Volunteer Fire Department To Reorganize

Ed Crow, Fire Chief, Resigns

Ed Crow, sales manager at Reid Chevrolet, last week submitted his resignation as Fire Chief of the Abernathy Fire Department. He has served in that capacity for several years, but as explained in his letter of resignation, due to certain circumstances, he considers his usefulness as Department Chief nil.

ED CROW

Resigns As Fire Chief

He stated, however, that he will continue to answer fire calls until it is convenient to change the new administration. It is his desire that the fire department can be completely re-organized, with the election of a president, secretary, fire chief, assistants, etc. And, if enough interest is shown, this can be accomplished in a relatively short period of time.

(EDITOR'S NOTE: Following is part of a letter of resignation submitted by Ed Crow to the Abernathy Volunteer Fire Department):

Since I consider some of these circumstances due to my attitude, some due to the attitude of others and some of them due to public apathy with regard to a Fire Department, I consider my usefulness as Department Chief nil. So, I hereby tender my resignation as Chief of your Department, with the hope that from this action an active Department can be organized.

I will continue to answer fire

calls until such time as it is convenient to change to the new administration.

Yours Respectively,
C. E. Crow

GIVE OUR KIDS A PLACE TO PLAY

EDITORIAL

Give our kids a place to play... a place to play baseball! For the past few years the local school has undertaken the task of sponsoring and supervising the summer baseball program for the young boys of the Abernathy area.

However, this was the only school in this immediate area which aided the baseball teams in this manner. And, due to a considerable amount of pressure on the school officials and board members from people in this area who are not in favor of the school being involved, they decided it would be best for them to step out of the picture and let civic organizations or individuals of the community take over.

A meeting of all boys of the Small Fry and Junior League ages, (11-13 and 14-16), who want to play baseball was called for last Thursday. About 60 boys, ranging in age from nine through

14, were present for this meeting, and according to reports about 15 others have contacted individuals working with the teams since that time. This makes a total of about 75 area boys for three teams, Beginners, Small Fry, and Junior League.

Several men of Abernathy and TUCO are supervising the teams, but several problems have now arisen as to the amount of equipment needed, and adequate places to play. The teams need additional bats, balls, bases and protective equipment such as batters' helmets, catchers' equipment and umpire protective equipment. However the main problem is a place to play.

It was stated that the field at TUCO would be available when it was not being used by the American Legion team and at times the baseball field just west of City Gin will be available. The baseball field at the school will not be available due to the construction work going on, and heavy equipment on and near the field.

Someone, who has vacant lots which are not being used, could certainly perform a community service by designating this space as a baseball field for the youngsters. Once space for a baseball field is acquired, plans can then be initiated to sell advertising space on an outfield fence. The income from the sales of advertising space would more than pay for the fence, a backstop, and equipment for the teams. This procedure has proven successful in other area towns, and there is no reason why Abernathy should be an exception.

Mrs. Henry Struve was under treatment in Methodist Hospital, Lubbock.

Meeting Date Set For June 20

The City Council has called for a meeting of all persons of Abernathy interested in being on the fire department force or interested in backing the local fire department to be held Monday night, June 20, at 8:00 o'clock at Abernathy City Hall club room.

This is an all-out effort to reorganize the present fire department and get the force fully manned and functioning properly as required by the State Board of Insurance specifications.

According to a letter from the State Board of Insurance, Austin, unless the Abernathy volunteer fire department meets certain requirements within the next 60 days, Abernathy will be placed in the unprotected class with a key rate of approximately \$1.00.

In dollars and cents, this would mean an additional \$13,000.00 each year that the citizens of Abernathy will have to pay out in fire insurance premiums.

The letter is published in this issue of The Review.

This is a serious matter, and should not be overlooked. The City Council approved a motion to aid the fire department financially, paying into the department fund a certain amount per man for each drill session attended.

Everyone who is interested in any way is urged to be present at the meeting Monday night, May 20, at 8 o'clock, in the club room.

Fire department personnel who met with the City Council Monday night included Ed Crow, resigning fire chief, C. J. Berutti, Eddie Eldredge and L. J. Daniel.

The Summer Homemaking Group Meets

The group meetings of the Summer Homemaking program got underway Tuesday with Mrs. Fred Cooke, teacher, in charge of a study on interior finishes, furnishings, floor covering and accessories, being discussed for the living room of the new homemaking department.

Mrs. Cooke extends an invitation to everyone of the community to attend any or all of the meetings to be held each Tuesday afternoon during the month of June from 2 to 4 p. m.

Many women have expressed an interest in several of the topics which will be discussed. Everyone who wants to use this new building as a learning experience should feel free to join the group in these meetings.

Any student who has completed one year of homemaking in high school may receive one-half credit for work done during this month's program. Students who have already completed their two summer programs are also invited to participate in this program, non-credit, to get the training in these studies.

Mrs. J. A. Bruce will assist these group meetings and next Tuesday the meeting will be held at Bruce Furniture Store for a study of furniture styles, construction, and price ranges.

Ann's Dress Shop Sets Dates For Formal Opening

Since buying the dress shop and taking charge of the business on April 29, Mrs. Annie Williams has not closed the shop and business has gone on as usual. However she had in mind a number of changes she wished to make and most of these she has accomplished without closing. She and Mr. Williams have spent a number of nights and most of the Sundays and holidays working at the job of painting and re-arranging.

They have re-arranged the whole rear of the store by building a spacious dressing room and doing away with the two tiny ones. There is now ample room for fitting, measuring and changing. Several mirrors have been conveniently mounted in this room and there is a divan and chairs also rugs on the floor and other conveniences. The wrapping counter has been moved to a more advantageous location. All shelving has been re-painted as well as renovated. Base boards have been installed at the bottom of the dress booths and have been painted.

A raised platform has been built in the show window and it is carpeted. The display in the window is much more effective than formerly.

All this has been in preparation for a formal opening which is now announced. See Ann's Dress Shop ad on page 4 or this issue.

Six farmers have reported loss of batteries from irrigation motors recently, Blanchard said.

It was reported that there will be two periods of workouts each day—one each morning and one each evening. Individuals may pick either time to workout, but are not required to workout both periods.

Follow Simple Rules In Automobile Accident

Vacation time is near. Soon millions of people will be driving about the country, and automobile accidents will occur with increasing frequency. What should a person do when involved in an accident?

At such times it is hard to keep your wits about you and know just what to do. It is therefore a good idea to plan in advance just what you would do in event of a smash-up. Here are a few simple rules that every driver should commit to memory:

1. **Stop!** Failure to stop can result in serious criminal consequences.

2. **Render Aid.** If anyone is injured: (1) Render first aid. (2) Stop bleeding. (3) Call a doctor or an ambulance or both. (4) Do not move an injured person in any way that could possibly add to his injury.

3. **Protect the Scene from Further Damage.** You may be liable for damages to approaching drivers, unless they are properly warned. If the highway is obstructed at night, have someone turn his headlights beams on the wrecked vehicles.

4. **Call an Officer.** Policemen, Highway Patrolmen, Sheriffs and their deputies are trained accident investigators whose testimony may be invaluable in establishing your civil claim for damages.

5. **Gather Information . . . Write It Down.** Don't trust your memory. Don't guess — be specific. Measure skid marks. Step off distances. Be sure to obtain names and addresses of witnesses. You are required by law to exhibit your driver's license to the other driver—and he must do the same.

6. **Be Careful What You Say.** Even if you feel you probably are to blame, it is best to make no admission. You may learn later that the other driver was equally at fault, or more so. Emotional comments can be misconstrued by others, or may be misquoted. Whatever you say, make it factual.

7. **See Your Doctor** if there is the slightest chance you may be injured. Serious injuries do not always result in immediate pain or bloodshed.

8. **Consult Your Lawyer Immediately.** The sooner your lawyer is brought into the matter, the better he can advise you and protect your rights. He can obtain statements from the witnesses while their memories are fresh, and do many other things to insure that the true facts are preserved. Get your lawyer's advice before giving any interview or statement to investigators or adjusters for the other side.

9. **Inform Your Insurance Company Promptly.** Failure to do so may void your policy.

10. **Report the Accident to the Department of Public Safety.** This is required by law if there is any injury, death, or total damages exceed \$25.00.

An official accident report form may be procured from the Police, Sheriff's Dept., Highway Patrol, or State Dept. of Public Safety. (This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

DRIVE SAFELY — The best safety known device is about nine inches above your shoulders.

