## Funeral Here Saturday For Cpl. Stanley Joy; Killed In Viet Nam War

STANLEY JOY

## Joy's Letter Thanks Texas Tech Students

THE "THANK YOU" letter from Viet Nam to residents of Men's Dorm 9 at Texas Tech was dated Dec. 8.

It was tacked on a bulletin board along with others from U. S. servicemen in appreciation of Christmas cards mailed them in a mass display of grassroots support for the war effort.

"I'm a Marine in a reconnaissance unit," the letter began. "I want to thank each and every one of you for the card we received from you good people."

The letter was signed by Cpl. R. S. Joy Jr. Eight days later, he died in action.

As Cpl. Joy's body started home to Abernathy last week, the letter was taken down and re-read.

"We over here are trying to do a job, not big, not small," the corporal wrote. "We believe we are right and with support like you are giving us, we know we are right."

He added: "We will win. We have to."

In his three-page letter, Cpl. Joy said he attended West Texas State for two years and therefore knew "it took of your valuable time" to organize the Christmas card campaign; "girls, studies, girls, beer, girls, teachers, girls, etc., oh well I could rattle on about the everyday problems of life."

He closed with an offer to "answer any questions" if the students wanted to write him, then added "may God bless you . . . Your friend in the service."

Cpl. Joy (Raymond Stanley, Jr.)

## Nine Teachers Are Added To School Staff

The application of the Abernathy Public Schools for Title I and Title II of the Elementary and Secondary Education Act of 1965 has been approved retroactive to November 22, 1965.

Under study since its passage, and funding in September 1965, the local school was notified just prior to the Christmas holidays that final approval had been granted.

The money allocated \$54,987 under Title I and \$2664 under Title II must be used for the improvement of instruction and can in no manner be used to reduce the local cost of school operation. Title II money was allocated on a per capita basis and must be used exclusively for the purchase of library books.

Title I money was allocated on the basis of the number of culturally deprived children living in the school district. (This number was set by the state to be 282 according to the 1960 Federal Census. A culturally deprived child is defined as one whose parents did not make above \$2000 in 1959). Also included indirectly in this are the educationally deprived children (defined as any child who is one year behind his age group in reading, regardless of the financial status of the family).

Based on a percentage formula, certain amounts of Title I must be expended for supplies, equipment, in-service evaluation, maintenance, transportation, health, guidance, etc. with a major portion for salaries of people not regularly employed by the local school.

Under the new program, teachers have been employed to work with those students who are behind in reading. Teachers employed are: Mrs. Gene McMaster, Mrs. Vester Patterson, and Mrs. Betty Cox. The teachers will not have regular classrooms, but will work with small groups of children who are behind their age group in reading in the Elementary, Junior High, and East Ward (a vacancy remains for a special high school reading teacher).

Also included in the program is a full-time library clerk, Mrs. Margaret Bilbrey, at the Junior High School and teacher aides Mrs. Dennis Allen, High School; Mrs. Y. F. Snodgrass, Junior High; Mrs. Willie Florence, Mrs. Ernest Durrett, Mrs. Nell Preston at the Elementary level.

Included in the program is a comprehensive summer school—details to be announced at a later date—and the opening of the high school library for study and special help for students each Thursday night from 7-9 p.m. beginning January 6, 1966. On duty each week will be teachers to assist students in math, science, English, and social studies as well as the regular librarian to aid the students in locating study materials.

Other aspects of the program include an in-service workshop consisting of ten 2-hour meetings for all teachers on various phases of improving the instructional program for the Abernathy Public Schools.

## Waco Man Is New C. of C. Manager Here

A. L. Robertson of Waco has been named manager of Abernathy Chamber of Commerce. Andy Reid, president, announced, Robertson met with Reid and the committee of Melvin Rape, Arno Struve and Joe Thompson last week. When he left to return to Waco, Robertson's acceptance of the post was more or less tentative, but he reported here Monday morning of this week to begin his duties. Mrs. Robertson will join her husband here at a later date. "We have to sell our home in Waco," Mr. Robertson said.

