fowls and humans. Among eight flocks of chickens tested from early summer into October the per cent of fowls carrying the virus ranged up to 94 per cent.

1957 Homemakers Club Has Meeting

The 1957 Homemakers Club met Wednesday, May 25, in the city hall club room. A review on "All The Women Of The Bible" was given by Mrs. June Jones.

Refreshments were served by Mrs. Mona Toler and Mrs. Brenda Apperson to Meses, June Knox, Orene Parsons, Vicki Havens, Betty Lewis, Janice Young, Beth Gist, Wilma Stillwell, Joan Williams, Jerry Presley and June Jones.

The next meeting will be held Wednesday, June 8. "One-Dish Summer Meals" will be the theme for next week's program.

June Jones, Reporter.

Would you like to know how to make a rope halter? Ask your local county agent for a copy of L-469, "Tying Rope Halters." Copies are also available from the Agricultural Information Office, College Station, Texas. Each of the 18 steps in tying a halter is illustrated to make the job easier.

ARMY ENLISTEES MAY CHOOSE HAWAII

Sergeant Jones, the local U. S. Army Career Counselor has announced that the U. S. Army is now accepting enlistments for the 25th Division which is stationed at famed Schofield Barracks, Hawaii. The 25th Division is the largest tactical unit in the entire Pacific area.

Qualified young men will be enlisted for a period of three (3)

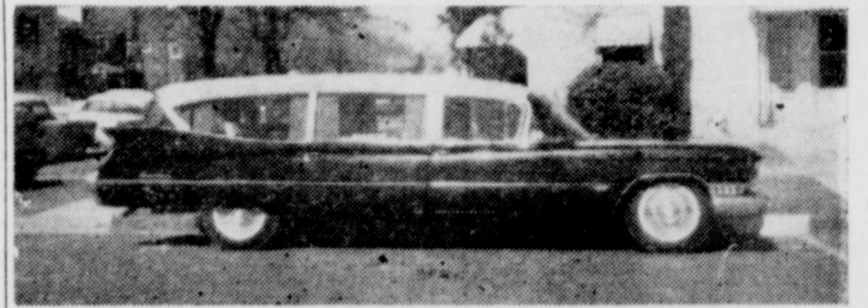

years. Upon completion of basic training at Fort Ord, California, individuals will receive a leave and then be assigned to Hawaii.

Sergeant Jones will be in Abernathy each Friday morning to interview and pre-qualify individuals interested in this program. Call POrter 3-2821 collect.

Mrs. Knight Is Shower Honoree

Pink and green were the theme colors at a layette shower given for Mrs. Roy Lee Knight, Monday, May 23, in the city's club house.

Hostesses were Mes. M. M. Bell, A. C. Harris, Ted Middleton, Elgin Evans, Thomas Conner, Lee R. Smith, Donald Bell, W. F. Woot, Jack McGuire, S. W. Royal, Bobby Burnett, Billy Don Payne, and J. B. Herring.

A high chair was the hostess gift.

News About Men In Service

FURTH, GERMANY (AHTNC)—Army PFC Donald K. Eaves, son of Mr. and Mrs. Howard Eaves, Petersburg, Tex., recently participated with other personnel from the Surveillance Platoon of the 4th Armored Division's 50th Aviation Company in a field training exercise in Germany.

The surveillance platoon is comprised of manned and unmanned aerial observation planes with photograph and surveillance capabilities.

Eaves, clerk typist in the company in Furth, entered the Army in June 1959 and completed basic training at Fort Ord, Calif.

The 21-year-old soldier was graduated from Petersburg High School in 1957 and attended Texas Technological College, Lubbock.

CITY GARDEN CLUB REPORT

The City Garden Club met in the club room Thursday, May 26, with nine members present.

Final plans for the Flower Show were discussed.

Members present were Mes. G. B. Adkison Sr., T. O. Brown, Ira Lee Harrel, S. R. Jackson, Clarence Nelson, H. H. Selke, C. C. Shipman, H. H. Vineyard, and O. W. Weeks.

The next meeting will be a breakfast at 8:30 on June 9. Following the breakfast will be installation of officers. The hostess will be Mrs. C. C. Shipman.

Mrs. H. H. Selke, Reporter

SHOWER HONORS BRIDE-ELECT

A bridal shower, honoring Miss Claudine Dye, bride-elect of Jerrel Dillard, was held Thursday afternoon in the home of Mrs. J. A. Bruce.

Hostesses with Mrs. Bruce were Mes. Ed Struve, E. M. Crow, C. L. Owen, Melvin Johnson, Herman Habbinga, S. M. Harrison, J. B. Herring, Furman Shipman, B. H. Beard, Joe Thompson, J. W. Davis and L. G. Deering.

JUNIOR 4-H LEADERS WORK HARD FOR TRIP TO CHICAGO CONGRESS

CHICAGO (Special)—Eight of the best junior 4-H leaders selected from across the United States will join 1350 fellow 4-H members in Chicago next December as delegates to the National 4-H Club Congress.

To be chosen a congress delegate is one of the highest honors in club work, since only about six out of every 10,000 club members achieve this goal each year, according to the National 4-H Service Committee.

Developing leadership is high on the list of 4-H objectives. At the present time some 125,000 young men and women are serving as junior leaders in local and county 4-H Clubs. Most are juniors or seniors in high school. In addition to being responsible for the general operation of the club, junior leaders are qualified to help members in various projects such as tractor, electric, clothing, food preparation and home improvement.

Records show that many junior leaders continue their interest in 4-H long after they have reached the "retirement" age of 21 as a club member. At the present time there are 400,000 volunteer adult leaders of 4-H Clubs. Leader training is supervised by the Cooperative Extension Service.

The 4-H Leadership program is planned to give recognition and encouragement to young people who have distinguished themselves as leaders in club, community and state-wide activities.

Mr. Edward F. O'Connell, Washington, D. C., long identified with 4-H leadership, provides incentive awards which include the eight congress trips and engraved silver trophies presented each year to the top boy and girl in the nation.

Income Tax Information

Social Security rules also apply to farmers and ranchers. According to Howard O. Nichols of Internal Revenue Service, Lubbock, farm and ranch employers must report and pay Social Security taxes on cash wages paid to each farm and ranch worker whose total wages amounts to \$150 a year, or if the worker performs agricultural service on 20 or more days and receives cash wages on a time basis.