Colorado, which has but two cities of 50,000 population or over, according to the 1950 census, is to get a third one of that size in July, 1960, when a 2,000-acre tented city—rises at the Reverse

J Diamond Ranch about eight miles from Colorado Springs, Colorado. The ranch will house the Fifth National Jamboree of the Boy Scouts of America, the high point in the celebration—fifty years of that organization in this country. Engineers have made ready the location of thirty-nine sectional

camps, each of which will have a population of about 1,400 persons. Each section will have its own health lodge, water supply, shower baths, and commissary. This newest, youngest, and busiest city of approximately 56,000 will team with excitement. Living together will be boys from all walks of life, of all races and creeds. They will exchange skills, swap home-town products, and learn about the customs and traditions of many sections of the nation.

There will be pageants, campfires, ceremonies, and music. There will be demonstrations of all types of campcraft and Scoutcraft, swapping and friendship-making, and the opportunity of seeing some of America's outstanding citizens.

The South Plains Council, Boy Scouts of America, under the leadership of John Thomas, Chairman of the Jamboree Committee, a resident of Falls, will have 299 Scouts and Scouters in the Council's Contingent. Included in the list will be Frederick Been of Abernathy.

Postal Service To Be Improved

Postmaster General Authur E. Summerfield announced sweeping improvements in mail transportation that will mean better mail service for Abernathy, Texas, and 124 other communities in the Amarillo and Lubbock metropolitan areas, covering over 37,000 square miles.

Discussing the program at a meeting of postmasters in Amarillo, Geo. A. Gray, Regional Operation Director, said that 900,000 people in the 40 Texas counties

would benefit by better mail service.

Barring infrequent delays in media of transportation and occasional distribution errors, first-class letters mailed at designated collection boxes or in the post office before 5:00 p.m. on a business day will be delivered on the first delivery at any office in the areas on the following business day.

"Tests just concluded," Mr. Gray said, "proved the mail pattern to be highly successful. Approximately 600,000 first-class letters originate on an average business day in post offices within these two metropolitan areas. Approximately 66 percent of this mail is designated for points within the area. We have tested our newly changed operations with highly gratifying results."

He pointed out that mail for and from offices outside the area, all over the United States, will be expedited by the new arrangement. Accelerating the flow of mail in the metropolitan areas, it was explained, is part of the vast postal program which has next-day delivery between any two cities in the country as its long range objective. The revised mail pattern is based on the establishment of sectional centers to which mail from outlying offices is brought for consolidation, distribution and onward dispatch for connection with trunk line facilities, principally at Amarillo.

These sectional centers have been established at Amarillo, Childress, Lubbock and Plainview.

Post Offices near one of these sectional centers will send their mail to that point for processing. Fast non-stop service over the highway then will carry the mail to Amarillo and Lubbock for dispatch to destination. Special connections have been established via fast truck service north of Amarillo.

Some towns could not be brought within the plan because of the distance involved; however, slightly earlier mailing would assure the mailer the benefit of metropolitan area service.

Mobile sectional centers, which consist of mail distribution cars in trains and buses equipped for en route distributors, are also utilized in the program.

The plan required an intricate pattern of interlocking schedules, with connections being made within a matter of minutes at many places. For instance, a letter from Roaring Springs to Levelland travels over six different routes, including one train; it is transferred at five different locations.

Mr. Gray explained that the next-day delivery depends on the conscientious attention of postal employees as well as the closely integrated time table which governs the area's postal units and the transportation linking them together.

He said this improvement in letter mail service is the result of intensive study, and he credits the cooperation of dedicated postal employees in the 125 offices involved.

The counties in the area are Armstrong, Bailey, Briscoe, Carson, Castro, Childress, Cochran, Collingsworth, Cottle, Crosby, Dallam, Deaf Smith, Donley and Floyd.

Also Foard, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Hemphill, Hockley, Hutchinson, Lamb, Lubbock and Moore.

Also Motley, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, Terry, Wheeler, Wichita and Wilbarger.

The Southern tour will start at Memphis, Tennessee, June 13 and will cover Tennessee, Arkansas, Louisiana, Mississippi, Alabama, Florida, Georgia, North Carolina, Kentucky, Indiana, Illinois and Missouri. It will be completed in Memphis July 1.

PROGRESSIVE BUSINESS AND CIVIC-MINDED PEOPLE OF LUBBOCK AND VICINITY

This department has been worked up largely as a reflection of public opinion. No person has written of themselves or their business. All articles have been compiled by a representative of The Abernathy Weekly Review as he saw conditions. These people are all leaders in their various lines of endeavor and the co-operation of those citizens in Lubbock who helped make this department possible is sincerely appreciated.

DAVID C. WEAVER

Every progressive and successful business man in Lubbock contributes in some manner to the growth and progress of the city. And a man who is always willing to do his part in both civic and business activities is David C. Weaver of the David C. Weaver Grain Company, who is well known and has many friends and business associates throughout this entire district.

The prominent part that The David C. Weaver Grain Co. is playing in the business and commercial life of Lubbock and the South Plains mirrors the progressiveness and ability of such men as he. Furthermore, Mr. Weaver has also at all times been steadfast in his devotion to the city, and the surrounding country, and on many occasions, has lent his support to the successful promotion of meritorious civic projects.

Lubbock and this district are fortunate to have such a man as David Weaver in a position of responsibility and service, and this newspaper feels that it merely reflects public opinion in paying this brief tribute to one of the city's more progressive business men.

LLOYD A. BOTTS

Recognized as one of the more progressive business men of Lubbock, Lloyd A. Botts of the Western Storm Window Company, performs a real service for the people of his city, and his contributions to civic betterment are too well known to require repetition in these columns. His personal success has been achieved, in a large measure, because he never misses an opportunity to further the service he renders to the public. A policy which has, and continues to build up good will for the Western Storm Window Company throughout this entire district.

Mr. Botts is deserving of praise, and this small tribute is but a just recognition for the many services which he has performed in the way of both business and civic activities. Also his reputation for the successful conduct of his business affairs is no greater than his reputation for the honest practices which characterize his every transaction.

H. D. "PETE" PEVEHOUSE

H. D. "Pete" Pevehouse has proved his progressiveness by constantly adding to and increasing the service which the recently established Pete Pevehouse's Standard Service, located at 42nd & Avenue A, has extended to the people. The large volume of business handled by his Chevron station proves that "service" to him, is not "just a word" but something to be rendered to the motoring public to the fullest extent of his ability.

In addition to his close attention to his business affairs, Mr. Pevehouse was never a man to dodge his civic responsibilities, and help in those matters has always been cheerfully given.

He fully appreciates the value of good will, and has more than his share of that intangible commodity because of the manner in which he meets both business and civic obligations. He is a credit to the community, and is thoroughly established in the forefront of the business life of the city.

"Pete" Pevehouse has many friends in and around the city, and it is a pleasure to bring him before our readers in this review of progressive Lubbock business men.

O. T. TRUMBLE

In all business and professional pursuits there are men who have met with success because they have honestly deserved it, and such a man in his field is O. T. Trumble of Trumble Steel Erectors, who well deserves the reputation he has earned for being one of Lubbock's more progressive business men. His thorough knowledge of everything pertaining to the steel erecting contracting business is exemplified by the manner in which he fulfills each and every demand upon him in line with his business.

Moreover, such experience as Mr. Trumble has gained in the successful management of his business has been turned to the advantage of his fellow citizens by applying the same principles to the promotion of those civic projects to which he has been called upon to lend his able assistance. Thus his success in business has further enhanced his value to the city.

We appreciate the opportunity of including O. T. Trumble in this group of progressive and civic-minded men who are actively taking part in the evolution of the business and commercial life of Lubbock.

CLEO VOLENTINE

Recognized as an authority on all sign painting contracting problems, Cleo Volentine of Volentine Signs, located at 1111-B 41st Street, has turned his knowledge to the advantage of the people of Lubbock and vicinity. More than that, Mr. Volentine is a man who has

always been vitally interested in the civic betterment and progress of the city, and has backed up his interest by lending assistance, in one form or another, to the successful promotion of many things which have benefited the community as a whole. Lubbock owes much to such men for their part in making the city the business center of this area.

He has always been alert to the many opportunities for service, and more than ready to recognize and accept his share of civic responsibilities.

Because of these things, Cleo Volentine has become accepted as a progressive man who is an asset to both the business and commercial life of the city, and we trust he will continue to serve the people of Lubbock and the surrounding area in his present capacity for many years.

