MR. AND MRS. DENNIS BARKER AND DAUGHTER DENISE

## TUCO TOPICS

By REVA FLORENCE

Dennis and Toni Barker are "old-time" residents of the Abernathy community; in fact, Toni was ten months old when she came to this community with her parents who settled on a farm five miles southeast of the site of Abernathy. At that time she was known as Toni Goeth. Although they have lived in the community several years, they have lived in house 4 at TUCO the past seven years at this past March.

Before Dennis began his employment with Southwestern Public Service at TUCO he worked the county and at times worked on special jobs at TUCO under the management of Ralph Price and Pete Renfro. He began as a steady employee of the company September 1, 1944 under the management of Pete Renfro.

Dennis began his service as a maintenance helper; from this position he was promoted to Fireman, then to Maintenance Helper with duties mostly as a welder. From this position he undertook the duties of a Journeyman Mechanic, and then was promoted to Maintenance Foreman, the position he now holds.

During these years of service with TUCO Dennis has shown great aptitude and interest in improving his capacities in his field of work. He has taken advantage of the special training schools and other activities that would improve his performance as a TUCO employee. Because of his training he received in the four-year training school sponsored by the company through the Amarillo Junior College the past four years, he holds a certificate and pen as awards for his efforts.

This school was approved by the State Board of Labor Statistics and the program of study was

chanic, and then was promoted to Maintenance Foreman, the position he now holds.

**ROTARY LAWN MOWER CAN BE LETHAL WEAPON**

College Station—Did you know a rotary power lawn mower blade travels at speeds up to 150 miles per hour and is capable of throwing sticks, stones, or other objects at comparable speeds? Imagine what would happen if you were hit by one of these fast-flying objects.  
 Power lawn mowers are now in the majority both in town and among farm people. Along with

their increased use has been a closely related increase in accidents involving both operators and bystanders. Most accidents have been due to carelessness or lack of knowledge on the part of the individual.  
 Cattle shrinkage can cut down profits or, in some cases, can even mean the difference between profit or loss. Handle cattle to keep shrinkage at a minimum, advise Lloyd Bargma, extension livestock marketing specialist.

### New Law Benefits Disabled Veterans

Austin, Texas—A large number of Texas veterans who have serious handicaps resulting from active military service will benefit from a law recently enacted by Congress and signed by the President. This announcement was made today by Charles L. Morris, Executive Director of the Texas Veterans Affairs Commission in Austin.

Veterans who have disabilities resulting from service in the Armed Forces may receive compensation from the Veterans Administration for these disabilities. If the service-connected condition is disabling to a degree of 50 percent or more, additional allowances are payable to the veteran on account of his wife, dependent children and dependent parents. Prior to passage of the new law, this additional allowance was payable on behalf of only three of the veteran's children.

The new law provides for an additional allowance for all dependent children of the veteran, if the veteran has disabilities of service origin evaluated at 50 percent or more. Those disabled veterans who are receiving compensation at 50 percent or more, and who have more than three dependent children are advised to contact their nearest Veterans Affairs Commission office or Veterans County Service Officer for additional information and assistance in obtaining these additional benefits.

Morris stated that this new law became effective on July 1, 1960, and benefits payable as a result of the new law will be effective from the date the Veterans Administration receives proof that the disabled veteran has such additional dependents.

### "THE AUTHORITY OF JESUS CHRIST"

BY ROY DEAN VERNER

Reading Time: 4 Minutes

A law enforcement officer is commissioned by the state government to carry out his responsibility. He has authority from the governor to arrest those guilty of committing a crime. For any officer to perform his duties in any capacity he must have the authority to do so. As this is true in civil government it is also true in spiritual government. There must be recognized authority in religion.

The head of the church is Christ. "And he is the head of the body, the church; who is the beginning, the first born from the dead; that in all things he might have the preeminence." (Col. 1:18). Since Christ is the church's head he must have authority. What then, is the authority of Christ? "And Jesus came to them and spake unto them saying, All authority has been given unto me in heaven and on earth." (Matt. 28:18). Since Christ has all authority, what is His standing with the Father? The author of Hebrews answers this question as follows: "Wherefore, holy brethren, partakers of the heavenly calling, consider the Apostle and High Priest of our profession, Christ Jesus; Who was faithful to him that appointed him, as also Moses was faithful in all his house. For this man was counted worthy of more than Moses, inasmuch as he who hath builded the house hath more honor than the house." (Heb. 3:1-3). Because of the position and authority of Christ every follower of Him must be in subjection to Him. To disregard his instructions is to fail to observe

his authority. To do only a part of what Christ has commanded is not only disobedience, but it is a failure to observe the authority of Christ.

