Abernathy Receives Delivery of New Elgin Street Sweeper

The city of Abernathy received delivery of a new Elgin street sweeper Monday of this week. The new machine was purchased from Texas Machinery & Equipment Co., 808 North College, Lubbock. Making the delivery Monday were C. L. Green, salesman from the Lubbock office; Del Van-

meter, factory representative from Atlanta, Georgia; Bob Parkinson, service manager and shop foreman of the Lubbock firm; and John Shapshire, mechanic. City manager Paul Noland pointed out that the new sweeper will not only help to keep the city clean, but will also save on maintenance of streets. It was stressed that by keeping the curbs and gutters clean the streets will drain better, thus preventing water from standing in spots (due to blockage by trash and dirt) and freezing this winter. (When water on the streets freezes, it cracks the paving.)

59,594 BALES OF 1960 COTTON RECEIVED BY GINS IN AREA

Gins in this area had weighed in a total of 59,594 bales from the 1960 cotton crop, according to the weekly survey made by The Review Tuesday morning. At the same time last week, 45,067 bales had been weighed in. Thus, during the past week, the gins at Abernathy, New Deal and County Line (including Martin's Gin on FM 54), weighed in 14,527 additional bales. The three County Line gins (counting the two at County Line and Martin's Gin) had weighed in a total of 14,177, an increase of 3,342 over last week's total. New Deal's gins reported a total of 18,339, which was 4,338 above last week's number. Abernathy gins had a total of 27,078 bales weighed in, or 6,847 bales over last week's number of 20,231. Last Weekend Totals. Cotton ginning over this area were on a feverish, round-the-clock schedule last week. Total ginnings was 137,715 bales, bringing to 212,846 the number ginned this fall in Hale, Floyd, Swisher and Brisco counties. There were no figures for comparison with last week's ginning of the corresponding week because the Texas Employment Commission office in Plainview which gathers the data, made no check for the corresponding period last year since for all practical purposes, the 1959 Plains cotton crop had been harvested by the first of December. Total ginnings this fall by counties: Hale 114,444, Floyd 61,427, Swisher 25,355 and Brisco 11,620. Freezing rain and sleet Tuesday partially slowed the cotton harvest. Snow had been predicted to fall in the Texas panhandle by Wednesday night with possibilities of reaching this area. Joining efforts, the music and drama department at Wayland College will present "Abnahl and the Night Visitors" in a single performance on Dec. 15 in Wayland auditorium under the direction of Dr. Kenneth Hartley and Dr. Henry Eason.

Cotton Farm Operators Receiving Allotments

All operators of upland cotton farms in Hale County should receive official notice of their 1961 farm acreage allotments through the mail within the next few days.

Chairman E. J. Pope, Jr. of the county Agricultural Stabilization and Conservation committee said November 16.

Growers will vote at local polling places Tuesday, December 13, on the upland cotton program for 1961, and allotments are being mailed to reach all growers before referendum day, Mr. Pope said.

In a change from the programs in effect for 1959 and 1960, each farm operator will receive only one allotment for 1961. This will represent the farm's share of the national upland cotton acreage allotment of 18 1/2 million acres.

The allotment determines the effect of marketing quotas on the individual farm, Mr. Pope points out. If marketing quotas take effect as a result of two-thirds favorable vote in the referendum, cotton from compliance farms may be marketed without penalty and is eligible for the full available rate of price support. Even if quotas are disapproved, compliance with the acreage allotment will determine eligibility for the lower rate of price support available.

For the past two years, farm operators had a choice between the regular allotment and price support rate and a larger allotment with a reduced rate of support. However, the law that provided this special program applied only to the 1959 and 1960 crops.

Mrs. Joe Blare was a patient in Methodist Hospital, Lubbock.

Firemen answered a call to Martin Gin on FM 54 west of Abernathy Wednesday night of last week. Damage was light.

Received American Flag Which Flew Over Capitol Bldg.

Earl Garrett, Cubmaster of Pack 76, at Wolforth, Texas, reports his Pack receiving a brand new 50-Star American flag, from the Nation's Capitol, in Washington, D. C.