C. R. "DICK" BALLENGER

Because this is a period of growth and expansion for Lubbock, those progressive business men who had the foresight and ability to lay their plans so as to be able to take advantage of those conditions, are entitled to more than ordinary acclaim. We are therefore, glad to pay tribute to C. R. "Dick" Ballenger of the Ballenger Construction Company, for he has become a well known figure in the business and industrial life of the city.

Mr. Ballenger's persistent optimism and steadfast belief in the continued future prosperity of the people of Lubbock and vicinity are characteristics which are deserving of our highest praise.

"Dick" Ballenger has also always shown a willingness to do his part in civic advancement, and has contributed his bit, in one form or another, to projects promoted for the welfare of the city. We believe that a business man of this kind is entitled to our sincere praise, both because he has achieved success in his private affairs, and because he is willing to contribute to the public good.

R. C. SEAVER

R. C. Seaver of the Western Motor Company, located at 2015 Clovis Road, is one of those dependable used car dealers of Lubbock who has consistently forged ahead in his business. He has also put his shoulder to the wheels of civic progress, whenever concerted help was needed in furthering enterprises promoted for the general welfare of the community.

Mr. Seaver was never a man given to wishful thinking. Because his methods are those of direct action, and whether the problem at hand is one concerning his own business or that of a civic nature, he attacks it with optimism and vigorous enthusiasm. Add to this his acknowledged business ability and his keen sense of values, and it is easily understood why he is almost invariably successful in business or other matters.

We feel that it is our duty to call attention of our readers to these worth-while characteristics of R. C. Seaver, and to pay him a well-deserved tribute for his straight forward business methods, and for the unselfish interest he has shown in public welfare.

JEFF D. MORAN

At the head of one of the district's more prominent wholesale hardware supply firms, and as a leader of recognized ability in community life, Jeff D. Moran stands out today as one of the best liked men on the panorama of Lubbock activity. His friends are numbered by the hundreds, and all of them are of the lasting fiber which come from worth-while associations, both in the world of business and in the realms of neighborhood life.

The West Texas Wholesale Supply Incorporated, of which he is the manager, has been a strong factor in the growth and progress of Lubbock, and Mr. Moran's own efforts, in many instances, have been the stimuli behind the outstanding accomplishments of the wholesale hardware supply firm.

The case is a fine example of a man weaving his own personal prominence into an executive's life, with lasting benefits to both organization and individual.

We take pleasure in expressing these few words of commendation to a man who has done so much to promote the growth and progress of this entire district.

HARTMAN H. COURSEY

It is because of the unflinching optimism and faith which he so consistently displays toward the future of Lubbock and vicinity that we are prompted to call the attention of our readers to the fine service which Hartman H. Coursey of the Western Transfer Company, located at 102 East 74th Street, performs in the successful conduct of his business.

Mr. Coursey is an aggressive and resourceful personality whose progressive policies have earned for him a widespread reputation as a business man of more than average ability; and his apparent willingness to devote some of that ability to the promotion of civic activities further enhances his value to the city.

The safety and efficiency of the

operations of the Western Transfer Company, reflecting as it does the executive ability of this man, has earned for the firm a well deserved popularity among the people they serve.

We are glad to give H. H. Coursey the credit he so well deserves for his achievements, and to wish for him a continued successful career as one of Lubbock's more progressive business men.

FRED DINGLER

We desire in this Lubbock review to call the attention of our readers to the well-earned reputation which Fred Dingler has reached in the business life of this section. During the comparatively short time he has been the manager in Lubbock of the Western Paper Company, he has made many personal friends as well as having earned the good will of his associates for the straight-forward manner in which he has conducted his business affairs.

Mr. Dingler has worked hard to deserve the confidence which the people of the community have in him, and he continues to work hard to maintain in every way, that high standard which he has set, not only for himself but for the operation and management of the Western Paper Company as well.

He has also shown a willingness to assist in every manner at his disposal in the growth and development of Lubbock, and is always ready to lend his support to civic projects. Fred Dingler deserves our heartfelt congratulations on the splendid record he has already established, and we sincerely hope for his continued success.

WAYNE PRATHER

We wish in this edition to pay tribute to Wayne Prather, general manager of the West Texas Compress & Warehouse Company, and the Western Warehouse Company in Abernathy, for his many services to the city of Lubbock, and his splendid record of achievements in the business and commercial life of the city.

Mr. Prather probably has as wide a circle of friends as any other man we could name because he is just naturally the kind of man who makes friends with almost everyone, and always conducts himself in such a manner as to deserve the good will of all who know him. Lubbock is fortunate in being able to number, among its more progressive business men, citizens of this type. He is always ready and willing to lend his support to the promotion of any project which promises to benefit this entire district.

He may be depended upon, and his services to the people are too many in number to be described here. It may be sufficient to say that we consider Wayne Prather an asset to the community, and a progressive business man of whom his city may be proud.

MRS. CECIL WHIPPLE

There are many men and women in their chosen fields who have gained recognition for the progressive manner in which they have conducted their business and accepted their civic responsibilities, but who will not permit much to be said of their achievements.

But in reviewing a group of such citizens we should include Mrs. Cecil Whipple of the Whipple Tarp & Awning Company, located at 3810 Avenue A, for she is a woman who has always done her work effectively even though it has been accomplished in an unobtrusive manner.

Mrs. Whipple, busy as she is, always manages somehow or other to do her bit in any movement calculated to benefit the community as a whole. Her modesty, however, will not permit her to say the things about herself which are said by her friends, who do so because of a personal knowledge of her activities.

We do not hesitate to recommend Mrs. Cecil Whipple to our readers as a citizen who continues at all times to work to the advantage of the people of this entire district.

JERRY D. JONES

Our issue today purposes to call attention of our readers to some of those progressive and civic-minded men who have contributed their share of time and energy to the building up of Lubbock and the surrounding territory to the position of prominence which it enjoys at the present time.

One of the men to whom we wish to call the attention of our readers is Jerry D. Jones of the Western Wrecking Company, located at 2722 Texas, a firm that has long been known as a leader in the wholesale and retail automobile and truck parts, new and used business.

He is a man who has never spared himself in his aggressive march forward, and one whose competitors respect as much as do all others with whom he comes in contact. Mr. Jones is at all times conscious of his civic responsibilities, and may be depended upon to meet in every detail the many opportunities which present them-

selves to be of service to the city.

Jerry Jones' record of achievement is one of which he may well be proud. His value to his city, and this district is an established fact, and we hasten to give him the credit which is his just due.

L. B. PULLEN

Having a well-earned reputation for honesty, dependable judgment, and a complete knowledge of the insurance business, far above the average, L. B. Pullen, President of the Central American Life Insurance Company, merits a brief tribute in this Lubbock review.

Without assumption or seeking public acclaim, he has filled his place in the community as one of its solid citizens, performing his duties of citizenship quietly, yet efficiently.

As a leading and progressive business man, Mr. Pullen holds a high position in the esteem of the public generally.

It is not only as a practical executive whose sound judgment and far-sighted planning have brought such fine things to himself, but it is because of his inspiring optimism and loyal friendship that L. B. Pullen is held in such high regard by the people of this entire district.

We gladly praise the record of this dependable Lubbock insurance executive.

DUANE HERINGTON

Duane Herington, who just recently assumed the operation and management of Cline's Corner 66 Service Station, located at 2601 34th, now known as Duane's 66 Service Station, quite readily demonstrated his unusual ability by his quickness to appreciate the obligations and responsibility of his new endeavor, and to conduct his affairs accordingly.

Although he has been operating a business for a comparatively short time, he has already made many new friends, and satisfied customers for his Phillips 66 Station.

Mr. Herington is an active, energetic man whose sincere and friendly personality and desire to be of service, rapidly earning a place for him in this district. He has already taken an interest in community activities, and in due course of time will assume his full share of civic responsibilities.

Duane Herington deserves a word of praise for having so quickly established himself in his new venture, and we are glad to give him this brief, but sincere mention.

GLENN RIDGE

Lubbock owes much to those progressive citizens who have taken an active part in the growth and progress of the city, and who have helped to make it the business center for this section of Texas. In mentioning some of these men it is only fair to include Glenn Ridge of Woodfin's Boot & Shoe Shop, located at 3313 34th Street, whose outstanding knowledge of the boot & shoe repair and maintenance business, backed up by his many years of experience, has brought him to the forefront of his particular field.

He also has a modern and up to date dyeing department for fabric and leather shoes.