Many are guilty of failing to recognize the authority of Christ. They recognize what He has said is true, but they consider their opinions, and beliefs just as valid as the commands of Jesus. There are those who say, "I know that Jesus said 'He that believeth and is baptized shall be saved,' but I still believe I can be saved by just doing what I think is right. I believe I can be saved by just accepting Him as my personal Saviour." When Jesus stated His authority in Matthew 28 He commissioned His apostles saying, "Go ye therefore and teach all nations baptizing them in the name of the Father and of the Son and of the Holy Ghost: Teaching them to observe all things whatsoever I have commanded you." When one fails to teach this gospel he fails to comply with Christ's authority.

Which are you following? Are you in subjection to the authority of men or of Christ? Do you use the New Testament (the words of Jesus) for your authority, or do you follow the disciplines of men? Remember, Jesus has all authority. Man has no authority to change, amend, or delete from the pages of Holy Writ. He must accept it as it has been given, or be condemned by its teaching in the Judgment. If you are not a Christian, why not becoming one today.

# PROGRESSIVE BUSINESS AND CIVIC-MINDED PEOPLE OF LUBBOCK AND VICINITY

This department has been worked up largely as a reflection of public opinion. No person has written of themselves or their business. All articles have been compiled by a representative of The Abernathy Weekly Review as he saw conditions. These people are all leaders in their various lines of endeavor and the co-ordination of those citizens in Lubbock who helped make this department possible is sincerely appreciated.

## LEON AND LOUIS BERRYHILL

Leon and Louis Berryhill of Berryhill Brothers, located at 2835 Clovis Road, are two of those progressive business men who have always done their bit to maintain the prestige of the city of Lubbock as the leading business center for this section of West Texas. They have always worked for the development of the city, and their many services are worthy of sincere appreciation.

Their well earned success as business men is easily understood, knowing as the people do their widespread reputations for the honesty which characterizes all of their business dealings.

And it is a combination of technical knowledge, professional skill, and business ability which have elevated the Berryhill Brothers to positions of leadership in the sewer service business, with emphasis on cesspool drilling contracting.

They are completely aware of their civic responsibilities, and are wide awake to the many opportunities for service, and always ready and willing to lend their support to any project which promises to benefit the community as a whole.

We compliment Louis and Leon Berryhill on their accomplishments and wish for them continued success.

## TOM E. LAWSON

One of the more progressive real estate men of Lubbock and one whose success can partly be attributed to a deep insight as to the direction in which the city will develop is Tom E. Lawson, associated with J. W. Chapman and Sons Realtors. He also has a sound basic knowledge of real estate values and has turned that knowledge to the advantage of the people with whom he does business.

And his aggressive methods coupled with his sound and practical ideas have made the services he has rendered to the people more valuable, and materially contributed to his well earned success.

Mr. Lawson is also civic-minded, and has always shown a cheerful willingness to contribute his share of time and energy to the promotion of community projects.

It is because of the activities of such progressive business men that, year after year, Lubbock continues to show such a healthy growth and expansion, both as a residential and industrial city. We are glad to pay tribute to Tom Lawson for the part he is playing in the onward progress of the city.

## TOMMY J. SANDERS

In compiling this review of progressive Lubbock business men, it is fitting that we should include some of the men who, by their aggressiveness, have definitely established themselves in the business and commercial life of the city.

Such a man is Tommy J. Sanders of The Kirby Company, located at 1915 19th Street, who also deserves an additional word of praise for being more than just successful. He is a constant and enthusiastic booster of the community and in his way has done much to advertise the city.

Mr. Sanders has pursued the progressive policy of stepping up his business ahead of the times, thus setting a pace for which he has earned the reputation of being a go-getter who does not sit back and wait for the business to come to him.

We are glad to pay tribute to Tommy Sanders, and to point out to our readers that his sincere desire to be of service, coupled with his aggressive methods are largely responsible for the standing of The Kirby Company throughout this entire area.

