## COTTON TALK

Lubbock—Not only cotton farmers on the High Plains, but all U. S. farmers have for many years faced a short supply of suitable agricultural labor—perhaps since the tractor displaced the mule—and all indications are that the shortage will get worse before it gets better.

Unless Congress has an unexpected change of heart, Public Law 78 will expire on December 31 of this year. PL 78 is the "enabling act" under which from 200,000 to 450,000 Mexican Nationals (Braceros) have been brought into the U. S. specifically for farm work each year since its passage in 1951, and which has proven mutually beneficial to employer and employee. About 200,000 such workers were imported in 1963 and a similar number is expected to cross the border by the end of the year.

So, when PL 78 dies it will leave a 200,000-man hole in the labor force available to U. S. agriculture in 1965 and presumably thereafter. Somewhere, U. S. farmers will then be expected to find irrigators, hoe hands, harvest hands and a variety of other workers to fill that gap, and already there is considerable concern over where such workers are to be found.

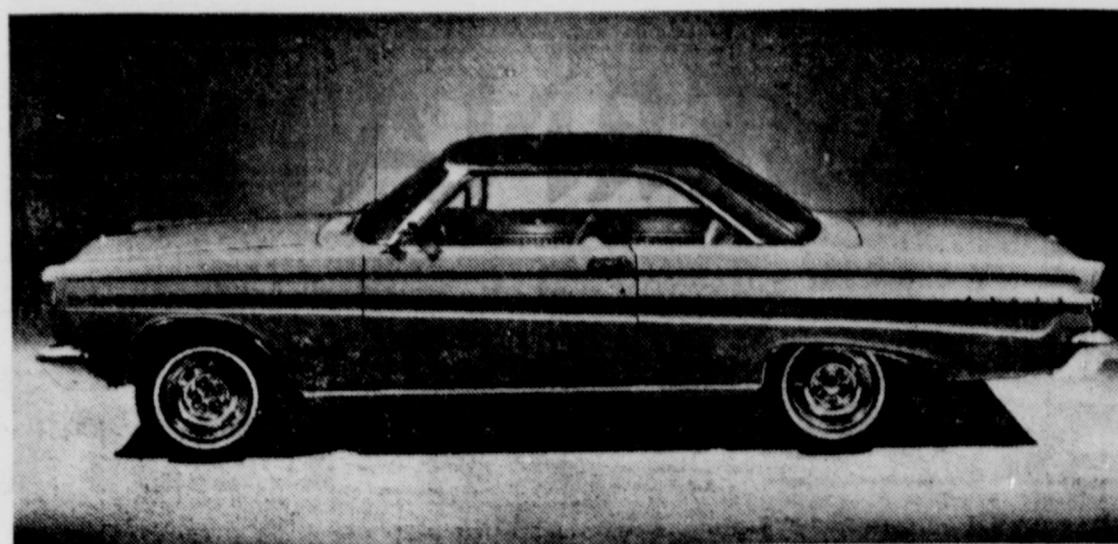

First to feel the pinch of this sudden loss of labor will of course be those farmers who have learned to depend on foreign labor to fill all or part of their requirements, but the increased competition for the already short supply of domestic workers will carry the burden to all farmers alike. At least until such time as another acceptable and willing labor supply has been developed, some crops will undoubtedly suffer for lack of care, and when production is curtailed, especially on fruits and vegetables, the ill effects of a short labor force will

begin to be felt by consumers far removed from agriculture.

The reasons behind congressional disapproval of the Bracero program have been many and varied, and have been widely discussed. Generally, the feeling among agricultural leaders is that opposition to PL 78 is based on misunderstanding and political expediency rather than a genuine concern for either agriculture or agricultural workers. But, be that as it may, many of the legislators who voted for the program's one-year extension in 1963 have given notice that they will not again favor the law, and it is given little chance for survival beyond its present expiration date December 31.

Anticipating the repercussions that will obviously follow close behind this sudden withdrawal of 200,000 crucial workers, representatives of agriculture (including ourselves) met recently in Washington to draw up the framework and purpose of a new organization to be known as the "National Council of Agricultural Employers."

Objectives of the N.C.A.E. are generally set forth in two sections of its third article of Incorporation, to wit: "(a) To unite in common organization those engaged in the production, handling or processing of United States agricultural (including horticultural) commodities or products and of others whose business welfare depends upon the economic efficiency and well-being of U. S. agriculture, and (b) To promote the common business interests of its members to improve the position and image of U. S. agriculture as an employer of labor and to facilitate and encourage

New mid-model offerings announced today by Lincoln-Mercury Division include the Comet Cyclone (above) and a series of luxury-plus items for Mercurys and Comets. The Cyclone is a sporty two-door fastback with distinctive simplicity of styling, special interior treatment and an optional vinyl covered roof. The Mercury features for the first time a vinyl covered roof on the breezeway-styled cars. Other dress-up items available on both cars include: seat belt retractors, remote control deck lid releases, wheel covers and new paints and trims.