The committee had been searching for a manager since the resignation several months ago of Robert Barnes, who went to Dalhart as manager of the C. of C. there. At one time, the committee "gave up" and considered hiring a local person as part-time manager. Mr. Robertson learned of the managership opening here through the West Texas Chamber of Commerce. "There are 40 or more towns in Texas seeking Chamber of Commerce managers now," Robertson told the Review. Answering this reporter's question: "Why did you decide on Abernathy?" Mr. Robertson said "I like this land and the water here. I was through here just before cotton harvest started, and I saw the most beautiful fields of cotton."

A graduate of A & M University, Robertson has been in the livestock business, has served as a county agriculture agent and has been in soil conservation work. Robertson and his wife, Eva, have three children, all graduates of the University of Texas, and all are married. They are Mrs. James B. Yarbrough, Houston; Mrs. Carl Carpenter, Waco; and James W. Robertson, Dallas.

## On The McGilvray Farm

## Parallel Terracing

A new type of terracing that can revolutionize farming is currently being carried out in the Hale County Soil and Water Conservation District. Jimmy Lewis is head of the Soil Conservation Service in Plainview. Parallel terraces, built from the lower side, eliminate the upper channels, also eliminates the point rows and levels part of the land between the terraces. These terraces in conjunction with contour farming will allow irrigation to be carried on between the terraces with out the use of sprinkler irrigation system.

The Great Plains Conservation Program, which is administered by the Soil Conservation Service allows farmers to receive assistance up to 70% of the cost for building these parallel terraces. Mr. Hugh McGilvray is constructing approximately 6,000 feet of parallel terraces on his farm, which is located three miles north and nine miles west of Abernathy.

Mr. Vernon Pettit, the operator of the farm, stated that he plans to irrigate between the terraces. Mr. McGilvray has constructed a large reservoir for the collection of storm and tall water, also installed a waterway and diversion terrace on his farm. Since this is in the Great Plains Conservation Program, he has received cost share payment for

the terrace part of the work. The terraces are approximately 80 lister rows apart so they can be farmed either with 6 row or 4 row equipment.

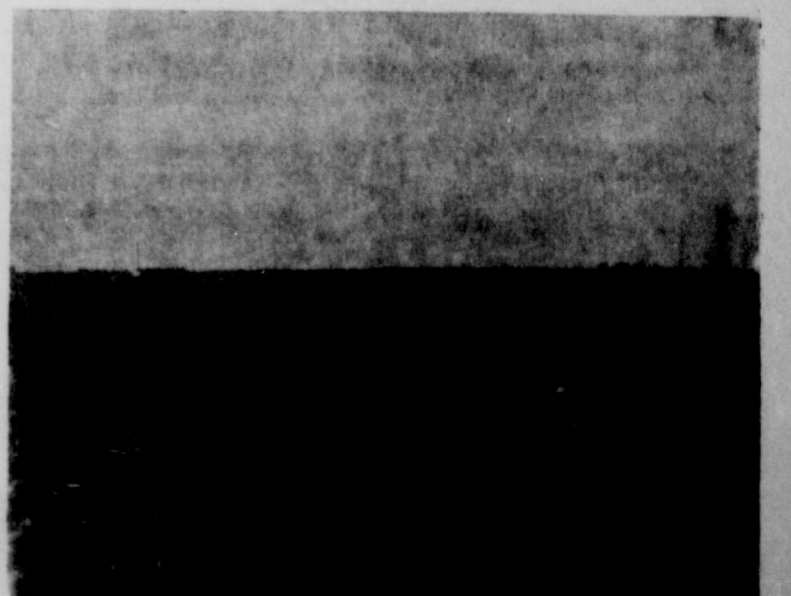

Mr. McGilvray is a Civil Engineer, recently retired after more than thirty years of service with the Division for Rivers and Harbors Improvement, U. S. Army Engineers, Texas Galveston District. He has worked on flood control projects on all the principal rivers in Texas and all harbor improvements from Brownsville to Port Arthur.

Mr. McGilvray became interested in and has made considerable research and study of agriculture and irrigation problems in the Abernathy Community since his ownership of the farm in 1953. The property was bought as school land from the State by D. R. McGilvray in 1907; considered black desert land, he gave ten dollars an acre, an exorbitant price at that time.

