Mike Dunn Close Second in Derby Race

Mike Dunn

A picture of the winning race is on page 2 in the Thompson Implement Co. ad, sponsors of Mike in the Soap Box Derby.

(By Claudy Williams, Jr.)

Mike Dunn, a young Abernathy lad whose favorite pastime is swimming, electrified a crowd in excess of 5,000 people Monday night, July 31st as his speedy white racer, smartly with David O'Brian's smartly-styled blue racer in the final heat of the 1967 Lubbock Soap Box Derby.

The two racers sped down the hill neck and neck until about the last fifty yards when O'Brian's car just seemed to inch ahead. O'Brian's time down the 1000-foot track located on U. S. Highway 87 was 33.3 seconds.

Mike, who raced in the first heat of the night and in the last heat of the night, established himself as one of the fastest cars in the race on his first trip down the hill. In the first round eliminations, he posted a 33.6-second timing. Wayne Davidson, brother of last year's champion, was the only boy in the 58-car field which was able to better Mike's time in the first round.

On his second trip down the track, Mike was in one of the closest races of the night. He and his opponent crossed the finish line so close together that the officials called the race a "dead heat"—a race which ends in a tie and must be rerun. Mike's time in the dead heat was again 33.6 seconds. On the rerun, Mike knocked off three-tenths of a second from his time and won the heat by a wide margin.

Mike raced four more times before the night was over, and

MIKE DUNN

Derby Finalist
(Continued from Page 1)

In each of those four heats, he recorded a blistering time of 33.3 seconds, the third fastest time of the night. The Davidson car and the champion's car were the only other cars in the race to post a faster time.

Abernathy's four other boys in the race also did well with not one Abernathy car being eliminated in the first round.

Lane Harrison, who finished in the quarterfinals—the top eight cars—for his third straight year, posted Abernathy's second best time of the night. Lane's fastest time of the five trips he made down the track was 34.0 seconds flat.

Teddy Oliver and Frank Reagan both tied with respect to their timings. Each won his first heat with a time of 34.4 seconds. Teddy was eliminated in the second round thus killing his chances to better his time. Frank and his competitor ran a dead heat in their second round with another time of 34.4 seconds. Frank was then defeated when the match was rerun.

Abernathy's remaining car, piloted by Dickie Overstreet in place of Wayne Wolf who could not make the races, drew a "bye" in the first round. A "bye" means that there are an uneven number of racers, and the boy drawing it must wait until the second round of eliminations to race. Therefore, Dickie had to face a car that had already won a heat, and although he did not win his heat, he gave the boy that did a very close finish.

The 1967 champion, although not from Abernathy himself, does have some very close ties to the Abernathy community. David's mother, Mrs. Dan O'Briant, is a former resident of Abernathy and is the daughter of Mr. and Mrs. Floyd Shipman.

BASEBALL
(Continued from Page 1)

Mike Cuevas got his third home run of the tournament. The rally ended after three runs came across with our Dwayne Wolf sent what looked like a perfect Texas leaguer to center field, but the center fielder made a dazzling, running shoestring catch that ended the game. Like I said it was a peculiar game but we know we were beaten fairly by a headsup ballteam and good coaching and we will be back next year more the wiser. By the way Floydada lost to Springlake in the finals.

This ends another baseball season and now all thoughts are trained on the coming football season. Watch the paper of a meeting of the Abernathy Baseball Association to come soon to make plans for next season and to plan improvements in the park this fall and winter. Support the athletic programs of your town and school.

Miss Greenhaw, Jack Collum Pledge Vows In Petersburg

Mrs. Jack Collum (Nancy Greenhaw)

Miss Nancy Beth Greenhaw, and Jack D. Collum of Lubbock exchanged double ring wedding vows in the First Baptist Church, Petersburg Saturday at 8 p.m. with the bride's great-uncle Rev. W. P. Brian, pastor of Seth Ward Baptist Church, Plainview and Rev. Russell Pogue, Petersburg, pastor, officiating.