### 1963 DRIVER LICENSE SUSPENSIONS AND DENIALS

A total of 467 citizens of Lubbock County had their driver's license either suspended or were denied a license during the year 1963. Of this total, 379 persons had their licenses suspended and 88 persons were denied a license.

Some of the major reasons for suspensions and denials of licenses including driving while drinking, 181; habitual violators, 204; fraudulent use of license, 0; violation of restriction, 29; automatic suspension offense in other states, 13; driving while license suspended, 9; aggravated assault with motor vehicle, 6; negligent homicide, 1; driving under the influence of drugs, 1; incapable, 1; and committed automatic suspension offense, 22.

During the year, 25,022 licenses were suspended with 8,632 licenses denied over the state. Drivers in the 20 year-old bracket had the most licenses suspended with 1,307. The 19 year-olds ran a close second with 1,306 suspended. The oldest driver who had his license suspended was 96 years of age, with one driver 95 years of age who was denied a license.

The above information was obtained from the records of the Texas Department of Public Safety. The D.P.S. is required by law to file every application for a driver's license received by it. These records include the name of every licensee to whom licenses are granted, (and the name of every licensee whose driver's license or driving privilege has been canceled, denied, suspended or revoked and after each such name note the reasons for such action.

The Department shall also file all accident reports and abstracts

of court records of convictions received by it under the laws of this state and in connection therewith maintain convenient records or make suitable notations in order that an individual record of each licensee showing the convictions of such licensee and the traffic accidents in which he has been involved shall be readily ascertainable and available for the consideration for the Department upon any application for the renewal of a driver's license and at other suitable times.

The business side of on-farm vacations for city dwellers, a growing enterprise and new source of income for some farm families, is discussed in a U.S. Department of Agriculture report. The report, by the Economic Research Service, evaluates the farm vacation business in Ohio but covers many items which would have widespread interest. Single copies of "Farm Vacation Enterprises in Ohio," ERS-164 are available from the Division of Information, Office of Management Services, U. S. Department of Agriculture, Washington, D.C. 20250.

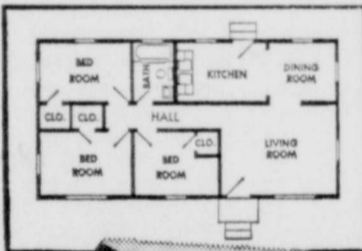

The U. S. Department of Agriculture has announced a change in the recently enacted '64 voluntary wheat program. The change provides that wheat produced on any farm on which the 1964 wheat acreage is within the farm allotment will be eligible for price support loan or purchase based on the national average of \$1.30 per bushel. Eligibility for price support only will be determined on the basis of the wheat acreage on each individual farm and not as previously announced.

# Ceremonies For NEW POST OFFICE

## Monday, June 21st

POSTMASTER Herman Lambert is shown here at the desk in his private office in the new post office building. He has been with the post office here about two years, first as acting postmaster then as regular postmaster.

\*\*\*

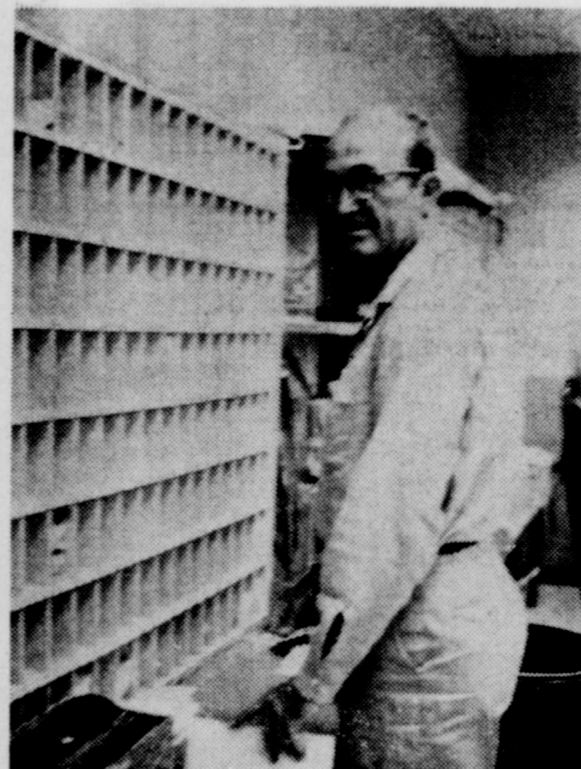

JACK HACKLER has been with the local post office 16 years, three as a clerk and 13 as rural route two mail carrier.