This flag was made available to Pack 76, through the generous efforts of Congressman George Mahon. The flag was put into use, being flown atop the Nation's Capitol. When Mahon received word, that this brand new, just

organized in November, Cub Pack needed an American flag, that particular flag was taken down, boxed up, and sent to the Cub Scout Pack at Wolforth, Texas.

There probably are very few Scout Units, or other organizations that have the opportunity to possess, and use an American flag, that had had the distinct honor of serving the needs of the Capitol of the United States.

Pack 76 is sponsored by a Group of Citizens there in Wolforth and has twenty-five Cub Scouts and fifteen adult leaders working with the Pack. The ideals of patriotism, Americanism, and the great way of American life, may have more meaning for the boys, and adults of Pack 76.

Helpful Tips Offered Post Office Patrons Urged To 'Mail Early' This Year

Faced with the possibility that the 1960 Christmas season should set an all time holiday mailing record, Acting Postmaster Herbert Hardin announced that he's starting his annual "Mail Early For Christmas" Campaign immediately.

Hardin offers these helpful tips to insure delivery of your Christmas cards and gifts on time.

First, check your Christmas card list very carefully—making sure each address is complete with full name, street and number, city, zone and state.

Second, for your Christmas gift packages, stock up now on heavy wrapping paper, sturdy corrugated cartons, strong cords and paper adhesive tape.

Third, remember that you can

include your Christmas card or letters inside your gift package by adding First Class postage to the package itself.

Fourth, buy your postage stamps now. Don't wait until the last minute when long lines form at the stamp windows.

"The entire Christmas mailing period is a big battle against time. Even though Christmas is some time away, it's Christmas every day at the Post Office from now on," he said.

If you have articles of unusual size or bulk, better check with the Post Office before attempting to mail them. The limits of size and weight of packages vary, depending on where you mail your packages from.

Send all Christmas mail going long distance before December 10th. Follow up promptly with cards and gifts for local delivery. Mail "Early and Often" for a merrier Christmas, Hardin added.

"WALKING WITH GOD"

BY ROY DEAN VERNER
Reading Time: 4 Minutes

"And Enoch walked with God; and he was not; for God took him." (Gen. 5:24). There is perhaps as little said about Enoch as any great man in the Bible. Yet by these few verses of scripture, we know that Enoch was among the greatest followers of God in the Old Testament. "And Enoch walked with God"—highest compliment awarded to man! To walk with anyone we must be going in the same direction and on the same way or highway with that person. This is true if we are to walk with God as did Enoch.

What is the way in which we must travel to be able to walk with God? "Lord we know not whither thou goest; and how can we know the way? Jesus saith, 'I am the way, the truth, and the life, no man cometh unto the father but by me!' (John 14:5-6). If then we must be in the way and Christ is that way, we must be in Christ Jesus to walk with God.

How do we get into Jesus Christ (the way) where we are to walk with God? "For as many of you have been baptized into Christ have put on Christ." Baptism having put us into Christ—into the way, we are, then, where the walk with God must take place. The traffic on this way is one-way. We either go in the direction

that God is going or we will be pushed aside by Him to allow room for those walking with Him. How are we to walk to be able to travel in the surge of souls with their destination Heaven? First, we are to walk in newness of life. Rom. 6:4, "... Christ was raised up from the dead by the glory of the Father, even so we also should walk in newness of life." Second, we are to walk in the light. Eph. 5:8, "... now are ye light in the Lord; walk as children of light." Third, we are to walk in fellowship one with another. I John 1:6-7, "... if we walk in the light as he is in the light, we have fellowship one with another and the blood of Jesus Christ cleanseth us from sin. Fourth, we find that we must walk honestly, as in the day; not in rioting and drunkenness, not in chambering and wantonness, not in strife and envying."

We know the way and how to enter it, but are we walking in it as God would have us? Can it be said of us, "And he walked with God"? If not, then some changes need to be made immediately. If you haven't been baptized into Christ, or if you have, and you've wandered back into sin because you failed to "walk in the light" needed to "walk in the light" today!

West Texans Study Feeding Of Livestock

The West Texas Chamber of Commerce Livestock Feeding tour which left Fort Worth Saturday morning, picking up several Lubbock agriculturists on the way, reports from Chicago that the group is observing some of the most advanced agricultural procedures in the world. They are putting in 12-hour days.