Mr. Ridge is wholly deserving of our sincere praise, and these few words of commendation are but a just recognition for the many activities he has conducted on behalf of the general welfare of the community.

The honest and successful conduct of his business affairs is not only a reflection of his character, but has also been a strong factor in maintaining him in a position of leadership in his field of endeavor.

We trust that Glenn Ridge will continue to serve the people of Lubbock and the surrounding area for many years to come.

CHARLES B. HANSON JR.

In compiling this review of progressive Lubbock business men, it is fitting that we should include some of those men who, by their aggressiveness, have definitely established themselves in the business and commercial life of the city.

Such a man is Charles B. Hanson Jr., the manager in Lubbock for International Business Machines Corporation, who also deserves an additional word of praise for being more than just successful. He is a consistent and enthusiastic booster of the community and in his way has done much to advertise the city.

Mr. Hanson has pursued the progressive policy of stepping up his business ahead of the times, thus setting a pace for which he has earned the reputation of being a go-getter who does not sit back and wait for the business to come to him.

We are glad to pay tribute to Charles Hanson Jr., and to point out to our readers that his sincere desire to be of service, coupled with his aggressive methods are largely responsible for the standing of International Business Machines throughout this entire area.

F. C. ODORIZZI

F. C. Odorizzi, the manager of Wicker Incorporated, has won the universal respect and good will of the people of Lubbock and the surrounding country for the progressive manner in which he has kept this dependable firm in the forefront of the business, and commercial life of this entire district. Also for the efficient and friendly willingness he has displayed in accepting his share of responsibility in aiding civic projects.

Mr. Odorizzi is not the kind of man who makes himself conspicuous by the manner in which he conducts his affairs in business or other matters. Yet, his quiet reserve and air of confidence mark him as a man of sound judgment whose opinions and advice are sought after and listened to with respect.

We compliment F. C. Odorizzi for the successful management of Wicker Incorporated, and also for his constructive advice and help on those civic affairs in which he has found time to interest himself. He is a man whom many are proud to call friend.

SHEDRICK E. JONES

It is fitting in this review of progressive Lubbock business men that we acquaint our readers with the man to be credited with having maintained the Lumbermen Investment Corporation in the enviable position it holds in the business and industrial life of this area. That personality is Shedrick E. Jones, the manager, whose genius for organization and for converting new ideas into actual deeds has played a vital part in the distinctive reputation which the corporation now enjoys throughout the entire district.

Mr. Jones has found time, in addition to his business interests, to give thought and energy to community projects. He is a citizen whose talents have been steadfastly devoted to the best interests of the city. He has been successful in his own business, and in the promotion of the general welfare of the community.

We are glad to pay this brief tribute to him, and to say that this district owes much to the many benefits which Shedrick Jones and the Lumbermen Investment Corporation have rendered to the people throughout this entire area.

DEAN WYLIE

In bestowing credit upon some of those progressive business men of Lubbock, who in one way or another, have contributed their bit to improve both business and civic conditions, we wish to publish a few words about Dean Wylie of the Dean Wylie Texaco Service Station, located at 611 on College.

Mr. Wylie has set a standard for himself and the operation of the business that, under present existing conditions, has been very difficult to maintain. However, that he has done so is proved by the large volume of business which his Texaco Service Station continues to handle, much of which is due to his unceasing attention to detail and his ability to cope with new and unexpected problems.

Dean Wylie is also civic-minded and has, when asked, cheerfully cooperated on those activities to which he has been able to lend assistance. He more than deserves the respect and good will which he has earned, and we and his friends are confident that he will continue to maintain his usual integrity and high standards.

Farm Bureau Plans Goodwill Tour Of Mexico

WACO (Spl.)—Plans have been completed for an 11-day Texas Farm Bureau Goodwill Tour to Mexico July 14-24, according to an announcement by J. H. West, president of the state farm organization.

Included in the tour will be visits to places of agricultural interest, sight-seeing in and around Mexico City (including a bull-fight), visits to the Floating Gardens of Xochimilco, the fabulous mountainside spa of San Jose Purua, the Pacific resort of Acapulco, plus stop-overs in quaint and historic towns such as Tax-

co. Cuernavaca and Morelia. The Texans will fly to Mexico City July 14 and return to Texas by air on July 24. Touring in Mexico will be by either automobiles or air-conditioned motor coaches. Most of the land tour will be in the cool and scenic mountains and valleys of Mexico.

A royal welcome can be expected in Mexico for those who sign up for the tour. Sr. Julian Rodriguez Adame, Minister of Agriculture of Mexico, has extended, through West, an official invitation to Texas Farm Bureau members to visit Mexico this summer.

Anyone desiring information about the Goodwill Tour should contact the Texas Farm Bureau, Box 489, Waco.

Rabies Reported In Many Areas Of The State

College Station.—Many reports of rabid animals—chiefly foxes and skunks—are coming in from over the State, says Edwin Cooper, extension wildlife specialist.

Since complete eradication of animals subject to carrying rabies is almost impossible, everyone should be aware of methods which lessen the possibility of contracting the disease. Cooper continues.

Contrary to popular belief, rabid animals do not have "running fits" nor "froth at the mouth." A rabid animal is usually characterized by symptoms of paralysis and loss of their usual fear of humans or natural enemies. Therefore, Cooper says children should be cautioned to avoid any animals which appear to be acting strange-ly.

Foxes, strange dogs and skunks especially should be avoided. Rabies also can be carried by domestic livestock, bats, squirrels and several other mammals. Rabies may occur during any season of the year, Cooper emphasized. A "deodorized" pet skunk, for example, may be a dangerous creature to have around, in spite of the novelty and interest it may afford.

If a person is bitten by any type of wild or domestic animal, the person should immediately report to the family doctor after making every effort to capture and pen the attacking animal for observation purposes if this can be done safely. If it is a wild animal, it should be killed unless capture can be accomplished without risk of another attack. Instructions for having the animal checked for rabies can be obtained from your doctor or veterinarian.

Consult your veterinarian to make certain your pets are properly vaccinated. Strays, untagged or suspicious acting domestic or wild animals should be reported immediately.

Volunteer Fire Department To Reorganize

Ed Crow, Fire Chief, Resigns

Ed Crow, sales manager at Reid Chevrolet, last week submitted his resignation as Fire Chief of the Abernathy Fire Department. He has served in that capacity for several years, but as explained in his letter of resignation, due to certain circumstances he considers his usefulness as Department Chief nil.

ED CROW
Resigns As Fire Chief

He stated, however, that he will continue to answer fire calls until it is convenient to change the new administration. It is his desire that the fire department can be completely re-organized, with the election of a president, secretary, fire chief, assistants, etc. And, if enough interest is shown, this can be accomplished in a relatively short period of time.

(EDITOR'S NOTE: Following is part of a letter of resignation submitted by Ed Crow to the Abernathy Volunteer Fire Department):

Since I consider some of these circumstances due to my attitude, some due to the attitude of others and some of them due to public apathy with regard to a Fire Department, I consider my usefulness as Department Chief nil. So, I hereby tender my resignation as Chief of your Department with the hope that from this action an active Department can be organized.

I will continue to answer fire

calls until such time as it is convenient to change to the new administration.

Yours Respectively,
C. E. Crow

GIVE OUR KIDS A PLACE TO PLAY

EDITORIAL

Give our kids a place to play a place to play baseball! For the past few years the local school has undertaken the task of sponsoring and supervising the summer baseball program for the young boys of the Abernathy area.

However, this was the only school in this immediate area which aided the baseball teams in this manner. And, due to a considerable amount of pressure on the school officials and board members from people in this area who are not in favor of the school being involved, they decided it would be best for them to step out of the picture and let civic organizations or individuals of the community take over.

A meeting of all boys of the Small Fry and Junior League ages (11-13 and 14-16), who want to play baseball was called for last Thursday. About 60 boys, ranging in age from nine through

14, were present for this meeting, and according to reports about 15 others have contacted individuals working with the teams since that time. This makes a total of about 75 area boys for three teams, Beginners, Small Fry, and Junior League.

Several men of Abernathy and TUCO are supervising the teams, but several problems have now arisen as to the amount of equipment needed, and adequate places to play. The teams need additional bats, balls, bases and protective equipment such as batters' helmets, catchers' equipment and umpire protective equipment. However the main problem is a place to play.

It was stated that the field at TUCO would be available when it was not being used by the American Legion team, and at times the baseball field just west of City Gin will be available. The baseball field at the school will not be available due to the construction work going on, and heavy equipment on and near the field.