HANDLING MAIL — Three of the men pictured here handle mail and wait on patrons at the counter in the small lobby of the post office building. Seated is Herbert Herdin, regular clerk, office 14 years. Standing, from left, Eugene Heath, career substitute clerk, over 12 years; Billy Jack Hackler, temporary substitute clerk, about one year, and C. H. Graves, far right, custodian, who has been with the local post about one year.

\*\*\*

J. D. WEBB is the carrier for rural route one, a position he took about one year ago after George Ragland retired.

**GRAIN SORGHUM FREIGHTS REDUCED TO THE WEST COAST**

Grain sorghum rail freight rates from the High Plains to the West Coast for exports are to be lowered from the current level of 80½ cents per hundred down to 55 cents per hundred. The California domestic rate remains unchanged at 60½ cents per hundred. Provisions for the new rate were authorized by the Executive Committee of the Trans-Continental Freight Bureau meeting in Chicago this week. An effective date

implementing the reduction in the rate will be announced as soon as the railroads have an opportunity to publish new rate schedules.

Bill Nelson, Executive Vice President of the Grain Sorghum Producers Association, commended the individual railroads for this action through their Bureau. Nelson said the old 80½ cent per hundred rate had been prohibitive to West Coast movements of grain sorghum for export even though users in Japan—the World's largest cash buyer for U. S. sorghum, had been interested in West

Coast purchases. West Coast ports are 20 days closer to Japan than Gulf ports and ocean freight savings average \$4.00 per ton. He said that the combination of savings in ocean freight and reduced rail rates will now make it possible for Japan and other Far East grain buyers to have a choice as to point of delivery of area grain sorghum. He also added that in times of stress such as the recent Panama incident, the new rate may make a difference as to whether the foreign buyers have access to grain at all or not.

According to Nelson, the Grain

**COTTON TALK**

**BOLL WEEVIL PLANS**

Operational plans for carrying out next fall's giant "Diapause" boll weevil control program on the High Plains were laid in Lubbock April 16 at a meeting of the boll weevil steering, area-wide and technical Advisory Committees, sponsored by Plains Cotton Growers, Inc., of Lubbock.

Entomologists at the meeting reaffirmed their statement that such a program is an urgent necessity for the Plains area, and discussed plans on extensive surveys this summer for determining the extent of acreage to be sprayed this fall. Forty-five persons attended the meeting, including entomologists and other top officials from both State and Federal levels. The boll weevil experts have recommended the Diapause program to the Plains as the best known method to keep the weevil from invading the entire High Plains as he has other areas, and they are working closely with area committees and Plains Cotton Growers to assure the program's success.

In a report on the progress of weevil overwintering research, W. L. Owen, Entomologist at the Texas Agriculture Research and Experiment Center, said that a total of 35 live weevils have been recently collected from the weevil "cages" that were installed last fall. Of the total, 16 were found in Crosby County, seven in Garza nine in Dickens and three in cages on top of the Caprock near Close City. According to Owen, research so far has given the definite indication that Shinnery Oak is the habitat in which most weevils hibernate below the Caprock.

Early "trap" crops of cotton are being planted to give more information on weevil overwintering, and the information should be complete before commercial cotton crops begin to square, Owen

said.

Dr. J. C. Gaines, head of the entomology department at Texas A&M emphasized the importance of in-season weevil control below the Caprock. He explained that this would reduce the number of weevils migrating to the High Plains and thus minimize the acreage needing treatment this fall. Donald Johnson, Executive Assistant of Plains Cotton Growers said PCG is laying plans for an educational and informational campaign in this area that will touch as many people in as many ways as possible.

Committee members also discussed some of the details of contracts that will be made for chemical suppliers and applicators with Archie Geiser, Chief Pilot for the Plant Pest Control Division, Agriculture Research Service, U.S. Department of Agriculture. Geiser stated that contracts would be set on a competitive bid basis and that the area would be divided into units, with contract applicants being allowed to bid on one or more units. He said the method and time for bidding would be widely publicized when details were complete.

There's a new instant dehydrated pumpkin mix on the market in flake form. Pumpkin for the product is specially grown at the new plant of Produce Processors Inc., at Windsor, North Carolina, and selected for color, flavor and optimum rehydration properties. Efforts to produce pumpkin flakes have up to now been unsuccessful because of the high water content of fresh pumpkin, which ranges from 90 to 93 percent. The flakes are made possible by controlled amounts of starches and sugars added to the cooked puree.

Why is foreign trade so important to American agriculture? We now export the product of about one out of each six of our crop acres—as much as half of our wheat and a third of our cotton.