The bride is the daughter of Mr. and Mrs. Ford Greenhaw, Petersburg and the bridegroom is the son of Mr. and Mrs. V. Collum of Pampa.

Given in marriage by her father the bride approached the altar down an aisle outlined in yellow candles entwined with greenery. The altar was flanked by baskets of yellow gladioli and featured a background of jade palms and yellow cathedral tapers.

Bridal Gown
For her wedding the bride chose a formal length semi-fitted sheath of white silk organza over reversed satin with a boat neckline. Appliques of Alencon lace embroidered with seed pearls, bugle beads and iridescent sequins enhanced the bodice and front of the gown. A detachable chapel length train of silk organza over satin fell from a corded yoke accented by appliques of Alencon lace and

was attached to the shoulder by tiny silk organza bows. Her veil of illusion was attached to a headpiece of lilies encrusted with seed pearls and iridescent sequins which was designed and made by the bride. The bride's mother and aunt designed, made and embroidered the gown. For something old, the bride wore a gold wedding band that belonged to her maternal grandmother. The bride's lace edged blue garter contained a gold nugget which was a gift to the bride from the groom's parents. She carried a bouquet of white roses, surrounding a white orchid atop a white Bible.

Attendants
Attending the bride as maid of honor was Miss Sammie Parr, Lorenzo, with the bride's sister-in-law, Mrs. Mabry Greenhaw as matron of honor. Bridesmaids were Mrs. Presley Shofner, Mrs. Collum, Lubbock and Mrs. Jim Reid of Monta Vista, Colo.

Honor attendants were Mrs. Eddie Collum, sister-in-law of the groom, Amarillo; Mrs. Bill Hatchett, cousin of bride, Lubbock; Mrs. Robert Edgmon, Lubbock; Mrs. Gary Sherrod, Lubbock; Mrs. Idalou; Miss Judy Jay, Idalou; Miss Donna Adrian, Miss Ethel Mabry, cousin of bride, and Miss La-

Barnett, Roy Matthews, Lon Carmickle, Frank Lovelace, Rudolph Struve, Rupert Allen, Lloyd Edwards and Morris Thomas; and Mrs. A. A. Sparkman and Mrs. Walter McNatt both of Lubbock.

Juana Becton all of Petersburg, Attendant's Attire

The attendants were attired in identical formal length sleeveless gowns of yellow moon glow bonded crepe, complemented with self fabric bows attached at the shoulder. They carried crescent bouquets of yellow gladioli. Their headpieces were yellow rose petals with a nose veil of yellow tulle. Honorary attendants wore identical street length dresses of avocado green linen and yellow moon glow bonded crepe bows on the shoulder. They wore wrist corsages of yellow mums and matching headpieces identical in style to attendants. Each honorary attendant was escorted to special seats at the front of the church by honorary groomsmen.

Groom's Attendants
Eddie Collum of Amarillo served his brother as best man with Robert Edgmon, Lubbock; Howard Collins, Fort Worth; and Robert Green of Pampa acting as groomsmen.

Ushers and honorary groomsmen were Brett Underwood, Petersburg, Paul Rosted, Lubbock, Morris Greenhaw, cousin of bride, Desdemona; Johnny Ellison, Petersburg; Mabry Greenhaw, brother of bride, Petersburg; Presley Shofner and Bill Hatchett, Lubbock, and Gary Sherrod, Idalou, cousins of the bride, and Mike Sloan, Petersburg.

Traditional wedding music was played by Mrs. Jim Ferguson of Waco with the bride's brother, Mabry Greenhaw, soloist.

Flower girls were Melissa Greenhaw, niece of bride, Petersburg and Missy Collum, niece of groom, Amarillo. Candles were lighted by Judy Jay, Idalou; and Donna Adrian, Petersburg. Ring bearers were Michael Greenhaw, nephew of bride, Petersburg, and Eddie Kim Collum, nephew of groom from Amarillo.