## HENRY T. AND WAYNE DIEBEL

In every community there are a number of business men who can be pointed out as having taken a three-fold part in the onward progress of their city. Two well known business men of Lubbock who belong in this category are Henry T. and Clyde Wayne Diebel of the O K Garage, located at 1812 19th Street.

Their leadership in the automotive repair and maintenance business is recognized throughout this entire district. And their furtherance of civic activities and support of those organizations whose main objectives are directed along lines of civic betterment and community progress is well known to their immediate associates.

The Diebels are men who are equally well liked and respected by their intimate friends and their associates. They are loyal to the community, thankful for their success in business, and have shown their appreciation by their contributions to various civic movements of benefit to the city. We congratulate Mr. Diebel and his son Wayne, for being good citizens, progressive business men and boosters of their community.

## "BOB" GALEY

"Bob" Galey, who just recently assumed the operation and management of the Jiffy Car Wash, located at 34th & Akron, and a

former member of the Hubbers Baseball Club, quite readily demonstrated his unusual ability by his quickness to appreciate the obligations and responsibility of his new venture, and to conduct his affairs accordingly.

Although he has been operating the business for a comparatively short time, he has already made many new friends and satisfied customers for his Jiffy Car Wash. Mr. Galey is an active, energetic man whose sincere and friendly personality and desire to be of service is rapidly earning a place for him in this district. He has already taken an interest in community activities, and in due course of time will assume his full share of civic responsibilities.

"Bob" Galey deserves a word of praise for having so quickly established himself in his new endeavor, and we are glad to give him this brief, but sincere mention.

## WALTER H. CROWELL

There are a number of business and professional men in Lubbock who have gained recognition for their progressiveness, and a well-known insurance man, who belongs in this category is Walter H. Crowell of the Walter Crowell Agency, located at 1717 Avenue K, whose fair dealing with many of our readers has earned him a host of friends and policy holders throughout this area.

He is well established in the forefront of the business and civic life of his city, and the ethical manner in which he has conducted his business affairs is but one of the reasons for his outstanding success.

In addition to his insurance activities, Mr. Crowell has also accepted his share of responsibility in aiding civic projects. As a result of the combined efforts of men like him, Lubbock is firmly established in the minds of the people as the logical business center for this section of West Texas.

We congratulate Walter Crowell for his success in business and civic affairs, and trust that he will continue for many years to enjoy that success which he has so justly earned.

## GENE LEWIS

A drive-in operator of Lubbock, who has based his success upon the belief that the public will appreciate good food, well prepared, and appetizingly served, is Gene Lewis of Gene's Drive In, located at 1701 East 9th, whose many friends and satisfied customers, by their daily patronage of his popular eating place, attest to the soundness of his policy.

It is not only because of the successful management of his business that Mr. Lewis has come to be recognized as an asset to the community; but it is also because of his policy of "looking ahead," and endeavoring to sponsor or take part in those community activities which will, in some manner, benefit the city of Lubbock and the people as a whole. He is another of those men who has shown his appreciation for his success by a willingness to contribute of his time and efforts to the promotion of community projects.

It is such men as Gene Lewis whom we are privileged to include in this review, and to publicly give him due credit for his success in business and civic affairs.

## SAM A. HENRY SR.

Performing an outstanding service for the people of Lubbock and the surrounding territory, Sam A. Henry Sr., representing the Southwestern Life Insurance Company, has achieved an enviable reputation for his progressive policies of business administration. His constant study of insurance problems in relation to the protection the people both need and can afford, have been important factors in his well-earned success.

Mr. Henry is a man of ideas, and he is as practical as he is progressive in putting those ideas to beneficial use in furthering the service he renders to the public. His sound business judgment and unwavering honesty are characteristics which place him in the front rank of the business leaders of the city. Yet, he is unassuming and modest in his personal contact with the people; always ready to listen to their ideas and desires.

We are glad to pay tribute to progressive citizens of this type, for it is such men as Sam Henry Sr., who have caused Lubbock to become recognized as the business center for this section of West Texas.

## A. F. AND ARLE F. JOBE

When a city like Lubbock has gained recognition for being the trading center for many square miles of the surrounding country, it is because of the foresight of those pioneers of earlier days who had the vision to realize the possibilities of their city, and who also had the ability and courage to work for the fulfillment of that vision, and A. F. Jobe is a man who belongs in this category. Lubbock owes much to those

men of early days, but each succeeding generation must produce its share of business and civic leaders to assure the continued growth and prosperity of the city.