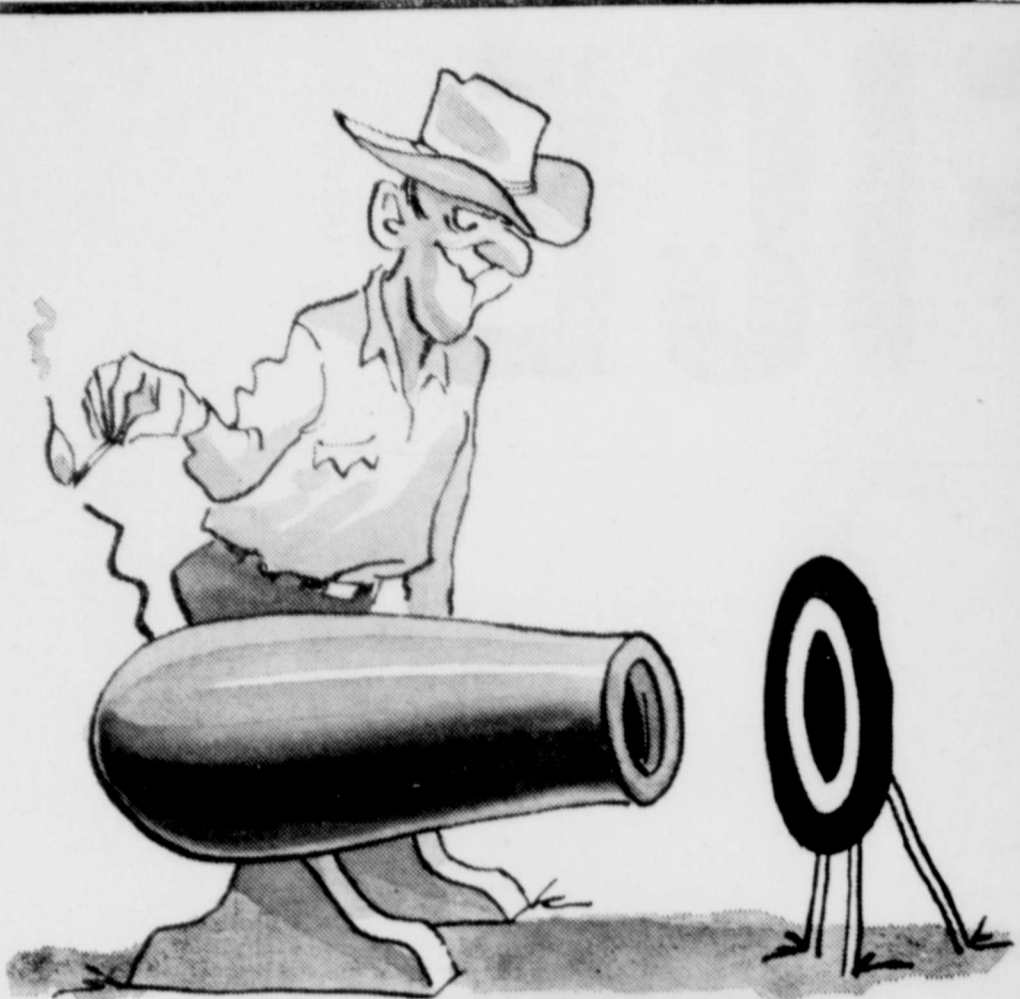

Secretary of Agriculture Orville Freeman announced recently an extension from May 15 to May 22 in the sign-up time under the new wheat program. The extension was made because the Agricultural Stabilization and Conservation Service feels that many wheat producers do not realize the significance of the program's certificate feature. Farmers desiring more information on the program are advised to check with their local ASCS office soon.

A PRODUCT OF THE SHAMROCK OIL AND GAS CORPORATION

Sorghum Producers Association had requested a 5½ cent rate on a permanent basis in 110,000 pound cars. The announcement is for a 55 cent rate on a one-year trial basis with 130,000 pound cars minimum. He said that oversized car requirement will not be a serious problem if the railroad will step up efforts to make such equipment available which has up to now been in short supply.

Elbert Harp, farmer-President of GSPA said that work such as this on freight rates by the Association is part of the overall research, market development and service programs for grain sorghum by farmers themselves to better their position. Such work has pushed sorghum exports from a mere 22,000 million bushels annually in 1956 to over 112 million bushels now and resulted in stronger cash prices to area farmers.

**HOUSEWIVES SAY...**

ONLY GAS COOLS SO MUCH BETTER FOR SO MUCH LESS!

that their housework is made easier with GAS year 'round air conditioning. Dust and pollen are filtered out of the air, and drapes and rugs stay clean much longer. Cooking odors... and even Dad's cigar smoke... are taken care of in a jiffy with cool, fresh air in the summer—and warm, fresh air in the winter.

**STATE CAPITAL**  
**Highlights**  
**AND Sidelights**  
 by Vern Sanford  
 TEXAS PRESS ASSOCIATION

**AUSTIN, Tex.**—Gov. John Connally has moved into the plush working quarters ever occupied by any of this state's governors. Last week workmen put finishing touches to the first overall remodeling of the offices in 76 years. Until now Texas governors have been tending to state business in cramped and poorly arranged offices.

