Clinic Set Here August 13

August is a good month for parents to start their children on their series of boosters of immunizations. Children getting ready to enter school will be required to have several vaccines. Infants and preschoolers who are not old enough for school need to have the protection against certain communicable diseases.

The monthly immunization clinic operated by the Plainview-Hale County Health Department will be held at the American Legion Hall on Tuesday, August 13, between 2 and 4 p.m. Children should be accompanied by a parent or guardian or a parent's consent slip must be presented.

The public health nurse will be assisted by volunteer members of the P-TA who have been giving their time and effort to the clinic's operation since its beginning. The health unit wishes to take this opportunity to express its thanks to these ladies who have been so helpful with the clinic.

Band Rehearsals To Open Monday For Freshmen

Rehearsals for freshman members of the Antelope Band will begin at 8:30 a.m. Monday, August 12, at the high school band hall. Sessions will be devoted to marching fundamentals and playing rehearsals on new music to be used during the coming football season. Rehearsals will be over about 10:30 each morning, then individual work will begin.

Drum Majors Susie Deering and Bill Forbes will be on hand to assist Mr. Maxwell in the drill work. Since there are not quite enough uniforms to outfit everyone who has pre-ordered for band, it is important that these rehearsals be well attended, as the weakest players and those who do not attend regularly will be on the bottom of the uniform list.

Afternoons will be taken up with individual technic work and checking out uniforms. Upperclassmen who want to complete some of their required technic work before school begins should contact Mr. Maxwell and arrange for a time on the schedule.

Rehearsals for the entire band membership will begin one week later, on Monday, August 19. Some of the new music to be played this fall include a marching arrangement of "Lawrence of Arabia," "Lady of Spain," and others in addition to the regular pep songs and marches.

Everett Maxwell is director of Abernathy school bands.

GETS TICKET ANYWAY
 A woman was arrested for speeding. The traffic officer asked to see her driver's license. It was a restricted license and it read that she must always wear her glasses while driving. The officer, seeing she was wearing none said, "Where are your glasses?" She replied, "But officer, I have contacts." He said, "I don't care who your friends are. I am going to give you a ticket anyway."

One farm worker in the U. S. today supplies food, fiber and other products for 27 people as compared to only eight in 1920. Crop production is now 70 percent higher per acre, output per breeding animal is 90 percent greater and one hour of farm labor produces more than four times as much as it did in the period from 1919-1921.
 The nematode has now been exposed as the principal agent for destruction of at least two or three billion dollars worth of crops in the U. S. annually. The small worms attack virtually every plant in every climate and injure them by sucking their juices. Soil fumigants are the weapons used against nematodes which parasitize animals as well as plants.