It is also the purpose of this review to call the attention of our readers to some of these present day leaders, and in this instance we particularly wish to point out and pay tribute to Arle F. Jobe who is associated with his father in the operation and management of Jobe's Appliance Store, located on the Plainview Highway, authorized Maytag and RCA Whirlpool Sales & Service.

Mr. Jobe and his son Arle are not alone in their efforts to increase the prestige of the city, but they are fine examples of the type of men whose combined efforts are responsible for Lubbock's past and future prosperity.

## JACK BLAKELEY

Jack Blakeley of Engine Parts and Supply, located at 2806 Avenue H, Phone SHERWOOD 4-2317, has a well earned reputation for progressiveness because he has consistently forged ahead in his business, never letting up in his efforts to make the service he renders to the people more valuable. This invariable policy has made the Engine Parts and Supply outstanding in its field, a fact that is well known to the public throughout this entire area.

But Mr. Blakeley has accomplished much more than just making a success of his business and private affairs, and we take this opportunity to pay tribute to him for devoting what time he could spare to the general welfare, not only to the city, but this entire district as well.

It is such men as he, who are both successful in business and appreciative of their civic obligations that are deserving of recognition. We take pleasure in publicly giving Jack Blakeley the credit for his accomplishments which his friends and associates have so long accorded him.

## J. P. LAWSON

J. P. Lawson has proved his progressiveness by constantly adding to and increasing the service which the J. P. Lawson Texaco Service, located at 420 North College, has rendered to the people. The large volume of business handled by his Texaco station proves that "service" to him, is not "just a word" but something to be rendered to the motoring public to the fullest extent of his ability.

In addition to his close attention to his business affairs, Mr. Lawson was never a man to dodge his civic responsibilities, and help in those matters has always been cheerfully given.

He fully appreciates the value of good will, and has more than his share of that intangible commodity because of the manner in which he meets both business and civic obligations. He is a credit to the community, and is thoroughly established in the forefront of the business life of the city.

J. P. Lawson has many friends in and around the city, and it is a pleasure to bring him before our readers in this review of progressive Lubbock business men.

## JOHN W. MONTGOMERY

We desire in this Lubbock review to call the attention of our readers to the well-earned position which John W. Montgomery has reached in the business life of this section. During the comparatively short time he has been operating Montgomery's Gun Shop, located at 1013 Avenue L, formerly the Si Gooden Gun Shop, he has made many personal friends as well as having earned the good will of his associates for the straight-forward manner in which he has conducted his business affairs.

Mr. Montgomery has worked hard to deserve the confidence which the people of the community have in him, and he continues to work hard to maintain in every way, the high standard which he has set, not only for himself but for the operation and management of his gun shop as well.

He has also shown a willingness to assist in every manner at his disposal in the growth and development of Lubbock, and is always ready to lend his support to civic projects. John Montgomery deserves our heartfelt congratulations on the splendid record he has already established, and we sincerely hope for his continued success.

## JIM HARDIN

In paying tribute to some of the more progressive business and professional men of Lubbock, we would be remiss in our duty should we fail to include Jim Hardin of the Clovis Road Garage, located at 2016 Clovis Road, whose business ability is no greater than the "know-how" and professional skill which has contributed to his well earned success in the automotive repair and maintenance business.

He has also contributed generously to the welfare of the city and the community for many miles around. And his civic spirit is evidenced by the many services which he has performed, and will continue to perform in the interest of the people as a whole. Mr. Hardin is a man of wide acquaintance, whose many friends

admire and respect in him those virtues which inspire confidence and promote good feeling. And his upright business methods are a credit to his inherent sense of fair play.

We congratulate Jim Hardin on his splendid record of service, and trust he shall continue to assist us for many years to come.

## MAYME ISBELL POWELL AND CHARLES I. POWELL

Because this is a period of growth and expansion for Lubbock, those progressive business men and women who had the foresight and ability to lay their plans so as to be able to take advantage of those conditions, are entitled to more than ordinary acclaim. We are therefore, glad to pay tribute to Mayme Isbell Powell and Charles I. Powell of the Isbell University of Beauty Culture, for they have become well known figures in the business life of the city.