Heading the bill Monday was the International Livestock Exposition. Dean Stangel conducted the tour. Tech's Stanley Anderson was one of the livestock judges and members of the tour attended a dinner in his honor at the Saddle and Sirolo Club.

Tuesday tour members observed the latest developments in farming and feeding in Iowa. They

visited the Garst Farm where the use of low quality roughage is the maximum net profit from acreage. This operation utilizes such "waste" materials as grain sorghum heads after the grain has been removed, corn cobs, etc. Corn silage is used extensively. The farm is comprised of 5000 acres and there are 3000 head of cattle on hand most of which will be fattened out. This is the farm which Kruschev visited.

The group of 63 Texans also visited the Forret Farm which is the latest thing in automation. It used automatic silo unloading, automatic feeders, etc. It is a brand new set-up engineered by the Iowa State University.

Other points of interest were a beef testing laboratory operated by the Iowa State University and a Dairy Testing Laboratory where they are experimenting with different environmental effects on identical twin heifers.

IT'S THE LAW IN TEXAS

COURT RULES PROTECTS RIGHTS AND INSURE FAIR TRIALS

Many people see court procedure as a mere tool of delay, of concern chiefly to lawyers and judges; but court rules are real tools of justice.

The law is made up of two parts—the "substantive" and the "procedural" law. The first defines rights, duties and remedies. It enforces contracts and rights wrongs. It describes crimes and sets up punishments. People can see its worth. Procedural law tells what steps to take to put substantive law to work for us.

Some of our most vital rights live in procedural law. A day in court means more than the right to have your say before a judge and jury. It means your right to be well represented before an impartial judge and jury, to have time to prepare for your trial. It means that you get due notice of the action against you; that the complaint or indictment shall state a clear issue of action. But process of law means that you shall meet your accusers face to face; to cross-examine them. It means that you can present evidence in your own behalf.

The law of procedure tells you how to appeal your case to higher courts when you feel that you have not had a fair trial. Procedural law comes down to us from years of experience in the courts of many lands. Through centuries procedure tends to become cumbersome, but it has had great periods of reform. In America, we have had many good changes in our court procedure. In the United States, we tend to give our courts the power to change rules.

Throughout its history, the State Bar has helped to study and improve court rules. The aim is a simple set of rules to do justice with speed and uniformity and fairness.

(This news feature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

MASONS MEET TONIGHT

A stated meeting of Abernathy Lodge No. 1142 A. F. & A. M., will be held at 7:30 tonight (Thursday). Bob Drape, Worshipful Master, invites visiting Masons to attend the meeting, and urges members to be present.

Abernathy Chapter No. 877, Order of the Eastern Star met in regular session at the Masonic Hall on Thursday evening at 8 p. m. The hall was appropriately decorated with distinctive Christmas motifs by Helen Reagan and Dorthea Deering who are the decorating committee.

The District Deputy, Margaret Jackson, from Anton Chapter was presented. She brought an inspirational message and instructions from the Worthy Grand Matron, welfare projects for the Christmas were discussed by the Chapter. It was decided that the chapter take care of a needy family in Abernathy by purchasing new clothing. Also, clothing was collected to be taken to the Faith Mission in Lubbock and for needy children in the New Deal School.

NEWS FROM CITY HALL
(By Paul Noland, City Manager)

At the Council meeting on Monday, December 5, the City Auditor reported on the finances of the City for the period April 1, 1960 - September 30, 1960. The audit was made in order that the City could begin its new fiscal year, which was recently changed from October 1 to September 30, with its books up to date. The auditors reported that all accounts were consistent with the records.

The Council turned down a request by the General Telephone Company to provide Abernathy with extended area service to Lubbock because of the excessive raise in telephone rates involved. In most cases such service would have nearly doubled existing rates.

After nearly two months study, the Council granted a petition of the Pioneer Natural Gas Company for a 10 per cent raise in rates within the city limits. The gas company is asking for rate increases in all its cities. Over 50 per cent of all cities concerned had approved a similar petition before Abernathy Council action.

Other discussion was held regarding development of farm facilities at the City Airport.