Reception
A reception was held in Fellowship Hall following the ceremony with Mmes. C. L. Parr, Elmo Brown, and J. B. Sherrod assisting.

The bride's table was covered with white net over white satin and centered with a white cupid holding an arrangement of yellow gladioli. Silver and crystal appointments were used.

The groom's table was covered with a yellow cloth, complemented by copper coffee appointments and centered with an arrangement of yellow mums.

After a wedding trip to Las Vegas, Nevada, the couple will be at home at 1910-67th St., Lubbock, Texas.

For travel the bride chose a royal blue two-piece wool knit suit with black accessories. The bride is a graduate of Idalou High School and is employed at the First State Bank, Abernathy. The groom is a graduate of Pampa High School, attended the University of Texas and is employed by the Texas Banking Department.

ALL-RISK CROP INSURANCE IS URGED FOR '68

Hale County wheat farmers can help eliminate the uncertainty for their 1968 crop that plagued them this year by participating in the low-cost government program of All-Risk insurance administered by the Federal Crop Insurance Corporation, (FCIC)

FCIC Field Representative L. H. Terrell from the district office at 1611 Avenue M., Room 105, Lubbock, Texas, 79401, is now in the county for a limited time explaining how the program operates.

He says that insured farmers in the state shared in an estimated \$310,000 in loss payments for the 1967 crop when drought, freeze and wind plus other natural causes damaged the wheat.

Federal Crop Insurance helps eliminate the uncertainties of weather or other natural hazards to the farmer by providing cash payments to farmers when yields fall below policy guarantees.

"This helps stabilize individual farming operations, provides for the return of dollars invested in the crop when failure occurs, enhances credit ratings and allows secured borrowing when needed," Terrell says.

Wheat producers may contact Mr. Terrell through his district office for full details on how the program can protect them.

Ever since the early 1900's, 4-H Clubs have made it possible for millions of boys and girls to learn useful skills and crafts.

News Briefs

Mr. and Mrs. Austin Hughes, and Mr. and Mrs. George Hughes, had as visitors last week Mrs. Lawrence Park, Glassboro, New Jersey; Mrs. Grady Carpenter, Arlington, Texas; (Mrs. Carpenter and Mrs. Park are the daughter of Mr. and Mrs. Austin Hughes.) and Mr. Jack Hughes, brother of Mrs. Austin Hughes, from Ft. Worth. Mrs. Park is meeting Mr. Park in Colorado to go on a vacation to Lake Louise in the Canadian Rockies and Long Beach, California, and back to Atlantic City for the Miss America Beauty Pageant, where Mr. Park is a photographer and Mrs. Park writes articles for the Idaho State Journal about the Pageant.

He said that infestation appeared serious in only a few fields but he warned that farmers with young grain sorghum should be especially watchful.

Farmers checking their fields for midge should look for a small, orange-colored, gnat-like fly on the heads of the plant.

McClung said that each female in her short life span of one to two days lays 30 to 100 small white eggs in the spikelets or seed husk. The maggots or larvae are orange-colored. The larvae is what causes the damage to the milo because it feeds on the internal content of the seed and causes the blasted grain.

000
UNDER NORMAL SUMMER conditions a complete life cycle may be completed in 14 to 16 days. The life cycle may be somewhat longer in cooler parts of the season. Research reports indicate as many as 13 overlapping generations of the midge have been observed.

The midge is capable of flying several miles to a field, and predicting damaging infestation of midge from one field to another cannot be done with exact accuracy.

Farmers wanting to use insecticide applications for midge control should plan to destroy the adult midge before egg laying begins. Timing of insecticide application is critical in obtaining effective control. Insecticide treatment should be made as soon as 90 per cent of the heads have emerged from the boot. Insecticides must be applied soon after head emerges because control depends entirely upon killing the adults before eggs are deposited. Insecticides presently approved for use on grain sorghum will not affect eggs or young larvae within the developing floret. Previous experience has shown that it is usually not profitable to apply chemical control measures to a grain sorghum field after the midge is found in the field.