Construction has been under way since last January. Capitol visitors once again are welcome all day in the mirrored and flag-draped gubernatorial reception room.

The governor occupies a large, gold-carpeted, crystal-chandeliered office. He also has an adjoining conference room, small kitchen unit and shower cabinet. Gold carpeting runs throughout the second floor suite. Modern ceiling, lighting and air conditioning have been installed, and the fine old woodwork sanded and refinished to its original state.

Redecorations of the governor's downstairs offices will not be complete for 30 days. Meanwhile, part of his staff will continue to occupy temporary quarters on the Capital's first floor.

...ance of a barrier to prevent migration of screwworm flies from Mexico is an international program.

**SOIL CONSERVATION**—Planning costs for watersheds on Upper Bosque River, Hondo Creek and Donahoe Creek cost the Texas State Soil Conservation Board \$134,938, according to State Auditor C. H. Cavness' report on the past two fiscal years.

Cavness said the Board spent a total of \$552,930 of its continuing efforts to conserve state soil resources and reduce effects of flooding in small watersheds.

Legislative appropriations of \$572,579 were provided during fiscal 1962 and 1963. Biggest outlay was \$215,001 for almost 200 soil conservation districts which the board administers around the state.

**MOSQUITO ERADICATION PLANNED**—First allotment of federal funds—\$174,198—in a five-year \$750,000 program aimed at wiping out the mosquito in Texas was received by State Budget Director Bill Cobb.

Texas State Department of Health will administer the program. The federal government, co-signee of a Pan American Health Organization agreement to stamp out yellow fever-carrying mosquitoes, is underwriting the plan in a nine-state area, Puerto Rico and the Virgin Islands.

Mosquito abatement and education teams now are organized for assignment in key areas of Texas. Dr. James L. Goddard of the U. S. Public Health Service said the mosquito must be eliminated from the U. S. to prevent its spreading to other western hemisphere nations.

**BUILDING BOOM SLACKS**—Despite a spring boom in apartment building, issuance of building permits in Texas in March dropped 8 percent from March, 1963.

**UT Bureau of Business Research** thinks a slump in non-residential construction accounted for the overall drop.

**TOURISM EXPANDING**—Two Texas officials predicted tourism in the state is going to start booming.

Governor Connally said tourism will become the "fastest-growing Texas industry." He called the state's new advertising program "one of the soundest investments in the economic and recreational future" of the state.

J. Weldon Watson, executive director of the Parks and Wildlife Department, said the fact that a Texan is President makes Texas more popular with visitors. Many of them want to know "how close such and such a park is to Johnson City," said Watson. He sees tourism and park use as having a "mighty impact" on the Texas economy.

**BANKING - LOAN HEARINGS SET**—State Banking Board will hear application on May 13 for charters of Peoples State Bank of Marshall; Southwest State Bank of Brownwood; and Expressway

Bank and Trust of Dallas. Action is due at that time on applications of Texas State Bank of Abilene and Royal Bank and Trust Company of Dallas.

Savings and Loan Commissioner James O. Gerst set a June 17 hearing on the application for Trinity Valley Savings and Loan Association at Madisonville. Proposed directors are from Midway, Normangee, North Zulch and Buffalo, as well as Madisonville.

**TOO SLOW FOR PENSION**—Some long-time Harlingen firemen who recently decided they want to participate in the Firemen's pension plan waited too long, according to Attorney General Waggoner Carr.

Carr ruled that the 1967 Firemen's Relief and Pension Fund acts provides that a fireman forfeits his right to participate if he failed to enroll, and the 1963 firemen's pension law covering fully-paid firemen in part-volunteer departments embodies the same terms.

**GOLIAD MEMORIAL PLANNED**—Governor Connally named a Texas committee to work with a Mexican group on plans and financing for a suitable memorial at Goliad to Gen. Ignacio Zaragoza. The general's victory over French forces on May 5, 1862, is celebrated throughout Mexico. General Zaragoza was born in Goliad.

The Texas Legislature in 1961 accepted the birthplace of Zaragoza as a state park historical site but provided no funds for developing it.

Good Neighbor Commission Director Glenn Garrett heads the Texas planning group. Other members are Park and Wildlife Director J. Weldon Watson; Tourist Development Agency Director Frank Hildebrand; and Historical Survey Committee Director George Hill.

**COURTS SPEAK**—Supreme Court in a 7-2 decision refused to direct that military servicemen who enlist out of state be permitted to vote in Texas.

The majority held servicemen have no "federally-protected right" to vote where they are stationed. El Paso-based Sgt. Herbert N. Carrington, who enlisted in Alabama, brought the suit, challenging a state constitutional provision which limits servicemen stationed in Texas to voting in the county where they resided when they entered the service.