Police Report - November
There were 62 traffic contacts with 18 tickets issued and 44 warnings given. Tickets issued were:

- 3 crosswalk violations
- 5 No Drivers License Violations
- 1 Excessive Noise and Improper Mufflers.
- 1 Improper start from a parked position.
- 1 Speeding.

There were three car wrecks within the city limits, resulting in 3 personal injuries. Also, one child was hit by a truck. Two automobiles were damaged by other vehicles where the drivers failed to stop or leave any information.

Those placed in jail this month totaled 35.

The local eighth grade girls ran over Crosbyton 32-20 in their first game of the meet. Linda Miller led the way with 12 points, while Donna Webb had 10, Cheryl Hall 8, and Mona Drace 2.

In their second game the local lasses downed the Lockney team 26-16. Donna Webb was high pointer with 12 points, followed by Cheryl Hall with 7 and Linda Miller with 4.

The girls' team from Slaton defeated Abernathy's team in the finals, 22-16. The local girls had previously beaten the Slaton team, but could not muster a strong scoring attack. Cheryl Hall led Abernathy with 12 points, Donna Webb had 3 and Linda Miller had 1.

Boys' Games

Abernathy's eighth grade boys' team downed Crosbyton 26-24 in the first round of play. Santos Ramirez paced the local lads with 13 points while Bill Forbes was second with 5 points.

Form Jr. Hi District

A Junior High boys' and girls' District was formed recently and is composed of the Junior High teams from Abernathy, Crosbyton, Idalou, Hale Center, Floydada and Ralls.

In the first round of district play last Monday night the local eighth grade girls took a 17-8 victory over the Floydada team, and the eighth grade boys were downed 45-30 by the visiting boys' team.

Donna Webb scored 8 points for Abernathy while Cheryl Hall added 6, Linda Miller 2, and Glenda Evans 1. For the local boys Earl Brown was high pointer with 10 points, and Larry Northcutt, Santos Ramirez, and Frankie Garza each had 4 points.

The seventh graders defeated the Floydada seventh graders 29-13. Bobby Knowles scored 10 points, Pat Hale had 8, and Leroy Williams and Mike Tannehill each had 4 points.

This past Monday night the local 8th grade teams entertained Crosbyton in their second district game. The local girls won 19-14 and the boys lost by a 20-16 score. Donna Webb had 11 points, Cheryl Hall 7, and Frances Turner 1 for the girls. The boys were paced by Larry Northcutt with 8 points and Earl Brown with 4.

Play Here Next

Four games are on tap for Monday night, December 12, in the local gym when the local seventh and eighth grade boys and girls will play their third district games. The first game Monday is slated to begin at 5:30 p. m., reported Bobby Dyess, Junior High boys' coach.

Miss Shirley Oswalt, coach for the Junior High girls' teams, reported that all 17 girls on the eighth grade team had played in each of the last four games except during the final game of the Floydada tourney.

Starting forwards on that team are Donna Webb, Linda Miller and Cheryl Hall. Starting guards, who have been doing a fine job, are Chellye Joy, Denise Barker, and Katie Evans.

Others on the team are: Frances Turner, Jana Stevenson, Janie Pearce, Peggy Gist, Mona Drace, Glenda Evans, Arline Story, Roxie Smitherman, Connie Knight, Zera Beard and Carol Wade. Pat Pettit and Christie Givens are the team managers.

Mrs. Dorsey Coffey of Honolulu, Hawaii, is visiting here with her parents, Mr. and Mrs. Hugh Vaughn. Her husband, A-1C George D. Coffey, is scheduled to arrive here around December 11 for a month's leave, at which time they will go on to Dow Air Force Base, Bangor, Maine.

TALK IN PRINT —

Wonder what the tailors of America think about a story in the daily press last week on Senator Lyndon B. Johnson buying five suits at \$147 each in London? The same story also stated that President-Elect John Kennedy "has long had suits made in London." Besides feeling snubbed, the American tailors probably consider that as adding to the unnecessary flow of U. S. dollars abroad.

Advertising hucksters have done the U. S. a disservice by putting buying magic in the word "imported." Implications that products are something special if they are "imported" have sold too much foreign-made goods in the U. S., counting in part for the present gold situation that is making the U. S. fight for its economic life.