The area seeded between the terraces has been chiseled to a depth of 17 in. A demonstration by the equipment doing this work will be held Thursday of this week, January 13. Quoting from Mr. McGilvray: "Pig Pettit and I intend to make this a model farm with the latest and best irrigation improvements, ideal seedbeds, and to obtain the best possible production."

## PROGRESSIVE BUSINESS AND CIVIC-MINDED PEOPLE OF LUBBOCK AND VICINITY

This department has been worked up largely as a reflection of public opinion. No person has written of themselves or their business. All articles have been compiled by a representative of The Abernathy Weekly Review as he saw conditions. These people are all leaders in their various lines of endeavor and the cooperation of those citizens in Lubbock who helped make this department possible is sincerely appreciated.

### MAX SMITHEY

Recognized as one of the conscientious business men of Lubbock, Max Smithey, manager of the Abilene-Lubbock Sewing Company, performs a real service for the people of the Hub City, and his contributions to civic betterment are too well known to require repetition in these columns. His personal success has been achieved in a large measure, because he never misses an opportunity to further the service the company renders to the public. A policy which has, and continues to build up good will for the Abilene-Lubbock Sewing Company throughout this entire district.

Mr. Smithey is deserving of praise, and this brief tribute is but a just recognition for the many services which he has performed in the way of both business and civic activities. Also his reputation for the successful conduct of his business affairs is no greater than his reputation for the honest practices which characterize his every transaction.

We congratulate Max Smithey on his splendid record, and trust he shall continue to serve the people of Lubbock and our own community in the years ahead.

### Dennis R. Zimmerman

Dennis R. Zimmerman, manager of Air Control Products of Lubbock Incorporated, has won the universal respect and good will of the people of the South Plains for the progressive manner in which he has kept this reliable firm in the forefront of the business and industrial life of this entire district. Also for the efficient and friendly willingness he has displayed in accepting his share of responsibility in aiding civic projects.

Mr. Zimmerman is not the kind of man who makes himself conspicuous by the manner in which he conducts himself, either in business or other matters. Yet, his quiet reserve and air of confidence mark him as a man of sound judgment, whose opinions and advice are sought after and listened to with respect.

We compliment Dennis Zimmerman for the successful management of Air Control Products of Lubbock Incorporated, and also for his constructive advice and help on those civic affairs in which he has found time to interest himself. He is a man whom many are proud to call friend.

### George E. Lindsley

In editing this review of progressive Lubbock business men, it is fitting that we should include some of those who, by their aggressiveness, have definitely established themselves in the business and industrial life of this region.

Such a man is George E. Lindsley, District Sales Representative for the Crown Zellerbach Corporation, who also deserves an additional word of praise for being more than just successful. He is a consistent and enthusiastic booster of the community, and in his way has done much to advertise the city.

Mr. Lindsley has pursued the progressive policy of stepping up his business ahead of the times, thus setting a pace for which he has earned the reputation of being a go-getter, who does not sit back and wait for the business to come to him.

We are glad to pay tribute to George Lindsley and to point out to our readers that his sincere desire to be of service, coupled with his determined methods are largely responsible for the standing of the Crown Zellerbach Corporation throughout this area.

### A. A. SPARKMAN

Every progressive and successful business man in Lubbock contributes in some manner to the growth and progress of the city. And one who is always willing to do his part in both civic and business activities is A. A. Sparkman of the Texas Cream Donut Shop, who is well known, and has a great many friends and business associates throughout this entire region.

The prominent part that the Texas Cream Donut Shop is playing in the business life of Lubbock and vicinity, mirrors the dependability and honesty of such men as he. Moreover, Mr. Sparkman has also at all times been steadfast in his devotion to the city, and the surrounding country, and on many occasions has lent his support to the successful promotion of meritorious civic projects.

Lubbock and this district are fortunate to have such a man as A. A. Sparkman in a position of responsibility and service, and this newspaper feels that it merely reflects public opinion in paying this brief tribute to

one of the city's more dependable business men.

### JACK AND MARY ALDERSON

Jack and Mary Alderson of the All Purpose Ice Company, located at 3118 Slaton Highway, are two of those progressive type of citizens upon whom the community depends a great deal for leadership in business or other matters. They are also civic-minded and have in the past, and no doubt will continue in the future to give more of their time and energy for the welfare of others than themselves.