In a dissenting opinion, Chief Justice Robert W. Calvert and Associate Justice Clyde E. Smith said the ruling denies some servicemen the right to vote in all elections. They further contended the state constitution violates the equal protection clause of the 14th amendment to the U. S. Constitution.

Same issue is soon to be tried in federal court at San Antonio where two other servicemen have filed suit.

Third Court of Civil Appeals upheld district court ruling against an AFL-CIO suit charging Texas Employment Commission with "pro-employer lobbying." Court's new opinion said TEC members have a duty to advocate needed changes in unemployment compensation laws. Court also held former Commissioner J. J. Pickle (now congressman) acted within his authority in recommending amendments.

Supreme Court agreed with lower courts which nullified incorporation of Mayhill near Denton. Court of Criminal Appeals ordered a new trial for ex-Railroad Commission engineer L. D. Murphy. He had been sentenced to two years on a charge of conspiring to bribe a fellow worker to make a false report on a slant oil well.

**Cattle Breeding Program Started In Hale County**

An artificial cattle breeding program has been initiated in Hale County.

A. R. (Buster) McNatt is field man for the American Breeders Service, Inc., which is sponsoring the program. McNatt may be contracted at the Wilson Grain Co. at Happy Union where he is regularly employed or at his home in the Happy Union community.

County agent Ollie Limer, in commenting on the program, pointed out there are approximately 10,000 head of beef and dairy cattle in this county and that the artificial insemination process offers the opportunity for cattlemen to breed their cows to proven bulls.

Limer pointed out that it is much cheaper for the small herd owner to breed artificially than to keep a proven bull. The American Breeders Service obtains semen from bulls in proven herds in southern Indiana where artificial breeding has been carried on successfully for a number of years.

Cattlemen there and other parts of the country endorse the process enthusiastically, Limer said.

McNatt recently completed a course of training in artificial cattle breeding at Belvedere, Ill.

**Blood Bank File Is Kept At Reid Chevrolet**

The Walking Blood Bank File, promoted by the IOOF Lodge of Abernathy, is now kept at Reid Chevrolet. Edwin Crow, sales manager for Reid Chevrolet, is in charge of the file.

The card file, with the types of blood of people in the Abernathy area, is kept for the purpose of locating certain blood types in case of an emergency. Also, a person whose name is carried in the file may receive blood more quickly in the case of an emergency, whereby the necessity of taking another blood test could be eliminated.

About 450 names are now in the Walking Blood Bank File. A large number of these individuals have rare blood types, and a few have very, very rare blood types.

The top four communities in the Texas Community Improvement Program will be known by the latter part of May. The judging process first on the county basis, then on the district and finally on a state basis will determine the winners, reports Reagan Brown, Extension rural sociologist. He said 251 communities participated in this year's program. Awards to winning communities on each of the three levels of competition will be provided by the electric utility companies operating in Texas.

Mail NEWS to The Review.

Anyone wishing to file his or her name and blood type in the file is asked to contact Ed Crow at Reid Chevrolet, or any member of the IOOF Lodge.

**REDDY CONGRATULATES**  
 Leon Smith, Jr., 430 East Dallas Street, Muleshoe, Texas. "Watch & Win" Winner for May on Winning the Electric Clothes Dryer.

