HC Owls Are Given Rating In Dist. 3-AA

South Plains coaches at the Texas Coaches School in Houston last week rated the newcomer Hale Center Owls as pre-season favorites to win District 3-AA football honors this season.

Long-standing rivalry between the two schools has made the Antelope-Owls football game one of the hardest of the season for both teams in non-conference games. Now that Hale Center has moved up to double-A with the Antelopes, and in the same district, the AHS-HC game is expected to be the highlight of the season for both squads. It will be Homecoming game for the Owls.

School Tax Rate Held At \$1.90

The Abernathy School Board met in regular session August 1 in the Board Room of the High School. Members present were L. J. West, president; Billie Harrison, vice president; W. D. Sanders, secretary; Buford Conn; Joe Lovelace; Joe Oswalt; Bob Riley. Also present were Earl Carter, business manager and Delwin Webb, superintendent.

The school board set the price of school cafeteria lunches for 1966-67 at 40¢. The increase in price was due to a reduction in commodities that have been received and increases in prices in dairy products and other food items.

The board heard other reports on tax collections showing 98.73% taxes collected for 1965. Reports on civil rights, summer repairs on the buildings, and accepted resignations from John Seaman, chemistry and physics teacher, and Carolyn Cates, junior high Language Arts teacher.

GSPA REQUEST

Increase In Grain Acres Sought For 1967 Planting

The Grain Sorghum Producers Association has called on Secretary of Agriculture, Orville Freeman, to release at least 10 million acres of feed grains from the Government program for the production of corn and grain sorghum for the 1967 crop. The Association, through its Executive Vice President, Bill Nelson, made the appeal in Washington this week and presented the following reasons for the appeal:

- (1) Severe depletion of reserve stocks.
- (2) Prospects for a short feed grain harvest this fall because of reduced acres and deteriorating crop conditions.
- (3) Increased feed grain use at home and abroad.
- (4) And the need for re-building adequate stocks.

In reviewing the feed grain stocks situation, the Association executive pointed out that as of July 1, 1966, Commodity Credit Corporation inventory of corn was only 91 million bushels compared to 477 million just a year ago. In reference to grain sorghum, Nelson said that July stocks in all positions were 534 million bushels, down 19% from the 659 million bushels figure just a year ago. Of the current stocks of grain sorghum, CCC owns only 355 million bushels as compared to 560 million in July, 1965. Nelson said that on casual observation it may appear that since grain sorghum stocks are equal to almost one full year's production that stocks would be adequate but he indicated that many people are overlooking the fact that we have new disappearance and

use figures to look at. For instance, livestock feeding in the sorghum belt is up 45% over a year ago, while the increase is only 11% nationwide and in addition exports of grain sorghum during this marketing year ending September 30, are likely to be at least 10 million bushels larger than that of a year ago. He said that these facts coupled with the fact that since there is a shortage of wheat—and grain sorghum is the nearest grain in supply that can be substituted for wheat along with the fact that there is a shortage

of corn—and grain sorghum is the nearest substitute for corn, that it can be reasonably expected that in the months ahead there will be a "run" on grain sorghum stocks.

In consulting with USDA officials, GSPA indicated that the Association and individual farmers recognize the delicate balance between releasing an adequate amount of acres to obtain the desired production for use and reserve while maintaining a price structure that will maintain and strengthen income of grain producers.

GSPA President, Elbert Harp, at his farm near Abernathy indicated that this early appeal is being made to USDA in order that farmers may plan next year's cropping systems and so that commercial firms serving the feed grain industry may be prepared for any expansion that may be forthcoming, particularly if it is recognized that the seed industry will need to take the utmost care in preserving and distributing seed stocks, and the equipment and fertilizer industry alerted early to increased demands placed on these important segments of the grain producing industry as well as long range planning by country and terminal elevators.

Mrs. Billy Shipman announced that a fund has been started for the three young sons of Don Gartin and the late Gloria Gartin. Mrs. Gartin was fatally injured in a two-car collision July 28, north of Lubbock. Two of the Gartin boys, Wyndell, 5, and Monty, 6, were injured in the accident which claimed their mother's life. The other son is Gary Don.

Are there really any sound reasons for buying a Chevrolet in August?

During August, it's as easy to own a Bel Air 4-Door Sedan as getting in the car.

Wait till you see how sporty you look sitting in your Impala Super Sport.

In a word: Six

- Have you ever known the instant delight of selecting a new Impala Super Sport in the color you want, slipping into its Strato-bucket seats, and driving it home from the showroom the same day? Now's your chance. Your Chevrolet dealer has a big choice of models on hand with small August price tags.
- More than likely, your present car will never be worth as much in trade as it is right now. Money—another good reason to buy a Chevrolet this month.
- Read those articles about when to buy a new car and they'll tell you that August is one of the best months. And your Chevrolet dealer is ready to show you why . . . with buys that are better than ever.
- If you think winter's tough on an old car, believe us, so is summer. There's added strain on the engine because of vacation driving. Greater tire wear. The cooling system has to work extra hard. A new Chevrolet can save you a lot of trouble.
- You do a lot of driving for pleasure so why not ride on Chevrolet's Full Coil suspension. Let your feet feel that deep-twist Chevrolet carpeting. August is to enjoy.
- Make your summer driving safer driving by taking advantage of the eight standard safety features built into every new Chevrolet. If your present car doesn't have seat belts, back-up lights, outside rearview mirror, padded instrument panel, look into a new Chevrolet.

Last Thursday Jimmie Davis, Marvin Winniford and myself were discussing an appropriate gift to send Luel and Pat Nugent as a token of friendship from the City of Acuff. You know they just about have everything, however Marvin, the genius that he is has an invention. Its a cross between a wetback and an octopus. That's what you call an eleven arm cot-

ton picker. I'm sure this will be a boon to agricultural minded people and we certainly hope Luel and her handsome groom will get some good out of it, in forthcoming years. Here at Acuff we believe in being practical.

My meeting was interrupted by a call from Peace Corps Director, Rita Dunagan who summoned me to her office. I sensed something was out of kilter. I mentally went over how only a few short months ago Rita came to Acuff as merely a beauty operator, then after a few lunches together, which she paid for, I decided to take this sweet, nice, talented girl out of the anonymity of the hair drier, and under my direction, make her the pinnacle of success in politics. And as I stepped from my limousine after a quick drive from my office, I sensed this was the end. That is just something only

a politician knows. As I quickly made my way in through the maze of rooms leading to her office, I thought Woe be unto you Charlie Mullins, but it is your problem and you must take it like a man. I walked in and she said, Jimmie Dee Clark and I are going to get married. I had predicted this three days before. Jimmie Dee Clark was no stranger to me. He was former Director of The Central Intelligence Agency, until I had to fire him because he couldn't spell "intelligence." However, I, and from the City of Acuff do offer my congratulations, and sincere best wishes for a happy life. Incidentally the wedding will be broadcast over ABC TV. That's Acuff Broadcasting Co. live and direct sometime in September.

Cotton Center School To Open On August 29th

The official opening date of the 1966-67 school year at Cotton Center is scheduled for Monday, August 29, according to Supt. J. R. Nixon.

This year's faculty will include 22 teachers. An enrollment of around 365 is expected and that count probably will climb during the cotton harvesting season. Last year a peak enrollment of 421 was recorded but a heavy loss of Latin American families formerly living in the community is expected to result in a loss in enrollment this year.

No pre-enrollment schedule was required this year as most of the students completed pre-enrollment for the 1966-67 school term during the last school year.

School will open with a full-day schedule. Buses will pick-up and deliver students on regular schedule.