They are the kind of people who make friends, and friendships once formed by them are never broken by an unfriendly act on their part. They spare no efforts in order that the services, which may be obtained by calling SH 4-0569 shall be more dependable.

Mr. and Mrs. Alderson have never been known to inject themselves into a situation for the mere purpose of gaining publicity. However, they proceed in a calm and unostentatious manner, and accomplish their objectives with a quiet dignity.

We do not hesitate to recommend Mary and Jack Alderson to our readers as excellent examples of the more progressive type of business people who are aiding in the growth and development of Lubbock and the surrounding country.

### WILLIAM C. 'BUDDY' SCOTT

It isn't the size or volume of a man's business which determines its value to the community in which he lives. But rather by the manner in which it is conducted. Which, to a greater or lesser degree, reflects the personality and character of the individual. The value of William C. "Buddy" Scott's business to the Hub City is a reflection of his progressiveness, and a determination to render the utmost in service, a policy which has caused Buddy's Carpet Shampoo to be so well thought of, and so widely patronized by the people of Lubbock and the surrounding area.

That same dependability and honesty which has made him so successful in his own business has also fitted Mr. Scott to be of assistance on community projects and public drives. Moreover, he does so cheerfully, and with a friendly spirit of cooperation that is always more than welcome.

It is a pleasure to include "Buddy" Scott in this Lubbock review, and to wish him further success in his field of endeavor.

### M. G. UNDERWOOD

M. G. Underwood is one of the more successful barbecue specialists in West Texas who, by maintaining a constant standard of service and high quality foods has made Underwood's Bar-B-Q Cafeteria one of the more popular eating places throughout the South Plains. We are glad to give him credit for his well-earned success in a field which is so highly competitive.

It is also a pleasure to give him credit for taking part in community affairs, and lending his assistance to various activities and public projects. When to take part in such matters, he always does so without ostentation, but in a quiet manner which lends dignity to his cheerful acceptance of his share of the civic load. It is a pleasure to be associated in the promotion of community activities with such a man as Mr. Underwood.

This review of progressive and civic-minded people of Lubbock would not be complete were we to fail to include M. G. Underwood. His is the kind of success which deserves recognition, and we wish him many more years of the same.

### JACK MATHIS

Jack Mathis of Automatic Transmission Builders, and the Fourth Street Automotive Service, is one of those conscientious business men who has always done his bit to maintain the prestige of the Hub City as the leading business center for this section of West Texas. He has always worked for the development of the city, and his many services are worthy of sincere appreciation.

His well earned success as a business man is easily understood, knowing as the people do, his widespread reputation for the honesty which characterizes all of his business dealings. And it is a combination of technical knowledge, mechanical skill, and business ability which has elevated Mr. Mathis to a position of leadership in the automatic transmission re-

pair and maintenance business.

He is completely aware of his civic responsibilities, and is wide awake to the many opportunities for service, and is always ready and willing to lend his support to any project which promises to benefit the community as a whole.

We compliment Jack Mathis on his accomplishments, and wish for him continued success.

### MRS. BOBBY BURT

We wish in this edition to pay tribute to Mrs. Bobby Burt of Bobby's Motel Coffee Shop, for her many services to the city of Lubbock, and her splendid record of achievements in the business life of the city.

Mrs. Burt probably has as wide a circle of friends as any other person we could name, because she is just naturally the kind of individual who makes friends with almost everyone, and always conducts herself in such a manner as to deserve the respect and good will of all who know her. Lubbock is fortunate in being able to number among its more progressive business people, citizens of this type.

She is always ready and willing to lend her support to the promotion of any project which promises to benefit this entire district.

She may be depended upon, and her services to the people are too many in number to be described here. It may be sufficient to say that we consider Bobby Burt an asset to the community, and a progressive business woman of whom the Hub City may be proud.

### O. B. RILEY

O. B. Riley, who just a short time ago assumed the operation and management of Bill & Walter's Service Station at 4801 Avenue H; now known as Riley's Fina Service Station, quite readily demonstrated his unusual ability by his quickness to appreciate the obligations and responsibilities of his new endeavor, and to conduct his affairs accordingly.