**Load-Easiest pickup IN THE Southwest**

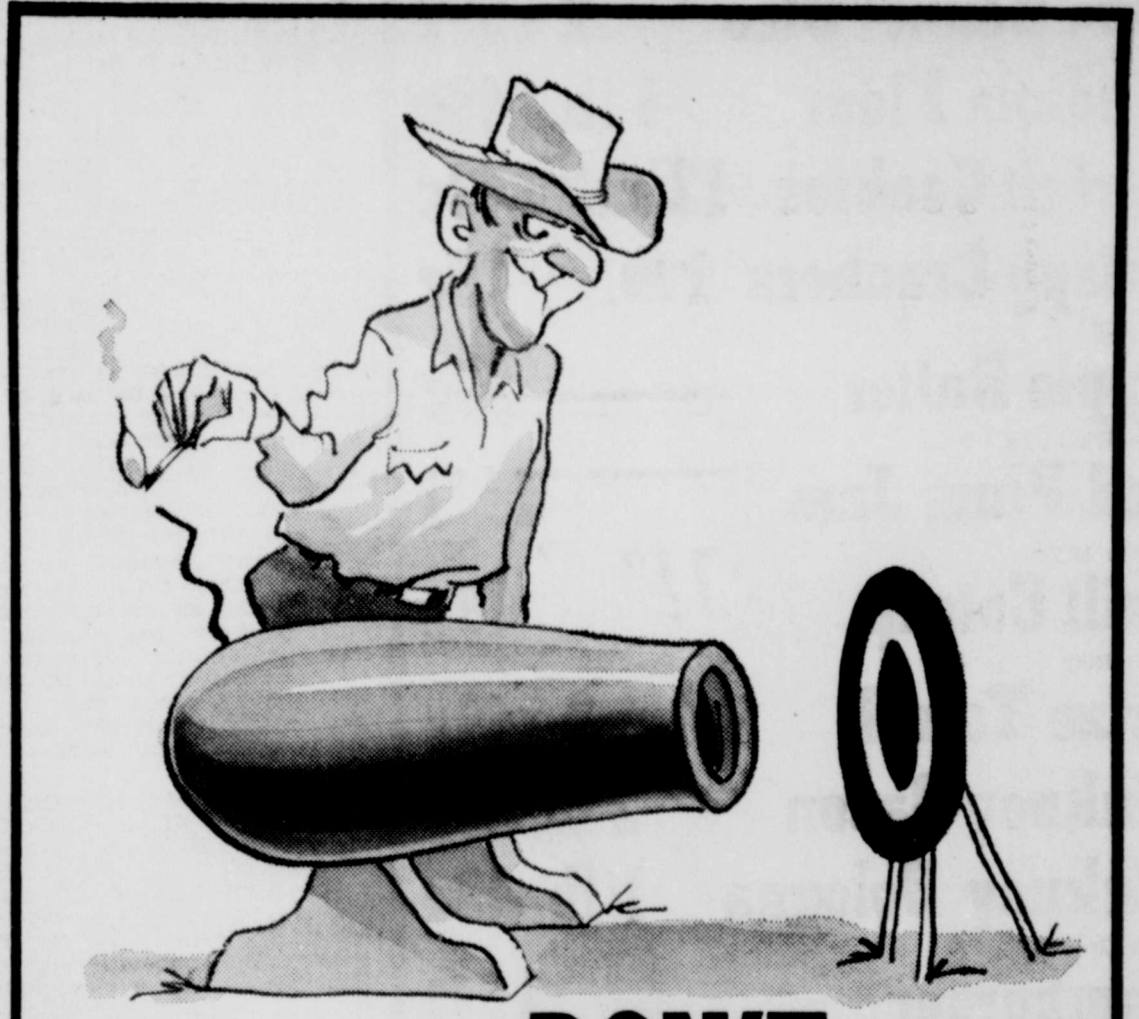

You flip Ford's new tailgate open and shut with one hand. Yet it's so strong it can take a ton of weight!

Look, no hooks! Ford's center latch operates husky catches at both sides of the tailgate. As the gate swings down, heavy steel straps unfold to support it. Simple—and strong, like the new Styleside box with double-sidewall construction. Come try the new '64 Ford, the tough truck that makes everything easier for you. Including saving money!

**DON'T MISS**

If you've got a bead on the biggest profit possible from this year's crop be sure you're loaded for bear. The only way you can be sure you'll get the maximum yield is to be sure your young plants have all the nitrogen they need. If you missed getting a pre-plant of anhydrous ammonia into the land then let us furnish you with Nitromite, Shamrock's anhydrous ammonia, for a quick side dress application. The cost will be just a fraction of the profit from the extra yield. Call or come in soon.

CAROLYN LOUISE BALLARD

Mr. and Mrs. Cecil Ballard of Amarillo announce the engagement of their daughter, Carolyn Louise, to Robert F. Barnes, son of Mr. and Mrs. M. F. Barnes of Amarillo. Carolyn is a Senior Elementary Education major at Texas Technological College. The wedding is scheduled for July 25, in the First Baptist Church at Amarillo. Mr. Barnes is to receive his degree from Texas Tech in August and is presently employed as manager of the Abernathy Chamber of Commerce.

EAGLES LOSE The Plainview Indians came to town Sunday and broke the Abernathy Eagles' four-game winning streak, taking a 15-11 decision. The Eagles now have a 6-3 win-loss record. The Eagles will host the Lubbock Cardinals here Sunday. The public is invited to attend.

Commissioner Court Action

A group of Hale County Republicans attended a recent meeting of the Commissioners Court in Plainview regarding the general election in November. They asked the Court to follow in accordance with the Texas Election Code and see that both parties (Republican and Democrat) are equally represented in the election of general election officials. Included in other action of the Hale County Commissioners Court was acceptance of the resignation of Nicki Woelfel, assistant home demonstration agent for the past year. Miss Woelfel will be married Saturday and is moving to Topeka, Kan. Her resignation is effective July 10.