Someone, who has vacant lots which are not being used, could certainly perform a community service by designating this space as a baseball field for the youngsters. Once space for a baseball field is acquired, plans can then be initiated to sell advertising space on an outfield fence. The income from the sales of advertising space would more than pay for the fence, a backstop, and equipment for the teams. This procedure has proven successful in other area towns, and there is no reason why Abernathy should be an exception.

Mrs. Henry Struve was under treatment in Methodist Hospital, Lubbock.

Hits & Mrs.

The Mixed Doubles League got under way at A-1 Lanes last week, with only three teams coming through without a loss. They were the Simpson and Smith, Davis Four, and Lebow and Selke couples.

High team game and high team series were taken by the Lebow and Selke four with 808 and 2295 respectively. Phillips and Riley were second with 793 and 2278, while Drace and Evans were third with 786 and 2243.

The second week of bowling in the Men's Major League left only two teams on top without a loss (Team Numbers 3 and 14). In this league last Thursday night, Wayne Ray took high individual game honors with 234 and high individuals series with 613.

Mr. and Mrs. R. T. Price of Austin visited here last week in the home of Mr. and Mrs. Clyde Benn and daughter, Suzan. Mr. Price is a former manager at Tuce, and Mr. Benn is a former employee of Southwestern Public Service Co.

MRS. M. G. ABERNATHY DIES IN LUBBOCK

Mrs. Monroe G. Abernathy, 94, Lubbock, Pioneer of the South Plains, died Saturday in the Hub City. Funeral rites were held there Sunday, and burial was in the City of Lubbock Cemetery.

Included in the list of survivors is her husband, one of the founders of Abernathy and Monroe (New Deal). Appearing for her husband, who was unable to attend, Mrs. Abernathy rode near the head of the parade during Abernathy's Golden Anniversary Celebration last July.

Mrs. Gid B. Adkisson, Jr., underwent surgery early this week at a Lubbock hospital.

Sue Williams, daughter of Mrs. Harry E. Williams, has returned home for the Summer from Canton, Missouri, where she is a junior student at Culver-Stockton College.

Meeting Date Set For June 20

The City Council has called for a meeting of all persons of Abernathy interested in being on the fire department force or interested in backing the local fire department to be held Monday night, June 20, at 8:00 o'clock at Abernathy City Hall room.

This is an all-out effort to reorganize the present fire department and get the force fully manned and functioning properly as required by the State Board of Insurance specifications.

According to a letter from the State Board of Insurance, Austin, unless the Abernathy volunteer fire department meets certain requirements within the next 60 days, Abernathy will be placed in the unprotected class with a key rate of approximately \$1.00. In dollars and cents, this would mean an additional \$13,000.00 each year that the citizens of Abernathy will have to pay out in fire insurance premiums.

The letter is published in this issue of The Review.

This is a serious matter, and should not be overlooked. The City Council approved a motion to aid the fire department financially, paying into the department fund a certain amount per man for each drill session attended.

Everyone who is interested in any way is urged to be present at the meeting Monday night, May 20, at 8 o'clock, in the club room. Fire department personnel will meet with the City Council Monday night included Ed Crow, resigning fire chief, C. J. Berutti, Eddie Eldridge and L. J. Daniel.

News From The Rec Center

About 50 individuals from three years of age on up are now enrolled in swimming classes at the Recreation Center Pool, according to Mrs. Lonnie Brownlow, Recreation Center secretary.

A meeting for the purpose of organizing the swimming classes was held in the city hall club room Monday morning, with a very good turnout reported. However, there is still room for additional students in the various swimming classes according to Mrs. Brownlow. There is plenty of room in the intermediate class for several more students. There is also an adult women's class which has room for more of that age group.

Mrs. Brownlow stressed the fact that you do not have to be a member of the Recreation Center to be eligible to take swimming lessons.

Since there were so many three-year-olds desiring to take swimming class, a class of 3-to-5 year-olds was started. It had previously been planned that the age group would start at the 5-year-old level.

Ann's Dress Shop Sets Dates For Formal Opening

Since buying the dress shop and taking charge of the business on April 29, Mrs. Annie Williams has not closed the shop and business has gone on as usual. However she had in mind a number of changes she wished to make and most of these she has accomplished without closing. She and Mr. Williams have spent a number of nights and most of the Sundays and holidays working at the job of painting and re-arranging.

They have re-arranged the whole rear of the store by building a spacious dressing room and doing away with the two tiny ones. There is now ample room for fitting, measuring and changing. Several mirrors have been conveniently mounted in this room and there is a divan and chairs; also rugs on the floor and other conveniences. The wrapping counter has been moved to a more advantageous location. All shelving has been re-painted, as well as renovated. Base boards have been installed at the bottom of the dress booths and have been painted.

A raised platform has been built in the show window and it is carpeted. The display in the window is much more effective than formerly.

All this has been in preparation for a formal opening which is now announced. See Ann's Dress Shop ad on page 4 of this issue.

Six farmers have reported loss of batteries from irrigation motors recently, Blanchard said.

MAPS AVAILABLE
 Austin — Texas' Official Highway Travel Map, 1960 - style, is now available to the general public. Free copies of the big-colorful map may be obtained by writing the Texas Highway Department, Austin 14, or at the highway dis-

trict offices and travel bureaus. County tax offices have map cards on hand for requesting copies of the map.

DRIVE SAFELY — A 'tight nut' at the end of a steering wheel isn't a safety device.

Follow Simple Rules In Automobile Accident

Vacation time is near. Soon millions of people will be driving about the country, and automobile accidents will occur with increasing frequency. What should a person do when involved in an accident?

At such times it is hard to keep your wits about you and know just what to do. It is therefore a good idea to plan in advance just what you would do in event of a smash-up. Here are a few simple rules that every driver should commit to memory:

1. **Stop!** Failure to stop can result in serious criminal consequences.
2. **Render Aid.** If anyone is injured: (1) Render first aid. (2) Stop bleeding. (3) Call a doctor or an ambulance or both. (4) Do not move an injured person in any way that could possibly add to his injury.
3. **Protect the Scene from Further Damage.** You may be liable for damages to approaching drivers, unless they are properly warned. If the highway is obstructed at night, have someone turn his headlight beams on the wrecked vehicles.
4. **Call an Officer.** Policemen, Highway Patrolmen, Sheriffs and their deputies are trained accident investigators whose testimony may be invaluable in establishing your civil claim for damages.
5. **Gather Information . . . Write It Down.** Don't trust your memory. Don't guess — be specific. Measure skid marks. Step off distances. Be sure to obtain names and addresses of witnesses. You are required by law to exhibit your driver's license to the other driver—and he must do the same.
6. **Be Careful What You Say.** Even if you feel you probably are to blame, it is best to make no admission. You may learn later that the other driver was equally at fault, or more so. Emotional comments can be misconstrued by others, or may be misquoted. Whatever you say, make it factual.
7. **See Your Doctor** if there is the slightest chance you may be injured. Serious injuries do not always result in immediate pain or bloodshed.
8. **Consult Your Lawyer Immediately.** The sooner your lawyer is brought into the matter, the better he can advise you and protect your rights. He can obtain statements from the witnesses while their memories are fresh, and do many other things to insure that the true facts are preserved. Get your lawyer's advice before giving any interview or statement to investigators or adjusters for the other side.
9. **Inform Your Insurance Company Promptly.** Failure to do so may void your policy.
10. **Report the Accident to the Department of Public Safety.** This is required by law if there is any injury, death, or total damages exceed \$25.00.

An official accident report form may be procured from the Police, Sheriff's Dept., Highway Patrol, or State Dept. of Public Safety. (This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

DRIVE SAFELY — The best safety known device is about nine inches above your shoulders.

Weed Control District Buys Field Sprayer

The Hale County Noxious Weed Control District has recently purchased additional equipment, including a new field sprayer, and is ready to continue with its war on noxious weeds. As in the past, the District will furnish its herbicide application equipment and

Colorado, which has but two cities of 50,000 population or over, according to the 1950 census, is to get a third one of that size in July, 1960, when a 2,000-acre tented city—rises at the Reverse

J Diamond Ranch about eight miles from Colorado Springs, Colorado.
The ranch will house the Fifth National Jamboree of the Boy Scouts of America, the high point in the celebration—fifty years of that organization in this country. Engineers have made ready the location of thirty-nine sectional

camp, each of which will have a population of about 1,400 persons. Each section will have its own health lodge, water supply, shower baths, and commissary. This newest, youngest, and busiest city of approximately 56,000 will team with excitement. Living together will be boys from all walks of life, of all races and creeds. They will exchange skills, swap home-town products, and learn about the customs and traditions of many sections of the nation.