Americans are doing themselves a disservice when they buy foreign-made goods. This is the jumbo version of "Trade at Home." The same principle that makes it more profitable for the buyer to trade in his home town, makes it more profitable for Americans to buy American-Made products.

— tip —

We have seen steelworkers idle in strikes in Pennsylvania. The same year, while wandering around the Houston Ship Channel, we observed large stocks of steel and aluminum products from foreign countries on the docks.

Who is to blame for the imports of steel and other metal products from foreign markets. Has American labor priced workers out of jobs? Has big business priced its products out of the market?

It's all too complex for me.

— tip —

The daily press last week show-

ed Senator and Mrs. Lyndon B. Johnson shopping for paintings in a Paris art gallery. Judging from the one they were buying, they can find as good, or better, in Ruidoso, Taos, or in Pirates' Alley in New Orleans.

The old masters of Europe are fine, but the art I like best is works of New Mexico's Peter Hurd.

I admit that purchases abroad of suits and art are of comparatively minor importance. The manner in which Kennedy and Johnson perform their respective duties as president and vice president will be of paramount importance to this nation.

I am pleased with these selections made by Kennedy. He had to do something with ultra liberal G. Mennen Williams, retiring Michigan governor. Giving him the post of Under Secretary of State in charge of African affairs is satisfactory. Governor Abraham Ribicoff of Connecticut should make a good Secretary of Health, Education and Welfare. And, for all I know, the Harvard prof may be the best man for Director of the Budget.

Kennedy's appointment of Gov. Luther H. Hodges of North Carolina as Secretary of Commerce also seems a good choice for that cabinet post.

—tip—

Reports say that seekers of Ambassador posts are having no luck in "buying" them from Kennedy. According to information from WDC, one such seeker offered to dump \$250,000 into Demo Headquarters fund to help pay off the party deficit. Another offered \$150,000 to the Demo fund for an Ambassadorship. Both were turned down.

—tip—

Indications point to a "stay at

home" president, with Kennedy using normal diplomatic channels instead of personal trips to foreign countries . . . at least during his first year in office. That's OK, too.

—tip—

Looking to 1962, Bruce Alger, Texas' only Republican congressman, is expected to lose his place in the House of Representatives. Big-D is pretty mad at him and Nixon supporters over the rude treatment accorded Senator and Mrs. Lyndon B. Johnson a few days before the Nov. 8 election. Dallas is embarrassed over the incident, and it should be. I believe the Dallas Deal cost Nixon 50,000 votes, which would have given him Texas' 24 electoral votes Dec. 19.

CO-OP GRAIN CO. ADDS STORAGE FACILITY HERE

(By O. F. Rea.)

Abernathy Co-op Grain company has just completed an addition to their grain handling and storage facilities.

It is one of the newer type grain storage buildings which are replacing the concrete bin type so long used. These buildings are so arranged that the grain may be aerated and temperature controlled without moving from the building after the moisture content is reduced to certain percentage.

Aeration is obtained by circulating air from without by means of a number of small fans along the sides of the building, near the ground, or, as with this one, by one large fan feeding air into a central tunnel below the floor and running the full length of the building with ducts radiating from each side so as to carry the air to all parts of the floor from which it rises through the grain and vents out through large vents high up on the wall at either end. Temperatures and humidity can be maintained within close limits without moving any grain.

This new unit has a capacity of 650,000 bushels, has a dump and elevator leg capable of handling 4,500 bushels per hour, and connected to this same leg is an

Abernathy Founded in 1909

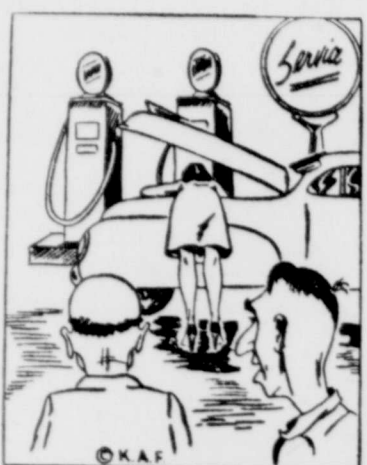

Abernathy was established in 1909 when the Santa Fe railroad was extended from Plainview to Lubbock. The town was named in honor of M. G. Abernathy, who, along with M. C. Overton, of Lubbock, bought, bought a section of land and platted the townsite on July 8, 1909.