Vigilance is urged on the part of every farmer.

IN HALE COUNTY

Sorghum Midge Becomes Threat

Threat of sorghum midge has complicated prospects for a bumper milo crop here this fall.

Presence of the hard-to- detect insects in lush fields of milo has resulted in some concern here over the threat; to this year's grain sorghum crop which is so badly needed to help many hard pressed farmers to cope with the crisis produced by last year's poor milo and cotton crop.

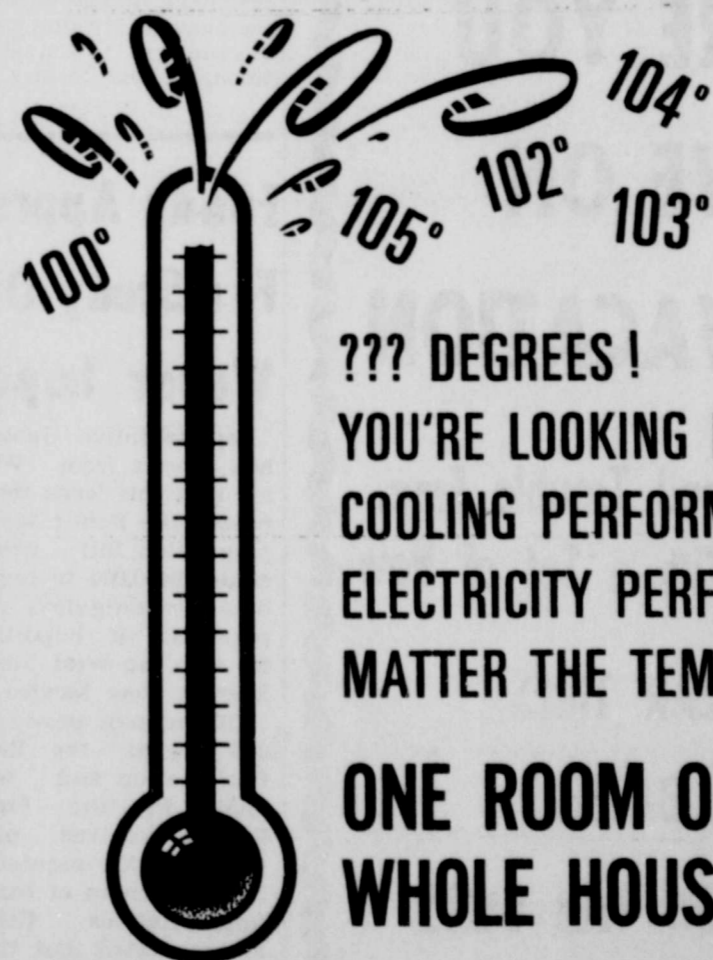

Warnings have been issued to local farmers to keep a sharp lookout for the midge which has an uncanny ability to cause serious damage before infestation is detected.

Still fresh on the minds of many local farmers is the costly experience of this area with midge several years ago. Many

fields of milo promising bumper yields were blasted by the invasion of the mysterious invaders. Before farmers realized what was happening, midge infestation had gained such a good start that milo growers didn't have a chance to cope with the threat.

Whether to take action or not to take action to apply insecticides is the big question that faces farmers. Usually it is too late for action after a field has been invaded.

Giving extra credit to Gerald's observations was a report by Associate County Agent Roy L. McClung Jr., following a general inspection of Hale County milo fields last week. He said that adult midge was found in every precinct of the county. However,

MIKE DUNN Derby Finalist

(Continued from Page 1)

In each of those four heats, he recorded a blistering time of 33.3 seconds, the third fastest time of the night. The Davidson car and the champion's car were the only other cars in the race to post a faster time.

Abernathy's four other boys in the race also did well with not one Abernathy car being eliminated in the first round. Lane Harrison, who finished in the quarterfinals—the top eight cars—for his third straight year, posted Abernathy's second best time of the night, Lane's fastest time of the five trips he made down the track was 34.0 seconds flat.