There will be pageants, campfires, ceremonies, and music. There will be demonstrations of all types of campcraft and Scoutcraft, swapping and friendship-making, and the opportunity of seeing some of America's outstanding citizens.

The South Plains Council, Boy Scouts of America, under the leadership of John Thomas, Chairman of the Jamboree Committee, a resident of Falls, will have 299 Scouts and Scouters in the Council's Contingent. Included in the list will be Frederick Been of Abernathy.

Postal Service To Be Improved

Postmaster General Arthur E. Summerfield announced sweeping improvements in mail transportation that will mean better mail service for Abernathy, Texas, and 124 other communities in the Amarillo and Lubbock metropolitan areas, covering over 37,000 square miles.

Discussing the program at a meeting of postmasters in Amarillo, Geo. A. Gray, Regional Operation Director, said that 900,000 people in the 40 Texas counties

would benefit by better mail service.

Barring infrequent delays in media of transportation and occasional distribution errors, first-class letters mailed at designated collection boxes or in the post office before 5:00 p.m. on a business day will be delivered on the first delivery at any office in the areas on the following business day.

"Tests just concluded," Mr. Gray said, "proved the mail pat-

tern to be highly successful. Approximately 600,000 first-class letters originate on an average business day in post offices within these two metropolitan areas. Approximately 66 percent of this mail is designated for points within the area. We have tested our newly changed operations with highly gratifying results."

He pointed out that mail for and from offices outside the area, all over the United States, will be expedited by the new arrangement. Accelerating the flow of mail in the metropolitan areas, it was explained, is part of the next-day delivery program which has vast postal program between any two cities in the country as its long range objective. The revised mail pattern is based on the establishment of sectional centers to which mail from outlying offices is brought for consolidation, distribution and onward dispatch for connection with trunk line facilities, principally at Amarillo.

These sectional centers have been established at Amarillo, Childress, Lubbock and Plainview. Post Offices near one of these sectional centers will send their mail to that point for processing. Fast non-stop service over the highway then will carry the mail to Amarillo and Lubbock for dispatch to destination. Special connections have been established via fast truck service north of Amarillo.

Some towns could not be brought within the plan because of the distance involved; however, slightly earlier mailing would assure the mailer the benefit of metropolitan area service.

Mobile sectional centers, which consist of male distribution cars in trains and buses equipped for en route distributors, are also utilized in the program.

The plan required an intricate pattern of interlocking schedules, with connections being made within a matter of minutes at many places. For instance, a letter from Roaring Springs to Levelland travels over six different routes, including one train; it is transferred at five different locations.

Mr. Gray explained that the next-day delivery depends on the conscientious attention of postal employees as well as the closely integrated time table which governs the area's postal units and the transportation linking them together.

He said this improvement in letter mail service is the result of intensive study, and he credits the cooperation of dedicated postal employees in the 125 offices involved.

The counties in the area are Armstrong, Bailey, Briscoe, Carson, Castro, Childress, Cochran, Collingsworth, Cottle, Crosby, Dallam, Deaf Smith, Donley and Floyd.

Also Foard, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Hemphill, Hockley, Hutchinson, Lamb, Lubbock and Moore.

Also Motley, Ochiltree, Ogdham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, Terry, Wheeler, Wichita and Wilbarger.

Drum Major, Assistant Drum Major, And Majorettes Selected; Band Officers Elected

At the close of school tryouts for Drum Major and Assistant Drum Major were held. D. W. Crain, Jr., band director, announced that Doyle Johnson will again serve as Drum Major and Peggy Evans as Assistant Drum Major. They also served in that capacity last year.

Doyle is a son of Mr. and Mrs. I. L. Johnson and Peggy is the daughter of Mr. and Mrs. M. D. Evans. Doyle was recently chosen President of the AHS Student Council. Peggy served as manager for the girls' basketball team and is active in FHA work. They both will be seniors in AHS this fall.

Majorettes were also conducted, with Linda Faver, Diann Owen, Jan Exum, Shirlee Nesbitt and Lucrecia Crenshaw being selected again to serve in that capacity. All five will be seniors this fall, and they are all experienced in baton twirling.

The judge for the tryouts was Maurice Jones of Odessa.

Band Officers were also elected at the close of school. Ronald Barrick, son of Mr. and Mrs. Hilburn Barrick and a mem-

ber of the AHS football squad, was elected to serve as Band Captain.

First Lieutenant is Jimmy Burnett, son of Mr. and Mrs. George Burnett. Jimmy is also a member of the AHS tennis team.

Second Lieutenants chosen are John Brown and Mike Ritchey. John is a son of Mr. and Mrs. Jack Brown and Mike is a son of H. T. Ritchey. Both boys are members of the football and basketball teams.

All the above officers will be senior students this fall. Class Representatives for the band will be chosen when school begins this fall.

WW I VETS TO MEET IN PLAINVIEW TUESDAY

A meeting of the Veterans of World War One and Auxiliary is to be held in Plainview Tuesday, June 14 which is Flag Day. E. J. Evans, State Commander, will be there to inspect the bar, and install officers. He will also present citations for outstanding service.

Refreshments will be served at 8 p. m., at 111 Ash St., American Legion Hall, Plainview.

Farm tractors can be killers. If you don't think so, points out the Texas Farm and Ranch Safety Council, watch the reports on farm accidents. The next fatal accident, they warn, could involve you. Don't take chances that could lead to disaster.

Local Riding Club Wins Second Place

Forty-four members of the Abernathy Riding Club rode in the Bar None Parade and Rodeo Grand Entry at Plainview Thursday, June 2, and won a handsome Second Place trophy. The Santa Rosa Riding Club of Vernon won first place.

All members are urged to attend riding and parade practice on Sunday afternoons when weather permits.

The Southern tour will start at Memphis, Tennessee, June 13 and will cover Tennessee, Arkansas, Louisiana, Mississippi, Alabama, Florida, Georgia, North Carolina, Kentucky, Indiana, Illinois and Missouri. It will be completed in Memphis July 1.

PROGRESSIVE BUSINESS AND CIVIC-MINDED PEOPLE OF LUBBOCK AND VICINITY

This department has been worked up largely as a reflection of public opinion. No person has written of themselves or their business. All articles have been compiled by a representative of The Abernathy Weekly Review as he saw conditions. These people are all leaders in their various lines of endeavor and the co-operation of those citizens in Lubbock who helped make this department possible is sincerely appreciated.

DAVID C. WEAVER

Every progressive and successful business man in Lubbock contributes in some manner to the growth and progress of the city. And a man who is always willing to do his part in both civic and business activities is David C. Weaver of the David C. Weaver Grain Company, who is well known and has many friends and business associates throughout this entire district.

The prominent part that The David C. Weaver Grain Co. is playing in the business and commercial life of Lubbock and the South Plains mirrors the progressiveness and ability of such men as he. Furthermore, Mr. Weaver has also at all times been steadfast in his devotion to the city, and the surrounding country, and on many occasions, has lent his support to the successful promotion of meritorious civic projects.

Lubbock and this district are fortunate to have such a man as David Weaver in a position of responsibility and service, and this newspaper feels that it merely reflects public opinion in paying this brief tribute to one of the city's more progressive business men.

LLOYD A. BOTTS

Recognized as one of the more progressive business men of Lubbock, Lloyd A. Botts of the Western Storm Window Company, performs a real service for the people of Lubbock, and his contributions to civic betterment are too well known to require repetition in these columns. His personal success has been achieved, in a large measure, because he never misses an opportunity to further the service he renders to the public. He is ever ready and continues to build up good will for the Western Storm Window Company throughout this entire district.

Mr. Botts is deserving of praise, and this small tribute is but a just recognition for the many services which he has performed in the way of both business and civic activities. Also his reputation for the successful conduct of his business affairs is no greater than his reputation for the honest practices which characterize his every transaction.

H. D. "PETE" PEVEHOUSE

H. D. "Pete" Pevehouse has proved his progressiveness by constantly adding to and increasing the service which the recently established Pete Pevehouse's Standard Service, located at 42nd & Avenue A, has extended to the people. The large volume of business handled by his Chevron station proves that "service" to him, is not "just a word" but something to be rendered to the motoring public to the fullest extent of his ability.