Hale County Motor Company's low bid of \$1,964.48 on two new autos for the sheriff's department was accepted. Other bids were received from Cooper Pontiac-Cadillac, \$3,105; Maggard-Nall Chrysler-Plymouth, \$2,500; Bratcher-DePaew Lincoln-Mercury, \$2,800 and W. T. Cain Oldsmobile, \$3,595.98. On the advice of the county's legal advisers, The First Southwest Company, the court agreed to sell to First Southwest \$5,000 in Dumas Independent School District bonds and \$2,000 in Friona Independent School District bonds. It now holds at 2 1/2 per cent interest and which matures next spring. Money from sale of the bonds, plus \$13,000 in permanent school funds will be used to purchase \$20,000 of the county's own agricultural exhibition building bonds at 3.1 and 3.15 per cent interest. Another \$1,440 in the school fund will be reinvested in a savings and loan association. The court discussed the transfer of \$2,500 from the general fund to the airport maintenance fund to cover the expected deficit to November. However, at the recommendation of Judge Abernathy the court deferred action pending report of a committee studying rental rates of the airport. A delegation of women from the Pioneer Study Club in Hale Center appeared before the court seeking financial support for the Hale Center Public Library. The library has been operating since January in space provided by the First National Bank and through donations has accumulated some 1,500 books. After a lengthy discussion the court indicated it would approve a \$50 monthly expenditure to support the library if the City of Hale Center would contribute a similar sum. The commissioners court meets the second and fourth Monday of each month at the courthouse. Meetings are open to the public. Next regular meeting is June 22; however, an additional meeting will be held this month when the court convenes as a tax equalization board on June 25.

Mrs. Royce Henson, Johnny, Steve and Jan have returned from a vacation trip to Dallas. Six Flags Over Texas and they visited relatives in Cherryvale, Kansas. Mr. and Mrs. Larry Griffin and Mr. and Mrs. Jimmy Gragg spent a fishing vacation at Possum King-dome Lake.

Mr. and Mrs. Cecil Tucker of Oxnard, Calif., were visitors in the home of Mr. and Mrs. Sam Williams last weekend. Mrs. Tucker is a sister of Mrs. Williams. O. C. Curry and Mrs. S. C. Wright of Porterville, Calif., Mrs. Ted Leonard of China Lake, Calif. and Mrs. Lola Hofnagle of Long Beach, Calif., arrived here Tuesday night to visit in the Alvin Hardin and Douglas Chapman homes. Mrs. Frank Pipes of Rio Vista and Mrs. Doyle Ball of Cleburne visited here this week in the homes of their relatives, Douglas Chapman and Mrs. Buford Davenport.

LETTERS

Dear Sirs: I wonder if you would put this, I have written, in your paper next week if you have the space. When my mother passed away I wrote this little poem and I would like for it to be put in the paper in her memory. If you cannot it is okay. Thanks, Mrs. Marvin Teaff. "My Friend The Bible" There are many times when I feel blue And never know just what to do, But there is always one friend very close to me. It's my little Bible I can always see. I open my Bible and read a line And then I begin to feel very fine For the friend inside just speaks to me And all his words I read I know are true. For I know there is one friend Who is always there to make my burdens easier to bear. Now my loved one is passed and gone, And for days I have set here all alone. No friends to talk to or share my grief But my friend, the Bible gave me relief. I lost a lot of sleep And shed many a tear When friends failed to knock or seemed to care. The tears are now fading away And I know I will see her another day. So when you have lost a loved one so dear And your friends just don't seem to care Open your Bible, you will find a friend inside Who loves you and helps your grief to hide. I hope that death doesn't knock at your door And leave you without friends at your side Or cause you grief any more, But if this should happen to you And leave you all alone, so sad and blue Then open your Bible, there's a friend inside Who won't leave you alone with your grief to hide. Written in memory of my mother, Mrs. Ella Medley, who passed away recently. —Mrs. Marvin Teaff

MR. AND MRS. E. WADE

Lakeview News

Mr. and Mrs. Dwain Bristow and sons left Friday to visit in the home of her sister, Mrs. Robert Camp and family in Corpus Christi. They were accompanied by Mr. and Mrs. A.B. Colwell, parents of Mrs. Camp. Mrs. Loren Neis was shaken up in a minor car crash in the intersection of FM 54 and Highway 400 late Monday. A young man in the other car was slightly injured. Mrs. C. C. Coffee of Lubbock was the featured speaker at the midweek service last week. The program was arranged by Mrs. R. A. DuBose. Mrs. Lloyd Goldston was a medical patient several days last week in Methodist Hospital. Rev. W. A. Amerson of Columbus, Ind. arrived here Wednesday to be at the bedside of his mother, Mrs. A. G. Amerson who suffered a heart attack and is receiving treatment in Methodist hospital. Mr. and Mrs. S. M. Harrison were on a trip last weekend to visit relatives in Jacksonville and Timpson. S. E. Campbell of Lorenzo, father of Mrs. B. A. McDougal is receiving treatment in Methodist hospital. Mr. and Mrs. Preston Mitchell and son of Albuquerque visited relatives here last weekend. Mrs. Tolbert Wade and Arleta of Canyon were here last week with her parents, Mr. and Mrs. T. W. Driver.