Teddy Oliver and Frank Reagan both tied with respect to their timings. Each won his first heat with a time of 34.4 seconds. Teddy was eliminated in the second round thus killing his chances to better his time. Frank and his competitor ran a deadheat in their second round with another time of 34.4 seconds. Frank was then defeated when the match was rerun.

Abernathy's remaining car, piloted by Dickie Overstreet in place of Wayne Wolf who could not make the races, drew a "bye" in the first round. A "bye" means that there are an uneven number of racers, and the boy drawing it must wait until the second round of eliminations to race. Therefore, Dickie had to face a car that had already won a heat, and although he did not win his heat, he gave the boy that did a very close finish.

The 1967 champion, although not from Abernathy himself, does have some very close ties to the Abernathy community. David's mother, Mrs. Dan O'Brian, is a former resident of Abernathy and is the daughter of Mr. and Mrs. Floyd Shipman.

Mr. and Mrs. Jerry Moorhead and children have returned from an extended vacation in California.

Captain and Mrs. Joe Ligon and children are visiting her parents, Mr. and Mrs. Bill Schreier. The Ligon's have been living in England where he was stationed with the U. S. Air Force. They are en route to Biloxi, Miss., where he will be stationed.

Mr. and Mrs. Wayne Preston and son are presently making preparations to move to Comanche very shortly. Preston, who served as member of the Abernathy Public School System for nearly twenty years, will be head basketball and assistant football coach at Comanche high school this fall.

Sadie Castleberry was a medical patient in Plainview Hospital last week.

BASEBALL

(Continued from Page 1)

Mike Cuevas got his third home run of the tournament. The rally ended after three runs came across with two out. Dwayne Wolf sent what looked like a perfect Texas leaguer to center field, but the center fielder made a dazzling, running shoestring catch that ended the game. Like I said it was a peculiar game but we know we were beaten fairly by a heads-up ballteam and good coaching and we will be back next year more the wiser. By the way Floydada lost to Springlake in the finals.

This ends another baseball season and now all thoughts are trained on the coming football season. Watch the paper of a meeting of the Abernathy Baseball Association to come soon to make plans for next season and to plan improvements in the park his fall and winter. Support the athletic programs of your town and school.

Dinner Honors Wedding Party

PETERSBURG (Special) Mr. and Mrs. V. Collum of Pampa honored their son, Jack D. Collum, Miss Nancy Beth Greenhaw, and members of their wedding party at a rehearsal dinner Friday night in Fellowship Hall of First Baptist Church. Mrs. Rae Groce, Mrs. Mable Scott and Mrs. Kendred Underwood were members of the house party, assisted by Mrs. Henry Rogers and Mrs. William Johnson.

Miss Nancy Beth Greenhaw, and Jack D. Collum of Lubbock exchanged double ring wedding vows in the First Baptist Church, Petersburg Saturday at 8 p.m. with the bride's great-uncle Rev. W. P. Brian, pastor of St. Paul Baptist Church, Plainview and Rev. Russell Pogue, Petersburg, pastor, officiating. The bride is the daughter of Mr. and Mrs. Ford Greenhaw, Petersburg and the bridegroom is the son of Mr. and Mrs. V. Collum of Pampa. Given in marriage by her father the bride approached the altar down an aisle outlined in yellow candles entwined with greenery. The altar was flanked by baskets of yellow gladioli and featured a background of jade palms and yellow cathedral tapers. Bridal Gown For her wedding the bride chose a formal length semi-fitted sheath of white silk organza over reversed satin with a boat neckline. Appliques of Alencon lace embroidered with seed pearls, bugle beads and iridescent sequins enhanced the bodice and front of the gown. A detachable chapel length train of silk organza over satin fell from a corded yoke accented by appliques of Alencon lace and was attached to the shoulder by tiny silk organza bows. Her veil of illusion was attached to a headpiece of lilies encrusted with seed pearls and iridescent sequins which was designed and made by the bride. The bride's mother and aunt designed, made and embroidered the gown. For something old, the bride wore a gold wedding band that belonged to her maternal grandmother. The bride's lace edged blue garter contained a gold nugget which was a gift to the bride from the groom's parents. She carried a bouquet of white roses, surrounding a white orchid atop a white Bible.