In addition to his close attention to his business affairs, Mr. Pevehouse was never a man to dodge his civic responsibilities, and help in those matters has always been cheerfully given.

He fully appreciates the value of good will, and has more than his share of that intangible commodity because of the manner in which he meets both business and civic obligations. He is a credit to the community, and is thoroughly established in the forefront of the business life of the city.

O. T. TRUMBLE

In all business and professional pursuits there are men who have met with success because they have honestly deserved it, and such a man in his field is O. T. Trumble of Trumble Steel Erectors, who well deserves the reputation he has earned for being one of Lubbock's more progressive business men. His thorough knowledge of everything pertaining to the steel erecting contracting business is exemplified by the manner in which he fulfills each and every demand upon him in line with his business.

Moreover, such experience as Mr. Trumble has gained in the successful management of his business has been turned to the advantage of his fellow citizens by applying the same principles to the promotion of those civic projects to which he has been called upon to lend his able assistance. Thus his success in business has further enhanced his value to the city.

We appreciate the opportunity of including O. T. Trumble in this group of progressive and civic-minded men who are actively taking part in the evolution of the business and commercial life of Lubbock.

CLEO VOLENTINE

Recognized as an authority on all sign painting contracting problems, Cleo Volentine of Volentine Signs, located at 1111-B 41st Street, has turned his knowledge to the advantage of the people of Lubbock and vicinity. More than that, Mr. Volentine is a man who has

always been vitally interested in the civic betterment and progress of the city, and he backed up his interest by lending assistance, in one form or another, to the successful promotion of many things which have benefited the community as a whole. Lubbock owes much to such men for their part in making the city the business center of this area.

He has always been alert to the many opportunities for service, and more than ready to recognize and accept his share of civic responsibilities.

Because of these things, Cleo Volentine has become accepted as a progressive man who is an asset to both the business and commercial life of the city, and we must be well content to serve the people of Lubbock and the surrounding area in his present capacity for many years.

C. R. "DICK" BALLENGER

Because this is a period of growth and expansion for Lubbock, those progressive business men who had the foresight and ability to lay their plans so as to be able to take advantage of those conditions, are entitled to more than ordinary acclaim. We are therefore, glad to pay tribute to C. R. "Dick" Ballenger of the Ballenger Construction Company, for he has become a well known figure in the business and industrial life of the city.

Mr. Ballenger's persistent optimism and steadfast belief in the continued future prosperity of the people of Lubbock and vicinity are characteristics which are deserving of our highest praise.

Dick Ballenger has also always shown a willingness to do his part in civic advancement, and has contributed his bit, in one form or another, to projects promoted for the welfare of the city. We believe that a business man of this kind is entitled to our sincere praise, both because he has achieved success in his private affairs, and because he is willing to contribute to the public good.

R. C. SEAVER

R. C. Seaver of the Western Motor Company, located at 2015 Clovis Road, is one of those dependable used car dealers of Lubbock who has consistently forged ahead in his business. He has also put his shoulder to the wheels of civic progress whenever concerted help was needed in furthering enterprises promoted for the general welfare of the community.

Mr. Seaver was never a man given to wishful thinking. Because his methods are those of direct action, and whether the problem at hand is one concerning his own business or that of a civic nature, he attacks it with optimism and vigorous enthusiasm. Add to this his acknowledged business ability and his keen sense of values, and it is easily understood why he is almost invariably successful in business or other matters.

We feel that it is our duty to call attention of our readers to these worth-while characteristics of R. C. Seaver, and to pay him a well-deserved tribute for his straight forward business methods, and for the unselfish interest he has shown in public welfare.

JEFF D. MORAN

At the head of one of the district's more prominent wholesale hardware supply firms, and as a leader of recognized ability in community life, Jeff D. Moran stands out today as one of the best liked men on the panorama of Lubbock activity. His friends are numbered by the hundreds, and all of them are of the lasting fiber which come from worth-while associations, both in the world of business and in the realms of neighborhood life.

The West Texas Wholesale Supply Incorporated, of which he is the manager, has been a strong factor in the growth and progress of Lubbock, and Mr. Moran's own efforts, in many instances, have been the stimuli behind the outstanding accomplishments of the wholesale hardware supply firm.

The case is a fine example of a man weaving his own personal prominence into an executive's life, with lasting benefits to both organization and individual.

We take pleasure in expressing these few words of commendation to a man who has done so much to promote the growth and progress of this entire district.

HARTMAN H. COURSEY

It is because of the unfailing optimism and faith which he so consistently displays toward the future of Lubbock and vicinity that we are prompted to call the attention of our readers to the fine service which Hartman H. Coursey of the Western Transfer Company, located at 102 East 74th Street, performs in the successful conduct of his business.

Mr. Coursey is an aggressive and resourceful personality whose progressive policies have earned for him a widespread reputation as a business man of more than average ability; and his apparent willingness to devote some of that ability to the promotion of civic activities further enhances his value to the city.

The safety and efficiency of the

operations of the Western Transfer Company, reflecting as it does the executive ability of this man, has earned for the firm a well deserved popularity among the people they serve.

We are glad to give H. H. Coursey the credit he so well deserves for his achievements, and to wish for him a continued successful career as one of Lubbock's more progressive business men.

FRED DINGLER

We desire in this Lubbock review to call the attention of our readers to the well-earned position which Fred Dingler has reached in the business life of this section. During the comparatively short time he has been the manager in Lubbock of the Western Paper Company, he has made many personal friends as well as having earned the good will of his associates for the straight-forward manner in which he has conducted his business affairs.

Mr. Dingler has worked hard to deserve the confidence which the people of the community have in him, and he continues to work hard to maintain in every way, that high standard which he has set, not only for himself but for the operation and management of the Western Paper Company as well.

He has also shown a willingness to assist in every manner at his disposal in the growth and development of Lubbock, and is always ready to lend his support to civic projects. Fred Dingler deserves our heartiest congratulations on the splendid record he has already established, and we sincerely hope for his continued success.

WAYNE PRATHER

We wish in this edition to pay tribute to Wayne Prather, general manager of the West Texas Compress & Warehouse Company, and the Western Warehouse Company in Abernathy, for his many services to the city of Lubbock, and his splendid record of achievements in the business and commercial life of the city.

Mr. Prather probably has as wide a circle of friends as any other man we could name because he is just naturally the kind of man who makes friends with almost everyone, and always conducts himself in such a manner as to deserve the good will of all who know him.

Lubbock is fortunate in being able to number, among its more progressive business men, citizens of this type. He is always ready and willing to lend his support to the promotion of any project which promises to benefit this entire district.

MRS. CECIL WHIPPLE

There are many men and women in their chosen fields who have gained recognition for the progressive manner in which they have conducted their business and accepted their civic responsibilities but who will not permit much to be said of their achievements.

But in reviewing a group of such citizens we should include Mrs. Cecil Whipple of the Whipple Carp & Awning Company, located at 3810 Avenue A, for she is a woman who has always done her work effectively even though it has been accomplished in an unobtrusive manner.

Mrs. Whipple, busy as she is, always manages somehow or other to do her bit in any movement calculated to benefit the community as a whole. Her modesty however, will not permit her to say the things about herself which are said by her friends, who do so because of a personal knowledge of her activities.

We do not hesitate to recommend Mrs. Cecil Whipple to our readers as a citizen who continues at all times to work to the advantage of the people of this entire district.

JERRY D. JONES

Our issue today purposes to call attention of our readers to some of those progressive and civic-minded men who have contributed their share of time and energy to the building up of Lubbock and the surrounding territory to the position of prominence which it enjoys at the present.

One of these men to whom we wish to call the attention of our readers is Jerry D. Jones of the Western Wrecking Company, located at 2722 Texas, a firm that has long been known as a leader in the wholesale and retail automobile and truck parts, new and used business.

He is a man who has never spared himself in his aggressive march forward, and one whose competitors respect as much as do all others with whom he comes in contact.

Mr. Jones is at all times conscious of his civic responsibilities, and may be depended upon to meet in every detail the many opportunities which present them-

selves to be of service to the city.

Jerry Jones' record of achievement is one of which he may well be proud. His value to his city, and this district is an established fact, and we hasten to give him the credit which is his just due.

L. B. PULLEN

Having a well-earned reputation for honesty, dependable judgment, and a complete knowledge of the insurance business far above the average, L. B. Pullen, President of the Central American Life Insurance Company, merits a brief tribute in this Lubbock review.