Allotments On Cotton Announced For 1961

A sixteen-county Plains region has received a 1961 cotton allotment that represents a 11.22 per cent increase over the 1960 allotment.

Dale Carter, Plainview, field representative for the Agriculture Stabilization Conservation Service, announced late last week that the acreage increase amounts to 279,403 acres. The 1961 allotments total 1,902,588 as compared to 1,622,185 acres for the bumper crop now being harvested over the region.

Carter said allotments were mailed out to Hale cotton farmers Friday and to those in the other area counties in the near future. The cotton referendum scheduled for Dec. 13 must approve the controls for the allotments to be effective.

Carter said next year's cotton price support probably will not be set until the Kennedy-Johnson administration takes over.

Lubbock County's allotment of 246,701 acres, an increase of 37,212, is the largest in the state. Hockley, Lamb, and Lynn are other counties in the region that got over the two hundred thousand acre mark.

Hale's 177,344 acre allotment for next year represents a 24.078 increase. Lynn got an approximately 31,000 acre increase and Terry about 24,000 increase.

Allotments by counties:

County	1961	1960
Bailey	107,949	93,686
Briscoe	28,684	24,799
Castro	58,558	51,760

FROM THE EDITOR'S NOTES

Hope that with the help of America's rice farmers a child feeding program will soon get underway in Hong Kong and save 70,000 young lives in the crucial winter months ahead was expressed early last week by Elbert E. Gates, Jr., Church World Service director in the British colony.

News from national headquarters of the Christian Rural Overseas Program in Elkhart, Indiana, Mr. Gates said, indicates that the Rice for Relief campaign in Louisiana, Texas, Mississippi, Arkansas, and California has already resulted in gifts of rice and cash to purchase rice to assure that the goal of three million pounds will be reached by the end of the year.

Vegetables and meat for the one meal a day for one year for each of 70,000 children has been promised by agencies in Canada and Hong Kong.

Plans for a Southwest Church Drama Festival to be held at the First Baptist Church, Plainview, on March 23-25, 1961, were being completed late last week.

The Festival marks the second of its kind to be held in the south Plains area, the first having been conducted in Plainview last February under the leadership of the Church Recreation Service of the Baptist Sunday School Board.

Mr. Cecil McGee, drama consultant of the Church Recreation Service, will direct the Festival, and will bring with him an outstanding faculty, it was announced.

Although the list of conference

leaders is not complete, it has been announced that the faculty will include Mrs. Agnes Pylant, head of the Church Recreation Service, Nashville, Tennessee; Mr. John Lee Welton of Carson-Newman College, Jefferson City, Tennessee; and Mrs. Sarah Miller, church drama authority of Houston, Conference subjects will include Creative Dramatics for Children, Fun Drama for Teeners, Play Direction, Lighting the Church Play, and Using Drama in the Unit Organization.

Last year more than seven hundred persons attended the Festival. General co-chairman for the event are Mrs. Clara Boltz and Mrs. Ivyjoy Bishop of First Baptist Church, Plainview.

Ever hear of one person pulling over a ton of cotton in one day—by hand? Frank Hill, editor and publisher of the Lynn County News at Tahoka, had the following in his column, Printer's Ink-lings, two weeks ago:

"Tiny" McNeely reports that her husband "Skinney" has a brace out on the Henderson farm pulling bolls who is the best they ever hear about. He is E. H. Franco from Piedras Negras, Mexico, who has been with them three seasons. Franco has been pulling 1400 to 1900 pounds of cotton per day, but one day last week he decided he was going to break a record and came in with 2064 pounds—that's right, more than a ton in one day. He received more than \$32.00 for the day's work, and his check has been running more than \$100.00 a week. He sends about \$70.00 a week, or more, back to his wife and kids in Mexico."

National Honor Society News

The Initiation Ceremony of the National Honor Society was held Monday night, November 28, at 7:00 in the High School Speech Room.