Attendants Attending the bride as maid of honor was Miss Sammie Parr, Lorenzo, with the bride's sister-in-law, Mrs. Mabry Greenhaw as matron of honor. Bridesmaids were Mrs. Presley Shofner, bride's cousin, Lubbock and Mrs. Jim Reid of Monta Vista, Colo. Honor attendants were Mrs. Eddie Collum, sister-in-law of the groom, Amarillo; Mrs. Bill Hatchett, cousin of bride, Lubbock; Mrs. Robert Edgmon, Lubbock; Mrs. Gary Sherrod, bride's cousin, Idalou; Miss Judy Jay, Idalou; Miss Donna Adrian, Miss Ethel Mabry, cousin of bride, and Miss La-

Groom's Attire Eddie Collum of Amarillo served his brother as best man with Robert Edgmon, Lubbock; Howard Collins, Fort Worth; and Robert Green of Pampa acting as groomsmen. Ushers and honorary groomsmen were Brett Underwood, Petersburg, Paul Roster, Lubbock, Morris Greenhaw, cousin of bride, Desdemona; Johnny Ellison, Petersburg; Mabry Greenhaw, brother of bride, Petersburg; Presley Shofner and Bill Hatchett, Lubbock, and Gary Sherrod, Idalou, cousins of the bride, and Mike Sloan, Petersburg. Traditional wedding music was played by Mrs. Jim Ferguson of Waco with the bride's brother, Mabry Greenhaw, soloist. Flower girls were Melissa Greenhaw, niece of bride, Petersburg and Missy Collum, niece of groom, Amarillo. Candles were lighted by Judy Jay, Idalou; and Donna Adrian, Petersburg. The groom's table was covered with a yellow cloth, complemented by copper coffee appointments and centered with an arrangement of yellow mums. After a wedding trip to Las Vegas, Nevada, the couple will be at home at 1910-57th St., Lubbock, Texas. For travel the bride chose a royal blue two-piece wool knit suit with black accessories. IN HALE COUNTY

Sorghum Midge Becomes Threat

The threat of sorghum midge has complicated prospects for a bumper milo crop here this fall. Presence of the hard-to-detect insects in lush fields of milo has resulted in some concern here over the threat; to this year's grain sorghum crop which is so badly needed to help many hard pressed farmers to cope with the crisis produced by last year's poor milo and cotton crop. Warnings have been issued to local farmers to keep a sharp lookout for the midge which has an uncanny ability to cause serious damage before infestation is detected. Still fresh on the minds of many local farmers is the costly experience of this area with midge several years ago. Many fields of milo promising bumper yields were blasted by the invasion of the mysterious invaders. Before farmers realized what was happening, midge infestation had gained such a good start that milo growers didn't have a chance to cope with the threat. Whether to take action or not to take action to apply insecticides is the big question that faces farmers. Usually it is too late for action after a field has been invaded. Giving extra credit to Gerald's observations was a report by Associate County Agent Roy L. McClung Jr., following a general inspection of Hale County milo fields last week. He said that adult midge was found in every precinct of the county. However, he said that infestation appeared serious in only a few fields but he warned that farmers with young grain sorghum should be especially watchful. Farmers checking their fields for midge should look for a small, orange-colored, gnat-like fly on the heads of the plant. McClung said that each female in her short life span of one to two days lays 30 to 100 small white eggs in the spikelets or seed husk. The magots or larvae are orange-colored. The larvae is what causes the damage to the milo because it feeds on the internal content of the grain and causes the blasted seed.

