PLANS ARE MADE FOR TEACHERS? BANQUET HERE

The Board of Education met in regular session Monday, March 3, 1969 in the board room of the high school. Members present were L.J. West, president; Billie Harrison, vice president; W. D. Sanders, secretary; and Joe Lovelace, J. H. Myatt, Joe Oswalt, and Bob Riley. Also present vere Earl Carter, business manager and Delwin Webb, superintendent of schools.

Routine reports were given on tax collections showing 97.66% taxes collected for the current fiscal year; an i'emized budget progress report for the first six months of the fiscal year; an enrollment report that indicated that the school population has been constant for the year and the school enrollment at the present is 1118; a nurse's report indicated that 140 students received measles immunizations and immunizations for DPT, polio, and smallpox were given to 46 children who missed the first immunization

An oral report was given on the AASA meeting in Atlantic City attended by Superintendent Webb and Principal Curtis Davenport.

Plans were made for a teacher appreciation banquet March 21 in the school cafeteria. Other reports included sale of two used busses, possible acquisition of a surplus building from Reese Air Force Base, and reports on two special projects that have been submitted by the local schools to the Office of Education on dropouts and bi-lingual stud-

Textbooks were adopted for the beginning of the 1969-70 school year. Also discussed was the economic index for Hale and Lubbock counties and the preliminary local fund assignment for 1969-70. The next meeting of the Board of Education was set for April 14 in the board room of the high school.

UPCHURCH NAMED BY LEGION FOR BOYS STATE

One high school boy will represent Abernathy at the 1969 session of Texas American Legion Boys State, Commander Harold Bowen of Barton-Hood Post No. 500 of The American Legion here announced.

Named to participate in this annual American Legion workshop in the organization and operation of state and local governments is Johnny Lee Up-church, son of Mr. and Mrs. H. B. Upchurch, 907 Ave. G.

Abernathy The 1969 Texas American Legion Boys State will be in session from June 7 to June 14. 1969, at the University of Texas, Austin, Commander Bowen said.

Departments (state and territorial organizations) of the American Legion will sponsor 51 of these Boys States this summer. Two outstanding youths from each of The American Legion Boys States will go to American Legion Boys Nation in July in Washington, D. C. where they will study federal government organization and operation in much the same manner as the Boys State delegates participate in train-

ing in state government.

During their Boys State sessions, the Abernathy Youth will participate in the organization of political parties, campaigns, elections, and the enactment and enforcement of their own laws within a mythical state.

As one of the Legion's outstanding youth-training programs, Boys State affords these youngsters an opportunity to learn the functions of government," Commander Bowen said. "Also, they will see the importance of the role of a good citizen has in discharging his citizenship responsibilities. They soon discover how good government depends upon the active interest of every citizen

Smooth-worn tires are exceedingly dangerous, and no motorist should take undue chances by using them--endangering his life and that of others who may be in his path when skidding takes place.

By actual experience motorists know they can save at least 50 percent on tires expense by having good smooth-worn tires re-capped, restoring then to new life and use, and making them safe on streets and highways. By actual test, it has been proven in the past 40 years that recapped tires will give the same service as some new ones. There are various types of recapping service, but the wise motorists have this work done where it can be handled with proper equipment and skilled workmanship. This type of service is provided by McWhorter in Lubbock where, by reason of their honest, high class work, they are witnessing a steady growth in business. Their many years of service speaks for itself. McWhorter's can save you money on new tires or recapping service on car, truck or tractor tires.

This is one of the best-known sheet metal works in this section of the state, and will give you estimates on any job, large or small. They are recognized as one of the most expert sheet metal works in the community. When it comes to installation of heating equipment, air condition units, you cannot do better than to place the matter in their competent hands. They know by experience how this work should be done scientifical ly, just where the furnaces and air condition units should be placed to secure regular and perfect heat in all kinds of weather. They have filled many contracts over this entire area, in the way of public buildings, residences, and in fact, all kinds of buildings that have been a great aid to the advancement and modernization of the community. Plans, inspections, and price quotations are given cheerfully to all those who desire them. Their prices are standard and compare favorably with all others anywhere. We wish to compliment this valued establishment upon the quality of its equipment and workmanship. They have always been progressive and have taken an active interest in the development of this part of the state.

Wayne Proposes **Agri-Chemical** Advisory Group

AUSTIN - A new state advisory committee with the job of studying pesticides and defolants is in the offing.

A measure that would create the committee, to advise the Commissioner of Agriculture, by Rep. Ralph Wayne of Plainview, is awaiting action by the House Governmental Affairs and Efficiency Committee.

The measure would create a nine-member committee made up of applicators, manufacturers, farmers, ranchers and one representative of the public health interests of the state.

Each member of the committee would be appointed to a sixyear term.

The committee would be empowered to make recommendations to the Commissioner of Agriculture on methods of controlling pesticides and the licensing of applicators.

The measure includes a section that would require the applicators to keep a 12 month 'log" of their jobs. It would include the date of application, the crop treated, what chemical was used and any other information required by the com-

The measure would exempt any farmer or rancher who applies the chemicals to his own land from coming under the guidance of the committee. It also takes into account an exemption for "swap out" work.

This would be when one rancher agrees to spray other farms in trade for other services on his land.