Although he has been operating the business for a comparatively short time, he has already made many new friends and customers for his Fina Station.

Mr. Riley is an active energetic individual, whose sincere and friendly personality, and desire to be of service is rapidly earning a place for him in this district. He has always taken an interest in community activities, and in due course of time will assume his full share of civic responsibilities.

O. B. Riley deserves a word of praise for having so adequately established himself in his new venture, and we are glad to give him this brief mention.

### MARIE O. BENNETT

The true value of a citizen is not gauged by their personal success. But rather by the manner in which they share that success by their contributions to the community in which they are active.

And Marie O. Bennett of Bennett Employment Incorporated, national personal consultants in Midland and Odessa—representing the West Texas area to the United States through seven affiliated offices. The Lubbock operation was started in April 1965 to better serve the people of this district.

Aside from being Branch Manager of Kelly Girl Service Inc., in Odessa and Midland, she is President of National Training & Testing Incorporated, the only physiological testing firm of its kind in Texas.

Mrs. Bennett's thorough knowledge of the needs of the business and professional men of West Texas which her employment service has so adequately filled, has raised her to a position of leadership in her field of activities.

We compliment Marie Bennett on this Lubbock review, and wish to offer her this small evidence of public esteem.

### ROY C. WHITT

It is fitting in this review of conscientious Lubbock business men that we acquaint our readers with the man to be credited with having maintained the Arrowhead Yarn Mills Incorporated in the enviable position it holds in the business and industrial life of this region. That personality is Roy C. Whitt, whose genius for organization,

and for converting new ideas into actual deeds, has played a vital part in the distinctive reputation which this reliable firm now enjoys throughout this entire district.

Mr. Whitt has found time, in addition to his business interests, to give thought and energy to community projects. He is a citizen whose talents have been steadfastly devoted to the best interest of the city. He has been successful in his own business, and in the promotion of the general welfare of the community.

We are glad to pay this brief tribute to him, and to say that this district owes much to the many benefits which Roy Whitt and the Arrowhead Yarn Mills Incorporated have rendered to this section of the South Plains.

### BOB STONE

In bestowing credit upon some of the more progressive business men of Lubbock, who in one way or another, have contributed their bit to improve both business and civic conditions, has been very difficult to maintain. However, that he has done so is proved by the large volume of business which his Chevron service station continues to handle, much of which is due to his unceasing attention to detail, and his ability to cope with new and unexpected problems.

Bob Stone is also civic-minded and has, when asked, cheerfully cooperated on those civic activities to which he has been able to lend assistance. He more than deserves the respect and good will which he has earned, and his many friends and satisfied customers are confident that he will continue to maintain his usual integrity and high standards.

### ADOLPH HANSLIK

Adolph Hanslik of B F H Storage Incorporated, is one of those

Abernathy (Texas) Weekly Review Thursday, Jan. 13, 1966

men who have helped Lubbock grow, and who has at all times assisted in every manner possible to promote that growth. One of his principle objects in life has been to see the city take its proper place as a leader, and one of the more progressive cities in West Texas. He has helped whenever help was needed to attain that objective. The community has gone forward on the impetus of the activities of such men, and it continues to progress through their efforts.

This is but a small expression of gratitude to a citizen who has toiled for an ideal, and has gradually seen that ideal take shape. The many services performed for Lubbock by Mr. Hanslik are too well known to require repetition here. It is sufficient to say that we recognize in him a leader in both business and civic enterprise; and depend a great deal on him, as well as other men like him for future guidance.

### F. L. "STUMPY" GREER

One of the more progressive business men of Lubbock, and one who deserves the respect and good will of a great many residents of the city is capable, friendly, F. L. "Stumpy" Greer of the Greer Electric Company, whose wide knowledge and long experience in the electrical contracting business has raised him into a position of prominence in his vocation.

It is because of this that the Greer Electric Company has earned a reputation for reliability—second to none.

Mr. Greer is also civic-minded, and has always been ready to contribute his time and energy to any plan which promises to benefit this entire district. And the people of Lubbock may re-

gard with particular satisfaction the many services which he has performed in the interest of progress and civic betterment.