The Powells' persistent optimism and steadfast belief in the continued future prosperity of the people of Lubbock and vicinity, are characteristics which are deserving of our highest praise.

Mayme Isbell and Charles Powell have also always shown a willingness to do their part in civic advancement, and have contributed their bit, in one form or another, to projects promoted for the welfare of the city. We believe that business people of this kind are entitled to sincere praise, both because they have achieved success in their private affairs, and because they are willing to contribute to the public good.

## DON CROSLAND

Recognized as one of the more progressive business men of Lubbock, Don Crosland of Crawford Door Sales of Lubbock, located at 4302 47th Street, authorized Crawford & Hollywood Overhead Doors, and Delco-Matic automatic operators by General Motors, performs a real service for the people of his city, and his contributions to civic betterment are too well known to require repetition in these columns. His personal success has been achieved, in a large measure, because he never misses an opportunity to perform a real service for the people. A policy which has, and continues to build up good will for the Crawford Door Sales throughout this entire district.

Mr. Crosland is deserving of praise, and this small tribute is but a just recognition for the many services which he has performed in the way of both business and civic activities. Also his reputation for the successful conduct of his business affairs is no greater than his reputation for the honest practices which characterize his every transaction.

We congratulate Don Crosland on his splendid record, and trust he shall continue to serve the people of Lubbock and vicinity.

## VERNA AND W. W. "BILL" CARROLL

Verna and W. W. "Bill" Carroll of Carroll Interiors, located at 1832 Broadway, are two of those progressive type of citizens upon whom the community depend a great deal for leadership in business or other matters. They are also civic-minded and have, in the past, and no doubt will continue in the future to give more of their time and energy for the welfare of others than themselves.

They are the kind of people who make friends, and friendships once formed by them are never broken by an unfriendly act on their part, and they spare no efforts in order that their interior decorating services to the surrounding area shall be more dependable.

The Carrolls have never been known to inject themselves into a situation for the mere purpose of gaining publicity. However, they proceed in a calm and unostentatious manner, and accomplish their objectives with a quiet dignity.

We do not hesitate to recommend Verna and "Bill" Carroll to our readers as good examples of the more progressive type of business people who have aided in the growth and development of Lubbock and the surrounding country.

## M. H. BRANSON

It is fitting in this review of progressive Lubbock business men that we acquaint our readers with the man to be credited with having maintained the Crouch Dairy Supply Company Incorporated, in the enviable position it holds in the business and industrial life of the area. That personality is M. H. Branson, the manager, whose genius for organization and for converting new ideas into actual deeds has played a vital part in the distinctive reputation which the company now enjoys throughout the entire district.

Mr. Branson has found time, in addition to his business interests, to give thought and energy to community projects. He is a citizen whose talents have been steadfastly devoted to the best interests of the city. He has been suc-

cessful in his own business, and in the promotion of the general welfare of the community.

We are glad to pay this brief tribute to him, and to say that this district owes much to the many benefits which M. H. Branson and the Crouch Dairy Supply Company have rendered to the people throughout this entire area.

## JACK W. DELAHUNTY

Logically a man who has earned the reputation of being one of Lubbock's more dependable band instruments sales and service dealers, would in so doing have earned the friendship and good will of a great many people throughout this entire district. A man who justly deserves that distinction is modest, efficient, friendly, Jack W. Delahunty of Delahunty's Horn Shop, located at 1306 Ave Q, authorized dealer for King and Martin brasses, and LeBanc wood winds, who numbers many of our readers as some of his closest friends and associates.

Mr. Delahunty is the type of man who would be an asset to any community, not only because the successful conduct of his business plays a definite part in the general civic scheme, but because the ultimate measure of his value to his city and this district lies

## Lakeview News

In the fact that he is untiringly zealous and remarkably successful in the promotion of civic progress. It would be difficult to estimate the actual dollars-and-cents value of such a man to his community. We congratulate the people of Lubbock for numbering among their more progressive citizens such a man as Jack Delahunty, and we also express the wish that he will enjoy many more years of success.

