Party Honors The Hardestys

The Edwin Hardestys were given a "going away" party Thursday evening, March 14, in the home of the Andy Reids. If all proceeded as planned, the Hardestys are now in their new home in Colorado Springs as they were to move Thursday, March 21.

There were 42 present although only 9 tables of '42'. The others were busy as hostesses and helping the hostesses. Progressive 42 was played and enjoyed.
Following the "42", refreshments of pie and coffee were served everyone and there was a low table with a large pile of gift wrapped packages in the center with two chairs which were to be occupied by the guests of honor. Ed and Jerry opened the large number of gift packages and they were passed around for all to see. There were comments by Andy Reid and some reminiscing by Mrs. Hardesty. Although she taught hundreds of children, it developed that there was only one person present whom she had taught, Joe Thompson. An amusing incident in which Joe was involved was related by Mrs. Hardesty and was enjoyed by all, including Joe.

A number of pictures were taken by Willie Florence while the packages were being opened and viewed.

JUST LIKE OLD MAN RIVER

If you want a truck that does its work without yelling for attention all the time, buy a "new reliable" Chevrolet.

You have to take care of it; it's a machine. But this isn't a full-time activity. The clear idea is that the truck works for you, not vice versa.

The way to build such a truck is to put more quality into it. For example, Chevrolet doesn't build one type of suspension system for all sizes of trucks. Chevrolet designs suspension systems to

fit your need. The light-duty type is strong on comfort. Another kind for heavier trucks stiffens up as you increase your load and vice versa. Make sense?

Conventional pickups have double-wall construction in cabs, doors, lower side panels. Roofs are insulated. Body floors are select wood, not metal. Tailgate chains are wrapped in rubber. If you'd like to examine or drive a new '63 Chevrolet truck, just call us. We'll be right over.

THANK YOU

Thanks to our neighbors and the firemen for their efforts in putting out a fire behind our house Monday morning. We appreciate your efforts. —Mr. and Mrs. Elmer Petty.

P-TA Meetings

Your P-TA needs you, and whether or not you realize it, you need your P-TA. One of our greatest freedoms is the right to function freely as groups in the best interest of ourselves

and our children. One such organization is your P-TA, which serves as a media whereby parents, teachers and school administrators can work together for the best interest of our children and discuss any problems or complaints brought to their attention. As taxpayers and parents, the residents of any school district should have the right and freedom of such an organization.

The national and state P-TA organizations are powerful groups with the authority to stand behind and support local groups in any way necessary. To be qualified for support, our local group must be affiliated—hold at least seven meetings per year, with a certain percentage of parents present at each meeting.

These are busy days and we sometimes feel that it is a drain on our time to attend and, perhaps, with the idea in mind that others will be there and they don't need me. Your P-TA cannot function without you. If we parents allow the Abernathy P-TA to disband now, we may someday realize we have destroyed a vital link between ourselves and our children's education. With a population and school enrollment as large as Abernathy's is, there is no reason why we couldn't have one of the largest and most active groups in the state. Can you think of any other school system as large as ours without an affiliated P-TA?

The District P-TA conference will be held in Littlefield on April 9. Mrs. Paul Nesbitt and Mrs. O. J. Murray have been elected by Abernathy P-TA to attend as delegates.

The next regular P-TA meeting will be April 2, 8 p.m., in Abernathy School cafeteria. Attend and let your vote be counted. The future of your P-TA depends on you.

General Telephone towns are on the move!

**Port
O'Connor
Defies a
Hurricane's
Fury**

In September of 1961, the Texas Gulf resort and fishing center of Port O'Connor suffered almost total destruction from Hurricane Carla.

But the proud, determined and energetic community of about a thousand people, refused to admit defeat. Today, homes, business buildings and fishing facilities have been rebuilt larger, more permanently and with a fresh, new look.

Port O'Connor's amazingly complete come-back is another reason why we say that big things are happening in General Telephone towns.

Yes, towns in our service area are on the move. Community improvements are under way, local resources are being developed, new industries are coming in. If your town seeks additional information about this expansion, we are at your service. Just write our Community Development Dept., Box 1001, San Angelo, Texas.