We urge our readers to look to "Stumpy" Greer as a dependable business man of whom we may well be proud. His devotion to the city has been constant, and his achievements well merited. We wish for him further success.

### MARK W. BURRIS

Mark W. Burris has proved his dependability by constantly adding to, and increasing the service which the Mark Burris Enco Service Station has extended to the people of this region. The large volume of business handled by his Enco station proves that "service" to him, is not "just a word", but something to be rendered to the motoring public to the fullest extent of his ability.

In addition to his close attention to his business affairs, Mr. Burris was never a man to dodge his civic responsibilities, and help in those matters has always been cheerfully given.

He fully appreciates the value of good will, and has more than his share of that intangible commodity because of the manner in which he meets all business and civic obligations. He is a credit to his community, and is thoroughly established in the forefront of the business life of the Hub City.

Mark Burris has a great many friends and satisfied customers throughout the district, and we are pleased to bring him before our readers in this review of conscientious Lubbock business men.

### GWENDA MERCK

To serve the public honestly, efficiently, and cheerfully, is the basic foundation many progressive men and women of Lub-

bock have found to be the shortest route to success. In making this statement, the personality we have in mind is Gwenda Merck, representing Beautiful Pleat Draperies in this region.

The popularity and patronage enjoyed by her many services accentuates the ideals of courtesy and efficiency which she has consistently applied in the management of the business, and in the servicing of its patrons.

The conduct of such business, and the people who operate them have done much to make Lubbock the business center for many miles around, and it is fitting that we give credit where credit is due to such women as Mrs. Merck for her part in the onward progress of the city. In doing so, we are merely putting into words the opinions of those who know her.

Gwenda Merck earned her success by the method in which she has served the public, and accepted both civic and business obligations, and we wish her success in the future.

### "Chris" Christensen And Newt Logan

"Chris" Christensen and Newt A. Logan of Chris' Rexall Drug Store, have well-earned reputations for dependability because they have consistently forged ahead in their business. Never letting up in their efforts to make the service they render to the people more valuable. This invariable policy has made Chris' Rexall Drug Store outstanding in its field, a fact that is well known to the public throughout this entire area.

But Mr. Christensen and Mr. Logan have accomplished much more than just making a success of their business and private affairs, and we take this opportunity to pay tribute to them for devoting what time they could spare to the general welfare, not only to the Hub City but the surrounding district as well.

It is such men as they, who are both successful in business, and appreciative of their civic obligations that are deserving of recognition. We take pleasure in publicly giving "Chris" Christensen and Newt Logan the credit for their accomplishments which their many friends and associates have so long accorded them.

### Tax Data Is Sought On Water Case

In a recent court case Marvin Shurbet of Petersburg was allowed a cost depletion on irrigation water pumped from the Ogallala underground formation. Since the Ogallala formation underlies virtually all the High Plains, the court ruling paves the way for other area farmers to claim cost depletion too.

The High Plains Underground Water District, which was instrumental in development of the Shurbet case, has supplied this example of how the depletion allowance will work:

A farmer paid \$300 an acre for irrigated land. Similar land without irrigation water was a selling for \$100 an acre, so \$200 per acre is the cost of the water. If he had 100 feet of water under his land at the time of purchase, then the cost of the water was \$2 per foot per acre. And if the water table declined three feet during the taxable year, his cost depletion allowance would be \$6 per acre (2 per foot cost times 3 feet of decline.)

To take advantage of the allowance, then, the landowner needs to determine three things. The thickness of the water-bearing sands under his farm at the time of purchase, the annual decline of the water table, and what he paid for the underground water.

For its 13 counties the water district is working on saturation thickness maps, water decline tables etc. for use by taxpayers in computing their depletion allowance. Officials of the district state that this information will be available to all interested parties early in March.

Farmers outside the water district, apparently, will have to rely on information from the Texas Water Development Board and the U. S. Geological Survey.

Tax accountants in the area have informed Plains Cotton Growers that farmers may file an estimated tax return (form 1040-ES) before January 15 and then file their final return after calculating depletion allowance. Or, if they prefer, they can file their return as usual and file an amended return later with a request for refund.

Tax men say it is probable that an amended return may be filed for the "open" years—1962, 1963 and 1964.
