ABERNATHY INVITATIONAL BASKETBALL TOURNAMENT, DEC. 8, 9, 10

(By Claudy Williams, Jr. School Correspondent)  
The annual Abernathy Invitational Basketball Tournament will begin Thursday, Dec. 8, with sixteen area teams participating.  
Post, the defending champion, will again be expected to take the limelight in the boys' bracket, while the Abernathy girls are favored to take their third consecutive championship in the girls' division.  
In the boys' category, Ralls is the team which stands the best chance of meeting Post in championship playoff. Croobyton and Petersburg will probably meet in the consolation match.  
The only probable outcome of the girls' bracket which can be foreseen is in the championship. The fight for other places in the bracket should be quite a contest.  
A complete listing of the brackets and the time of each match is elsewhere in this paper.

(By Claudy Williams, Jr. School Correspondent)  
Following is the AHS varsity Boys' and Girls' Basketball Teams' schedule for the remainder of the season. ### Girls Beat Petersburg

The AHS varsity girls' basketball team raced past the Petersburg High School girls' basketball team 64 to 38, and the Abernathy boys fell short of matching the performance made by the Petersburg boys as the Buffaloes downed the Abernathy boys 68 to 60. Both games were played in the AHS gymnasium on Tuesday night, November 29.

Mary Davis ran away with the scoring honors in the girls game with 31 points to her credit. Margaret Davis, Mary twin sister, was second with 21 points.  
In the boys' game, Tommy Hunley, another Abernathy ace, took the top scoring honor by netting 28 points.

### Revised Voting Requirements In Referendum

Producers of upland cotton who vote Dec. 5-9 to determine whether a research and promotion order should be issued for upland cotton have been allotted additional time in which to establish their production interest, the U.S. Department of Agriculture announced today.

Officials of USDA's Consumer and Marketing Service said a farmer with additional production in a county or State other than the county in which he is eligible to vote must establish that interest with his county ASCS office in order for that production to be considered. He now has until the expiration of the referendum, Dec. 9, to accomplish this. Before today's action he was required to establish his interest in other farms prior to the beginning of the referendum, Dec. 5.

This is not a requirement for voting, C & MS officials explained. However, if less

than two-thirds but more than half of the producers voting approve the order, it will be necessary to calculate the volume of production by voters to determine if that majority accounts for two-thirds of the cotton represented in the referendum. County ASCS offices will make this calculation on the basis of their records of 1966 planted acreage and projected lint yield per acre for each farm.

This order was proposed by the National Cotton Council. The legislation authorizing it was designed to enable cotton producers to engage in a comprehensive self-help program to strengthen cotton's competitive position and to maintain and expand domestic and foreign markets and uses for U.S. Cotton.