## OLEN W. FARRIS

Every progressive and successful business man in Lubbock contributes in some manner to the growth and progress of the city. And a man who is always willing to do his part in both civic and business activities is Olen W. Farris of Farris Pressure Pumps & Service, located at 2403 6th Street, authorized dealer for Red Jacket Submergible domestic and irrigation water systems, and who also maintains a yearly maintenance service on house and irrigation pump systems.

The prominent part that the Farris Pressure Pumps & Service is playing in the business and commercial life of Lubbock and the South Plains mirrors the progressiveness and ability of such men as he. Furthermore, Mr. Farris has also at all times been steadfast in his devotion to the city, and the surrounding country, and on many occasions, has lent his support to the successful promotion of meritorious civic projects.

Lubbock and this district are fortunate to have such a man as Olen Farris in a position of responsibility and service, and this newspaper feels that it merely reflects public opinion in paying this brief tribute to one of the city's more progressive business men.

## Hale County Wheat Growers Ballot In Favor Of Quotas

Hale County wheat growers voted almost twenty to one in favor of 1961 marketing quotas. The count was 186 for and ten against. It was one of the lightest wheat referendum vote turnouts in Hale County, John Martin, ASC supervisor, said.

Across the nation, wheat farm faced with record surpluses on hand and prospects of another bumper wheat yield this year, voted overwhelmingly for continuation of marketing quotas and acreage controls for the 1961 crop. The complete vote from the 39 wheat states was 148,766 for continuation of the program to 21,631 against, or a favorable vote of 87.3 per cent. A two-thirds favorable vote was necessary for approval. The Texas vote was 6,539 to 842.

This was a sharp upturn from last year's favorable vote of 80.3 per cent.

Secretary of Agriculture Ezra Taft Benson had set the support price for wheat in 1961 at \$1.78

a bushel or 75 percent of parity, provided the program was approved. This is the same, minimum support level which is in effect for the 1960 crop.

If the farmers had turned down the support program, marketing quotas and penalties would not have been in effect for the 1961 wheat crop. In that case, even those farmers who complied with their acreage allotments would have been eligible for price supports of only 50 per cent of parity.

Turkeys and peaches are to get top billing on the USDA's plentiful foods list. Watermelons and cantaloupes are plentiful as are onions and tomatoes, broilers and fryers and scallops and peanut butter. All are good picnic foods and top choices for outdoor cookery.

NEWS from the High Plains Research Foundation

Irrigation on barley increased returns \$29.56 per acre over dryland barley at the High Plains Research Foundation in the 1959-60 test. Cardova barley was used in the test which compared yield and returns between dryland barley and that of irrigated, fertilized barley.

The dryland barley yielded 9 bushels per acre compared to 67.5 bushels per acre from the irrigated barley.

The irrigated barley received two four-inch applications of water along with 200 pounds of 10-20-0 fertilizer per acre.

At 75 cents per bushel, income from the dryland acreage was \$6.72 per acre. Irrigation cost was \$6.00 per acre and the fertilizer cost totaled \$7.72 per acre. Deducting these costs from the \$50.90 received, the net income from the irrigated, fertilized test was \$36.28 per acre. James Valiant, water engineer at the Foundation, conducted the tests.

known as Plant Skill Improvement.

This past year Dennis also received a certificate as a First Aid Assistant through the First Aid Course which was offered to TUCO employees and their wives.

Something Dennis is very proud of is the fact that he has not had a "lost-time" accident during the past fifteen years. And a difference he recalls in comparing his early days with the company is that occasionally in those early days the plant would be "shut down" for just a few

minutes and everything seemed "as still as death," but the present situation prevents that happening in that "loads" can be "piled in" from other stations such as Plant X or Nichols Station to prevent a complete "shut-down."

All the Barkers are avid fishing fans and seldom come home empty-handed. Recently Dennis and Denise have taken up water skiing as well and are having much fun in improving their skill.

Toni Goeth Barker, as has been stated, came to this community when she was only ten months old, consequently she does not remember ever having lived anywhere else. She completed her high school work here in 1929. Other than fishing with Dennis,

she also takes great pride in her gardening and flower raising. She has served as an assistant girl scout leader (part of that time as assistant Brownie leader) the past five years, is a member of the First Baptist Church and of the Lydia Sunday School Class of that church. Also, she is a member of the Bluebonnet Quilting Club which has been active in the city for several years.