The program was narrated by Honor Society President, Milton Pope. Doyle Johnson gave the invocation. School Superintendent, Noel Johnson introduced the candidate-light ceremony explaining the four symbols of the Honor Society: Character, Leadership, Service, and Scholarship. The symbols were explained and candles lighted for each by Peggy Evans, Kenneth Durrett, Karen Kelly and Linda Faver.

After the 12 new members had repeated the pledge, they were presented their National Honor Society pins by Mr. Johnson, assisted by Milton. Each new member lighted a candle—joined the old members who already held lighted candles. The ceremony was closed as all members sang the school song by candlelight.

Refreshments were served by Sue Suttle and Betty Ann Sterrett. The 12 new members initiated were: Mary Anna Williams, Sherry Wilson, Dee Ann Davidson, Carolyn Forbes, Linda Burnett, Mary Kay Benetti, Joyce Spruiell, Gid Adkisson, Bobby Pettit, John Saari, Charlie Stallings and Elaine Bilbrey.

Texas FFA Members To Compete For Leadership Honors At Contest

Approximately 500 Texas Future Farmers of America will compete for top honors at the Twenty-ninth Annual Leadership Contest, December 10 at Sam Houston State Teachers College, Huntsville.

Contestants will form 60 teams representing the 10 areas of Texas. Two divisions in the State Leadership Contest are the Greenhand division for students enrolled in Vocational Agriculture for the first time, and the Chapter Farmer division for the more experienced students.

Sections of the Greenhand division are Chapter Conducting, Farm Skill Demonstrations, and F. F. A. Quiz. The Chapter Farmer division includes Chapter Conducting, Farm Skill Demonstration, and Farm Radio.

Banners will be presented to the four top teams in each of the six contests. The Sam Houston Collegiate Chapter will also award certificates of participation to all teams. Judges for both divisions of Chapter Conducting and Farm Skills will be teachers of Vocational Agriculture from the ten areas of Texas. Graduate students from Sam Houston will judge the F. F. A. Quiz.

Farm Radio Contest officials will be Murray Cox, WFAA, Dallas; Charlie Rankin, KRGV and KRGV-TV, Weslaco; and Jack Dillard, KWKH, Shreveport, La. The State Leadership Contest originated in the Agricultural Education Department in the spring of 1931. The 37,000 Future Farmers in Texas are members of ten area associations, and each

area is composed of some four to seven district associations. A member must first win the right to represent his local FFA chapter on a team. The local chapter must win the district to compete in the area, and only the top teams of the area go to state.

The primary function of the Leadership Contest on a state level is the promotion of interest and enthusiasm in the leadership training activities on a local through state level.

In conjunction with the contest will be a meeting of the officers of the Texas Association of Future Farmers under the direction of E. C. Weekley, Association Executive Secretary.

Winning teams in the six contests last year were Tulla, F. F. A. Quiz; Mexia, Farm Radio Broadcasting; Carrell, Greenhand Chapter Conducting; Groom, Chapter Farm Chapter Conducting; Texas City, Greenhand Farm Skill Demonstration; and Springlake, Chapter Farmer Farm Skill Demonstration.

New Law Protects Cropland And Allotment History

Any farmer who diverts cropland to permanent cover under a Conservation Reserve or Great Plains Conservation contract is protected in his cropland and acreage allotment history for an additional period equal to the period the land was under contract, E. J. Pope, Jr., Chairman of the Hale County Agricultural Stabilization and Conservation committee said.

Previously these acreages have been protected only for the life of the Conservation Reserve or Great Plains Contract. Doubling of this period is provided under a new law passed at a recent session of Congress and signed by the President in September.

The legislation provides that cropland which is diverted from an allotment crop to a conservation use under either of these programs shall continue to be classed as cropland for twice the period of the contract and, for purposes of determining future allotments, shall be considered as though it had been planted to the commodity.

This new provision, Mr. Pope, said, does not apply to contracts terminated before the end of the period for which the contract was originally signed.

Contracts under both the Conservation Reserve and the Great Plains program range from 3 to 10 years. ASC officials hope that the new legislation will encourage participants in the two programs to maintain former allotment crop acreage in vegetative cover for at least twice as long and perhaps permanently.

The provisions of the new law were to be considered in the determination of farm acreage allotments for 1961.
