Reagan Named Outstanding Farmer In Hale County's Soil Conservation District

By MYRNA SMITH Plainview Daily Herald Staff Writer

Conservation of soil, water and souls marks the activity of Glen Reagan, indefatigable cru-sader for all three. He labors unstintingly for them all with

But the Abernathy farmer has cone such an excellent job with vice Grain Co., have agreed to conservation on the two farms he operates that he has been chosen the outstanding of the conservation on the two farms he are the conservation on the two farms he operates that he has been chosen the outstanding of the conservation on the two farms he operates that he has been chosen the conservation on the two farms he operates that he has been chosen the conservation on the two farms he operates that he has been chosen the conservation of the conservation en the outstanding farmer of Hale area. County Soil Conservation District. As a result of being selected

ceive a plaque from the District, by, vice-chairman of the Hale Cowill compete for the regional award and will be entered in the Red Cross, who is in charge of Save the Soil and Save Texas Award program in May sponsored anually by the Fort Worth County-wide goal of \$11,844.00. The

A District cooperator since 1947, Reagan has completed and mainhis land and has applied reoc curring practices as needed.

Farms Two Places Living on a 160 acre farm seven miles northwest of Abernathy owned by his mother, Mrs. Alice Reaseven miles west of Abernathy which he and a brother, John J.

the soil for progeny, Reagan contends that "Anytime we overburden our soil or promiscuously use our water we are hurting ourselves or the generations ahead." Too many people can see only the dollar, "but I am convinced that if I do not guard against the abuse of our natural resources, it will be me or mine who will pay later on," he commented.

The 200 acres of rough, sloping land with a large lake in the middle, was placed in the Soil Bank into permanent pasture. Before the lush growth of sideoats grama, Blackwell switchgrass, blue grama and green sprangletop, each rain would bring water cut-

ting deep gullies in every direc-(Continued on Page 2)

Homecoming Meeting Set

At a recent meeting of the Abernathy Ex-Students Association the dates for the 1962 Homecoming were set for the weekend of August 4-5.

Also at that meeting, represent-

atives of each class were appointfor the event. All class representatives appoint-

ed are requested to attend a planning meeting at 7:30 o'clock tonight (Thursday) in the school cafeteria.

Representatives The following representatives of the various classes were appoint-

Mrs. U. L. Moreland, 1914; Mrs. Dan Z. Ward, 1920; Mrs. Harlow Neis, 1923; Mrs. Ted Smithee, 1924; Rudolph Struve, 1926; Mrs. Orson Rea, 1927; Jerry Moorhead, 1928; Alvin Hardin, 1929, Ed Crow, 1930; Mrs. Irvan Rhodes, 1931; Mrs. Bob Burnett, 1932; J. L. Irish, 1933; Tom Johnston, 1934; Mrs. Marvin Struve, 1935; Oliver Jackson, 1936; Glen Reagan, 1937; E. J. Pope, Jr., 1938; Mrs. Ralph Stevenson, 1939; Mrs. Bill Jack Ingram, 1940; Mrs. Vernon Pettit, 1941; Joe Lovelace, 1942; Mrs. Dean Sterling, 1943; Mrs. Bob Drace, 1944; Gean Nunn, 1945; Mrs. Harvey Lutrick, 1946; Miss Alma Ruth Patterson, 1947; Mrs. Lindell Myatt, 1948; Mayo Loper, Mrs. Harold Thomas, 1950; Jim Bob Smith, 1951; Joe Doyde Oswalt, 1952; Hoppy Toler, 1953, Bobby Lewis, 1954; Barbara McDougal and Sherley Oswalt, 1955; Mrs. Joe Dean Smith, 1956; Miss Dorotha Alexander, 1957; Jerry Oswalt, 1958; Mrs. Richard DuBose, 1959; Mrs. Josh Howard, 1960; and Miss Linda Faver, 1961.

PRICE DANIEL GOVERNOR OF TEXAS AUSTIN, TEXAS

For each of the past 12 years, Public Schools Week in Texas has been set aside as a special time to place increased emphasis on our education system. During this period, parents are encouraged to visit the public

schools, and all citizens are urged through special programs to recognize the tremendous importance of our system of education. Our goal is to make Texas public schools the finest in the Nation, and to achieve this our citizens are urged to take an active interest in the school systems and to cooperate with their school boards, superintendents, principals and teachers.

Never before in our history has there been a greater need for educated leadership. As we rush to train young people in science and technology to keep pace with world events, it is also important to remember that our public schools will furnish our leaders tomorrow with the basic human, moral and spiritual foundations necessary for more advanced training and knowledge.

THEREFORE, I, as Governor of Texas, do hereby designate the period of March 5 - 9, 1962, as PUBLIC SCHOOLS WEEK

In official recognition whereof, I hereby affix my signature this 9th day of October, 1961.

PRICE DANIEL Governor of Texas

Sunday, March 4 - 2 to 5 P. M.

SMEAD COKE, Contractor

What Are The Advantages Of

Sol-U. Phos

Home Offices--Brownfield, Texas

SOL-U-PHOS LIQUID FERTILIZERS HAVE PROVEN TO BE AS GOOD OR BETTER THAN OTHER TYPES OF FERTILIZERS. THEY HAVE A HIGH WATER SOLUBILITY WHICH HAS PROVEN TO BE VERY IMPORTANT IN GIVING LIQUID FERTILIZERS A GOOD SPREAD THROUGH THE SOIL.

Every drop of SOL-U-PHOS is a chemical combination of plant nutrients . . . which fact alone insures balanced fertilization in every portion of the field.

Beyond question the flexibility of SOL-U-PHOS surpass any other type. The needs of the soil is shown by soil tests . . . and can be accurately followed with SOL-U-PHOS. (Example: If the soil test should call for an 80-60-0, there is not a formula in dry fertilizers readily available. In order to get the correct amount of nutrients of one kind, the farmer may have to apply a certain amount of unwanted or not needed nutrients in quantities that can be costly, just to get the correct amount of Nitrogen or Phosphorus. This is not so with SOL-U-PHOS . . . the farmer gets what he needs, in the amounts called for by his soils tests.)

Simplicity of SOL-U-PHOS . . . The application of SOL-U-PHOS has been termed as simple as "eating pie." There is no back-breaking lifting-no need to have two or three men per applicator-no need to pay out extra amounts of monies because of the slowness of application of dry fertilizers . . . not when the average farmer can apply up to 60 acres per day with one tractor, and one man. The simplicity of SOL-U-PHOS is one part of the operation that is so amazing that it is hard to tell it to make it sound reasonable. Go by your nearest SOL-U-PHOS Liquid Fertilizer dealer and discuss your fertilizer problems with him

What about price? . . . Generally speaking, plant nutrients in SOL-U-PHOS Liquid Fertilizers are lower in cost for the same type of plant nutrients found in other types of fertilizers. And when you buy SOL-U-PHOS, you pay only for the nutrients, delivered to you by the dealer.

> Before you buy any fertilizer . . . talk to your friends and neighbors who have used Liquid Fertilizers . . . go to your nearest SOL-UPHOS dealer . . . get all the facts, and you will see why so many farmers are "sold" on Liquid Fertilizers . . . fertilizer "built" for farming.

Friendly Service

It is understood how responsibilities and precise thinking become vague and unimportant when a dear one has passed away. Sanders Funeral Home fully realizes how one feels during this period . . and Sanders makes an honest attempt to give friendly, advisory service. Our staff is considerate and helpful.