The Barkers have one child, Denise, who was thirteen years of age in May. She takes an active part in her Sunday School class, is active in the girl scouts, having attended the Girl Scout established camp for this district recently at Camp Rio Blanco located near Crosbyton. This past year she was one of the cheer leaders for the Junior High School and has been selected as one for the coming year. Other interests are basketball and music. She has taken music lessons for the past six years. This coming school term she will be in the eighth grade.

**APPLY EARLY FOR RETIREMENT INSURANCE**  
Retiring workers were advised to call on the Social Security Administration one or two months before the date of retirement said John G. Hutton, District Manager of the Lubbock office.  
"Early application for the social security benefits will enable us to attend to the necessary details and avoid a delay in the payment of the first check," he said.  
"Claims for the retirement and family insurance payments require some action before they can be certified to the Treasury Department for payment," Mr. Hutton stated. "By filing early, payment can be made soon after retirement."  
An applicant should bring some evidence of his age and an earnings statement showing the amount of his wages in the last year. The self-employed person should furnish a copy of his latest income tax return.  
No appointment is necessary to file a claim. The Lubbock office of the Social Security Administration is located in the Federal Office Building, 1616 19th Street, Lubbock, Texas. The office is open Monday through Friday (except for holidays) from 8:30 a. m. to 5:00 p. m.  
A representative of the Lubbock Social Security Office will be in Plainview on each Tuesday at 10:00 a. m. in the County Courtroom and will be glad to assist in all matters pertaining to social security.

July 25, 1960  
Mr. Richard Havens, Editor  
Abernathy Weekly Review  
Abernathy, Texas  
Dear Mr. Havens:

Jim Joy has informed me that you were responsible for furnishing me with the back issues of the Abernathy Weekly Review which I requested from him. Please accept my personal thanks. Over the weekend, I examined the papers carefully and found them invaluable in bringing me up-to-date on local events. The information, of course, will prove most useful as background material, and will, I hope, ease my submersion into community affairs. My impression is that Abernathy is a healthy and thriving city and I feel fortunate to be chosen as its first city manager.

In particular, the information about the reorganization of the fire department is interesting. I shall make it a point to talk with Mr. Hawley of the State Board of Insurance before leaving Austin. I would greatly appreciate it if you would place me on your subscription list and bill me accordingly. At present, please use the above address. It probably will be the last week in August before my family arrives in Abernathy.  
Let me take this opportunity to congratulate you on the quality of The Review. You stand head and shoulders above other weeklies of this size in coverage, content and lay-out. I shall look forward to visiting with you at the first opportunity after arrival in Abernathy.  
Again, thanks for your assistance.  
Sincerely,  
Paul D. Noland

**The odds ARE against her**

Through 12 years of public schooling, your child must read and understand an average of 432 books. With such great demands on her reading vision, the odds are against her completing these years without developing a visual problem.

She begins life very farsighted, seeing only form and motion. By the time she starts to school, it is assumed her focusing and eye coordination are developed and equal to the task. If they aren't, then seeing problems can develop.

Professional optometry can determine if she is "visually ready" to start to school. EYESIGHT IS NO GAMBLING MATTER.

## Airport Activities . . .

(Continued From Page 1)

ernathy Recreation Center, includ-  
ing the swimming pool and golf  
course, Kartway Park, a go-cart  
track, and is the site of Tri-City  
Drag Races, which have at times  
drawn an attendance of near 2,000  
persons on a single racing day.

In addition to all these facili-  
ties and activities, Hilburn Bar-  
rick farms part of the section  
under lease agreement with the  
City of Abernathy.

The airport section has a great  
potential for development of in-  
dustrial sites for firms that must  
have airport facilities in connec-  
tion with their activities.

Preliminary work is under way  
to secure a paved highway from  
town to the airport. Considering  
the wide use of facilities on that  
section by the people of South  
Hale County and North Lubbock  
County, the Commissioners Courts  
of the two counties should be con-  
tacted in interest of securing paved  
roads to that section south  
from FM 54 and north from FM  
597.

## Film Showing Set

Remember the scheduled show-  
ing of color slides at Abernathy  
city hall clubroom starting at 8  
p. m. Friday, August 12. Mr. and  
Mrs. Virgil Rhodes will show the  
pictures they made on a 13,000-  
mile flying trip to Mexico, Cen-  
tral America and South America  
last month. The public is in-  
vited.