Without assumption or seeking public acclaim, he has filled his place in the community as one of its solid citizens, performing his duties of citizenship quietly, yet efficiently.

As a leading and progressive business man, Mr. Pullen holds a high position in the esteem of the public generally.

It is not only as a practical executive whose sound judgment and far-sighted planning have brought such fine things to himself, but it is because of his inspiring optimism and loyal friendship that L. B. Pullen is held in such high regard by the people of this entire district.

We gladly praise the record of this dependable Lubbock insurance executive.

DUANE HERINGTON

Duane Herington, who just recently moved to the operation and management of Cline's Corner 66 Service Station, located at 2501 34th, now known as Duane's 66 Service Station, quite readily demonstrated his unusual ability by his quickness to appreciate the obligations and responsibility of his new endeavor, and to conduct his affairs accordingly.

Although he has been operating the business for a comparatively short time, he has already made many new friends and satisfied customers for his Phillips 66 Station.

Mr. Herington is an active, energetic man whose sincere and friendly personality and desire to be of service is rapidly earning a place for him in this district. He has already taken an interest in community activities, and in due course of time will assume his full share of civic responsibilities.

Duane Herington deserves a word of praise for having so quickly established himself in his new venture, and we are glad to give him this brief, but sincere mention.

GLENN RIDGE

Lubbock owes much to those progressive citizens who have taken an active part in the growth and progress of the city, and who have helped to make it the business center for this section of West Texas. In mentioning some of these men, it is only fair to include Glenn Ridge of Woodfin's Boot & Shoe Shop, located at 3313 24th Street, whose outstanding knowledge of the boot & shoe repair and maintenance business, backed up by his many years of experience, has brought him to the forefront of his particular field. He also has a modern and up to date dyeing department for fabric and leather shoes.

Mr. Ridge is wholly deserving of our sincere praise, and these few words of commendation are but a just recognition for the many activities he has conducted on behalf of the general welfare of the community.

The honest and successful conduct of his business affairs is not only a reflection of his character, but has also been a strong factor in maintaining him in a position of leadership in his field of endeavor.

We trust that Glenn Ridge will continue to serve the people of Lubbock and the surrounding area for many years to come.

CHARLES B. HANSON JR.

In compiling this review of progressive Lubbock business men, it is fitting that we should include some of those men who, by their aggressiveness, have definitely established themselves in the business and commercial life of the city.

Such a man is Charles B. Hanson Jr., the manager in Lubbock for International Business Machines Corporation, who also deserves an additional word of praise for being more than just successful. He is a consistent and enthusiastic booster of the community and in his way has done much to advertise the city.

Mr. Hanson has pursued the progressive policy of stepping up his business ahead of the times, thus setting a pace for which he has earned the reputation of being a go-getter who does not sit back and wait for the business to come to him.

We are glad to pay tribute to Charles Hanson Jr., and to point out to our readers that his sincere desire to be of service, coupled with his aggressive methods are largely responsible for the standing of International Business Machines throughout this entire area.

F. C. ODORIZZI

F. C. Odorizzi, the manager of Wicker Incorporated, has won the universal respect and good will of the people of Lubbock and the surrounding country for the progressive manner in which he has kept this dependable firm in the forefront of the business, and commercial life of this entire district. Also for the efficient and friendly willingness he has displayed in accepting his share of responsibility in aiding civic projects.

Mr. Odorizzi is not the kind of man who makes himself conspicuous by the manner in which he conducts himself, either in business or other matters. Yet, his quiet reserve and air of confidence mark him as a man of sound judgment whose opinions and advice are sought after and listened to with respect.

We compliment F. C. Odorizzi for the successful management of Wicker Incorporated, and also for his constructive advice and help on those civic affairs in which he has found time to interest himself. He is a man whom many are proud to call friend.

SHEDRICK E. JONES

It is fitting in this review of progressive Lubbock business men that we acquaint our readers with the man to be credited with having maintained the Lumbermens Investment Corporation in the enviable position it holds in the business and industrial life of this area. That personality is Shedrick E. Jones, the manager, whose genius for organization and for converting new ideas into actual deeds has played a vital part in the distinctive reputation which the corporation now enjoys throughout the entire district.

Mr. Jones has found time, in addition to his business interests, to give thought and energy to community projects. He is a citizen whose talents have been steadfastly devoted to the best interests of the city. He has been successful in his own business, and in the promotion of the general welfare of the community.

We are glad to pay this brief tribute to him, and to say that this district owes much to the many benefits which Shedrick Jones and the Lumbermens Investment Corporation have rendered to the people throughout this entire area.

DEAN WYLIE

In bestowing credit upon some of those progressive business men of Lubbock, who in one way or another, have contributed their bit to improve both business and civic conditions, we wish to publish a few words about Dean Wylie of the Dean Wylie Texaco Service Station, located at 611 on College.

Mr. Wylie has set a standard for himself and the operation of the business that, under present existing conditions, has been very difficult to maintain. However, that he has done so is proved by the large volume of business which his Texaco Service Station continues to handle, much of which is due to his unceasing attention to detail and his ability to cope with new and unexpected problems.

Dean Wylie is also civic-minded and has, when asked, cheerfully cooperated on those activities to which he has been able to lend assistance. He more than deserves the respect and good will which he has earned, and we and his friends are confident that he will continue to maintain his usual integrity and high standards.

Rabies Reported In Many Areas Of The State

College Station.—Many reports of rabid animals—chiefly foxes and skunks—are coming in from over the State, says Edwin Cooper, extension wildlife specialist.

Since complete eradication of animals subject to carrying rabies is almost impossible, everyone should be aware of methods which lessen the possibility of contracting the disease, Cooper continues.

Contrary to popular belief, rabid animals do not have "running fits" nor "froth at the mouth." A rabid animal is usually characterized by symptoms of paralysis and loss of their usual fear of humans or natural enemies. Therefore, Cooper says children should be cautioned to avoid any animals which appear to be acting strangely.

Foxes, strange dogs and skunks especially should be avoided. Rabies also can be carried by domestic livestock, bats, squirrels and several other mammals. Rabies may occur during any season of the year, Cooper emphasized. A "deodorized" pet skunk, for example, may be a dangerous creature to have around, in spite of the novelty and interest it may afford.

If a person is bitten by any type of wild or domestic animal, the person should immediately report to the family doctor after making every effort to capture and pen the attacking animal for observation purposes if this can be done safely. If it is a wild animal, it should be killed unless capture can be accomplished without risk of another attack. Instructions for having the animal checked for rabies can be obtained from your doctor or veterinarian.

Consult your veterinarian to make certain your pets are properly vaccinated. Strays, untagged or suspicious acting domestic or wild animals should be reported immediately.

Contrary to popular belief, rabid animals do not have "running fits" nor "froth at the mouth." A rabid animal is usually characterized by symptoms of paralysis and loss of their usual fear of humans or natural enemies. Therefore, Cooper says children should be cautioned to avoid any animals which appear to be acting strangely.

Foxes, strange dogs and skunks especially should be avoided. Rabies also can be carried by domestic livestock, bats, squirrels and several other mammals. Rabies may occur during any season of the year, Cooper emphasizes. A "doberized" pet skunk, for example, may be a dangerous creature to have around, in spite of the novelty and interest it may afford.

If a person is bitten by any type of wild or domestic animal, the person should immediately report to the family doctor after making every effort to capture and pen the attacking animal for observation purposes if this can be done safely. If it is a wild animal, it should be killed unless capture can be accomplished without risk of another attack. Instructions for having the animal checked for rabies can be obtained from your doctor or veterinarian.

Consult your veterinarian to make certain your pets are properly vaccinated. Strays, untagged or suspicious acting domestic or wild animals should be reported immediately.

"IT WAS BUY A DISHWASHER OR BE ONE. I BOUGHT ONE!"

SAYS

MR. FRANK BARTLETT,

1010 2nd Street

ABERNATHY

TEXAS

"Our family has time for games after dinner while our dishes are washed electrically," say Mr. and Mrs. Frank Bartlett.

Both Mr. and Mrs. Bartlett are school teachers, and before the children arrived, Mr. Bartlett helped by taking care of the dishes. When Mrs. Bartlett returned to her teaching duties, Mr. Bartlett decided to let Reddy do the dishes.

The Bartletts bought a portable because they like the convenience of loading dishes at the table. When they built their new home, they kept the portable, designing space to accommodate it.