News Briefs

Mr. and Mrs. Austin Hughes, and Mr. and Mrs. George Hughes, had as visitors last week Mrs. Lawrence Park, Glassboro, New Jersey; Mrs. Grady Carpenter, Arlington, Texas; (Mrs. Carpenter and Mrs. Park are the daughter of Mr. and Mrs. Austin Hughes,) and Mr. Jack Keys, brother of Mrs. Austin Hughes, from Ft. Worth. Mrs. Park is meeting Mr. Park in Colorado to go on a vacation to Lake Louise in the Canadian Rockies and Long Beach, California, and back to Atlantic City for the Miss America Beauty Pageant, where Mr. Park is a photographer and Mrs. Park writes articles for the Idaho State Journal about the Pageant.

he said that infestation appeared serious in only a few fields but he warned that farmers with young grain sorghum should be especially watchful. Farmers checking their fields for midge should look for a small, orange-colored, gnat-like fly on the heads of the plant. McClung said that each female in her short life span of one to two days lays 30 to 100 small white eggs in the spikelets or seed husk. The magots or larvae are orange-colored. The larvae is what causes the damage to the milo because it feeds on the internal content of the grain and causes the blasted seed.

UNDER NOON conditions a complete life cycle may be completed in 14 to 16 days. The life cycle may be somewhat longer in cooler parts of the season. Research reports indicate as many as 13 overlapping generations of the midge have been observed. The midge is capable of flying several miles to a field, and predicting damaging infestation of midge from one field to another cannot be done with exact accuracy. Farmers wanting to use insecticide applications for midge control should plan to destroy the adult midge before egg laying begins. Timing of insecticide application is critical in obtaining effective control. Insecticide treatment should be made as soon as 90 per cent of the heads have emerged from the boot. Insecticides must be applied soon after head emerges because control depends entirely upon killing the adults before eggs are deposited. Insecticides presently approved for use on grain sorghum will not affect eggs or young larvae within the developing floret. Previous experience has shown that it is usually not profitable to apply chemical control measures to a grain sorghum field after the midge is found in the field. Vigilance is urged on the part of every farmer.

ALL-RISK CROP INSURANCE IS URGED FOR '68

Hale County wheat farmers help eliminate the uncertainty for their 1968 crop that plagued them this year by participating in the low-cost government program of All-Risk Insurance administered by the Federal Crop Insurance Corporation. (FCIC) FCIC Field Representative L. H. Terrell from the district office at 1611 Avenue M., Room 105, Lubbock, Texas, 79401, is now in the county for a limited time explaining how the program operates. He says that insured farmers in the state shared in an estimated \$110,000 in loss payments for the 1967 crop when drought, freeze and wind plus other natural causes damaged the wheat. Federal Crop Insurance helps eliminate the uncertainties of weather or other natural hazards to the crop by providing cash payments to farmers when yields fall below policy guarantees. "This helps stabilize individual farming operations, provide for the return of dollars invested in the crop when failure occurs, enhances credit ratings and allows secured borrowing when needed," Terrell says. Wheat producers may contact Mr. Terrell through his district office for full details on how the program can protect them. Ever since the early 1900's, 4-H Clubs have made it possible for millions of boys and girls to learn useful skills and crafts.

Funds Approved For Study Of Water Import

Representative George Mahon reports from Washington that this week the House passed the Public Works Appropriation Bill which includes \$400,000 to continue a broad investigation of the possibility of importing water into the West Texas and Eastern New Mexico area.

Of the sum provided, \$200,000 goes to the Bureau of Reclamation and was included in the President's budget and was placed in the bill upon request of Mahon, Chairman of the House Appropriations Committee. Mahon stated that the additional funds would be made available to the Corps of Engineers in order to achieve proper coordination between the two agencies.

The preliminary study of water import possibilities for the area was launched last year. The amount provided in the current bill will continue this study and will broaden it to include both the Bureau of Reclamation and the Army Corps of Engineers.

Mahon pointed out that the importation of water into the West Texas and Eastern New Mexico area was an extremely long range proposition and will require the coordinated efforts of many interests. He was confident, however, that proper steps were being taken at this time to move the project forward
